do 3 1/2s, due 1916.	do do
do 4s, due 1923.	do do
do 4s, due 1926.	Providence, City Treasury.
Highway, due 1924.	N. Y., Nat. City Bank, and Prov.

**TOTAL DEBT, SINKING FUNDS, ETC.**—The subjoined statement shows the total municipal debt of Providence, the sinking fund held by the city against the same, the water debt, and the city's floating debt on the dates given.

	Mar. 1, 1897.	July 1, 1896.	Oct. 1, 1895.
Bonded debt (incl. water debt)	\$13,996,000	\$13,996,000	\$13,296,000
Floating debt	2,818,828	2,435,692	2,461,384
Total debt	\$16,814,828	\$16,431,692	\$15,757,384
Sinking funds, etc.	3,530,079	3,205,769	2,832,881
Net debt	\$13,283,849	\$13,225,923	\$12,924,503
Water debt (included above).	\$7,165,000	\$7,060,000	\$6,985,691

The debt of the city of Providence, less the sinking fund and water debt, is 3.51 per cent of the assessed valuation of the city.

The notes representing the floating debt on March 1, 1897, were all held by the Commissioners of the Sinking Funds and were issued for and are chargeable to the following accounts:

Filling cove basin	\$52,000
Sewerage	300,000
Roger Williams Park improvement loan	275,000
Roger Williams Park land	215,000
Water-works construction	165,000
Special highway loan	650,000
New central police station	150,000
School houses and lots	487,000
Davis Park improvement loan	40,000
State House site	190,000
Blackstone Park improvement loan	25,000
Blackstone Park land	19,000
Refunding portion of City Hall and sewer loan	91,000
Placing electric wires underground	29,988
Red bridge (new)	60,500
Eddy Street estate	69,340

Total.....\$2,818,828

**SINKING FUNDS.**—By city ordinance all sinking fund income is required to be invested in the city's bonds or notes, in State of Rhode Island bonds, or in United States bonds. The city's bonds to be canceled to prevent re-issue.

The loans, for the redemption of which sinking funds are held by the commissioners, and the amounts of the sinking funds March 1, 1897, are shown by the following table:

City hall and sewer loan, due in 1899	\$557,213 14
Public improvement loan, due in 1899	372,169 84
Public improvement loan, due in 1900	112,189 95
Water loans, due in 1900	963,457 19
Water loan, due in 1906	233,149 07
Water loan, due in 1916	91,540 34
Water loan, due in 1923	57,008 28
Water loan, due in 1926	29,576 72
Davis estate loan, due in 1909	21,326 52
School loan, due in 1911	94,475 47
School loan, due in 1925	55,090 09
Sewer loan, due in 1921	100,081 41
Sewer loan, due in 1922	105,947 93
Sewer loan, due in 1923	75,185 31
Sewer loan, due in 1925	151,227 84
Sewer loan, due in 1926	79,274 62
Park loan, due in 1922	106,374 88
Highway loan, due in 1924	227,680 11

Total sinking funds March 1, 1897.....\$3,530,978 71

**WATER WORKS.**—The water works construction account to Oct. 1, 1896, amounted to \$6,630,743 53. In year 1895-96 income from water rents, etc., was \$511,788 90; cost of maintenance \$80,575 08; interest on water loans, \$342,195 31; surplus over maintenance and interest, \$89,018 51.

**ASSESSED VALUATION.**—The valuation and tax rate have been as follows, real estate being assessed at "about two-thirds cash value":

Years.	Real	Personal	Total	Tax per \$1,000.	Amount of Tax.
1896	\$133,296,200	\$10,936,300	\$174,232,500	\$16.50	\$2,874,836 25
1895	129,438,060	40,346,500	169,784,560	16.00	2,716,552 96
1894	126,463,800	40,800,400	167,264,200	16.00	2,676,227 20
1890	104,684,440	35,932,620	140,617,060	15.00	2,109,255 90
1880	88,012,100	27,908,900	115,921,000	13.50	1,564,933 50
1870	52,511,800	40,565,100	93,076,900	13.50	1,256,538 15
1860	37,089,800	21,042,000	58,131,800	5.60	325,538 80

The tax rate in 1896 of \$16.50 included State tax of \$1.80 and city tax proper of \$14.70.

**POPULATION.**—The population for 1897 is estimated at 154,000. In 1890 it was 132,043; in 1880 it was 104,856; in 1870 it was 68,904.

**Fitchburg, Mass.**—Henry F. Rockwell, Mayor. The following statement has been corrected to December 1, 1896, by means of a special report to the CHRONICLE from George E. Clifford, Treasurer.

This city is in Worcester County.

## NEW LOANS.

\$3,000,000

### STATE OF NEW YORK

#### 3% Canal Improvement Bonds.

COMPTROLLER'S OFFICE  
 BUREAU OF CANAL AFFAIRS,  
 ALBANY, March 27th, 1897.

Pursuant to the provisions of Chapter 79 of Laws of 1895, proposals will be received at this office until Tuesday, the 20th day of April, 1897, at 12 o'clock noon of that day for a loan of

#### THREE MILLION DOLLARS

for which transferable certificates of stock, registered or coupon bonds, at the option of the proposer

#### Principal and Interest Payable in Gold

will be issued in the name of the People of the State of New York, on the credit of the Sinking Fund established by said act, bearing interest at the rate of three per centum per annum, payable semi-annually on the first days of January and July, and the principal reimbursable on the first day of January, 1912.

These bonds are exempt from taxation pursuant to Chapter 8, Laws of 1897.

Proposals may be for the whole or any part of the loan not less than \$1,000, and should state whether registered or coupon bonds are desired, and such proposals must be accompanied by a certified check for one per cent of the amount of the proposal.

Payments for the loan will be required to be made on the acceptance of the proposal by deposit in the Bank of the Manhattan Co. in the City of New York to the credit of "Treasurer of the State of New York, on account of Canal Fund" of the amount of the award, together with premium and accrued interest from January 1, 1897.

The Comptroller reserves the right to reject all bids which are not in his opinion advantageous to the interests of the State.

Interest on the loan from the first day of January 1897, will be payable at the Bank of the Manhattan Co., in the City of New York.

All proposals must be sealed and endorsed "Loan for Canal Improvements," and directed to the Comptroller of the State of New York, Albany, N. Y.

JAMES A. ROBERTS,  
 Comptroller.

## NEW LOANS.

\$588,000

### City of Louisville, Ky.,

 LOUISVILLE, KY., March 19th, 1897.

For sale, \$588,000 of City of Louisville, Ky., 4% Refunding Gold Bonds, dated April 1st, 1897, due and payable April 1st, 1937. Said bonds are of the denomination of \$1,000 each, bearing interest at the rate of 4% per annum, payable semi-annually in gold on the first days of October and April of each year; principal and interest payable at The National Bank of the Republic, New York. These bonds are issued by virtue of an ordinance of the City of Louisville, Kentucky, approved December 12th, 1896, under authority of an act of the General Assembly of the Commonwealth of Kentucky, for the government of cities of the first class, in the State of Kentucky, approved February 21st, 1894, being Section 3910 of the Kentucky Statutes.

Sealed proposals will be received until 12 o'clock M., April 1st, 1897, at the office of the Commissioners of the Sinking Fund, Louisville, Ky., for the purchase in whole or in part of the aforesaid bonds. No bid will be received for less than \$5,000.

Proposals must be sealed and addressed to the "Commissioners of the Sinking Fund of the City of Louisville," City Hall, Louisville, Ky., and marked "Proposals for Bonds."

The Commissioners reserve the right to reject any or all bids, or to accept any bid made for any part of the total number of bonds proposed to be purchased by any bidder.

No proposal will be considered unless accompanied by a certified check for one (1) per cent of the face value of the whole number of bonds proposed to be purchased by the bidder. Checks will be returned to the unsuccessful bidders.

The bonds will be ready for delivery in this city April 1st, 1897.

WM. F. MAYER,

President Commissioners of the Sinking Fund of the City of Louisville.

## NEW LOANS.

\$45,000

### VILLAGE OF

#### ARVERNE-BY-THE-SEA

(IN GREATER NEW YORK.)

#### 5% VILLAGE BONDS.

The following described bonds will be offered for sale to the highest responsible bidder at public auction at three o'clock in the afternoon of Saturday, the third day of April next, in the office of the Village Clerk, at the Northeast corner of Gaston Avenue and the Boulevard, in the Village of Arverne-by-the-Sea, Town of Hempstead, County of Queens, N. Y.

Forty Thousand Dollars of Highway Improvement Bonds, to be dated 1st May, 1897, and to mature as to Five Thousand Dollars thereof on the first day of May in each year from 1920 to 1927, inclusive.

Five Thousand Dollars of bonds for dredging the Amstel Canal, to be dated 1st May, 1897, and to mature as to One Thousand Dollars thereof, on the 1st day of May in each year from 1915 to 1919, inclusive.

Principal and interest will be payable in United States gold coin of the present standard of weight and fineness.

These bonds will be issued pursuant to vote of the taxpayers, and will bear interest at five per cent per annum, payable semi-annually on the first days of May and November of each year.

The bonds will be for One Thousand Dollars each, in usual form, coupon or registered, as the purchaser may elect, and will be delivered at the National Shoe & Leather Bank, 271 Broadway, N. Y., at twelve o'clock noon, on the 1st day of May, 1897, when the balance of the purchase price must be paid.

The bidders whose proposals shall be accepted will be required to deposit with the Trustees at the time of the sale ten per cent of the purchase price of said bond or bonds, for which receipt will be given. If the bonds be sold in one lot a deposit of One Thousand Dollars will suffice, and should the bidder or bidders fail to take and pay for the bonds at the time and place specified for the delivery of the same, said deposits will be retained by the Trustees as liquidated damages for such failures.

The right to offer these bonds in one or more lots, to withdraw the bonds from sale, and to reject any bid or bids if the same for any reason be unsatisfactory, is expressly reserved.

By order of the Board of Trustees of the Village of Arverne-by-the-Sea, N. Y.

ARVERNE-BY-THE-SEA, 16th March, 1897.  
 JOHN R. WATERS, President,  
 A. E. KAREISEN, Clerk.

the leading gold-mining region in the U. S., with nearly 300 paying mines, producing \$1,000,000 per month; population of town, 30,000; of district, 40,000, is yet in its infancy. The big profits come from developing mining claims and advance in values. I offer undeveloped claim, near shipping mines, \$10,000; can let and bond at \$30,000. Five-sixths of stock in company owning 19 acres choice location, \$20,000; can bond at \$70,000. \$1,500 buys lease, now working heart of district, with bond for claim at \$10,000. Half interest in claim \$1500; \$600 procures patent and gets one-third interest in another; both fair locations.

Partly developed mine, shipping and paying, has produced \$30,000; price \$150,000.

With this issue of the CHRONICLE we send out our usual monthly number of the QUOTATION SUPPLEMENT. The SUPPLEMENT contains, besides a complete record of the past month's transactions on the New York and Boston Stock Exchanges, twenty-seven pages of general quotations, comprising all classes of securities—railroad stocks and bonds, municipal securities, bank stocks, gas stocks, insurance stocks, street railways, etc., etc.

### THE FINANCIAL SITUATION.

The matters of chief interest in business circles during the week have been the progress of tariff legislation, the derangements incident to the recent Supreme Court decision in the Trans-Missouri freight case, and the material decline in the values of the coal properties. With reference to the tariff, the more important incidents were the amendment of the bill by the addition of a section for the purpose of making the duties retroactive, the passage of the measure with that addition in the House on Wednesday, and the receipt of the bill in the Senate the following day, where it was at once referred to the Committee on Finance. We have written an article which will be found on subsequent pages indicating some of the legal aspects of the retroactive section. In addition to the defects there remarked upon, all the provisions for collecting the extra duties are notably crude, and it remains to be seen whether in their present shape they can be executed. They call for large daily work on the part of Custom House officials in the way of taking samples &c., so as to enforce a lien on the imports after they have passed into consumption, and a special system will have to be devised for that purpose. Obviously the Secretary cannot wait until the tariff itself has become a law, and so authorizes the arrangement, for then of course the power to collect the samples and the need for them are gone. Dispatches from Washington yesterday afternoon stated that Secretary Gage was giving the matter careful consideration.

With reference to the railroad situation as affected by the decision above referred to, it is satisfactory to note that there appears to be a much more settled feeling than existed a week ago. The Western Freight Association, instead of being entirely disbanded, as at first seemed inevitable, has been continued as a bureau of statistics and information, and it is understood that other similar organizations will also be kept together in some useful work. There were reports on Monday that the Missouri Pacific had cut rates, and that it was the opening of a vigorous rate war. The existence of any such disposition or tendency was denied the next day; furthermore, it was stated that there had been no cutting of rates; and it is claimed, and so far as known it is true, that all the roads throughout the country are maintaining the rates in force prior to the decision.

As to the future of the Joint Traffic Association it has been determined, under the advice of counsel, to continue in jurisdiction pending the decision of the Supreme Court on the appeal from the decision of the United States Court of Appeals. At a consultation held on Tuesday of the leading railroad lawyers of the country the general opinion was expressed that this organization, having so many points of difference from any previous organization, was likely to be upheld by the Court notwithstanding its recent decision

in the Trans-Missouri case. The Government has appealed the Joint Traffic Association suit, and on Thursday Solicitor-General Conrad entered a motion to advance that proceeding on account of its great public importance, so that the argument may be heard this month, the Solicitor suggesting the 23d instant as the date for the hearing. Mr. Carter appeared for the Joint Traffic Association and announced his concurrence in the motion to advance; thereupon the Court stated through the Chief Justice that the motion would be taken under advisement. It should be noted as a further fact in the situation that on Tuesday Senator Foraker introduced a bill to amend the Inter-State Commerce Act so as to permit pooling by the railways. In the event that the decision of the Court in the Joint Traffic case is against the railroads, this bill no doubt will be pushed; if the movement succeeds and the needful legislation is obtained, the railroad position would be permanently and satisfactorily adjusted.

There has been a further severe break in Central of New Jersey stock this week and at the same time all the other anthracite coal properties have also been weak. As far as new developments are concerned, the only feature has been the announcement of a reduction of 15 cents a ton in the price of coal at Philadelphia, and as to this it is to be said that some reduction is usual in the spring. It is noteworthy that this weakness on the Stock Exchange occurs at a time when the returns of earnings have begun to show indications of improvement. We published last week the February statement of the Jersey Central, and it indicated an increase of \$27,390 in gross and of \$37,277 in net. We also published the return for February of the New York Susquehanna & Western, showing a trifling decrease in gross (\$367) but \$3,725 increase in net. This week we have the February return of the Lehigh Valley, and it also is of a favorable character; on the railroad company there is an increase of \$125,356 in gross and of \$155,222 in net, and on the Lehigh Valley Coal Company an increase of \$45,960 in gross and of \$67,928 in net. The New York Ontario & Western for the same month reports \$25,329 increase in gross and \$23,308 increase in net. The Erie, which also is a large carrier of anthracite, reports \$26,735 increase in gross and \$15,637 in net.

The Pennsylvania Railroad reports are also becoming quite favorable. For February the loss in gross on the Eastern lines is only \$159,899 and on the Western lines \$183,899, which are both small amounts considering the size of the system and bearing in mind that the month this year contained one day less than last year, February 1896 having had twenty-nine days. In the net the company reports \$170,300 increase on the Eastern lines and \$20,500 increase on the Western lines. Last year there was an increase of \$226,400 in gross, with a decrease of \$20,500 in net, on the Eastern lines, and an increase of \$112,000 in gross with a decrease of \$42,200 in net on the Western lines. Below we compare the earnings on the Eastern lines for a series of years past.

LINE EAST OF PITTSBURGH.	1897.	1896.	1895.	1894.	1893.	1892.
February.						
Gross earnings.	7,147,734	4,616,684	4,410,454	4,402,820	5,127,038	6,207,197

Some other roads, too, have submitted very favorable statements of earnings for February, though the returns are by no means uniformly good. Thus the Burlington & Quincy has added \$201,046 to its gross earnings and \$308,509 to its net earnings. The St. Paul lost \$185,940 in gross but gains \$45,830 in net. The Wabash fell \$63,411 behind in gross but added \$15,875 to its net. The Canadian Pacific suffered \$53,162 decrease in gross while gaining \$51,091 in net. The Atchison lost \$16,051 in gross and \$127,873 in net; the Central of Georgia \$45,037 in gross and \$6,084 in net; the Denver & Rio Grande \$78,531 in gross, \$29,769 in net, and the Louisville & Nashville \$48,742 in gross and \$49,881 in net. The following furnishes a four-year comparison for a number of companies that have submitted statements this week.

† Net earnings for 1895 and 1894 given before deducting taxes.

Returns of bank clearings likewise afford evidence of a more active state of trade. We have prepared this week our statement for the month of March, and it records a small increase both with and without New York—1.7 per cent in the former case and 0.1 per cent in the latter. This is the first time any monthly statement has shown an increase since last April, though it is proper to say that March contained only four Sundays in 1897 while in 1896 it had five.

## MONTHLY CLEARINGS

Month.	Clearings, Total All			Clearings, Total New York.		
	1897.	1896.	P. Ct.	1897.	1896.	P. Ct.
January ..	\$ 4,507,014,723	\$ 4,627,143,291	-2.6	\$ 1,917,467,391	\$ 2,064,722,533	-7.1
February ..	3,601,175,797	4,115,498,189	-10.8	1,616,345,618	1,742,476,558	-5.5
March ..	4,217,424,458	4,145,161,199	+1.7	1,840,313,909	1,824,901,536	+1
1st quar.	12,415,614,978	12,847,772,448	-3.7	5,394,126,918	5,634,110,627	-3.3

In the West, where rains, floods and bad weather have retarded business, the returns show a falling off. Thus for the Middle Western group the decrease is 5.2 per cent, for the Far Western group 7.1 per cent and for the Pacific group 2.6 per cent. In the East, on the other hand, there is 2.1 per cent increase for the Middle group, including New York, and 11.8 per cent increase for the New England group. It also happens that there is a small increase in the Southern group—2.2 per cent. Here is a four-year comparison of the clearings at the leading cities.

As concerns speculation on the Stock Exchange, the share sales were a little larger this year than in the same month of last year, as will appear by the following.

## SALES OF STOCKS AT THE NEW YORK STOCK EXCHANGE.

Month.	1897.			1896.		
	Number of Shares	Values.		Number of Shares	Values.	
		Par.	Actual.		Par.	Actual.

Money on call, representing bankers' balances, has loaned this week at 1½ and at 2 per cent, with the bulk of the business at the first-named rate, moderate amounts at 1¾ per cent and only small lots at 2 per cent, averaging a fraction less than 1½ per cent. Banks continue to quote 2 per cent as the minimum over the counter, while those trust companies who loan accept the current Stock Exchange rate. Very little business is done in time loans. The offerings are liberal and quotations are 2 per cent for thirty days, 2½ per cent for sixty to ninety days, 3 per cent for four and 3½ per cent for five to seven months on good mixed Stock Exchange collateral. The market for commercial paper is dull. Banks are buying some choice names when they can get them at 4 per cent and the bulk of the business is done at this figure. The supply is fair without any signs of pressure, and quotations are 3½ per cent for sixty to ninety-day endorsed bills receivable. 3¼@4 per cent, with the dealings chiefly at the last-named rate, for first-class and 4@5 per cent for good four to six months' single names.

The European political tension has been less severe this week, though the situation on Wednesday seemed to foreshadow an almost immediate outbreak of hostilities on the Grecian frontier. The efforts of the powers to restore order in Crete have been wholly unavailing, the insurgents attacking the Turkish troops and the Mussulmen who are concentrated near the sea-coast cities, and even the shelling of the insurgent positions by the fleets of the Powers failed to protect the Turks from attack. It was announced in the English Parliament on Thursday that the Government was doing everything possible to accelerate the withdrawal of the Turks from Crete. The Bank of England minimum rate of discount remains

unchanged at 3 per cent. The cable reports discounts of sixty to ninety-day bank bills in London 1½ per cent. The open market rate at Paris is 2 per cent and at Berlin and Frankfurt it is 3 per cent. According to our special cable from London the Bank of England lost £763,280 bullion during the week and held £39,342,455 at the close of the week. Our correspondent further advises us that the loss was due to the shipments to the interior of Great Britain of £964,000 *net* and to imports of £261,000, of which £211,000 were from Australia and £50,000 from Egypt.

The foreign exchange market has been almost stagnant this week, and without change either in the range for posted rates or in those for actual business until Thursday, when the latter were notably lower for sight sterling and cable transfers for the first time since March 23d, but long sterling was unchanged. The offerings of commercial bills are confined to a few against provisions, as was the case last week, and those for future delivery are held at figures as high as those for bankers' bills, though some will not be delivered until September. Consequently sixty-day sterling is firm. Maturing bills are almost daily offered in moderate amounts and they are promptly absorbed. The ease on Thursday was mainly due to the absence of demand and lower discounts in London, and not to any pressure of bills. The arbitrage business has not had much influence upon the market either way. There was, as noted, no change in the range for posted rates during the week, these being 4 86½ for sixty day and 4 88@4 88½ for sight; but on Thursday Brown Bros. & Co. and on Friday the Bank of British North America reduced the sight rate half a cent to 4 88. Rates for actual business were unchanged and the tone of the market was quoted dull and steady until Thursday, when there was a reduction of one-quarter of a cent in short sterling and in cable transfers, to 4 87@4 87½ for the former and 4 87½@4 87½ for the latter, and these were easy, while long sterling remained unaltered and steady. There were no changes yesterday. The following shows the daily posted rates for exchange by some of the leading drawers.

The market closed steady on Friday at 4 86½ for sixty day and 4 88@4 88½ for sight. Rates for actual business were 4 85½@4 86 for long, 4 87@4 87½ for short and 4 87½@4 87½ for cable transfers. Prime commercial bills were 4 85@4 85½ and documentary 4 84½@4 84½.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending April 2, 1897.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	\$4,573,680	\$3,744,000	Gain, \$829,680
Gold.....	588,000	311,000	Gain, 277,000
Total gold and legal tenders....	\$5,161,680	\$4,055,000	Gain, \$1,106,680

With the Sub-Treasury operations the result is as follows.

Week Ending April 2, 1897.	Total Bills.	Out of H. H. H.	Net Change in H. H. H.
Banks' interior movement, as above	\$5,161,680	\$4,055,000	Gain, 1,106,680
Sub-Treasury operations.....	9,200,000	14,600,000	Loss, 5,400,000
Total gold and legal tenders.....	\$14,361,680	\$18,655,000	Loss, \$4,293,320

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	April 1, 1897.			April 2, 1896.

### RETROACTIVE CUSTOMS LEGISLATION.

Discussion with reference to the legality of a retroactive Customs law has taken a wide range without reaching any definite results. The tendency of opinion at the moment seems to be that Congress has the right to pass such a law. We have heretofore assumed in our references to the matter that the power did not exist in Congress to perfect tariff legislation in that way, and we still think this conclusion is correct. On Wednesday last the House of Representatives attempted to make the Dingley bill retroactive by adding a provision "that all articles mentioned in the several schedules of this Act which shall be imported into the United States between the first day of April 1897 and the date of passage of this Act and which were not purchased and directed by the owner to be shipped for import into the United States by any citizen thereof prior to April 1 1897, shall bear the same duties to be charged upon similar articles in this Act". As this retroactive proposal has thus taken a definite form, it seems desirable to state some of the difficulties, as we interpret the situation, which stand in the way of such an attempt. Of course we can cite no decision settling the point at issue for the obvious reason that Congress has never passed a retroactive Customs law. The question of power has consequently never been before the courts in such a way as to afford the opportunity for an authoritative determination.

A general principle which no one will controvert is that retroactive statutes are looked upon by the courts with extreme disfavor. This is so far true that unless the intent is expressed so clearly as to be placed beyond doubt the act will not be construed to operate retrospectively even when it is not obnoxious to any Constitutional provision. Some of the decisions have carried this idea to the extent of declaring that a statute should not receive such construction even when it contains features which tend to fix the date of its operation earlier than the date of its passage. Thus for instance the Wilson tariff bill of 1890 named August 1 as the date when the Customs duties it established should be operative in precisely the same manner as the Dingley bill originally fixed May 1. The Wilson bill did not become a law until August 28 and the courts held it was not retroactive; that the duties were not chargeable until the date when the legislation was completed. We shall refer to that de-

<sup>6</sup>The whole of the section of which the words quoted are a part of the opening sentence will be found to-day at the end of our editorial matter.

cision again in this article. It is cited here only to show how critical the courts are in construing a retroactive statute. If the Dingley measure should not become a law before August 1, and if it had still retained all its other features, including the clause indicating May 1 as the day the new duties would be operative, there are provisions in the law which would negative the idea that it was to go into effect at any time other than the date of its receiving the President's signature. The Court in construing the whole act would find in it several provisions inconsistent with the idea of the new tariff becoming a going concern on the first of May or at any other date than when signed by the President, and that inconsistency would be construed as putting the intent as originally expressed so far in doubt as to control the construction of the law. This is the result to which the decisions bring us; they show in brief this at least, that it would be a highly difficult undertaking to frame a retroactive Customs law which would be operative.

The House of Representatives has by its amendment sought to overcome these preliminary objections. First it states clearly the legislators' purpose and intent to enforce the duties in certain cases from April 1, as shown above. Consequently if the Dingley bill is passed by the Senate with the provision referred to as it now stands, the question will be sharply raised and must be considered by the courts on its merits, whether a tariff bill can be made retroactive. Another feature of the amendment is also quite significant. It will be noticed that the Ways and Means Committee have made an exception in their retroactive clause which may be as wide as the interval they have tried to bridge. At first sight it looks as if all imports after April 1 must pay the duties. That is not at all the reading of the amendment. If any goods have been bought by a citizen of the United States for shipment and directed by him prior to April 1 to be shipped, they are not subject to the duties no matter when they get here if it be prior to the date the bill becomes a law. The amendment does not even say that the goods, to come within the exception, must be delivered as well as bought; if they are simply purchased and prior to April 1 their shipment be directed by the owner, they are not liable under the higher rates of the Dingley bill. In other words, it would seem that the Ways and Means Committee have sought through this feature in the form of the amendment to be able to urge before the court in any litigation arising under it that no ordinary trade was interfered with by the retroactive clause; merchants it will be urged had notice the morning of March 31 through the daily press of the amendment to be passed and consequently had time to complete any negotiations begun. In this way, we repeat, the apparent aim is to relieve the Government's case (1) of the usual preliminary objection that the intent is not clearly expressed, and (2) so far as possible to relieve it also of the disfavor with which, as stated, retroactive laws are always received.

But there are certain provisions of the Federal Constitution which would seem to stand in the way of any retrospective tariff legislation. The most conclusive is the section forbidding Congress to pass any *ex post facto* laws. We are quite aware that this provision is not intended "to secure the citizen in his private rights of either property or contracts." But it forbids the passage of a law which creates a crime out of an innocent act theretofore done or aggravates a crime previ-

ously committed or increases the punishment of one. Yet this would be the effect of the Dingley tariff if, when passed, it became active from the date mentioned, April 1. Take the case of wool, which is free now under the law of 1894. A merchant is not a smuggler however he brings that raw material in, and commits no crime if he does undervalue it. After the Dingley law was signed by the President the same merchant might discover that he was a smuggler, or liable to a fine, or perhaps to have his goods confiscated. The situation of importers would be much the same with reference to other articles all through the tariff measure; there would be forfeitures, fines and penalties attaching under the Customs Administration Acts, if not under the tariff law itself, attendant upon the importations of goods during the interim while the tariff law was being enacted, which only became crimes after the law was perfected. In other words, acts which are in no respect criminal, but authorized and innocent under the 1894 law, would be turned into crimes under the 1897 law. That would be an *ex post facto* law, a class of legislation both Congress and States are distinctly forbidden by the Federal Constitution to pass.

It seems, too, as if an argument of decided force against such legislation may be constructed upon the idea which underlies the Constitutional provision forbidding laws impairing the obligations of contracts. This provision by its terms relates only to legislation by States; but there would seem to be no reason why the same principle does not exist as one of the fundamentals of every commercial nation, nor why it should not be applied to our General Government so far at least as its own contracts are concerned. According to the eternal bill of rights a contract binds the parties to it; "a grant in its own nature amounts to the extinguishment of the right of the grantor." The United States Government is not free to act as it pleases in this matter; it has entered into and placed itself under a contract with the importer of goods extending and granting until a new tariff has been enacted certain privileges and rights to importers of merchandise, and so far has extinguished its right over those goods. The situation may be illustrated by the case of wool which may be put in warehouse after April 1 at any time before the new law is signed by the President. When that wool is imported it goes into warehouse under a provision of the law that it might stay there and be withdrawn by payment of duties in force *at the time of withdrawal*. The only duties in force or that can be in force until the new law has been enacted would be the law of 1894. Yet we are told that Congress can come in and say to the importer, we are going to break that contract; if you exercise your right and take those goods out under the law as it stands on the day of withdrawal our intention and expectation is to repudiate that agreement and to get another law into operation a few months hence under which we will make you pay just as much as if the new law existed to-day. Is it necessary to more than state that proposition to prove its folly?

It may be claimed that this idea could not be applied to withdrawals of imports which should go into warehouse after the distinct declaration has been made a part of the new bill that the duties were to be retroactive but before the measure had become a law. We are not able to see any difference in the legal status between the early bonded goods and those later bonded. The same principles would seem to pertain to all mer-

merchandise warehoused and withdrawn before the new tariff legislation was completed. Both descriptions of transactions would alike have attached to them the provision of the 1894 act which reads "that any merchandise deposited in bond in any public or private bonded warehouse may be withdrawn for consumption within three years from the date of original importation on the payment of the duties and charges to which it may be subject *by law at the time of such withdrawal*." The foregoing could not be more explicit; the contract entered into by the Government with the importer is without ambiguity and as plain as words could state it. It stipulates that the importer can make withdrawals of his merchandise at any time by "payment of the duties to which it may be subject *by law*" (not by a retroactive clause in a tariff which is not the law then and may never be) "*at the time of such withdrawals*". That statute stands in full force until it is repealed, and we repeat that until it is repealed goods can be withdrawn by payment of the duties to which they are "subject by law at the time of such withdrawal".

The foregoing are only a few of the objections which may be urged against this amendment to the Tariff Bill. But we must omit further mention of these that we may notice the authority cited in support of retroactive duties by the Ways and Means Committee, according to a Washington telegram. The authority mentioned was the decision under the Wilson Tariff Law. As stated early in this article, the 1894 tariff named August 1 as the day on which the duties prescribed in the Act should go into effect, whereas the measure did not become a law until August 28th. The question arose at once, which was the date when the new rates became operative. Issue was joined in a case entitled the United States vs. Burr et al. which was tried first before the Circuit Court and subsequently was carried to the United States Supreme Court, where Chief Justice Fuller delivered the opinion of the Court. The decision on each occasion was against the retroactive feature, the Court holding that August 28 and not August 1 was the date when the duties became operative. That is to say, we are referred as a precedent for the present action to a case directly opposed to that action. Furthermore, it so happens that the litigation cited involved a decrease of Customs duties, whereas the present movement involves an increase of duty; in other words, the Government gave the importer something on that occasion, that is gave him relief from taxation; whereas now it takes something from him, that is, it adds to the tax on his merchandise. How unusual, we might say how significant it is to have an advocate cite as the only authority in support of a principle, a case which both in its facts and in the conclusion reached was directly opposed to that principle.

There is then evidently nothing at all to be gained by the retroactive advocate in referring to that litigation. We have several times seen the case cited as if it were useful in that way, but have never known a word to be quoted from it which was claimed to favor that contention except by a casual correspondent in one of the New York daily papers three weeks ago. That correspondent ignored entirely the opinion in the higher Court of Chief Justice Fuller, but quoted the following sentence from Judge Wheeler's remarks at the Circuit Court in announcing his decision—"that no question exists or is really made but that this whole

subject is within the law-making power". Having quoted those words, and having assumed (1) that the sentence was not mere dictum but was necessary to the decision of the case, (2) that it was a conclusion of law by the Court and not a simple statement of the fact that no such question had been made or raised in the case, and therefore that it was a question not needful for him to discuss, and (3) that the words "this whole subject" meant the subject of retroactive legislation—having assumed these false premises the writer goes on to make this totally unwarranted and irrelevant conclusion: "I cannot see how any inference can be drawn from this case except that if the intention had been expressed in unambiguous terms to put a retroactive statute into operation the Court must have sustained its validity."

We fear to weary the reader or we would go over, step by step, Judge Fuller's opinion. The case was decided against retroactive legislation simply on the preliminary question of legislative intent, so that the issue of Constitutionality or any other issue which touched the essence of the law was not raised or decided. But there are a good many suggestive sentences in Judge Fuller's opinion which, if read between the lines, would develop into strong arguments against the general principle of retroactive tariff laws. Why any one should have ever thought of quoting the Wilson tariff case, the United States vs. Burr et al., in favor of the retroactive idea we are at a loss to understand.

#### *SPIRIT OF THE LAW AND INTENT OF THE LEGISLATOR DISREGARDED.*

The more the decision of the United States Supreme Court in the case of the Trans-Missouri Freight Association is studied and examined, the more surprising does it appear. No one who reads Justice White's dissenting opinion (concurring in by three of the other Justices) can fail to be convinced that both the arguments and the facts seem to be very largely on the side of the minority. It is very hard to reconcile the views expressed in this instance with the uniform rule of judicial interpretation in the past. On the one hand the Court has given a much wider scope to the Trust Act of 1890 than the law-maker evidently intended it should have, and on the other hand it has given an entirely new meaning and significance to certain well-known words used in the Act. Under the circumstances we think that the legal representatives of the members of the Joint Traffic Association acted with good judgment at their meeting this week when they advised the managers of the Association to continue the work of that body until the Supreme Court shall have had an opportunity to pass upon its legality—the case (now before the Court on appeal) to be hastened so as to secure an early decision.

Mr. Aldace F. Walker, in an interview in the "Evening Post" on Monday, brought out in a clear way some of the remarkable features of the decision. Mr. Walker, as is well known, is at present Chairman of the Board of Directors of the Atchison Company, and has been a member of the Inter-State Commerce Commission, Chairman of the Western Traffic Association and Chairman of the Joint Traffic Association, besides being an experienced lawyer. He also possesses the power of logical statement in a high degree, and his analysis of the bearing and consequences of the decision and its revolutionary tendency and effects is very able and forcible. Mr. Thomas Thacher, the well-

known lawyer, in a letter published in the "New York Sun" on Thursday also brought out some interesting facts bearing on the interpretation to be put on the 1890 law, derived from a study of the debates in Congress during the passage of the measure. When in connection with all this we have the strong and convincing argument of the minority, comprising four of the nine members of the Court, it would seem that broad though the language of the decision is, there is justification for the hope that on fuller arguments (or in the case of a traffic agreement like the Joint Traffic Association, differing somewhat from the Trans-Missouri Association), the Court may perhaps be induced to modify its ruling or give it a more restricted application than it is now construed to have.

The Court decided, it will be remembered, that it was the intention of Congress to include carriers engaged in inter-State commerce within the scope of the Trust Act. But study of the legislative history of the measure shows that a deliberate attempt was made to insert a clause in the Act specifically including the carrying interest, and that the effort met with defeat. The facts are given both in Mr. Walker's remarks and in the minority opinion of Justice White. The bill in its present form was favorably reported by the Judiciary Committee of the Senate and passed that body. In the House Mr. Bland offered an amendment, which was accepted, making railways subject to the Act. The Senate, however, would agree to the amendment only on condition that the contracts for transportation to be prohibited "should only be such as raise the rates of transportation above what is just and reasonable". The House preferring the language of the Bland amendment, a conference committee of the two houses was appointed, which recommended the adoption of the modifications proposed by the Senate, its report stating that the only object of the original bill was the control of trusts and that the Bland amendment, by including the subject of transportation, extended the scope of the measure. The House still insisting on its own measure, a second conference committee was appointed. This committee reported in favor of dropping the whole matter in controversy, and its recommendation was adopted, so that the bill became a law in the form in which it was originally introduced. As Mr. Walker well says, these facts show that "Congress deliberately and understandingly abandoned the idea of bringing the subject of transportation under the control of the Act".

Justice White, in his dissenting opinion, brings out a further important point. The Inter-State Commerce Law was passed in 1887 and it was intended to regulate inter-State commerce transported by railway carriers. All its provisions directly and expressly related to that subject. The Trust Act of 1890, on the other hand, is a general law, not referring specifically to carriers of inter-State commerce. The rule is that a general statute will not be held to repeal a special statute unless there be a clear implication unavoidably resulting from the general law that it was the intention that the provisions of the general law should cover the subject matter previously expressly and specifically provided for by particular legislation. Does therefore the implication irresistibly arise, asks Justice White, that Congress intended in the Act of 1890 to abrogate in whole or in part, the provisions of the Act of 1887, regulating inter-State commerce? "It seems to me that the nature of the two enactments clearly demonstrates that there was no such intention. The Act to

regulate Inter-State Commerce expressed the purpose of Congress to deal with a complex and particular subject, which from its very nature required special legislation. That Act was the initiation of a policy by Congress looking to the development and working out of a harmonious system to regulate the highly important subject of inter-State transportation".

The fact that there was and could have been no intention to repeal by the Act of 1890 the earlier Act to regulate inter-State commerce is additionally evidenced, says Justice White, by the circumstance that no reference is made in the later Act to the prior one, and that no language is contained in the Act of 1890 which could in any way be construed as abrogating any of the rights conferred or powers called into existence by the Inter-State Commerce Act. Nowhere contemporaneous with the Act of 1890 is there anything indicating that anyone supposed that the provisions of that Act were intended to repeal the Inter-State Commerce Act. The understanding of Congress in this respect is shown by the circumstance that the Inter-State Commerce Act has been amended in material particulars and treated as existing since the adoption of the Act of 1890, and this conception of the legislative department of the Government has also been that entertained by the executive and judicial departments, evidenced by the appointment of new members of the Commission and by decisions of the courts enforcing various provisions of that Act and treating it as still subsisting in its entirety. It is the opinion of Justice White, too, that examination of the Inter-State Commerce Act bears out the conclusion that contracts like that embodied in the Trans-Missouri Freight Association are either directly sanctioned or impliedly authorized thereby.

Not only, however, does the majority opinion of the Supreme Court undertake to bring the railroad carrying interest within the purview of the 1890 law, but Justice Peckham also gives a new meaning to the words "restraint of trade". At the common law these words have always meant *unreasonable* restraint of trade. The Supreme Court itself has decided that the true test whether a contract be in restraint of trade is not whether in a measure it produces such effect but whether under all the circumstances it is reasonable. That this has been the accepted definition is not denied by Justice Peckham, but he argues that the words of the 1890 statute read "*every contract*", &c., in restraint of trade, and hence the statute must be accepted as ruling out all contracts, whether reasonable or not. The answer to this, however, is that the title of the Act clearly shows what was meant. The title is "An Act to protect trade and commerce against *unlawful* restraints and monopolies". The word *unlawful* clearly distinguishes between contracts in restraint of trade which are lawful and those which are not—in other words, between those which are *unreasonably* in restraint of trade, and consequently invalid, and those which are reasonable and hence lawful. "When, therefore, in the very title of the Act the well settled distinction between lawful and unlawful contracts is broadly marked, how can an interpretation be correct which holds that all contracts, whether lawful or not, are included in its provisions? \* \* \* It is, I submit, not to be doubted that the interpretation of the words 'every contract in restraint of trade' so as to embrace within its purview every contract, however reasonable, would certainly work an enormous injustice and operate to the undue restraint of

the liberties of the citizen. But there is no canon of interpretation which requires that the letter be followed, when by so doing an unreasonable result is accomplished. On the contrary, the rule is the other way, and exacts that the spirit which vivifies, and not the letter which killeth, is the proper guide by which to correctly interpret a statute."

But if there were any doubt as to the definition which should be given to the words, it would be removed by the facts brought out in the letter mentioned above of Mr. Thomas Thacher to the "Sun." Mr. Thacher's purpose in writing was to point a moral respecting present legislative methods and to urge that Congress should not leave the meaning of an act obscure and rely upon the courts to decide what the legislator intended. His quotations, however, from the speeches of members of Congress at the time of the discussions of the measure are valuable evidence going to prove that Congress supposed the Courts would follow the same rule of interpretation as in the past, whatever that might be. In the final debate in the House, Mr. Culberson, of the Judiciary Committee, according to Mr. Thacher, remarked: "Now just what contracts, what combinations in the form of trusts, or what conspiracies will be in restraint of the trade or commerce mentioned in the bill will not be known until the courts have construed and interpreted this provision". In the Senate on April 8, 1890, Senator Kenna having asked whether the word "monopolize" would apply in the case of one who, by skill and energy, had practically secured the whole trade in short-horn cattle in this country, Senator Edmunds is reported to have said: "It is not intended by the Committee and the bill does not do it. Anybody who knows the meaning of the word monopoly as the courts apply it, would not apply it to such person at all, and I am sure my friend must understand that". Senator Hoar remarked that he had put the same question in committee, and then said: "But I was answered, and I think all the other members of the committee agreed in the answer, that 'monopoly' is a technical term known in the common law. \* \* I became satisfied that they were right and that the word has a clear and legal signification."

Here is another quotation from the remarks of Senator Hoar, given by Mr. Thacher: "We have affirmed the *old doctrine of the common law* in regard to all inter-State and international commercial transactions, and have clothed the United States courts with authority to enforce that doctrine by injunction. We have put in also a grave penalty". And here is what Senator Edmunds said: "We \* \* \* thought that if we were really in earnest in wishing to strike at these evils broadly in the first instance as a new line of legislation, we would frame a bill that should be clearly within our Constitutional power; that we should make its definitions *out of terms that were well known to the law already*, and would leave it to the courts in the first instance to say how far they could carry it from its definitions as applicable to each particular case as it might arise". And here is what Senator Sherman said at one stage of the proceedings: "It does not announce a new principle of law, but applies *old and well recognized principles of the common law* to the complicated jurisdiction of our State and Federal Government". "It is said that this bill will interfere with lawful trade and with the customary business of life. I deny it. It aims only at *unlawful combination*."

Under all the circumstances does it not seem as if the majority in their opinion had given a strained con-

struction to the 1890 statute both in defining its scope and defining its language?

### THE JAPANESE CURRENCY CHANGES.\*

MANCHESTER, March 24.

In a brief telegram from Yokohama published in the English newspapers of March 2d it was stated that the Japanese Government had determined to adopt the gold standard at a ratio of 32.34. Little has been added to this bald announcement in subsequent publications, and merchants and others interested in the subject, in default of precise information, have been much exercised in discussions and conjectures as to the particulars of the scheme adopted by Japan, and the possible consequences of its operation. I am enabled to communicate the following details which have been derived from authentic sources.

The future monetary unit of Japan is to be a gold dollar, or "yen", containing .75 gramme of fine gold. No coins of so low a denomination will, of course, be minted. The gold coins will be 5, 10 and 20-dollar pieces, 900 fine. The 20-dollar coin will contain 15 grammes of pure gold, and will weigh 16½ grammes. The gold contents and the actual weight of the new coin will be exactly one-half of that prescribed for the gold dollar which was authorized in May 1871, when an attempt was made—afterwards abandoned—to establish a gold standard in Japan. The present silver dollars are to remain legal tender until a date, not yet determined, of which six months' notice is to be given. After this date the withdrawal of the silver dollars is to begin, and the process is to be gradual, extending over a period of five years. During this period the silver coins will be exchanged for gold ones at the ratio of 32.348 dollars to one. From the date of the promulgation of the new law the mints are to be closed to the coinage of silver and open to that of gold. Subsidiary coins of silver are to be issued in half dollars, 20-cent and 10-cent pieces, 800 fine, as at present.

The deliberate manner in which the new monetary system is to be set on foot will afford an assurance to merchants and financiers interested in Japanese affairs that the contracts and engagements in which they are concerned will not be suddenly disturbed. From the point of view of the Government of Japan, too, the choice, which it reserves, as to the date when the process of withdrawing silver coin is to commence is obviously wise. It thus secures time to observe the course of the silver market after the announcement of its scheme, before this is put into operation. The ratio selected—32.348—is equivalent to 29 3-16d. per ounce in London, and since the news has been received the quotation has fallen to 28 9-16d., that of March 1st immediately before the telegram arrived having been 29 5-8d. per ounce. The gold value of Mexican and other dollars, also circulating in the Far East, has declined in approximately the same degree.

The opinion prevails that the ratio adopted was purposely fixed at a point below the then bullion value of the yen in order to encourage the export and perhaps the melting of the coins. If so, the object has been defeated by the decline in the silver market. But clearly, the main consideration is the quantity of silver yen which will, sooner or later, have to be exchanged for gold at the Japanese mint. No reliable statistics appear to exist of the amount of silver yen in circulation. It is known, however, that the money in use consists

\*Communicated by our Special Correspondent at Manchester.

chiefly of the notes of the Government and the Bank of Japan, and that, except of the smaller denominations, no great quantity of silver is met with in Japan. The whole sum existing, in circulation and in the banks and the Treasury, is estimated at about 100,000,000 yen. Not all of this amount would, of course, be presented for redemption, and a large proportion of it would in any case be required for subsidiary coinage. But there is in addition an unknown quantity of Japanese yen in circulation in China, the Straits Settlements and other neighboring territories. It is assumed by those who make much of this outside circulation of Japanese silver money that it may reach 50,000,000 yen. So long as the ratio contemplated over-estimates, as it now does, the bullion value of the silver dollar, it is clear that the beginning of the process of redemption at that ratio would be the signal for the return to Japan of a great proportion of the yen now existing outside the country. Evidently, therefore, the bold enterprise to which the Japanese Government has committed itself will have to be conducted with great care and with a constant watch upon the course of the silver market.

The new departure has been taken in pursuance of the recommendation of the Imperial Commission which was appointed in September 1893, "to investigate the causes and effects of the fluctuations in the value of silver, and to suggest the best monetary standard for Japan". The majority of the members of the Commission reported in favor of the single gold standard, and favored early preparations, particularly that of an accumulation of gold. It may be inferred that steps were taken in the latter half of last year towards carrying into effect the last part of the recommendation. The Government of Japan has for some time past held a large balance to its credit in London, the proceeds mainly of the Chinese indemnity money. For a long while no appreciable quantity of gold was exported from the United Kingdom to Japan, but in the last few months of 1896 the exports thither of gold recorded in the official statistics amounted to £1,012,000. In January and February a further sum of £1,449,600, making altogether nearly £2,500,000, was sent, and it is believed that the movement has been continued during the present month.

At the current rate of exchange the supply already recorded is equivalent to about 25 million dollars, and it is possible that more may have been drawn from other sources. There can be little doubt, therefore, that the Japanese Government is rapidly putting itself into a position to carry out its scheme so far as the provision of the necessary quantity of gold is concerned. Its chief care must be, however, to avoid as far as possible serious loss in the process of withdrawing the silver currency. The absence hitherto of definite information as to the details of the scheme has prevented any serious discussion as to the general economic consequences which may follow its complete carrying out, and in particular the effect upon the external trade of Japan, and its capacity for industrial competition with the Western nations. The consequence of adopting half a gold dollar as a whole one is obviously, however, simply to perpetuate any advantage which Japan may already have gained from the fall in the value of silver. As between the cotton-spinning industry of India, on the one hand, for example, and that of Japan on the other, the present disadvantage of which the spinners of Bombay now complain in their competi-

tion with those of Japan will be stereotyped, but it cannot be further increased.

#### CITY AND COUNTRY IN NEW YORK STATE GOVERNMENT.

Two novel and curious bills were introduced in the State Assembly on Monday of last week. The purpose of both measures was to divide New York into two separate and independent States. The Federal Constitution provides that no new State shall be formed or erected within the jurisdiction of any other State without the consent of the Legislature of the State concerned as well as of Congress. It is the professed purpose of the bills in question in this requirement. One of them, therefore, provides that the consent of the Legislature shall be granted to such division; the other that in the counties which are to constitute the proposed new State the question of organizing such a State shall be submitted to the voters at the next general election. The counties thus proposed to constitute an independent State are those of New York, Kings, Richmond, Queens, Suffolk, Westchester and Putnam. This territory comprises all that section already designed for incorporation under the Greater New York charter, with the whole of Long Island added and the two counties north of New York City. In effect it proposes to construct the so-called Greater New York into an independent commonwealth.

We do not suppose that this legislation was introduced with any very serious purpose or with any expectation of success. It was proposed by one of the few New York City Assemblymen who had the grace to vote against the Greater New York charter, and it was therefore very possibly intended as a retort to the policy of interference with our city matters long pursued by the country members of the Legislature. The mere suggestion, however, of such a political arrangement directs attention to some very extraordinary elements in the government of New York State which are likely, in the not far-distant future, to give rise to some exceedingly interesting results.

Out of the 150 members of the New York State Assembly not less than 56 already represent districts within the city territory covered by the Greater New York charter. Of the 50 Senators at Albany 20 are elected from the same municipal constituency. In other words, nearly forty per cent of the present Albany Legislature directly represents the communities of New York and Kings counties, which are to be combined under the greater charter. Even to-day, therefore, the two great cities at the seaboard command not far from a majority at Albany. But the new constitution of the State further provides that the Senate districts "shall be so altered by the Legislature at the first regular session after the return of every enumeration"—the next State census will be taken in 1905—"that each Senate district shall contain as nearly as may be an equal number of inhabitants", while at the same session "the members of the Assembly \* \* shall be apportioned \* \* among the several counties of the State as nearly as may be according to the number of their respective inhabitants".

The obvious result of this provision will be to enlarge, with each successive census, the representation of the Greater New York in the Legislature. In 1880 the population of these two metropolitan counties made up 35½ per cent of the total population of the State; in 1890 their percentage was slightly over 39; in the State enumeration of 1892 it had risen to 42½.

A steadily increasing ratio such as this will soon bring to New York and Brooklyn a majority of the population of the State, and with it a majority at Albany. This would present a problem in some respects quite new to American State politics. No other State except Maryland, where Baltimore contains something like 42 per cent of the State's entire population, presents even the phenomenon at present provided in New York. It has never yet happened, in any American commonwealth, that the representatives of one municipality controlled the Legislature.

What makes this coming situation still more interesting is the fact that during several generations, and particularly within the last few years, the government of New York City by the country majority at Albany has been notorious. The passage of the Raines excise law, for instance, in a form decidedly objectionable to the municipality, was a noteworthy case in point. There are a dozen other instances of the kind in recent legislation which will readily occur to New York City readers, and in which the "country influence" has distinctly interfered to weigh down at Albany both wish and vote of the municipality chiefly affected. That the mere fact of consolidation of these seaboard municipalities into a single greater city would put an end to meddling of this sort is not in the least to be expected. The bill providing for appointment of the Greater New York Police Commission, not by the Mayor but by the Governor—drawn up in the very face of the charter's passage by the Legislature—is sufficient indication of what might still remain in store for us. This particular measure, it is true, has been apparently suppressed in advance of formal consideration; presumably because of the public indignation excited by the attempt to cripple city home rule at the very moment when a pretense of such rule was being conferred by formal charter. But the demonstration, although this time ineffective, foreshadows what the city still unquestionably has before it. Had the police bill been proposed and pushed in the Legislature, there is not the slightest doubt that it would immediately have obtained an enthusiastic support from the "country members."

How far this situation will be altered when the inevitable Greater New York majority is apportioned in the Legislature—a change quite certain to occur eight years from now—is perhaps an open question. We are bound to confess that recent experience is not in all respects encouraging. The most important measure considered by the Legislature during many years came up for deliberation two weeks ago. The bill to adopt the Greater New York Commission's charter had been first laid open to a "public hearing" which proved to be a disappointment: for the hearing was brief, it was granted at Albany alone, and was for the most part given up to the presentation of their purposes by the Commissioners who drew the bill. On Tuesday of last week, March 23, the charter measure came before the Legislature. It was allotted one day's hurried debate in each of the legislative chambers. The debate—if the interchange of political slurs and recriminations can be dignified by such a title—was a matter of empty form. "The speeches made here", said one of the Senators who voted on that day with the majority, "have convinced me that the Senate practically knows nothing about this charter. I am taking it on faith, and it seems to me that it is a great leap in the dark". Not only was no amendment adopted but none was even allowed discussion. After a controversy better suited to the organization of a village

fire-engine company or of a county fair than to the re-incorporation of the greatest city on the continent, the measure passed the Assembly by a vote of 118 to 28; and the Senate by 39 to 9, party lines being almost obliterated on the final roll-call.

This episode, we say, was not encouraging. The measure had been opposed with virtual unanimity by the intelligent opinion of the cities immediately concerned; by the press, by the Chamber of Commerce, by the Bar Association, by the Real Estate Exchange, and by nearly all the existing departments of administration. Not a single voice had been publicly raised in its behalf except that of the Commissioners who drew the charter; and of the three Commissioners who openly defended it, one admitted the whole contrivance to be a doubtful experiment, while two others dissented formally from its most important municipal provisions. This might have been imagined as an inspiration to the New York and Brooklyn legislators to oppose the measure; and had they done so it would in all probability have either failed or have been returned to its authors for more proper consideration. Yet of the 56 Assemblymen from Kings and New York counties only 21 voted against the measure or in favor of amendment, while of the 20 Senators from the same municipalities only a paltry eight had the grace to vote in behalf of their constituents. If this was possible in a measure where the preference of the city voters was so plain, what outlook for actual improvement could there be with the city representatives in a majority?

A question of this kind must, however, be decided, not by a single instance, but by general experience. The case of the Greater New York charter will long stand out as an anomaly in public history. A strange mixture of perverseness and infatuation seems to have possessed all parties to this undertaking, from the Commissioners who contrived the extraordinary document down to the party leaders who endorsed it, and the legislative followers who humbly followed with their vote. In all probability the prospect of a huge increase in offices—a prospect which the charter, from a professional politician's point of view, certainly makes inviting—is the bait which has drawn a good share of the actual support. The fact that consolidation of itself was sentimentally endorsed, and that it had been actually voted for in advance of the present charter's preparation, by at least one of the municipalities concerned, added no doubt to the blind presumption in favor of the bill. No such conditions will exist in the case of other measures affecting city matters. In the majority of such measures the city's interests are likely to be plain. Ignorant of the larger significance of legislation a good part of our city senators and assemblymen may be; venal many of them are supposed to be.

But they are apparently neither so ignorant nor so venal as a considerable portion of the legislators from the rural districts, and they have, moreover, the disposition, all other things being equal, to pay some attention to the genuine interests of the cities. Even in last week's charter vote, although, as we have noticed, most of the city legislators acted against the wishes of their constituents, it is at least to be observed that all but seven of the negative votes in the Assembly, and all but one in the Senate, were cast by representatives from New York and Brooklyn. The vote outside the metropolitan representatives was almost unanimous for the charter. In fact no deference to

the genuine interests of the cities exists among the "country members". For many years, and especially since New York City, in despair over the methods of its Board of Aldermen, threw back the powers of the Board upon the Legislature, New York City has been marked out as a continuous field of plunder by the rural legislator. It is the pretty uniform experience of all corporations of consequence centred in this city that the mischievous influence of Albany legislation largely consists in the introduction of foolish and needless measures, which are a menace to the city interests, and which are thus introduced only in order to bring the corporations to terms for the abandonment of such legislation. In this sort of offense the "country members" have uniformly taken the lead; at times almost the only problem of a session has been how the interests thus gratuitously menaced could "head off" the grasping proclivities of the rural Senators and Assemblymen.

Correction of this tendency among the country members seems to be impracticable. The city members are, however, far more amenable to a concerted uprising of the voters against this species of oppression. "Machine rule" will undoubtedly continue in the Greater New York politics as well as in the politics of country districts; but on the other hand the very concentration of this city machinery will make possible its overturn by citizens with the interests of Brooklyn and New York at heart. "In ten years", said Senator Malby in last week's final debate on the charter bill, "Greater New York will contain over one-half the population of the State and will gain control of the Legislature, despite the Constitution. I do not believe that the interests of the State will be served by the transference of legislative power to one city. The men of that city will control the State conventions of both political parties and will name our candidates for State offices". As the view of a country member, this is entirely intelligible. But whether Mr. Malby's view is right or not, on the broader question of the welfare of the larger interests of the State, is another question. Senator Pavey, speaking as a New York member, answered this argument by pointing out the Citizens' Union now already organizing for control of New York politics by public-spirited and intelligent citizens. If such an organization were to achieve its purposes, the increase of the Greater New York representation to a majority at Albany would be an unquestionable benefit both to city and to State. The legislative government could certainly not be worse than it is to-day; it might be vastly bettered.

We believe, in short, that the organization and maintenance of such a combination of honest citizens has possibilities of future usefulness, which are rendered vastly brighter by the approach of a metropolitan majority at Albany. Except from the narrowest view of politics and from the venal legislator's standpoint, we cannot see how the change can harm the rural constituencies. Certainly a majority of this sort could have no motive or inducement to assail the interests of the country districts such as the present country majority seems to have to attack the cities. It may at least be positively affirmed that no other avenue of escape is open from our present legislative evils. Such a consummation would be an ample substitute for the imagined division of New York into two separate States. Experience has proved that a "country majority" in the Legislature is not only incapable of governing the State intelligently, but takes its seat as

the deliberate enemy of the largest interests on which the welfare of the State is based. It is possible that the simple progress of city population will eventually solve the problem which has hitherto quite baffled workers for honest government in New York.

#### COTTON CONSUMPTION AND OVERLAND MOVEMENT TO APRIL 1.

We bring down to-day our usual monthly statements of overland movement, port receipts, etc., to the close of March, and they now cover the first seven months of the cotton crop season. The marketing of cotton during the month has been slightly greater than in March of 1896 but considerably less than in 1895. There has come into sight during the month 378,297 bales, against 357,525 bales in March of 1896 and 595,249 bales in 1895. The aggregate amount of the crop of 1896-97 now visible is 7,821,304 bales. Spinners' takings have been greater during the month than in 1896, and their total takings for the season to date exceed those for the same period of last year by 32,804 bales; contrasted with 1894-95, however, there is a heavy decline.

##### OVERLAND MOVEMENT TO APRIL 1.

The gross movement overland in March has been 86,569 bales, which compares with 95,790 bales last year and 170,338 bales in 1895. The excess over a year ago in the total for the season to date now reaches 106,840 bales, but contrasted with 1894-95 the decline is 510,384 bales. The net for the month has been heavier than in 1896, reaching 62,277 bales, against 61,712 bales. In 1895 the net reached 83,995 bales. The aggregate for the seven months records an increase over last year of 52,821 bales, but the decrease compared with two years ago is 312,414 bales.

\* This total includes shipments to Canada by rail, which since September 1 in 1896 amounted to 59,011 bales; in 1895-96 were 54,998 bales and in 1894-95 were 79,528 bales.

##### RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

The net receipts at the ports for the month have been heavier than in the like period of 1896, but much smaller than in 1895, reaching a total of 329,328 bales, against 321,313 bales in March last year and 532,254 bales in 1895. The aggregate for the seven months is greatly in excess of that of last year. The exports to foreign ports for the month have been of less volume than in either of the two preceding years, the shipments for the month this year being only 432,968 bales, against 475,832 bales in 1896 and 527,789 bales in 1895. For the season to date the total exports are 1,325,046

bales greater than in 1895-96, but exhibit a falling off of 531,144 bales from 1894-95.

Great Britain exports include to the Channel.

Using the facts disclosed by the foregoing statements, we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption, since September 1, this year and the two previous years is as follows:

	1896-97.	1895-96	1894-95
Receipts at the ports to Apr. 1...bales.	6,299,127	4,798,211	7,250,497
Shipment overland during same time	766,177	713,356	1,078,591
<b>Total receipts</b> .....bales.	<b>7,065,304</b>	<b>5,511,567</b>	<b>8,329,088</b>
Southern consumption since September 1	613,000	593,000	521,000
<b>Total to April 1...</b> .....bales.	<b>7,678,304</b>	<b>6,104,567</b>	<b>8,850,088</b>

The amount of cotton marketed since September 1 in 1896-97 is thus seen to be 1,573,737 bales more than in 1895-96 and 1,171,784 bales below the total for 1894-95. To determine the portion which has gone into the hands of Northern spinners during the same period we have prepared the following:

Total receipts to March 31, 1897, as above.....bales.	7,678,304
Stock on hand commencement of year (Sept. 1, 1896)	70,990
At Northern ports.....	151,688
At Southern ports.....	222,678
At Northern Interior markets.....	4,056
<b>Total supply to March 31, 1897.....</b>	<b>7,903,038</b>
Of this supply there has been exported	
to foreign ports since Sept. 1, 1896.....	5,113,630
Less foreign cotton included.....bales.	37,504
Shipped to Canada direct from West.....	59,011
Brought North and South.....	2,378
<b>Stock on hand end of month (Mar. 31, 1897) —</b>	
At Northern ports.....	275,762
At Southern ports.....	456,413
At Northern Interior markets.....	5,200
<b>Total takings by spinners since September 1, 1896.....</b>	<b>2,030,098</b>
Taken by Southern spinners.....	613,000
Taken by Northern spinners since September 1, 1896.....	1,417,098
Taken by Northern spinners same time in 1895-96.....	1,384,294
<b>Increase in takings by Northern spinners this year.....bales</b>	<b>32,804</b>

The above indicates that Northern spinners had up to March 31 taken 1,417,098 bales, an increase over the corresponding period of 1895-96 of 32,804 bales and a decrease from the same time of 1894-95 of 458,916 bales.

#### AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of bales which has already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on April 1 compared with previous years. We reach that point by adding to the above the stock remaining at that date at the interior towns less stock held by them at the beginning of the season. In this manner we ascertain the result for three years on April 1 to be as follows:

	1896-97	1895-96	1894-95
Total marketed, as above.....bales.	7,078,304	6,104,567	8,850,088
Interior stocks in excess of Sept. 1.	143,000	276,000	259,000
<b>Total in sight.....bales</b>	<b>7,921,304</b>	<b>6,380,567</b>	<b>9,109,088</b>

This indicates that the movement up to April 1 of the present year is 1,440,737 bales more than in 1895-96 and 1,287,784 less than in 1894-95.

As it will interest the reader to see what has come into sight each month of the season during this and previous years, we have prepared the following, which shows the movement for the last four seasons.

Months.	1896-97	1895-96	1894-95	1893-94
September.....	1,222,287	542,394	683,703	511,273
October.....	1,891,562	1,722,192	2,118,300	1,637,555
November.....	1,634,216	1,521,097	2,197,167	1,704,608
December.....	1,540,705	1,386,030	1,971,888	1,613,803
January.....	680,513	617,924	921,289	750,991
February.....	464,730	482,475	583,662	382,497
March.....	378,297	357,525	195,249	287,113
<b>Total 7 months.....</b>	<b>7,821,304</b>	<b>6,380,567</b>	<b>9,109,088</b>	<b>6,563,640</b>
<b>Balance season.....</b>	<b>781,000</b>	<b>781,000</b>	<b>781,000</b>	<b>663,571</b>
<b>Total crop.....</b>	<b>7,162,473</b>	<b>6,380,567</b>	<b>9,109,088</b>	<b>7,527,211</b>

#### WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to March 31 we give below our usual table of the weight of bales. We give for comparison the figures for the same time in the two previous years.

	Seven months ending Mar. 31, 1897			Same period in 1895-96	Same period in 1894-95
	Number of Bales.	Weight in Pounds.	Average Weight.		
Texas.....	1,402,500	744,307,740	528.44	524.03	532.97
Louisiana.....	1,936,639	994,238,872	508.22	509.63	512.85
Alabama.....	274,582	138,389,329	504.00	499.00	508.00
Georgia.....	1,023,924	498,702,184	487.05	483.36	491.46
South Carolina.....	447,621	217,096,185	485.00	482.28	489.55
Virginia.....	637,894	332,975,091	484.05	482.16	491.48
North Carolina.....	233,123	114,048,434	489.22	488.91	494.57
Tennessee, &c.....	1,666,021	830,344,866	498.40	500.00	499.50
<b>Total.....</b>	<b>7,678,304</b>	<b>3,860,102,500</b>	<b>502.73</b>	<b>501.43</b>	<b>507.19</b>
Including Florida					

It will be noticed that the movement up to March 31 shows a decrease in the average weight as compared with the same period of last year, the average this year being 502.73 lbs. per bale, against 501.43 lbs. per bale for the same time in 1895-96 and 507.19 lbs. in 1894-95.

#### THE DRY GOODS TRADE IN MARCH.

The most noticeable feature of the home demand for staple cottons during the past month has been its strict adherence in a general way to its previous conservative character. Buyers have occasionally been tempted to a little greater freedom of action, as in the instance of a leading make of ticks, but it has been at such a sacrifice of value that few sellers have ventured the experiment. As a result there have been very few movements of importance, and with fairly liberal supplies prices have on the average declined somewhat during the month. Within the past two weeks some fair sales of brown goods have been recorded for export, and there are still good export inquiries in the market at the close. Printed fabrics have as a rule sold quite well. Fancies have not changed materially in price, but some of the more staple lines have advanced fully 5 per cent during the month. Staple gingham have, on the other hand, reached about as low a level as they have ever sold at, whilst dress-style gingham have ruled dull of sale, with few exceptions. In the general run of coarse colored cottons the market has been uniformly dull and featureless. The course of prices of cotton and a few leading descriptions of cotton goods in March, 1897 and 1896, is indicated in the subjoined table:

MARCH.	1897.					1896				
	Oot'n long mid- dling.	Print- ing cloths, 64x84.	Sheet- ings, stand- ard.	Lan- caster ging- hams.	5-yd. sheet- ings.	Oot'n long mid- dling.	Print- ing cloths, 64x84.	Sheet- ings, stand- ard.	Lan- caster ging- hams.	5-yd. sheet- ings.

24..	61 1/2	2 5/8	5 1/4	4 1/4	4 7/8	70 1/2	2 7/8	5 1/4	5	4 7/8
25..	61 1/2	2 5/8	5 1/4	4 1/4	4 7/8	70 1/2	2 7/8	5 1/4	5	4 7/8
26..	61 1/2	2 5/8	5 1/4	4 1/4	4 7/8	70 1/2	2 7/8	5 1/4	5	4 7/8
27..	61 1/2	2 5/8	5 1/4	4 1/4	4 7/8	70 1/2	2 7/8	5 1/4	5	4 7/8
28..	61 1/2	2 5/8	5 1/4	4 1/4	4 7/8	70 1/2	2 7/8	5 1/4	5	4 7/8
29..	61 1/2	2 5/8	5 1/4	4 1/4	4 7/8	70 1/2	2 7/8	5 1/4	5	4 7/8
30..	61 1/2	2 5/8	5 1/4	4 1/4	4 7/8	70 1/2	2 7/8	5 1/4	5	4 7/8
31..	61 1/2	2 5/8	5 1/4	4 1/4	4 7/8	70 1/2	2 7/8	5 1/4	5	4 7/8

The above prices are—For cotton, low middling uplands at New York; for printing cloths, manufacturers' net prices; for sheetings and ginghams, agents' prices, which are subject to an average discount of 5 per cent, except when otherwise stated; Southern sheetings net.

### DEBT STATEMENT MARCH 31, 1897.

The following statement of the public debt of the United States on March 31, 1897, is made up from official figures issued on that day. Lower down we give an interesting exhibit of the bonds issued in aid of the Pacific Railroads, and the Treasury cash holdings, all of the same date.

#### INTEREST-BEARING DEBT MARCH 31, 1897.

Title of Loan—	Interest payable.	Amount issued.	Amount outstanding.	Total.
4 1/2% Fund. loan, 1891. Continued at 3 p.c.	Q.—M.	250,000,000	25,364,500	25,364,500
4% Funded loan, 1907. Q.—J.		740,000,950	490,432,900	650,639,600
4% Refund of cert. Q.—J.		40,012,750		45,450
5% Loan of 1904. Q.—F.		100,000,000	80,174,850	100,000,000
4% Loan of 1905. Q.—F.		192,515,400	101,115,750	55,149,650
Total, excluding Pac. RR Bonds.		1,293,220,100	680,087,000	167,232,500
NOTE.—The denominations of bonds are as follows: Two per cents (registered only), \$50, \$100, \$500, \$1,000, \$10,000, \$20,000, \$50,000; 4% of 1907, registered, \$50, \$100, \$500, \$1,000, \$10,000, \$20,000, \$50,000, coupon, \$50, \$100, \$500, \$1,000; 4% refunding certificates, \$10; 5% of 1904, registered, \$50, \$100, \$1,000, \$10,000, coupon, \$50, \$100, \$1,000; 4% of 1905, registered, \$50, \$100, \$500, \$1,000, \$10,000, \$50,000, coupon, \$50, \$100, \$500, \$1,000.				

#### DEBT ON WHICH INTEREST HAS CEASED SINCE MATURITY.

Funded Loan of 1891, matured September 2, 1891.	Feb. 27. \$152,350 00
Old debt matured prior and subsequent to Jan. 1, 1891.	212,837,255 63
Debt on which interest has ceased.	\$1,355,210 26

#### DEBT BEARING NO INTEREST.

United States notes.	\$346,681,016 00
Old demand notes.	54,347 50
National Bank notes—Redemption account.	23,662,492 00
Fractional currency.	\$15,285,175 14
Less amount estimated as lost or destroyed.	8,375,934 00
	6,880,241 14

Aggregate of debt bearing no interest.....\$377,287,096 64

#### RECAPITULATION.

Classification of Debt	Feb. 27. 1897.	Feb. 27. 1897.	Increase or Decrease.
Interest-bearing debt.	\$47,391,950 00	\$47,394,950 00	
Debt, interest ceased.	1,355,210 26	1,355,210 26	
Debt, bearing no interest.	377,287,096 64	376,714,549 14	Dec. 2,450 00
Total gross debt.	1,228,007,800 00	1,225,437,709 40	Inc. 570,097 50
Cash balance in Treasury.	222,045,003 19	212,837,255 63	Inc. 9,208,350 56
Total net debt.	1,005,962,796 81	1,012,600,453 77	Dec. 5,637,258 06

The foregoing figures show a gross debt on March 31 1897 (interest-bearing and non interest-bearing) of \$1,228,007,806 90 and a net debt (gross debt less net cash in the Treasury) of \$1,003,962,200 71.

Pacific Railroad bonds are never included in the official total of the Government debt. The status of these obligations to-day is as below. Methods of book-keeping make the official record unintelligible to most readers, and hence we have brought together in our compilation the leading fact relating to the subject.

#### BONDS ISSUED IN AID OF PACIFIC RAILROADS.

Name of Railway.	Bonds issued and accumulated int. Principal.	Interest.	Bonds paid, or date of maturity. Already paid.	Due Jan. 1, 1898.	Due Jan. 1, 1899.
Central Pacific.	25,955,120	35,493,402	0,071,000	10,614,120	9,107,000
Kansas Pacific.	6,303,000	6,594,000	1,890,000	1,423,000	
Union Pacific.	37,291,512	30,525,114	8,150,000	15,910,512	3,157,000
Cent. R. U. P.	1,690,000	2,154,420	1,280,000	320,000	
Western Pacific.	1,970,500	3,255,036	320,000		1,650,500
Sioux City & Pac.	1,928,320	2,525,941		1,928,320	
Total.	64,623,512	80,547,926	20,714,000	20,904,952	14,004,500

The cash holdings of the Government as the items stood March 31 we take from the Treasury statement of that date. The net cash balance given below is the same as deducted above in reaching the net debt.

#### CASH IN THE TREASURY.

Gold—Coin.	\$151,988,508 89
Bars.	37,251,204 15
Silver—Dollars.	393,211,322 00
Subsidiary coin.	15,911,128 29
Bars.	107,832,161 58
Paper—United States notes.	48,147,376 10
Treasury notes of 1890.	26,883,470 00
Gold certificates.	1,483,370 00
Silver certificates.	12,351,351 00
Certificates of deposit (Act June 8, 1872).	810,000 00
National bank notes.	11,374,571 90
Other—Bonds, interest and coupons paid, awaiting reimbursement.	40,812 05
Minor coin and fractional currency.	1,227,131 59
Deposits in nat'l bank depositaries—gov't acct.	12,938,047 37
Disbursing officers' balances.	3,955,349 25
Aggregate.	\$875,239,759 07

#### DEMAND LIABILITIES.

Gold certificates.	\$38,930,689 00
Silver certificates.	374,661,504 00
Certificates of deposit act June 8, 1872.	75,070,000 00
Treasury notes of 1890.	117,131,250 00
Fund for redemp. of uncurren. nat'l bank notes.	\$320,559 84
Outstanding checks and drafts.	3,119,831 81
Disbursing officers' balances.	27,273,092 57
Agency accounts, &c.	6,707,662 62
Gold reserve.	\$100,000,000 00
Net cash balance.	122,015,600 19
Aggregate.	\$875,239,759 07
Net cash balance in the Treasury February 28, 1897.	212,837,255 63
Net cash balance in the Treasury March 31, 1897.	222,045,003 19
Increase during the month.	\$9,208,350 56

### THE RETROACTIVE TARIFF AMENDMENT.

The retroactive amendment fixing April 1 as the date on which the Tariff bill shall go into effect reads as follows:

SECTION 27. That all articles mentioned in the several schedules of this Act which shall be imported into the United States between the first day of April 1897 and the date of the passage of this Act, and which were not purchased and directed by the owner to be shipped for import into the United States by any citizen thereof prior to April 1 1897, shall bear the same duties to be charged upon similar articles in this Act, and such duties are hereby made a lien upon such articles, wherever and in whatsoever hands found, except in the hands of persons holding them for final consumption, and having no purpose to sell or part with the same, or any part or product of the same, and except also in the hands of persons shown to have obtained such articles without notice of the provisions of the Act; and any person, not a final consumer or holder without notice, having obtained an interest in or possession of any such article or articles so subject to duty, except a common carrier or warehouseman, shall be liable for the payment of such duties thereon, and the same may be recovered with interest, but without penalty, in an action or suit by the United States against such person or persons in any district or circuit court thereof. And all persons liable under this Act for such duty, or any part thereof in respect of any shipment, cargo or lot of any article or articles may be joined in the same action for recovery without regard to mutuality or nature of interests or defenses, and such joint or several judgments or decrees may be rendered therein, including the enforcement of any such lien as justice and equity may require. In every such case the process of the court in the district where the action or suit is brought, and where one defendant resides and is served, shall run to and may be served on any defendant in any other district.

It is hereby made the duty of the Secretary of the Treasury to prescribe and enforce suitable regulations to carry out the provisions of this section, including the retention in the bonded warehouses of the United States or any other place where such goods are deposited of samples of such goods until required for evidence on any such trial.

Provided that the lien imposed by this Act on goods imported between April 1 and the enactment of this Act shall be only to the amount of excess duties imposed by the Act over those in the present law.

FAILURES FOR FIRST QUARTER OF 1897.—The following figures, prepared from Messrs. R. G. Dun & Co.'s statement, show the number of failures in the United States and Canada during the quarter ending March 31, 1897. For purposes of comparison like figures for the corresponding period of the preceding year are given:

States and Territories.	Quarter ending— March 31, 1897. No. of Failures.	Amount of Liabilities.	Quarter ending— March 31, 1896. No. of Failures.	Amount of Liabilities.
New England States.	461	\$1,555,298	450	\$6,237,093
Middle States.	977	17,419,354	1,016	18,956,868
Southern States.	732	8,169,457	697	10,152,191
Southwestern States.	320	2,948,385	402	5,881,596
Central States.	704	9,934,660	693	10,076,558
Western States.	330	3,196,303	422	3,372,589
Pacific States and Territories.	345	1,784,458	351	2,748,262
Aggregate United States.	3,942	\$48,007,911	4,031	\$57,425,135
Dominion of Canada.	679	\$5,195,706	742	\$5,787,567

**Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—Stock Exchange Clearing-House Transactions.**—The subjoined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1896 there is an increase in the aggregate of 30 per cent. So far as the individual cities are concerned we find that New York exhibits a decline of 2.5 per cent, and the losses at other points are: Boston 1.4 per cent; Chicago 11.1 per cent; St. Louis 1.4 per cent and New Orleans 9.8 per cent. The gain at Philadelphia is 14.2 per cent and at Baltimore 39.4 per cent. The occurrence of Good Friday in the week of last year accounts in part for the gains recorded.

CLEARINGS. Returns by Telegraph.	Week Ending April 3.		
	1897.	1896.	Per Cent.
New York.....	\$101,370,843	\$473,301,205	-2.5
Boston.....	79,743,833	80,901,733	-1.4
Philadelphia.....	49,829,437	43,025,610	14.2
Baltimore.....	12,291,596	8,819,894	39.4
Chicago.....	99,100,897	77,707,177	-11.1
St. Louis.....	18,110,629	18,373,537	-1.4
New Orleans.....	6,082,851	6,745,640	-9.8
Seven cities, 5 days.....	\$690,532,086	\$709,474,883	1.8
Other cities, 5 days.....	124,798,624	127,437,263	-2.0
Total all cities, 5 days ..	\$821,331,310	\$836,912,151	-1.9
All cities, 1 day.....	168,483,207	121,169,144	+35.7
Total all cities for week...	\$989,794,517	\$958,081,295	+3.0

Another table, our usual monthly detailed statement of transactions on the various New York Exchanges, has also been crowded off of the first page. The results for the three months of the current year, are, however, given below and for purposes of comparison the figures for the corresponding period of 1896 are also presented.

Description.	Three Months, 1897.			Three Months, 1896.		
	Par Value or Quantity.	Actual Value.	Average Price.	Par Value or Quantity.	Actual Value.	Average Price.
Stocks (Sh's.)	11,908,729	\$705,414,631	65.6	14,825,249	\$809,204,471	62.4
Govt. bonds	1,187,694	\$7,812,049	77.7	1,077,811,120	\$7,507,068	68.4
Govt. bonds	14,710,000	\$5,737,222	122.0	12,168,200	\$12,058,024	116.1

## Monetary & Commercial English News

LONDON, SATURDAY, March 20th, 1897.

[From our own correspondent.]

There is again this week a very anxious feeling all over Europe. The statements at the beginning of the week of the French Premier and Finance Minister have not availed to restore confidence, although the French Chamber sanctioned the policy of the Ministry by a great majority.

Apparently Greece is resolved to defy the Powers, and to stake all her fortunes upon a desperate throw. Her finances are in utter disorder. Even in peace time her revenue is smaller than her expenditure. She is absolutely without credit, and yet she is calling out her reserves and has decided, it would seem, to invade Macedonia. If Turkey were not restrained by the Powers it is certain that the Greek forces would be cut to pieces. In any case, the mobilization must make the financial position almost desperate. But the people are so excited that they seem resolved to risk everything. If fighting once begins, it is feared that Servia and Bulgaria may strike in, and then nobody knows what may happen. Unfortunately the Powers consume so much time in arriving at a decision that events are always ahead of them, and it is quite possible, therefore, that hostilities may break out before they are prepared to act.

The news from South Africa, too, is very unfavorable. We seem to have got into a deadlock, out of which it will be difficult to escape without using force. Whether President Krüger finds himself helpless in the face of the excitement of his people, or whether he is merely pandering to popular passions for the moment to secure his re-election, or whether he has been carried away by the general fervor, nobody knows. But it is curious that while last year he showed so much calm self-possession and statesmanship, now he not only refuses to make the least concession to the great industry which supplies his Government with its revenue, but he has allowed the Volksraad to pass several measures which are infractions of the London Convention. The news from India continues very bad. The plague is not abating much, the famine is growing more acute, and the numbers on the relief works are increasing every day. From Australia, however, some better intelligence comes. There have been heavy rains in Queensland, and it is hoped that New South Wales and Victoria will now share in them. The telegrams respecting the new American tariff bill have caused some disappointment. A moderate measure was expected, but if the telegrams received are right, it looks as if the new duties will be practically as high as those of the McKinley bill. Lastly, the heavy and almost continuous rains at home here are causing grave anxieties respecting our farmers. It is said that the mortality amongst lambs is very great and that there is very serious difficulty in sowing the spring crops.

Owing to all this, markets have been dull and depressed during the week. The heaviest selling has come from Paris, but there has been a good deal of unloading here likewise. American securities, British railway stocks, South American securities and even Colonial securities are all lower. The selling is mainly speculative. Last week the bears bought back, as they then thought that the Greek question would be quickly settled. Now they are of opinion that it will last for some time, and they are raiding markets once more. Their action is all the more effective because investors are literally doing nothing.

The money market is easy and henceforward it is reasonably probable that the supply will largely increase and rates go down. From now till the end of March the payments out of the exchequer will be enormous. The interest on the national debt will be distributed in the first week of April, and the receipts of gold from Australia and South Africa are exceptionally large. Australian exports are exceedingly limited because of the short wool clip and the failure of the crops. Consequently Australia has to ship much more gold than usual to cover all its charges in London. For example, a single ship, expected to arrive on Monday at Plymouth, is bringing over half a million sterling from Sydney, Melbourne and Adelaide, besides other amounts from the Philippines and India. The imports into South Africa largely exceed the

exports in value, and therefore it is believed, in consequence of the check given to mining, that very large additional sums will have to be shipped from South Africa likewise.

The silver market is depressed, chiefly through fear that Japan will sell the metal in preparation for its adoption of the gold standard. As yet, however, no sales have begun, and the best informed do not think that they will amount to much. In India the stringency in the money market continues. Indeed, the expenditure upon famine relief is so great and is likely to continue so long, that more or less of stringency may be expected for some months. At the same time the India Council is not selling very freely. It offered for tender on Wednesday 40 lacs of rupees, but the applications were for very little more than three-quarters of that amount, and nearly about three-quarters of what was applied for was allotted, as the Council is holding out for 1s. 3d. per rupee. The belief is that the drain upon the Government treasuries consequent upon the relief works is so great that the Council is not in a position to sell very freely.

The Indian Budget was published in Calcutta yesterday morning. According to it the expenditure upon relief works and the suspensions of revenue for the year ending with this month will amount to about 6¼ crores of rupees, or, say roughly, 4 millions sterling. Next year the cost of the famine is estimated at 5 crores. For the two years the direct and indirect cost will thus be about 11¼ crores, or say, roughly, 7½ millions sterling. The drawings of the India Council are to be cut down to 13 millions sterling, whereas it was estimated that in the year just drawing to a close they would amount to 16½ millions sterling.

The "Railway News" of London reports the traffic receipts for the week ending March 14 of 55 railways of the United Kingdom which make weekly returns, at £1,598,711, against £1,449,694 in the corresponding week of last year, an increase of £59,017. For the eleven weeks of the current half-year receipts were £16,244,633, an increase of £105,443.

The rates for money have been as follows:

London.	Bank Rate.	Open Market Rates.						Interest allowed for deposits by			
		Bank Bills.			Trade Bills.			Joint Stock Banks.	At Call.	At 7 to 14 Days.	Dues' H & Co.

\* 1 13-16 @ 1¼

Messrs. Pixley & Abell write as follows under date of March 18:

**Gold**—The gold demand remains unaltered, and all arrivals continue to be shipped eastward. There have been signs of Continental inquiry, but up to the present no business has resulted. The Bank has received £113,000, chiefly from Australia. Arrivals: River Plate, £14,000; Capetown, £158,000; Australia, £188,000; West Indies, £21,000; total, £381,000. Shipments: Bombay, £45,500; Japan, £251,500; Calcutta, £18,000; total, £314,500.

**Silver**—When we last wrote the market had steadily declined to 29 3-16d. Since then daily reductions have caused a further fall to 28 9-16d. America has been a free seller from day to day, giving the market but little chance of steadying. To-day the outlook seems rather better and further fall may be averted. The Indian price to-day is 78 Rs. per 100 Tohans. Arrivals: New York, £154,000; West Indies, £27,000; Australia, £14,000; total, £220,000. Shipments: Bombay, £61,800; Penang, £5,700; Calcutta, £32,500; total, £100,000.

**Mexican Dollars**—In the absence of business the only quotation is the melting value of 27¾d.

The quotations for bullion are reported as follows:

GOLD. London Standard.	Mar. 18.	Mar. 11.	SILVER. London Standard.	Mar. 18.	Mar. 11.

Of the above imports for the week in 1897 \$171 were American gold coin and \$980 American silver coin. Of the exports during the same time \$6,800 were American gold coin.

—The new gold four of the City of Providence due 1927 are offered for sale by Messrs. Blodget, Merrill & Co., of Boston.

—Messrs. Lawson, Widentfield & Co. announce that they will send free on application their book on "Copiers," 32 pages, giving reasons for advising the purchase of Catamet & Hecla, Boston & Montana and Butte & Boston stocks.

—Messrs. N. W. Harris & Co. will pay dividends on a number of securities, a list of which will be found in another column.

—Mr. Charles Waldo Haskins, of Messrs. Haskins & Sells, 30 Broad Street, was elected President of the New York State Society of Certified Public Accountants at the meeting held on Tuesday evening last at the Waldorf.

—Messrs. Winslow, Loefer & Co. will pay dividends on a number of securities, a list of which will be found in another column.

—Messrs. Edward B. Smith & Co. and Charles D. Barney & Co., of Philadelphia are offering for subscription \$400,000 first mortgage 6 per cent gold bonds of the Consumers' Brewing Company of Philadelphia, at 102½ per cent. The total authorized issue is \$1,900,000, of which \$200,000 is in the company's treasury. The company's capital stock is, common \$1,900,000; preferred \$1,900,000. The Consumers' Brewing Company is a consolidation of six existing breweries, having a combined output of 220,000 barrels of beer. The property of all six of the breweries was acquired free of any lien or charge, and is mortgaged as security for the bonds. The earnings are certified by Messrs. Barrow, Wade, Guthrie & Co., accountants, to have been \$401,047 for the year 1896 and to have averaged \$369,055 for the period of years covered by their examination.

**Auction Sales.**—Among other securities the following, not regularly dealt in at the Board, were recently sold at auction. By Messrs. R. V. Harnett & Co.:

\* Correction.

WALL STREET, FRIDAY, APRIL 2, 1897-5 P. M.

**The Money Market and Financial Situation.**—Business in Wall Street is recovering, but recovering slowly, from the effect of the recent Supreme Court decision as to the legality of railroad traffic agreements. Railway securities generally continued to decline until Monday, when the lowest range of prices during the current movement in the stock market was made, since which, with some hesitancy and irregularity, the tendency has been upward. The decision which is expected soon in the Joint Traffic Association case is looked for with interest, as it is generally thought that it will modify to some extent the effect of the former decision.

But for the moment the public is taking very little interest in the market for railway securities, although there is reported to be some buying of certain stocks on the theory that at the present low prices they are a good purchase. In addition to the matter referred to above the serious floods in the West and Southwest have been a depressing feature, as the loss to railroad property direct is considerable and the damage to other property in some localities will doubtless be heavy.

Aside from the two features mentioned, the general situation remains practically unchanged. Reasonable progress has been made in tariff legislation, and there seems to be a disposition on the part of Congress to hasten the matter to a conclusion as rapidly as its importance will permit.

Foreign interest in American securities is not at present a factor in Wall Street. The political situation abroad seems to be crystallizing slowly and an open war is less imminent than it has been, but the interests at stake are of such a nature that all Europe is absorbed in the probable outcome.

There is reported to be a slightly better inquiry for call money, due possibly to an increasing speculative activity.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 1/2 to 2 per cent. To-day's rates on call were 1 1/2 to 1 3/4 per cent. Prime commercial paper is quoted at 3 1/2 to 4 per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £703,230 and the percentage of reserve to liabilities was 52.65, against 55.32 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows a decrease of 1,278,000 francs in gold and 310,000 francs in silver.

The New York City Clearing-House banks in their statement of Mar. 27 showed an increase in the reserve held of \$75,400 and a surplus over the required reserve of \$18,595,750, against \$48,168,975 the previous week.

	1897. Mar. 27.	Difference from Prev. week.	1896 Mar. 28.	1895. Mar. 30.
Capital	\$ 59,772,700		\$ 61,122,700	\$ 62,522,700
Surplus	73,953,400		72,833,300	71,046,900
Losses & discounts	504,478,200	Dec. 1,991,800	464,996,400	482,524,100

**Foreign Exchange.**—The foreign exchange market has been almost stagnant this week.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 4 85 1/4 @ 4 86; demand, 4 87 @ 4 87 1/4, cables, 4 87 1/4 @ 4 87 1/4.

Posted rates of leading bankers follow:

	April 2.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 86 1/2	4 88	@ 4 88 1/2
Prime commercial	4 85	@ 4 85 1/2	
Documentary commercial	5 84 1/2 @ 4 84 1/2		
Paris bankers' (france)	5 18 1/2 @ 17 1/2	5 16 1/4 @ 15 1/2	
Amsterdam (guilders) bankers	40 1/2 @ 40 1/2	40 1/4 @ 40 1/2	
Frankfort or Bremen (reichmarks) bankers	95 1/2 @ 95 1/2	95 1/2 @ 95 1/2	

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling par; Charleston, buying par, selling 1/2 premium; New Orleans, bank, \$1 00 premium; commercial, 25c. per \$1,000 discount; Chicago, 30c. per \$1,000 discount; St. Louis, 40 @ 75c. per \$1,000 discount.

**United States Bonds.**—Sales of Government bonds at the Board include \$79,000 4s. coup., 1925, at 123 1/2 to 124 1/4; \$24,000 4s. coup., 1907, at 112 1/4 to 113 3/8; \$38,500 4s. reg., 1907, at 111 to 111 1/4, and \$1,000 5s. coup., at 114 1/4.

Mex. Doubloons..... 15 50	@ 15 75	U. S. trade dollars.....	85 @ 87
Fine gold bars.....	par @ 1/4 prem		

**State and Railroad Bonds.**—Sales of State bonds at the Board include \$13,000 Virginia fund. debt 2-3s of 1991 at 63 1/2 to 63 3/4; \$1,000 Tenn. settlement 3s at 80; \$1,000 Alabama Class C at 100; \$5,000 Louisiana con. 4s at 96 and \$5,000 Virginia 6s deferred trust receipts, stamped, at 5.

The market for railway bonds has been weak under the effect of the Supreme Court decision, which caused a practical suspension of investment buying. The most prominent feature of the week was the heavy liquidation in St. Louis Southwestern issues which declined from 6 to 10 per cent, a part of which has since been recovered. This movement was accompanied with reports of serious damage by floods in the territory. The limited volume of business has been confined chiefly to a few speculative issues, which in most cases declined from 1 to 2 per cent, including Atchison, Chesapeake & Ohio, Missouri Kansas & Texas, Northern Pacific and Reading bonds. There has also been some activity in Brooklyn Elevated, Union Elevated, American Spirits, Standard Rope & Twine, Burlington & Quincy, Rock Island, Erie, Lake Shore, Milwaukee & St. Paul, Oregon Short Line & Utah Northern, Rio Grande Western, St. Louis & Iron Mountain, San Antonio & Aransas Pass, Southern Railway, Texas & Pacific, Union Pacific and Wabash bonds.

**Railroad and Miscellaneous Stocks.**—Railway stocks declined rapidly on Monday in response to a vigorous bear raid. Uncertainty as to the possibility of future railroad traffic agreements was the chief reason for a lack of outside interest and a large proportion of the active list declined from about 2 to 4 points. On Tuesday there was sufficient covering of short contracts to afford some support to the market and prices began to improve, but there has since been considerable irregularity. The coal stocks have continued weak, Delaware & Hudson selling below par on Thursday for the first time since 1887, and Central of New Jersey was on Wednesday at the lowest point it has touched since 1888. Both these stocks have since made some recovery. Missouri Pacific and St. Louis Southwestern have suffered severely from persistent bear efforts and some liquidation on account of the floods. The strangers were relatively strong, stimulated by good traffic reports, and the Vanderbilt stocks have largely recovered from the depression of the early part of the week.

The miscellaneous list moved in sympathy with railway shares but on a smaller scale, and within a narrower range. American Sugar and Chicago Gas have been the favorites of speculation. Western Union declined 2 1/2 points. Net changes are in most cases insignificant.

## NEW YORK STOCK EXCHANGE—ACTIVE STOCKS for week ending APRIL 2, and since JAN. 1, 1897.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

\* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver, Leadville & Gunnison, Montana Union and Leavenworth & Topeka & Southwestern. These figures include results on leased lines. † Includes earnings from ferries, etc., not given separately. ‡ Mexican survey. † Includes only half of lines in which Union Pacific has a half interest. ‡ Includes operations of the Ohio, Burlington & Northern in both years.

† Includes results for lines directly operated east of Pittsburg.

† Includes results on affiliated lines.

† Covers besides the Atlantic System the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans.

† Includes St. Louis Alton & Terre Haute for all periods.

Latest gross earnings by weeks.—The latest weekly earnings in the foregoing are separately summed up as follows: For the third week of March our final statement covers 72 roads, and shows 0.32 per cent decrease in the aggregate over the same week last year.

3d week of March.	1897.	1896.	Increase.	Decrease.

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of March 20, 1897. The next will appear in the issue of April 17, 1897.

#### NORTHERN PACIFIC.

Gross earnings.	Feb., 1897.		Sept. 1 to Feb. 28
	1897.	1896.	
Gross earnings	\$1,029,505	\$945,792	\$945,792
Operating expenses	777,458	5,524,323	5,524,323
Net earnings	\$252,047	\$3,933,597	\$3,933,597
Taxes	42,900	257,381	257,381
Net operating income	\$209,147	\$3,676,216	\$3,676,216
Miscel. income not includ'g land sales.	2,531	129,851	129,851

Total net income \$211,678 \$3,805,567

The operating expenses from Sept. 1, 1896, include a proportionate part of the estimated taxes and rail and tie renewals for the current fiscal year of the new company, being ten months to July 1, 1897.

#### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

STREET RAILWAYS AND TRACTION COMPANIES.	Latest Gross Earnings.		Jan. 1 to Latest Date.

## United Electric Securities Company.

(Report for six months ending Jan. 31, 1897.)

The report of this company, of which Samuel Carr, of Boston, is President, says in part:

This company is incorporated under the laws of Maine for the purpose of dealing in securities of electric illuminating power and railway corporations. It began business actively in 1890 with a capital of \$1,000,000 of common stock and on Feb. 1, 1893, the capital was increased by an issue of \$1,000,000 7 per cent preferred stock. On Jan. 20, 1894, the common stock was reduced to \$500,000.

The company has issued and sold \$7,000,000 of its collateral trust 5 per cent bonds in nine series. [The first four series having been for \$500,000 each, and each of the remaining five series for \$1,000,000. —Eds.] Each series being specifically secured by bonds of street railway, illuminating and power companies, with a margin of 25 per cent, the aggregate par value of the pledged bonds being \$8,814,000. Of the \$7,000,000 collateral trust 5a sold, \$6,62,000 have been retired and canceled from the proceeds of the sale of \$3,910,500 of underlying bonds pledged as security therefor.

The price at which the collateral 5a have been redeemed is about 3-48 per cent over the subscription price. The sales of the underlying bonds have been made at an average price of about 85-62. If the remaining underlying bonds are sold at only 72-07, the proceeds will retire the balance of the collateral trust 5a outstanding in the first nine series at 103. The American Loan and Trust Co. of Boston is the trustee of the several series.

For the six months ending Feb. 1, 1897, the underlying bond interest and dividends received aggregated \$130,258; collateral trust bond interest and expense amounted to \$105,075 leaving net profit from income \$34,183; after charging off \$33,974, the total surplus of Feb. 1, 1897, including previous surplus \$6,600, was \$6,808.

The financial statement Feb. 1, 1897, shows:

	Assets.	Liabilities.
Stocks.....	\$1,100,000	
Bonds.....	375,000	
Accounts receivable.....	47,122	
Notes receivable.....	106,625	
<b>Total.....</b>	<b>\$1,628,747</b>	
First series, 1890-1920.....		40,000
Second series, 1890-1920.....		80,000
Third series, 1891-1921.....		117,000
Fourth series, 1891-1921.....		148,000
Fifth series, 1892-1922.....		180,000
Sixth series, 1892-1922.....		210,000
Seventh series, 1892-1922.....		240,000
Eighth series, 1892-1922.....		270,000
Ninth series, 1892-1922.....		300,000
Notes payable.....		25,000
Surplus.....		6,808
<b>Total.....</b>		<b>\$1,628,747</b>

Note.—The report contains a list of the collateral pledged for each series of call and collateral bonds and the collateral for sale.

## Grand Rapids Gas-Light Company.

(Statement for the year ending Dec. 31, 1896.)

The Grand Rapids Gas-Light Company, of Grand Rapids, Mich., has had its \$1,225,000 bonds and \$1,000,000 stock placed on the regular list of the New York Stock Exchange. The application to the Exchange says in part:

The company was chartered Jan. 17, 1895, for 30 years, under the general laws of the State of Michigan. On April 24 it acquired by purchase all the property, rights and franchises of the Grand Rapids Gas Company, manufacturing and selling gas to the city of Grand Rapids under authority of an ordinance of the Common Council, passed January 6, 1890, and running for thirty years from that date. The property consists of the gas works, with a complete system of mains, etc., throughout the city of Grand Rapids. The company owns a valuable piece of real estate in the city, well located for a purpose. The plant has a capacity of 1,500,000 cubic feet per day, the company owns 75 miles of main pipe. The number of meters in use December 31, 1896, was 6,170.

The \$1,225,000 first mortgage 5 per cent 25-year \$1,000 gold bonds are secured by deed to the Central Trust Company of New York, trustee, are dated Feb. 1, 1895, and due Feb. 1, 1915, interest payable F&A, and principal registrable in the City of New York. The bonds are redeemable at 110 and interest upon six weeks' notice by publication in New York and Grand Rapids, and are part of a total authorized issue of \$1,500,000, the remaining \$275,000 being in the hands of the trustee to provide for extensions and improvements.

## EARNINGS FOR YEAR ENDING DEC. 31.

Year.	Net.	Interest.	Dividends.	Bal.	Surplus.
-------	------	-----------	------------	------	----------

1896.....\$125,438 \$61,250 (5 p c.) \$0,000 \$14,146  
1895.....117,084 61,250 (5 p c.) 40,000 15,434

In 1895 4 per cent was paid on the stock 2 or 3 cent May 20 and 2 per cent Nov. 20. In 1896 5 per cent was paid on the stock, 2 1/2 per cent May 20 and 2 1/2 per cent Nov. 20.

The balance sheet December 31, 1896, is as follows:

Allegheuv & Kinzua Ry.—Receiver Appointed.—At Buffalo, March 20, Judge Lambert, sitting in Special Term, appointed Fred. W. Kruse, of Olean, receiver for this road, pending the result of the suit to recover money loaned on the company's bonds, which, it is alleged, were not secured as agreed.—V. 61, p. 365.

American Bell Telephone.—Stock Increased by \$2,365,000.—The stockholders on March 30 voted to increase the capital stock 10 per cent, equal to \$2,365,000, making the total capital \$26,015,000. President Hudson stated that the increase was necessitated by the steady growth of the company's business. The new stock will be offered to stockholders on the basis of one share of new for each 10 of old now held, at such price as the Commissioner of Corporation may fix, and a y stock remaining unsubscribed under this arrangement will be sold at.

public auction. The subscriptions to the new stock will be payable—one-half on July 1, 1897, and the balance on Oct. 1, 1897. A circular regarding the issue will be put out at an early date.—V. 64, p. 609.

**American Tobacco.—Dividend on Common.**—The directors on Wednesday announced the regular quarterly dividend of 2 per cent on the preferred stock and a dividend of 2 per cent on the common stock. On the common was paid 12 per cent per annum from 1891 to November, 1895. Subsequent payments have been: May, 1896, 2 per cent cash and 20 per cent in scrip; December, 4 per cent in cash, and in February, 1897, 8 per cent.

**Factors' Agreement Abandoned.**—The company has sent out circulars to its jobbers announcing the abandonment of the factor system in selling its products to consumers. So many laws have been passed in the various States against this factor agreement that it was decided litigation to test the constitutionality of all these acts would be too expensive. It is proposed to substitute cash donations or gifts of merchandise as a means of stimulating trade.—V. 64, p. 515.

**Atchison Colorado & Pacific RR.—Atchison Jewell County & Western RR.—Majority of Bonds Deposited.**—A majority of the 1st mortgage 6 per cent bonds of each of these companies have been deposited with the protective committee, of which T. Jefferson Coolidge, Jr., is chairman. An application to list Trust Committee certificates for the bonds on the New York and Boston Stock Exchanges will be made immediately. Additional deposits can be made without penalty up to and including April 1st. See advertisement in another column.—V. 64, p. 516.

**Atlantic Coast Line.—Consolidation of South Carolina Lines.**—Under date of March 27 President Walters writes us: "We have procured from the South Carolina Legislature a charter authorizing us to consolidate all of the railroads we control in South Carolina into a single company bearing the name of the Atlantic Coast Line Company of South Carolina. This charter was procured simply as a preliminary step. No decision has as yet been arrived at by any of the companies as to whether or not the charter will be availed of. I am therefore unable to give you any more definite information."—V. 64, p. 232.

**Atlantic & Pacific RR.—Atchison Topeka & Santa Fe RR.—Foreclosure Sale of Western Division May 3.**—The Western division of the Atlantic & Pacific RR. is advertised to be sold under foreclosure of the first mortgage of 1883, at Gallup, N. M., on May 3, the upset price being \$5,000,000. The Western Division first mortgage bonds were all deposited as part security for the first guaranty trust mortgage of 1887, which was foreclosed in April 1895, the collateral being bought in by the Bangs reorganization committee for account of the assenting bondholders. In January last, as previously noted in this column, the Bangs committee sold the Western division bonds to the Atchison, which company, through the foreclosure sale now advertised, will perfect its title to the 564 miles of road in the Western division.—V. 64, p. 609.

**Atlas Tack Co.—Sale of Assets April 27.**—Pursuant to a decree made by the United States Circuit Court on March 15, the receivers will sell the property of this company as an entirety at auction in Boston on April 27. The sale will be made subject to a mortgage of 1891 to the Boston Safe Deposit & Trust Co., upon which there is due for principal and interest \$237,568, the upset price for the property, subject to said mortgage being \$250,000.—V. 62, p. 1176.

**Baltimore & Ohio RR.—Interest Payments April 1.**—It is announced from Baltimore that the following interest, amounting to about \$390,000 will be paid:

Loan.	Coups.—Where Payable.	Amount.
Philadelphia Division.....	London, Brown, Shipley & Co.,	\$261,360
Parkersburg Branch.....	{ N. Y., J. P. Morgan & Co., }	90,000
	{ and Balt., by receivers. }	
Loan of 1883 extended at 4%.	Baltimore, by receivers.....	31,910
Equip't trust, Series, "A".....	Phila. Finance Co., of Pa.....	7,500

**Brooklyn Elevated RR.—Default.—Coupons Paid at Rate of 4 Per Cent Per Annum by Committee.**—The company was unable to meet the coupons due April 1, but the reorganization committee, pursuant to the plan announced last week, is paying the same at the rate of \$20 in cash on each Brooklyn Elevated and Union Elevated first mortgage bond deposited with the Central Trust Co. Subsequent coupons will be similarly paid.—V. 64, p. 609.

**Butte Consolidated Street Ry.—Foreclosure Suit.**—The Massachusetts Loan & Trust Co., mortgage trustee, has brought suit against this company for foreclosure and the appointment of a receiver. Interest to the amount of \$135,000 is said to remain unpaid on the \$500,000 mortgage of 1881.

**Cape Fear & Yadkin Valley Ry.—Foreclosure Decree Signed.**—At Raleigh, N. C., April 2, Judge Simonton signed the decree for the sale of the property as a whole, except the rolling stock and the South Carolina Pacific Ry., which shall be sold separately. No bid for property, exclusive of the South Carolina Pacific, for less than \$2,000,000 shall be accepted. Four branch lines, covered by a mortgage to the Farmers' Loan & Trust Company of New York are not affected by the sale, but the consolidated mortgage to the Mercantile Trust & Deposit Company of Baltimore is adjudged a valid and subsisting lien upon such branch line. Bidders will be required to deposit \$31,000 with the Special Masters, and if their bid is not accepted the money is to be returned.—V. 64, p. 189.

**Chesapeake Ohio & Southwestern RR.—Foreclosure Sale of Equipment.**—At Louisville, March 27, the rolling stock securing the equipment bonds of 1881 was sold under foreclosure and purchased in the interest of the Illinois Central RR. Co. The equipment included 533 box cars, 280 gondola cars, 9 refrigerator cars, 33 ten-wheel engines, 5 eight-wheel engines and 2 six-wheel switch engines.—V. 64, p. 422.

**Columbus Hocking Valley & Toledo Ry.—Coupon Payments.**—Coupons due March 1, 1897, on Columbus & Toledo RR. second mortgage 7 per cent bonds and coupons due April 1st, 1897, on Columbus & Hocking Valley RR. first mortgage 7 per cent bonds are being paid upon presentation at the office of the State Trust Co., 100 Broadway, N. Y. Coupons of the car trust bonds were paid April 1, when due.

**Receivers Authorized to Borrow.**—At Columbus, Ohio, March 30, Judge George R. Sage, of the United States Circuit Court, authorized Receiver Monsarrat to borrow \$100,000, to be used in addition to the earnings to meet obligations of the company, including the coupons above mentioned.—V. 64, p. 610.

**Columbus Sandusky & Hocking RR.—Coupon Payments.**—The coupons due April 1 on the prior lien bonds of 1895 were paid at maturity.—V. 64, p. 423.

**Diamond Match.—Englishmen Propose to Take Over the Liverpool Plant in Consideration of an Option on Stock.**—Coates, Son & Co., of London, have agreed to organize and finance an English company to take over the Liverpool factory of the Diamond Match Co., and to assist in introducing the match machinery in other foreign countries, in consideration of being given an option, running to Nov. 1, on a large block of the stock at \$165 a share. The Chicago "Economist" says:

The Illinois Trust & Savings Bank has been selected as depository to receive the stock under a trust agreement which permits the depository to deliver it to the Londoners at any time during the life of the option, at the stipulated price. E. L. Lobdell and Clarence Buckingham have been at work this week among local holders of the stock getting signatures to the trust agreement, and already upward of 30,000 shares have been secured. The largest local holders have assented to the proposition.

The Englishmen would like a controlling interest in the company. The deal is, however, not contingent upon getting so large an amount of the stock. Probably 40,000 to 5,000 shares will satisfy them. Thus the controlling interest in the company will probably remain on this side of the water.

The positive consideration for this option consists in the forming of the English company to take over the Liverpool plant. The Diamond Match Co. is to receive bonds or preferred stock to the amount spent in building the plant, approximately \$500,000. In addition it is to receive 51 per cent of the common stock of the new company, in return for which it will furnish the match machinery and permit the use of its patents. The Diamond Match Co. will thus control the English company, and 51 per cent of whatever profits the new field yields will accrue to the stockholders in the parent company. It is proposed furthermore to continue even more actively the campaign for introducing Diamond Match machinery abroad which was begun a year ago. Coates, Son & Co. are to lend their assistance and the Diamond Match Co. is to receive 51 per cent in the stock of whatever other auxiliary companies may be formed for operating the machines in countries other than England. The new deal, it is understood, does not include France nor Austria. President Barber is now in Paris and the negotiations with the French Government, in which considerable progress was made last year, may be carried to a successful conclusion. The Austrian deal also was gotten well under way last year.—V. 64, p. 235.

**Erie RR.—Offer to Purchase Bonds Due May 1.**—Messrs. J. P. Morgan & Co. give notice that they are prepared to purchase the \$2,482,000 first mortgage 7 per cent bonds of the New York & Erie RR. Co. due May 1st, 1897, at 103 and interest, on delivery of the bonds at their offices, the right being reserved to terminate this offer without notice. The new Erie mortgage of 1895 specially provided that these bonds might be extended at the company's option for any period at not over 4 per cent interest, principal and interest, if so desired, payable in gold.—V. 64, p. 373.

**Evansville & Richmond RR.—Evansville & Terre Haute RR.—Guaranty of Bonds Upheld in Supreme Court of New York.**—A judgment overruling demurrer to John Dugan's complaint in his suit against the Evansville & Terre Haute RR. Co., to hold it liable upon a guaranty of bonds of the Evansville & Richmond RR., was affirmed on March 27 by the First Appellate Division, in an opinion by Justice Ingraham. The complaint alleged two causes of action: the first, to recover the amount of certain first mortgage bonds on western division, Elmhurst to Columbus, and the second, to recover the amount due upon certain first general mortgage bonds. The liability of the defendant is based upon the following guaranty, which was placed on each of the bonds:

"The Evansville & Terre Haute Railroad Company, for a valuable consideration, the receipt whereof is hereby acknowledged, hereby guarantees the payment of the principal and interest mentioned in the within bond according to the tenor and effect thereof; and that placed upon each of the bonds described in the second cause of action being 'for a valuable consideration, the receipt whereof is hereby acknowledged, the Evansville & Terre Haute Railroad Company hereby guarantees to the holder of the within bond the punctual payment of the principal and interest thereof when and as the same shall become due and payable.'"

As to the Western division bonds, of which all but a few have been exchanged for the general mortgage bonds, fifteen bonds being represented in this action, the Court holds the defendant is liable for the coupons due and unpaid, but in the absence of any other provision in the mortgage than is alleged is under no obligation to pay the principal until maturity.

As to the general mortgage bonds, of which 103 bonds were represented in this action, the Court holds: "By the bond it is provided that upon default in the payment of the interest the principal and interest might become collectible in the manner, to the extent and with the effect specified and set forth

in the deed of trust or mortgage, and by the deed of trust it is provided that upon the default in the payment of the interest the principal of the bond secured by the mortgage should, at the election of the trustees, become immediately due and payable. Under this provision, therefore, immediately upon default being made in the payment of the interest, upon the election of the trustees the principal sum became at once due and payable by the obligor to the holder of the bond, and the defendant, having guaranteed the payment of the principal and interest thereof when the same shall become due and payable and the principal having become due and payable, according to the bond itself, the defendant was liable.

"We think, therefore, the demurrer to both causes of action was properly overruled and that the judgment should be affirmed, with costs."—V. 64, p. 610.

**Indianapolis & Broad Ripple Rapid Transit—Receiver Applied for.**—A receiver has been applied for for this company. The indebtedness of the corporation is stated to be \$186,385, of which \$150,000 is claimed by the Electric Corporation of Boston. The State Street Safe Deposit & Trust Co. is trustee under the first mortgage of 1895 for \$400,000.

**Kansas City Pittsburg & Gulf Ry.—Mr. Stilwell elected President.**—E. L. Martin having resigned the presidency, A. E. Stilwell, Vice President and General Manager, has been chosen by the board of directors to succeed him. Mr. Martin was appointed to fill the vacancy caused by Mr. Stilwell.—V. 64, p. 469.

**Leominster & Clinton Street Railway—Bonds Offered.**—This company's \$150,000 5 per cent sinking fund first mortgage 20-year gold bonds, 1897, are offered for sale. This is the first lien on the company's entire line of electric railway, which extends from Leominster, Mass., through Lancaster and South Lancaster to and through the principal streets of Clinton, Mass. Three miles from Leominster the company owns a large tract of land, part of which has been laid out as a public park, provided with facilities for recreation and sport. This park became during 1896 a popular summer resort. At this point also the company has developed an extensive water power sufficient to supply nearly all the electric power required by the road at a nominal cost. The entire road is about twelve miles long.

The earnings for the first six months, during part of the time the road was building were: Gross, \$20,020; expenses, including taxes and insurance, \$12,570; net earnings, \$7,151. See advertisement of Fuller, Harding & Co. on another page.

**Louisville Evansville & St. Louis RR.—Receiver's Certificate.**—The United States Circuit Court at Indianapolis has authorized the issue of \$324,500 receiver's certificates to take up \$250,000 certificates issued one year ago; \$40,000 for the purchase of 100 dumpcars and \$4,500 for interest on the bonds of the Venice & Carondelet road.

**First Mortgage Committee.—Notice to Bondholders.**—Foreclosure proceedings having been instituted under the first mortgage of 1886, as well as under the second mortgage, a committee consisting of John M. Graham, President International Trust Co., Boston, Mass.; Alfred D. Foster, Vice-President New England Mutual Life Insurance Co., Boston, Mass., and John S. Ives, Vice-President Fidelity Trust & Safety Vault Co., Louisville, Ky., notifies all first mortgage bondholders that it is important that their bonds should be deposited with the International Trust Co. of Boston, Mass., or the Fidelity Trust & Safety Vault Co., of Louisville, Ky., on or before April 30, 1897, under an agreement for the protection of their interests. See advertisement in another column.

**Second Mortgage Reorganization Committee.**—Holders of the second mortgage bonds of 1886 are invited to deposit their bonds with the International Trust Co. of Boston or the Louisville Trust Co. of Louisville, on or before April 15, 1897, under an agreement appointing George W. Norton, J. F. Henry and James W. Bryan a committee for the protection of their interests. Negotiable receipts will be issued for deposited securities.—V. 64, p. 423.

**Louisville New Albany & Chicago Ry.—Chicago Indianapolis & Louisville Ry.—New Company Organized.—New Securities.**—The Chicago Indianapolis & Louisville Ry., which in the course of a few weeks will succeed to the property of the old Louisville New Albany & Chicago, foreclosed, has been organized with the following directors: Samuel Thomas, John Greenough, John G. Moore, Edward R. Thomas, Gilbert H. Shaw, W. H. McDowell, James Murdock, Crawford Fairbanks and V. T. Melott. The officers elected are: Samuel Thomas, President; W. H. McDowell, Vice President and General Manager; John A. Hilton, Secretary and Assistant Treasurer; W. H. Lewis, Treasurer and Assistant Secretary; E. C. Fields, Solicitor; George Kretzinger, General Counsel.

The new securities are being printed and will be ready to be issued within a few weeks.—V. 64, p. 567.

**Middletown Unionville & Water Gap RR.—New York Susquehanna & Western RR.—Proposition to Extend Bonds.**—All but twenty-five of the \$250,000 second mortgage bonds of the Middletown Unionville & Water Gap RR have assented to the proposition to extend to June 1, 1911, the principal of the bonds which matured Dec. 1, 1896. When all the assents have been received the bonds will be stamped accordingly and new coupon sheets furnished. It is thought this will be accomplished when the next interest date occurs, viz., June 1.—V. 64, p. 1159; V. 64, p. 424.

**New York & Harlem RR.—New York Central & Hudson River RR.—Who will get Saving from Refunding of Harlem**

78.—In reply to our inquiry an official of the New York & Harlem writes us: "The question as to which company the saving in interest on the refunding of the \$12,000,000 Harlem Railroad 7s, due in 1900, is to accrue, has not as yet been definitely determined. It is now under consideration."—V. 64, p. 518.

**New York New Haven & Hartford RR.—New Debentures.**—A despatch to the "Evening Post" says that it is officially stated that the amount authorized of the new 4 per cent non-convertible debenture bonds of this company is \$10,000,000, of which \$3,000,000 will be issued as soon as the bonds can be printed. The bonds will run for fifty years, to March, 1947. The remaining \$7,000,000 of the loan will be issued as needed in connection with the requirements of the floating debt and authorized improvements.—V. 64, p. 611.

**Norwich & Worcester RR.—New England RR.—Modified Lease.**—The New England RR. Co., as is well known, has been operating the Norwich & Worcester under the old lease of 1869 to the Boston Hartford & Erie, subject to the modifications of April 20, 1886. This lease has now been modified as of Jan. 1, 1897, in the following particulars:

1. The N. & W. agrees to extend its road on the east side of the Thames River to a connection with the N. Y. N. H. & Hartford at or near Groton.

2. The N. & W. having acquired all the capital stock of the Norwich & Worcester Transportation Co., that property is included in the lease the lessee to keep the same in good condition.

3. The value of the personal property for which the lessee shall be accountable on termination of the lease is fixed at \$630,620.

4. Property not needed for the use of the railroad or steamboats may be sold or sublet with the approval of the directors of the N. & W., and the proceeds credited to improvement fund.

5. The provisions of the old lease providing for a managing agent to collect and disburse the earnings of the leased property shall be suspended so long as the lessee pays the rental promptly.

6. The lessee as rental shall pay to the lessor an amount equal to 2 per cent quarterly on the capital stock (of which \$2,769,200 is now outstanding) as now or hereafter issued, the interest on all bonds now or hereafter outstanding and interest on the floating debt (\$300,000 N. & W. and \$30,000 N. & W. Transportation Co.) until the same shall be funded.

The N. & W. agrees to issue, when requested, additional stocks and bonds as follows: (a) to pay for the construction and reconstruction of the line between Norwich and Groton; (b) to pay for permanent improvements as approved by N. & W. directors; (c) to pay \$500,000 floating debt above mentioned; (d) to refund bonds maturing.—V. 64, p. 470.

**Old Colony RR.—\$200,000 Stock to Be Sold.**—By order of the directors \$200,000 of the company's capital will be sold at auction in Boston, April 10, by R. L. Day & Co.—V. 64, p. 234.

**Oregon Short Line RR.—New Securities.**—The new securities, it is thought, will be ready for distribution within the next thirty days. The company has opened an office in the Ames Building, Boston, where President Carr and Secretary Cummins are located.—V. 64, p. 611.

**Peoria Decatur & Evansville Ry.—Decree in Second Mortgage Foreclosure Suit.**—At Springfield, Ill., March 31, Judge Allen, in the Federal Court, entered a decree of foreclosure in the second mortgage bondholders' suit. Twenty days are allowed for redemption, at the expiration of which time the Master in Chancery is directed to sell the property after six weeks' advertising. The sale will be subject to the first mortgages. It is expected to have a plan of reorganization formulated prior to the sale. Of the \$2,088,000 second mortgage bonds, practically all are deposited with the New York Security & Trust Co., under the bondholders' agreement.—V. 64, p. 518.

**Pittsburg Allegheny & Manchester.—North Side Traction.—Lease and Purchase of Stock.**—The Pittsburg papers report that negotiations are again in progress for a lease of the Pittsburg Allegheny & Manchester road to the North Side Traction Co.—V. 63, p. 1064; V. 64, p. 235.

**St. Louis Southwestern Ry.—May Coupons—Official Statement.**—Touching the fall on Thursday in the price of the company's bonds, Vice-President Edwin Gould made the following statement:

There is no cause for it in the condition of the company. Our fixed charges are only \$800,000 a year on a road over 1,700 miles in length. Our floating debt has been practically extinguished. We always make a temporary loan for our May interest payments, but pay it off in a short time from net earnings. We have felt the hard times but have done much better than most Western roads. Our interest due May 1 is provided for, and I will purchase, through the Secretary of the company at 195 Broadway, any coupons presented for collection, at their face value, deducting interest at 6 per cent till May 1.—V. 63, p. 648.

**Second Avenue RR., New York.—No Money for Dividend.—Circular to Stockholders.**—Stockholders of this company, which last January came into the control of a syndicate with which William C. Whitney and Thomas F. Ryan were identified, have received the following statement of affairs from John D. Crimmins:

In view of the fact that the usual dividend day, the 1st of April, is now near at hand, the board of directors find it necessary to make a statement to the stockholders of the company of its actual financial condition, as follows (For comparison we add the statement issued by the old management for the years ending June 30, 1895 and 1895.—EHS.):

	—Present Circular.—	1896.	1895.	1891.	1890.	1895.
Total receipts, fares, advertising, privileges and rentals	1,788,824	942,700	990,183	895,889	957,463	
Operating expenses, including taxes, rentals and interest on funded debt	818,800	880,505	902,097	802,485	864,343	
Net earnings	def. 30,041	02,104	84,085	93,204	93,120	
Dividends paid	53,790	93,100	93,100	93,100	93,100	
Deficit	113,831	30,995	5,014	sur. 101	sur. 20	

From this statement it appears that there was not for the year 1896 any earnings properly applicable to the payment of dividends, but on the contrary a deficit of \$30,941 in the operation of the road. An apparent balance to the credit of the same account was created, partly by omitting from the accounts items of expense for which there could be no possible excuse. In this way a floating debt was created amounting to \$148,214 when the present management took control, Feb. 1, 1897. No taxes and assessments upon the property of the company had been paid for the last two years, and bills for horses purchased for renewals had been allowed to accumulate until they reached an indebtedness of \$19,905. It has also devolved upon us to pay judgments and settlements in suits against the company amounting to \$22,248.71. The present board has introduced changes and improvements in methods of operation, which will shortly show in benefits to the property, but no safe prediction can be made as to its ability to earn dividends.

This circular is taken to mean that for the present dividends will be suspended.—V. 64, p. 472.

**South Side Elevated RR.—Chicago & South Side Rapid Transit.—New Securities Ready.**—The certificates of stock of the South Side Elevated RR. are now being issued in exchange for the reorganization receipts representing the bonds of the old Chicago & South Side Rapid Transit Co. The new stock is \$10,328,800, and of this \$8,216,925 goes to the holders of 7,386 first mortgage bonds, being par in stock for their principal and overdue interest to Jan. 1, 1897 (11½ per cent.), and \$1,937,100 goes to the holders of 2,935 extension bonds, being 60 per cent in stock for their principal over-due interest 10 per cent. There were only 1¼ first mortgage and 65 extension bonds that did not come into the reorganization.

**Reorganization Notice.**—Notice is given by advertisement in another column that the Northern Trust Co. of Chicago is now issuing the stock of the South Side Elevated RR Co. in exchange for the trust receipts of the Chicago & South Side Rapid Transit bonds each holder of \$1,000 first mortgage trust receipt being entitled to receive 11¼ shares (\$1,112.50) and each holder of \$1,000 extension mortgage trust receipt to 6 6-10 shares (\$660) of the new stock.—V. 64, p. 180.

**Tacoma Ry. & Motor.—Sold in Foreclosure.**—This property has been sold under foreclosure for \$109,000 to Howard C. Reavis, of New York, said to have been acting for the General Electric Company.—V. 63, p. 1160.

**Union Pacific Ry.—Committee for Collateral Trust 5s of 1883.—Deposits Called For.**—A committee consisting of Francis S. Bangs, Howland Davis and William E. Glyn has been formed to protect the collateral trust 5s of 1883. Deposits of the bonds accordingly are requested to be made with the State Trust Co. of this city under an agreement dated March 25, 1897, which empowers the committee to proceed to foreclose the collateral trust deed whenever in the opinion of the committee sufficient of the bonds have been deposited. The committee is authorized in its discretion to buy the collateral at foreclosure sale and to distribute ratably the securities so purchased and all cash collected by it after meeting necessary expenses among the holders of the certificates representing the bonds deposited under the agreement. See advertisement in another column.

**Committee for Collateral Trust 6s of 1879.**—A committee has also been formed for the collateral trust 6s of 1879.—V. 64, p. 567.

**Western Freight and Passenger Associations.—Joint Traffic Association.—Trans-Missouri Freight Association.—Maintenance of Organization.**—The Western Freight and Passenger Associations, which, it was reported last week, would be entirely disbanded, it is now proposed to maintain on a basis conforming with the Trans-Missouri decision of the Supreme Court. The freight association is to be called the Western Freight Traffic Bureau. The passenger association may retain its present name, but in future the main duties of both freight and passenger organizations will be the collection and distribution of statistics as to rates, tonnage, etc. In the case of the Freight Bureau each road is to file with the Commissioners its schedules of division of through rates. No power, however, is given to the Commissioners to fix the division of such rates.

The Joint Traffic Association of the Eastern trunk lines differs in so many respects from the Trans-Missouri Association that it has been decided to continue it in operation as heretofore. The Government has filed its appeal in the suit against the Association and a motion has been made to advance it on the docket, that the case may be heard, if possible, before the Summer adjournment.—V. 64, p. 567, 612.

**Wheeling & Lake Erie Ry.—Coupons in Default.**—Default occurred April 1 on the coupon then due upon the first mortgage bonds of 1926 (Lake Erie Division); coupons due March 1, 1897, on the Toledo Belt Railway first mortgage 5s likewise are in default.

**Reorganization Notices.**—The Fitzgerald reorganization committee announces that it has received deposits of nearly all of the consolidated mortgage 4 per cent bonds and has in preparation a plan of reorganization embracing all interests. In view of the default of April coupons the committee invites holders of first mortgage bonds of 1926 (Lake Erie Division), and also of first mortgage bonds of 1928 (Wheeling Division), to make deposit of the same for mutual protection with the Mercantile Trust Company of New York. Edward N. Gibbs, Vice-President of the New York Life Insurance Co., has been added to the committee. See notice in another column.

Holders of first mortgage bonds of 1926 are notified by Matland, Coppel & Co. that in view of the default on the coupons due April 1 the firm as owners of and representing a large amount of bonds, beg that other holders will communicate with them for the protection of all interested. See notice in another column.—V. 64, p. 566.

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, April 2, 1897.

The passage by the House of Representatives of the Tariff bill with the retroactive amendment providing that the proposed duties shall, with certain restrictions, take effect from the first day of April has had considerable influence in some lines of business, although it is believed that the amendment will be rejected by the Senate. Business in general has been repressed to some extent by the uncertainty attending the final outcome of the tariff legislation, but the fact that values will probably be increased rather than diminished has prevented any marked depression. European advices have reported the political situation in a rather more complicated condition, but it has had apparently comparatively little influence locally.

The following is a comparative statement of stocks of leading articles of merchandise at dates given:

	Apr. 1, 1897.	Mar. 1, 1897.	Apr. 1, 1896.
Pork.....bbls.	8,793	11,227	6,436
Lard.....tes.	22,578	24,661	21,697

Sisal hemp.....bales.	2,011	23,170	48,090
Flour.....bbls. and sacks.	120,300	115,100	146,000

There has been only a limited call for lard on the spot, but values have held steady, closing quiet at 4½c. for prime Western, 4½c. for prime City and 4½c. for refined for the Continent. The local market for lard futures has continued flat, but at the West there has been a moderately active speculation and prices have advanced slightly on the decreased receipts of swine.

#### DAILY CLOSING PRICES OF LARD FUTURES

	Sat. 4:50	Mon. 4:50	Tues. 4:55	Wed. 4:52	Thur. 4:55	Fri. 4:55
--	--------------	--------------	---------------	--------------	---------------	--------------

May.....c. 4:50 4:50 4:55 4:52 4:55 4:55

Pork has had only a limited sale, but values have held about steady, closing at \$9@9.50 for mess. Cut meats have been steady. Tallow has had a better sale, and the close was firm at 3½c. bid and 3½c. asked. Cotton seed oil has been quiet and easier, closing at 20¼c. for prime crude and 23¼@23c. prime yellow. Butter and cheese have been fairly active and steady. Fresh eggs have been steady.

The Brazil grades of coffee have had very little call, and as there have been moderate offerings prices have declined, closing at 8c. for Rio No. 7. Mild grades have been in good supply but demand has been slack and prices have further declined to 15c. for good Cucuta; standard Java has been unchanged at 25@25½c. There has been more activity in the trading in the market for contracts but at the expense of prices. Continued heavy receipts at primal points prompted liquidation by longs, and prices for the week show a decline of 55@70 points.

Raw sugars have been in demand and although refiners have advanced their bids slightly they have obtained only a limited supply. The close was firm at 3½c. for Centrifugals, 96-deg. test, and 3c. for muscovado, 89-deg. test. Refined sugars have been in demand and higher; granulated closed firm at 4½c. Teas have had a moderate call at steady prices.

Kentucky tobacco has had a fair call and sales for the past month were 1,000 cases at full values. Seed leaf tobacco has had only a limited call, but prices have held firm. Sales for the week were 1,727 cases, including 400 cases 1895 crop New England Havana, 16@25c.; 500 cases 1895 crop Wisconsin Havana, 8@10c., etc.; also 400 bales Havana at 80c. @ \$1.10 in bond, and 500 bales Sumatra at 65c. @ \$2 in bond.

The demand for Straits tin has continued quiet and prices have weakened slightly. The close, however, was firm at 18½@18½c. Ingot copper has had only a very limited sale and prices have declined to 11½@11½c. for lake. Lead has sold slowly but prices have held steady, closing at 3½@3½c. for domestic. Spelter has been quiet, but the close was unchanged and steady at 4½@4½c. for domestic. Pig iron has been quiet and easy at \$10@12 for domestic.

Refined petroleum has further advanced, closing at 6½c. in bbls., 4½c. in bulk and 7c. in cases; naphtha dull at 6½c. Crude certificates have been neglected. Credit balances have been advanced to 96c. Spirits turpentine has had a better sale at steady prices, closing at 29¼@29¼c. Rums have been quiet but steady at \$1.65 for common and good strained. Wool has been firm, but during the latter part of the week business was checked by the retroactive clause in the tariff bill. Hops have been dull and weak.

## COTTON.

FRIDAY NIGHT, April 2, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 54,237 bales, against 61,132 bales last week and 65,459 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,311,114 bales, against 4,822,914 bales for the same period of 1896-6, showing an increase since Sep. 1, 1896, of 1,488,200 bales.

There has continued a very quiet speculation in the market for cotton futures. The fluctuations in prices have been within narrow limits and the net change for the week in values is unimportant. Saturday there was a very slow market and in the absence of speculative interest prices sagged slightly, closing unchanged to 3 points lower for the day. Monday the market opened at a slight advance. Subsequently, however, foreign advices caused a reaction, but the reports received from the South of further damage by the floods prevented a decided break in values and the close showed prices unchanged to 3 points down for the day. A slightly better market was reported on Tuesday. English advices quoted a stronger market for futures and an improved spot trade; this stimulated some buying and prices at one time were up 3 to 5 points. Towards the close there was a slight reaction and final quotations were unchanged to 2 points higher. There was slightly increased activity to the trading on Wednesday. There was foreign buying of the new crop months and the delayed planting, as a result of the floods, induced some buying for local account, as did also a reappearance of the Continent as a buyer in the spot market. The close was at an advance of 1 to 6 points for the day. The market on Thursday opened steady in response to foreign advices, but later in the day selling by the South, particularly of the new crop months, resulted in a decline, and prices closed 4 to 6 points down for the day. To-day the market opened steady at unchanged prices to 2 points advance, and then further improved 3 to 5 points during the day in response to firm advices from the Southern market accompanied by a few buying orders. The close was steady at an advance of 4@6 points. Cotton on the spot was quiet early in the week. Subsequently, however, a moderate business was transacted with spinners and exporters; prices have been unchanged and firm. To-day the market was quiet but steady, middling uplands closing at 7 5-16c.

The total sales for forward delivery for the week are 329,800 bales. For immediate delivery the total sales foot up this week 6,930 bales, including 1,806 for export, 2,224 for consumption, — for speculation and 2,900 on contract. The following are the official quotations for each day of the past week—March 27 to April 2.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.		Sat.	Mon.	Tues.	Wed.	Th.	Fri.

We have included in the above table, and shall continue each week to give, the average price of futures each day for each month. It will be found under each day following the abbreviation "Av'ge." The average for each month for the week is also given at bottom of table.

For exchanges see page 663.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Apr. 2), we add the item of exports from the United States, including in it the exports of Friday only:

	1897.	1896.	1895.	1894.
Stock at Liverpool.....bales.	1,251,000	1,121,000	1,731,000	1,768,000
Stock at London.....	6,000	9,000	7,000	9,000
Total Great Britain stock.	1,257,000	1,130,000	1,738,000	1,777,000

The imports into Continental ports the past week have been 103,000 bales.

The above figures indicate an increase in the cotton in sight to-night of 23,271 bales as compared with the same date of 1896, a falling off of 1,039,265 bales from the corresponding date of 1895 and a decrease of 733,338 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

TOWN.	Movement to April 2, 1897.			Movement to April 3, 1896.

						283,982

\* This year's figures estimated.

The above totals show that the interior stocks have decreased during the week 17,544 bales and are now 34,932 bales less than at same period last year. The receipts at all the towns have been 2,563 bales more than same week last year and since Sept. 1 they are 847,471 bales more than for same time in 1895-6.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending April 2.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—					
	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.
Gulveston	7	7	7	7	7	7
New Orleans	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2
Mobile	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2
Savannah	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2
Charleston	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2
Wilmington	7	7	7	7	7	7
Norfolk	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2
Beacon	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2
Baltimore	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2
Philadelphia	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2
Annapolis	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2
Memphis	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2
St. Louis	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2
Keosauqua	7	7	7	7	7	7
Cincinnati	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2	7 1/2
Louisville	7	7	7	7	7	7

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta	7 1/2	Eufaula	6 1/2	Natchez	6 1/2
Charlotte	7	Idaho Rock	6 1/2	Raleigh	7
Columbus, Ga.	6 1/2	Montgomery	6 1/2	Selma	6 1/2
Columbus, Miss.	6 1/2	Nashville	6 1/2	Shreveport	6 1/2

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Receipts from Plantations.		
	1897.	1898.	1899.	1897.	1898.	1899.	1897.	1898.	1899.
Feb. 26	84,395	95,659	137,940	374,238	410,983	102,728	56,728	64,135	120,399
Mar. 5	95,299	86,286	119,835	350,137	381,368	388,860	71,155	58,871	106,967
12	79,931	71,518	132,381	323,319	302,634	352,976	53,123	49,881	97,197
19	65,459	69,400	123,133	301,139	334,183	344,836	48,279	41,009	118,993
26	61,032	76,237	115,470	278,594	310,494	323,932	36,147	58,548	94,566
Apr. 2	84,237	60,202	116,767	259,060	293,922	278,016	36,693	37,690	68,751

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1898, are 6,445,570 bales; in 1895-96 were 3,684,196 bales; in 1894-95 were 7,562,366 bales.

2.—That although the receipts at the outports the past week were 34,237 bales, the actual movement from plantations was only 36,393 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantation for the week were 37,690 bales and for 1895 they were 62,751 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter as largely into detail as in our regular monthly report, but at the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Apr. 2 and since Sept. 1 in the last two years are as follows.

April 2	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis	9,235	470,032	6,631	471,708
Via Cairo	3,250	246,028	2,976	218,173
Via Parker	396	15,080	300	15,740
Via Evansville	197	2,554	4	72
Via Louisville	1,235	122,676	2,010	119,257
Via Cincinnati	4,160	127,222	1,096	83,880
Via other routes, &c.	1,684	110,147	1,040	78,927
Total gross overland	20,457	1,093,769	14,087	937,757
Deduct shipments				
Overland to N. Y., Boston, &c.	4,535	287,745	7,317	227,015
Between interior towns	236	3,914	87	3,005
Inland, &c., from South	3,615	33,673	2,369	42,014
Total to be deducted	8,416	325,332	9,773	272,067
Leaving total net overland*	12,041	768,437	4,314	715,690

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 12,041 bales, against 4,314 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 52,747 bales.

In Sight and Spinners' Takings.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Apr. 2	54,247	6,311,111	60,202	4,822,914
Net overland to Apr. 2	12,041	768,437	4,314	715,690
Southern consumption to Apr. 2	17,000	620,000	17,000	602,000
Total marketed	83,278	7,699,551	81,516	6,140,604
Interior stocks in excess	17,514	134,456	22,512	261,282
Came into sight during week	65,734		59,004	
Total in sight Apr. 2		7,534,007		6,401,886
Net in sight and spinners' takings Apr. 2	34,523	1,420,543	14,709	1,391,816

\* Decrease during week.

It will be seen by the above that there has come into sight during the week 65,734 bales, against 59,004 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,436,121 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph from the South this evening denote that rain has been general during the week, and that in a number of districts the rainfall has been excessive. In Texas the wet weather has delayed farm work, but has otherwise been beneficial to planting interests. In the South as a whole, however, planting operations are backward. The overflow in the Mississippi Valley has further extended, a number of breaks having occurred in the levees protecting the rich cotton lands of the Yazoo Delta. At present the inundated territory includes most of the White River lands in Arkansas and the Southern half of the Yazoo basin.

Gulveston, Texas.—Rain has quite generally delayed work in Texas, but has been beneficial to farming interests. Hail on Sunday last over the southern portion of the State damaged young cotton where up. There has been rain on four days of the week, the precipitation reaching one inch and forty-six hundredths. Average thermometer 68, highest 78 and lowest 58. March rainfall four inches and fifty-nine hundredths.

Palestine, Texas.—There has been heavy rain on three days during the week, the rainfall reaching three inches and seventy-six hundredths. The thermometer has averaged 64, the highest being 82 and the lowest 46. The rainfall during the month of March reached eight inches and twenty hundredths.

Huntsville, Texas.—The week's rainfall has been one inch and ninety hundredths, on three days. The thermometer has averaged 65, ranging from 46 to 84. March rainfall three inches and fifty-nine hundredths.

Dallas, Texas.—The frost on the twenty-fourth did no material damage to cotton, but heavy rain has delayed farm work. There has been rain on three days of the past week, the rainfall reaching three inches and ninety-five hundredths. The thermometer has ranged from 40 to 84, averaging 62. March rainfall eight inches and fourteen hundredths.

San Antonio, Texas.—There has been very beneficial rain on two days of the week, the precipitation reaching sixty-six hundredths of an inch. Average thermometer 67, highest 86 and lowest 48. March rainfall one inch and sixty-five hundredths.

Luling, Texas.—The week's rainfall has been one inch and ninety-six hundredths, on one day. The thermometer has averaged 69, the highest being 86 and the lowest 52. During the month of March the rainfall reached two inches and twenty-seven hundredths.

Columbia, Texas.—We have had heavy rain on one day of the past week, the rainfall being two inches. The thermometer has averaged 66, ranging from 46 to 86. During the month of March the rainfall was two inches and fifty-five hundredths.

Cuero, Texas.—There has been rain on one day of the past week to the extent of ninety-four hundredths of an inch. The thermometer has ranged from 52 to 85, averaging 68. March rainfall, two inches and nine hundredths.

Brenham, Texas.—There has been heavy rain on two days during the week, the rainfall being two inches and forty-one hundredths. Average thermometer 67, highest 85, lowest 49. During the month of March the rainfall reached three inches and forty-eight hundredths.

Fort Worth, Texas.—Rain, while retarding farm work, has been beneficial to planting interests. It has rained heavily on two days of the week, the precipitation reaching two inches and eighty hundredths. The thermometer has averaged 69, ranging from 52 to 86. March rainfall seven inches and fifty-nine hundredths.

Weath'ford, Texas.—We have had heavy rain on two days during the week, the precipitation reaching two inches and thirty hundredths. The thermometer has ranged from 50 to 83, averaging 66. The rainfall for March was six inches and ninety hundredths.

New Orleans & Louisiana.—We have had rain on four days of the week, to the extent of three inches and thirty-one hundredths. Average thermometer 69.

Shreveport, Louisiana.—There has been rain on three days during the week, to the extent of one inch and twenty-six hundredths. The thermometer has averaged 68, the highest being 83 and the lowest 48.

Columbus, Mississippi.—It has rained on three days during the week, to the extent of sixty-three hundredths of an inch. The thermometer has averaged 59, ranging from 38 to 80. Month's rainfall eight inches and eighty-four hundredths.

Leland, Mississippi.—It has rained during the past week, the rainfall being sixty hundredths of an inch. The thermometer has ranged from 39 to 83, averaging 68.7.

Meridian, Mississippi.—Heavy rains continue causing overflows. Planting will be late.

Picksburg, Mississippi.—We have had rain on three days of the past week, the rainfall reaching sixty hundredths of an inch. Average thermometer 63, highest 86 and lowest 53.

Little Rock, Arkansas.—We have had rain on two days of the week, to the extent of eighty-nine hundredths of an inch. The thermometer has averaged 62, the highest being 83 and the lowest 41.

Stena, Arkansas.—The overflow now extends over most of the White River lands and the southern half of the Yazoo

basin and will extend over the southern half of the Tensas basin and most of the lands below the Red River. Two-thirds of the territory subject to overflow will be inundated and that in the most highly cultivated portion. It has rained on two days of the week, on one of which heavily, the rainfall being one inch and forty-four hundredths. The thermometer has averaged 56, ranging from 41 to 71. During the month of March the precipitation reached thirteen inches and eighty-six hundredths, on eighteen days.

**Memphis, Tennessee.**—Flooding is making fair progress. The river is thirty-three and three-tenths feet on the gauge and falling. There has thus far been eight-tenths of a foot fall from the highest mark of March 19. Great damage has been done by breaks south of Helena on both sides of the river. The crest of the high water will reach Helena about Monday. Probably no further breaks will occur in the Yazoo delta. We have had rain on four days, the rainfall being seventy-five hundredths of an inch, and the weather is now threatening. The thermometer has ranged from 40.2 to 80.2, averaging 60. March rainfall ten inches and four hundredths, on twenty days.

**Nashville, Tennessee.**—Telegram not received.

**Mobile, Alabama.**—Planting preparations are considerably delayed in most sections on account of too much rain. We have had rain on four days of the week, the rainfall reaching three inches and seventy-six hundredths. Average thermometer 65, highest 77 and lowest 47. The month's rainfall was seven inches and forty-three hundredths.

**Montgomery, Alabama.**—The cool and stormy weather is retarding farm work. It has rained on four days of the week, to the extent of one inch and eighty-four hundredths, and rain is still falling. The thermometer has averaged 59, ranging from 46 to 60. March rainfall twelve inches and two hundredths.

**Madison, Florida.**—Rain has fallen on two days during the week, to the extent of fifty hundredths of an inch. Average thermometer 69, highest 82 and lowest 50.

**Charleston, South Carolina.**—Rain has fallen on four days of the week, to the extent of twenty-seven hundredths of an inch. The thermometer has averaged 58, the highest being 74 and the lowest 41.

**Savannah, Georgia.**—There has been rain on three days of the week, to the extent of one inch and fifty hundredths. The thermometer has averaged 59, ranging from 40 to 76.

**Augusta, Georgia.**—It has rained on three days of the week, the rainfall reaching two inches and eighteen hundredths. The thermometer has ranged from 35 to 74, averaging 56.

**Staterurg, South Carolina.**—Killing frost on Sunday. It has rained on three days of the week, the precipitation reaching eighty-four hundredths of an inch. The thermometer has averaged 54.4, ranging from 33 to 71. March rainfall four inches and eleven hundredths.

**Greenwood, South Carolina.**—There has been rain on three days of the past week, the rainfall being eighty-three hundredths of an inch. The thermometer has ranged from 41 to 60, averaging 50.

**Wilson, North Carolina.**—Rain has fallen on one day of the week, to the extent of twenty hundredths of an inch. Average thermometer 50, highest 74 and lowest 30.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock April 1, 1897, and April 2, 1896.

	Apr. 1, '97.	Apr. 2, '96.
New Orleans.....Above zero of gauge	Feet. 17.4	Feet. 10.9

† Inappreciable.

**LIVERPOOL STOCK.**—A re-count of the stock of cotton at Liverpool on Saturday, March 27, showed a reduction of 33,123 bales in the total stock, made up of 8,037 bales American and 30,086 sundries. The total stock at that date was 1,310,877 bales, of which 1,175,963 bales were American.

**HIGH WATER IN THE MISSISSIPPI.**—The past week has witnessed a number of breaks in the levees on the east bank of the Mississippi River. In the vicinity of Greenville, Mississippi, there have been a number of crevasses and a considerable portion of the richest cotton land in the South—the Yazoo Delta section—has been overflowed. Our Helena correspondent telegraphs us this evening that the territory already inundated comprises most of the White River lands and the southern half of the Yazoo basin. By the breaks in the vicinity of Greenville railroad communication has been cut off and it is estimated that ten thousand persons have been rendered homeless.

**JUTE BUTTS, BAGGING, &C.**—There has been little doing in jute bagging since our last report, but quotations have been advanced to 5½¢. for 1½ lbs., 5½¢. for 2 lbs. and 6½¢. for standard grades. Car-load lots of standard brands are quoted at 5½¢. for 1½ lbs., 5½¢. for 2 lbs. and 6½¢. for 2½ lbs., f. o. b. at New York. Jute butts have been dull at 11-160. for paper quality and 140¢. for mixing and bagging, all to arrive. From Messrs. Ira A. Kip & Co.'s circular we ascertain that the deliveries of jute butts and rejections at New York and Boston during March were 30,724 bales, against 65,171 bales for the same month last year and for the three months since January 1 the deliveries have been 82,390 bales, against 152,219 bales last year. Importers and speculators at New York and Boston on March 31 held no stock, against 2,600 bales at the corresponding date in 1896; and the amount of jute for the United States reaches 159,836 bales, against 122,771 bales last year.

**SHIPPING NEWS.**—The exports of cotton from the United States the past week, as per latest mail returns, have reached 79,071 bales.

	Total bales.

## BREADSTUFFS.

FRIDAY, April 2, 1897

There has continued a very slow market for wheat flour, and while no decided weakness has been apparent in prices the tendency has been in buyers' favor. The call for supplies has been limited to hand-to-mouth orders and the small volume of business transacted has been at slight concessions from prices quoted a week ago. City mills have sold slowly, but prices have held about steady. The call for rye flour has continued slow but no change has occurred in prices. Corn meal has had only a limited sale, but values have held about steady.

There has continued a quiet speculation in the market for wheat futures and there has been a gradual weakening of prices, the net decline for the week amounting to  $\frac{1}{8}$  and  $\frac{1}{16}$ ¢. The principal factor has been the improved crop accounts from the winter-wheat districts, although dull and weaker foreign advices have been a depressing factor. Saturday there was practically no change in the market. Monday the market was irregular. The near-by deliveries were stronger on the statistical position but the distant months were slightly weaker. To-day prices weakened  $\frac{1}{16}$  and  $\frac{1}{32}$ ¢ in response to weaker foreign advices, and on Wednesday there was a further break of  $\frac{1}{16}$  and  $\frac{1}{32}$ ¢, under advices from the West reporting more favorable weather conditions for the growing crop. Thursday the market was again irregular; the near-by deliveries declined  $\frac{1}{16}$ ¢, but the distant months advanced  $\frac{1}{16}$ ¢, on buying by shorts to cover contracts. To-day the market advanced  $\frac{1}{16}$  and  $\frac{1}{32}$ ¢ in response to steady foreign advices, and the close was steady. In the spot market business has been quiet but prices have held relatively stronger than for futures. A small export business was transacted to-day but the particulars were kept private. No. 1 Northern Duroh was quoted at 31 $\frac{1}{2}$ ¢, f. o. b. afloat; No. 1 Northern New York, 31 $\frac{1}{2}$ ¢, f. o. b. afloat, and No. 2 hard winter at 28 $\frac{1}{2}$ ¢, f. o. b. afloat.

### DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
March delivery .. ..	60 $\frac{1}{2}$	61 $\frac{1}{4}$	61	61	61	61
May delivery .. ..	78 $\frac{1}{2}$	79 $\frac{1}{4}$	77 $\frac{1}{2}$	77 $\frac{1}{2}$	76 $\frac{1}{2}$	77 $\frac{1}{2}$
June delivery .. ..	77 $\frac{1}{2}$	78 $\frac{1}{4}$	76 $\frac{1}{2}$	76 $\frac{1}{2}$	76 $\frac{1}{2}$	77 $\frac{1}{2}$

September delivery ..	74 $\frac{1}{2}$	74 $\frac{1}{4}$	73 $\frac{1}{2}$	73 $\frac{1}{2}$	73 $\frac{1}{2}$	74 $\frac{1}{2}$

The speculative dealings in the market for Indian corn futures have continued quiet, but there has been a stronger tone to values, and for the week prices show an advance of

$\frac{1}{16}$  and  $\frac{1}{32}$ ¢. The feature has been decreasing receipts despite the fact that roads have been in a better condition, and this has stimulated some buying by shorts to cover contracts. At the close, however, there was a decline of  $\frac{1}{16}$  and  $\frac{1}{32}$ ¢, under selling for Western account. In the spot market only a limited volume of business has been transacted, but prices have advanced. To-day the sales included No. 2 mixed at 30 $\frac{1}{2}$ ¢, in elevator and 31 $\frac{1}{2}$ ¢, delivered; also steamer yellow at 30 $\frac{1}{2}$ ¢, in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
March .. ..	28 $\frac{1}{2}$	30 $\frac{1}{4}$	30 $\frac{1}{4}$	30 $\frac{1}{4}$	30 $\frac{1}{4}$	30 $\frac{1}{4}$
May delivery .. ..	30 $\frac{1}{2}$	30 $\frac{1}{4}$	30 $\frac{1}{4}$	30 $\frac{1}{4}$	30 $\frac{1}{4}$	30 $\frac{1}{4}$
July delivery .. ..	31 $\frac{1}{2}$	31 $\frac{1}{4}$	31 $\frac{1}{4}$	31 $\frac{1}{4}$	31 $\frac{1}{4}$	31 $\frac{1}{4}$
September delivery ..	32 $\frac{1}{2}$	33 $\frac{1}{4}$	33 $\frac{1}{4}$	33 $\frac{1}{4}$	33 $\frac{1}{4}$	33 $\frac{1}{4}$

There has continued a dull speculation in the market for oats for future delivery but there has been a firmer tone, and on buying by a few shorts to cover contracts and in sympathy with the improvement in the corn market prices show an advance of  $\frac{3}{8}$ ¢, for the week. The close was dull but steady. In the spot market there has been fairly active trading. Shippers have been buying and there has been a moderate demand from the home trade. To-day the market was firmer. The sales included No. 2 mixed at 22 $\frac{1}{4}$ ¢, in elevator and No. 2 white at 24 $\frac{1}{2}$ ¢, in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED OATS

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery .. ..	21 $\frac{1}{2}$	21 $\frac{1}{4}$	21 $\frac{1}{4}$	22	22	22
July delivery .. ..	22 $\frac{1}{2}$	22 $\frac{1}{4}$	22 $\frac{1}{4}$	22 $\frac{1}{4}$	22 $\frac{1}{4}$	22 $\frac{1}{4}$

Rye and barley have had only a very limited sale but values have held steady.

The following are closing quotations:

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., April 2, 1897.

There has been no developments of material importance in the cotton goods division of the market during the past week. The daily attendance of buyers has been moderate, store trade quiet and business arising from mail orders of about average proportions. Under such conditions and in the absence of any outside influence sufficiently strong to attract attention, the attitude of both buyers and sellers remains unchanged. The former are content to keep requirements covered as they arise and the latter are content to sell when they can without making concessions in price. The export demand for heavy brown goods has not been obtrusive, but there is a fair amount of business being done quietly on foreign account. The woolen goods division shows some indication of advancing tendency more under a strong wool market than direct tariff influences. The chief effect of the latter is seen in the foreign goods market, which is in a state of greater uncertainty than before, owing to the addition of the retroactive clause to the Tariff bill as passed by the House. Importers do not think this clause will go with the rest of the bill through the Senate, but nevertheless business is greatly cramped meanwhile.

**DOMESTIC COTTON GOODS**—The exports of cotton goods from this port for the week ending March 29 were 6,859 packages, valued at \$251,353, their destination being to the points specified in the tables below:

NEW YORK TO MARCH 29.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	53	1,410	8	5'6

Total.....	6,859	67,411	6,710	59,484

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$2,415,272 in 1897 against \$2,216,162 in 1896.

The home demand for brown sheetings and drills has been quiet in the aggregate, with little interest taken in contracts for forward deliveries. Drills are relatively better situated

than sheetings and more regular in price. Brown osenaburgs are rather more inquired after, but brown ducks continue slow. In bleached cotton the demand has again been of a monotonous character, lacking spirit in all directions. Prices are without quotable change, but sellers are not always as steady as of late. Ticks are inactive after recent sales at low prices. Denims are dull and readily offered at previous prices; other coarse colored cottons dull and featureless. Wide sheetings firm but quiet; leading stocks in good shape. Cotton flannels and blankets have sold fairly for new season requirements. Kid finished cambrics are dull but steady on the basis of 3¢ for 64 squares. Fancy calicos and fine specialties in printed lines have been in quietly steady demand in a regular way. Some lots of the latter have been closed out under special prices. Indigo blues, shirtings, black and whites and other more staple lines of prints are firm. Staple ginghams in irregular demand at low prices. Dress styles slow. Napped fabrics in new dark work fairly ordered and generally at last season's prices. Print cloths have been quieter this week but prices have ruled steady on the basis of 29 1/2¢ for extras.

	1897 Mar. 27	1896. Mar. 28.	1895. Mar. 30.	1894. Mar. 31.
<i>Stock of Print Cloths—</i>				
At Providence, 84 squares.	}	221,000	122,000	204,000
At Fall River, 64 squares.		694,000	77,000	320,000
At Fall River, odd sizes....		435,000	115,000	69,000
<b>Total Stock (pieces)....</b>		<b>1,400,000</b>	<b>314,000</b>	<b>593,000</b>

\* By agreement among the cloth brokers no detailed statement of the print cloth market is made public.

**WOOLEN GOODS.**—The demand for men's wear woollens and worsteds has been quiet during the week but still fair for the time of year, and in view of the fact that the larger buyers are all practically through with their first round of orders for heavy-weights. The tone of the market is decidedly firm for the general run of both staple and fancy all-wool and all-worsted goods, a supporting factor being the strong condition of the market for raw wool. There are a few sellers anxious to cover a considerable output yet, and consequently easy to deal with, but the majority either hold very firmly to previous prices or are turning down new business except at an advance of 5 to 7½ per cent. Overcoatings and cloakings are also generally firm. Satinets well held as a rule, and a steady market noted in cotton-warp cassimeres. Flannels and blankets rule firm, with an occasional advance in the former. Plain dress goods for fall tent upward, and a fair business is reported in both these and fancies.

**FOREIGN DRY GOODS.**—As noted above, business in foreign merchandise for fall has been interfered with by the retroactive provision in the Tariff bill as passed by the House. The orders taken during the week have been indifferent, both buyers and sellers being extremely cautious. In reasonable goods business has been of a cleaning-up character.

**Importations and Warehouse Withdrawals of Dry Goods.** The importations and warehouse withdrawals of dry goods at this port for the week ending April 1, 1937, and since January 1, 1937, and for the corresponding periods of last year are as follows:

H. E. May & Co., Lewiston, Me.	103-5366
Lee, Higginson & Co., Boston, Mass.	103-4536
Jose Parker & Co., Boston, Mass.	102-950
Jas. W. Longstreet & Co., Boston, Mass.	102-539
Biedgel, Merrill & Co., Boston, Mass.	102-570
National Shoe & Leather Bank, Auburn, Me.	103-347
Parkinson & Burr, Boston, Mass.	102-010
Tyler, Fogg & Co., Bangor, Me.	101-400
R. L. Day & Co., Boston, Mass.	103-139
Geo. A. Fernald & Co., Boston, Mass.	104-148

The securities are of the denomination of \$500 each and will mature in from ten to nineteen years from date of issue.

**Battle Creek, Mich.—Bond Election.**—An election will be held in this town to decide the question of issuing street-improvement bonds to the amount of \$30,000.

**Benson, Minn.—Bonds Authorized.**—It is reported that the citizens of Benson have voted in favor of issuing bonds for the purpose of constructing water works.

**Boston, Mass.—Temporary Loan.**—The city of Boston has borrowed \$1,000,000 of F. S. Mosely & Co., of Boston, in anticipation of the payment of taxes. The loan bears interest at about 3 per cent and matures November 2, 1897.

**Brooklyn, N. Y.—Bond News.**—A bill authorizing the City of Brooklyn to borrow \$500,000 for school buildings has passed the Assembly.

**Calhoun County, Ala.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 4, 1897, by Emmett F. Crook, Chairman of the Board of Commissioners, for the purchase of \$75,000 of 6 per cent funding coupon bonds of Calhoun County. The securities will be dated June 1, 1897. Interest will be payable semi-annually on the first days of April and October at the Tredegar National Bank of Jacksonville, and the principal will mature June 1, 1917.

The bonds will be of the denomination of \$500 or \$1,000, as the purchaser may desire.

No bid for less than par will be considered, and each proposal must be accompanied by a certified check for \$2,500.

This loan will constitute the only indebtedness of the county. The assessed valuation of real estate and personal property for 1896 was \$9,000,000; the real value is estimated at about \$20,000,000; tax rate (per \$1,000) for 1897 will be \$3.70. The population at the present time is estimated at about 35,000.

**Cambridge, Mass.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 8, 1897, by the City of Cambridge for the purchase of \$200,000 of 3½ per cent twenty-year registered bonds.

**Cincinnati, Ohio.—Bond Sale.**—On March 29, 1897, the \$3,654,000 of 3½ per cent refunding gold bonds of this city were awarded to the First National Bank of Cincinnati and Seessongood & Mayer, of Cincinnati, at 102-167. These parties bid separately, but their bids being the same the loan was awarded to them jointly by agreement. The other bids were as follows:

Bidder—	Amount.	Bid.
First National Bank, Lockland, O.	\$30,000	103 500
Robert & Hall, Cincinnati, O.	30,000	102-150
Third Nat. Bank and associates, Cincinnati, O.	3,654,000	101-877
J. M. Anderson, Cincinnati, O.	30,000	101-870
P. J. Goodhart & Co., Cincinnati, O.	3,540,000	101-395
S. Kuhn & Sons and associates, Cincinnati, O.	3,654,000	101-381
Vermilye & Co., New York	3,654,000	101-302
Altenberg & Co., Cincinnati, O.	100,000	101-000
Ruesman & Sons, Cincinnati, O.	100,000	100 5115
J. M. Simon, Cincinnati, O.	200,000	100-510
Canadian Bank of Commerce, Toronto, Canada.	100,000	100-000
W. E. Hoy, Cincinnati, O.	4,000	100-000

**Council Bluffs, Iowa.—Bond Sale.**—It is reported that Council Bluffs has disposed of refunding bonds to the amount of \$25,000. The loan bears interest at the rate of 4½ per cent and will mature in from five to ten years from date of issue.

The securities are dated February 1, 1897, interest is payable semi-annually on the first days of February and August in New York City, and the principal will mature February 1, 1937.

**Dallas, N. C.—Bond Election.**—It is reported that the citizens of this town will soon vote on a proposition to issue \$25,000 of court-house bonds.

**Delhi, N. Y.—Bond Sale.**—This municipality has sold \$80,000 of water bonds to C. H. White & Co. at 103-29. The securities are registered, interest at the rate of 4 per cent is payable semi-annually in May and November, and the principal will mature in about 17½ years from date of issue.

**Forayth, Ga.—Bond Offering.**—Proposals will soon be received for the purchase of \$4,000 of water-works bonds of this town. The securities will bear interest at the rate of 6 per cent and the principal will mature in thirteen years from date of issue.

**Haughville, Ind.—Bond Sale.**—It is reported that this municipality has sold \$9,000 of bonds at par.

**Hollister, Cal.—Bonds Authorized.**—On March 23, 1897, the citizens of this town voted in favor of the proposition to issue \$35,000 of serial sewer bonds. The securities will be of the denomination of \$375 each, dated June 1, 1897; interest at the rate of 6 per cent will be payable semi-annually, and the principal will mature at the rate of one-fortieth yearly. A special tax will be levied each year for the payment of the bonds.

**Honey Creek, Ind.—Bond Sale.**—It is reported that this municipality has sold \$20,000 of 5 per cent road bonds at par.

**Indianapolis, Ind.—Bond Sale.**—On March 31, 1897, the \$350,000 of 4 per cent park-improvement bonds of this city were awarded to the Indiana Trust Company of Indianapolis, Ind., for \$376,347 50. The other bids received were as follows:

C. H. White & Co., New York, N. Y.	\$374,325 50
Street, Wykes & Co., New York, N. Y.	373,485 00
W. J. Hayes & Sons, Cleveland, Ohio.	373,315 00
E. D. Shepard & Co., New York, N. Y.	370,697 00
E. H. Rollins & Sons, Boston, Mass.	367,776 55
Indiana National Bank, Indianapolis, Ind.	366,666 00
Campbell, Wild & Co., Indianapolis, Ind.	365,214 50
Estabrook & Co., Boston, Mass.	
Illinois Trust & Savings Bank, Chicago, Ill.	
Kidder, Peabody & Co., Boston, Mass.	364,763 00
Mason, Lewis & Co., Chicago, Ill.	
N. W. Harris & Co., Chicago, Ill.	364,675 00
Farnon, Leach & Co., Chicago, Ill.	
N. Y. Security & Trust Co., New York, N. Y.	364,595 00
Edw. C. Jones Co., New York, N. Y.	364,420 00
Walter Stanton & Co., New York, N. Y.	364,035 00
J. & W. Sellman, New York, N. Y.	363,973 00
Dietz, Denison & Prior, Cleveland, Ohio.	363,158 00
Third National Bank, Boston, Mass.	362,285 00

The securities are dated April 1, 1897; interest is payable semi-annually on the first days of January and July, and the principal will mature January 1, 1927, both principal and interest being payable at the office of Winslow, Lanier & Co., New York City. The bonds are of the denomination of \$1,000 each.

**Jamaica, N. Y.—Bond Offering.**—Proposals will be received until 11 o'clock A. M., April 6, 1897, by Alfred H. Beers, Village Treasurer, for the purchase of \$150,000 of 4 per cent gold sewer bonds. The securities will be of the denomination of \$1,000 each, dated April 1, 1897, interest will be payable semi-annually and the principal will mature April 1, 1917, both principal and interest being payable at the Bank of Jamaica.

No bid for less than par or for less than fifty per cent of the bonds will be considered, and each proposal must be accompanied by a certified check for 3 per cent of the amount bid for.

**Jefferson County, W. Va.—Bond Sale.**—On April 1, 1897, the \$80,000 of 4 per cent refunding bonds of this county were sold to local bidders at par. The securities are dated April 1, 1897, interest is payable semi-annually on the first days of April and October, and the principal will mature April 1, 1930, subject to call after April 1, 1907, both principal and interest being payable at the National Union Bank of Maryland in the City of Baltimore. The bonds are of the denomination of \$100, \$500 and \$1,000, and are exempt from all county, district or municipal tax levies.

**Jellico, Tenn.—Bond Offering.**—Proposals will be received by this town for the purchase of \$9,000 of 6 per cent school bonds.

**Jersey City, N. J.—Bond Offering.**—Proposals will be received on April 15, 1897, at 1 o'clock P. M. by the Board of Finance, for the purchase of \$450,000 of 4½ per cent refunding general bonds of this city. The securities will be dated May 1, 1897, interest will be payable semi-annually on

the first days of May and November and the principal will mature May 1, 1927, both principal and interest being payable in gold. The bonds will be exempt from taxation and will be secured by a sinking fund.

Each bid must be accompanied by a certified check to the order of the City Treasurer of Jersey City for 2 per cent of the amount bid for.

**Water Contract Vetoed.**—The Mayor of Jersey City has vetoed the resolutions adopted by the Board of Finance, ordering a contract to be made with the East Jersey Water Company to supply this city with water, on the ground that the specifications were indefinite. According to the contract the city is to pay an average price of about \$36 per 1,000,000 gallons for a maximum supply of 50,000,000 gallons daily, with the option of purchasing the plant at the end of five, ten, fifteen or twenty years for \$7,000,000.

**Joplin, Mo.—Bonds Proposed.**—This city contemplates issuing \$5,000 of sewer bonds.

**Kosciusko County, Ind.—Bond Sale.**—On March 5, 1897, the Indiana Trust Company of Indianapolis, Ind., was awarded \$30,000 of infirmity bonds of Kosciusko County. The loan bears interest at the rate of 4 per cent, and matures in from six to ten years from date of issue.

**Lancaster, N. H.—Bond Sale.**—Blodget, Merritt & Co. of Boston have been awarded \$31,000 of funding and sewer coupon bonds of the city of Lancaster at 102-42½. Other bids received were as follows:

E. C. Stanwood & Co., Boston, Mass.	102-380
Jose Parker & Co., Boston, Mass.	102-179
Lancaster Syndicate, Lancaster, N. H.	102-167
E. H. Rollins & Sons, Boston, Mass.	102-139
Geo. A. Fernald & Co., Boston, Mass.	102-078
Parkinson & Burr, Boston, Mass.	102-021
N. W. Harris & Co., Boston, Mass.	101-806
Mason L. Wise & Co.	101-296
Jas. W. Longstreet & Co., Boston, Mass.	101-043
Roby & Knowles, Concord, N. H.	100-433
A. Bailey, Lancaster, N. H. (\$2,000)	100-200

The loan bears interest at the rate of 4 per cent and matures in from three to eighteen years from date of issue.

**Ligonier, Pa.—Bonds Authorized.**—Water-works bonds of this municipality to the amount of \$7,500 have been authorized.

**Louisville, Ky.—Bond Sale.**—On April 1, 1897, the Commissioners of the Sinking Fund awarded the \$588,000 of 4 per cent refunding bonds of this city to the New York Security & Trust Co. at 106-77. The securities are dated April 1, 1897; interest is payable semi-annually on the first days of April and October, and the principal will mature April 1, 1937, both principal and interest being payable at the National Bank of the Republic of New York City. The bonds are of the denomination of \$1,000 each.

The city at the present time has no floating debt. The total bonded debt, including this issue, is \$3,714,000; sinking fund, \$317,500; net debt, \$3,396,500; water debt (additional), \$943,933. The assessed valuation for 1897 is: Real estate, \$88,985,000; personal property, \$28,715,000; total, \$117,700,000; tax rate (per \$1,000), \$18.50. The real valuation is estimated at about \$200,000,000. The population at the present time is estimated at 210,000.

**Luzerne County, Pa.—Bond Sale.**—On March 30, 1897, the \$90,000 of 4 per cent 2 to 10-year gold bonds of this county were awarded as follows:

Bidders—	Amount.	Due.	Bid.
Diek Bros. & Co., Philadelphia, Pa.	\$10,000	1899	101-500

Second National Bank, Wilkes-Barre, Pa.	10,000	1907	105-500

**Mahoning County, Ohio—Bond Sale.**—On March 30, 1897, The Lamprecht Bros. Co. of Cleveland, Ohio, were awarded \$47,000 of Mahoning County bridge bonds at a premium of \$3,025. The securities were issued for the purpose of constructing a bridge over the Mahoning River. They bear interest at the rate of 5 per cent, payable semi-annually on the first days of March and September at the office of the County Treasurer, and mature from 1900 to 1909, inclusive.

**Methuen, Mass.—Bonds Authorized.**—It is reported that this town has been authorized to issue water bonds to the amount of \$325,000.

**Middlebury, Vt.—Note Sale.**—It is reported that Middlebury has sold \$28,000 of ten-year and \$10,000 of one to ten-year notes to W. J. Hayes & Sons, of Boston, Mass. The notes bear interest at the rate of 4 per cent.

**Mount Vernon, N. Y.—Bond Sale.**—R. L. Day & Co. of Boston, Mass., have been awarded \$20,000 of Mount Vernon sewer bonds at 105-79. Thirteen other bids were received. The loan bears 4 per cent interest and will mature in from twenty-two to twenty-four years from date of issue.

**Moultrie, Ga.—Bond Offering.**—Proposals will be received until May 4, 1897, by the City of Moultrie for the purchase of \$5,000 of school bonds. The securities will bear interest at the rate of 6 per cent, and the principal will mature in twenty years from date of issue.

**New Brunswick, N. J.—Bond Sale.**—It is reported that bonds of this city to the amount of \$151,000 have been taken by the New Brunswick Savings Institution at par.

**New Rochelle, N. Y.—Bonds Proposed.**—A bill authorizing the village of New Rochelle to issue sewer bonds to the amount of \$260,000 has passed the Assembly.

**New York City, N. Y.—Bond News.**—The bill authorizing New York City to issue \$2,500,000 of bonds for the erection of four high schools has passed the Assembly.

**North Hempstead, N. Y.—Bond Sale.**—The \$56,000 of 4 per cent road bonds offered by North Hempstead on March 29, 1897, have been awarded to Bertron & Storrs, of New York City, at 101-57. Other bids received were as follows:

C. H. White & Co., New York, N. Y.	101-500
Street, W. & Co., New York, N. Y.	101-479
The Lamprecht Bros. Co., Cleveland, O.	101-450
Seymour Bros., New York, N. Y.	101-428
E. D. Shepard & Co., New York, N. Y.	101-250
Edw. C. Jones Co., New York, N. Y.	101-020
Roslyn Savings Bank, Roslyn, N. Y.	100-900
S. A. Kean, Chicago, Ill.	100-000

Interest on the securities is payable semi-annually on the first days of January and July at the office of the Town Clerk. Twenty-nine thousand dollars of the principal will mature at the rate of \$1,000 annually from July 1, 1897, to July 1, 1925, inclusive, and the remainder on July 1, 1926.

**Norwood, Ohio.—Bond Sale.**—The following bids were received on March 28, 1897, by W. E. Wichgar, Village Clerk, for \$5,000 of 5 per cent water-works bonds of the village:

	Premium.
C. M. Thurnauer, Cincinnati, Ohio.	\$438-00

Atlas National Bank, Cincinnati, Ohio.	50-00
Seasongood & Mayer, Cincinnati, Ohio.	13-00

The loan was awarded to C. M. Thurnauer. The securities are dated March 1, 1897; interest is payable semi-annually, and the principal will mature March 1, 1917. The denomination of the bonds is \$500.

**Palestine, Texas.—Bond Election.**—An election will soon be held in Palestine to vote on the question of issuing bonds to the amount of \$100,000 for the construction of water works.

**Pickaway County, Ohio.—Bond Sale.**—It is reported that Pickaway County has sold \$10,500 of bonds at 105-23½.

**Port Huron, Mich.—Bond Sale.**—On March 27, 1897, this city sold \$3,500 of public building bonds to John W. Porter, cashier of the Commercial Bank of Port Huron, at par and accrued interest. The securities are dated January 1, 1897; they will bear interest at the rate of 4 per cent, and the principal will mature January 1, 1906.

**Queens County, N. Y.—Bond Sale.**—On March 29, 1897, the \$68,000 of 4 per cent gold road bonds of Queens County were awarded to The Lamprecht Bros. Co. of Cleveland, Ohio, who bid as follows: For Series H, \$50,000, 106-63; Series I, \$60,000, 107-02; Series K, \$45,000, 107-21; Series L, \$45,000, 107-86; Series M, \$17,000, 107-02; Series N, \$70,000, 107-41; Series O, \$7,000, 106-63; Series P, \$75,000, 106-83; Series Q, \$27,000, 106-33; Series R, \$10,000, 107-41; Series S, \$60,000, 106-63; Series T, \$55,000, 107-21; Series U, \$17,000, 107-02; Series V, \$50,000, 107-66.

The other bids received were:

Bertron & Storrs, New York, N. Y.	\$618,000	106-65
Farron Leach & Co., New York, N. Y.	618,000	106-51
Rudolph Kleybolte & Co., Cincinnati, Ohio	618,000	106-32-106-45
Blake Bros. & Co., Kountze Bros. and R. L.		
Day & Co., New York, N. Y.	618,000	106-43
Kings County Trust Co., Brooklyn, N. Y.	110,000	106-329
C. H. White & Co., New York, N. Y.	618,000	105-45
Edw. C. Jones Co., New York, N. Y.	618,000	105-11
Walton Stanton & Co., New York, N. Y.	618,000	104-79
Geo. M. Hahn, New York, N. Y.	618,000	100-57-103-47
Daniel A. Moran & Co., New York, N. Y.	200,000	101-00

The denomination of the securities is \$500; interest is payable semi-annually on the first days of April and October at the office of the County Treasurer, and the principal will mature April 1, 1917.

**Quincy, Ill.—Bond Sale.**—On March 31, 1897, the \$314,000 of 4½ per cent refunding bonds of this city were awarded to the First National Bank of Chicago, Ill., at a premium of \$1,050. The other bids received were:

	Premium.
Duke M. Farron, Chicago, Ill.	\$950-00
Richer National Bank, Quincy, Ill.	800-00
N. W. Harris & Co., Chicago, Ill.	518-10
Whitaker & Hodgman and A. G. Edwards & Sons, St. Louis, Mo.	415-00
Farron, Leach & Co., Chicago, Ill.	101-10
Mason, Lewis & Co., Chicago, Ill.	Par.

The securities are dated July 1, 1897, interest is payable annually on July 1 at the office of the State Treasurer in Springfield, Ill., or at his fiscal agency in the City of New York; \$300,000 of the bonds will mature at the rate of \$50,000 per annum from July 1, 1911, to July 1, 1916, inclusive, and the remainder, \$14,000, will be due July 1, 1917.

The bonds are issued to refund \$314,000 of the \$372,800 of 6 per cent bonds of the city maturing July 1, 1897, the remainder of the loan to be paid off. The sum of \$50,000 is paid annually towards a sinking fund to retire the outstanding bonds of the city, and the total indebtedness now amounts to \$1,344,200, having been reduced \$578,431 since 1881. The assessment of taxable property in 1896 was \$5,153,242; the actual value is estimated at about \$35,000,000. The population of the city in 1890 was 31,494 and is now estimated at 45,000.

**Richmond Hill, N. Y.—Bond Election.**—On April 7, 1897, a proposition to issue \$230,000 of street-improvement bonds will be put to a vote of the people of this village.

**Rogersville, Tenn.—Bonds Proposed.**—This municipality proposes to issue \$15,000 of bonds for the construction of water-works, and a bill authorizing the issuance of the bonds has been passed by the Assembly.

**Saginaw, Mich.—Bond Offering.**—Proposals will be received until 3 o'clock P. M., April 5, 1897, by Arthur F. Lewis, City Comptroller, for the purchase of \$30,000 of 4 per cent water refunding bonds. The securities will be of the denomination of \$1,000 each, dated April 15, 1897; interest will be payable semi-annually at the Chemical National Bank of New York City and the principal will mature April 15, 1907. The total bonded indebtedness of the City of Saginaw, including this issue, is \$1,241,250; sinking fund, \$44,000; net debt, \$1,197,250. Included in this total debt there are water bonds to the amount of \$539,000 and assessment bonds, paid for by special assessments on the property benefited, to the amount of \$277,250. The assessed valuation for 1896 was: real estate, \$13,024,673; personal property, \$2,713,895; total, \$15,738,568. The population at the present time is estimated at about 53,000.

**Sharon, Mass.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 5, 1897, by Sanford Waters Billings, Town Treasurer, for the purchase of \$10,000 of 4 per cent water bonds. The securities will be of the denomination of \$1,000 each, dated October 1, 1896; interest will be payable semi-annually on the first days of April and October, and the principal will mature at the rate of \$1,000 per annum from 1917 to 1920, inclusive, both principal and interest being payable at the National Exchange Bank of Boston, Mass.

**Springfield, Ohio.—Bond Sale.**—On March 30, 1897, the Board of Education awarded \$31,000 of 5 per cent 12 to 13 year bonds to Rudolph Kleybolte & Co. of Cincinnati, Ohio, at a premium of \$2,230. These securities were sold recently to a Boston firm, who refused to accept them.

**Sunbury, Pa.—Bond News.**—The \$15,000 of 4 per cent bonds were sold by the School Board and not by the borough of Sunbury, as reported last week. The loan is issued for the purpose of erecting a new central high-school building, and will mature in ten years from date of issue.

**Terre Haute, Ind.—Bond Sale.**—The \$19,539.95 of 6 per cent 1 to 10-year street-improvement bonds of Terre Haute have been awarded to Dietz, Denison & Prior, of Cleveland, Ohio, at a premium of \$200 and accrued interest from January 1, 1897. These securities were first awarded to S. S. Sisson & Co., of Cincinnati, Ohio, but they were not accepted, that firm claiming some technical illegality in the issuance of the bonds.

**Tiffin, Ohio.—Bond Sale.**—Street-improvement bonds of this city to the amount of \$15,000 have been awarded to Rudolph Kleybolte & Co., of Cincinnati, Ohio, at a premium of \$480.50.

**Turtle Creek, Pa.—Bond Sale.**—It is reported that Turtle Creek has disposed of \$83,000 of 4½ per cent school bonds at 100.334.

**Washington, Pa.—Bonds Proposed.**—The borough of Washington proposes to issue paving bonds to the amount of \$60,000.

**Watertown, Mass.—Temporary Loan.**—On March 27, 1897, the following bids were received by the city of Watertown, for the discount of \$20,000 of six months' notes:

Bidder—	Per cent.
F. S. Mosely & Co.	3.35
Edgerly & Crocker	3.41
Hogers, Newman & Tolman	3.44
K. T. Sharp	3.45
Blake Bros. & Co.	3.47
H. B. Rollins & Sons	3.48
Jas. W. Longstreet & Co.	3.60
United States Trust Co.	3.87½

The loan was awarded to F. S. Mosely & Co.

**Whitestone, N. Y.—Bond Election.**—An election will soon be held in the village of Whitestone to vote on the proposition to issue bonds to the amount of \$50,000 for the purpose of macadamizing the streets. These bonds are additional to those voted last fall for the same purpose.

**Wilmurt, N. Y.—Bond Sale.**—On March 1, 1897, the town of Wilmurt sold \$5,000 of bridge bonds at a premium of \$125.

**Worcester, Mass.—Bond Sale.**—The city of Worcester has sold \$100,000 of registered sewer bonds to N. W. Harris & Co. of Boston, Mass., at 103.53. Ten other bids were received, as follows:

R. L. Day & Co., Boston, Mass.	109.569
Josef Parker & Co., Boston, Mass.	109.337
Blake Bros. & Co., Boston, Mass.	109.300
Estabrook & Co., Boston, Mass.	109.151
E. B. Rollins & Sons, Boston, Mass.	109.039
Hodges, Merritt & Co., Boston, Mass.	108.887
Kinchen & DeWitt, Worcester, Mass.	108.847
Lee, Higginson & Co. and Winslow & Allen	108.773
H. B. Homer & Co.	108.570
J. W. Longstreet & Co., Boston, Mass.	108.525

The securities bear interest at the rate of 4 per cent and the principal will mature in nineteen years from date of issue.

**Yeadon, Pa.—Bond Offering.**—Proposals will be received until April 6, 1897, by W. F. Read, Jr., Chairman of the Finance Committee, 213 Chestnut Street, Philadelphia, Pa., for the purchase of \$10,500 of sewer bonds. The securities will bear interest at the rate of 4½ per cent and mature in ten, twenty and thirty years from date of issue.

## STATE AND CITY DEBT CHANGES.

**New York City.**—WILLIAM L. STRONG, Mayor; ASHBEL P. FITCH, Comptroller. Below we furnish a very comprehensive report of the finances of New York City, brought down by means of official data to the first of the current year. The statement is complete in every particular and gives a fuller and clearer presentation of all the details regarding debt, assessed values, expenditures, taxes, etc., etc., than can be found anywhere else. The facts will be found particularly useful and interesting just now, owing to the proposed consolidation of New York City, Brooklyn and neighboring territory into one municipality.

The consolidation of New York City and New York County took place in the year 1873 and the city then assumed the county debt. In the following statement loans wholly in the sinking fund are distinguished by a. f. prefixed to the amount outstanding. Loans exempt from taxation have a paragraph mark (¶) added to the title of the loan. The letters a, b, c, d and e prefixed to the amount outstanding refer to the security which the loans have by reason of sinking funds, as fully explained in the foot notes to the table.

b These bonds are a second lien on "sinking fund redemption No. 1."					
c These bonds and stocks are secured by special fund derived from taxation and from "sinking fund redemption No. 1."					
d These water bonds are payable from "sinking fund redemption No. II."					
e Payable from sink. f. red. No. I under law authorizing the issue.					
PAR VALUE OF BONDS.—The denominations of the bonds and stock of the city of New York are not fixed. Certificates are issued for any amount in even hundreds, with \$500 as the minimum.					
INTEREST—WHERE PAYABLE.—Coupon interest is payable at State Trust Company; registered interest at office of City Chamberlain. Interest on the gold coupon bonds of 1901 and 1902 is payable also at Messrs. Rothschilds in London.					
TOTAL DEBT, SINKING FUNDS, ETC.—The subjoined statement shows New York's total municipal debt and the sinking fund held by the city against the same on the dates indicated.					
	Jan. 1, 1897.	Jan. 1, 1896.	Jan. 1, 1895.		
Total funded debt...	\$195,907,690	\$185,588,597	\$173,991,081		
Sinking fund.....	77,630,491	75,703,087	69,912,260		
Net funded debt...	\$118,277,198	\$109,885,510	\$104,078,820		
Revenue bonds...	2,433,326	2,564,510	1,699,034		
Total net debt...	\$120,710,525	\$112,450,020	\$105,777,854		
The annexed table shows the city's net debt as it was on the first day of January of each of the following years:					
1897	\$120,710,525	1891	\$98,064,418	1885	\$93,618,100
1896	112,450,020	1890	98,664,072	1881	106,066,240
1895	105,777,854	1889	91,314,135	1876	116,773,721
1894	101,428,481	1888	93,300,581	1871	73,373,552
1893	98,995,651	1887	90,395,631	1866	35,973,597
1892	97,550,936	1886	93,031,051	1862	20,087,310

**SINKING FUNDS.**—The total sinking fund assets on January 1 1897, were \$77,630,491. Of this amount \$11,725,544 was held in a special sinking fund (sinking fund redemption No. II.) for account of certain water bonds and \$65,904,947 (sinking fund redemption No. I.) was held for certain other sinking fund issues. The character of the assets of the two sinking funds here referred to is evident from the following:

	Sinking Fund Redemption I.	Sinking Fund Redemption II.	Total.
N. Y. City bonds (par value)	\$62,602,305	\$11,085,494	\$73,687,799
Cash	3,302,642	640,050	3,942,692
Total	\$65,904,947	\$11,725,544	\$77,630,491

The totals of the various issues having a lien on these sinking funds and the order of their lien, are shown in the following; the letter prefixed in each case being the same as that used in the table of bonds above to designate the issues having such lien.

a	Total issues having a first lien on sink. f. redemp. No. I.	\$2,500,600
b	Total issues having a second lien on sinking fund redemption No. I.	9,700,000
c	Consolidated stock, etc., having a lien on special fund derived from taxation and from sink. f. redemp. No. I.	88,584,601
d	Total issues payable from sinking fund redemption No. II.	38,770,000
e	Consolidated stock (new parks) payable from sinking fund redemption No. II in accordance with act of authorization.	9,822,100

For further information touching the sinking funds, the reader is referred to the above detailed statement of the city's debt, in which are indicated both the principal holdings of the sinking fund and the several issues held by the public to which the sinking fund applies.

**ASSESSED VALUATION.**—The city's assessed valuation and tax ate have been as follows:

Years.	Real Estate.	Personal Estate.	Total Assessed Valuation.	Rate of Tax per \$1,000.
1896	\$1,731,509,143	\$374,975,762	\$2,106,484,905	\$21.40
1895	1,646,028,655	370,919,007	2,016,947,662	19.10
1894	1,613,057,735	390,274,302	2,003,332,037	17.90
1893	1,562,582,393	370,936,136	1,933,518,529	18.20

**EXPENDITURES.**—Annexed is a statement of expenditures.

	1896.	1895.
For State taxes	\$6,439,550	\$3,554,319
For Expenses of the City Government—		
Interest on the city debt	5,346,549	5,037,460
Redemption of the city debt	2,979,020	2,001,143
The Common Council	87,386	88,197
The Mayoralty	24,613	26,622

## NEW LOANS.

### \$3,000,000

#### STATE OF NEW YORK

##### 3<sup>d</sup> Canal Improvement Bonds.

COMPTROLLER'S OFFICE  
BUREAU OF CANAL AFFAIRS,  
ALBANY, March 27th, 1897.

Pursuant to the provisions of Chapter 79 of Laws of 1895, proposals will be received at this office until Tuesday, the 30th day of April, 1897, at 12 o'clock noon of that day for a loan of

### THREE MILLION DOLLARS

for which transferable certificates of stock, registered or coupon bonds, at the option of the proposer

#### Principal and Interest Payable in Gold

will be issued in the name of the People of the State of New York, on the credit of the Sinking Fund established by said act, bearing interest at the rate of three per centum per annum, payable semi annually on the first days of January and July, and the principal reimbursable on the first day of January, 1912.

These bonds are exempt from taxation pursuant to Chapter 79, Laws of 1897.

Proposals may be for the whole or any part of the loan not less than \$1,000, and should state whether registered or coupon bonds are desired, and such proposal must be accompanied by a certified check for one per cent of the amount of the proposal.

Payments for the loan will be required to be made on the acceptance of the proposal by deposit in the Bank of the Manhattan Co. in the City of New York to the credit of "Treasurer of the State of New York on account of Canal Fund" of the amount of the award, together with premium and accrued interest from January 1, 1897.

The Comptroller reserves the right to reject all bids when in his opinion advantageous to the interests of the State.

Interest on the loan from the first day of January, 1897, will be payable at the Bank of the Manhattan Co. in the City of New York.

All proposals must be sealed and endorsed "Loan for Canal Improvements," and directed to the Comptroller of the State of New York, Albany, N. Y.

JAMES A. ROBERTS,  
Comptroller.

## NEW LOANS.

### \$75,000

#### FALL RIVER, MASS.,

##### 4% 30-Year Registered Public Library Bonds.

DATED JANUARY 1, 1897.

Interest Payable January and July by Mail	
Assessed valuation	\$69,286,496
Total indebtedness	4,502,405
Water debt	\$1,000.00
Sinking fund	896,000
	2,796,000

Net Indebtedness, \$1,513,405

Population, 100,000.

Fall River ranks high as a City of the first-class. Its financial condition is exceptionally strong, the net indebtedness being less than 2 1/2% of its assessed valuation. A Sinking Fund to retire these bonds at maturity has been created.

The bonds are an authorized investment for Savings Banks and Estates in the State of New York.

Legal opinion and papers furnished.

Prices and particulars on application.

\*Since January 1, 1896, the Department of Public Charities and Correction has been divided into two distinct departments.

The total appropriations for 1896 amount to \$46,495,571, including \$6,402,009 for State taxes.

**POPULATION.**—Estimated by Health Department, September, 1896, at 1,945,371. In 1892 the population was 1,801,739; in 1890 it was 1,515,501; in 1880 it was 1,206,299; in 1870 it was 942,292.

**San Francisco, Cal.**—James D Pnelan, Mayor. The following statement has been corrected up to March 1, 1897, by means of a special report to the CHRONICLE from City Clerk John A. Russell.

San Francisco is in San Francisco County, and the financial statement given below is for both county and city.

The city and county have power under the statutes of the State to incur a bonded indebtedness for a period of forty years of not to exceed in the aggregate fifteen per cent of the assessed value of all the assessable real estate and personal property. Under the constitution of the State the assent of two-thirds of the electors, voting at an election for that purpose, must be obtained before incurring such indebtedness.

LOANS—	When Due.	LOANS—	When Due.

7g., A&O, \$1,000, g... Oct. 1, 1887		6g., A&O, 250,000, g. Apr. 1, 1904	
Special bonds made payable by statute from taxes on lands benefitted:			
Montgomery Avenue bonds have been declared null and void.			
Dupont Street bonds, 7s, amount outstanding..... \$306,000			
The Dupont Street bonds have long been involved in litigation, but in the case of many issues this has recently been settled and as a consequence \$325,000 of the securities were redeemed during the present fiscal year.			
PAR VALUE OF BONDS—The bonds of this city are for \$1,000 and \$500.			
INTEREST is payable in gold in San Francisco.			
TOTAL DEBT, SINKING FUNDS, ETC.—The subjoined statement shows San Francisco's total funded debt and the sinking fund held by the city against the same on the following dates:			
Total bonded debt.....	Mar. 1, '97. \$544,000	July 1, '96. \$572,000	July 1, '95. \$599,000
Sinking funds.....	394,000	386,000	361,204
			669,129
Net debt.....	\$150,000	\$186,000	\$237,796
TAX FREE.—All bonds of this city are exempt from taxation.			\$260,871

**CITY PROPERTY.**—The following is a description of the property owned by the City and County of San Francisco, as transmitted to the State Controller by direction of the Board of Supervisors on October 19, 1896.

Park reservations and public squares.....	\$10,000,000
Fire department, lots and improvements.....	1,300,000
City halls, county jails, hospitals, almshouses, House of Correction, Industrial School, lots and improvements....	7,500,000
Cemetery reservation.....	650,000
Sundry lots.....	260,000
Channel-Street lots from Ninth to Eighteenth streets.....	150,000
School lots, improvements, libraries, furniture, &c.....	5,140,257

Total.....\$25,000,257

**ASSESSED VALUATION.**—The following table gives the assessed valuation of real estate and personal property and the total State, city and county tax rate (per \$1,000) for the years indicated.

Years.	Real.	Personal.	Total.	Total Tax Rate per \$1,000.
1896-'97..	\$275,334,293	\$82,251,831	\$357,586,126	\$13.98
1895-'96..	265,031,325	62,814,017	327,845,342	22.50
1894-'95..	261,509,115	63,299,903	325,109,018	14.93
1893-'94..	276,457,420	66,186,759	342,644,179	16.06
The tax rate for city and county purposes for 1896-97 was \$9.69 and for State purposes \$4.29 per \$1,000 valuation of real and personal property.

Seven cities, 5 days.....	\$846,121,139	\$893,527,562	-3.3
Other cities, 5 days.....	124,207,413	131,019,928	-5.2
Total all cities, 5 days.....	\$770,328,552	\$793,547,433	-3.7
All cities, 1 day.....	161,017,237	164,845,595	-2.3
Total all cities for week.....	\$931,345,789	\$904,393,033	+3.4

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, April 3, and the results for the corresponding week in 1896, 1895 and 1894 are also given. Contrasted with the preceding week, there is an increase in the aggregate exchanges of about one hundred and seventeen and a half million dollars, and at New York alone the gain is nearly sixty-two millions. In comparison with the week of 1896 the total for the whole country shows an increase of 4.6 per cent. Compared with the week of 1895 the current returns record a decrease of 4.3 per cent, and the excess over 1894 is 4.2 per cent. Outside of New York the gain over 1896 is 0.6 per cent. The decrease from 1895 reaches 6.2 per cent, but making comparison with 1894 the gain is seen to be 2.0 per cent.

Clearings at—	Week ending April 3				
	1897.	1896.	1897. P. Cent.	1895.	1894.

## OUR STATE AND CITY SUPPLEMENT—A NEW NUMBER.

With this issue of the CHRONICLE we give our subscribers a new number of our STATE AND CITY SUPPLEMENT, with all the statistics collected down to the latest dates. To the cities, towns, etc., already contained in the SUPPLEMENT, 289 new places have been added, and we feel justified in saying that it is a better and fuller number than any previously issued by us—thus fulfilling the aim with which we started out, of making each succeeding number an improvement on its predecessor.

None of the various SUPPLEMENTS issued by us and given to our subscribers covers a wider field of usefulness—a field, too, which is occupied by no other publication. Nowhere else can such a mass of information and statistics relating to State and municipal finances and affairs be found. And we have spared no labor, time or money in the effort to make it as nearly perfect as it is possible for such a publication to be. The work is exceptionally complete in the case of all the Middle, Middle Western and New England States. In many of these States there is scarcely a place where all the details have not been obtained for the very latest dates. What this means will be appreciated when we say that frequently the various items of information for even the smallest places have to be procured from several different sources—the debt from one department, assessed values from another, and other items from other departments. We have been unremitting in our endeavors to get all the facts in each case, and we feel gratified to think that in the vast majority of instances our efforts have met with success.

Following the practice inaugurated last year, we shall issue another number of the SUPPLEMENT next October, though in the case of many items of information (such as assessed values, tax rates, receipts and expenditures, which are only compiled annually) it will not be possible to give any later figures than those contained in the present number.

### THE FINANCIAL SITUATION.

There has been no essential change in affairs this week. As spring advances, business without doubt broadens to a small extent, but nothing like a generous revival is observable anywhere. We are inclined to think that this developing tendency will increase in a moderate way month by month. That conclusion seems warranted, if for no other reason because in the present condition of our foreign trade and the Treasury gold reserve uncertainty with reference to currency stability is for the time being removed, and under those circumstances if no untoward event happens a moderate recovery is hardly preventable.

From this date also the ordinary statistical evidences of progress ought to afford a favorable contrast with the previous year. It will be remembered that in 1896, even before April, the coming derangement had begun to cast its shadow over our industries. We said last week, in reviewing the March statement of clearings, that it showed the first increase in clearings since April 1896. That is an important fact in its bearing upon similar trade reports during coming months. It teaches that a set-back instead of a growth was the condition prevailing about this time a year ago. As our readers well know, the contraction thus began soon thereafter grew steadily worse. Comparing then with the results at

that time, current exhibits ought hereafter to show an increase in the production of goods in all departments, and with labor in those and other ways better employed, the distribution and consumption of products should also show an increase. Hence, intrinsically and comparatively, trade is likely to disclose moderate gains.

We say moderate gains, for the immediate future does not seem to hold out any encouragement for larger expectations than indicated. Congress is engaged in tariff legislation, and the reports that come to us this week do not strengthen one's belief in as speedy work as has been hoped heretofore, or even give a full assurance of successful work. Rumor has it now that the silver Republicans from the silver States make higher duties on wool, on fruits, with a duty on hides etc., the requirement for their votes, while the prevailing sentiment among the Republicans in the Senate does not favor that policy; on the other hand, by higher duties Democratic votes would probably be repelled, and could not, we imagine, be gained unless a lower range of protection were secured. Notwithstanding these diversities of opinion at the moment, some arrangement it may be assumed will be reached, for there is very little doubt but that a bill will in the end be passed. Yet the outlook at present certainly does not encourage speedy work or a speedy settlement of the uncertainties attendant upon this piece of legislation, which the retroactive clause the House added has made doubly embarrassing and unsettling to merchants.

Nor is the tariff legislation the only Congressional influence tending to keep business on a conservative basis. We think the Senate would be surprised did it understand how deeply its action on the Arbitration Treaty has disappointed the better classes of our citizens. Amending the Treaty until it was worth nothing, leaving it merely a dismantled bulk, then laying it aside as a used-up whimwham, has not only helped to disturb confidence but has left the deeper moral sense of the country offended. If it be asked how it has disturbed confidence, the explanation is an easy one. The Treaty was looked upon as a safeguard against hasty, emotional, and ill-considered action like that which attended the Venezuela excitement. So long as the bars are wholly down, as now, the opportunity is open all the time for a repetition of a disturbance of just such a character as that. There is a body of silver men in the Senate who are clever enough to know that a war with any European nation while our currency remains as it now is would simply mean a silver currency for America. Under present circumstances no such war could be conducted without sooner or later producing that catastrophe. As a consequence, capital is not free to act or inclined to be venturesome so long as Congress is in session while the country remains so vulnerable on the side of its currency.

But the current session of Congress is by no means wholly or even in greater part chargeable for the quieter form business has taken. We referred last week to the Supreme Court decision in the Trans-Missouri freight case. The motion which we then stated had been made to advance the suit against the Joint-Traffic Association has this week been granted, but the argument is not to come on in April as requested by the counsel but at the next term in October. This announcement delaying the hearing was at first interpreted by the public un-

favorably, but later the general view taken of it was that putting off the hearing was much the wiser course for the Court and better for the thorough preparation of the case. This week Judge John F. Dillon, who was counsel for the Trans-Missouri Freight Association, has filed a petition for a rehearing in the action against that Association. Of course that decision has had a very depressing influence on industrial affairs. As Judge Dillon says, it is so far-reaching as to be "destructive of legitimate business methods." Nearly all contracts with relation to trade matters more or less restrain trade. In the absence of specific legislative expression, some guide or definition with reference to their interpretation must be given by the Court, so that it may be known what contracts are in restraint of trade and what are not. The distinction heretofore has been "the one furnished by the common law, namely the reasonableness or unreasonableness under all the circumstances of each case."

It is this feature of the decision, added to the fear that the roads, with their associations disbanded, would at once begin to cut rates, and that the carrying business would be demoralized, which has been such a very important factor in unsettling confidence and suppressing enterprise. Apparently Mr. J. Pierpont Morgan understood the railroad situation better than any one else when he said just before he sailed that the decision would not be followed by rate cutting. It certainly up to this time has not been, and as a consequence the feeling prevailing as the week closes is much improved and more confident. Another fortunate fact for business interests is that our State legislatures are rapidly closing their sessions. So far as industrial activity is within the deadening influence of State legislatures that power has this year more than ever before been used to scatter any accumulating tendencies towards revival. All over the country these bodies the past winter have been doing the best they could to antagonize capital. The facts apparently compel us to assume that the controlling idea of the representatives in some of the Western and Southern States, and indeed in some much nearer home, is that if they can find anywhere a bunch of organized capital and prevent its making money, they have done their constituents a service. Yet they know as well as we do that they are not open and frank in such action. They know that to secure prosperity in their neighborhood they need capital, and while as a "smart" political move they are repelling it by offensive legislation of one kind, they are inviting it by other kinds of legislation. These who help pass fierce anti-trust laws and anti-railroad laws pass almost the same day laws which in substance say, through the privileges granted (chief among which is relief from taxation), come down here and build cotton factories and you shall have large profits and no questions asked. But this will go on we suppose until those engaged in it find that Populistic legislation harms all business, and restricted business in turn depresses all prices; just as much the prices for wheat, cotton and wool as the prices for bread, cotton goods and woolens.

The old generation of railroad men is fast passing away. The death of President Roberts of the Pennsylvania Railroad was followed last month by the death of Mr. John King, formerly President of the Erie, and on Saturday last Albert Fink, too, died. Mr. King was a nephew of John W. Garrett, and he was identified with the Baltimore & Ohio for a period of 27 years

in various capacities, finally being the company's acting President. But he was best known for his connection with the Erie. He became President of that road in 1884, after the Grant & Ward and Marine Bank failures, which involved the Erie, and remained the executive head of the road until 1893, and subsequently for a time acted as one of the receivers of the property. He was thoroughly loyal to the company and his standard of integrity was a high one. He inaugurated a great many improvements, and though the ill-fated property again fell into embarrassment during his Presidency, that must be ascribed to the force of circumstances, rather to any fault of his.

Mr. Fink of course has left a deep impress on railroad affairs. And this not merely in one department. By the public at large his fame rests mainly on his having been for so many years Commissioner of the old Trunk Line Association. But he had gained distinction in various ways a long time before this. As an engineer and bridge builder early in life, he became the inventor of the Fink truss, with which every student of mechanics is familiar. During the war, as Superintendent of the Louisville & Nashville Railroad he distinguished himself for his skill in facilitating the movements of the Federal armies and in rebuilding bridges and other works destroyed by the Confederates. Later, during his connection with the same road, his reports of the company's operations attracted attention all over the world. In fullness and completeness these reports have never been equaled. They formed, moreover, the basis for the study of railroad affairs on scientific principles, and his papers and essays dealing with the mass of statistics that he had collected would alone entitle him to a high place. In 1875, having severed his connection with the Louisville & Nashville, he was called upon to assume the position of Commissioner of the Southern Railway & Steamship Association. In 1877 he was consulted with reference to the formation of the Trunk Line Association, and the Association was organized according to plans largely devised and suggested by him. In June of that year he was appointed Trunk Line Commissioner, a position which he held for twelve years. Mr. Fink possessed great powers as an organizer, and it was during this period that his talents were given fullest play. All the traffic associations that have been formed in recent years have been based on this earlier work of his in connection with the Southern Steamship Association and the Trunk Line Association. Hence it is evident that he rendered beneficent service to the whole body of roads; for it is recognized now that under our extensive system of mileage organized effort at co-operation between the different roads is a necessity.

The Reading Company has issued its return for the month of February, and the figures are presented in a new form. The results must be considered satisfactory, as the combined companies show net earnings of \$518,840 for the month in 1897 against only \$306,611 in February 1896. But the statement has been criticized because it furnishes only the net results and does not show the gross earnings. If intentional the omission would have to be regarded as matter for regret. But as it has always been the policy of those who have reorganized this property, and who are now actively identified with its management, to furnish very complete reports of operations, we have been led to inquire whether the omission has been by design. We find that it is the result en-

tirely of a misunderstanding, that there is no intention to withhold the figures, and that subsequent reports will give the gross earnings the same as heretofore. In a circular accompanying the return it is stated that the fixed charges of the entire property on completion of reorganization will be about \$8,672,672, while the net earnings for the fiscal year ending November 10, 1896 were \$9,480,736, leaving a surplus on that basis of \$898,064. For the present year, pending completion of refunding, &c., the fixed charges will be perhaps \$400,000 more than the amount of fixed charges stated above. The securities of the new company have been listed on the Exchange this week, and with the application to list a very elaborate statement regarding the property has been furnished to the Exchange. We print the application in full on subsequent pages and it will be found to contain all the facts and figures that investors and security holders need to give them a full knowledge of the condition of the property and the character of the securities.

Money on call, representing bankers' balances, has loaned this week generally at  $1\frac{1}{2}$  per cent, while some transactions have been made at  $1\frac{3}{4}$ , and a very few and for small amounts at 2 per cent, making the average about  $1\frac{1}{2}$  per cent. Probably more of the banks are accepting the ruling rate at the Stock Exchange than are maintaining 2 per cent, and the trust companies loan at the rates current at the Exchange. The market for time money has an easier tone, especially for long periods, and quotations are 2 per cent for thirty days,  $2\frac{1}{4}$  per cent for sixty to ninety days, 3 per cent for four to six and  $3\frac{1}{4}$  per cent for seven to eight months on good mixed stock collateral. Some bankers report money loaned at 2 per cent for ninety days on Government bonds and they quote  $2\frac{1}{4}$  per cent for four months, 3 per cent for six months and 4 per cent for the remainder of the year on good stock security. The city of New York has been borrowing this week on tax certificates at 3 per cent until October and November, and some Eastern cities have been in the market for such accommodation, which has been extended at the same rate. Some four months Eastern mill paper has also been sold at 3 per cent. The supply of commercial paper is not large, but importers have offered very long and choice paper running to the end of the year, and even beyond, at  $3\frac{1}{2}$  per cent, but it has not met with ready sale. Some single name paper maturing in January has been sold at 4 per cent. Quotations for the regular grades of commercial paper are  $3\frac{1}{2}$  to  $3\frac{3}{4}$  per cent for sixty to ninety day endorsed bills receivable,  $3\frac{1}{2}$  to 4 per cent for first-class and 4 to 5 per cent for good four to six months' single names.

The tension in the European political situation seems to have been relaxed this week, though it was feared that during the celebration on Tuesday of the seventy-sixth anniversary of the opening of the war for Greek independence some overt act might be committed. Collisions between the Cretans and the Mussulmans continue, and the blockade of Cretan ports, though ineffective, has caused much suffering by reason of food supplies being cut off. It would appear from a statement made in the English House of Commons on Thursday by the Secretary for the Foreign Office that the withdrawal of the Turkish forces from the Island of Crete is contemplated by the Powers. The Bank of England minimum rate of discount was on Thursday reduced to  $2\frac{1}{4}$  per cent from 3, at which it had stood since February 1, and this was regarded as a decided indication that the situation in the

Levant was more favorable. The cable reports discounts of sixty to ninety day bank bills in London 1 per cent. The open market rate at Paris is  $1\frac{1}{4}$  per cent and at Berlin and Frankfort it is  $2\frac{3}{4}$  per cent. According to our special cable from London the Bank of England lost £945,923 bullion during the week and held £38,396,532 at the close of the week. Our correspondent further advises us that the loss was due to the import of £347,000 from Australia and to the shipment of £1,293,000 *net* to the interior of Great Britain.

The foreign exchange market has been dull and without special feature this week, and though the tone was easier for short sterling and cable transfers on Tuesday, it grew firmer on the following day, and so continued thereafter. Long sterling is quite firm, influenced by easy discounts in London and also by the small supply of commercial bills and offerings of maturing sterling, which are growing lighter and are promptly absorbed. The range for nominal rates was unchanged during the week, remaining at 4 86 $\frac{1}{2}$  for sixty-day and 4 88@4 88 $\frac{1}{2}$  for sight, and a reduction in the latter by Baring, Magoun & Co. on Thursday and by the Bank of Montreal yesterday left only one banker posting the higher figures. Rates for actual business were also unchanged and the easier tone early in the week did not make the market quotably lower. Sixty-day sterling has remained at 4 85 $\frac{3}{4}$ @4 86 since March 22, and sight sterling and cable transfers have been 4 87 $\frac{1}{4}$ @4 87 $\frac{1}{2}$  for the former and 4 87 $\frac{1}{4}$ @4 87 $\frac{1}{2}$  for the latter since April 1. The following shows the daily posted rates for exchange by some of the leading drawers.

The market closed firm on Friday at 4 86 $\frac{1}{2}$  for sixty day and 4 88@4 88 $\frac{1}{2}$  for sight. Rates for actual business were 4 85 $\frac{3}{4}$ @4 86 for long, 4 87@4 87 $\frac{1}{4}$  for short and 4 87 $\frac{1}{4}$ @4 87 $\frac{1}{2}$  for cable transfers. Commercial bills were advanced a quarter of a cent yesterday to 4 85 $\frac{1}{4}$ @4 85 $\frac{1}{2}$  for prime and 4 84 $\frac{1}{4}$ @4 85 for documentary.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending April 9, 1897.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	\$4,782,000	\$2,552,000	Gain, \$2,230,000
Gold .....	411,000	284,000	Gain, 127,000
Total gold and legal tenders .....	\$5,193,000	\$2,836,000	Gain, \$2,357,000

With the Sub-Treasury operations the result is as follows.

Week Ending April 9, 1897.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	\$5,193,000	\$2,836,000	Gain 2,357,000
Sub-Treasury operations.....	13,700,000	14,100,000	Loss, 400,000
Total gold and legal tenders.....	\$18,893,000	\$16,936,000	Gain \$1,957,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	April 8, 1897.			April 9, 1896.

### MR. HOAR'S DEFENSE OF THE SENATE.

A formal defense of a great legislative body by one of its oldest members; admission of its faults and weaknesses, followed by a plea for its retention on the ground that faulty as it is its predecessors have been worse; all this is so unusual that it would attract attention, even if the general public had not already taken up the same discussion. But the fact that Senator Hoar's article in this month's "Forum", entitled "Has the Senate Degenerated?" is an explicit attempt to answer very general and familiar accusations, lends particular interest to the paper.

At the very beginning of his article, the Senator makes the striking admission that "it cannot be doubted that there is a widespread and growing impatience with the condition of things in the Senate. Indeed, it is becoming something more than impatience. It has already become distrust." This is certainly conceding very much; more, so far as we are aware, than has ever been conceded in a parallel case in any other legislature. English peers have participated in the occasional polemics against the House of Lords, but they were always peers who frankly advocated either abolition of the House or large curtailment of its privileges. Senator Hoar advises neither; he advocates two minor changes in the present practices of the Senate, and for the rest maintains that matters ought to be left as they stand to-day.

Mr. Hoar's defense of the present Senate is based chiefly on its improvement in morals and manners as compared with a generation or more ago. In this contention his case is sound. He notices Brooks's murderous and unchecked assault on Sumner in the Senate Chamber during 1856; Foote's vagaries in the anti-slavery controversies—his threat of lynching, from the Senate floor, against John P. Hale, and his menace of personal violence to Benton; and finally the offensive personal vituperation employed before the war in Senatorial debate. No one will certainly dispute Mr. Hoar's conclusion that the level of Senatorial decency has risen greatly since those unpleasant days. We have, to be sure, witnessed occasionally, even in very recent years, some outbreak of this old-fashioned Senatorial vulgarity: notably in a somewhat widely reprinted speech of the present senior Senator from South Carolina. But we agree with Senator Hoar that a general return to these manners of half a century ago is inconceivable. To that extent the present Senate may be congratulated and commended.

But it is not the manners of the present Senate that have evoked popular condemnation. As we take it, there are three chief allegations which underlie all current adverse criticism of the Senate. It is alleged, first, that the Upper House has largely lost the spirit of conservatism in public action; second, that its rules and practices have placed in the hands of every Senator the power to obstruct the will of the majority; and third, that the Senators from the majority of

States no longer properly represent either the higher grade of public capacity or the actual will of their constituents. All three of these allegations seem to us well founded. The Senate of 1895 and 1896 has certainly fallen far enough short of meeting Justice Story's definition of sixty years ago, as "the balance-wheel which adjusts and regulates." The rules of Senatorial debate have always been liberal, but in the most excited days of slavery discussion, we find upon its record nothing of Senators forcing consideration of foolish bills in order to hamper necessary legislation, nothing of Senators inflicting on their colleagues, often through the medium of an unlucky clerk, volumes of inane and irrelevant twaddle, such as was utilized in 1894 especially for dilatory purposes. Senate proceedings have, in short, never till recent years degenerated into burlesque of legislation. That the personal quality of the average Senator of to-day falls far short of the average of half a century or less ago we believe is strictly true, and this without affirming either that all the Senators of 1830 and 1850 were intellectual giants or that no Senator in the present Congress is worthy to be measured with the leaders of our earlier history. But individual comparisons are not necessary. The whole is only the sum of all the parts. If, therefore, we find that seriousness and dignity are repeatedly missed in Senatorial discussions, that debate no longer seems to rise, even with inspiring questions, to a lofty level, that public problems of the gravest character evoke chiefly the bickering of narrow partisans, we may conclude with safety that the character and usefulness of individual members of such a body have suffered something uncommonly like decadence.

Senator Hoar professes himself an optimist, and believes the evils which he freely admits to be susceptible of remedy. In this we agree with him. He further argues that adequate remedy may be obtained merely by altering a few of the Senate's rules. We cannot assent to this. The Senator has a double remedy to propose. First, he would "have laws upon the statute book, both National and State, punishing by sufficient penalties every Senator or Representative who absents himself from the body to which he belongs." This is undoubtedly a most useful proposition, not alone as dealing with temporary absences arranged for the deliberate purpose of breaking up a quorum, but with grave abuses such as the habitual and almost permanent absence of a recent Senator from Pennsylvania, whose attendance during a session more resembled irregular visits than serious participation in the work of legislation.

Second, and more important yet, Mr. Hoar believes that "a rule can be, indeed it has been, devised which will secure reasonable opportunity to vote in the Senate and at the same time secure reasonable debate and reasonable amendment." That such a rule can be contrived is beyond question. That an effort to introduce and pass it will be made we have some hope; not only because of this declaration by Senator Hoar, who was himself not very long ago an advocate for "Senatorial privileges" as against use of the previous question, but because of the Vice-President's significant announcement, in his brief inaugural, that he would devote his powers to securing from the Senate "prompt and positive legislation." It will be time to criticise such a change in Senate practice, and to weigh its real significance, when the new rule comes under formal Senatorial discussion. Why, if it has seriously

been prepared, it has not yet been submitted to the Senate, we do not know. But in the meantime it should be remembered that if the evil lies beyond the question of imperfect rules and irregular elections—if, in short, the trouble is with the quality of men selected, rather than with the machinery of legislation, then it is clear that reform of rules and practices will fail to meet the issue. If unfit men are being elected in continuously larger number to represent the States in Congress, the fault must rest with the system of election. Senator Hoar contends that if the legislative results be bad, unwise and hasty, "it will be because we have a bad, foolish or rash people", and he would have us "elevate the people" in order to stop the evil. But this is to beg the question altogether. Complaint is brought, not against the House of Representatives elected directly by the people, but against the Senate which they do not elect. A very clear appreciation of this fact, which Senator Hoar ignores, has led the public mind to the now familiar proposition that election of the Senators be transferred by Constitutional Amendment from the legislatures to the people of the States.

To this proposition Mr. Hoar objects, first, that it would "change the character of the Senate as conceived by the convention which framed the Constitution"; second, that it would transfer selection of Senators from the official representatives of the people of a State to an irresponsible convention; third, that it would substitute pluralities in election for majorities; fourth, that it would "create new temptations to fraud, corruption, and other illegal practices"; fifth, that it would "absolve the larger States from the Constitutional obligation which secures the equal representation of all the States in the Senate"; sixth, that it implies unfitness of the legislatures for the duty of selection; and finally, that it would logically lead to similar selection, by popular majorities, of President and Judiciary.

We do not think this array of arguments is by any means conclusive. Two of Mr. Hoar's points seem to us wholly untenable. Popular vote for a State's two Senators could hardly upset equality of States in the Upper Chamber, nor is there reason to suppose that the principle would forthwith be applied to the Presidency, much less to the judiciary. To argue, as the Senator goes on to do, that selection of Senators would by such change be shifted from a recognized official body to a popular convention which is created for and which expires with this single act, is merely to suppose exactly that to happen which has happened already with the Presidency and with the House of Representatives. In the case of the Presidency the Constitution's original purposes, to which Senator Hoar refers as argument, have been absolutely overturned, and Mr. Hoar would not be the last to say that the Constitution-makers were mistaken. They imagined a body of electors searching disinterestedly for the President best-fitted in all regards to manage the fortunes of the nation; experience of twenty years led to a change of the Constitution, and has since made of the Electoral College a mere machine for carrying out the will of a popular convention. Similarly, these same Constitution-makers pictured State legislatures seeking the highest order of political capacity for their Senators. They were under a pardonable illusion in both cases. As the people have already taken the nomination of the Presidency into their own hands, if they were now to claim a similar power of electing Senators, it would be merely

another and equally proper application of the principle.

The argument that new inducements to corruption would be provided by popular election of the Senators does not sound formidable to those who have watched the Senatorial elections of our time. That it would substitute mere pluralities for majorities, as at present required, would be, in our judgment, no misfortune. If it were an evil, it would certainly not be comparable to the protracted, expensive, corrupt and exasperating deadlocks which are now-a-days a constant spectacle. Three States to-day have only one elected Senator apiece at Washington, simply because their legislators will not agree upon a choice. States have been robbed in this way of their due representation in the Senate during consecutive periods of two years. Under a popular election such results would be impossible. At the very worst an occasional contested election would be the one unfortunate result. But a contested election case more scandalous than the recent contest in the State of Delaware, under the present system, would be hard to picture.

In short, it seems to us that Senator Hoar fails to make out a plausible case against the change of system. Against his recital of imagined ill results, three positive and highly important advantages would be secured. A Senatorial candidate, seeking a popular election, would have to face discussion of his character and capacity before the people; therefore an unfit man whom the people did not want could not be forced upon them. He could not buy his election to the Senate; even supposing purchase possible with popular election, the cost of such corruption would be too great for a moment's consideration. He could not safely disgrace himself and his constituents by act or vote in Congress; were he to take such chances, the end of his existing term would surely end his career.

The root of present evils is undoubtedly the vast facility for corruption in the legislatures of the States. This and its attendant evil of domination by the individual who may for the time being be at the head of the party organization, are phenomena of our own time. It is idle for Mr. Hoar to argue that a change in plan is needless because "the whole current of our history shows to be untrue" the accusation "that the State legislatures have proved themselves unfit to be the depositaries of the power of electing Senators." If it be shown that the average State legislature is unfit for such duty now, and is reasonably certain to continue thus unfit, it matters little that they were proper depositaries of the power twenty-five or fifty years ago. What the nation has to deal with is genuine and present evils; in the case in point, with notoriously increasing evils. Many State legislatures use their privilege to-day in selecting for the Senate eminent and worthy incumbents of the seat; this may be safely enough asserted of the legislature which selected Senator Hoar himself from Massachusetts and of many others. But when such legislatures were ready, without the influence of money or machine, to choose such men, it is a pretty safe inference that the people under present conditions would have done no worse.

We are no advocates of constant tinkering with the Constitution. Some provisions of our organic Federal law are adapted so profoundly to the needs of Anglo-Saxon civilization at all times and places that they will never be removed short of a revolution. Others were necessarily constructed with a view to the society and

local institutions of a hundred and ten years since, and the society for which they were contrived has altered in a degree never conceived by the founders of the Constitution. It has been the proper spirit of our people to touch these provisions too with caution, and to alter, as in the amendments regarding Presidential elections and regarding slavery, only when longer postponement clearly threatened immediate danger to the nation. With the question of abuses in Senatorial elections we have now had a generation of experience, the evil steadily increasing all the time. It is well that the discussion should be kept before the people's minds.

#### GUARANTY BY ONE RAILROAD COMPANY OF THE BONDS OF ANOTHER.

The decision last month of the Appellate Division (1st Department) of the Supreme Court of this State in the case of the guaranty of the Evansville & Richmond bonds involved one question of general interest. This question was whether where a company guarantees the bonds of another company, principal and interest, and where the mortgage provides that in case of default the mortgage trustee or the bondholders may declare the principal due, and the option is exercised—the question was whether the guarantor company in that event becomes liable for the principal immediately or not until the maturity of the bonds. The question possesses especial interest in this instance because the case involved two issues of bonds, on one of which the Court decides that the contract of guaranty requires immediate payment, and on the other that the liability for principal does not begin until the time when the amount is payable by virtue of the bond itself. We stated the conclusions of the Court in our railroad columns last week, but did not then have room to show the difference on which the distinction between the two classes of bonds is based.

The complaint, as will be remembered, was brought by John Dougan against the Evansville & Terre Haute Railroad Co., which had guaranteed the bonds of the Evansville & Richmond Railroad Co. Two causes of action were alleged; the first to recover the amount of certain bonds of the Evansville & Richmond Company, designated as first mortgage bonds on the Western division, Elnora to Columbus; and the second to recover the amount due upon certain bonds of the same company known as first general mortgage bonds. As our readers know, through an arrangement with the Evansville & Terre Haute Company most of the Evansville & Richmond bonds have been exchanged for Evansville & Terre Haute preferred stock, and the present suit was brought by one of the holders of a small amount of the bonds that did not assent to the exchange. The Court does not undertake to pass upon the validity of the guaranty. Judge Ingraham, who delivered the opinion, says that the illegality, if any, must depend upon a foreign law of which the Court cannot take notice. It may be that the laws of the State of Indiana or the charter of the Evansville & Terre Haute Company expressly prohibited the latter from doing the acts alleged in the complaint to have been done by it. Upon that fact being proved, a question will be presented as to the liability of the company. But upon the facts conceded in the case no such question is presented.

Nothing appears upon the face of the complaint to show that the guaranty was not a legal exercise of corporate powers. On the contrary, the facts admitted,

namely that the Evansville & Terre Haute, to complete the Evansville & Richmond, which was a part of its system, advanced money for that purpose, and to reimburse itself took bonds of the road, endorsed a guaranty upon them and issued them to purchaser and received the proceeds—these facts, says Judge Ingraham, would certainly, in the absence of any expressed prohibition, create a liability on behalf of the guaranteeing company to the extent of its guaranty. If the obligation was one which would be void under the law of New York as against public policy, or in violation of some rule of the common law, an allegation that it was lawfully executed could not be held to override the express rule of law violated by its execution. There is, however, no such invalidity in the contract in question. The power to make the contract must depend upon the law of the State creating the corporation, unless the contract is one prohibited by law in this State; and no rule of the common law or statute was called to the attention of the court which would make the contract illegal. Hence it is held that the power of the corporation to execute the guaranty must be regarded as admitted.

With reference to the question whether the full amount of principal and interest could be recovered, the Court decides in the case of the general mortgage that it could, and in the case of the Western division mortgage that it could not. The distinction is founded on a very slight difference in the language of the guaranty inscribed on the bond. On the general mortgage the form of guaranty reads: "The Evansville & Terre Haute Railroad Company hereby guarantees to the holder of the within bond, the punctual payment of the principal and interest thereof, *when and as the same shall become due and payable*". On the Western division mortgage the guaranty says: "The Evansville & Terre Haute Railroad Company \* \* hereby guarantees the payment of the principal and interest mentioned in the within bond, *according to the tenor and effect thereof*". The parts in italics indicate where the two forms of guaranty are dissimilar. To interpret the meaning and effect of the words of the guaranty in each the Court refers to the terms and provisions of the two mortgages.

In the case of the general mortgage the question was, what does the payment of the principal and interest of the bond, "when and as the same shall become due and payable" mean? By the mortgage it was provided that in case default should occur in the payment of interest, then after demand by the trustees for the payment of the moneys the principal of the bonds should at the election of the trustees become immediately payable. The Court reasons therefore that under this provision, immediately upon default being made in the payment of the interest, upon the election of the trustees the principal sum became at once due and payable; and the Evansville & Terre Haute Company having guaranteed the payment of principal and interest of the bond "when and as the same shall become due and payable", and the principal having become due and payable according to the bond itself, the guaranteeing company was liable.

But was there no provision for declaring the principal due in the case of the Western division mortgage? Yes, but the remedy was not the same. In the first place, as we have seen, the language of the guaranty was different, it reading "guarantees the payment of principal and interest" of the bond "according to the

tenor and effect thereof". Then the mortgage provided that upon default, which should continue for six months after demand by the trustees, the principal should at the election of the trustees "become immediately collectible from and out of the said mortgaged premises." It was argued that under that provision the default in interest affected the time of payment of the principal only so far as it authorized the trustee to collect the principal sum out of the mortgaged premises, leaving the promise of the obligor to pay the principal in the year 1928 unaffected by the default. The Court sustains this view, saying that there is no promise that the obligation of the obligor will be in any manner changed in consequence of the default in the payment of interest. The obligor is to pay the principal in 1928, with interest thereon semi-annually upon stated periods, with a provision in the bond that if default is made in the interest the trustees may immediately proceed to enforce a lien upon property given to secure the bond and to apply the proceeds realized from the sale of such security upon the amount of such principal of the bonds. But there is nothing to give the holder of the bond a cause of action against the obligor before the time fixed for such payment in the bond itself. And as the Evansville & Terre Haute guaranteed the payment of the principal and interest, "according to the tenor and effect" of the bond, the conclusion is reached that in the absence of any other provision in the mortgage there would be no obligation to pay the principal which could be enforced by a judgment against the obligor until the time when the amount is payable by virtue of the bond itself.

As there are only about \$65,000 Western Division bonds and \$167,000 general mortgage bonds left outstanding (the rest having been exchanged), the ruling is not a matter of very great consequence in this particular case. But it is important in its general bearing as showing how essential it is for investors to study and examine the language of both the guaranty and the mortgage in such cases, a slight difference in the wording of either working a great difference in the interpretation put upon it by the courts.

#### ARE STREET RAILWAYS SUBJECT TO THE INTER-STATE COMMERCE LAW?

The Inter-State Commerce Commission has recently decided the question whether electric street railways not wholly within the limits of one State are subject to the Act to Regulate Commerce. We do not remember ever having seen the point raised before. The ruling is interesting on that account, and also because of the divergence of views among the members of the Commission which the case disclosed.

The case was that of Charles M. Willson against the Rock Creek Railway Company. The company operates a line of electric railway  $7\frac{1}{2}$  miles long, running from Washington, D. C., to Chevy Chase Lake, in Montgomery County, Maryland. The road is used mainly for the conveyance of passengers. Cars containing merchandise are frequently hauled; but this, it is claimed, is done for the convenience of its traveling patrons, and the company does not hold itself out to the general public as a carrier of freight. The regular rate of fare over the line is 10 cents where passengers travel over both the Maryland division and the D. C. division, six tickets being sold for fifty cents. Formerly the charge was only twenty-five cents for

six tickets, but this, it is claimed, resulted in a loss to the company. The same parties who are interested in the railway also own the Chevy Chase Land Company, and this company, to encourage the purchase and occupation of its lands, and to induce the public to patronize its hotels, sells the tickets to such persons as it chooses to favor at the old price of six for twenty-five cents. It buys the tickets, however, at the rate of six for fifty cents, and therefore loses apparently twenty-five cents on every such sale. The complainant Willson, not residing on the land of the Chevy Chase Company, the latter would not sell him tickets at the reduced figure. He therefore charged discrimination, and brought the present action before the Commission. The road is constructed upon or along public highways, and is, it is admitted, essentially a street surface road for the conveyance of urban and suburban passengers. No printed schedule of fares and charges is posted in the manner required by the Inter-State Commerce Law, and the company claims to be exempt from the operation of that law.

Commissioner Knapp, who wrote the opinion of the Board, says that the contention that the Act to Regulate Commerce applies only to the ordinary steam railways by which inter-State traffic is mainly carried, and that street surface roads for urban and suburban passenger travel are exempt, can not be sustained. It may be conceded, he says, that this class of railroads was not specifically within the contemplation of the framers of that law, for the evils which it was intended to remedy would, in the nature of the case, rarely arise in the management of such roads and their dealings with the public. But the terms of the statute in this regard are broad and general, and it contains no exception indicating a design to exclude from its operation those inter-State roads which are constructed upon public highways, to provide the means for local passenger transportation in the streets of towns and cities and their various suburbs. Hence he sees no reason to doubt that the authority of this enactment may be invoked for the regulation of carriers like the Rock Creek Railway if their business is actually inter-State whenever occasion arises for subjecting them to its restraints and requirements.

Nor can it be admitted, he contends, that the Inter-State Law is inoperative in this case because the Constitutional power to "regulate" commerce is confined to "commerce among the several States", and the District of Columbia is not a State within the meaning of that phrase. If such a proposition were correct as to commerce between the District of Columbia and an adjoining State, it would be equally conclusive as to commerce between a State and an adjacent territory or between any two territories; and it would necessarily follow that there is a large amount of internal commerce, and a vast variety of agencies employed in its transportation, which are not only uncontrolled by existing laws, either national or State, but which are beyond the reach of any legislative authority. Hence the conclusion is reached that as the "commerce" in which the defendant is engaged is not carried on within the limits of Maryland, but between that State and the District of Columbia, and is therefore not subject to regulation by Maryland laws, it must be within the jurisdiction of Congress and amenable to the statute which Congress has enacted.

It is noteworthy, however, that the Commission is not unanimous on the question whether street railways

are subject to the provisions of the law. Commissioners Morrison and Clements agree with Commissioner Knapp, but on the other hand Commissioners Prouty and Yeomans dissent, holding that the Commission has no jurisdiction for the reason that the Act to Regulate Commerce does not include a street railroad. Mr. Prouty says that no importance is attached to the kind of motive power. The term "railroad" is undoubtedly broad enough to include a street railway, and often does include it in statutory enactments. There is however, he argues, a wide distinction between a railroad in the ordinary acceptation of that term and a street railroad, and whether the term "railroad" when used in a particular statute does or does not include a street railway is a question of legislative intent in each particular case. Looking to the scope and substance of the Act to Regulate Commerce, he does not think that Congress intended to include street railways.

On the question of discrimination, there were equally sharp differences of opinion. Commissioner Knapp holds that there is nothing unlawful in the act complained of, saying that if the Chevy Chase Land Company, in the course and for the benefit of its separate business, sees fit to sell at half price, or to give away altogether, tickets for which it has paid the railroad full price, the Commission is unable to perceive wherein any legal right is exceeded or legal duty disregarded. In this view Commissioners Prouty and Yeomans concur. But Commissioners Morrison and Clements see things in a different light, saying that the discrimination is the joint act of the two companies, the land company being the instrumentality through which the discrimination is effected, and that the railway company as a common carrier should not be permitted to accomplish thus indirectly what if done directly would be a transparent and manifest violation of the Inter-State Commerce law.

#### RAILROAD GROSS EARNINGS FOR MARCH.

Our statement of railroad gross earnings for March shows a small gain in the aggregate. And this must be accepted as a very hopeful result, indicative of an improvement in the state of general trade. For the gain has been reached notwithstanding the existence of quite a number of adverse conditions and influences, producing heavy losses on certain classes of roads. Our compilation comprises altogether 126 lines or systems, and of these 57 record decreases and 69 increases, the final total showing \$610,441 gain, or 1.60 per cent.

Of course we must not overlook the fact that the month had an extra business day the present year, March 1897 having contained only four Sundays while March 1896 had five. On the other hand, bad weather over wide areas of country has played an important part in reducing the earnings of the roads. At the beginning of the month, snow storms affected the outlying lines of the roads in the Northwest, so that no reports were received for several days from a number of stations. And it may be said generally of these roads that while their main lines were not blockaded some of the remoter branches have had more or less trouble with snow all winter, there having been an unusual fall of snow at many places.

Then all through the Middle Western and Southern Central States railroad operations were greatly retarded by heavy rains, which, with the melting of snow,

caused high-water, floods and washouts. In the Mississippi the water at certain points reached a higher stage than ever before known. And so serious has been the damage and suffering caused by breaks in the levees in Arkansas, Missouri, Mississippi and Louisiana, inundating large areas of land, that President McKinley this week felt called upon to send a special message to Congress urging measures of relief, to which Congress immediately responded with an appropriation of \$200,000. The conditions which brought about the high water and overflows in the Mississippi extended also to the various tributaries of the river in the West and Northwest. As far north as St. Paul high water in the Mississippi did great damage. Along the Red River of the North overflows likewise caused serious harm. Besides all this, the heavy rains made the country roads in many parts of the country almost impassable, rendering it very difficult to haul freight to the railroad stations.

Another adverse influence was the great contraction in the grain movement as compared with the exceptional movement of a year ago. For the four weeks ending March 27 the receipts of wheat at the Western primary markets reached only 6,894,342 bushels this year, against 10,042,961 bushels in the same four weeks of last year; and the receipts of oats were only 9,700,479 bushels, against 12,614,642. The corn movement ran a little ahead of that for 1896, but on the other hand there was a loss in barley and oats. Altogether, the receipts of wheat, corn, oats, barley and rye were only 30,014,170 bushels in the four weeks of this year, against 36,756,114 bushels in the four weeks of last year. The following shows the grain movement in detail in our usual form.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDING MARCH 27 AND SINCE JANUARY 1.

It will be observed that the decrease has been mainly at Northwestern points, and the large and general losses in earnings by the roads in that part of the country are chiefly accounted for by that circumstance. The

falling off in the grain movement in the section referred to is well illustrated by the receipts at Chicago, for which point we have the figures for the even month. As against 19,299,734 bushels last year, the receipts this year were only 12,275,466 bushels. It is proper to say that the total last year was unusually large, the receipts in 1895 having been only 8,751,386 bushels. The following furnishes a comparison for three years.

RECEIPTS AT CHICAGO DURING MARCH AND SINCE JANUARY 1.

	March.		Since January 1.		
	1897.	1896.	1897.	1896.	1895.
Wheat...bush.	383,407	610,618	418,209	1,366,576	1,514,909
Oats...bush.	4,161,117	8,842,840	2,879,163	14,700,690	23,585,493
Rye...bush.	6,027,383	9,540,173	4,344,411	24,537,808	21,815,593
Barley...bush.	94,536	188,344	128,546	413,830	698,089
Barley...bush.	1,019,021	1,763,304	781,166	4,145,080	4,730,073
Total grain	12,575,466	19,299,734	8,751,386	43,471,014	63,222,923
Flour...bbls.	281,811	171,677	866,095	631,692	597,033
Pork...bbls.	450	374	878	547	1,221
Cattle...lbs.	13,028,234	11,123,121	16,117,398	33,352,516	40,188,649
Lard...lbs.	3,543,630	8,320,639	5,548,482	11,022,161	19,156,678
Live hogs...No.	576,018	696,165	715,483	2,040,400	1,845,681

There was also a loss in the live-stock movement in the West. Of hogs the deliveries at Chicago, as will be seen from the foregoing table, were only 576,018 head in 1897 against 596,165 head in 1896. Taking all kinds of live stock, the deliveries were 21,536 car loads in March 1897 against 22,556 car loads in March 1896.

Nor did Southern roads have the advantage of any increase of consequence in the cotton movement. At the Southern outports the receipts were a little larger, being 295,170 bales against 283,552 bales, but the shipments overland amounted to only 86,569 bales against 95,790 bales in 1896.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN MARCH, AND FROM JANUARY 1 TO APRIL 1, IN 1897, 1896 AND 1895.

It is because the roads have had all these drawbacks to contend against that the gain of \$610,441 must be regarded as very satisfactory. The gain follows an increase last year and also a small increase the year before, as will be seen by the following.

March.	Receipts.		Earnings.		Increase or Decrease.
	Year Given.	Year Preceding.	Year Given.	Year Preceding.

The Northwestern group of roads makes, on the whole, the poorest comparison of any, but that results from the fact that the same group of roads had very large gains the year before. The Minneapolis & St. Louis, the Wisconsin Central and four minor roads are the only ones that run ahead of their last year's totals. The nine roads included in the subjoined table show gross receipts of but \$6,089,513 for March

1897, against \$6,863,754 for March 1896, but against \$5,704,685 for March 1895.

\* Fourth week not reported; taken same as last year.

On the Milwaukee & St. Paul the loss, it will be seen, has been \$413,027 and on the Great Northern \$132,179; and most of the losses of any considerable amount are found among this group of grain-carrying roads. The reason is that the movement of spring wheat was greatly reduced as compared with the phenomenal movement of the previous year. On the other hand, while among the 126 roads from which we have secured returns there are also a number with large gains, these are more evenly distributed, coming from nearly all parts of the country. Below we give a list of all gains and losses above \$30,000 in amount.

\* For three weeks only.

The Southwestern roads on the whole show improved results, though there are a few like the Missouri Kansas & Texas, the St. Louis & Southwestern, &c., which have suffered from the bad condition of the country roads, and consequently fall behind.

\* Fourth week of March not reported; taken same as last year.

† Month of March not reported; taken same as last year.

For the East and West trunk lines, so far as we have returns from them as yet, the exhibits are rather irregular, the gains outnumbering the losses however.

## EARNINGS OF TRUNK LINES.

\* Includes Rome Watertown & Ogdensburg for all the years.

What has been said of the trunk lines is true also of the other roads in the Middle and Middle Western States, with this difference, that in this case the losses greatly outnumber the gains.

\* Includes the operations of the St. Louis Alton & Terre Haute for all the years. + Fourth week not reported; taken same as last year.  
A figures here for 1897 and 1896 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably.

As for the Pacific roads, we have only the returns of Canadian Pacific and the Northern Pacific, both showing small gains.

enza, has just started for the Riviera, and it is naturally argued that he would not leave the country at such a time if there were any serious danger of the outbreak of war. Moreover, it is understood that he will have an interview with the French Foreign Minister in passing through Paris. Much hope is entertained that this will result in a better understanding between this country and France than has existed since the Arabi meeting.

There is a remarkable change of feeling in France, and lately much less value is attached to the Russian alliance, and a much stronger wish is expressed for an *entente* with England. In this country there has always been a desire to work well with France, and it is hoped that the meeting of the two foreign ministers will have good results. The fact that no collision has taken place between the Greeks and Turks is likewise looked upon as a hopeful circumstance, though since yesterday the feeling has not been so confident.

The acceptances by the Senate of the amendments to the Arbitration Treaty are very much regretted here. But the feeling is strong that whatever becomes of the treaty the two peoples are so closely united by common interests and common sentiments that a serious quarrel between them is impossible.

In India the famine shows no sign of abatement, and the plague, though reported to be less acute, is still very serious. In South Africa there is as yet no sign of a better understanding with the Transvaal.

But though there is much anxiety both regarding Greece and the Transvaal, there is undoubtedly a more hopeful feeling and a greater willingness upon the Stock Exchange to engage in new business. The general public is still holding aloof, but professional operators and members of the Exchange are dealing more freely. The decision of the Supreme Court in the Trans-Missouri case is not very clearly understood here. Of course it has helped to deter people from buying American railroad securities, but what its real import is nobody understands very clearly, and the market therefore follows New York without any initiative of its own. The Tariff bill has likewise for the time a depressing effect.

The most active departments are British railway stocks and foreign government bonds. On Wednesday there was a general recovery upon the principal Continental bourses, and there was a very marked recovery in Egyptian securities. Egyptian Unifeds were quoted that day at 107½, the highest quotation ever yet recorded. It seems to be generally agreed upon the Continent, as well as here at home, that the condition of Turkey renders it absolutely impossible for the British Government to withdraw from Egypt; that therefore British administration must continue indefinitely, and consequently that the Egyptian finances will be carefully attended to. There has likewise been more activity in Western Australian and New Zealand gold shares, but the South African market is quite neglected.

On Wednesday evening the first quarter of the calendar and last quarter of the financial year will end, and as a consequence there is a greater demand for short loans than for some time past. It is possible that during the first three days of next week large borrowings may take place at the Bank of England. On the other hand, rates are very moderate considering the time of the year, and in any case the payments out of the Exchequer will now be so large that the supply in the open market is certain to be increased some time next week, while the following week the interest on the national debt will be distributed. For some months, therefore, everybody expects exceedingly low rates. At the fortnightly settlement, which ended last night, the bull account was found to be even smaller than a fortnight previously, and more loans were paid off than were negotiated, while the carrying-over rates within the Stock Exchange were exceedingly light.

The silver market is depressed, but the India Council has been able to sell its drafts more satisfactorily this week. After some slight decline in the pressure for money in India there is again a tightening this week. The rates of the banks of Bombay and Bengal remain the same, but the supply of money is small, and the general impression is that though the Bank rate may be reduced to seven or even six per cent, the stringency will continue more or less for some considerable time. In three or four weeks the export season will practically come to an end, and in normal times rates then rapidly decline to four or perhaps three per cent; but this year the revenue is coming in so badly, while the expenditure is so

large, that the Treasury balances are unusually low, and are likely to continue so. Furthermore, in the Budget it is announced that the Government will borrow four crores in India, and that is likely to decrease very seriously the reserves of the Presidency banks. No very great improvement in the situation is therefore looked for until nearly the end of the summer.

The new American Tariff bill is already exerting a depressing influence upon certain branches of European trade. The American buying, it is true, of raw wool continues as active as ever and at somewhat higher prices. It is estimated that since the beginning of the Colonial wool sales three weeks ago the American purchases have averaged about £3,000 a day, and this week the prices of wools suited for America are about five per cent higher than at the beginning. But woollen manufactures are certainly slower. On the Continent more particularly American orders have ceased to be placed, and there is a fear that the Continent may lose the American market altogether. In this country the orders placed have been getting smaller for some time, but it is confidently believed that a portion of the trade will be retained. South Wales is also affected, and so likewise is the North of Ireland. Belfast houses report that already they are suffering considerably from the cessation of American buying. The Lancashire cotton trade is likewise suffering from the distress in India. But in all other departments trade continues wonderfully good. In spite of the long continued political anxieties and the uncertainty in South Africa, business taken as a whole is decidedly prosperous.

The "Railway News" of London reports the traffic receipts for the week ending March 21 of 55 railways of the United Kingdom which makes weekly returns at £1,533,804, against £1,473,277 in the corresponding week of last year, an increase of £60,527. For the twelve weeks of the current half-year receipts were £17,778,487, an increase of £465,970.

The Bank rate of discount and open market rates at the chief Continental cities have been as follows:

Rates of Interest at	Mch. 20		March 19.		Mar. 12.		March 5.	
	Bank Rate.	Open Market	Bank Rate.	Open Market	Bank Rate.	Open Market	Bank Rate.	Open Market

Messrs. Pixley & Abell write as follows under date of March 25:

Gold—In consequence of Continental demand a slightly higher price has been paid for some recent arrivals. The Bank has received 2430,000, all in sovereigns, from Australia Arrivals: Australia, 2440,000; Bombay, 250,000; Capetown, 2117,000; total, 2807,000. Shipments: Bombay, 213,000; Japan, 2170,400; total, 2133,400.

Silver—During the week there has been a sharp reaction in silver, caused by bear re-purchases and strong Indian inquiry. Of the rise, 3-16d. has since been lost and the market closes at 24 13-16d. sellers. The Indian rate is Rs. 75½ per 100 tolas. Arrivals: New York, 2203,000; Chili, 240,000; total, 2243,000. Shipments: Bombay, 212,800.

Mexican Dollars—The nearest price is 28d. but nothing has been done for some days. Shipments: Penang, 25,600.

The quotations for bullion are reported as follows:

CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO APR. 1.—The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes March 1, together with the amounts outstanding April 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to April 1.

National Bank Notes—		
Amount outstanding March 1, 1897.....		\$234,149,980
Amount issued during March.....	\$632,585	
Amount retired during March.....	1,073,681	441,068
Amount outstanding Apr. 1, 1897.....		\$233,708,894
Legal Tender Notes—		
Amount on deposit to redeem national bank notes March 1, 1897.....		\$23,234,545
Amount deposited during March.....	\$1,748,437	
Am't released and bank notes retired in Mar.....	1,041,790	708,647
Amount on deposit to redeem national bank notes Apr. 1, 1897.....		\$23,941,192

\* Circulation of National Gold Banks, not included in above, \$85,247.

According to the above the amount of legal tenders on deposit Apr. 1 with the Treasurer of the United States to redeem national bank notes was \$23,941,192. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

Deposits by—	Dec. 1.	Jan. 1.	Feb. 1.	Mar. 1.	Apr. 1.
Insolvent bks.....	\$ 704,585	\$ 895,497	\$ 935,997	\$ 1,026,652	\$ 1,184,238
Liquidating bks.....	4,854,017	4,786,795	4,769,053	4,691,430	4,825,028
Red'g' und. set of 1874.....	13,143,817	14,043,782	16,116,424	17,526,463	17,931,918
Total.....	18,702,419	19,726,074	21,821,374	23,244,545	23,941,192

\* Act of June 20, 1874, and July 12, 1882.

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods April 1 and for the week ending for general merchandise April 2; also totals since the beginning of the first week in January.

#### FOREIGN IMPORTS AT NEW YORK.

For week.	1897.	1896.	1895.	1894.
Dry goods.....	\$2,664,313	\$2,362,094	\$2,524,361	\$1,537,953
Gen'l mer'dise.....	9,413,011	8,930,707	7,022,111	7,390,740
Total.....	\$12,077,324	\$11,342,801	\$9,546,472	\$8,928,693
Since Jan. 1.....	\$32,469,381	\$40,197,365	\$11,702,730	\$25,122,988
Gen'l mer'dise.....	92,263,682	80,183,039	89,624,296	87,546,713
Total 13 weeks.....	\$124,737,063	\$130,380,404	\$134,327,026	\$112,669,681

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending April 5 and from January 1 to date:

#### EXPORTS FROM NEW YORK FOR THE WEEK.

	1897.	1896.	1895.	1894.
For the week.....	\$5,920,532	\$6,721,132	\$7,332,345	\$6,181,940
Prev. reported.....	94,041,559	92,148,304	80,802,938	87,912,081
Total 13 weeks.....	\$99,970,091	\$98,869,436	\$88,135,283	\$94,094,021

The following table shows the exports and imports of specie at the port of New York for the week ending April 3 and since January 1, 1897, and for the corresponding periods in 1896 and 1895:

#### EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....				\$15,276
France.....		\$521,895		10
Germany.....				622,352
West Indies.....	\$4,000	430,540	18,860	24,490
Mexico.....			1,114	133,989
South America.....	12,300	106,786	21,997	87,444
All other countries.....			6,350	
Total 1897.....	\$16,300	\$1,058,321	\$48,621	\$1,083,561
Total 1896.....		12,777,210	13,729	17,351,970
Total 1895.....	553,652	30,487,892	1,323,989	13,262,942
Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	\$1,026,300	\$11,278,179		\$2,022
France.....		431,000		1,000
Germany.....		5,750		55,434
West Indies.....	2,348	43,352	\$800	2,036
Mexico.....			17,763	200,326
South America.....		11,475	48,368	5,790
All other countries.....				
Total 1897.....	\$1,028,648	\$11,769,750	\$67,029	\$555,508
Total 1896.....	1,110,789	13,672,123	45,214	691,891
Total 1895.....	431,210	7,629,602	47,300	356,101

Of the above imports for the week in 1897 \$19,860 were American gold coin and \$100 American silver coin. Of the exports during the same time \$11,400 were American gold coin.

**Breadstuffs Figures Brought From Page 719.**—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending April 3, 1897, and since August 1, for each of the last three years:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.
	Bbls. 196 lbs.	Bush. 60 lbs.	Bush. 56 lbs.	Bush. 32 lbs.	Bush. 48 lbs.	Bush. 56 lbs.

—The annual meeting of the stockholders of the United States Rubber Company will be held at the company's office, New Brunswick, N. J., Tuesday, May 18, at noon. The transfer books will be closed from the close of business Friday, April 23, and reopened May 19.

—The card of Henry R. Wilson, 41 Wall Street, New York, will be found on the last page of this issue. Mr. Wilson, who has lately withdrawn from the firm of James N. Brown & Co., of which he has been a member since its organization, will devote his attention to local interest-paying securities, handling them as a dealer.

—A limited amount of gold 5 per cent bonds of the Metropolitan Street Railway Co. of Kansas City, Mo., are offered and recommended as a safe and conservative investment by N. W. Harris & Co. Their advertisement in the State and City Department gives details.

**Auction Sales.**—Among other securities the following, not regularly dealt in at the Board, were recently sold at auction.

WALL STREET, FRIDAY, APRIL 9, 1897—5 P. M.

**The Money Market and Financial Situation.**—The developments of the week have not been of sufficient importance to materially affect business in Wall Street, which has been to a large extent of a professional and routine character. Some features of the stock market are regarded as evidence that there has been sufficient buying of railway shares for investment during the recent low range of prices to account for the present strength of the market, and its tendency to advance in response to a demand for the purpose of covering short contracts. Whatever the cause may be, there has been a substantial advance from the low quotations of the early part of the week, notwithstanding the fact that the stock and grain markets have been weak to-day and that wheat has materially declined.

Wall Street was not surprised at the closing of certain business houses whose methods have been well understood as questionable, and who have depended chiefly upon a country correspondence for support. The surprise is that so many people can be induced to send money in response to the circulars and prospectuses issued by such houses, promising impossible results. Fortunately the closing up of these concerns has very little or no effect upon legitimate business.

An event of general interest was the reduction of the Bank of England's discount rate from 3 to 2 1/2 per cent. It is believed to indicate that the managers of the Bank regard the political situation as less threatening than it has recently been. The number of railway traffic reports which compare favorably with those of last year is increasing, but show that general business is still very much restricted.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 1/2 to 2 per cent. To-day's rates on call were 1 1/2 to 2 per cent. Prime commercial paper is quoted at 3 1/2 to 4 per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £945,923 and the percentage of reserve to liabilities was 52.31, against 52.65 last week; the discount rate was reduced from 3 to 2 1/2 per cent. The Bank of France shows a decrease of 1,700,000 francs in gold and 3,200,000 francs in silver.

The New York City Clearing-House banks in their statement of April 3 showed a decrease in the reserve held of \$1,853,300 and a surplus over the required reserve of \$47,666,575, against \$48,895,750 the previous week.

**Foreign Exchange.**—The market for foreign exchange has been steady on a limited demand, which has increased somewhat towards the close. Rates are unchanged.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 4 85 3/4 @ 4 86; demand, 4 87 @ 4 87 1/4, cables, 4 87 1/4 @ 4 87 1/4.

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying, 1-16 discount, selling par; Charleston, buying par, selling 1/2 premium; New Orleans, bank, \$1 00 premium; commercial, par; Chicago, 25c. per \$1,000 discount; St. Louis, 40 @ 75c. or \$1,000 discount.

Posted rates of leading bankers follow:

	April 9.	Sixty Days.	Demand.
Prime bankers' sterling bills on London..	4 86 1/2		4 88 @ 4 88 1/2
Prime commercial.....	4 85 1/4 @ 4 85 1/2

**United States Sub-Treasury.**—The following table shows the daily receipts and payments at the Sub-Treasury:

Date.	Receipts.	Payments.	Balances.		
			Coin.	Coin Cert's.	Currency.
Apr. 3	\$ 2,552,090	\$ 2,950,587	\$ 131,149,303	\$ 2,082,415	\$ 69,551,814
" 5	2,532,309	2,425,571	131,357,607	2,123,266	69,409,398
" 6	2,438,261	2,159,971	131,451,948	2,304,404	69,431,809
" 7	4,135,793	3,433,927	131,562,914	2,371,060	69,955,653
" 8	2,332,566	3,336,915	131,652,096	1,30,839	69,482,653
" 9	2,191,243	2,540,337	131,925,217	1,959,635	68,671,733
Total	16,202,262	16,897,708			

**Coins.**—Following are the current quotations in gold for coins:

Sovereigns.....	\$4 87 @ \$4 90	Fine silver bars.....	62 @ 62 7/8
Napoleons.....	3 86 @ 3 89	Five francs.....	93 @ 95 1/4
X X Reichmarks.....	4 76 @ 4 80	Mexican dollars.....	48 1/2 @ 49 1/4
25 Pesetas.....	4 77 @ 4 81	Peruvian sols.....	43 1/2 @ 45
Span. Doubloons.....	15 55 @ 15 75	English silver.....	4 84 @ 4 88
Mex. Doubloons.....	15 50 @ 15 75	U. S. trade dollars.....	65 @ 75
Fine gold bars.....	par @ 1/4 prem		

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to \$4,000 Virginia fund. debt 2-3s of 1901 at 63 3/4 and \$4,000 Tennessee settlement 3s at 75 to 78.

The market for railway bonds has been unusually dull and narrow. The investment demand has become very much reduced and at the same time offerings, especially of high-grade bonds, are limited. The small volume of business has been fairly well distributed, and in nearly all cases changes in quotations are insignificant, being about evenly divided between fractional advances and declines. Wisconsin Central trust receipts have been weak to-day, closing at a net loss of 3 points.

The active list includes Northern Pacific, Atchison, St. Louis & Southwestern, St. Louis & Iron Mountain, Denver & Rio Grande, Texas & Pacific, Rio Grande Western, Union Pacific, Rock Island, Burlington & Quincy, Milwaukee & St. Paul, Missouri Kansas & Texas, Louisville & Nashville, Central of Georgia, Chesapeake & Ohio, Reading, Southern Railway, Lake Shore, Wabash and West Shore bonds.

**Railroad and Miscellaneous Stocks.**—The stock market has been dull and irregular. Its course shows the effect of speculative manipulation, as the public is holding aloof; although it is believed in certain quarters that there has been some good buying of stocks at the current low prices, of which the undertone of strength is evidence. The market was weak on Monday and Tuesday and prices generally fell off an average of over one point, since which there has been some recovery, and net changes in most cases are fractional, notwithstanding a general weakness and some losses to-day. The coal stocks have been most conspicuous, Central of New Jersey falling below the lowest quotations of last week and recovering 1 point. Lackawanna was below 150 on Tuesday for the first time since August last, closing at 153 1/4. Delaware & Hudson on the other hand has steadily advanced until to-day and closes with a net gain of 1 1/2 points. The Vanderbilt stocks have been strong, New York Central, Lake Shore, C. C. & St. Louis and Omaha having advanced from our last quotations. The grangers have recovered from the depression of the early part of the week.

The miscellaneous list has been relatively more active than of late. Western Union has recovered a part of its recent loss. Chicago Gas has been in demand and advanced over 3 points on its good showing of earnings. The local gas stocks have advanced on the passage of the compromise bill in the State Senate. American Sugar gained 4 points on a large volume of business but lost 1 point to-day.

## NEW YORK STOCK EXCHANGE—ACTIVE STOCKS for week ending APRIL 9, and since JAN. 1, 1897.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

\* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & Southwestern. † These figures include results on leased lines.

‡ Includes earnings from ferries, etc., not given separately. § Mexican currency. ¶ Includes only half of lines in which Union Pacific has a half interest.

‡ Includes operations of the Ohio, Burlington & Northern in both years.

§ Covers results for lines directly operated east of Pittsburg.

¶ Includes results on affiliated lines.

‡ Covers besides the Atlantic System the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans.

† Includes St. Louis Alton & Terre Haute for all periods.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:

For the fourth week of March our statement covers 73 roads, and shows 7.37 per cent increase in the aggregate over the same week last year.

4th week of March.	1897.	1896.	Increase.	Decrease.

**Net Earnings Monthly to Latest Dates.**—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of March 20, 1897. The next will appear in the issue of April 17, 1897.

## STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of March 20, '97. The next will appear in the issue of April 17, '97.

## Twin City Rapid Transit Co.

(Report for year ending Dec. 31, 1896.)

**President Thomas Lowry remarks in the report as below:**  
**Earnings.**—The gross earnings were \$2,059,217 57, an increase of 3.54 per cent. Many of the principal business streets in the centers of the two cities, on which our lines are located, have been repaved during the past year, causing a practical abandonment of these streets for periods varying from forty to ninety days, during which our gross receipts suffered a great loss.

**Inter-urban Line.**—The gross passenger receipts of the Inter-urban Line, connecting business centers of the two cities, were \$384,720 90 for the year 1896, being a gain of 6.09 per cent over 1895 and 8.98 per cent over 1894. This line, 9 miles in length, operates 20 cars daily, and earned from passenger traffic during 1896 an average of \$1,050 per day.

**Net Earnings.**—In addition to its total operating expenses the Twin City Rapid Transit Company has earned all its fixed charges due and accrued, also earned and paid its fixed dividends of 7 per cent, amounting to \$79,534, on all its outstanding preferred stock, and in addition thereto has passed to the credit of its surplus account \$299,997 92 as the result of the operations for the fiscal year ending Dec. 31, 1896.

**Financial.**—A comparison of the respective trial balances at the close of business for the years 1895 and 1896 shows the following amounts to be accounted for:

Proceeds of sale of preferred stock at par.	\$2,000 00
Net earnings for 1896.	299,997 92
Proceeds of the sale of 10 1st consolidated (Mpls. Str. Ry.) Co. bonds.	10,000 00
Increase in current liabilities.	424,839 12
<b>Total.</b>	<b>\$736,837 04</b>

Which is accounted for as follows:

Amount expended in improvements.	\$266,203 64
Reduction of the funded debt, and 6 per cent certificates, viz.:	215,000 00
1st mtg. bonds, Minneapolis.	\$10,000 00
6 per cent certs., Minneapolis.	102,500 00
6 per cent certificates, St. Paul.	102,500 00

T. C. R. T. Co. stock acct subject to adjustm't.	8,173 29
Increase in the current assets.	241,348 40
Sundry accounts to profit and loss.	6,106 71
<b>Total.</b>	<b>\$736,837 04</b>

The company paid on January 1, 1897, \$205,000 of the outstanding 6 per cent certificates issued by the underlying companies, and canceled \$45,000 of those held in the treasury of the Twin City Rapid Transit Company. This leaves a balance still outstanding of \$1,250,000; of this amount \$225,000 is owned by the company and held in its treasury. Add to the amount of outstanding certificates the excess in the current liabilities over the current assets of \$354,101 91, and we have a total debt of \$1,379,101 91, in addition to the bonded indebtedness. To provide for the payment of this, the company has in its treasury \$1,862,800—7 per cent cumulative preferred stock.

**Improvements.**—The City Councils of Minneapolis and St. Paul ordered the repaving of the principal business streets in both cities to be completed during the past season.

In addition to that portion of the expense of paving on the streets where our tracks are located, required to be paid for by the company, we decided that it would be best to substitute a heavier type of track construction, which was done at a large cost. We put in an 80-pound "T" steel rail, 60 feet long, "cast-welded", making it a continuous construction, and all imbedded in concrete, dispensing with the use of wooden ties, the gauge of the track being maintained by the use of steel rods connecting the rails, thus giving us a track practically indestructible. This "cast-welded" joint has been adopted by the principal electric roads of the country, the Chicago City Railway Company of Chicago alone having welded over 80 miles of its track. The process of "cast-welding", though very simple, is effective, and consists of removing the fish-plates, and encasing the adjacent ends of two rails in 150 pounds of molten iron, which, when cooled, holds the rails in an immovable clasp.

The item of \$7,471 98, charged to real estate, is not a new purchase, but a transfer from our former bills receivable account, occasioned by default of the maker of a note and mortgage held by the company, and who gave the company a quit claim deed to the entire property.

**Motive Power.**—A very important and considerable factor in the cost of operation is the motive power.

The Pillsbury-Washburn Milling Co. will have completed and ready for operation by the 1st of July of the present year a magnificent stone dam across the Mississippi River, below the present Falls of St. Anthony, creating an additional water power of 10,000 horse.

The Twin City Rapid Transit Company has leased this power for a term of forty years on a basis that will add largely to its net revenue.

The Company will have a large surplus of power to lease, and although the dam is not yet completed, there is an active demand for the surplus power.

Our Company is relieved from any expense whatever in connection with the installation of the machinery or electrical apparatus necessary to a complete utilization of all the power generated.

The Pillsbury-Washburn Milling Co. has contracted with the General Electric Co. for all Electrical Machinery, including their most modern direct-connected electrical apparatus, by means of which the power will be transmitted, both under-

ground and overhead, to our lines in both Minneapolis and St. Paul.

The one feature that will give our water power its supremacy over that of Niagara, or any other similar power, will be its geographical location. Here we have a great water power situated in the center of a population of nearly half a million people, and as the population increases will not disturb this centralization of power. This is an important factor, when the cost of electrical transmission is taken into consideration. [See location on map in pamphlet report.]

It will be noticed that the President refers to two specially important matters that have occupied the attention of the company during the year. One of these was the cheapening of the cost of operation by the utilization of natural power; the other the cheapening of the cost of maintenance by the use of improved methods in track construction. In connection with the latter, the Twin City Rapid Transit Company has put in about ten miles of this new construction. In addition a very large proportion of its mileage has been "cast-welded." The inter-urban line is laid with extra heavy rails and is a model of smoothness.

The other matter referred to is the lease of water power and electrical generating machinery of the Pillsbury-Washburn Flour Mills Company's new dam. Regarding this the following is taken from the "Minneapolis Journal" of March 27:

With wise foresight the company has leased the power to be generated at the new dam of the Pillsbury-Washburn Flour Mills Company, in Minneapolis, for a term of forty years. This power will consist of ten units of 1,000-horse-power each and will furnish enough electric energy to operate the street cars of both cities and leave a surplus for sale to manufacturing concerns. The use of this water-power will much reduce the cost of producing electricity for the company and form a considerable feature in the economy of operation which is being aimed at all along the line.

The new power dam is a magnificent piece of civil and electrical engineering. It is built by the big milling company of which Charles A. Pillsbury is the head, and will utilize the entire flow of the Mississippi River below St. Anthony Falls. The dam begins at the west bank of the river at a point 200 feet below the Tenth Avenue bridge, and runs parallel with the bridge for a distance of about 450 feet. It then turns at an obtuse angle and runs down stream, nearly parallel with the east bank of the river, for a distance of 635 feet, making a total length of 1,085 feet. The latter portion of the dam forms one side of the head race, which is 200 feet wide and leads to the powerhouse. The water in this head race will stand thirteen feet deep.

The powerhouse is 100 feet wide by 207 feet long, and will accommodate forty turbine wheels of 250-horse power each, making a total of 10,000-horse power. These turbines will be operated under a head of water varying from 18 to 20 feet, according to the stage of water in the river, and will be of horizontal type, arranged in ten sets, four turbines being on the same horizontal shaft, which, prolonged, will carry at its end a dynamo of 1,000-horse power. There will be 10 of these dynamos, and these being arranged on the same shaft with the turbines, will do away with the necessity for belts, counter shafts, gearing, etc., etc.

The contract for the plant was let to the General Electric Company, and that concern is now busily employed in manufacturing immense dynamos and the vast amount of intricate electrical apparatus required. The amount of the contract was in the neighborhood of \$300,000. It is expected that the dam will be completed and the power plant installed by the middle of the coming summer. It will be the finest water-power electrical power in the world with the possible exception of that at Niagara, which of course when fully completed will be larger than this.

**Statistics.**—Various statistics of interest are shown in the following tables:

#### Reading Company—Philadelphia & Reading Railway.

(Balance Sheets as of Dec. 1, 1896.)

On pages 709 to 713 of to-day's issue will be found an official statement furnished to the New York Stock Exchange, giving balance sheets of the Reading Company, the Philadelphia & Reading Railway and the Philadelphia & Reading Coal & Iron Co. as of Dec. 1, 1896, along with much other information bearing on the companies' finances.—V. 64, p. 611.

#### Panama Railroad Company.

(Report for the year ending December 31, 1896.)

President J. Edward Simmons in the report says in part:

**General Results.**—Despite the downward tendency of all transportation rates and the fact that the earnings from all traffic show a loss of \$110,061, the company, owing to reductions in the cost of operation and to the owning and operation of steamers between New York and Colon, has been able to more than counterbalance all unfavorable influences.

**New Mortgage for Refunding, Etc.**—The 7 per cent sterling mortgage bonds, originally issued to the amount of £1,000,000, mature on Oct. 10, 1897. Of these the comparatively small sum of £537,600 (\$2,688,000) remains outstanding, and for their retirement the company holds United States Government bonds and other securities, £187,800, leaving a balance Dec. 31, 1896, of £349,800; against which will also be applicable interest to accrue on bonds in sinking fund to Oct. 10, 1897, and estimated net earnings to July 1, 1897, amounting to £50,400, leaving to be provided for at maturity £299,400.

For the balance of £299,400 and for the improvements of terminals and service, as well as for the future requirements of the company, a new issue of twenty-year 4½ per cent first mortgage sinking fund gold bonds will be made by the company for the present amount of \$3,000,000, but limited in the aggregate to \$4,000,000. By this reduction in the principal and also in the rate of interest, the company has reduced its annual fixed charge over \$100,000.

From the sale of \$3,000,000 of the new bonds about to be issued the company will have sufficient to retire the outstanding sterling bonds at maturity and leave a surplus of half a million. This new mortgage will constitute the only mortgage indebtedness of the company.

**Subsidy Bonds—Payments to Colombian Government.**—As to the subsidy bonds the report says:

The company has outstanding \$1,846,000 subsidy sinking fund bonds, finally maturing Nov. 1, 1910. These bonds are not secured by a mortgage and were merely issued at the request of the Colombian Government, to capitalize for the Government the annual subsidy of \$225,000 provided for by the concessions. The interest payment is made by the company out of the \$225,000 due the Government, and bonds are then drawn annually for the difference up to the \$225,000. In this way the issue (originally \$3,000,000) will be retired before maturity, when the payment of the annual subsidy direct to the Government will be again renewed. The fixed charges of the company are only the fixed annual concessionary charge, \$250,000, and interest on the present issue of bonds.

**Improvements.**—To abolish the system of lighterage service in the Bay of Panama the company has contracted for the construction of a great pier, baroor and other improvements, permitting the loading of cargoes directly from vessel to cars. These improvements are now under way and will cost about \$1,000,000. The large savings in expenses of operation and the shortening of the voyage at least seven days give assurance that the annual cash results will be far in excess of the annual interest charge represented thereby. Additions to the fleet of steamers, the establishment of grain elevators and warehouses on the Isthmus; and other equally important improvements, are also contemplated in the early future. These latter additions and improvements will involve an expenditure during the next few years of about \$700,000.

**Concessions.**—The President's remarks close with a statement regarding the position of the company, its concessions, etc.

**Statistics.**—The earnings and income account have been:

**American Bell Telephone—Shares at \$214.**—The Massachusetts Commission of Corporations has ordered that the 23,650 new shares shall be offered to the present stockholders at \$214 per \$100 share. All shares not taken by the stockholders are to be put up at public auction.—V. 64, p. 662.

**Arruckle's Sugar Refinery—Permission to Build.**—The Building Commissioner has granted permits for erection of the new refinery buildings in Brooklyn. One is four stories, another eight, and the third ten stories high. Their cost is estimated at \$600,000. See "American Sugar" item, V. 61, p. 609.

**Blue Ridge & Atlantic R.R.—Foreclosure Sale.**—On application of the Central Trust Co., the mortgage trustee, the Federal Court at Atlanta, Ga., March 22, ordered the foreclosure of this road under the \$200,000 mortgage of 1888. The amount due for principal and interest is \$327,000. The road extends from Cornelia to Tallulah Falls, Ga., 21 miles; it has been in the hands of W. V. Lauraine as receiver.

**Brooklyn Elevated R.R.—Penalty on Deposits May 1.**—The Reorganization Committee of the Brooklyn Elevated Railroad Co., Frederic P. Olcott, Chairman, gives notice that the time for the deposit of the first and second mortgage bonds and stock of the Brooklyn Elevated first mortgage bonds and second mortgage bonds of the Union Elevated and first mortgage bonds of the Seaside & Brooklyn Bridge Elevated, under the plan and agreement, is limited to and including May 1st, 1897, after which date deposits will be subject to a penalty. See notice in another column.—V. 64, p. 662.

**Buffalo Rochester & Pittsburg Ry.—New Six Per Cent Debenture Bonds.**—The new 6 per cent debentures of this company are dated Jan. 1, 1897, and are due Jan. 1, 1917, both principal and coupons being payable in lawful money in New York City. The principal may be registered. The Guaranty Trust Co. certifies the bonds. The bonds also say:

**Default.**—In case of the non-payment of any semi-annual installment of interest, within 30 days after the same shall have become payable, and payment shall have been demanded, the holders of a majority in amount of this series of bonds as below stated shall have the right to vote the principal of all the bonds of this series to be due,

and thereupon the same shall be and become forthwith due and payable, anything to the contrary herein contained notwithstanding.

**Total Issue.**—This bond is one of a series of bonds to be known as "Buffalo Rochester & Pittsburg Railway Co. fifty-year debenture bonds", issued and to be issued to an aggregate amount not exceeding \$3,000,000, each bond to be of the denomination of \$1,000, and the bonds to be numbered consecutively from 1 to 3,000 inclusive.

**To be secured by any Blanket Mortgage.**—And the said railway company agrees with the owner and holder of this bond, and also with the owners and holders of each and all other bonds of this series, that any mortgage hereafter executed by it, except to secure bonds issued exclusively for refitting any mortgage debt now existing as a lien upon any portion of its property, and except to secure bonds issued exclusively for the extension of such property, shall be for the security of the owner or holder of this bond and all other outstanding bonds of this series equally with the holders of any other bonds secured by such new mortgage.

**Subject to Call at 105.**—The said railway company reserves the right to retire this bond on any first day of January or July before maturity of the principal, by paying to the holder thereof the principal and five per centum in addition thereto and the interest then accrued and unpaid hereon—notice of this intention to do so having been first given by publication in a newspaper published and having a general circulation in the City of New York once a week for twelve weeks.—V. 64, p. 329.

**Cape Fear & Yadkin Valley R.R.—The Foreclosure Decree.**—The opinion rendered by Judge Simonton, of the United States Circuit Court at Charleston, S. C., March 31, in the foreclosure suit case, has now been received. It is of interest as ending a memorable struggle between the New York Committee, in its efforts to have the road sold in divisions, and the Baltimore Committee, which has sought to have it sold as a whole. The North Carolina Legislature, which adjourned early in March last, passed an act which it is supposed was intended to prevent the sale of the road in divisions. It is to this act to which Judge Simonton refers. Having said that under ordinary conditions a sale first by divisions and subsequently as a whole is the best mode of ascertaining the value of a property subject to several mortgages, the Judge concludes his opinion as follows:

But the recent hostile legislation in North Carolina tends to defeat this course. The Legislature of that State at its last session passed an act evidently aimed at a sale of this railroad property. It may be that this effort would prove fruitless, either because the act itself would have no constitutional force if applied to the bonds in this suit, or because from inadvertence, or some other cause, the wrong section of the code was amended. Be this as it may, it is clear that were this property put up for sale by divisions, every bidder would believe that if his bid were accepted, he would be called upon to litigate his right to secure a franchise as a common carrier for any corporation formed to operate the part of the property purchased. This would inevitably chill the sale. The risk and expense of the litigation would become an element in the bid. The result would be no means show the actual market value of the property put up. These considerations must have great weight with the Court, whose sole object must be to secure for the parties to this cause the best result for the property in which they have an interest.

After much anxiety and with great reluctance the Court feels itself constrained to a sale of the property as a whole, not including the rolling stock, which is covered by its own rule.

The proceeds of a sale, after deducting all charges superior to the lien of the mortgage, will be divided as follows:

To the bonds upon Division A, 55 per cent; upon Division B, 10 per cent; upon Division C, 19 4-10 per cent. To the [consolidated mortgage] bonds having the first lien on the branches, 6 6-10 per cent.

The branches referred to as covered by the consolidated mortgage are: Factory branch, 19 miles; Madison branch, 11 miles; Granite and Furnace branches, 3 miles.

The decree orders:

The said Master Commissioners shall offer the entire property covered by the mortgages herein foreclosed and either of them for sale as a single parcel, and as an entirety (except the rolling stock and the leasehold interest of the defendant railway company in the South Car. Pacific R.R. Co., which rolling stock and leasehold interest shall each be sold separately). No bid for the property exclusive of such rolling stock and leasehold interest shall be accepted which does not equal the sum of \$2,000,000.

Unless the entire amount in default is paid by April 20 the foreclosure sale will be advertised for four weeks and the property sold at the date fixed by the Master Commissioner.—V. 64, p. 673.

**Central R.R. of New Jersey.—Quarterly Dividend Reduced to 1 per cent.**—The directors on Monday reduced the quarterly dividend from 1 1/4 to 1 per cent. The company paid 5 per cent in all during the year 1895; in 1895, 5 1/2 per cent; from 1892 to 1894, 7 yearly; in 1891, 6 1/2; in 1890, 6; in 1889, 8. Dividends were resumed in August, 1889, having previously been suspended since 1884, the company being in receivers' hands from January, 1887, to January, 1888.—V. 64, p. 466.

**Charleston (S. C.) City Ry.—New Securities Authorized.**—The stockholders have authorized an issue of \$850,000 of coupon mortgage bonds and an increase of the capital stock to \$850,000. Since the consolidation of the street car lines in Charleston the operating company has been the City Railway Company, whose charter will be amended to permit of the new securities being executed. The President of the company is John G. McCullough and the Secretary and Treasurer Frank F. Whilden.—V. 64, p. 373.

**Chattanooga & Durham R.R.—Chickamauga & Durham R.R.**—The officers of the Chattanooga & Durham R.R., formerly the Chickamauga & Durham R.R., are as follows: J. W. English, President; P. J. Murphy, General Manager; T. S. Lyon, Auditor. The road extends from Chickamauga to Durham, N. C.—17 miles.

**Cincinnati Jackson & Mackinaw Ry.—Cincinnati Northern R.R.—Successor Company.—Cincinnati Terminals.**—The Reorganization Committee of the Cincinnati Jackson & Mackinaw is making progress with its plans to give the road a Cincinnati terminus. Some ten acres of terminal property have been acquired in the city, which will be reached through a tunnel 10,000 feet in length, the rights of the old

Deer Creek Tunnel Company having been acquired. About 1,200 feet of the tunnel has been thus far excavated and the entire work will be completed within a year. The Cincinnati Northern R.R. Co. has been organized to carry on the work, which will involve an outlay of some \$1,750,000, and this company will absorb the portion of the C. J. & M. extending from Franklin, Ohio, 42 miles north of Cincinnati, to Jackson, Mich., 205 miles. Entrance will be had into Cincinnati over the line of the Cleveland Cincinnati Chicago & St. Louis. The other portion of the C. J. & M., Allegan to Dundee, Mich., 133 miles, will be operated as a separate property.—V. 64, p. 82.

**Colonial Trust Co.—Stock Increased.**—This new company, which will occupy offices in the St. Paul Building in this city, has filed a certificate of increase of capital stock from \$500,000 to \$1,000,000.—Vol. 63, p. 968.

**Columbus & Cincinnati Midland R.R.—Majority of Bonds Deposited—Penalty after April 20.**—The committee consisting of Charles S. Hinchman (Chairman), George Stevenson (Secretary), Harry F. West, Edward B. Smith and Charles Parrott gives notice that a majority of the first mortgage bonds have assented to the agreement of Jan. 21, 1897, with the Guarantee Trust & Safe Deposit Co. of Philadelphia. Notice is given that until April 20, 1897, all bonds deposited with the said trust company will be received without charge; after that date a charge of 2 per cent will be made.—V. 64, p. 330.

**Detroit Mackinac & Marquette Land Grant—Coupon Payment.**—The company has declared a dividend of 1 per cent on the land grant bonds, being the interest for six months ended March 31 and payable at the Central Trust Company April 15.—V. 63, p. 631.

**Diamond Match Company.—English Deal**—The Chicago "Economist" on April 3 said:

The contract with Coates, Son & Co. was laid before the board of directors of the Match Company Thursday afternoon, fully examined and ratified by the board. The English company which is to take over the Liverpool plant is now in process of organization. It is said here that its directory will contain some names that carry great prestige in England. Beyond the fact that the Englishmen pay to \$200,000 for working capital and the Match company gets 6 per cent preferred stock for the cost of its Liverpool plant and 51 per cent of the common stock, the details of the contract are kept secret. The deal with Coates, Son & Co., however, does not include the plans for introducing the match machines in Austria, France, Italy or Brazil, deals for those countries having been far advanced before the Englishmen came in.—V. 64, p. 663.

**East Penn Traction Co.—New Securities.**—The stockholders will vote May 17 on a proposition to increase the capital stock from \$350,000 to \$1,000,000, and to issue first mortgage bonds for \$1,000,000. The right of way and franchises, it is stated, have been practically secured between Trenton, Yardley, Newtown and Doylestown, and the construction will begin at an early day.

**Directors and Officers.**—The following directors have been elected: Senator W. H. Andrews, of Titusville; ex-Senator C. S. Vandegrift, of Bucks County; Senator Israel W. Durham, S. R. Nichols, of Crawford County; Lewis A. Conwell, Charles E. Hollowell and Dr. J. S. Wilson, of Jarrettown; W. R. Andrews, of Meadville; T. Howard Atkinson, A. S. Cadwalader, Walter Bram and John Fish, of Fallington. The President is A. S. Cadwalader, of Yardley, Pa. The company's office is No. 1345 Arch Street, Philadelphia.

**Fitchburg R.R.—Purchase of Wharf Property**—The company has purchased at Boston the "Constitution wharf", said to be assessed at \$375,000. The new acquisition is expected greatly to facilitate the handling of ocean freight.—V. 64, p. 287.

**Gettysburg Electric Ry.—Foreclosure.**—Judge Dallas in the United States Circuit Court has ordered the foreclosure sale of the property under its \$200,000 mortgage of 1893 to the Fidelity Insurance, Trust & Safe Deposit Co.—V. 64, p. 558.

**Highland Avenue & Belt R.R. (Birmingham, Ala.)—Receiver Appointed.**—At Birmingham, Ala., April 2, upon motion of the Columbian Equipment Company of New York, Judge Bruce, in the Federal Court, placed this property in the hands of Phil. Campbell, as receiver. The Equipment Company in 1895 proposed to buy the property for \$30,000, and paid \$10,000 of the purchase money; but the road reverted to original owners, as the balance of the purchase money was not paid. The Equipment Company claims that defendant failed to make good title to all the properties conveyed, and sets up a claim for \$20,000 for alleged improvements.

**Houston & Texas Central R.R.—Waco & Northwestern Ry.—Texas Central R.R.—Consolidation.**—A bill was to be introduced in the Texas Legislature on Monday, April 5, to authorize the Houston & Texas Central Railway Co. to purchase and consolidate with the Waco & Northwestern from Ross to Bremond, 50 miles, and the Texas Central from Ross to Albany, 176 miles. The Texas Central Railroad Co. has also given notice that it will introduce a bill giving that company authority to purchase all or a part of the Waco & Northwestern.

**Status of Waco & Northwestern.**—The Waco & Northwestern division of the old Houston & Texas Central Railway was sold in foreclosure Sept. 3, 1895, under the old 7 per cent mortgage of 1873 on that division, and purchased by Wilbur F. Boyle, for \$1,595,000, acting, it is alleged, for Southern Pacific interests. The sale was confirmed, but the purchase money has never been paid. Recently the General Attorney of the Texas Central R.R. (of which Henry K. McHarg is President) entered a motion in the United States Circuit Court

to compel payment. The motion recites that all excuses for delay were recently removed by decrees entered in the United States Circuit Court at New Orleans, and that further failure to comply with the terms of purchase will work a hardship on the creditors of the Waco & Northwestern, among whom are the owners of the Texas Central R.R. The motion will be heard June 7.

The Waco & Northwestern division 7 per cent bonds of 1873 are still outstanding to the amount of \$1,024,000 (formerly \$1,140,000), but are in very few hands. There is to the credit of these bonds the \$1,595,000 of purchase money and \$569,000 cash representing accumulated earnings. For the year 1895-96 the gross earnings were \$291,250; net \$167,079, against \$163,071 in 1894-95; deductions \$23,317.—V. 63, p. 114; V. 64, p. 663; V. 64, p. 514.

**Jacksonville Tampa & Key West R.R.—Sale Postponed.**—This property was offered for sale by the special master April 5, but there were no bidders and the sale was again postponed, this time till May 3.—V. 64, p. 469.

**Joint Traffic Association—Trans-Missouri Freight Association.—Case Set for October—Rehearing.**—The Supreme Court of the United States on Monday granted the motion to advance the case of the Joint Traffic Association, but set it for the second Monday of the October term.

Ex-Judge Dillon, counsel for the Trans-Missouri Freight Association, has notified the Clerk of the Supreme Court that a petition for the rehearing of the case recently decided will be presented to the Court within a few days.—V. 64, p. 665.

**Lake Shore & Michigan Southern Ry.—Branches to be Leased.**—At the meeting May 5, 1897, the stockholders will vote on a proposition to lease the following lines already operated by the Lake Shore, being controlled by it through ownership of their entire capital stock:

Kalamazoo & White Pigeon R.R., Kalamazoo to White Pigeon, Mich., 37 miles; Northern Central Michigan R.R., Jonesville to North Lansing, Mich., 61 miles; Swan Creek R.R., switching line at Toledo, included in sidings, 14 miles.

**Trustees Under New Mortgage.—Lines Covered.**—The United States Trust Company has been selected as the trustee of the new \$50,000,000 mortgage of this company, and associated with it for an individual trustee, which is necessary under the laws of some of the States, is Mr. John T. Dye, of Indianapolis, Ind. Mr. Dye is general counsel for the "Big Four" line. It is likely that the lines above mentioned will be brought under the operation of the mortgage, which will cover practically 860 miles of main line and branches—a considerable portion being of course double tracked—and about 229 miles of leased lines. There are some leased lines which are not of importance enough to be taken into the mortgage and may be needed for some other purpose.

**New Bonds to be Tax Free.**—Both the principal and interest of the new bonds are payable without deduction for any tax or taxes which the railway company may be required to pay, or to retain therefrom, under any present or future law of the United States, or of any State or county or municipality therein. The deposits of 7 per cents for conversion have been large.—V. 64, p. 610.

**McKeesport Duquesne & Wilmerding Ry.—Default—Receiver Applied for.**—At Pittsburgh, Penn., April 6, a bill in equity was filed in the County Court by George Sheppard and other bondholders asking for an accounting and the appointment of a receiver. The plaintiff claims the defendant has defaulted on its bonds and has misapplied its earnings.—V. 62, p. 415.

**Middle Tennessee & Alabama R.R.—Foreclosure Sale.**—The foreclosure sale, it is stated, is set for May 5.—V. 64, p. 517.

**Mobile & Ohio R.R.—Contracts Let for Montgomery Extension.**—Contracts were let at Birmingham, Ala., April 7, for the construction of 110 miles of the extension from Columbus, Miss., to Tuscaloosa, Ala., with branches. Bids have also been received by the Hunover Construction Company, which is letting the contracts for other work between Tuscaloosa and Montgomery. The road is to be complete and in operation between Montgomery and Columbus, via Tuscaloosa, by Oct. 15.—Vol. 64, p. 517.

**New York Sugar Refining—Incorporated.**—This company was incorporated at Albany, March 31, with authorized capital stock of \$600,000, to manufacture and refine sugar. The directors are Claus Doscher, A. Frederick Hance, C. H. Tiebout, W. H. Logan and Frederick Brommer, all of Brooklyn.

**North Carolina R.R.—Southern Ry.—Injunction Case Postponed till June 8.**—The injunction case of the Southern Railway and the Central Trust Co. against the North Carolina R.R. in the United States Court at Greensboro was on Tuesday postponed until June 8 at Asheville, upon the request of the new board of directors to be made parties defendant.

Gov. Russell, replying to the order of the Court, says: I hereby expressly decline to appear in this case as the Governor of North Carolina or to do any act which would seem to make the State a party to this suit. . . . This is the first time corporate arrogance has arraigned a governor for his communication to the legislature and to the people whose servant he is. . . . I deny the jurisdiction of this Court or any other court to control my conduct as Governor in execution of the laws of the State.

Judge Simonton said that the Court would take steps to have its orders obeyed.—V. 64, p. 611.

**Panama R.R.—New Mortgage.**—The report of this company on a previous page gives full particulars regarding the funding of the company's indebtedness into new \$2,000,000 twenty-year 4½ per cent gold bonds. In 1892 the company author-

ized the issue of a block of the sterling bonds with an endorsement giving the holder the privilege of extending his bonds for ten years from Oct. 1, 1897, at 5 per cent interest. These bonds, it seems, are still in the company's treasury; consequently upon the payment of the remainder of the sterling loan on Oct. 1, 1897, the new 4½s will at once become a first lien.—Vol. 64, page 518.

**Reading Company.—Statement to New York Stock Exchange.—Balance Sheet.—Bonds Listed.**—On subsequent pages of to-day's CHRONICLE is published the company's elaborate statement to the New York Stock Exchange, on the strength of which have been listed this week the new general mortgage bonds for \$25,500,000 (with authority to increase the amount listed to \$50,369,000 as from time to time issued), voting trustees' certificates for \$28,000,000 first preferred non-cumulative 4 per cent stock, \$42,000,000 second preferred non-cumulative 4 per cent stock and 69,900,000 common stock.

The reader will find this official report of much value for reference, since in addition to the balance sheets of Dec. 1, 1896, it embraces a detailed statement of the interest and other fixed charges of the system, a description of the new securities, a brief account of the various properties owned, including a statement of the Coal & Iron Company's possessions, etc., etc.

**Earnings of System.**—As already stated in the CHRONICLE, the net earnings of the entire property (including income from all sources) were \$9,480,736 in year ending November 30, 1896. The fixed charges of entire property on completion of reorganization will be about \$8,672,672, leaving a surplus on the basis of last year's operations of \$893,034.

For the present year, pending completion of refunding, etc., the fixed charges will be, perhaps, \$400,000 more than the amount of fixed charges stated above.

The following table shows upon the first line the earnings of the railway company applicable to the payment of fixed charges and taxes; the second line gives a similar statement of the business of the Coal & Iron Company, and the third line shows the income of the Reading Company from outside sources. The results of the business of 1896 are adjusted so that the items will compare as nearly as they can be made to compare with the same items of the business of 1897. The Reading year begins, as heretofore, with the first of December.

The result of operations for the month of February, 1897, and for the year to date, compared with 1896 (adjusted to 1897 basis), were as follows:

	—Month of Feb.— 1897.	1896.	—Dec. 1 to Feb.— 1897.	1896.
<b>Reading System—</b>				
Earnings Railway Co.....	629,061	484,762	2,063,681	2,016,345
Loss Coal & Iron Co.....	133,119	201,040	279,750	261,129
Income Reading Co.....	22,894	22,895	70,983	70,983
<b>Earnings of all companies.</b>	<b>518,840</b>	<b>306,617</b>	<b>1,854,914</b>	<b>1,826,199</b>
Proportion of annual fixed charges and taxes of all companies (estimated).....	775,000	806,219	2,325,000	2,418,749
<b>Deficit .....</b>	<b>256,160</b>	<b>499,639</b>	<b>470,086</b>	<b>592,549</b>

The fixed charges and taxes in the foregoing statement are given as they now stand. On completion of the reorganization, the fixed charges and taxes will be reduced to \$725,000 per month, or \$2,175,000 for three months. The Reading System always shows small earnings in the winter months. The result this winter is better than it was a year ago. The largest earnings are in the autumn.—V. 64, p. 611.

**Rio Grande Northern Ry.—To Surrender Charter.**—This company, which owns 16 miles or more of road from Chispa, Texas (475 miles west of San Antonio on the Southern Pacific), to the coal fields of San Carlos, in Presidio County, has applied to the Legislature of Texas for permission to surrender its charter and go out of business. The cost of the road is said to have been \$184,153, and the authorized capital stock \$500,000 (10 per cent paid in in 1895). The bond issue (6s of 1894 due 1914) was \$400,000, of which \$360,000 were authorized to be registered with the Secretary of State. The road, it is stated, does not pay to operate, the coal mines not having met expectations. The directors are: S. A. Johnston, C. L. Straub, Jr., H. F. Johnson, Chispa, Texas; W. B. Brack, El Paso, Texas; C. S. Murphy, Marfa, Texas; J. P. Ober and F. Gwiner, Allegheny, Pa.

**St. Louis Chicago & St. Paul RR.—Sold in Foreclosure.**—At Springfield, Ill., April 3, Special Master Colby sold the St. Louis Chicago & St. Paul RR., known as the Bluff line, under foreclosure of the first mortgage, to Mr. Thomas Carmichael for \$50,000. The purchaser assumes receivers' certificates for about \$400,000 and other indebtedness of the receiver for about \$150,000.

**Reorganization Plan.**—Under date of March 24 Messrs. H. A. V. Post and William H. Male issued a circular to the bondholders reciting that an agreement had been made with Mr. Thomas Carmichael (the original plan having failed of support) by which he would purchase the property at foreclosure sale and turn it over to a new company, which shall issue:

First mortgage 30 year 5 per cent gold bonds, total issue, \$1,500,000

Thirty-year 6 per cent non-cumulative income bonds ..... 1,235,000

Common stock ..... 1,500,000

The new first mortgage bonds for \$1,000,000 will be issued to Trustee the receivers' certificates and for other purposes. The new bonds will be given in exchange, dollar for dollar, for the old first mortgage bonds. The holders of the old bonds, on the exchange, will have the privilege of purchasing the new company at the rate of \$1,000

new first mortgage bonds and \$1,500 new common stock for \$800 in cash. The consummation of the plan depends on its receiving the approval of a sufficient number of the bonds deposited under the agreement of June 1, 1895.

**Rumored Alliance with Chicago Peoria & St. Louis.**—Owing to the fact that Mr. Carmichael owns a controlling interest in the Chicago Peoria & St. Louis, it has been rumored that the two roads will be merged; but this appears to be only among the possibilities.—V. 63, p. 1160.

**San Antonio & Gulf RR.—San Antonio & Gulf Shore Ry.—Successor Company.**—The San Antonio & Gulf RR., with authorized stock of \$1,000,000, has filed its charter with the Secretary of State at Austin, Tex., as successor of the San Antonio & Gulf Shore Railway, foreclosed July 7, 1896. The line is 28 miles long, extending from San Antonio to Sutherland Springs. The incorporators are: Oscar Bergstrom, Thomas H. Franklin, John R. Shook, George Dullnig, E. S. Carpenter, J. W. Graves, A. W. Hartung, George J. Dullnig and H. O. Engelke. The Texas Railroad Commission has approved the issue of \$250,000 bonds.—V. 63, p. 1116.

**San Diego Land & Town.—Foreclosure Decree.**—The United States Court at Boston has issued a decree for the foreclosure of the \$750,000 mortgage on the property of this company.—V. 62, p. 549.

**Seaboard & Roanoke RR.—Southern Ry.—Injunction Dissolved.**—At Norfolk, Va., April 2, Judge Hughes, of the United States Court, rendered his decision in the case of the Mercantile Trust Company of Baltimore against the Seaboard & Roanoke Railroad Company, a petition to restrain the latter from cutting rates. Judge Hughes decides in favor of Seaboard & Roanoke RR. Co., and dismisses the injunction.

The Judge in his decision says:

"As far as the Seaboard system is concerned, the object of the bill is to enjoin it from reducing rates on the admitted theory that through the injunction will operate over the entire system to Atlanta. It appears that the Raleigh & Gaston Railroad is, with the Seaboard, lessor of the Georgia Carolina & Northern. Neither the Raleigh & Gaston nor the Georgia Carolina & Northern are parties, and yet I am asked to enjoin rates over them on the mere allegation that the Seaboard by virtue of owning a majority of the Raleigh & Gaston stock, controls them. Mere ownership of stock is no legal sense a control, and it is elementary law in the Federal courts that there is no jurisdiction to enter a decree directly affecting the rights of absent parties. In such case the Court has no alternative but to dismiss the bill."

"It is equally clear that the trustee in the mortgage securing the Seaboard & Roanoke bonds is a necessary party. In the Federal courts where any two bondholders ranged on different sides might defeat the jurisdiction, the doctrine that the trustee represents them all is too vital to be frittered away. And a mere allegation of demand and refusal is not sufficient, for any adjudication would not bind him, and the defendant might be vexed with a second suit in his name. Besides, he is entitled to a day in Court to show why he refused, and to take charge of the litigation at any subsequent stage if he sees fit."

"I think, also, that the original bill is multifarious as combining disconnected causes of action against different defendants, and that this view is flagrantly aggravated by the additional intervention and amendment."

The decision concludes as follows:

"For these reasons I will enter a decree sustaining all the demurrers and dismissing the bills and petitions. I must confess an inclination to the opinion that on a proper bill, with proper parties, a Court may put a stop to a ruinous rate war, but as this case goes off on a question of jurisdiction, I make no ruling on that point."

The Southern Railway Company has appealed the case.—V. 64, p. 524, 611.

**South Side Elevated RR. (Chicago).—Mortgage for \$1,500,000 Talked of.**—The Chicago papers say that a plan is under consideration for the making of a mortgage for \$1,500,000 to provide means for electrical equipment and for extensions. In the reorganization plan all the \$1,500,000 of old bonds were converted into stock. Cash to the amount of about \$300,000 was on hand when the road was turned over to the new company.—V. 64, p. 665.

**Summit Branch RR.—Reorganization Plan.**—The committee, of which E. B. Morris is chairman, has at length sent to the security holders copies of the reorganization plan which was published in the CHRONICLE of Dec. 12, 1896, having modified the same only in some slight particulars. The total amount of the proposed new mortgage is now placed at \$1,400,000, instead of \$1,300,000, and holders of the old bonds will receive for the principal and interest of each \$1,000 bond \$1,000 in the new loan, leaving \$325,000 of the latter in the treasury. The stock will be treated as stated in the plan before published, to which reference should be made for much important information.—See V. 63, p. 1065.

**Tennessee Central RR.—Sale Postponed.**—The foreclosure sale which was to have taken place at Crossville, Tenn., on April 5, was postponed for thirty days.—V. 61, p. 424.

**Texas Sabine Valley & Northwestern Ry.—Sold in Foreclosure.**—This property, it is stated, was sold under foreclosure at Longview, March 2, for \$3,000, to F. T. Lambert, D. D. Durham and G. T. Merrill of Longview, and the Grigsby Construction Company of Jefferson, Tex. The extension from Carthage to Boren, Tex., two miles, which was built under the charter of the Texas & Sabine Valley, was sold at Carthage to the same parties for \$2,000.—V. 63, p. 155.

**Trow Directory Printing & Bookbinding.—Plan Adopted.**—The stockholders at a meeting on Wednesday voted to adopt the plan mentioned in the CHRONICLE of March 27, p. 612, for reducing the capital stock from \$1,500,000 to \$850,000.—V. 64, p. 612.

For other investment items see page 713.

## Reports and Documents.

### READING COMPANY.

#### APPLICATION TO LIST SECURITIES ON THE NEW YORK STOCK EXCHANGE.

PHILADELPHIA, March 24, 1897.

The railroads, property and corporate franchises of the Philadelphia & Reading Railroad Company, and the coal lands and property of the Philadelphia & Reading Coal & Iron Company, included under the general mortgage made by said two companies under date of January 3, 1888, were sold by the trustees of that mortgage by virtue of their powers and of the decree of the Circuit Court of the United States, on the 23d day of September, 1896, to Charles Henry Coster and Francis Lynde Stetson.

On the same day all the other assets and property of the railroad company and the coal and iron company were sold under the same decree by the Receivers to the same purchasers.

These sales were duly confirmed by the Court, and conveyances and transfers of all the property were duly made and delivered, vesting in the purchasers an absolute title, free and discharged of all the liens and charges, except the prior mortgages and charges and expenses particularly mentioned in said decree.

#### ORGANIZATION.

A large part of the property so purchased was conveyed by the purchasers to the Reading Company. All of the remainder (with a few unimportant exceptions) was conveyed to the Philadelphia & Reading Railway Company, and the Philadelphia & Reading Coal & Iron Company, and the Reading Iron Company.

#### READING COMPANY.

The Excelsior Enterprise Company was incorporated by an Act of Assembly of the State of Pennsylvania, approved May 24, 1871. On January 18, 1873, in pursuance of power conferred by the charter, the stockholders changed the name to "National Company," and on December 7, 1896, in like manner, the name was changed to "Reading Company."

The validity of this charter and its sufficiency for the purposes of this reorganization were considered by the following counsel, viz.: Messrs. George F. Baer, J. D. Campbell, Thomas Hart, Jr., Francis Lynde Stetson, Victor Morawetz, John G. Johnson, Samuel Dickson, James Boyd, George L. Rives, F. W. Whitridge, Hon. Edward M. Paxson and Hon. Edward J. Phelps, and a copy of their joint opinion is submitted herewith. Said opinion concludes as follows:

"In our opinion the Reading Company can legally acquire, receive and hold, and can mortgage and pledge, all the stocks, securities and properties, including the capital stocks of the new railway company and of the Coal & Iron Company; and it can keep and perform all the covenants and conditions under which, severally and respectively, these two companies acquired their properties from the purchasers. By a further increase of its capital, the Reading Company can legally issue the common and preferred stock, and the bonds required by the plan of reorganization; and to secure the payment of these bonds, it can lawfully pledge and mortgage the stock, securities and properties by it so acquired."

The Attorney-General of the State of Pennsylvania having subsequently questioned the validity of the charter, and having instructed the State officials not to accept certain franchise-moneys, the facts of the case were laid before him, and his opinion is also submitted. While questioning certain powers which it is not intended to use, he says:

After due consideration I reach the conclusion most reluctantly that the Commonwealth of Pennsylvania cannot now successfully attack the chartered rights of the Reading Company; at least the rights of such a nature and character as had been exercised by the corporation prior to January 1, 1874. It had power to do the business in which it was engaged prior to the adoption of the new constitution.

My view of the whole matter is that the charter of the company authorized it to do the kind of business in which it engaged prior to January 1, 1874, which business was of the same general character as that in which it proposes to engage for the purpose of controlling the stocks of the railway company and the Coal & Iron Company.

The capital stock of the Reading Company consists of 2,800,000 shares of \$50 each (\$140,000,000), of which

560,000 shares (\$28,000,000) are first preferred, non-cumulative 4 per cent.

840,000 shares (\$42,000,000) are second preferred, non-cumulative 4 per cent

1,400,000 shares (\$70,000,000) are common.

all of which (except the original issue of 1,000 shares for cash), as well as bonds as hereinafter stated, have been issued for property acquired. The recipients of said stock have deposited same (except 2,000 shares of common stock) with Messrs. J. Pierpont Morgan and Frederic P. Olcott, of New York, and Henry N. Paul, of Philadelphia, as Voting Trustees, under an agreement which provides that it shall be held by them until January 1, 1902, and for such further period (if any) as shall elapse before the first preferred stock shall have received 4 per cent per annum cash dividend for two consecutive years, although the Voting Trustees may, in their discretion, deliver the stock at any earlier date. *Until delivery of stock is made by the Voting Trustees they*

\* This increase has been duly made.

shall issue certificates of beneficial interest entitling the registered holders to receive, at the time therein provided, stock certificates for the number of shares therein stated, and in the meanwhile to receive payments equal to the dividends collected by the Voting Trustees upon the number of shares therein stated, which shares, however, with the voting power thereon, are vested in the Voting Trustees until the stock shall become deliverable, as provided in such certificates of the Voting Trustees.

The stock certificates provide in substance that no additional mortgage shall be put upon the property acquired under the plan of reorganization, nor shall the amount of the first preferred stock authorized under said plan be increased, except with the consent, in each instance, of the holders of a majority of the whole amount of each class of preferred stock, given at a meeting of the stockholders called for that purpose, and with the consent of the holders of a majority of such part of the common stock as shall be represented at such meeting, the holders of each class of stock voting separately; also that the amount of the second preferred stock shall not be increased except with like consent by the holders of a majority thereof, and a majority of such part of the common stock as shall be represented at the meeting; except that at any time after dividends at the rate of 4 per cent per annum shall have been paid for two consecutive years on the first preferred stock, the company may convert the second preferred stock at par, one-half into first preferred stock and one-half into common stock, and may increase said classes of stock by the necessary amounts. During the existence of the voting trust the consent of holders of like amounts of the respective classes of beneficial certificates is also necessary for any increase of stock other than for the purpose indicated.

The Reading Company reserves the right to redeem at any time either or both classes of its preferred stock at par in cash, if allowed by law.

The Reading Company owns and has pledged for its mortgage hereinafter mentioned:

A.—Railway equipment valued at.....	\$16,950,000 00
Real estate of railroad company (this does not include rights of way, depots, etc., or any real estate appurtenant to the railroads) valued at.....	16,000,000 00
Colliders and barges valued at.....	1,450,000 00
	\$34,400,000 00

The details of the equipment are as follows:

	Number.	Value.
RR. locomotives.....	791	\$3,874,339 80
RR. cars.....	29,625	13,110,666 39
Marine boats.....	118	1,439,850 00
Canal boats.....	50	19,700 00
		\$18,444,556 19

(The old mortgages of the Philadelphia & Reading Railroad Company attach to most of this property.)

B.—Stocks and bonds:	
Stock of Philadelphia & Reading Railway Company, at par.....	\$20,000,000 00
Bond of Philadelphia & Reading Railway Company, at par.....	20,000,000 00
Stock of the Philadelphia & Reading Coal & Iron Co., at par.....	8,000,000 00
Stock of the Reading Iron Company, at par.....	1,000,000 00

It will be observed that among the principal assets of the Reading Company is its ownership in the securities of the Philadelphia & Reading Railway Company and the Philadelphia & Reading Coal & Iron Company. By means of the former the practical ownership of the Railway Company is vested in the Reading Company. The mortgage securing the bond of the Railway Company provides for additional bonds up to \$10,000,000, which, together with like amounts of capital stock, may be issued from time to time to the Reading Company in order to enable the latter to deposit same under its mortgage and obtain the issue of a like amount of the reserved bonds thereunder, when and as the Reading Company advances money for new construction,

\* These are not under the mortgage of the Reading Co. and Coal & Iron Co.

## Brought forward.....

\$54,631,000

**B.—TO BE USED HEREAFTER:**

(a) For the acquisition of additional shares of stock, if issued by the Philadelphia & Reading Railway Company, and of additional bonds of said company to be issued under its mortgage dated November 18, 1896, each stock and bonds to be pledged under the Reading Company's mortgage.

(b) For the construction or acquisition, on and after January 1, 1897, of railway lines, extensions terminal properties or rolling stock, or for the construction or acquisition of other property on or after that date; or for the construction of betterments, on or after that date; all such construction, or betterments, or property acquired, to be upon, along or appurtenant to the properties \* \* \* subject to the lien of this indenture, \* \* \* or upon, along or appurtenant to lines of railway or terminal properties of some one or more \* \* \* companies \* \* \* of whose capital stock more than one-half, at the time of such use, shall be pledged under said mortgage \* \* \* or for the acquisition on or after January 1, 1897, of shares, bonds, or other obligations of any company owning any such line, extension, terminal property, rolling stock or other property.

Not over \$1,500,000 bonds to be used in any one calendar year..... 20,090,000

(c) To be issued now as part consideration for property conveyed pursuant to plan of reorganization.. 50,369,000

\$135,000,000

The mortgage contains stringent provisions regulating the use of the new bonds, of the same general character as those in the Southern Railway Company, Erie Railroad Company and Northern Pacific Railway Company mortgages—with such changes, of course, as are necessary for the requirements of this particular case.

Excepting the mortgages and ground rents, of an aggregate value of \$286,594 16, and the canal securities, valued at \$1,000, the mortgage covers all the property, including stocks and bonds (excepting such few shares of stock as qualify directors, etc.), owned by the Reading Company, as hereinbefore described, and all the property of the Coal & Iron Company; also all property hereafter acquired by the use of the \$20,000,000 reserved bonds.

For a better understanding of the matter it may be stated in general terms that, either by way of direct mortgage or collateral trust, the new mortgage has the security of substantially all of the property formerly of the Philadelphia & Reading Railway Company and of the Philadelphia & Reading Coal & Iron Company, as acquired under the court's decree above mentioned, subject to \$64,630,946 of outstanding bonds, which constitute prior liens on parts thereof, and of which \$12,050,606 are now being paid off, so that the prior liens will shortly be reduced to about \$52,500,000. In addition to thus reducing the prior liens, the new mortgage also covers a vast amount of property of large present earning capacity, which was not included in the former general mortgage, as for instance the stocks and bonds which were under the former collateral trust (now paid off), and which yield a present annual income of fully \$500,000. Also equipment costing about \$10,000,000, most of which was formerly under car trusts, etc.

The bonds issued and to be issued under said mortgage are payable, principal and interest, at the office or agency of the Reading Company in the city of New York, in gold coin of the United States of the present standard of weight and fineness, without deduction for any tax or taxes of the United States or any State or municipality thereof which the companies, or either of them, may be required to pay or to retain therefrom under any present or future law. The principal is due January 1, 1897, and the interest July 1st and January 1st in each year, at 4 per cent per annum. The bonds are in coupon form of \$1,000 each, with right of registration of principal and with right of conversion into registered bonds of \$500, \$1,000, \$5,000 and \$10,000. Such registry and conversion may be made at the office of Messrs. J. P. Morgan & Co., in New York.

## The mortgage provides that

the Reading Company shall not and will not in any year declare or pay dividends upon its stock, either common or preferred \* \* \* unless prior to, or simultaneously with, such declaration, it shall deliver to the trustee a statement in writing under its corporate seal, showing the amount of anthracite coal mined, from lands owned by the coal company and mortgaged hereunder during the year next preceding the declaration of such dividend, and simultaneously shall pay to the trustee a sum equal to five cents per ton on all coal so mined in the preceding year, if the aggregate of dividends so declared shall be equal to or shall exceed such sum, and otherwise such lesser sum as shall be equal to the aggregate of dividends so declared.

All sums so received by the trustee shall \* \* \* be applied in purchasing bonds secured by the mortgage in such manner as to it shall seem best, and at such prices as it shall deem best, but not exceeding par and accrued interest \* \* \* or with the approval of the Reading Company at higher prices than those above fixed; or such unapplied balance shall be invested in securities in which savings banks at such time shall be authorized under the laws of New York to invest their funds, such securities to be held by the trustee as a part of the trust estate.

All bonds secured by the mortgage, when so purchased by the trustee, shall be canceled.

There are submitted herewith: Copy of mortgage, with usual certificates; copy of stock certificates; copy of voting trust agreement; schedule of stocks and bonds owned; schedule of equipment; schedule of claims against other companies; balance sheets of the three companies December 1, 1896; opinion of 12 counsel as to Reading Company's charter and powers; opinion of Attorney-General of Pennsylvania as to same; opinion of counsel as to new stocks and bonds; engineer's certificate; specimens of bonds, stock trust certificates and discharge warrants.

Application is hereby made for the listing of \$62,419,000 bonds of the Reading Company and of the Philadelphia & Reading Coal & Iron Company, being coupon bonds Nos. 1 to 62,419, inclusive, of \$1,000 each, issued under their joint mortgage of January 5, 1897, and of the registered bonds into which same may be converted.

The bonds for which a quotation is now desired are those issuable at once, as stated above—viz.: \$50,369,000—and those which are now being used for the retirement and cancellation of the Coal & Iron Company bonds generally known as divisional bonds—viz.: \$12,050,606.

Of the \$50,369,000 bonds, about \$45,000,000 represent the old General Mortgage Bonds deposited under the plan, and the remainder are sold for cash or used for other purposes of the reorganization in accordance with the plan.

**EXCHANGE OF SECURITIES.**

The basis of exchange of the old securities for new securities, pursuant to the before-mentioned plan of reorganization, is as follows:

Old Securities.	RECEIVE			
	New General Mortgage Bonds.	First Pref. Stock.	Second Pref. Stock.	Common Stock.
General mortgage bonds (in addition to all back interest in cash) 100%				
First preference income bonds (20 per cent assessment paid).....	30%	100%		
Second preference income bonds (20 per cent assessment paid).....			65%	55%
Third preference income bonds (20 per cent assessment paid).....			35%	85%
Stock (20 p. c. assessment paid).....				100%
Deferred income bonds (4 per cent assessment paid).....				20%

**OFFICERS AND DIRECTORS.**

The Directors of the Reading Company are as follows: Joseph S. Harris, A. J. Antelo, Thomas McKean, Chas. H. Coster, Francis Lynde Stetson, Geo. F. Baer, John Lowber Welsh, Albert Foster, George C. Thomas. Officers: President, Joseph S. Harris; Vice-President, W. R. Taylor; Treasurer, W. A. Church; Secretary, W. G. Brown.

The Directors of the Philadelphia & Reading Coal & Iron Company are as follows: C. Tower, Jr., Chas. H. Coster, Thomas McKean, John Lowber Welsh, George F. Baer, George C. Thomas. Officers: President, Joseph S. Harris; Vice-President, W. R. Taylor; Treasurer, W. A. Church; Secretary, F. P. Kaercher; Assistant Secretaries, H. C. Russell and W. G. Brown; General Manager, C. E. Henderson; General Coal Agent, Thos. M. Richards; General Superintendent, R. C. Luther.

The Directors of the Philadelphia & Reading Railway Company are as follows: Chas. H. Coster, Francis Lynde Stetson, John Lowber Welsh, George F. Baer, George C. Thomas, Thomas McKean. Officers: President, Joseph S. Harris; First Vice-President, Theodore Voorhees; Second Vice-President, C. E. Henderson; Treasurer, W. A. Church; Secretary, W. R. Taylor.

**READING COMPANY.**

By JOS. S. HARRIS, President.

**THE PHILADELPHIA & READING COAL & IRON CO.,**

By JOS. S. HARRIS, President.

New York, March 24, 1897.

Referring to the foregoing application of the Reading Company and the Philadelphia & Reading Coal & Iron Company, application is further made for the listing of voting trustees' certificates, as therein described, representing:

560,000 shares (par \$50) first pref., non-cum. 4 p.c. stock. } of the  
840,000 shares (par \$50) 2d pref., non-cum. 4 p.c. stock. } Reading  
1,395,000 shares (par \$50) common stock..... } Company.

These certificates are issued and transferred in New York by J. P. Morgan & Co., as agents for the Voting Trustees, and are registered there by the Central Trust Company as registrars of transfers. They are also issued and transferred in Philadelphia by Drexel & Co., as such agents, and registered there by the Pennsylvania Company for Insurance on Lives and Granting Annuities as such registrars. Certificates issued in either place may be discharged to the other at the office of the agents for the Voting Trustees.

J. P. MORGAN &amp; CO.,

Agents for Voting Trustees.

The committee recommended that \$25,500,000 of the above-described \$62,419,000 Reading Company and the Philadelphia & Reading Coal & Iron Company General Mortgage Four per cent Gold Coupon Bonds of 1897, for \$1,000 each, Nos. 1 to 25,500 inclusive, and Registered Bonds of \$500, \$1,000, \$5,000 and \$10,000, into which said Coupon Bonds may be converted, be admitted to the list. Also that the committee be empowered to add to the list from time to time additional amounts of said bonds to the total amount of \$50,369,000 upon receipt by them of an official notice from the company that said additional bonds have been issued in accordance with plan of reorganization. Also that the committee be empowered further to add \$12,050,000 bonds (making in all \$62,419,000 as recommended) as notice shall be received that corresponding amounts of Philadelphia & Reading Coal & Iron Company bonds have been surrendered in exchange therefor. The total amount authorized to be issued is not to exceed \$62,419,000, Nos. 1 to 62,419 inclusive.

The committee also recommended that the above-described Voting Trustees' Certificates for \$28,000,000 First Preferred Non-cumulative Four Per Cent Stock, \$42,000,000 Second Preferred Non-cumulative Four Per Cent Stock and \$69,900,000 Common Stock, be admitted to the list.

Adopted by Governing Committee April 7, 1897.

\* This is in addition to its ownership of \$20,000,000 bond of the P. & R. Ry. Co.

**Union Depot RR. of St. Louis.—Benton-Bellefontaine Bonds Called.**—The \$500,000 of 6 per cent bonds issued by the Benton-Bellefontaine Ry. Co. under date of Feb. 2, 1891, have been called for payment May 1, 1897, at the St. Louis Trust Co. in St. Louis, Mo.

**Union Pacific Ry.—Committee for Collateral Trust Six Per Cent Bonds of 1879.**—At the request of the holders of a majority of the above-mentioned bonds, Howland Davis, 5 Nassau Street, New York; Samuel Carr, Ames Building, Boston, Mass., and William E. Glyn, 15 Wall Street, New York, have consented to act as a committee under a bondholder's agreement for the purpose of procuring a sale of the collaterals held under said trust indenture, and of protecting at such sale the interests of the depositing bondholders.

Bondholders desiring to share in the benefits of said bondholders' agreement are invited to deposit their bonds with the Union Trust Company of New York, as depository under said agreement, at its office, No. 80 Broadway, New York, N. Y. The holders of a majority of all the outstanding bonds have already agreed to deposit their bonds. Copies of the bondholders' agreement may be obtained upon application to any member of the committee or to the Union Trust Co. of New York.

**Foreclosure Suit.**—A member of the Reorganization Committee informs us that the committee hopes to reach a foreclosure sale of the property some time in the fall and to complete reorganization within a year.

The following mortgages will be foreclosed: Union Pacific main line 6 per cent mortgage of 1886-89, \$27,229,000; do. Government lien for principal and interest (Jan. 1, 1897), \$57,202,178 (less sinking fund of \$17,062,664); Kansas Pacific Eastern Division mortgage, \$2,240,000; do. Middle Division, \$4,063,000; do. consolidated mortgage, \$11,724,000; do. Government lien, \$12,781,000; Denver Pacific, \$975,000 (but only \$4,000 outstanding).—V. 64, p. 665.

**Union Pacific Lincoln & Colorado Ry.—Protective Committee—Deposits Called for.**—Charles E. Cotting (Chairman), Charles S. Tuckerman, James Jackson and William E. Glyn, with Charles H. Tyler as counsel, have consented at the request of holders of a large number of the first mortgage bonds to act as a committee for the protection of their interests. Copies of a protective agreement may be obtained at the office of the Old Colony Trust Co. in Boston or the Guaranty Trust Co. of New York, in New York, under the terms of which holders are hereby invited to deposit their bonds with either one of said trust companies in exchange for negotiable receipts. The time for making deposits has been limited to June 1st, 1897.

**Utah Central Ry.—Ordered Sold.**—This property, which is entirely distinct from the line of similar name long since merged in the Oregon Short Line, has been ordered to be sold in foreclosure. In 1891 the company made a \$900,000 mortgage to the Central Trust Co. under which \$220,000 bonds are said to have been issued. Receiver's certificate also was authorized in 1894. The road in operation extends from Salt Lake City to Park City, 32 miles. Beyond Park City are 7 miles of track, not in operation, and 17½ miles of unfinished grade. Receivers were appointed Nov. 27, 1893. The gross earnings for the year 1895-96 were \$74,157; net \$22,662, against \$3,317 in 1894-95.

**Wheeling & Lake Erie Ry.—Reorganization Notice.**—Maitland, Coppell & Co. announce that they have already the co-operation of owners of the first mortgage bonds of 1926 in excess of \$1,350,000.—V. 64, p. 665.

**Wisconsin Central Company.—Default April 1.**—Coupons due April 1st on the \$310,000 of Wisconsin & Minnesota 7½ remain unpaid. The bonds are a first lien on the 54 miles from Abbotford to St. Croix Junction, near Chippewa Falls, Wis., a portion of the main line between Chicago and St. Paul. The Wisconsin & Minnesota was formally consolidated with the Wisconsin Central Company July 1, 1893, and its bonds underlie the Wisconsin Central 5½.

**Reorganization.**—The Reorganization Committee hopes to mature a plan for submission to the security holders by early part of the summer. Efforts are now being directed towards the adjustment of the relations between the Wisconsin Central and its controlled lines on some basis fair to both interests. These controlled lines are the Chicago Wisconsin & Chicago, Wisconsin & Minnesota and the Milwaukee & Lake Winnebago; roads which now have a contract calling for rental of 87½ per cent of their gross earnings up to \$350,000 and \$175,000 respectively, any excess to be divided equally with the lessee.—V. 63, p. 970.

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, April 9, 1897.

The interest of the business world has continued to be largely centered in the tariff legislation. The retroactive amendment as passed by the House of Representatives has brought business to a practical standstill in the merchandise directly affected and has had a tendency to unsettle business generally. The reports from Washington indicate that the Senate committee is proceeding carefully over the bill as reported by the House. Rumors have been in circulation of a proposed duty on hides and skins. While it is not generally thought that this proposition will pass the Senate, it is presumed that it will be used to force the Senate to accede to the desires of the Western Republican members on the wool schedule. The flood reports from the Mississippi Valley have been the most disastrous in the history of the country. The damage to property has been heavy and business has been seriously interrupted. There has been a sharp break in wheat values, the result of liquidation induced by depressed foreign advices.

Lard on the spot has continued to have a slow sale, and under moderate offerings prices have declined, closing at 4.27½c. for prime Western, 4.02½c. for prime City and 4.60c. for refined for the Continent. The local market for lard futures has been neglected, but at the West, under liquidating sales, prompted by the decline in corn, prices have weakened. The close was quiet but steady.

#### DAILY CLOSING PRICES OF LARD FUTURES

	Sat.	Mon.	Tues.	Wed.	Thur.	Fri.
May.....	c. 4.45	4.40	4.40	4.35	4.37	4.40

Pork has been in fairly good demand but at lower prices, closing at \$9.75@9.25 for mess, \$9.50@9.10 for short clear and \$9.50@9.10 for family. Cutsmeats have had a limited sale at steady prices, closing at 5½@5¼c. for pickled bellies 12@10 lbs. average, 5¼c. for pickled shoulders and 9@9¼c. for pickled hams. Beef has been quiet but steady, closing at \$7.00@6.80 for mess, \$7.50@6.90 for packet, \$9.00@8.10 for family and \$12.50@16.00 for extra India mess. Beef hams have been quiet at \$19. Tallow has had a moderate sale at steady prices, closing at 3¾c. Oleo-stearine has sold slowly, but the price has held steady at 4¾c. Lard stearine has been dull, closing at 4½@1¾c. for prime City. Cotton seed oil has further declined 1, but the close was steady at 20c. for prime crude and 23¾c. for prime yellow. Butter has sold slowly and prices have been easier, closing at 11@20c. for creamery. Cheese has been in fair demand and steady at 9@12¼c. for State factory, full cream. Fresh eggs have been weaker, but the close was steady at 9½c. for choice Western.

Coffee of Brazil growth has sold slowly and under free offerings prices have declined, closing at 7¼c. for Rio No. 7. Mild grades have been in good supply and freely offered and prices have declined, closing at 14½c. for good Cucuta and 25c. for standard Java. There has been moderately active speculation in the market for contracts, but at easier prices. At the close the market was depressed under liquidation by tired holders, induced by the continued large receipts at primal points and weaker foreign advices. The following were the final asking prices:

April.....	6.70c.	July.....	6.90c.	Oct.....	7.15c.
May.....	6.75c.	Aug.....	7.00c.	Nov.....	7.15c.
June.....	6.80c.	Sept.....	7.10c.	Dec.....	7.15c.

Raw sugars have had only a limited call but prices have held steady, closing at 3¾c. for centrifugal 96-deg. test and 3c. for muscovado 89-deg. test. Refined sugars have been dull and unchanged; granulated closed at 4¾c. Feas have been in fair demand and steady.

Kentucky tobacco has had only a limited call, but prices have been unchanged and firm. Seed leaf tobacco has been in better demand and firm. Sales for the week were 3,392 cases, as follows: 347 cases 1891-92 crop, New England Havana seed, p. t.; 750 cases 1895 crop, New England Havana seed, 14@22½c.; 100 cases 1892 crop, State Havana, 13½c.; 200 cases 1893 crop, Pennsylvania seed leaf, 7@13c.; 125 cases 1894 crop, Pennsylvania seed leaf, 11¾@12c.; 150 cases 1894 crop, Pennsylvania Havana seed, 12½@14c.; 250 cases 1895 crop, Pennsylvania Havana seed, 12½@13c.; 221 cases 1893 crop, Wisconsin Havana, 9½@10½c., &c. &c.; also 700 bales Havana at 80c. to \$1.10 in bond and 500 bales Sumatra at 65c. to \$2.25 in bond.

There has been an increased demand for Straits tin and prices have advanced in response to stronger foreign advices, closing at 13.35@13.40c. Ingot copper has had very little call and prices have weakened to 11½@11¾c. for Lake. Lead has been quiet but prices have held about steady, closing at 3.37½@3.42½c. for domestic. Spelter has had very little call and the prices have weakened slightly, closing at 4.10@4.15c. for domestic. Pig iron has been quiet and easy at \$10@12 for domestic.

Refined petroleum has been depressed, closing at 6.05c. in bbls., 3.55c. in bulk and 6.50c. in cases; naptha dull at 6½c. Crude certificates have been neglected. Credit balances have been lowered to 83c. Spirits turpentine has been in fair demand and steady, closing at 29½@29¾c. Rosins have been quiet and unchanged at \$1.65 for common and good strained. Wool has been in fair demand for spot stocks and firm. Hops have been dull and weak.

## COTTON.

FRIDAY NIGHT, April 9, 1897

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 46,639 bales, against 51,247 bales last week and 61,032 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,357,753 bales, against 4,881,841 bales for the same period of 1895-6, showing an increase since Sep. 1, 1896, of 1,476,872 bales.

Total 1895...	55,201	7,418	59,504	19,419	141,602	694,501

Speculation in cotton for future delivery has been quiet and the fluctuations in prices have continued within narrow limits, the net change for the week in prices being unimportant. Saturday there was a demand from spinners in the spot market and there was some foreign buying; this stimulated a demand from shorts to cover contracts and prices closed at an advance of 5 to 9 points for the day. Monday there was a further advance in values during Change, on buying for Southern and foreign account and the reports from the Mississippi Valley detailing the most disastrous flood in the history of the country, which will necessitate considerable delay in planting, and this also had a strengthening influence. Subsequently under local selling the market weakened and the close showed prices 1 to 4 points lower for the day. There was a quiet market on Tuesday, and the changes in prices were unimportant. Wednesday there was little activity to the trading, and despite the continued disastrous flood reports the market eased off slightly, owing to the absence of speculative interest. Thursday the market opened quiet and slightly easier, in response to foreign advices. Towards the close, however, the market turned stronger on the report of large purchases in the spot market by the Continent, and the close was at an advance of 2 to 4 points for the day. To-day the market opened 1 to 3 points higher, in response to stronger foreign advices; then weakened and declined 3 to 5 points under local selling. Subsequently, however, reports of further large sales of spot cotton for export to the Continent stimulated a demand from shorts to cover contracts, and prices advanced 4 to 7 points. The close was steady at an advance of 3 to 4 points on this crop and unchanged to 2 points decline on the next crop. Cotton on the spot has been in fairly active demand both from spinners and shippers. Prices advanced 1-16c. on Saturday and 1-16c. on Monday. Tuesday there was a decline of 1-16c. To-day the market was active for export and 1-16c. higher, closing firm at 7 7-16c. for middling uplands.

The total sales for forward delivery for the week are 511,100 bales. For immediate delivery the total sales foot up this week 18,705 bales, including 15,161 for export, 3,341 for consumption, — for speculation and 200 on contract. The following are the official quotations for each day of the past week—April 3 to April 9.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Th.	Fri.
Good Ordinary.....	6 3/4	6 7/8	6 3/4	6 3/4	6 3/4	6 7/8

## MARKET AND SALES.

The total sales of cotton on the spot and for future delivery each day during the week are indicated in the following statement. For the convenience of the reader we also add a column which shows at a glance how the market closed on same days.

SPOT MARKET CLOSED.		SALES OF SPOT AND CONTRACT.					Sales of Futures.
		Ex- port.	Con- sump.	Spec- ul' n	Con- tract.	Total.	
Sat'day..	Quiet at 1 1/8 adv.		1,817			1,817	80,200

The imports into Continental ports the past week have been 71,000 bales.

The above figures indicate a decrease in the cotton in sight to-night of 24,517 bales as compared with the same date of 1896, a falling off of 1,032,120 bales from the corresponding date of 1895 and a decrease of 762,786 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out below.

TOWNS.	Receipts This week.	Since Sept. 1, 1896.	Shipments This week.	Stock Apr. 9.	Receipts This week.	Since Sept. 1, 1895.	Shipments This week.	Stock Apr. 10.

\* This year's figures estimated.

The above totals show that the interior stocks have decreased during the week 23,880 bales and are now 43,757 bales less than at same period last year. The receipts at all the towns have been 9,657 bales less than same week last year and since Sept. 1 they are 827,945 bales more than for same time in 1895-96.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta.....	6 1/2	Bufala.....	6 1/2	Natchez.....	6 7/8
Charlotte.....	7 1/4	Little Rock.....	6 1/4	Raleigh.....	7
Columbus, Ga. ....	6 3/4	Montgomery.....	7	Selma.....	6 1/2
Columbus, Miss. ....	6 3/4	Nashville.....	6 7/8	Shreveport.....	6 1/2

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns.

Apr. 2.....	81,237	60,204	116,767	259,060	303,922	275,916	36,693	37,690	68,751
" 9.....	16,639	57,947	93,523	232,170	290,927	247,849	19,759	44,912	65,456

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 6,466,329 bales; in 1895-96 were 5,129,103 bales; in 1894-95 were 7,827,322 bales.

2.—That although the receipts at the outports the past week were 45,639 bales, the actual movement from plantations was only 19,759 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 44,912 bales and for 1895 they were 65,456 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Apr. 9 and since Sept. 1 in the last two years are as follows.

April 9	1896-97.		1895-96.	
	Week.	Since Sept. 1	Week.	Since Sept. 1
Shipped—				
Via St. Louis.....	5,094	475,126	8,445	480,153
Via Cairo.....	1,940	247,868	2,464	220,637
Via Parker.....	147	15,227	.....	15,903
Via Evansville.....	.....	2,554	.....	79
Via Louisville.....	3,128	125,804	1,690	170,917
Via Cincinnati.....	1,016	128,238	3,035	87,535
Via other routes, &c.....	1,261	111,408	2,186	80,943
Total gross overland.....	12,436	1,106,255	18,440	1,066,197
Deduct shipments—				
Overland to N. Y., Boston, &c.....	3,605	291,650	11,500	238,545
Between interior towns.....	172	4,086	58	3,086
Inland, &c., from South.....	1,473	35,146	788	42,802
Total to be deducted.....	5,550	330,882	12,346	284,413
Leaving total net overland.....	6,936	775,373	6,094	721,784

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 6,936 bales, against 6,094 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 53 5/8 bales.

In Sight and Spinners' Takings	1896-97.		1895-96.	
	Week.	Since Sept. 1	Week.	Since Sept. 1
Receipts at ports to Apr. 9.....	46,659	6,357,753	57,967	4,880,881
Net overland to Apr. 9.....	6,936	775,373	6,094	721,784
Southern consumption to Apr. 9.....	17,000	637,000	17,000	619,000
Total marketed.....	70,575	7,770,126	81,061	6,221,665
Interior stocks in excess.....	20,850	111,576	13,053	218,227
Came into sight during week.....	43,695	.....	68,005	.....
Total in sight Apr. 9.....	.....	7,591,702	.....	6,469,892
North's spinners' takings to Apr. 9.....	27,358	1,453,802	16,713	1,411,529

\* Decrease during week.

It will be seen by the above that there has come into sight during the week 43,295 bales, against 68,006 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,411,410 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic reports this evening from the South indicate that rain has fallen in most districts during the week, and that at some points the rainfall has been excessive. In Texas, however, the precipitation has been light as a rule, but a cold wave accompanied by heavy frost is reported in a number of sections last night. In general, planting operations are backward. Further breaks in the levees in the Mississippi Valley have resulted in an increase of the overflowed territory.

Galveston, Texas.—The cold wave of last night extended pretty much over the State. The temperature fell to 32 degrees at Amarillo this morning, and heavy frost is reported as far as Abilene. This will check the growth of cotton and probably do considerable damage in some sections. We have had rain on three days of the week, the precipitation reaching twenty-five hundredths of an inch. The thermometer has averaged 72, the highest being 81 and the lowest 64.

Palestine, Texas.—There has been rain on one day of the week, to the extent of six hundredths of an inch. The thermometer has averaged 69, ranging from 53 to 86.

Huntsville, Texas.—We have had rain on one day during the week, the precipitation reaching eight hundredths of an inch. The thermometer has ranged from 54 to 88, averaging 71.

Dallas, Texas.—The weather has been favorable for farming pursuits. It has rained on two days of the week, the rainfall reaching twenty-two hundredths of an inch. Average thermometer 68, highest 88 and lowest 48.

San Antonio, Texas.—We have had no rain during the week. The thermometer has averaged 72, the highest being 88 and the lowest 56.

Luling, Texas.—Cotton is developing rapidly, but the cold weather of Thursday will retard growth to some extent. There has been no rain the past week. The thermometer has averaged 73, ranging from 56 to 90.

Columbia, Texas.—Rain has fallen on two days of the week, to the extent of twenty hundredths of an inch. The thermometer has ranged from 58 to 86, averaging 72.

Cuero, Texas.—Dry weather has prevailed all the week. Average thermometer 72, highest 88 and lowest 56.

Brenham, Texas.—We have had rain on one day during the week, the precipitation being seven hundredths of an inch. The thermometer has averaged 70, the highest being 87 and the lowest 53.

Fort Worth, Texas.—We have had rain on two days of the week, the precipitation reaching thirty hundredths of an inch. The thermometer has ranged from 48 to 88, averaging 68.

Weatherford, Texas.—There has been rain on two days of the week, the rainfall reaching twenty-two hundredths of an inch. Average thermometer 67, highest 88 and lowest 46.

New Orleans, Louisiana.—There has been rain on four days of the week, the rainfall reaching three inches and eighty-nine hundredths. The thermometer has averaged 71.

Shreveport, Louisiana.—The week's rainfall has been seventy-two hundredths of an inch, on five days. The thermometer has averaged 64, ranging from 52 to 84.

Columbus, Mississippi.—Farming operations have been retarded by bad weather. There has been rain on three days of the week, to the extent of one inch and ninety-three hundredths. The thermometer has ranged from 40 to 84, averaging 62.

Leland, Mississippi.—Telegram not received.

Meridian, Mississippi.—There has been rain on two days of the week, and the thermometer has ranged from 52 to 78. Planters are making fair progress with their work, except in bottom lands, where it is delayed. On uplands some cotton is up and the stand is good.

Vicksburg, Mississippi.—We have had rain on three days of the past week, to the extent of one inch and thirty hundredths. The thermometer has averaged 68, the highest being 81 and the lowest 48.

Little Rock, Arkansas.—There has been rain on four days of the past week, the rainfall being one inch and eighty-four hundredths. The thermometer has ranged from 46 to 75, averaging 59.

Felena, Arkansas.—We have had rain on four days, the rainfall reaching one inch and twenty-seven hundredths. It is anticipated that the overflow will extend to the country below Vicksburg next week. Average thermometer 60, highest 76, lowest 42.

Memphis, Tennessee.—Farm work has been delayed by rain. The river is now thirty-five and ninety hundredths feet on the gauge and falling. Thus far it has fallen one and fifteen hundredths feet from the highest water mark. A crevasse occurred at Flower Lake, in the Yazoo Delta on Sunday. There is no further fear of breaks north of Vicksburg. The danger now is from Vicksburg south. Rain has fallen on four days of the week to the extent of one inch and forty-eight hundredths. The thermometer has averaged 60-6, the highest being 75-2 and the lowest 50-4.

Nashville, Tennessee.—The week's rainfall has been two inches and twenty-five hundredths. The thermometer has averaged 60, ranging from 46 to 74.

Mobile, Alabama.—Fair weather prevailed the early part of the week, but there were heavy rains again yesterday in the interior. Planting preparations are considerably backward and in king slow progress. We have had rain on four days during the week, the rainfall reaching three inches

and twelve hundredths. The thermometer has ranged from 58 to 81, averaging 68.

**Montgomery, Alabama.**—Farm work is very backward. We have had light rain on six days of the week, the precipitation reaching sixteen hundredths of an inch. Average thermometer 66, highest 75 and lowest 57.

**Madison, Florida.**—There has been rain on three days of the past week, the rainfall being three inches and seventy hundredths. The thermometer has averaged 75, ranging from 63 to 85.

**Savannah, Georgia.**—We have had rain on six days of the past week, the rainfall reaching seventeen hundredths of an inch. Average thermometer 67, highest 85 and lowest 47.

**Augusta, Georgia.**—We have had rain on four days of the week, the precipitation being seventy-four hundredths of an inch. The thermometer has averaged 64, the highest being 84 and the lowest 43.

**Charleston, South Carolina.**—There has been rain on five days of the week, the rainfall reaching forty-four hundredths of an inch. Average thermometer 66, highest 82 and lowest 49.

**Stateburg, South Carolina.**—Planting is progressing actively. We have had rain on three days during the week, the precipitation reaching one inch and sixty-five hundredths. The thermometer has averaged 62.7, the highest being 85 and the lowest 42.

**Greenwood, South Carolina.**—The week's rainfall has been three inches and nineteen hundredths on five days. The thermometer has averaged 60, ranging from 51 to 90.

**Wilson, North Carolina.**—There has been rain on two days of the week, to the extent of one inch and fifteen hundredths. The thermometer has ranged from 32 to 82, averaging 63.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock April 8, 1897, and April 9, 1896.

	Apr. 8, '97.	Apr. 9, '96.
	Feet.	Feet.
New Orleans.....	Above zero of gauge.	17.7
Memphis.....	Above zero of gauge.	36.1
Nashville.....	Above zero of gauge.	40.7
Shreveport.....	Above zero of gauge.	23.1
Vicksburg.....	Above zero of gauge.	49.6

**JUTE BUTTS, BAGGING, &C.**—The market for jute bagging has been inactive during the week under review but quotations are unchanged at 5½c. for 1½ lbs., 5½c. for 2 lbs. and 6½c. for standard grades. Car-load lots of standard brands are quoted at 5½c. for 1½ lbs., 5½c. for 2 lbs. and 6½c. for 2½ lbs., f.o.b. at New York. Jute butts have been quiet at 11-16c. for paper quality, 1-40c. for mixing and 1½c. for bagging, all to arrive.

**INDIA COTTON MOVEMENT FROM ALL PORTS.**—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to April 8.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Continent.	Total.	Great Britain.	Continent.	Total.	This Week.	Since Sept. 1.
96-7	4,000	21,000	25,000	20,000	338,000	358,000	53,000	1,029,000
95-8	4,000	47,000	51,000	51,000	455,000	506,000	87,000	1,467,000
94-5	.....	40,000	40,000	3,000	172,000	175,000	66,000	714,000
93-4	.....	55,000	55,000	30,000	141,000	171,000	58,000	1,118,000

According to the foregoing Bombay appears to show a decrease compared with last year in the week's receipts of 34,000 bales and a decrease in shipments of 27,000 bales, and the shipments since Sept. 1 show a decrease of 143,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			Shipments since Sept. 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1896-97...	.....	6,000	6,000	5,000	32,000	37,000
1895-96...	.....	8,000	8,000	9,000	39,000	47,000
Madras—						
1896-97...	.....	.....	.....	6,000	14,000	20,000
1895-96...	1,000	.....	1,000	10,000	7,000	17,000
All others—						
1896-97...	2,000	3,000	5,000	13,000	53,000	72,000
1895-96...	3,000	1,000	4,000	11,000	38,000	49,000
Total all—						
1896-97...	2,000	9,000	11,000	30,000	89,000	129,000
1895-96...	4,000	9,000	13,000	30,000	83,000	113,000

The above totals for the week show that the movement from the ports other than Bombay is 2,000 bales less than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1896, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM A. INDIA.

Shipments to all Europe from—	1896-97.		1895-96		1894-95.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay.....	25,000	358,000	52,000	506,000	40,000	175,000
All other ports	11,000	129,000	13,000	113,000	8,000	91,000
Total..	36,000	487,000	65,000	619,000	48,000	266,000

**ALEXANDRIA RECEIPTS AND SHIPMENTS.**—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, April 7.	1896-97.		1895-96.		1894-95.	
Receipts (cantars).....						
This week.....	85,000		23,000		35,000	
Since Sept. 1.....	5,491,000		5,123,000		4,483,000	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool.....	10,000	291,000	7,000	298,000	5,000	243,000
To Continent.....	14,000	288,000	13,000	267,000	14,000	282,000
Total Europe.....	24,000	579,000	20,000	565,000	19,000	525,000

\* A cantar is 98 pounds.  
† Of which to America in 1896-97, 53,262 bales; in 1895-96, 51,106 bales; in 1894-95, 35,685 bales.

This statement shows that the receipts for the week ending April 7 were 85,000 cantars and the shipments to all Europe 24,000 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. The demand for India is improving. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

	1897.						1896.					
	32s. Cop. Twist.		8½ lbs. Shirtings, common to finest.		Cott'n Mid. Uplds.		32s. Cop. Twist.		8½ lbs. Shirtings, common to finest.		Cott'n Mid. Uplds.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (April 9) and since Sept. 1, 1896, the stocks to-night, and the same items for the corresponding periods of 1895-96, are as follows.

Receipts to April 9.	1896-97.		1895-96.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1897.	1896.

Charleston, Carolinae, medium fine, 17@17½c.; fine, 18c.; fully fine, 19@20c.; extra fine, 26@33c.

**HIGH WATER IN THE MISSISSIPPI.**—There have been further breaks this week in the levees along the Mississippi River, two of which, unimportant in extent, were in Louisiana about seventy miles below New Orleans. In Mississippi the overflow has extended appreciably and the inundated territory now includes the greater portion of the Yazoo basin. Many towns are either largely under water or surrounded by it and communication with the outside world cut off. Greenville, Miss., although fully half under water, is crowded with refugees. The levees in front of the city have thus far remained intact, but much is feared from the water from the breaks above, and preparations have already been made to float the residents of the city away in barges and boats if such a course be necessary. The relief committees of Memphis and other towns have done much to alleviate the suffering of the thousands who have been made homeless by the flood, and at the suggestion of the President Congress appropriated on Wednesday the sum of \$200,000 for the like purpose. The losses on live stock and buildings reach into the millions. By telegraph this evening we are advised that there is no further fear of breaks in the levees north of Vicksburg. The danger is now in the territory from Vicksburg south.

**EXCHANGES.**—The following exchanges have been made during the week:

11 pd. to exch. 7,400 May for Aug.	11 pd. to exch. 2,100 May for Aug.
12 pd. to exch. 10,700 May for Aug.	00 pd. to exch. 5,300 Oct. for Jan.
06 pd. to exch. 2,000 June for Aug.	11 pd. to exch. 400 May for Aug.
07 pd. to exch. 200 Nov. for July.	31 pd. to exch. 100 Oct. for Aug.
10 pd. to exch. 1,400 May for July.	23 pd. to exch. 300 Sept. for Aug.
35 pd. to exch. 200 Oct. for Aug.	13 pd. to exch. 1,400 Sep. for May.
02 pd. to exch. 400 Nov. for Dec.	06 pd. to exch. 200 Jan. for Sept.
05 pd. to exch. 400 May for June.	07 pd. to exch. 3,000 Oct. for Jan.
21 pd. to exch. 1,000 Dec. for May.	09 pd. to exch. 1,000 May for July.
09 pd. to exch. 300 May for July.	10 pd. to exch. 3,000 May for July.
11 pd. to exch. 200 Oct. for Sept.	01 pd. to exch. 100 July for Aug.
11 pd. to exch. 200 Sept. for May.	Even 2,100 Oct. for Nov.

**SHIPPING NEWS.**—The exports of cotton from the United States the past week, as per latest mail returns, have reached 81,753 bales. So far as the Southern ports are concerned these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

Total bales.

New York—To Liverpool, per steamer Boyie, 1,386 upland and 151 Sea Island.	1,537
To Hull, per steamer Buffalo, 3,308	3,308
To Havre, per steamer La Touraine, 30 upland and 151 West India.	181

## BREADSTUFFS.

FRIDAY, April 9, 1897.

The market for wheat flour has continued in a very tame and uninteresting position. Buyers, owing to the decline in wheat, have practically withdrawn from the market, their bids being too far below sellers' ideas to admit of business, although the latter have lowered their prices somewhat. City mills have sold slowly and prices have weakened slightly. The demand for rye flour has continued quiet but no changes have been made in values. Corn meal has had very little call and prices have weakened slightly in sympathy with a decline in corn.

There has been an active speculation in the market for wheat futures but it has been at a sharp break in prices, the decline for the week amounting to 5 1/2 @ 6 1/4 c. Saturday there was a slight advance in prices on buying by a few shorts to cover contracts. Monday the market started on its downward course. Foreign advices were weaker and this promoted liquidating sales, under which prices declined 10 1/2 c. Tuesday there was a further break of 5 1/2 @ 5 3/4 c. in prices under continued selling by longs. Wednesday the market was particularly heavy. Foreign advices were depressed and there was a general rush by longs to liquidate. Stop orders were reached as prices declined and this added to the weakness. The close was at a decline 2 1/2 @ 3 1/2 c. Thursday there was a steadier tone to the market. The liquidation by longs appeared to be about over and foreign advices came stronger, accompanied by buying orders. There was also a better export demand and at the close prices showed an advance of 3/4 @ 1 c. To-day the market was again depressed. There was further liquidation by tired longs and foreign advices turned weaker. The close was at a decline of 1 1/2 @ 2 c. for the day. In the spot market shippers were moderate buyers at the close of the week at the decline in prices. The sales to-day included No. 1 Northern at 73 1/2 @ 73 3/4 c. f. o. b. afloat and No. 1 Manitoba on private terms. No. 3 hard winter was quoted 71 1/2 c. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
April delivery.....c.	77 3/4	75 1/4	75 1/4	72	73 1/4	71 3/4
May delivery.....c.	77 3/4	75 1/4	75 1/4	71 1/4	72 3/4	70 3/4
June delivery.....c.	76 3/4	74 3/4	74	71 1/4	72 3/4	70 3/4
September delivery.....c.	73 3/4	72 3/4	72	69 3/4	70 3/4	68 3/4

The speculative dealings in the market for Indian corn futures have been slightly more active but at lower prices. The weakness has been in sympathy with the depression in wheat and in response to weaker foreign advices. To-day the market was weaker, prices declining  $\frac{1}{2}$ c. in sympathy with the break in wheat. The net decline in prices for the week is  $1\frac{1}{2}$ @ $1\frac{1}{2}$ c. In the spot market only a limited volume of business has been transacted, as shippers have had comparatively few orders. The sales to-day included No. 3 mixed at 28c. in elevator and No. 2 mixed for early delivery at 30@ $30\frac{1}{2}$ c. f.o.b. afloat.

## DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
April.....	30 $\frac{1}{2}$	29 $\frac{3}{4}$	29 $\frac{1}{2}$	28 $\frac{3}{4}$	29	23 $\frac{1}{2}$
May delivery.....	30 $\frac{1}{2}$	29 $\frac{3}{4}$	29 $\frac{1}{2}$	28 $\frac{3}{4}$	29	28 $\frac{1}{2}$
July delivery.....	31 $\frac{1}{2}$	31 $\frac{3}{4}$	31	30 $\frac{3}{4}$	30 $\frac{1}{2}$	30
September delivery.....	32 $\frac{1}{2}$	32 $\frac{3}{4}$	32 $\frac{1}{2}$	31 $\frac{3}{4}$	32	31 $\frac{1}{2}$

Oats for future delivery have continued quiet but prices have gradually weakened during the week in sympathy with the depression in other grains, the net shrinkage in values for the week amounting to 1c. per bushel. To-day the market was dull and  $\frac{1}{2}$ c. lower in sympathy with the decline in corn. In the spot market only a limited volume of business was transacted, as shippers have been out of the market, and demand from the home trade has been only moderate. The sales to-day included No. 2 mixed at 22c. in elevator and No. 2 white at 24c. in elevator.

## DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....	22	21 $\frac{3}{4}$	21 $\frac{1}{2}$	21 $\frac{1}{4}$	21 $\frac{1}{2}$	21
July delivery.....	22 $\frac{1}{4}$	22 $\frac{3}{4}$	22	21 $\frac{3}{4}$	.....	21 $\frac{1}{2}$

Rye and barley have been in fairly good demand but at lower prices.

The following are closing quotations:

FLOUR.		GRAIN.	
Patent, winter.....	\$4 40@ 4 60	Wheat, per bush.....	75 @ 81
City mills extras.....	4 70@	Spring, per bush.....	75 @ 81
Rye flour, superfine.....	2 25@ 2 60	Red winter No. 2.....	Nominal
Buckwheat flour.....	.....@	Red winter.....	74 @ 80
Corn meal.....	.....@	Northern, No. 1.....	78 $\frac{1}{2}$ @ 74 $\frac{3}{4}$
Western & Co.....	1 70@ 1 75	Oats—Mixed, per bu.....	20 @ 23 $\frac{1}{2}$
Brandywine.....	1 80	White.....	21 @ 29
		No. 2 mixed.....	22 @ 23
		No. 2 white.....	24 @ 25

[Wheat flour in sacks sells at prices below those for barrels.]

For other tables usually given here see page 695.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., April 9, 1897.

The most important feature of the week comes at the extreme close in the announcement this morning of a large auction sale of cotton goods to be held on Wednesday next. The bulk of the offering (19,500 packages) is made up of domestics and Canton flannels, in which the business for fall is just opening up, and upon the general price of these the sale cannot but exercise an important influence. The only other goods in the sale are 44 and wide sheetings, brown and bleached. Apart from the foregoing the cotton goods market has not presented any change of moment. The day-to-day demand has ruled moderate in all directions and has been readily met at previous prices in both staple and fancy lines. The woolen and worsted goods division of the market shows a firm tone generally prevailing, with plain and low-grade dress goods occasionally advanced 5 to 10 per cent. The foreign market is still in a dislocated condition for all forward business. The jobbing trade here has been quiet and the Mississippi inundations have had a bad effect on business in the afflicted districts. Collections less favorable than of late.

**DOMESTIC COTTON GOODS**—The exports of cotton goods from this port for the week ending April 5 were 2,417 packages, valued at \$98,831, their destination being to the points specified in the tables below:

NEW YORK TO APRIL 5.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	53	1,463	46	552
Other European.....	17	1,243	9	1,209
China.....	.....	22,590	54	16,953
India.....	150	892	5	2,447
Arabia.....	.....	6,859	468	5,064
Africa.....	.....	3,093	40	3,701
West Indies.....	139	4,555	256	3,629
Mexico.....	39	645	42	760
Central America.....	173	1,982	129	2,315
South America.....	1,918	16,404	546	12,354
Other Countries.....	26	1,352	93	926
Total.....	2,417	61,078	1,688	50,010
China, via Vancouver.....	.....	8,750	.....	11,162
Total.....	2,417	69,828	1,688	61,172

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$2,514,103 in 1897 against \$2,333,198 in 1896.

The current demand from the home trade for brown sheetings and drills has again been indifferent. Drills are firm but sheetings irregular. Few bids come forward for quantities for future delivery. The export demand has been on a quieter scale than of late. Bleached sheetings continue quiet in all grades but are without change in quotations. Wide sheetings generally well sold, despite the fact of the "Atlantic" going to auction next week. The Canton flannels business has been moderate and will hardly make further progress until after the auction sale. Most of the business done up to date has been on memorandum, and auction prices will be a potent factor in determining values. Cotton blankets quiet at previous prices. In coarse, colored cottons the market has ruled dull without prominent feature. Kid-finished cambrics and white goods inactive. Fancy prints and specialties have been in quiet demand for limited quantities. Indigo blues and black and whites are steady, but in shirting prints an incidental decline of  $\frac{1}{2}$ c. per yard is noted. Gingham dull throughout. Napped fabrics in fancy dark work in fair request. Print cloths have ruled inactive but steady in regular cloths, but there have been fair sales of old goods with a generally easy market.

	1897. Apr. 3.	1896. Apr. 4.	1895. Apr. 6.	1894. Apr. 7.
Stock of Print Cloths—				
At Providence, 84 squares.....	230,000	127,000	127,000	208,000
At Fall River, 84 squares.....	728,900	66,000	320,000	320,000
At Fall River, odd sizes.....	528,000	121,000	76,000	76,000
Total stock (pieces).....	1,483,900	314,000	603,000	603,000

\* By agreement among the cloth brokers no detailed statement of the print cloth market is made public.

**WOOLEN GOODS**—The attendance of buyers in the woolen and worsted goods division of the market has been limited during the week, and in men's wear fabrics business has kept within moderate dimensions. The demand has been fairly distributed over plain and fancy lines in both low and high-grade goods. The general tone is distinctly firm, and where agents have worked into good shape with their fall production they refuse to accept further orders at opening prices. Clay worsteds are from  $7\frac{1}{2}$  to 10 per cent dearer than a little while ago. The dress goods departments also show an upward tendency, and advances of 5 to 10 per cent are quoted in serge, sackings, broadcloths and low-priced all-wool suitings. No advances have been made in fine fancies, but sellers are firm on these. Overcoatings and cloakings sell fairly in a steady market. Business in flannels has been moderate, but sellers are not easy to deal with. Blankets are quietly firm.

**FOREIGN DRY GOODS**—Business in foreign merchandise has been restricted to a great extent to such as cannot be affected by the Tariff bill should it pass in its present shape. There is little disposition on the part of either sellers or buyers to contract for importations. The general tone is quite firm.

## Imports and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending April 8, 1897, and since January 1, 1897, and for the corresponding periods of last year are as follows:

Imports Entered for Consumption for the Week and Since January 1, 1897 and 1896.	Week Ending April 8, 1897.		Since Jan. 1, 1897.		Week Ending April 9, 1896.		Since Jan. 1, 1896.

# STATE AND CITY DEPARTMENT.

## TERMS OF SUBSCRIPTION.

The **INVESTORS SUPPLEMENT** will be furnished *without extra charge* to every annual subscriber of the **COMMERCIAL AND FINANCIAL CHRONICLE**.

The **STATE AND CITY SUPPLEMENT** will also be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

The **STREET RAILWAY SUPPLEMENT** will likewise be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

The **QUOTATION SUPPLEMENT**, issued monthly, will also be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

**TERMS** for the **CHRONICLE** with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

## Terms of Advertisi g—(Per inch space.)

One time	..... \$2.50	Three Months (13 times)	\$25.00
One Month (4 times)	11.00	Six months (26 times)	43.00
Two Months (8 times)	18.00	Twelve Months (52 times)	58.00

The above terms for one month and upwards are for standing cards.

## OUR STATE AND CITY SUPPLEMENT—A NEW NUMBER.

With this issue of the **CHRONICLE** we give our subscribers a new number of our **STATE AND CITY SUPPLEMENT**, with all the statistics collected down to the latest dates. To the cities, towns, etc., already contained in the **SUPPLEMENT**, 289 new places have been added, and we feel justified in saying that it is a better and fuller number than any previously issued by us—thus fulfilling the aim with which we started out, of making each succeeding number an improvement on its predecessor.

None of the various **SUPPLEMENTS** issued by us and given to our subscribers covers a wider field of usefulness—a field, too, which is occupied by no other publication. Nowhere else can such a mass of information and statistics relating to State and municipal finances and affairs be found. And we have spared no labor, time or money in the effort to make it as nearly perfect as it is possible for such a publication to be. The work is exceptionally complete in the case of all the Middle, Middle Western and New England States. In many of these States there is scarcely a place where all the details have not been obtained for the very latest dates. What this means will be appreciated when we say that frequently the various items of information for even the smallest places have to be procured from several different sources—the debt from one department, assessed values from another, and other items from other departments. We have been unremitting in our endeavors to get all the facts in each case, and we feel gratified to think that in the vast majority of instances our efforts have met with success.

Following the practice inaugurated last year, we shall issue another number of the **SUPPLEMENT** next October, though in the case of many items of information (such as assessed values, tax rates, receipts and expenditures, which are only compiled annually) it will not be possible to give any later figures than those contained in the present number.

## REVIEW OF MUNICIPAL BOND SALES IN MARCH.

Our usual monthly comparison of municipal bond sales shows that the total amount of new securities marketed during March, 1897, was \$12,284,309. This amount is to be compared with \$1,219,027 for the

corresponding month of last year and with \$12,676,477 for February of the present year. In our **STATE AND CITY SUPPLEMENT** of to-day we report the total sales for March, 1897, as \$12,079,304, but since that volume has gone to press we have received reports of additional sales to the amount of \$205,000, which accounts for the apparent discrepancy.

We omit from our table various short-term loans made in anticipation of the collection of taxes, as for instance the two temporary loans of \$1,000,000 each of the City of Boston; the loan of \$50,000 of Norfolk County, Mass.; the \$20,000 loan of Watertown, Mass., etc.

Among the noteworthy sales of the month was that of \$3,651,000 of Cincinnati 3-65 per cent 40-year bonds at 102-167; \$1,550,000 of Providence, R. I., 4s of 1927 at 113-93 to 115-50, and \$929,333 97 of New York City 3s of 1916 at par. Other large sales were: \$618,000 of Queens County, N. Y., 4s of 1917 at 106-63 to 107-66; \$472,500 of Turlock Irrigation District of California 6s of 1903-1913 at 90; \$350,000 of Indianapolis, Ind., 4s of 1927 at 106-71 and \$314,000 of Quincy, Ill., 4½s of 1911-1917 at 100-343.

In the following table we give the prices which were paid for March loans to the amount of \$11,301,909 issued by 70 municipalities. The aggregate of sales for which no price has been reported is \$982,490 and the total sales for the month \$12,284,309. In the case of each loan reference is made to the page of the **CHRONICLE** where a full account of the sale is given.

Total.....\$134,000

Additional sales for which no price was reported.....108,000

Total additional sales for February.....\$242,000

These additional loans will make the total sales reported in February amount to \$12,676,477.

**New York City.—Bill Requiring Deposit of a Guaranty for the Purchase of Bonds.**—On March 23, 1897, the law regulating the sale of New York City bonds and stocks was amended so as to require each bidder to deposit with his offering a certified check for an amount, to be determined by the City Comptroller, not exceeding 2½ per cent of the proposal.

The full text of this law will be found in the STATE AND CITY SUPPLEMENT of to-day in an article entitled "Requiring Deposits with Bond Proposals."

**Bond Proposals and Negotiations.**—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

**Andover, Mass.—Bond Sale.**—This city has sold bonds to the amount of \$5,000 to Estabrook & Co. at 100-61. The securities bear 4 per cent interest and mature in from one to six years from date of issue. Four other bids were received.

**Akron, Ohio.—Bond Sale.**—It is reported that Akron has sold \$11,000 of street improvement bonds at par. Interest on the securities at the rate of 5 per cent is payable semi-annually, and the principal will mature in from one to thirteen years from date of issue.

**Arverne-by-the-Sea, N. Y.—Bond Sale.**—On April 3, 1897, the \$45,000 of 5 per cent gold bonds of this village were awarded to Daniel A. Moran & Co., of New York City, as follows: \$5,000 of canal-dredging bonds, maturing at the rate of \$1,000 per annum from May 1, 1915 to 1919, inclusive, at 105-375 and \$40,000 of highway improvement bonds, maturing at the rate of \$5,000 per annum from May 1, 1920 to 1927 inclusive, at 105-125. The loan is issued in the form of coupon

or registered bonds, of the denomination of \$1,000 each, dated May 1, 1897. Interest is payable semi-annually on the first days of May and November.

**Avoca, Iowa.—Bond Sale.**—It is reported that this municipality has sold \$11,500 of school bonds at par. The securities bear 5 per cent interest and mature in twenty years from date of issue, subject to call after five years.

**Augusta, Ga.—Bonds Authorized.**—The citizens of Augusta have voted in favor of issuing water-works bonds to the amount of \$45,000.

**Bellair, W. Va.—Bond Election.**—An election will soon be held in this town to vote on a proposition to issue school bonds to the amount of \$15,000.

**Belmont, Mass.—Bonds Proposed.**—It is reported that this municipality will soon issue school-house bonds to the amount of \$40,000. The securities will bear interest at the rate of 4 per cent and mature in twenty years from date of issue.

**Bloomfield, N. J.—Bonds Proposed.**—It is reported that road-improvement bonds of this town to the amount of \$100,000 are under consideration.

**Boston, Mass.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 14, 1897, by Alfred T. Turner, City Treasurer, for the purchase of \$1,275,000 of 3½ per cent South Union Station registered bond certificates. The securities will be of the denomination of \$1,000 or any multiple thereof, dated April 1, 1897; interest will be payable semi-annually on the first days of April and October at the office of the City Treasurer of Boston, and the principal will mature April 1, 1902. A sinking fund has been provided for the payment of the loan at maturity.

**Buffalo, N. Y.—Bonds Proposed.**—A bill authorizing the city of Buffalo to issue \$400,000 of bonds for park purposes has passed the Assembly.

**Cambridge, Mass.—Bond Sale.**—On April 8, 1897, the \$200,000 of 3½ per cent registered bonds of this city were awarded to Estabrook & Co., of Boston, Mass., at 102-297. The securities are dated April 1, 1897; interest is payable semi-annually and the principal will mature April 1, 1917. The bonds are of the denomination of \$1,000 or any multiple thereof.

**Cameron, Mo.—Bond Sale.**—The \$12,000 of electric-light bonds of this city have been disposed of. They bear interest at the rate of 5 per cent and mature October 1916, subject to call after 1901.

**Carroll County, Iowa.—Bond Sale.**—On April 1, 1897, N. W. Harris & Co., of Chicago, Ill., were awarded \$41,000 of Carroll County refunding bonds. The securities bear interest at the rate of 4½ per cent, payable semi-annually, and the principal will mature in ten years from date of issue, subject to call after five years.

**Cincinnati, Ohio.—Bond Call.**—The Sinking Fund Commissioners of this city have given notice that the following bonds have been called for payment on June 1, 1897, at the American Exchange National Bank of New York City or the Third National Bank of Cincinnati, after which date the securities will cease to bear interest:

City Hall bonds to the amount of \$700,000, dated June 1, 1897, and redeemable June 1, 1897.

Street improvement bonds to the amount of \$2,000,000, dated June 1, 1885, and redeemable June 1, 1895, or any date thereafter.

General deficiency bonds to the amount of \$500,000, dated June 1, 1881, and redeemable June 1, 1891, or any date thereafter.

**Cleburne, Texas.—Bond Sale.**—It is reported that this municipality has sold \$16,000 of 6 per cent bonds. The securities will mature in forty years from date of issue, subject to call after ten years.

**Cleveland, Ohio.—Bond Sale.**—On April 7, 1897, H. L. Rossiter, City Auditor, awarded the \$100,000 of 4 per cent police-station coupon bonds to Farson, Leach & Co., of Chicago, Ill., at 106-125. The other bids received were:

Bidders—	Bid.
E. H. Rollins & Sons, Boston, Mass.	105-930
R. L. Day & Co., Boston, Mass.	105-920
E. Morrison, New York, N. Y.	105-757
Dietz, Denison & Prior, Cleveland, Ohio.	105-377

The securities will be dated April 1, 1897, interest will be payable semi-annually on the first days of April and October, and the principal will mature April 1, 1917, both principal and interest being payable at the American Exchange National Bank, of New York City. The bonds are of the denomination of \$1,000 each and are issued to extend the time of payment of a like amount of police-station bonds maturing May 1, 1897.

**Clinton, Mass.—Bonds Authorized.**—Bonds of this town to the amount of \$15,000 for the purpose of extending the water works have been voted.

**Concord, N. C.—Bond Election.**—The proposition to issue \$40,000 of water-works and street-improvement bonds will be put to a vote of the people of the town of Concord on April 19, 1897.

**Creston, Iowa.—Bond Sale.**—It is reported that this city has disposed of \$17,000 of refunding bonds. The loan bears interest at the rate of 5 per cent, payable semi-annually, and matures in 1917, subject to call after 1907.

**Des Moines (Ia.) Independent School District, West Side.—Bond Call.**—The board of directors of this school district

have given notice that bonds Nos. 1 to 65 inclusive, dated July 1, 1888, have been called for payment on May 1, 1897, and that Nos. 111 to 180 inclusive on July 1, 1897. The securities will cease to bear interest on the date on which they are called for payment.

**Detroit, Mich.—Temporary Loan.**—It is reported that the city of Detroit has placed a temporary loan of \$30,000 with the Detroit National Bank. The loan bears 3-96 per cent interest.

**Eastport, Me.—Bond Sale.**—This city has awarded \$20,000 of gold funding bonds to Jose Parker & Co. of Boston, Mass., at 105-45. The other bids received were:

Bidders—	Bid.
Diets, Latham & Prior, Boston, Mass.	104-537
Parkinson & Burr, Boston, Mass.	104-453
R. L. Day & Co., Boston, Mass.	104-000
E. L. Standwood & Co., Boston, Mass.	104-000

The securities bear 4 per cent interest and mature at the rate of \$2,000 per annum from 1908 to 1917, inclusive.

**Elsnor, Cal.—Bond Offering.**—Proposals will be received until 7 o'clock P. M., May 3, 1897, by the Board of Trustees of the city of Elsnor for the purchase of \$24,000 of 6 per cent gold water-works bonds. The securities will be of the denomination of \$500, dated July 1, 1897; interest will be payable semi-annually on the first days of January and July, at the City Treasurer's office, and the principal will mature from 1898 to 1937, inclusive, at the rate of \$500 annually. The city has no other indebtedness. The total assessed valuation is about 450,000 and the population (estimated) 600.

**Fall River, Mass.—Bond Sale.**—This city has awarded to Jas. W. Longstreet & Co. of Boston, Mass., \$70,000 of 4 per cent 20-year registered sinking fund school house bonds at 108-786 and \$30,000 of 4 per cent 30-year registered sinking fund sewer bonds at 111-473. The other bids received were as follows:

Bidders—	20-year bonds.	30-year bonds.
Estabrook & Co., Boston, Mass.	108-729	111-391
R. L. Day & Co., Boston, Mass.	108-549	111-035
Blake Bros. & Co., Boston, Mass.	108-12	111-199
Cushman, Fisher & Phelps, Boston, Mass.	108-27	110-87
Blodget, Merrill & Co., Boston, Mass.	108-19	110-597

E. H. Rollins & Sons, Boston, Mass.	107-93	110-639

**Fulton, N. Y.—Bond Sale.**—This municipality has sold \$17,500 of sewer bonds at 104-142. The securities bear 4 per cent interest and mature in 1917.

**Gallup, New Mexico.—Bond Offering.**—Proposals will be received until 9 o'clock P. M., April 28, 1897, by C. N. Cotton, Chairman of the Board of Trustees, for the purchase of \$10,000 of 6 per cent gold water bonds of this town. The securities will be dated April 1, 1897; interest will be payable semi-annually on the first days of April and October at the office of the Town Treasurer or at any designated bank in New York City, as the purchaser may desire, and the principal will mature April 1, 1927, subject to call after April 1, 1917. The bonds will be of the denomination of \$100 each and will be secured by a sinking fund.

**Galveston County, Texas.—Sale Postponed.**—On April 5, 1897, the County Commissioners received the following bids for the purchase of the \$200,000 of 5 per cent 10-40-year court-house and jail bonds.

J. C. Oldham, of Dallas, Tex., par, accrued interest and a premium of \$2,488 75, the bonds to be delivered upon satisfactory examination by his attorney.

Gillespie & Cullum, of Dallas, Tex., par, accrued interest and a premium of \$2,500, the bonds to be delivered as follows: \$50,000 upon satisfaction of their attorney as to legality; \$50,000 each in two, four and six months; bonds to be delivered in some Eastern bank to be named by them, and interest to be payable in New York exchange.

N. W. Harris & Co., of Chicago, Ill., par, accrued interest and a premium of \$1,127, bonds to be taken upon satisfaction as to legality.

Deitz, Derison & Prior, of Cleveland, Ohio, par, accrued interest and \$2,035 premium for the bonds, delivery to be in Cleveland, and interest to be paid in some bank to be agreed upon.

The bid of Gillespie & Cullum was the best offered, but was not in accordance with the conditions of the sale, in that it called for interest to be paid outside of Galveston and the delivery of the bonds at different periods. The representatives of the other bidders intimated that their offerings might have been different had the conditions of the sale been otherwise, and on that account it was decided by the County Commissioners to postpone the sale.

**Glenville, Ohio.—Bond Sale.**—It is reported that Glenville has sold \$100,000 of 4-1/2 per cent coupon bonds. The securities are of the denomination of \$1,000 each; interest is payable semi-annually, and the principal will mature April 1, 1917. The bonds are issued for the following purposes: Sewer construction, \$60,000; water supply, \$20,000; fire department, \$10,000, and the balance for lighting purposes.

**Greenport, N. Y.—Bonds Proposed.**—It is reported that Greenport has petitioned the Legislature for authority to

issue bonds to the amount of \$50,000 for an electric-light plant, water-works and sewers.

**Hackensack, N. J.—Bond Sale.**—It is reported that sewer bonds of Hackensack to the amount of \$2,400 have been taken at par. The securities bear 4 per cent interest.

**Helena, Mont.—Sale Postponed.**—The \$161,500 of 5 per cent refunding bonds of this city were not sold on March 29, the sale having been postponed until April 12, 1897. The securities will be dated January 1, 1896; interest will be payable semi-annually, and the principal will mature as follows: \$8,000 at the rate of \$500 per annum from January 1, 1900, to 1915 inclusive, and \$153,500 on January 1, 1916, both principal and interest being payable at the office of the City Treasurer of Helena or at the Third National Bank of New York City, as the purchaser may desire. The bonds will be of the denomination of \$500 each. The bonded debt of the city, including this issue, is \$391,500; assessed valuation (about 1/2 of actual value), \$12,656,783. The population is estimated at 15,000.

**Hiram, Ohio.—Bond Sale.**—On March 30, 1897, the \$12,000 of 6 per cent water-works bonds of this hamlet were awarded to the Fourth National Bank of Columbus, Ohio, for \$13,335. There were ten other bids received. The securities are of the denomination of \$500 each, dated April 1, 1897, interest is payable semi-annually on the first days of April and October, and the principal will mature at the rate of \$500 per annum from April 1, 1904 to 1927, inclusive, both principal and interest to be payable at the First National Bank of Garrettsville, Ohio. This loan constitutes the only debt of Hiram; its assessed valuation is \$154,000; real valuation is estimated at about \$250,000, and population about 400.

**Indianapolis, Ind.—Bond News.**—The \$350,000 of 4 per cent park improvement bonds of this city have been awarded to Street, Wykes & Co., of New York City, at 106-71, the Indiana Trust Company, to whom the securities were first awarded, having refused to accept the bonds because a member of the City Park Board was also a stockholder in the Trust Company.

The securities are dated April 1, 1897; interest is payable semi-annually on the first days of January and July, and the principal will mature January 1, 1927, both principal and interest being payable at the office of Winslow, Lanier & Co., N. Y. City. The bonds are of the denomination of \$1,000 each.

**Jamaica, N. Y.—Bond Sale.**—On April 6, 1897, Alfred H. Beers, Village Treasurer, awarded \$50,000 of the \$150,000 of 4 per cent gold sewer bonds to the Jamaica Savings Bank at 105-75 and the remainder to W. J. Hayes & Sons, of Boston, Mass., at 104-835. The securities are of the denomination of \$1,000 each, dated April 1, 1897, interest is payable semi-annually, and the principal will mature April 1, 1917, both principal and interest being payable at the Bank of Jamaica.

**Bond Offering.**—Proposals will be received until 12 o'clock noon to-day by Charles E. Twombly, President of the Village, for the purchase of \$200,000 of 4 per cent gold street improvement bonds. The securities will be of the denomination of \$1,000 each; interest will be payable semi-annually on the first days of April and October, at the Bank of Jamaica, and the principal will mature at the rate of \$10,000 per annum from April 1, 1917 to 1936, inclusive. Each bid must be for the entire amount of the bonds offered, and must be accompanied by a certified check for \$5,000.

**Jefferson County, Ky.—Bond Election.**—The Fiscal Court has adopted a resolution providing for the submission to a vote of the people of Jefferson County a proposition to issue \$300,000 of Court House improvement bonds. The securities if voted will be of the denomination of \$1,000 each, dated Dec. 15, 1897; interest at the rate of 4 per cent will be payable annually and the principal will mature at the rate of \$15,000 per annum from Dec. 17, 1898 to 1917, inclusive.

**Jellico, Tenn.—Bond News.**—The \$6,000 of 6 per cent school bonds to be issued by the town of Jellico will mature in twenty years from January 1, 1897.

**Lillian Irrigation District, Walworth, Neb.—Bond News.**—P. L. Metcalf, Secretary, reports to the CHRONICLE that no bids were received on April 1, 1897, for the \$32,000 of 6 per cent 10-20 year bonds of the district, but that the securities will be issued and held by the district officers to pay the cost of proposed improvements.

**Laurel, Md.—Bond Sale.**—Part of the \$11,000 of improvement bonds issued by this town have been taken at par by the Citizens' National Bank of Laurel. The securities bear 5 per cent interest and mature in ten years from date of issue.

**Lebanon, N. H.—Bond Sale.**—Geo. A. Fernald & Co., of Boston, Mass., have been awarded \$21,000 of funding bridge bonds of this city at 101-777. The loan bears interest at the rate of 4 per cent and matures in from three to nine years from date of issue.

**Lehigh, Pa.—Bond Election.**—H. J. Bretney, City Treasurer, reports to the CHRONICLE that the citizens of Lehigh have voted in favor of a proposition to issue electric-light bonds, but as the amount voted is not sufficient to cover the cost of the electric-light plant, another election will have to be held.

**Leicester, Mass.—Note Sale.**—The town of Leicester has sold \$22,200 of funding notes to Jose Parker & Co. of Boston, Mass., at 100-59. The loan bears interest at the rate of 4 per cent and matures in from five to nine years from March 25, 1897.

**Lynchburg, Va.—Bond Sale.**—On April 5, 1897, the Finance Committee of this city awarded the \$425,000 of thirty-year refunding bonds to E. H. Rollins & Sons, of Boston, Mass., and Sperry, Jones & Co., of Baltimore, Md., for their bid of \$426,657 50 for 4½ per cent non-taxable bonds. The total indebtedness of the city on Feb. 1, 1897, was \$1,403,789; sinking fund, \$15,000; net debt, \$1,388,789. The assessed valuation is: Real estate, \$7,689,715; personal property, \$2,475,284; total, \$10,165,000; tax rate (per \$1,000), \$15. The population is estimated at about 25,000.

**Madisonville, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 4, 1897, by Village Clerk Bennett Carter, for the purchase of \$7,433 of 6 per cent coupon assessment bonds. The securities will be dated May 1, 1897; interest will be payable annually at the German National Bank of Cincinnati, O., and the principal will mature at the rate of \$743 80 annually.

**Malden, Mass.—Bonds Authorized.**—The City Council has decided to issue \$25,000 of water bonds and \$5,000 of notes for grading certain school grounds.

**Midland County, Mich.—Bonds Defeated.**—At an election held recently in Midland County the question of bonding the county to the amount of \$112,000 for a court house was defeated.

**Midland Park, N. J.—Bonds Proposed.**—The borough of Midland Park proposes to issue road improvement bonds to the amount of \$10,000. The loan is to bear interest at the rate of 5 per cent.

**Monticello, Fla.—Bonds Defeated.**—On April 5, 1897, the people of Monticello defeated by two votes the proposition to issue bonds for the construction of water works.

**Munising, Mich.—Bonds Proposed.**—Water-works bonds of this municipality to the amount of \$30,000 are under consideration.

**New Brunswick, N. J.—Bond News.**—The \$151,000 of bonds recently sold by this city to the New Brunswick Savings Institution at par were issued to refund maturing water and improvement bonds bearing 7 per cent interest. The new securities will be delivered May 1, 1897. They will bear interest at the rate of 4 per cent, payable semi-annually in May and November, and the principal will mature May 1, 1922.

**New London, Ohio.—Bonds Authorized.**—On March 30, 1897, the people of the town of New London voted 48 1 for to 29 against the issuance of \$3,000 of bonds to pay the cost of an electric-light system.

**Newton, Mass.—Bonds Authorized.**—The Board of Aldermen of Newton has authorized the city to issue \$100,000 of 4 per cent thirty-year sewer bonds and twenty-year notes for \$7,500 to provide for the construction of drains in various parts of the city.

**Newtown, N. Y.—Bonds Authorized.**—On April 6, 1897, the citizens of this town voted in favor of a proposition to issue \$600,000 of highway improvement bonds.

**Newtown (N. Y.) Union School District No. 1.—Bond Offering.**—Proposals will be received until April 20, 1897, by this school district for the purchase of \$53,000 of 4 per cent school bonds of \$1,000 each.

*The official advertisement of this bond offering will be found elsewhere in this Department.*

**Oakland, Md.—Bond Election.**—On April 19, 1897, the citizens of Oakland will decide the question of issuing bonds for the construction of water works.

**Ottumwa, Ia.—Bond Sale.**—It is reported that this municipality has sold \$65,000 of 4½ per cent bonds at par. The securities will mature in ten years from date of issue.

**Oyster Bay, N. Y.—Bond Election.**—On April 6, 1897, the citizens of this town voted on a proposition to issue \$300,000 of road improvement bonds. It is reported that the proposition was carried; but that the vote was so close that the official canvass may be required to finally decide the question.

**Philadelphia, Pa.—Bonds Proposed.**—A bill has been presented to the Council of this city authorizing a loan of \$1,000,000 for the construction of a new reservoir in West Philadelphia.

**Pittsburg (Pa.), Colfax Sub-School District.—Bond Sale.**—The \$30,000 of 4½ per cent 1 to 20-year school bonds of this district were awarded to The Edward C. Jones Co. of New York City at 103-75. The other bids received were:

### STATE of NEW YORK

#### 3% Canal Improvement Bonds.

COMPTROLLER'S OFFICE  
BUREAU OF CANAL AFFAIRS,  
ALBANY, March 27th, 1897.

Pursuant to the provisions of Chapter 79 of Laws of 1895, proposals will be received at this office until Tuesday, the 20th day of April, 1897, at 12 o'clock noon of that day for a loan of

#### THREE MILLION DOLLARS

for which transferable certificates of stock, registered or coupon bonds, at the option of the proposer

#### Principal and Interest Payable in Gold

will be issued in the name of the People of the State of New York, on the credit of the Sinking Fund established by said act, bearing interest at the rate of three per centum per annum, payable semi-annually on the first days of January and July, and the principal reimbursable on the first day of January, 1912.

These bonds are exempt from taxation pursuant to Chapter 84, Laws of 1857.

Proposals may be for the whole or any part of the loan not less than \$1,000, and should state whether registered or coupon bonds are desired, and such proposals must be accompanied by a certified check for one per cent of the amount of the proposal.

Payments for the loan will be required to be made on the acceptance of the proposal by deposit in the Bank of the Manhattan Co. in the City of New York to the credit of "Treasurer of the State of New York, on account of Canal Fund" of the amount of the award, together with premium and accrued interest from January 1, 1897.

The Comptroller reserves the right to reject all bids which are not in his opinion advantageous to the interests of the State.

Interest on the loan from the first day of January, 1897, will be payable at the Bank of the Manhattan Co., in the City of New York.

All proposals must be sealed and endorsed "Loan for Canal Improvements," and directed to the Comptroller of the State of New York, Albany, N. Y.

JAMES A. ROBERTS,  
Comptroller.

**Sharon, Mass.—Bond Sale.**—On April 5, 1897, this town awarded \$10,000 of 4 per cent water bonds to E. H. Gay & Co. of Boston, Mass., at 106'50. The other bids received were:

Bidders—	Bid.
R. L. Day & Co., Boston, Mass.	106'179
Jose Parker & Co., Boston, Mass.	106'135
Jas. W. Longstreet & Co., Boston, Mass.	105'925
Estabrook & Co., Boston, Mass.	105'928
Blodget, Merritt & Co., Boston, Mass.	105'780
Parkinson & Burr, Boston, Mass.	105'772
Edgerly & Crocker, Boston, Mass.	105'760
A. A. Smith.	105'540
E. C. Stanwood & Co., Boston, Mass.	105'370
E. H. Rollins & Sons, Boston, Mass.	105'210
W. J. Hayes & Sons, Boston, Mass.	105'070
Geo. A. Fernald & Co., Boston, Mass.	105'050
Blake Bros. & Co., Boston, Mass.	104'100

The securities are of the denomination of \$1,000 each, dated Oct. 1, 1896; interest is payable semi-annually on the first days of April and October, and the principal will mature at the rate of \$1,000 per annum from 1917 to 1926, inclusive, both principal and interest being payable at the National Exchange Bank of Boston, Mass.

**Springfield, Ohio.—Bond Sale.**—It is reported that street improvement bonds of this city to the amount of \$3,131 have been disposed of at 102'924.

**Tarrytown (N. Y.) Union Free School District No. 1.—Bond Sale.**—It is reported that this district has sold \$89,000 of 4 per cent school bonds.

The securities are dated April 1, 1897; interest is payable semi-annually on the first days of April and October, and the principal will mature as follows: \$69,000 at the rate of \$3,000 per annum from October 1, 1897 to 1919, inclusive, and \$20,000 at the rate of \$5,000 per annum from October 1, 1920 to 1923, inclusive.

**West Des Moines (Ia.) School District.—Bond Sale.**—School bonds of this district to the amount of \$100,000 have been awarded to N. W. Harris & Co. at 100'80. The securities bear interest at the rate of 4½ per cent and will mature in 1907, subject to call after 1903.

**Winnebago City School District, Minn.—Bonds Authorized.**—It is reported that high school bonds to the amount of \$17,000 have been voted by this district.

**Wallingford (Conn.) Central School District.—Bond Sale.**—On April 5, 1897, the \$40,000 of 4 per cent thirty-year coupon bonds of this district were awarded to E. H. Gay & Co., of Boston, Mass., at 104'96.

**Youngstown, Ohio.—Bond Sale.**—It is reported that this city has sold \$5,400 of 5 per cent sewer bonds. Interest on these securities is payable semi-annually, and the principal will mature as follows: \$4,000 at the rate of \$1,000 per annum from October 1, 1898 to 1901 inclusive, and \$1,400 on October 1, 1902, both principal and interest being payable at the office of the City Treasurer of Youngstown.

—Attention is directed to the cards of the municipal houses published in the STATE AND CITY SUPPLEMENT issued with to day's CHRONICLE. The list includes the following firms:

Blair & Co.,	Farson, Leach & Co.,
Kidder, Peabody & Co.,	Rudolph Kleybolte & Co.,
Lee, Higginson & Co.,	Whitaker & Hodgman,
Kountze Bros.,	Cushman, Fisher & Phelps,
N. W. Harris & Co.,	Bertron & Storrs,
R. L. Day & Co.,	Parkinson & Burr,
Blodget, Merritt & Co.,	Edward C. Jones Co.,
Estabrook & Co.,	Augustus Floyd.
E. C. Stanwood & Co.,	

—The United States Mortgage & Trust Co. of New York are giving attention to the preparation of municipal bonds with the view of better security against forgeries, etc. Many municipal issues are now cheap specimens of lithographic work. The following safeguards are recommended: Bonds carefully engraved by a responsible and skilful bank note company, certificate of genuineness on bonds signed by the U. S. Mortgage & Trust Co., certificate of legality on bonds signed by well-known counsel, registration of bonds and payment of principal and interest in New York.

It is pointed out that bonds issued under these conditions command a better price and are more popular and readily salable security than those issued without such safeguards.

The U. S. Mortgage & Trust Company is prepared to take entire charge of preparing bonds as indicated at cost not greater than is now paid for good lithographic work.

### THE FINANCIAL SITUATION.

The prominent incidents of the week most intimately connected with business affairs have been the announcement in brief of the plan adopted for refunding the bonded debt of the New York Central and the Harlem railroads under an arrangement with Messrs. J. P. Morgan & Co. of New York and J. S. Morgan & Co. of London, the large auction sale of cotton goods the notification of which we published last Saturday in our dry goods report, and the action of the Senate on the motion of Senator Morrill by a vote of 24 to 23 referring Senator Vest's resolution in opposition to the retroactive clause of the House tariff bill to the Senate Finance Committee which committee now has the tariff bill in charge.

This disposition of Senator Vest's resolution has considerable significance. In substance that resolution declared it to be the duty of the Secretary of the Treasury to execute the existing tariff law, but claimed that the Secretary's order to Customs officers relative to goods imported after April 1 nullified that law, and consequently was not only unlawful but an act of intimidation against importers. Very naturally this resolution, as amplified by the remarks of Mr. Vest, threatened quite a warm controversy. Thereupon Senator Morrill expressed regret that the tariff bill should be discussed before it had been perfected and presented to the Senate and moved that the resolution be referred to the Finance Committee, suggesting that some of the provisions under discussion might be changed before reaching the Senate. Mr. Vest replied that he had not pre-empted the tariff debate but that the Secretary of the Treasury had done it by his illegal order.

It will be readily seen that under these circumstances no disposition of the resolution could be more appropriate than a reference to the committee which had the tariff in charge, and one would suppose that it would have received a large affirmative vote. In the first place the Secretary could not justly be blamed for his action. The House had passed the bill and it was by no means his province to assume that the provision in question was void; whereas unless Mr. Gage had acted at once his non-action would have left the provision without the means for its enforcement. Then again it is not unlikely that the bill when it comes before the Senate will be shorn of the offensive provision, and to continue to discuss now a section which may not be a part of the bill when it comes up for discussion was evidently premature. We say then that to have secured a reference of such a resolution to the Finance Committee by only one majority speaks badly for the success of a retroactive provision before the open Senate, should that provision happen to be in the Act when it is reported. In other words, is it not pretty safe to assume that this narrow escape either will keep that clause out of the bill, even if there had been before a probability of its being included by the Committee, or ensures its being struck out by a majority of the Senate if the Committee has the temerity to keep it in.

The very large auction sale of cotton fabrics is a feature indicative to a considerable extent of the goods trade. Since the election last November manufacturers have taken a very hopeful view of future prospects. It is no surprise that when the result of the election was known there should have been a decided reaction from the fear and depression previously existing. But what <sup>remained</sup> was more than a reaction; cotton manufac-

turers (although then holding large stocks of goods) discounted, and apparently at once acted upon the belief of a speedy and complete market recovery—they assumed a protective tariff passed, prices correspondingly higher and demand eager enough to consume old stocks and current large production; so they set their spindles at work running at pretty nearly full capacity. It is hardly necessary to say that none of these hopes have been realized, while a further fact, unfavorable to the sale of the cotton goods accumulating in stock, was that raw cotton has during the intervening months been declining. Out of such surroundings the auction this week came as a natural development. It is a very encouraging fact that the sale has proved more successful than could in reason have been anticipated; that the goods as a rule met an active inquiry and have been widely distributed. As to prices, the reports state that though some articles went below value the large body of the goods offered fetched within a fraction of the market values. All of which is remarkable and encouraging on a sale of such magnitude under present conditions.

As to the Central's refunding scheme the operation affords evidence that our railroad managers are alive to the advantages to be gained by replacing existing high rate bonds with new issues bearing much lower rates. It is only a few weeks since the Lake Shore arrangement was announced, and the Central plan therefore has followed in pretty quick order. Perhaps it would have come even sooner had not the Trans-Missouri freight decision intervened temporarily to unsettle confidence in the future of the railroads. Nor are these two cases likely to prove isolated instances. Other roads similarly situated are certain to follow in the footsteps of the Lake Shore and Central, and undertake to gain for themselves the advantages to be derived through such refunding arrangements. We refer to-day in a separate article to the opportunities possessed by the Burlington & Quincy for carrying out a project of that kind. And several other prominent companies also have it in their power to better their situation in like manner. The whole matter presents a very interesting development in the railroad world. It will be remembered that in a specially prepared table, published in our issue of March 13th, we showed that there are altogether over 710 million dollars of bonds bearing 5 per cent interest or over, which will mature before the end of the year 1905, and that the saving in refunding these bonds at 4 per cent would be \$16,678,630 and in refunding them at 3½ per cent \$20,232,138. Of course not every company will be able to float a 3½ per cent issue, and the saving will to some small extent be reduced by the allowance that will have to be made for the premium on existing issues of bonds. But taking the saving at only the smaller figure, namely \$16,678,690, the amount, it will be seen, would pay over 1½ per cent on a thousand million dollars of stock.

So far as the Central is concerned, the benefits to result from the arrangement are very great. It is proposed to take up all the existing issues of bonds on the New York Central property, amounting to over 70 million dollars, and to replace them by new 3½ per cent bonds. The total issue of these 3½ per cents is to be 100 million dollars, but 15 million dollars are to be reserved for new construction after 1903. Supposing the whole amount of the remaining 85 millions to be issued at once (either for refunding purposes or to provide ready cash), the interest charge per annum

would be only \$2,975,000, as against an aggregate interest charge now (including interest on real estate mortgages) of \$4,153,776. The saving would thus be \$1,178,776, equal to over 1½ per cent on the 100 millions of Central stock. In addition, it is proposed to refund into 3½ per cents the \$12,000,000 of New York & Harlem consol. 7s, thus effecting a further reduction in annual charges of \$420,000. But in this latter instance it has not yet been definitely determined, we believe, whether the saving will go to the Central stockholders or belongs to the Harlem stockholders.

There have been other happenings of importance during the week which have elicited no little discussion in financial circles. The most conspicuous of these has been the appointment of three commissioners by the President, commissioned apparently to go to Europe and seek to enlist the leading commercial nations to join with the United States in bringing about international bimetalism. As we have written quite at length with reference to this matter, all of which will be found to-day on pages following this article, we need not add anything on the subject in this column. Another affair of wide interest has been the conference of the Board of Control of the Joint Traffic Association, President Chauncey M. Depew presiding, at which the Association's counsel (ex-Senator Edmunds, Hon. E. J. Phelps and James C. Carter, Esq.) were present and reported that they had made a further and full examination of the character of the Association and of the decision of the Supreme Court in the Trans-Missouri freight case; that after going over the ground fully their opinion was that the Joint Traffic Association was legal and would be so declared by the Supreme Court when the case was argued next October. Thereupon, after hearing the opinion of counsel, a resolution was adopted by the Board of Control to the effect that pending the final decision of the Supreme Court the Association would continue to maintain and carry out the provisions of its organization.

In connection with the foregoing it is worthy of notice that Representative Shannon, of New York, has this week introduced in the House a bill to amend the Anti-Trust law of 1890 so that the law will not prevent railroad traffic agreements. We remarked upon Senator Foraker's pooling bill two weeks since. Mr. Shannon's proposed amendment is more simple and probably would be quite as serviceable. It provides that nothing in the Act of 1890 shall be taken to prohibit railroads from entering into agreements between each other for the purpose of maintaining freight and passenger rates, provided that such agreements before going into effect shall be submitted to and be approved by the Inter-State Commerce Commission. Another contribution this week to the efforts making to right the wrong the Supreme Court decision against the Trans-Missouri Freight Association has done is a communication published in the issue of April 11 of the New York "Sun" from William D. Guthrie, one of our foremost lawyers, in which he attempts to show, and certainly makes a very plausible argument in proof of his contention, that the Sherman Trust Act of 1890 is in conflict with the Fifth Amendment of the Constitution, which provides that no person shall be deprived of life, liberty or property without due process of law. The question of Constitutionality was not argued or even raised before the Court. This opinion has attracted wide attention.

The monthly statement of iron production, as prepared by the "Iron Age", shows results just about as would be expected from the present situation of the trade. The weekly production has further increased, but the number of furnaces in blast has diminished. In other words, low prices are forcing out the smaller and less advantageously situated furnaces. There were on April 1 1897 only 153 active furnaces against 156 on March 1 1897, but these 153 furnaces have a capacity of 173,279 tons per week, against a capacity of only 169,986 tons for the 156 furnaces in blast on March 1. The contrast in this respect becomes still more striking when we go a little further back. Thus on July 1 1895 there were 185 furnaces at work, against only 153 now, but these 185 furnaces turned out only 171,194 tons of iron per week, whereas the 153 furnaces now in blast are turning out 173,279 tons per week. Since the 1st of last September the net addition to the number of active furnaces has been only 8, while the weekly product has increased from 129,500 tons to 173,279 tons. The "Age's" figures again show a slight increase in the totals of stocks, sold and unsold, though the increase is small considering the expansion in the output which has occurred during the last few months.

We have obtained a return of the gross and net earnings of the Baltimore & Ohio for the month of February, and notwithstanding expenses still show a considerable increase, the statement this time records a gain in both gross and net—\$239,363 in the former and \$48,330 in the latter. We have also obtained the approximate figures of gross for March, showing \$184,199 gain. We give our complete compilation and review of the net earnings of United States railroads for February on another page to-day. For March the Nashville Chattanooga & St. Louis reports gross of \$415,203, against \$404,942, and net of \$132,078 against \$125,652; the Toledo Peoria & Western gross of \$70,991 against \$82,346, and net of \$22,223 against \$20,795, and the West Virginia Central & Pittsburg gross of \$97,607 against \$102,971, and net of \$29,068 against \$34,373. Below we give a four-year comparison for a number of roads which have this week furnished returns for either February or March.

Money on call, representing bankers' balances, has oated this week at  $1\frac{1}{2}$  and at  $1\frac{1}{4}$  per cent; the latter ( $1\frac{1}{4}$ ) is an entirely new low record never quoted before Wednesday, the division of rate per cent into quarters never having been done until 1897; the average has been about  $1\frac{1}{2}$  per cent. There is still some effort among banks to maintain 2 per cent over the counter, but very few transactions are made by them at that figure, and bank and trust company money offered on the Stock Exchange loans at the rates there current. There is very little demand for time contracts. Those for short dates are not wanted, borrowers preferring to rely upon the call loan branch of the market. Maturing loans are not renewed, and few borrowers care to make engagements for six months for the reason that they would fall due in October, when money is usually active, and they are inclined to wait until later before making six months or even longer contracts. Quotations for money on good mixed Stock Exchange collateral are 2 per cent for thirty days,  $2\frac{1}{2}$  for sixty to ninety days, 3 for four to six and  $3\frac{1}{2}$  per cent for seven to eight months. Some very choice endorsed sixty-day Eastern paper has been sold during the week at  $2\frac{1}{2}$  per cent, but this was an exceptional transaction and it must not be accepted as indicating the condition of the paper market. The business in paper is light. Bankers report some sales every day of first-class, while ordinary paper does not move freely. Quotations are  $3\frac{1}{2}$  per cent for sixty to ninety-day endorsed bills receivable,  $3\frac{3}{4}$  to  $4\frac{1}{4}$  per cent for first-class and  $4$  to  $5$  per cent for good four to six months single names.

News early in the week of the invasion of Macedonia by a band of Greeks enrolled as members of the "Ethnike Hetairia", or Greek National Society, had a disturbing effect in London and on the Continent, but the excitement subsided when it appeared that these insurgents were not connected with the Greek army, and therefore that their operations were not likely directly to lead to a declaration of war. The correspondent of the London "Daily News," writing from Volo, Thessaly, on Thursday, says that the entire force of insurgents was driven from Kerasnia by the Turks, and they thereupon retreated into Greek territory under orders from the "Ethnike Hetairia", which regarded further bloodshed as useless unless the Greek army supported the invaders. The Bank of England minimum rate of discount remains unchanged at  $2\frac{1}{2}$  per cent. Withdrawals of gold for shipment to Japan have tended slightly to stiffen the open market rate, and the cable reports discounts of sixty to ninety-day bank bills in London  $1\frac{1}{4}$  per cent. The unofficial rate at Paris is 2 per cent and at Berlin and Frankfurt it is  $2\frac{1}{2}$  per cent. According to our special cable from London the Bank of England lost £1,998,719 bullion during the week and held £36,397,813 at the close of the week. Our correspondent further advises us that the loss was due to the import of £60,000 from Australia, to shipments of £1,068,000 net to the interior of Great Britain and to exports of £991,000, of which £814,000 went to Japan and £177,000 to Austria.

The foreign exchange market has been strong this week, influenced by a scarcity of all kinds of bills, there being very few spot commercial drafts, while those for future delivery are held at high prices; by the absorption of maturing sterling, though there are offerings of these bills for May delivery; by the ordinary demand for remittance, some bankers reporting

also an inquiry to remit for imported goods, and by the fact that money cannot be profitably employed in this market, and therefore bankers are refraining from drawing, while some are transferring their balances to London. The range for posted rates on Monday was from  $4$   $86\frac{1}{2}$  to  $4$   $87$  for sixty day and from  $4$   $88$  to  $4$   $88\frac{1}{2}$  for sight, Brown Bros., the Bank of British North America, Heidelbach, Ickelheimer & Co. and the Merchants' Bank of Canada advancing their rates half a cent, while Lazard Freres moved the long rate upward half a cent. The market was strong and rates for actual business were advanced one quarter of a cent, compared with those at the close on Friday of last week, to  $4$   $86\frac{1}{2}$  to  $4$   $86\frac{1}{2}$  for long,  $4$   $87\frac{1}{2}$  to  $4$   $87\frac{1}{2}$  for short and  $4$   $87\frac{1}{2}$  to  $4$   $87\frac{1}{2}$  for cable transfers. There was no further change until Wednesday, the market remaining firm and the range for posted rates continuing as on Monday, though only two of the drawers maintained the lower figures. On Wednesday rates for actual business in short sterling and cable transfers were advanced one quarter of a cent, to  $4$   $87\frac{1}{2}$  to  $4$   $87\frac{1}{2}$  for the former and to  $4$   $87\frac{1}{2}$  to  $4$   $88$  for the latter, while long sterling remained unchanged. On the following day only one of the drawers posted the lower rates, but there was no change in those for actual business, though the tone was firm. Yesterday all the bankers quoted  $4$   $87$  for sixty day and  $4$   $88\frac{1}{2}$  for sight; in actual business an advance of one-quarter of a cent was made in the sixty day rate. The following shows daily posted rates for exchange by some of the leading drawers.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

The market closed firm on Friday with posted rates at  $4$   $87$  for sixty day and  $4$   $88\frac{1}{2}$  for sight. Rates for actual business were  $4$   $86\frac{1}{2}$  to  $4$   $86\frac{1}{2}$  for long,  $4$   $87\frac{1}{2}$  to  $4$   $87\frac{1}{2}$  for short and  $4$   $87\frac{1}{2}$  to  $4$   $88$  for cable transfers. Prime commercial bills were  $4$   $85\frac{1}{2}$  to  $4$   $86$  and documentary  $4$   $85$  to  $4$   $85\frac{1}{2}$ . The Bureau of Statistics at Washington has this week issued the statement of the country's foreign trade for March, and we give the figures below in our usual form.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.

In the following tables three ciphers (000) are in all cases omitted.

### THE BIMETALLIC COMMISSION.

On Monday of this week President McKinley announced the appointment of a commission on international bimetallicism. This action is taken as a response, first, to the platform declaration of last June's Republican Convention, that the party was opposed to free silver coinage "except by international agreement with the leading commercial nations of the world, which we pledge ourselves to promote", and second, to the President's promise, in his inaugural address, that "it will be my constant effort to secure [international bimetallicism] by co-operation with the other great commercial powers of the world." As the recent session of Congress was drawing to a close, an act was passed authorizing a commission "for the promotion of an international agreement for bimetallicism."

These incidents sufficiently explain the origin of the new commission. They do not by any means, however, define what the commission is to do or explain what public uses it can serve. The commissioners are not named to investigate the problem and to frame a plan, as would be the case with the currency commission, also promised by the President. They do not go abroad to represent this Government at a formal international conference; no such conference has been invited. Indeed, the Brussels Conference of 1892, assembled for exactly such a purpose, stands at this moment under mere adjournment, and nobody has suggested that it be re-convened. The three commissioners do not even represent the legislative branch of this country's Government; their credentials come from the Executive alone, the Senate not having reserved so much as the right of confirmation. Apparently, then, the functions of the new commission are merely those of special agents sent on a discretionary mission. The singular language of the act under which they are appointed, providing that the commission may "promote" the cause of international bimetallicism, shows how little this new undertaking resembles ordinary and formal action by a government.

The three appointees are eminently respectable. Senator Wolcott of Colorado represents the silver Republicans of the West. Ex-Vice-President Stevenson stands presumably for the Western silver Democrats. General Paine of Massachusetts is supposed, from his social and educational connections, to represent the conservative Eastern school of international bimetallicism, of which the late President Francis A. Walker was the conspicuous leader. Mr. Wolcott and General Paine are conservative in their general character, and are both identified with the country's larger interests. The fact that Mr. Stevenson, despite his place in the late Administration, took the stump last fall in behalf of Bryan and Bryanism, and joined in denouncing the "sham" of international agreements, does not, we fear, speak well for his usefulness in his present capacity. At all events, however, his recent political position adds to the personal respectability and dignity of the commission.

The novelty of this experiment makes it somewhat difficult to guess what is to be the commission's course of action. People with enterprises or policies to "promote" must first have ready a plan for consideration; then they must journey about to the proper interests to present their plan and urge co-operation. Now, it so happens that even the friends of international bimetallicism have never yet agreed upon a plan. Among the schemes suggested by the advocates of such a policy, in recent bimetallic conferences, were a return to free silver coinage at the American ratio of 16 to 1; similar action at the French ratio of 15½ to 1; adoption of an entirely new international ratio; and the guarantee of each nation to enlarge its annual silver coinage in a specified proportion to its total currency. As a general rule, each delegate who proposed any one of these three plans of action flatly rejected all the others. The last of the foregoing propositions, endorsed in 1892 by Mr. Alfred de Rothschild, one of the English delegates, was set forth as a possible ground of compromise by Great Britain. But the plan met very faint and qualified approval, even among the continental delegates, and was flatly disapproved by some.

Which of these three plans, or what other plan, is the new American commission to "promote"? If it announces formal adherence to no expedient, what can

it possibly accomplish? To draw out general assurances of what might be conceded if every State agreed to some imposed conditions would be an achievement neither new nor valuable. Friendly assurances are easy when nobody is committed. Senator Wolcott has already visited the English authorities, since the election of November and with indefinite authority from Mr. McKinley. He was handsomely entertained at the tables of the leading bimetallicists, was encouraged by them to continue in his mission, and was assured of their co-operation. In all this there was nothing tangible; indeed, it is hard to see why quite as much could not have been accomplished by a friendly correspondence through the mails. It was well enough known, before Mr. Wolcott's visit, and before the naming of the present commission, what was the personal disposition of such bimetallicists as Mr. Balfour, Sir Henry Chaplin and Mr. David Barbour. The real question was whether the influence of these gentlemen was sufficient to incline the ministry and Parliament to such negotiations. This question has been answered positively twice: once by the refusal of the Brussels delegates to entertain even the Rothschild plan, and again within a year by the flat and scornful answer of the present Chancellor of the British Exchequer to the inquiry whether a bimetallic standard would be considered. One such public answer by the spokesman of the Ministry is worth a hundred private assurances such as Senator Wolcott quotes, and the principle applies as well to France and Germany as to England.

This being the situation, we cannot see how Mr. Wolcott, General Paine and Mr. Stevenson can do in concert anything more than Mr. Wolcott did alone this winter. They will obtain the same friendly assurances of support from the bimetallicists, the same polite excuses from the Ministers. They can learn nothing as to the actual situation which is not known to-day; they can give no information which the foreign authorities do not now possess; they cannot even promise anything which the United States has not already promised. In fact, we are able to imagine only two possible results from the appointment in this way of this commission. It may involve simply a pleasant summer visit, among interesting people, by three congenial gentlemen. Or it may mean that the Administration sends three eminent delegates abroad to solicit personally that the foreign governments change their minds.

Let us consider what this second alternative would involve. In 1878 the United States invited the foreign governments to a conference at Paris, to pronounce on this explicit proposition: "That unrestricted coinage of silver and its use as money of unlimited legal tender should be retained where they have ceased to exist." The convention discussed the question most exhaustively, and at the end politely declined to vote. In 1881 the United States, jointly with France, summoned another Paris conference. At this convention England and Germany rejected the proposition of the United States, the United States rejected the proposition of the other delegates, and adjournment was taken with nothing at all accomplished. During 1889 a third conference, even more barren of results, was held at Paris. In 1892 the United States again urged a convention on bimetallicism; the delegates assembled, discussed and adjourned to 1893. In 1893 there was not enough real interest in the question among the

foreign governments to inspire them even to meet again at the appointed date. This very Brussels conference stands to-day adjourned constructively to a future date.

This chapter of negotiations so much resembles an international rebuff that it would hardly seem to be the place of the United States, under any circumstances, to petition for re-opening of the question. But this is not the situation's only curious feature. The conference of 1878 suggested that while no nation was likely to abandon the single for the double standard, it was not probable, on the other hand, that bimetallic States would reject their present system. Yet since that time the movement has been altogether away from the double standard. Germany and the Latin Union had already joined the ranks of restricted silver-coinage States. But in 1892 Austria adopts the single gold standard; in 1893 the United States itself abandons compulsory silver purchases. In the same year India suspends free silver coinage. Russia in 1896 begins its preparations for a gold standard of currency and Chili resumes in gold on bank note issues, with pledge of gold redemption for State notes in the ensuing year. Already in 1897 Japan has started preparations to join the gold standard communities; this very week a telegram from Lima reports a similar decision for Peru. In short, while the United States has continued urging a return by other nations to the double standard, every State of any consequence in modern commerce and civilization has quietly passed by, rejecting our proposition by the action which in such a case speaks more emphatically a thousand times than words.

In 1892 our delegates asked Germany and Great Britain to join what was conceived to be a group of willing Powers. In 1897 we can point to only Mexico, China and the minor States of South America as the communities whose present practice we can suggest for imitation. Our argument for the change of policy will doubtless be again the evil results which we are confident will overtake the world's commercial States if they persist in present methods. But we are plainly endeavoring to convince these States that they are suffering from evils which as States they refuse, and have steadfastly refused, to recognize. They inform us courteously that they are satisfied with their existing system and that they have no wish to change. Four times they have refused the formal petition of our delegates that such a change be made. The very nations on whose moral support we lately counted have in the face of our petition cast their lot with the single-standard nations. Yet we renew the same request with each incoming Administration. The appeal is necessarily received with due respect and deference; nevertheless, these foreign States are quite as well aware as we that the United States produces upwards of one-fourth the silver output of the world, and that, occupying such position, we have an interest in silver's rehabilitation quite apart from general economic benefits. All these facts considered, is it not possible that our government, in its successive applications to its fellow States, may presently come to be regarded, not as a disinterested friend of currency reconstruction but as a chronic bore?

So it has seemed at all events to us, and for this reason, if for no other, we regret that it should be thought necessary to resume these perennial petitions to our neighbors. It might have been remembered that the

"promoter" of a cause, even when convinced that he is right, can go with dignity, in his efforts to convince his fellows, only a certain distance. If they reject his reasoning with polite indifference, it is possible that all will suffer. But the responsibility will be clearly placed, and if the petitioner's argument is sound, the consequences will eventually teach the lesson for themselves. But if a long-continued series of rebuffs serves only as an inspiration to renewed appeals, the situation very soon becomes undignified and ridiculous. The outcome of persistency like this, in the case of private individuals, is that the applicant will at last be unceremoniously shown the door. "A government is more formal and diplomatic in its action; it is the statesman's art to veil such curt dismissals in a banquet or a State reception. But the practical situation, at the end, will be in either case the same.

### THE BURLINGTON & QUINCY REPORT.

The annual report of the Burlington & Quincy this time makes a much bulkier pamphlet than heretofore. It contains a number of new features, adding greatly to its usefulness, and the form of the report also has been altered in a number of particulars. Quite a good many pages are devoted to a description of the character and lien of the various mortgages, the company in this having following very closely the general method of analysis employed by us in our study of these mortgages as contained in the October issue last year of our *INVESTORS' SUPPLEMENT*. On the whole the report furnishes a fuller and clearer presentation of the affairs of the company than any previous annual document.

A striking feature with the Quincy is the unchanged personnel of the directory which has been maintained so long. In giving a list of the directors this time, the date of the first election of each member is also indicated. Mr. John M. Forbes, the Chairman of the board, was first elected a director in 1857—forty years ago. Mr. John N. A. Griswold of this city has been a member of the board for 24 years, having been elected in 1873. Mr. Charles J. Paine, who has just been appointed by President McKinley as one of the International Monetary Commissioners, and Mr. Charles E. Perkins, the President of the road, have both been on the Quincy board for twenty-two years. Mr. T. Jefferson Coolidge has served for twenty-one years. Mr. John L. Gardner for nineteen years and Mr. William Endicott, Jr., for seventeen years. Thus the records of seven of the eleven members of the board show terms of service running from seventeen to forty years. Of the other four members, Mr. Francis W. Hunnewell has acted in the capacity of director for eleven years, ex-Secretary of the State Olney for eight years, Mr. Edward W. Hooper for seven years and Mr. James H. Smith for five years.

Just now this long record of the directors possesses special importance. It shows that the affairs of the property are being administered by men of ripe knowledge and experience, whose judgment and discretion ought to count for much in trying times like the present. Probably the oldest man on the board has never witnessed a period quite so bad for the railroads as that through which the roads have been obliged to pass during the last three or four years. For the Quincy, as will be remembered, paid large dividends during the whole of the period of depression following the panic of 1873.

In the late year many of the conditions seemed to promise very decided improvement, so that at the year's start nearly every one looked for a quite favorable outcome. The crop situation particularly seemed to encourage hopeful views. The Quincy is the largest corn-carrying road in the country, and while the harvest of 1894 (furnishing traffic for 1895) had been very deficient, that of 1895 was exceptionally abundant, thus seemingly offering assurance of a very large tonnage in grain for 1896. As it happened, too, this was followed by an equally abundant harvest in 1896. In the five States of Illinois, Iowa, Nebraska, Missouri and Kansas, from which the Quincy derives such a large proportion of its traffic, the corn crop aggregated in 1895 1,122 million bushels and in 1896 1,329 million bushels, making for the two years together the extraordinary total of 2,451 million bushels. What such phenomenal crops would signify under ordinary circumstances must be obvious to any one who has a proper appreciation of the part played by the crops in the affairs of Western roads.

Unfortunately the benefit expected from this source was only in part realized. The price of corn in the markets ruled so low that there was little inducement for the farmers to send it forward, so that instead of the full and free movement which had been looked for, shipments were restricted, though of course being considerably in excess of the very small totals of the previous year. At the same time there came, as the reader knows, a renewal of very serious depression in the trade and industries of the whole country. At the beginning of 1896 there was still considerable activity in business circles as the result of the revival in trade which had begun in 1895. But as the year progressed, with the declaration of the Democratic Party for free silver, the nomination of Bryan, and the continued prosecution of the silver campaign, the situation grew steadily worse, and the latter part of the year (before the election) operations in certain branches of trade came almost to a standstill.

The effect on the Quincy, as on other roads, was to deprive the system of that volume of merchandise and general miscellaneous freight which is the necessary concomitant of business prosperity. Then also the passenger traffic and passenger revenues declined. At the same time, with trade stagnant and the future involved in doubt, a recovery in the value of agricultural products was out of the question. The price of wheat, it is true, did advance, but this was owing to a crop shortage in nearly all the leading producing countries of the world; and the advantage here was offset by the fact that in the spring-wheat sections of the Northwest the wheat yield of 1896 fell materially below the exceptionally heavy yield of 1895.

Under the circumstances the fact that the road is able to report an increase of \$518,185 in gross earnings and of \$353,375 in net earnings, as compared with the year preceding, must be regarded as satisfactory. The final result of course is not as favorable as could be wished. The report shows a deficit for the twelve months in the amount needed to meet the 4 per cent dividends paid of \$813,641. But we are dealing with the operations of a system of large magnitude, and in a comparative sense the deficit is not as large as it seems. It is not quite equal to one per cent on the company's stock—that is one per cent on the stock calls for \$820,028, while the year's deficit is \$813,641. The income statement shows that \$2,466,470 was actually

earned for the stock, while the 4 per cent dividends paid for the twelve months called for \$3,280,111. In brief, the property in a year of great depression in trade earned 3 per cent for the stockholders.

It deserves to be mentioned, too, that this is the result according to strict methods of accounting. The accounts this time include all the lines owned or controlled, not excepting the Chicago Burlington & Northern. This latter has never previously been incorporated in the reports. Its inclusion in 1896 must have swelled the deficit in the sum of between \$300,000 and \$400,000. At least we judge so from the fact that in the back part of the report there is an income statement prepared on the old basis, and this shows a deficit of only \$424,300.

Another fact deserves not to be overlooked. We have directed attention to it on previous occasions. The Quincy makes very large annual contributions to its various sinking funds, and these are all deducted before calculating the amounts remaining for the stock. The amount directly paid from earnings on sinking fund account in 1896 was \$777,784; but besides this the accumulation of interest on bonds held in the funds added \$478,154 more to the amount, making a total appropriation on behalf of the funds for the twelve months of \$1,255,938. The situation, then, is this: The income accounts show a deficiency for the year (on dividends of 4 per cent paid) of \$813,641, equal to 1 per cent on the stock; but this is after allowing for \$1,255,938 paid in reduction of the principal of the bonded debt, such allowance being equal to over 1½ per cent on the stock.

In 1895, according to the report for that year, the deficit for the twelve months was only \$232,362, which may seem strange in view of the fact that we have noted above an increase of \$353,375 in net earnings in 1896 over 1895. One reason for the apparent discrepancy is found in the fact that in last year's account (the report being on the old basis) the deficiency in the operation of the Chicago Burlington & Northern, amounting to \$350,716, was not taken into consideration. Another reason is that in that year the company had an exceptional item of miscellaneous income, derived from an extra dividend to amount of \$490,188 paid by the Hannibal & St. Joseph Railroad Company.

As plans for refunding high-rate bonds maturing in the near future with new bonds bearing a much lower rate of interest are now becoming such important factors in the operations of our railroads—a refunding scheme for the New York Central having this week been added to the previously announced scheme of the Lake Shore—it is proper to say that the Quincy possesses quite as good opportunity for a saving in this way as any other prominent road. We reproduce from the issue of the CHRONICLE of March 13, where we gave a list of high-rate interest-bearing bonds maturing up to 1906, the following statement regarding the situation of the Quincy in this particular.

	Inter- est.	Bonds, when due.	Principal. \$	Saving if refunded— At 4 per ct. At 3½ per ct.	
				\$	\$
Chic. Burl. & Quincy—					
Consol. mort. ....	7	1903	28,924,000	867,720	1,012,340
Sinking fund bonds.	5	1901	2,315,000	23,150	34,725
Chic. & La. div. coll. tr.	5	1905	2,320,000	23,200	34,800
Convert. debentures.	5	1903	15,263,900	152,639	228,958
Ottawa Oswego & Fox					
R. 1st M. ....	8	1900	1,076,000	43,010	48,420
C. B. & Nor. equip. M.	5	1903	908,000	9,080	13,620
			50,806,900	1,118,829	1,372,863

It will be seen that the company has altogether over fifty million dollars of bonds maturing before the end of 1905, and that we figure a saving of \$1,372,863 per

annum if the several issues should be refunded into a new issue bearing only 3½ per cent interest. Actually the reduction would be much larger than this. In the case of the sinking fund 5s of 1901 we have allowed a possible saving of only \$34,725 per annum. But these bonds are secured by a deposit of \$2,500,000 of St. Louis Rock Island & Chicago 7 per cent bonds, and the Quincy is paying 7 per cent on this \$2,500,000 (amounting to \$175,000) instead of only 5 per cent on \$2,315,000, the difference going into the sinking fund. Moreover, this sinking fund contains \$1,655,400 (par value) of securities with which to take up the \$2,315,000 of bonds outstanding, leaving roughly, say, only \$700,000 to be provided for by refunding, or in other ways. At 3½ per cent the interest on this \$700,000 would be only \$24,500 per annum, where now, as we have seen, the Quincy is paying \$175,000 per year. The saving then with the present sinking fund payment taken into consideration would be in round figures \$150,000 per year instead of only \$34,725 as per the above table.

It follows that the total saving on the several issues enumerated would be nearer 1½ million dollars than the \$1,372,863 given. Of course in a refunding scheme to be carried out now, a part of this would be lost through the compensation that would have to be allowed to the holders of the old bonds for the premium on the same. But assume a saving of only 1½ million dollars per year, and we have an amount equal to 1½ per cent on the stock.

#### AN IMPORTANT POINT IN PATENT LAW AND ITS BEARING ON MANUFACTURING INDUSTRIES.\*

MANCHESTER, April 7th.

A movement has been set on foot in Manchester, and is influentially supported in other parts of the United Kingdom, for the purpose of removing a defect in British Patent Law of great consequence to some of its leading industries, and not without instructive interest to the manufacturing community of the United States. When the Patents, Designs and Trade Marks Act was passed in 1883, a section of it (Sec. 22) was especially designed to secure an adequate supply of the product of a patented invention, either by the patentee himself or by others to whom he may have granted licenses. The principle of the section was entirely new to English Patent Law, although it had been embodied in a very stringent fashion in the French law of 1844, in that of Germany adopted in 1877, and is now embodied in the statutes of several other countries. No such provision exists in the patent legislation of the United States unless it has been adopted since 1889.

It was thought for some time after the English Act of 1883 was passed that the requirements of manufacturers and of the public with reference to the working of patents and the granting of licenses had been fully met. Strange to say, however, experience has shown that Section 22 is absolutely inoperative. Patents have been granted in England to foreign patentees who have neither worked their inventions in the country nor granted licenses, and they have managed for years to maintain an excessive and to them highly profitable monopoly in a market which has in many cases taken off larger supplies of their production than any other; in some cases probably more than all other markets together. Yet it is a fact that the

\* Communicated by our special correspondent at Manchester.

Board of Trade has not once exercised its supposed compulsory powers, mainly, it is believed, because of the vague wording of the section. The consequences of the defective and nugatory character of this part of the act have been most injurious, not to say disastrous, in respect of certain British industries, and at length a determined effort to amend it has been started.

The provocative of this effort appears to have been supplied by the recent discussions upon the assumed growing superiority of German industry, particularly in the manufacture of chemicals. It has, for a while past, been known to a few that the great prosperity of the German chemical industry has rested largely upon the clever manner in which those engaged in it have managed to profit by the laxity of the British Patent Law—not alone in respect of Section 22—in securing the monopoly of the English market for their productions. They have obtained patents in England, many of which were denied to them in Germany, or if granted were subsequently revoked, for coal tar, and other dye-stuffs, as well as for pharmaceutical and cognate productions, charging for them prices sometimes 50 to 100 per cent higher than those at which the same commodities were being sold in Germany at the same time. A familiar example of this kind is the article anti-pyrine, for which German manufacturers have held British patents for years, and yet it has never been manufactured in the United Kingdom, although applications for licenses have been made to the patentees by English producers of chemicals.

The defects of Section 22 arise, as already intimated, from the vagueness of the language defining the conditions under which compulsory licenses may be ordered. The section is short and is worth quoting. It runs: "If on the petition of any person interested it is proved to the Board of Trade that, by reason of the default of a patentee to grant licenses on reasonable terms (*a*) the patent is not being worked in the United Kingdom; or (*b*) that the reasonable requirements of the public with respect to the invention cannot be supplied; or (*c*) that any person is prevented from working or using to the best advantage an invention of which he is possessed, the Board may order the patentee to grant licenses on such terms as to the amount of royalties, security for payment, or otherwise, as the Board, having regard to the nature of the invention and the circumstances of the case, may deem just, and any such order may be enforced by mandamus."

The want of precision in this part of the Act is most conspicuous in three words. First, there is the "default" of the patentee to grant licenses. Now "default" is interpreted by the Board of Trade to mean "refusal." This construction is perfectly well known to the German patentees, and upon application being made to them they are always careful to avoid downright refusal. Some interesting correspondence now before the writer shows the various ingenious ways by which requests for licenses are evaded. Questions are asked as to the purposes for which the product is to be used, or whether the applicant will observe certain conditions, including that of permitting the inspection of his books, and so forth. The answer returned in other cases is that the patent is being worked, or is about to be worked in the United Kingdom. But no reply is vouchsafed when the applicant desires to know in what place the working is being carried on, or is to be carried on. This kind of evasion is made possible by the second primary defect of the section. No definite

time is named within which the "working" of the patented invention in the country must be brought about. In France a patentee is deprived of his patent rights if he has not actually worked his invention in the country within two years, or if he has for two consecutive years ceased to work it. In Germany a patent is revoked if its proprietor has failed to work it in the country, "to an adequate extent", or to do everything that is necessary to ensure its being worked within three years. A third defect in the English Act is that it does not define the scale upon which the patented invention is to be worked, and it is possible for a patentee to frustrate the evident purpose of the law by a mere pretense to carry on within the Kingdom the process which is the subject of his patent.

It will perhaps be thought that a test case might be brought before the Board of Trade of sufficient weight and force, to induce an exemplary decision against the pretensions of patent holders who convert exclusive legal rights conferred on the ground of public policy (but intended to be limited) into a rigid monopoly hurtful to the interests of the people and their industries. But the fact is that the rules of the Board with reference to the petition and mode of procedure, in such a case, involve what is practically an exceedingly expensive law suit. Moreover, English manufacturers who have contemplated taking this course, assert that they have discovered that the German patentees have permanently retained all the patent lawyers in the first rank and all the most skilled experts who could act as effective witnesses. As if in despair of doing any good with the law as it now stands, they have determined to invoke the aid of the Government for the purpose of passing a short amending act dealing only with Section 22. Several other defects in the existing patent law require the attention of the Legislature, but in the present congested state of parliamentary business, it is extremely unlikely that a comprehensive measure of reform could be carried within a reasonable period.

Probably, too, a prolonged official inquiry, either by a Royal Commission or by a Select Committee of the House of Commons, would be required as a preliminary of legislation affecting the whole Act. The request for a short Government bill to amend Section 22 is to be immediately presented to the President of the Board of Trade—Mr. Ritchie—and the deputation to him for this purpose will embrace representatives of several important Chambers of Commerce, headed by that of Manchester, as well as of one or two engineering associations, and societies connected with the calico printing, dyeing, bleaching and chemical industries. If the appeal of the deputation should be successful, there can be little doubt that important industrial results will follow before long. The supply of several valuable commodities used as manufacturing raw materials or accessories will be greatly increased, and the prices of them will be appreciably reduced wherever they are now artificially heightened by a stringent monopoly.

#### RAILROAD NET EARNINGS FOR FEBRUARY

The earnings, gross and net, of United States railroads are beginning to afford evidence of improvement. The improvement is by no means general as yet, and many roads and sections form exceptions to the rule. Nevertheless the tendency seems to be in the direction

indicated, and doubtless steady, even if slow, progress towards a better state of things can henceforth be counted on—unless, indeed, further unlooked for setbacks should intervene.

In the case of the net, improvement is being brought about largely as the result of contractions in the expense accounts. This is in one sense an unfavorable feature, as it means diminished amounts spent for labor and supplies—circumstances which must necessarily react unfavorably on general trade. But even the returns of gross earnings are becoming much more encouraging. We have compiled this week our statement of gross and net for February, and the total of the gross actually is a little better than the total for the corresponding month of last year. The following is a summary of the figures. It will be seen that there is a trifling gain (\$6,144) in the gross, and an increase of \$1,387,080, or 9.55 per cent, in the net.

	February, (131 roads.)			January 1 to February 28 (137 roads.)		
	1897.	1896.	Inc. or Dec.	1897.	1896.	Inc. or Dec.
	\$	\$	\$	\$	\$	\$
Gross earn'g.	54,785,297	54,779,153	+6,144	108,627,654	112,077,078	-3,449,424
Oper. exp.	38,877,853	40,258,189	-1,380,336	78,116,770	81,758,717	-3,641,947
Net earn'g.	15,907,444	14,520,964	+1,386,480	30,510,884	30,318,361	+192,523

What gives to the increase particular significance is that it has been established notwithstanding that the month the present year contained only 28 days, while last year it contained 29 days, and notwithstanding that in the spring-wheat districts of the Northwest there were important losses in earnings as a result of the contraction in the movement of wheat. Furthermore, we are comparing with a month last year that had shown a very marked recovery in both gross and net—the gain then having been \$4,049,430, or 9.03 per cent, in the gross, and \$2,019,633, or 17.97 per cent, in the net. Moreover, when the comparison is extended further back, it is found that even in 1895 there had been small increases, so that the present is the third successive February when the aggregates have recorded enlarged gross and net. Below we show the figures back to 1892.

Year and number of roads.	Gross Earnings.			Net Earnings.		
	Year Given.	Year Preceding.	Increase or Decrease.	Year Given.	Year Preceding.	Increase or Decrease.
February.	\$	\$	\$	\$	\$	\$
1892 (133)	55,197,656	50,805,115	+4,392,541	10,121,380	13,617,623	-3,496,243
1893 (134)	51,802,173	54,981,473	-3,179,300	11,115,111	16,912,551	-5,797,440
1894 (131)	43,895,287	52,776,159	-8,880,872	11,182,477	13,313,747	-2,131,270
1895 (135)	46,438,192	45,658,179	+783,013	11,891,621	11,643,371	+248,250
1896 (136)	48,867,909	41,817,979	+7,049,930	13,253,406	11,215,972	+2,037,434
1897 (131)	54,785,297	54,779,153	+6,144	15,908,044	11,520,964	+4,387,080
Jan. 1 to Feb. 24.						
1892 (131)	111,984,317	106,770,950	+5,213,367	30,491,709	28,801,812	+1,689,897
1893 (131)	111,744,747	114,112,111	-2,367,364	27,765,943	31,055,826	-3,289,883
1894 (132)	99,171,581	103,172,038	-4,000,457	23,665,412	25,921,831	-2,256,419
1895 (135)	95,447,453	94,741,276	+706,177	25,242,730	24,041,619	+1,201,111
1896 (136)	101,821,781	92,948,544	+8,873,237	32,124,753	23,942,809	+8,181,944
1897 (130)	108,627,654	112,077,078	-3,449,424	30,510,884	30,318,361	+192,523

As the result of the disposition to economize in the expense accounts, there are a good many roads which, though having large losses in gross, are able to report improved net. The Pennsylvania, with \$343,600 decrease in gross (Eastern and Western lines combined), has \$190,800 increase in the net; the Milwaukee & St. Paul, while having suffered a loss of \$185,910 in gross, has \$45,831 gain in net; the Norfolk & Western, with \$138,410 decrease in the gross, has only \$25,706 decrease in the net, &c. An example of the opposite kind is furnished in the case of the Atchison, which, with only \$16,051 decrease in gross, has \$127,873 decrease in net. But large losses in the net are very few. The only others of any considerable amount besides that of the Atchison are the Southern Pacific

with \$184,818 decrease, the Louisville & Nashville with \$49,881 decrease and the Summit Branch and Lykens Valley with \$32,027 decrease. On the other hand the gains for large amounts in the net are quite numerous—much more numerous than in the case of the gross. In addition to the increases in net already enumerated, the Burlington & Quincy has \$308,509 increase (in the gross the increase is only \$201,046); the Lehigh Valley \$223,150 increase (in gross only \$171,316); the Reading \$130,965 increase, the Northern Central \$118,749, the Mexican Central \$113,931, the Union Pacific \$102,957, &c. It is noteworthy that the Baltimore & Ohio this time has a gain in both gross and net—\$239,363 in the former \$48,330 in the latter. The following is a list of all changes in gross and net in excess of \$30,000.

#### PRINCIPAL CHANGES IN GROSS EARNINGS IN FEBRUARY.

Increases.		Decreases.	
Balt. & Ohio.....	\$219,363	Pennsylvania.....	\$343,600
Mexican Central.....	230,496	Southern Pacific.....	285,785
Chic. Burl. & Quincy...	201,046	Chic. Mil. & St. Paul...	185,910
Union Pacific.....	144,444	Norfolk & Western.....	138,410

Chic. Mil. & St. Paul.....	47,830		

† Covers lines directly operated east and west of Pittsburg; the net on Eastern lines increased \$170,300 and on Western lines \$21,510.

When arranged in groups the feature of the exhibit is the very satisfactory comparisons furnished by the Anthracite Coal group. Last year this group did very poorly. It is evidence that the situation is much better that now the same group shows \$344,540, or about 5 per cent, gain in the gross earnings, and \$386,398, or over 34 per cent, in the net earnings. Moreover all but two or three minor roads share in the improvement. The Eastern and Middle group also has a very large ratio of gain in net—35.47 per cent. In this case, too, the improvement is quite general, there being only one road that forms an exception to the rule. In the trunk line group the ratio of increase in net is but 10.31 per cent, but, as in the other case, there is only one exception to the rule.

#### SUMMARY BY GROUPS.

SECTION OR GROUP.	Gross Earnings.		Net Earnings.			
	1897.	1896.	1897.	1896.	Inc. or Dec.	P. O.

Southwest'n (11)	8,442,338	9,048,175	2,842,022	2,721,810	+120,212	17.03
Pacific Coast (20)	16,820,091	17,082,678	4,855,741	4,908,117	-52,376	6.14
Southern (24)	15,010,232	15,536,864	4,782,474	4,731,061	+51,413	0.71
Mexican (4)	3,617,810	3,039,438	1,217,501	1,138,906	+78,595	32.83
Total (130 roads)	108,627,654	112,077,078	30,510,884	30,318,361	+192,523	0.55

The values are taken from the declarations of the exporters at the Custom House, and include the value of the lead, less the refinery charges. Besides the above, silver bullion of the following amounts were also produced in New South Wales and exported:

NEW SOUTH WALES—SILVER BULLION.

	Ounces		Ounces.
1891.....	729,590	1891.....	516,822
1892.....	350,661	1895.....	550,142
1893.....	531,972	1896.....	202,789

Tasmania is the only other part of Australasia that exports silver lead and silver ore in any quantity. The following figures represent its total output:

TASMANIA—SILVER LEAD AND ORE.

	Tons.		Dollars.
1893.....	15,710		912,600
1894.....	20,572		1,231,320
1895.....	20,553		1,233,180
1896.....	21,167		1,118,310

Here again, the "value" is the export value, and bears no consistent proportion to the "coining value" as expressed in American statistics. The figures for all Australasia during the past six years are as follows:

AUSTRALASIAN SILVER PRODUCTION.

Date—	—Silver Lead and Silver Ore.—		Silver Bullion, oz.
	Weight, tons.	Value, dollars.	
1891.....	148,655	17,533,090	1,000,449
1892.....	133,355	12,104,760	789,696
1893.....	230,330	15,710,545	975,256
1894.....	200,898	12,211,015	1,115,318
1895.....	240,433	9,037,245	969,572
1896.....	307,903	9,942,975	629,301

Gross total from first production to 1896.....	1,553,091	113,100,890	10,643,261
--	-----------	-------------	------------

## IMPORTS AND EXPORTS FOR MARCH.

The Bureau of Statistics has issued a detailed statement of the foreign commerce of the country for the month of March, 1897 and 1896, and for the nine months ending March 31 in 1896-97 and 1895-96, as follows:

MERCHANDISE.

	March.	9 mos. end. Mch. 31.
1896-97.—Exports—Domestic.....	\$85,469,425	\$807,715,701
Foreign.....	1,862,106	14,554,043
Total.....	\$87,271,531	\$822,269,744

## Monetary: Commercial English News

LONDON, SATURDAY, April 3d, 1897.

[From our own correspondent.]

There is as yet no change in the political situation in South Eastern Europe. On Monday all the stock exchanges and

bourses were disturbed by the departure of the Crown Prince of Greece from Athens to take command of the troops on the frontier, but apprehension has somewhat subsided, as no collision has yet taken place. On Tuesday, moreover, the speech from the Throne at the opening of the Austrian Reichsrath repeated the assurance that all the Powers were in full agreement and that peace will be maintained. Furthermore a good impression was made by the communication by the Russian Ambassador at Constantinople to his colleagues that the Russian Admiral in Cretan waters, speaking for the other Admirals, had recommended the appointment of a Governor General for Crete. This communication was taken to indicate that the Russian Government is really desirous of a peaceful solution.

Another piece of intelligence from a different quarter has been regarded as very assuring in the London market. For a year or so, there has been much talk in Argentina of resuming the payment of the full interest upon the debt but few people believed that anything would come of it. On Tuesday, however, the Messrs. Rothschilds communicated to the Stock Exchange a letter just received from the Argentine Minister in London to the effect that the Argentine Government had decided to resume paying the full interest on the debt from July next. By the Romero-Rothschild Agreement in 1893 it was arranged that the interest on twelve Argentine loans, largely held in Europe, should be reduced for five years, and that one per cent of the loan of 1886 and the Funding loan should be withheld during those five years, but that in the sixth year, the Argentine Government should pay into the Bank of England, the full amount due as interest upon the debt, that out of the sum so lodged the full five per cent should be paid on the loan of 1886, the full six per cent on the Funding loan, that the reduced interest on the other loans should be paid, and that out of the surplus the one per cent deducted from the 1886 loan during the previous five years should be made good, and that if anything remained it should be applied to making up, as far as it would go the one per cent that had been deducted from the Funding Loan. In the seventh year and thereafter the full interest should be paid on all the loans.

The five years stipulated for in the agreement will not expire until the middle of 1898. Consequently the announcement of the Argentine Government comes to this, that it has shortened the time during which the reduced interest was made payable from five to four years. The best estimate that can be formed is that next year the one per cent deducted from the 1886 loan for the past four years will be made good and that about half the amount deducted from the funding loan will be paid. Naturally there has been a great rise in these two latter loans and a very considerable one in the other loans.

Outside the Argentine department, however, there is not much doing. The amendments to the Arbitration Treaty by the Senate, the very protectionist character of the new Tariff Bill and the decision of the Supreme Court in the Trans-Missouri traffic case all continue to discourage investment in American securities. The mining market is quite lifeless, British securities have moved but little, and foreign securities are neglected here, although they have been fairly well maintained in Paris.

The revenue returns of the United Kingdom for the year ended Wednesday night are wonderfully good and prove beyond all question how prosperous the people are, and how good trade has been. The total receipts of the Exchequer, that is, excluding what has been paid over to the local authorities, amount to very little under 104 millions sterling, being an increase over the estimates of the Chancellor of the Exchequer last April of, in round figures, 3½ millions sterling. The expenditure, which was estimated at a little over one hundred millions sterling, has actually exceeded that sum by about a million sterling, and the final result is that there is a net surplus of revenue over expenditure of about 2½ millions sterling.

The money market has been exceedingly easy this week. Usually the last three days of the quarter and the financial year are marked by a good deal of stringency. Large amounts have to be called in to pay interest and dividends, the joint-stock banks call in loans also for making up their quarterly accounts, and the heavy receipts of revenue transfer considerable amounts from the open market to the Bank of England. For many years past, therefore, the last three

days of the financial year have witnessed extensive borrowing at the Bank of England. This year the borrowing has been small. The rate for short loans has ranged from about  $2\frac{1}{4}$  to 3 per cent and the discount rate has fallen very nearly to  $1\frac{1}{4}$  per cent.

The probability is that rates will fall still further next week, as the interest on the national debt will then be payable, and it looks as if for several months to come there will be marked ease, unless of course war alarms increase. Gold continues to come in from abroad in large amounts, speculation is utterly paralyzed, there is practically no new enterprise, and though trade is good the manufacture of bills is not upon a large scale.

In India, on the other hand, the stringency continues, and it looks now as if there will be very little ease until the new crops are gathered in July and August. The best estimates that can be formed go to show that the exodus from Bombay caused by the plague amounts to at least, 350,000 persons, or practically half the whole population. Manufactures are almost at a standstill, exports are greatly checked and imports are rendered very difficult. And the position at Kurrachee is little better. The latest reports are that the plague is abating, and there are hopes that some of the work-people are beginning to return, but evidently business will not revive for a considerable time. The losses of merchants, however, will be heavy, and it is feared that they will not be able to get in the debts due to them.

There are hopes that the crops now being gathered in will prevent any increase of the famine, but there is little likelihood that there will be much decrease until the crops are harvested in July and August. Therefore, the Government expenditure upon relief works will continue as large as it is, and the great poverty, it is only too probable, will prevent native buyers from meeting their engagements. Owing to all this there is a fear that many of the European merchants may be plunged into difficulties, and naturally the banks are unwilling to face risks. Besides, the proposal of the Government to raise an Indian loan of four crores threatens to reduce the small supply of loanable capital in the great markets of Bombay and Calcutta, and so to increase the embarrassment.

In spite of all, however, the India Council is not selling its drafts freely. It offered for tender on Wednesday 40 lacs, but the applications did not quite amount to  $26\frac{1}{4}$  lacs, and the actual sales were only about 11 lacs. Later it sold by private contract about 9 lacs, but the greater part of the latter sum was on account of the Famine Relief Fund. Evidently the India Council is unwilling to sell except at a price the market will not pay, and equally evident the exchange banks are unwilling to face any risk.

The "Railway News" of London reports the traffic receipts for the week ending March 28 of 55 railways of the United Kingdom which make weekly returns at £1,550,167, against £1,498,785 in the corresponding week of last year, an increase of £51,432. For the thirteen weeks of the current half-year receipts were £19,323,654, an increase of £317,402.

The rates for money have been as follows:

London.	Bank Rate.	Open Market Rates.						Interest allowed for deposits by			
		Bank Bills.			Trade Bills.			Joint Stock Banks.	Disct. H'se	At Call.	7 to 14 Days.
		Three Months.	Four Months.	Six Months.	Three Months.	Four Months.	Six Months.

Messrs. Pixley & Abell write as follows under date of April 1:

Gold—With Continental demand, as well as inquiry for the East, prices have again slightly advanced. The Bank of England has received £261,000, in sovereigns from Australia. Arrivals: South Africa, £2309,000; Australia, £241,000; River Plate, £19,000; West Indies, £40,000; total, £2609,000. Shipments: Bombay, £2,500; Japan, £233,000; Calcutta, £10,000; total, £245,500.

Silver—The general course of the market has been downwards, with some selling pressure from New York. To-day there is more inquiry than supply, and the market has advanced to 28 $\frac{1}{2}$  d., closing to-night at 28 $\frac{1}{2}$  d. The Bombay price is 77 $\frac{1}{2}$  Rs. per 100 tolas. Arrivals: New York, £201,000; West Indies, £6,000; total, £210,000. Shipments: Bombay, £115,150; Calcutta, £75,000; total, £190,150.

Mexican Dollars—These coin have been inquired for during the week and close, buyers, at 27 $\frac{1}{2}$  d.

3,119—The St. Paul National Bank, St. Paul, Neb., has gone into voluntary liquidation by resolution of its stockholders dated March 12, 1917, to take effect March 31, 1917.

3,419—The First National Bank of Southland, Iowa, has gone into voluntary liquidation by resolution of its stockholders dated January 13, 1917, to take effect March 15, 1917.

**IMPORTS AND EXPORTS FOR THE WEEK.**—The following are the imports at New York for the week ending for dry goods April 8 and for the week ending for general merchandise April 9, also totals since the beginning of the first week in January.

## FOREIGN IMPORTS AT NEW YORK.

For week.	1897.	1896.	1895.	1894.
Dry goods.....	\$3,475,184	\$2,388,283	\$3,131,147	\$1,436,992
Gen'l merdisce	8,999,339	6,530,472	7,817,794	6,961,802
Total.....	\$12,774,523	\$9,218,755	\$10,951,981	\$8,398,794
Since Jan. 1.				
Dry goods.....	\$36,343,535	\$42,585,648	\$47,936,917	\$16,559,960
Gen'l merdisce	101,168,021	97,013,511	97,442,093	94,598,515
Total 14 weeks	\$137,511,546	\$139,599,159	\$145,279,007	\$121,098,475

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending April 12 and from January 1 to date:

## EXPORTS FROM NEW YORK FOR THE WEEK.

	1897.	1896.	1895.	1894.
For the week..	\$7,143,876	\$7,138,554	\$7,553,987	\$8,918,393
Prev. reported	99,970,091	98,869,436	83,135,233	91,091,021
Total 14 weeks	\$107,113,967	\$106,007,990	\$95,689,270	\$100,012,419

The following table shows the exports and imports of specie at the port of New York for the week ending April 10 and since January 1, 1897, and for the corresponding periods in 1896 and 1895:

## EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....				\$15,276
France.....		\$521,995		
Germany.....				10
West Indies.....	\$2,050	432,540	\$3,938	826,290
Mexico.....			3,863	28,358
South America.....		105,786	5,206	139,195
All other countries.				93,083
Total 1897.....	\$2,000	\$1,060,324	\$19,651	\$1,102,212
Total 1896.....	1,631,903	14,412,018	595,77	17,947,740
Total 1895.....	621,712	31,112,604	219,389	13,451,331
Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	\$976,731	\$12,254,910		\$2,022
France.....		431,000		
Germany.....		6,750		1,000
West Indies.....		43,352	\$5,039	60,473
Mexico.....			20,291	311,227
South America.....		11,475	9,633	209,959
All other countries.			40.	6,190
Total 1897.....	\$976,731	\$12,746,187	\$35,363	\$590,871
Total 1896.....	1,030,803	14,702,943	17,225	709,116
Total 1895.....	646,416	8,476,988	11,397	370,498

Of the above imports for the week in 1897 \$3,018 were American gold coin and \$469 American silver coin. Of the exports during the same time \$2,000 were American gold coin.

—Messrs. Zimmermann & Forsyth offer at a price returning 4.90 per cent upon the investment, a limited amount of Pittsburgh, Shenango & Lake Erie first mortgage 5 per cent gold bonds due 1919.

At the regular quarterly meeting of the Board of Trustees of the Atlantic Mutual Life Co. held Wednesday, April 7, the following changes in the official staff were made: Anton A. Raven, President, in place of Wm. H. Moore, resigned; Frederic A. Parsons, Vice-President; Cornelius Eldert, Second Vice-President; Theodore P. Johnson, Third Vice-President.

**FOR THE TRADE OF NEW YORK—MONTHLY STATEMENT.**—In addition to the other tables given in this department, made up from weekly returns, we give the following figures for the full months, also issued by our New York Custom House. The first statement covers the total imports and exports of merchandise and the Customs receipts for the nine months of the last two seasons.

MONTH.	MERCHANDISE MOVEMENT AT NEW YORK.				CUSTOMS RECEIPTS. AT NEW YORK.

WALL STREET, FRIDAY, APRIL 16, 1897—5 P. M.

**The Money Market and Financial Situation.**—The most important financial news of the week was the announcement on Wednesday that the New York Central & Hudson River Railroad Company and the New York & Harlem Railroad Company had completed negotiations for the refunding of their present outstanding bonds into 100-year 3½ per cent gold bonds. The mortgage which it is proposed to issue in the case of New York Central will be for \$100,000,000, of which \$15,000,000 is to be reserved for new construction after 1903, and the New York & Harlem mortgage will be for \$12,000,000.

This is the largest transaction of its kind in the history of this country and the low rate of interest at which it is made shows how our best railroad securities are regarded in the financial centers of the world.

Of more general interest is the late news from the Greco-Turkish frontier, where matters are assuming a decidedly war-like aspect. As a consequence American securities were freely sold on the European exchanges yesterday, and stocks with an international market declined in Wall Street.

The foreign exchange market has shown a hardening tendency this week, but in view of the foreign trade statement recently given out exchange is not likely to materially advance in the near future. According to the statement referred to the imports of merchandise in March were valued at \$76,372,831, the largest total for any month since April, 1893; but they were exceeded by merchandise exports to the extent of \$10,398,700. For the first nine months of the fiscal year the statement further shows the excess of merchandise exports over imports to be a total of \$323,351,519.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1¼ to 1½ per cent. To-day's rates on call were 1¼ to 1½ per cent. Prime commercial paper is quoted at 3½ to 4¼ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £1,998,719 and the percentage of reserve to liabilities was 50.75, against 52.31 last week; the discount rate remains unchanged at 2½ per cent. The Bank of France shows a decrease of 2,400,000 francs in gold and 3,375,000 francs in silver.

The New York City Clearing-House banks in their statement of April 10 showed a decrease in the reserve held of \$2,324,000 and a surplus over the required reserve of \$46,170,050, against \$47,666,575 the previous week.

	1897. April 10.	Difference from Prev. week.	1896. April 11.	1895. April 13.

Surplus reserve.....	46,170,050	Dec. 1,496,525	17,931,250	14,922,775

**Foreign Exchange.**—The foreign exchange market has been dull but firm and rates show a tendency to advance.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 4 86¼ @ 4 86½; demand, 4 87½ @ 4 87¾; cables, 4 87¾ @ 4 88.

Posted rates of leading bankers follow:

April 16.	Sixty Days.	Demand.
Prime bankers' sterling bills on London.....	4 87	4 88½
Prime commercial.....	4 85¾ @ 4 86	-----
Documentary commercial.....	4 85 @ 4 85½	-----
Paris bankers' (francs).....	5 17½ @ 16 13½	5 15 @ 14½
Amsterdam (guilder) bankers.....	40½ @ 40½	40½ @ 40½
Frankfort or Bremen (reichtmarks) bankers.....	95¾ @ 95¼	95½ @ 95½

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling par; Charleston, buying par, selling ¼ premium; New Orleans, bank, \$1 50 premium; commercial, 50c. premium; Chicago, 50c. per \$1,000 premium; St. Louis, 50c. per \$1,000 premium.

**United States Bonds.**—Sales of Government bonds at the Board include \$30,000 4s. coup., 1925, at 124¾; \$18,000 4s. coup., 1907, at 112½ to 113¾; \$13,500 4s. reg., 1907, at 111¼ to 111½ and \$1,000 5s. coup., at 114¾. The following are closing quotations:

Total	18,007,221	21,488,250			

**Coins.**—Following are the current quotations in gold for coins:

Sovereigns.....	\$4 87 @ \$4 90	Fine silver bars.....	62 @ 62½
Napoleons.....	3 86 @ 3 89	Five francs.....	93 @ 95½
X & Reichmarks.....	4 76 @ 4 80	Mexican dollars.....	48½ @ 49½
25 Pesetas.....	4 77 @ 4 81	Peruvian soles.....	43½ @ 45
Spain. Doubloons.....	15 55 @ 15 75	English silver.....	4 84 @ 4 88
Mex. Doubloons.....	15 50 @ 15 75	U. S. trade dollars.....	65 @ 75
Fine gold bars.....	par @ ¼ prem.		

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to \$15,000 Virginia 6s deferred trust receipts, stamped, at 5.

In the railway bond market the volume of business has been limited, but prices were more steady than in the market for stocks, as the declines in some issues are offset by advances in others. Prominent bond houses report a steady investment demand for high-grade bonds with few offerings. The most notable changes are in Oregon Short Line & Utah Northern and Wisconsin Central, which advanced 1½ per cent each, Chicago & Northern Pacific advanced 1 per cent, while Atchison adjustment 4s and Northern Pacific general lien 3s show a decline of 1½ per cent and 1½ per cent respectively. The active list includes the Atchison, Canada South., Chesapeake & Ohio, Burlington & Quincy, Chicago & Northern Pacific, Rock Island, Erie, Lake Shore, Louisville & Nashville, Milwaukee & St. Paul, Missouri, Kansas & Texas, New York Central, Northern Pacific, Oregon Short Line & Utah Northern, Reading, St. Joseph & Grand Island, St. Louis & Iron Mountain, St. Paul Minn. & Manitoba, Southern Railway, Texas & Pacific, Union Pacific, Wabash, West Shore, Wisconsin Central, Brooklyn Elevated and Union Elevated bonds.

**Railroad and Miscellaneous Stocks.**—The stock market has been somewhat irregular, but generally dull and heavy, with the trading largely professional. American securities were freely offered in the foreign markets on Thursday as a result of the Eastern news. Under these conditions a considerable proportion of the active list has declined, Louisville & Nashville closing at the lowest point of the year. New York Central has been prominent for activity and had advanced 1½ per cent within the week, when the refunding scheme was announced, since which there has been some profit taking and a decline of 2 points. The effect of the announcement seems to have been fully discounted, as New York Central advanced about 10 per cent after the Lake Shore refunding plan was made public and a similar plan for New York Central was talked of. The other Vanderbilt stocks have followed the course of the market. North West and Omaha have each fractionally declined, and C. C. C. & St. Louis has lost 1 point. The grangers and some of the coal stocks have been relatively strong. Burlington & Quincy closes without change and Central of New Jersey had gained 2½ points on Wednesday, when it sold at 79¼. Northern Pacific preferred has lost a part of its recent advance, closing 1½ points below our last quotations.

The miscellaneous list shows the effects of speculative manipulation. Chicago Gas has been the most active; it fluctuated over a range of 3 points and closes without change. American Tobacco, American Sugar and Tenn. Coal, Iron & Railway have declined 2½, 2½ and 2½ points respectively. Other changes are unimportant.

# NEW YORK STOCK EXCHANGE—ACTIVE STOCKS for week ending APRIL 16, and since JAN. 1, 1897.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

\* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & Southwestern. † These figures include results on east lines. ‡ Includes earnings from ferries, etc., not given separately. § Mexican currency. || Includes only half of lines in which Union Pacific has a half interest. ¶ Includes operations of the Chlo. Burlington & Northern in both years. \*\* Covers results for lines directly operated east of Pittsburg. †† Includes results on affiliated lines. ‡‡ Covers besides the Atlantic System the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans. §§ Includes St. Louis Alton & Terre Haute for all periods.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows: For the first week of April our preliminary statement covers 68 roads, and shows 1.26 per cent increase in the aggregate over the same week last year.

**Net Earnings Monthly to Latest Dates.**—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month.

as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.

**Results of coal mining operations only.**  
After allowing for other income received net from July 1 to February 28 was \$189,214, against \$144,474.

1 Includes besides Atlantic System the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & North Orleans.

1 Includes Chicago Burlington & Northern for both years.

For February, 1897, taxes and rents amounted to \$153,263, against \$169,961, and from July 1 to February 28, 1897, \$1,270,192, against \$1,397,773, after deducting which net for February, 1897, was \$330,546, against \$155,721, and from July 1 to February 28, 1897, \$1,613,181, against \$3,625,061.

1 Figures are given exclusive of results on Oregon Railway & Navigation, Union Pacific Denver & Gulf, Fort Worth & Denver City, Leavenworth Topeka & Southwestern, Montana Union and Kansas City & Omaha.

1 St. Louis Alton & Terre Haute included in all periods, except that for the three months from July 1 to September 30 that road's results are not included for 1895.

1 Results on Albany Florida & Northern are included only for July and August, 1895.

1 Including income from ferries, &c.

### STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

### STREET RAILWAYS AND TRACTION COMPANIES.

\* Figures were exceptional in 1896 on account of Atlanta Exposition.  
† Includes results on North Side Traction Traction Company, which was leased in February, 1897 to the Second Ave. Traction Co.

**Street Railway Net Earnings.**—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Satur-

day of the month) we bring all the roads reporting together, as is done to-day.

## Canadian Pacific Railway Company.

(President's Statement at Annual Meeting April 7, 1897.)

At the sixteenth annual meeting of the shareholders, which was held at Montreal April 7, President Van Horne said in part:

**Interest on Consolidated Debenture Stock.**—In submitting the report for your approval, I beg leave to refer to a supposed discovery by a London financial journal that our outstanding interest liabilities at Jan. 1 are under-stated in the balance sheet by something like a million dollars, the last half-year's interest on the consolidated debenture stock not being shown as due on that date. The explanation is simple. The interest on the debenture stock is and always has been paid by cheque in June and December. The bond interest, on the other hand, is represented by coupons which come due on 1st July and 1st January, and are paid on presentation; consequently the second half year's bond interest always appears in the balance sheets as due and payable. There has been no change in our method of dealing with these interest payments in our balance sheet.

**Cash and Cash Assets.**—It will be seen by the balance sheet that at 1st January the company's current liabilities were about normal, and that they were substantially offset by station and traffic balances and accounts receivable, and that nothing stood against the cash in bank save the interest on bonds shown as due and accrued. Since that date about two-thirds of the amount (\$316,767) advanced on account of the Montreal & Ottawa Railway has been recouped to the treasury, and the amount shown as due from the Imperial and Dominion governments (\$111,635) has been received. The amount of our surplus earnings account was therefore represented to the extent of nearly \$3,000,000 by actual cash or its equivalent, and we held against advances, among other securities, first mortgage bonds of the Montreal & Atlantic and the Duluth Superior & Western railways to an amount far exceeding the remainder of this account.

**Improvement in Physical Condition.**—Your property is in excellent condition throughout. The improvements since 1887 in permanent way, and especially in the substitution of the highest type of permanent bridges for the original timber structures, has enabled the company to increase largely the weight of its locomotives and the size of its trains, and to effect a very large saving in the cost of its train service, in addition to the large saving which has been made in the cost of maintenance of way. In 1888 the average size of freight trains was 11-75 loaded cars, while last year it was 16-31, an increase of 39 per cent; and leaving out the decrease in the price of fuel the cost of locomotive service last year was less by \$1,149,329 than it would have been at the cost per ton moved in 1888. I doubt if the company has ever invested any money which has brought a more satisfactory return.

**Trans-Missouri Decision.**—Some alarm has been caused by the recent decision of the United States Supreme Court [regarding the Trans-Missouri Freight Association—see V. 64, p. 612, Eds.]. However, the good sense of the American railway managers may be trusted to find lawful means of protecting the interests in their charge. Your company has comparatively little traffic within the scope of the several associations.

**Better Prospects.**—The past four years on this side of the Atlantic have been full of unpleasant surprises, but I fully share in the belief of the directors that a turn for the better is at hand. The small wheat crop of last year realized to the farmers a much better profit than the heavy crop of the year before, and the shortage was felt by the carriers alone; therefore our late losses in earnings should not be taken as indicating unfavorable conditions in the business of the country. On the contrary the shrinkage in our earnings from the carriage of wheat has largely been made up by an increase in general business.

One of the most encouraging features of our situation is the wide attention the mines of British Columbia are attracting and the great activity which prevails there, as manifested in an increase of 21 per cent in the freight and passenger earnings of our Pacific division. In the section between Lake Superior and the Lake of the Woods, also, rich discoveries have been reported in great number and mining operations are actively going on. For these and other reasons our outlook seems to me promising, and if we are blessed with average crops I think we may fairly expect a prosperous year.

**Expenditures Authorized.**—The shareholders at the meeting authorized the expenditure of capital as follows:

For permanent bridges, ballasting and other improvements of permanent way	\$1,165,723
For station and other facilities, additional sidings and fencing, grain elevators at Owen Sound and Windsor, terminal facilities at Toronto and Montreal, etc.	514,012
For rolling stock and other equipment	377,001
For steamers on Arrow and Kootenay Lakes	280,000
<b>Total</b>	<b>\$2,336,736</b>

**Resolutions Adopted.**—The shareholders also confirmed the agreements mentioned in the annual report for 1896 (CHRONICLE, V. 64, p. 519) for the operation of the road of the Qu'Appelle Long Lake & Saskatchewan R.R. & Steamboat Co. and for the purchase of the Montreal & Western Railway. They also authorized the directors to proceed with the construction of a line from Lethbridge to a connection with the company's Columbia & Kootenay Railway at Nelson, a distance of 325 miles.

[This line would afford connection with the Spokane Falls & Northern system recently rumored to have come within the control of Canadian Pacific interests.—Eds.]—V. 64, p. 512, 519.

## Chicago Burlington &amp; Quincy Railroad.

(Report for the year ending December 31, 1896.)

The annual report of President Perkins will be found at length on another page, together with valuable statistics and the balance sheet as of December 31, 1896. Comments on the year's results will also be found in our editorial columns.

The company has changed its method of stating its income account, which is now reported so as to include the operations and results of all the "controlled" roads not excepting the Chicago Burlington & Northern. In this form the showing is as follows:

	1896.	1895.
Passengers carried one mile	324,553,945	346,882,548
Freight tons carried one mile	2,577,655,320	2,447,206,138
<b>Earnings—</b>		
Passengers	\$7,452,302	\$7,791,304
Freight	22,423,211	21,602,241
Miscellaneous	4,300,943	4,264,726
<b>Total</b>	<b>\$34,176,456</b>	<b>\$33,658,271</b>
Operating expenses and taxes	22,660,472	22,495,662
<b>Net earnings</b>	<b>\$11,515,984</b>	<b>\$11,162,609</b>
Per cent of expenses & taxes to earnings (66-81)		(66-84)
<b>Add—</b>		
Other income and interest	358,740	
Net receipts from lands	31,583	
<b>Total</b>	<b>\$11,906,307</b>	
<b>Deduct—</b>		
Interest on bonds	\$8,252,778	
Rent of tracks and depots	409,275	
Sinking fund	777,781	
Dividends (4 per cent)	3,280,111	
<b>Total</b>	<b>\$12,710,948</b>	
<b>Deficit</b>	<b>\$813,641</b>	

In the following we furnish a comparison in the old form—that is, excluding the Burlington & Northern, and also excluding the "lines controlled," but of course including the income from the company's investments in those lines.

## OPERATIONS AND FISCAL RESULTS.

	1896.	1895.	1894.	1893.
Miles oper. Dec. 31.	5,860	5,730	5,730	5,596
<b>Earnings</b>				
Passenger	5,422,228	5,635,589	5,595,573	8,419,079
Freight	16,985,091	16,135,166	16,135,699	19,689,495
Mail, express, &c.	3,135,753	3,043,437	2,935,860	2,934,395
<b>Tot. gross earnings</b>	<b>25,553,073</b>	<b>24,814,192</b>	<b>24,667,132</b>	<b>31,042,970</b>
Oper. ex. and taxes	16,846,996	16,710,539	16,284,066	21,224,504
<b>Net earnings</b>	<b>8,706,077</b>	<b>8,103,653</b>	<b>8,383,066</b>	<b>9,818,466</b>
P. c. of oper. exp. & taxes to earnings	65-94	67-18	66-02	68-37

The company's annual report is published at much length on subsequent pages of to-day's CHRONICLE. The pamphlet report furnishes in addition a description of the company's several loans, facts about the sinking fund and information as to the amount of road (1,324 miles) owned by the company free from all encumbrance. This data is confirmatory and generally similar in form, though in less detail, than the

**Augusta & Summerville RR.**—**Charleston & Western Carolina Ry.**—**Control Purchased.**—The Augusta "Chicle" states that Messrs. Thomas & Ryan (the purchasers of the foreclosure of the roads now consolidated and known as the Charleston & Western Carolina RR.) have bought \$110,000 of the \$200,000 capital stock of the Augusta & Summerville for \$70,000. The road is a double-tracked terminal line, two and a-half miles in length, at Augusta, Ga. It is used to connect

articles published by us last October (CHRONICLE, V. 63, p. 777, and SUPPLEMENT for October), the article in the SUPPLEMENT, in fact, while prepared by us, having been quite carefully revised at the company's office before publication.—V. 63, p. 577.

**Chicago Lake Shore & Eastern RR.—Mortgage for \$1,200,000.**—The company has made a mortgage to secure \$1,200,000 of 5 per cent \$1,000 gold bonds.—V. 64, p. 422.

**Citizens' Street Ry. (Indianapolis).—Three Cent Fares.**—The last Legislature in Indiana passed a bill to require street railway companies in cities of the size of Indianapolis to charge three cent fares. The new law, by the Governor's proclamation, was to go into force at midnight April 14. This company, however, declines to obey the law until a decision is reached in the Federal Court, where a test case brought by the mortgage trustee is under argument.—V. 63, p. 116.

**City & Suburban Railway of Baltimore.—Balance Sheet Jan. 1897.**—The company has submitted the following:

BALANCE SHEET JAN. 1, 1897.			
Assets.		Liabilities.	
Cash.....	\$53,929	Capital stock.....	\$4,000,000
Construction, real estate and equipment.....	7,679,565	First mortgage 5%.....	3,000,000
Stock and cost of other roads.....	811,300	Bills payable and call loans.....	266,181
Materials on hand.....	41,271	Individual accounts.....	105,527
Bills receivable.....	300	Tickets outstanding.....	3,914
Paul Horston bond.....	840	B. C. & E. RR. net earnings.....	42,034
Insurance paid in adv.....	10,639	Undivided earnings.....	203,759
Sundry accounts.....	23,651		
	\$7,624,315		\$7,624,315

\* In addition the company guarantees the payment of principal and interest on Lake Roland Elevated 5s, \$1,000,000; and on Baltimore Catonsville & Ellicott's Mills Passenger RR. 5s, \$500,000.

Adding to the statement of gross and net earnings now furnished the charges and dividends paid for the year 1896 we get the following results for the year:

Gross Receipts.	Net Earnings.	Park, etc., Expenses.	Other Charges.	Dividend (2 per cent.)	Balance & Surplus.
\$1,014,541	\$365,265	\$5,460	\$210,670	\$80,069	\$99,439

—V. 62, p. 517.

**Columbus Hooking Valley & Toledo Ry.—Majority of Consol. 5s Deposited.—Penalty after April 30.**—J. P. Morgan & Co. announce that over a majority of the consolidated mortgage 5 per cent bonds has been deposited pursuant to their notice of Feb. 25 last. All holders desiring to make deposits are notified to do so on or before April 30, after which date, if received at all, bonds deposited will be subject to such terms as may be prescribed.

**Listing.**—On the New York Stock Exchange have been listed \$4,132,000 J. P. Morgan & Co. engraved certificates of deposit for consolidated 5s. Said receipts bear stamped upon them the following, which refers to the purchase of the March coupon:

J. P. Morgan & Co. have advanced to the holder hereof in cash the sum of \$25 on each \$1,000 of bonds herein receipted for, pursuant to their notice of Feb. 25, 1897.—V. 64, p. 663.

**Consolidated Kansas City Smelting & Refining Co.—Listing.**—On the New York Stock Exchange has been listed \$350,000 additional 7 per cent cumulative preferred stock, making total amount on list to date \$871,325.—Vol. 63, p. 32.

**Diamond Match Co.—Official Circular as to English Deal.**—A circular issued by the company at Chicago calls for deposits of stock under the English agreement, saying:

To the stockholders of the Diamond Match Co.—Contracts have been closed for the introduction to England of the valuable machinery the patents of which are owned by this company, and negotiations are pending for the further introduction of such patents throughout the Continent of Europe, the result of which will effect a substantial increase in the earnings of this company. The execution of these contracts will be greatly facilitated by procuring the deposit of a large amount of the stock of this company with the Illinois Trust & Savings Bank, as trustee, with power of sale on or before Nov. 1 next at \$165 per share, in pursuance of the terms of an agreement entered into by a large number of shareholders of this company under date of February 15, A. D. 1897. It is important that this stock should be so deposited with the trustee prior to May 1 next, and, therefore, the directors have deemed it advisable to submit the matter to the shareholders by this circular letter.—V. 64, p. 707.

**East Penn Traction Co.—Bonds Offered.**—Subscription books opened April 15 at the Treasurer's office, 303 Bourse Building, Philadelphia, and at the Yardley (Pa.) National Bank, to the first mortgage 5 per cent gold bonds of the company, carrying a bonus of 50 per cent in full paid capital stock. Terms, 10 per cent on subscription and 15 per cent each thirty days until paid.—V. 61, p. 707.

**Indian Springs & Florida.—Sale Postponed.**—The sale of this three-mile Georgia road, which was to have taken place on March 23, has been postponed one year. Mr. W. E. Smith is now receiver.

**Jacksonville Tampa & Key West RR.—Foreclosure Suit under First Mortgage Filed.**—The Mercantile Trust Co. of New York, trustee under the J. T. & K. W. first mortgage, filed at Jacksonville, on the 9th inst., a petition for foreclosure. This action is thought to be merely for the purpose of preserving rights. The postponed sale under the consol. mortgage is set for May 24.—V. 64, p. 717.

**Joint Traffic Association.—Resolution to Continue Association.**—At a meeting of the board of control in this city on April 13, thirty of the thirty-two roads being represented, addresses were made upon the scope and bearing of the Trans-Missouri decision and the Government appeal against the decision of the United States Circuit Court of Appeals in favor of the Joint Traffic Association. The speakers were James C. Carter, Edward J. Phelps and Senator George F. Edmunds.

A resolution was then passed to maintain the work of the Association as heretofore. An official announcement regarding this made at the close of the meeting is as follows:

"The presidents of the board of control being in session to-day, with counsel, and the board of managers being also in attendance, the following resolution was adopted by the board of control:

"Resolved, That after hearing the opinion of counsel, and acting under their advice as to the validity of our articles of Association and the conduct of our business under it pending the final decision by the Supreme Court, we, the members of this Association, believing that under our agreement we are acting in the public interest, that we are conserving and protecting the inter-State commerce of the country from demoralization fatal to legitimate business and its prosperity, and that we are carrying out and enforcing the letter and spirit of the Inter-State Commerce Act, hereby pledge ourselves to maintain and carry out the provisions of the articles of organization of the Joint Traffic Association.

"Thereafter, upon motion, all pending questions relating to rail-and-lake and all-rail rates were referred to the board of managers, with a request that they take action under the scope of the foregoing resolution.

"In addition thereto the commissioner was requested to refer the majority and minority reports relating to the dimensions of freight car equipment to the American Railway Association. This subject has been under discussion for three years, the object being to secure uniformity in the facilities of shippers."—V. 64, p. 707.

**Kansas City Pittsburg & Gulf RR.—Steamship Connection.**—This company, it is stated, has made an arrangement with the Mallory Steamship Co. for a through service between Kansas City and New York, New England and Atlantic coast points, via the Kansas City Pittsburg & Gulf to Texarkana, the International & Great Northern to Galveston and the Mallory Line.—V. 64, p. 664.

**Kings County Elevated RR.—Brooklyn Elevated RR.—Resignation of Gen. Jourdan.—Talked of Union.**—Gen. James Jourdan has announced his intention to retire at an early day from the receivership of the Kings County Elevated RR, saying the position was taken with the understanding that his service should be only temporary. His resignation accords with the belief of many persons that the plan for uniting the two elevated systems in Brooklyn, by lease or otherwise, is likely soon to be carried out.—V. 64, p. 373, 706.

**Lehigh Valley R. R.—Completion of the Sale of Bonds to Drexel & Co.**—The completion of the sale to Drexel & Co., in connection with J. P. Morgan & Co., of \$5,000,000 new mortgage and collateral trust bonds, under the conditional agreement of a month ago (see V. 64, p. 517), was officially announced on Monday. The new bonds are 5 per cent gold bonds, running 100 years but subject to call at 107½. The proceeds of the \$5,000,000 bonds sold will be used to pay off the floating debt and to provide working capital. Provision is made in the mortgage for a further issue of \$3,000,000, as needed for improvements and equipment, in the next two or three years, and also for \$1,000,000 a year, for seven years after 1900, for new construction, &c., all of the new property to come under the mortgage. The total authorized issue is therefore \$15,000,000.

One condition of the agreement thus consummated was that an examination of the accounts of the company should be made by Expert Accountant Stephen Little. Mr. Little's report now submitted shows no misrepresentations on the part of the company, though he makes some changes in the method of stating the accounts. The floating debt as determined by him was not in excess of the amount stated by the accountant of the company.

With the purchase of the bonds above mentioned Drexel & Co. and J. P. Morgan & Co. secure the voting power for a term of years on the Lehigh Valley stock owned by the Packer estate, which is believed to amount to about 150,000 shares.

No changes in the board of directors or the officers have yet been made, but it is understood that some are contemplated. Several of the officials have reached an age which makes them anxious to retire from active business life, they having remained with the property of late only at the urgent solicitation of parties interested in it.—V. 61, p. 517.

**Long Island RR.—Improvements.—No Immediate Prospect of Dividends.**—The following statement from the "Brooklyn Eagle" is of interest relative to the improvements in progress and the prospects for dividends:

"The managers are making rapid progress in ballasting the track with cinders, and it is hoped to have the worst sections of the road finished before summer travel begins. About half a mile a day is being finished, and the work is to be continued at that rate until over two hundred miles are put in proper condition. This outlay will cost the road not less than \$200,000. The company is increasing the use of hard coal as fuel and half the engines are now using hard coal. The total mileage under next summer's time table will be 25,600 miles per month over that of any previous summer time table of the road. One of the directors said:

"We are going to run the road for some years with the idea of building up Long Island and the future business of the road and the earning of immediate dividends will not be taken into consideration. The road is to be run on a large and liberal plan, with the idea of making Brooklyn and the rest of Long Island what they should be, prosperous sections of the great city of New York and thriving suburbs."

"Immediately upon the passage of the Atlantic Avenue Improvement bill and its enactment into a law, the Tunnel Company will be fully organized, capital subscribed and the work will be undertaken as speedily as possible. President Baldwin says that the work of depressing the tracks of the railroad on Atlantic Avenue will proceed concurrently with the construction of the tunnel.

"Mr. Baldwin denied the rumor that the Long Island Railroad had taken any steps looking toward the purchase of the Kings County Elevated Road or any trolley lines."—V. 64, p. 517.

**Louisville New Albany & Chicago Ry.—Final Installment Payable April 15.**—The fifth and final cash payment of 20 per cent on the old common and preferred stock deposited under the plan will be due and payable on April 15, being \$150 on each 100 shares of old preferred stock and \$50 on each 100 shares of old common stock.—V. 64, p. 664.

**Mexican National Railway, Limited.—Dividend on A. Certificates.—Deposits Subject to Penalty.**—This depository company from the money received for interest on the Mexican National RR. "A" bonds held by it paid on April 6 a dividend at the rate of \$2 7/8, 41 per cent upon its "A" certificates. Hereafter bondholders desiring to convert their Mexican National Railroad second mortgage "A" and "B" bonds into the certificates of the company must deposit them at the office, 13 and 14 Cornhill, E. C., and pay a penalty at the rate of 20s. per \$1,000 bond, in addition to the assessment provided for in the scheme.—V. 63, p. 1115.

**Newark & Granville Electric Street Ry.**—The Equitable Trust Co., of Chicago, has filed a cross petition in the United States Circuit Court at Columbus, O., in the suit of Reinhart & Scheidler vs. the Railway Company, maintaining that it holds a mortgage on the property to its full value and asking for a receiver.—V. 63, p. 652.

**New York Central & Hudson River RR.—New York & Harlem RR.—Refunding Plan.**—The directors of these companies on Wednesday entered into a contract with J. P. Morgan & Co. of New York and J. S. Morgan & Co. of London for the conversion of their outstanding bonds into new gold bonds running for 100 years and bearing 3½ per cent interest. The New York & Harlem stockholders will meet on May 18 and the New York Central stockholders on May 26 to ratify the action of the directors.

The New York Central will make a new loan for \$100,000,000, of which \$15,000,000 will be reserved for new construction after 1903. The remaining \$85,000,000 will be used to take up the existing bonds and any part of this amount not so used will be sold for cash. The New York & Harlem bonds will be for the present amount, viz., \$12,000,000. The two new loans together will, therefore, aggregate \$112,000,000.

The bonds to be offered the privilege of exchange are as follows:

New York Central—	Rate.	Due.	Amount.
First mortgage.....	7	Jan. 1, 1903.....	\$30,000,000
First mortgage, sterling ..	6	Jan. 1, 1903.....	9,733,333
Debt certificates.....	4	May 1, 1905.....	6,450,000
Debentures.....	5	Sept. 1, 1904.....	11,000,000
Debentures.....	4	June 1, 1905.....	13,194,000
Total.....			\$70,377,333
N. Y. & Harlem consol.....	7	May 1, 1900.....	12,000,000
Grand total.....			\$82,377,333

The annual interest on the New York Central bonds at present outstanding is \$4,153,776. Interest on \$35,000,000 3½ per cent bonds will be \$2,975,000. The saving in interest will thus be \$1,178,776 per annum. The annual interest on the present New York & Harlem bonds is \$340,000. Interest on the 3½ per cent bonds will be \$420,000, a saving of \$120,000. The saving in interest for both the New York Central and the Harlem roads will be \$1,598,776 a year.

The terms of the conversion of the New York Central and the Harlem bonds will be announced later. The new bonds will constitute a first lien on both properties.

The new 3½ per cent bonds of the Lake Shore & Michigan Southern Railway—the amount being \$50,000,000—are issued at 102½, and the old bonds are accepted on a 3½ per cent basis. It is supposed the New York Central and the New York & Harlem bonds will be issued on about the same terms.—V. 64, p. 664.

**New York Stock Exchange.—Resolutions Adopted by Governing Committee.**—The Governing Committee of the New York Stock Exchange this week adopted the following:

**Resolved,** That transacting or offering to transact business in grain, produce, cotton or other commodities without commission, or for a nominal commission, by any member of this Exchange or firm represented therein, for a customer dealing in securities dealt in at the Exchange, is a method or arrangement for rebatement of commissions and is a violation of the commission law.

**Resolved,** That giving or offering to give reciprocal business in grain, produce, cotton or other commodities dependent upon the amount of Stock Exchange business received is a method or arrangement for rebatement of commissions, and is a violation of the commission law.

**Oregon Short Line & Utah Northern Ry.—Decrease Value of Utah Southern Bonds.**—The Special Master announces that there is due from the foreclosure sale of Jan. 9 to holders of Utah Southern general mortgage bonds the amount of \$499.08 per bond and to holders of Utah Southern extension bonds \$499.10 per bond. These amounts will be paid at the Guar-

anty Trust Co. on May 15, or as soon thereafter as warrants can be obtained from the Court.—V. 64, p. 664.

**Owensboro Falls of Rough & Green River RR.—Illinois Central RR.—Purchase at Foreclosure Sale.**—At the foreclosure sale in Owensboro, April 9, the Owensboro Falls of Rough & Green River RR. was purchased in the interest of the Illinois Central RR. Co. for \$150,000. The Owensboro road is 42 miles long, and control of it was secured by the Illinois Central in connection with its purchase of Chesapeake Ohio & Southwestern securities in 1893.—V. 64, p. 84.

**Peoria & St. Louis Ry.—Sale of Bonds.—Construction.**—In reply to our letter of April 8, inquiring as to the truth of the newspaper statement that he had placed \$3,000,000 of bonds in Paris, Contractor D. L. Wing writes:

The facts as given are practically true, except in the amount of the bonds that I succeeded in placing in Paris. The amount of the issue is \$1,100,000. The survey and location are all complete, the work having been begun last August and has been continued from that time up to this date. Last fall about 17 miles of grading was completed and one mile of track was laid before the cold weather set in. During the winter nearly all the right of way has been secured, the bridge timbers have been ordered to, and as soon as the weather will permit, active operations in grading, track-laying, etc., will begin again.

The road is projected from Peoria to Springfield, Ill., a distance of 50 miles, and the authorized amount of the mortgage upon it is \$1,100,000. Whether or not this amount has all been placed does not seem clear.—V. 63, p. 560.

**Rapid Transit Underground RR. (New York City).—Incorporation.**—This company was incorporated at Albany, April 9, for the purpose of constructing a tunnel railroad in New York City from the City Hall Park to 155th Street, the incorporators and directors being: Carlton H. Reeve, Cornelius V. Sidell, John Bogart, John Acken, David L. Hough, John F. O'Rourke, Thomas Allen, and Robert H. Sherwood of New York City, and Nelson S. Easton of Summit, N. J. The length of the proposed road will be ten miles, and will commence at or near City Hall Park, running as follows:

Northerly under Park Row and Centre Street and through the block, to and under Reade Street, to New Elm Street; along the latter street to Spring Street and Marlon or Mutherry streets, thence northerly to Great Jones Street, thence northerly through Lafayette Place to Astor Place and Eighth Street, thence northerly through and under Ninth Street to Fourth Avenue, thence to Forty-second Street and over same to Grand Central Depot and beyond the depot to and along Broadway to Fifty-ninth Street, thence to Boulevard and Eleventh Avenue and along the same to One Hundred and Fifty-fifth Street.

That portion of the route between One Hundred and Twenty-fourth and One Hundred and Thirty-fourth streets on Eleventh Avenue shall be along the surface of the street.

It is said the road will be built "if the desired right is given to it according to the ideas of the Rapid Transit Commission."—V. 64, p. 611.

**Reading Company.—Fuller Statement of Earnings.**—The Reading management announces that "the accompanying detached statement of the business of the Philadelphia & Reading Railway Company and the Philadelphia & Reading Coal & Iron Company are furnished in response to several requests for this information." [The results of the business of the whole Reading system for February and the three months ending Feb. 28 were published by us last week, but the totals for the three months are here repeated. The figures for 1896, it should be understood, have been adjusted by the company to the 1897 basis.—EDS.]

PHILADELPHIA & READING RAILWAY CO.						
3 mos. to Feb. 28.	Gross earnings.	Net earnings.	Other income.	Equip'l. renewals.	Imp'ts. & renewals.	Bal., sur. for charges.
1897.....	\$4,657,791	\$2,111,604	\$85,455	\$125,954	\$7,124	\$2,068,661
1896.....	4,909,015	2,135,564	88,010	156,893	50,339	2,016,346

TOTAL SYSTEM NET INCOME AND CHARGES.						
3 mos. to Feb. 28.	Reading Co. Coal & Iron.	Railway Co.	Total.	Charges & taxes.	Balance, deficit.	
1897.....	\$70,983	\$279,750	\$2,068,681	\$1,454,914	\$2,325,900	\$470,064
1896.....	70,983	281,129	2,016,315	1,826,199	2,418,749	592,545

The fixed charges in the foregoing statement are given as they now stand. On completion of the reorganization the fixed charges and taxes will be reduced to \$725,000 per month, or \$2,175,000 for three months. The Reading System always shows small earnings in the winter months. The result this winter is better than it was a year ago. The largest earnings are in the autumn.—V. 64, p. 708.

**Savannah (Ga.) Traction—City & Suburban RR.—Fares Restored to Five Cents.**—These companies have raised their fares from three to five cents and are otherwise acting in such apparent harmony that it is thought in Savannah some plan for permanently uniting their interests must be in progress.—V. 64, p. 182, V. 60, p. 873.

**Summit Branch RR.—Foreclosure Sale July 13, 1897.**—The foreclosure sale of the property (excepting certain tracts of land released from the mortgage on March 20, 1896,) is advertised to take place at the Philadelphia Bourse July 13, 1897. The reorganization agreement as now at hand proves to be merely the plan published by us last December (V. 63, p. 1065,) excepting that the new mortgage is to be for \$1,400,000 of which \$325,000 is to remain in the treasury. The authorized capital stock will be \$1,500,000 in \$50 shares. The Pennsylvania RR., it is provided, shall deposit its 43,804 shares of old stock, and in common with the other stockholders pay the assessment of \$3 per share (or \$9 per share of new stock received, the exchange being three for one). To participate in the reorganization bonds and stock must be deposited with the Girard Life Insurance Annuity & Trust Co. of Philadelphia by May 7, 1897. Assurances of assent of practically total issue of bonds have been received.—V. 64, p. 708.

For other investment items see page 758.

## Reports and Documents.

### CHICAGO BURLINGTON & QUINCY RR. CO.

FORTY-THIRD ANNUAL REPORT—FOR THE YEAR  
ENDING DECEMBER 31, 1896.

CHICAGO, March 17, 1897.

To the Stockholders of the Chicago Burlington & Quincy  
Railroad Company:

Your Directors submit the following report of the opera-  
tions of the Company for the year ending December 31, 1896:

#### EARNINGS AND EXPENSES.

The Gross Earnings of the Company, including those of  
all leased and controlled railroads, have been:

From Freight	\$22,423,210 77
From Passengers	7,457,301 56
From Mail, Express and Miscellaneous	1,100,114 89
	\$31,176,456 22

The Expenses have been:

Operating Expenses	\$21,135,800 84
Taxes	1,524,670 70
	22,660,471 54

Net Earnings from Operating..... \$11,515,984 68

Add for—

Other Income and Interest	\$353,740 05
Net Receipts of B. & M. R. RR. in Ne- braska and H. & St. J. RR. Land De- partments for the year	31,583 35
	390,323 40

Total Net Receipts..... \$11,906,308 08

Charges have been as follows:

Interest on Bonds	\$8,252,778 08
Rent of Trunk and Depots	409,275 15
Sinking Funds	777,784 56
	9,439,837 79
	\$2,166,470 29

Dividends have been paid as follows:

March 16, 1896, 1 per cent	\$820,027 00
June 15, 1896, 1 per cent	820,028 00
September 15, 1896, 1 per cent	820,028 00
December 15, 1896, 1 per cent	820,028 00
	3,280,111 00

Deficit for the year..... \$813,640 71

#### 1896 COMPARED WITH 1895.

Gross Earnings from Operating in 1896	\$31,176,456 22
Gross Earnings from Operating in 1895	33,658,270 86

Increase in 1896..... \$518,185 36

Operating Expenses and Taxes in 1896	\$22,660,471 54
Operating Expenses and Taxes in 1895	22,495,661 68

Increase in 1896..... \$164,809 86

Net Earnings from Operating in 1896	\$11,515,984 68
Net Earnings from Operating in 1895	11,162,609 18

Increase in 1896..... \$353,375 50

Percentage of Operating Expenses (including Taxes) to Gross Earnings in 1896	66.30
Percentage of Operating Expenses (including Taxes) to Gross Earnings in 1895	66.84

Decrease in 1896..... 0.54

Total number of Passengers carried one mile in 1896, exclusive of Free Mileage	324,553,945
In 1895	346,882,518

Decrease in 1896..... 22,328,603

Gross Earnings from Passengers in 1896	\$7,457,301 56
Gross Earnings from Passengers in 1895	7,791,303 74

Decrease in 1896..... \$339,002 18

Gross Earnings per Passenger per mile in 1896	2.28 cents
Gross Earnings per Passenger per mile in 1895	2.23 "

Increase in 1896..... 0.05 cents.

Miles run by Passenger Trains in 1896 (standard gauge)	10,114,275
Miles run by Passenger Trains in 1895 (standard gauge)	9,884,385

Increase in 1896..... 229,890

Miles run by Passenger Trains per mile of Road oper- ated in 1896 (standard gauge)	1,409
In 1895 (standard gauge)	1,377

Increase in 1896..... 32

Total number of Tons of Freight carried one mile in 1896	2,577,655,320
In 1895	2,447,206,138

Increase in 1896..... 130,449,182

Gross Earnings from Freight in 1896	\$22,423,210 77
Gross Earnings from Freight in 1895	21,602,241 37

Increase in 1896..... \$820,969 40

Gross Earnings per ton per mile in 1896	0.861 cents.
Gross Earnings per ton per mile in 1895	0.874 "

Decrease in 1896..... 0.014 cents.

Miles run by Freight Trains in 1896 (standard gauge)	15,507,091
Miles run by Freight Trains in 1895 (standard gauge)	15,001,929

Increase in 1896..... 445,162

Miles run by Freight Trains per mile of road operated in 1896 (standard gauge)	2,160
In 1895 (standard gauge)	2,098
Increase in 1896	62

NOTE.—The Earnings and Expenses of all roads owned or con-  
trolled by the C. B. & Q. RR. Co. are included in the foregoing; but the  
tons and passengers carried one mile do not include those of the nar-  
row-gauge roads, for which no such statistics are kept. In figuring the  
earnings per ton and per passenger per mile, the freight and passen-  
ger earnings of the narrow-gauge roads have therefore been excluded.

#### CAPITAL STOCK.

The Capital Stock of the Chicago Burlington & Quincy  
Railroad Company on December 31, 1895,

was.....	\$82,002,700 00
C. B. & Q. stock issued during the year in ex- change for B. & M. R. RR. (Iowa) stock sur- rendered	100 00

Total Capital Stock of C. B. & Q. RR. Co.,  
December 31, 1896..... \$82,002,800 00

Capital Stock of the Burlington & Missouri  
River RR. Co. (Iowa) on December 31, 1895,  
outstanding was..... \$1,500 00

Less amount converted into C. B. & Q. stock  
during the year..... 100 00 1,400 00

Aggregate of Capital Stock on Dec. 31, 1896.. \$82,004,200 00

NOTE.—The C. B. & Q. RR. Co. owns and holds in its Treasury almost  
all of the capital stock of the railroad companies controlled by it. For  
a detailed statement of the amount of such stock outstanding and the  
amount owned by the C. B. & Q., see page 48 of pamphlet.

#### FUNDED DEBT.

The Funded Debt of the Chicago Burlington & Quincy  
Railroad Company on December 31, 1895,

was..... \$127,152,900 00

There were issued during the  
year Bonds as follows:

C. B. & Q. Consol. Mortgage 7 p. c. Bonds of 1903 sold	\$2,247,000
Do. issued for Scrip sur- rendered	3,000
	\$2,250,000 00

C. B. & Q. Iowa Div. 4 p. ct. Bonds of 1919 sold	1,000,000 00
---	--------------

The reductions during the year  
were as follows:

Bond Scrip exchanged for C. B. & Q. Consol. Mort. 7 per cent Bonds of 1903 and canceled	\$3,000 00
--	------------

Paid at maturity:

Nebraska Railway 7 per ct. Bonds of 1896	349,000 00
Omaha & Southwestern RR. 7 per ct. Bonds of 1896	669,000 00

Purchased for Sink.

Funds and canceled:

C. B. & Q. 5 per cent Bonds of 1919 (Iowa Division)	42,000 00
C. B. & Q. 4 per cent Bonds of 1919 (Iowa Division)	189,000 00
C. B. & Q. 4 per cent Bonds of 1927 (Nebraska Ext.)	321,000 00
	1,573,000 00

Net Increase of Funded Debt during the year..... 1,677,000 00

Total Funded Debt of the C. B. & Q. RR. Co. on  
December 31, 1896..... \$128,829,900 00

Outstanding Funded Debt of controlled railroad  
companies on Dec. 31, 1896 (being the amount not  
owned by the C. B. & Q. RR. Co.), was..... 24,259,000 00

Total outstanding Funded Debt of the whole system  
on December 31, 1896..... \$153,088,900 00

#### LENGTH OF ROAD.

The number of miles of Road owned and leased by the Com- pany, including all Branches, on Dec. 31, 1895, was	5,564.87
Add, for mileage leased and operated jointly with other Com- panies and Roads for which a fixed yearly rental is paid	165.67

Total number of miles operated by the Company Decem-  
ber 31, 1895, as stated in the last Annual Report... 5,730.54

There were added during the year:

#### IN IOWA.

The Humeston & Shenandoah Railroad, leased to this Company under date of May 1, 1896	112.53
Less the mileage of the Moulton & Albion RR., Albion to Moravia, which this Company has ceased to operate	11.50
	101.03

#### IN ILLINOIS AND MISSOURI.

During the year arrangements have been made under which this Company's Passen- ger trains are run from East Alton, Ill., over the Alton Bridge and the St. L. K. & N. W. RR. to St. Louis, Mo.	26.86
Add for increase in mileage due to small changes in tracks and re-measurements	1.42

Net increase in mileage during the year... 129.31

Total number of miles operated by the  
Company December 31, 1896... 5,859.85

#### DIVIDED AS FOLLOWS:

Number of miles of road owned and leased by the Company, including all Branches	5,652.62
Number of miles of leased road operated jointly with other Companies, and that for which a fixed yearly rental is paid	207.23
	5,859.85

<i>Brought forward</i> .....	5,599.85
Number of miles of standard gauge road operated by railroad companies controlled by the C. B. & Q. RR. Co. on Dec. 31, 1896....	1,438.99
Total.....	7,298.84
From which should be deducted for mileage operated jointly by two or more companies in the System, and which is therefore duplicated above.....	118.72
Making the total standard gauge mileage operated by the whole System on Dec. 31, 1896.....	7,180.12
The average number of miles operated by the System during 1896 was.....	7,180.12
NOTE.—For details of the above mileage, see pages 49 to 54 of pamphlet. In addition to the above standard gauge mileage the Chicago Burlington & Quincy RR. Co. controls 178.87 miles of narrow gauge road.	

## LENGTH OF SECOND TRACK.

## CHICAGO BURLINGTON &amp; QUINCY RAILROAD COMPANY.

No Second Track was built during the year.	
The number of miles of Second Track on Dec. 31, 1896, was:	Miles.
In Illinois.....	204.01
In Iowa.....	88.61
In Nebraska.....	4.75
Total.....	297.37
Length of Second Track on standard gauge controlled roads, December 31, 1896, was:	
In Missouri.....	25.97

## CONSTRUCTION AND EQUIPMENT.

## EXPENDITURES.

There was expended for Construction during the year on the Ch. Bur. & Quincy RR. and Branches in Illinois and Iowa:	
For New Viaduct at Hawthorne, Ill.....	\$35,319.53
For Land at Chicago.....	110,613.46
For Land at Rock Island.....	62,229.00
	\$208,191.99
Less Miscellaneous Credits.....	125.23
	\$208,066.76

## On the Burlington &amp; Missouri River Railroad in Nebraska and Branches:

For Land and Right of Way.....	\$8,418.85
For New Fences.....	15,194.75
For Nebraska City Bridge.....	12,045.85
For New Side Tracks.....	2,754.27
For New Bridging.....	12,447.48
For New Ballast.....	49,018.45
For Interlocking Plants at Grand Island and Denver.....	2,979.13
For Miscellaneous Construction.....	2,092.33
	104,981.11
	\$313,048.87

Deduct for excess of Premium over Discount on Bonds sold, and excess of Discount over Premium on Bonds purchased for Sinking Fund and canceled.....	325,018.89
Net amount credited to Construction Account in 1896.....	\$11,974.02
The cost of Equipment paid for during the year was.....	762,178.86
Net amount charged Construction and Equipment Accounts in 1896.....	\$50,204.84

## There was expended for Construction during the year on the standard gauge roads controlled by the Chicago Burlington &amp; Quincy RR. Company:

For New Ballast.....	\$108,427.42
For New Tracks.....	25,635.81
For New Bridging.....	13,042.11
For New Ritrapping.....	10,000.00
For Land and Right of Way.....	2,450.87
	\$159,556.21
Less Miscellaneous Credits.....	2,448.18
	\$157,108.03
The cost of Equipment paid for during the year was.....	85,370.66
	\$242,478.69

## There was expended for Construction during the year on the narrow gauge roads controlled by the Chicago Burlington &amp; Quincy RR. Company:

For New Side Tracks.....	\$7,381.23
For New Buildings and Water Works.....	988.99
For New Fencing.....	848.24
For Miscellaneous Construction.....	113.40
	\$9,331.86
The cost of Equipment paid for during the year was.....	8,445.19
	\$17,777.05

## EQUIPMENT.

## There were added to the Equipment of the Chicago Burlington &amp; Quincy Railroad Company during the year, Engines and Cars built or purchased, as follows:

Engines.....	4	Box and Stock Cars.....	1,232
And for Equipment acquired by the lease of the Humeston & Shenandoah Railroad:			
Engines.....	17	Way Cars.....	3
Passenger and Combination Cars.....	556	Box and Stock Cars.....	399
Baggage, Mail and Express Cars.....	3	Coal and Flat Cars.....	40
	2		

## The Equipment at the end of the year is as follows:

Engines.....	891	Officers' and Pay Cars.....	10
Passenger and Combination Cars.....	556	Way Cars.....	399
Baggage, Mail and Express Cars.....	187	Boarding Cars.....	15
Dining Cars.....	10	Wrecking Cars.....	9
		Box and Stock Cars.....	21,992
		Coal, Flat and Ore Cars.....	6,940

## There were added during the year to the Equipment of the standard gauge railroad companies controlled by the Chicago Burlington &amp; Quincy Railroad Company:

Box Cars.....	33
---------------	----

## The Equipment at the end of the year is as follows:

Engines.....	214	Way Cars.....	110
Passenger and Comb. Cars.....	108	Boarding Cars.....	2
Baggage, Mail and Exp. Cars.....	46	Wrecking Cars.....	6
Dining Cars.....	4	Box and Stock Cars.....	5,417
Officers' and Pay Cars.....	5	Flat and Coal Cars.....	1,624

## There was added during the year to the Equipment of the narrow gauge railroad companies controlled by the Chicago Burlington &amp; Quincy Railroad Company:

Engines.....	1
--------------	---

## The Equipment at the end of the year is as follows:

Engines.....	18	Way Cars.....	2
Passenger and Combination Cars.....	17	Wrecking Cars.....	3
Baggage, Mail and Exp. Cars.....	3	Box and Stock Cars.....	316
		Flat, Coal and Ore Cars.....	264

## GENERAL REMARKS.

The actual length of standard gauge road operated by the Chicago Burlington & Quincy Railroad Company and controlled companies on December 31, 1896, was 7,180 miles, the same as on December 31, 1895.

The average number of miles of standard gauge road operated by the Chicago Burlington & Quincy Railroad Company and controlled companies in 1896 was 7,180 miles, the same as in 1895. The gross earnings per mile of road operated were \$4,731.26 in 1896, against \$1,663.60 in 1895. The operating expenses, including taxes, per mile, in 1896, were \$3,131.83, against \$3,110.29 in 1895. The percentage of operating expenses, including taxes, to gross earnings, in 1896, was 66.19, against 66.69 per cent in 1895.

The number of tons moved one mile on the standard gauge roads increased 533-100 per cent as compared with 1895; while freight earnings increased 366-100 per cent. Passengers carried one mile decreased 644-100 per cent, while passenger earnings decreased 436-100 per cent. The percentage of operating expenses to gross earnings decreased one-half of one per cent.

The corn crop of 1896 was larger even than that of 1895, the Government estimate being 2,283,875,165 bushels, against 2,151,138,580 bushels in 1895, for the whole country. The five States of Illinois, Iowa, Nebraska, Missouri, and Kansas harvested, in 1896, 1,329,391,596 bushels, as compared with 1,122,156,267 bushels the year before. The extremely low price of corn has held back shipments.

There has been paid in dividends to the stockholders during the year, \$813,640.71 in excess of the net earnings, which is taken from the accumulated surplus of the past.

Sinking funds have increased during the year \$1,255,938.34, of which sum \$777,784.56 was paid directly from the earnings of the year, and the remainder, \$478,153.78, was the accumulation of interest on bonds held in the funds. This sinking-fund increase was used in purchasing \$1,598,100 bonds, of which \$552,000 bonds were canceled, and \$1,046,100 remain uncanceled in the sinking-fund investments.

The directors will lay before the stockholders at the annual meeting in May a proposal to change the fiscal year, so as to make it begin July 1 and end June 30. This is done principally for the sake of convenience in making up the various reports required by National and State boards, most of which are for the fiscal year ending with June. The proposed change, if adopted, will involve holding another stockholders' meeting this year, in November, and the annual meeting thereafter in November instead of in May.

For further details relating to the affairs of the company reference is made to the Report of the Treasurer and following statements.

By order of the Board of Directors,  
CHARLES E. PERKINS, President.

## GENERAL ACCOUNT.

## THE CHICAGO BURLINGTON &amp; QUINCY RAILROAD COMPANY IN GENERAL ACCOUNT DEC. 31, 1896.

**Raleigh & Gaston R.R.—Seaboard & Roanoke R.R.—New First Mortgage Bonds—Refunding Notice.**—The Mercantile Trust & Deposit Co. of Baltimore has purchased \$1,200,000 Raleigh & Gaston first mortgage fifty-year 5 per cent gold bonds, dated Jan. 1, 1897, due Jan. 1, 1947, and offers to holders of the existing 8 per cent bonds the opportunity until July 1, 1897, "to exchange same at par for a like amount of the new issue, adjusting interest to date of exchange, and paying in cash the difference between 5 per cent and 8 per cent to Jan. 1, 1898, the maturity of the present 8 per cent bonds, which is equivalent to a cash bonus of \$3 per bond."

The total issue of this mortgage is \$1,500,000 of which \$1,200,000 are to be issued at present, the bonds being authorized for the following purposes:

To retire the present 8 per cent bonds.....	\$1,000,000
For betterments, materials and supplies.....	200,000
Not to be issued for at least three years without the consent of the Mercantile Trust & Deposit Company of Baltimore, Trustee, and then only for betterments, supplies, etc., in like manner as above \$200,000.....	300,000

The net earnings which in 1896 were \$242,013 have averaged during the past six years over \$210,000, while the interest charge on \$1,200,000 new 5s will be \$60,000, against \$90,000, as at present.

**Judge Hughes's Decision.**—Owing to an error in the press dispatches a slight inaccuracy appeared in our item of last week regarding Judge Hughes's decision. The plaintiff in the suit was not the Mercantile Trust & Deposit Co. of Baltimore but two other trust companies of that city, one of which was the Baltimore Safe Deposit & Trust Co., acting as mortgage trustees or as holders of bonds of the Seaboard Air Line system, Atlantic Coast Line and Southern Railway. The bill made defendants the Seaboard & Roanoke R.R. and various roads connected with the Atlantic Coast Line Co. and Southern Railway systems. When the bill was filed a temporary restraining order was issued to prevent the cutting of rates. Judge Hughes in his present decision concludes that he cannot make the order permanent, and in effect therefore, as said last week, dissolves the injunction.—V. 64, p. 470, 1708.

**Union Pacific Ry.—Majority of Collateral Trust Gold Note 6s of 1891 Deposited.**—Penalty after April 30.—J. P. Morgan & Co. announce that a majority of the collateral trust gold notes 6s of 1891 has been deposited under the terms of the agreement of Feb. 25 last, and that all holders who desire to become parties to said agreement must deposit their notes not later than April 30, after which notes, if received at all, may be subject to penalty.—V. 64, p. 713.

**Western Union—American Bell Telephone.**—"Stock Ticker" Case—Petition by the Western Union for a Writ of Certiorari Denied.—The United States Supreme Court at Washington, April 12, in the "Stock Ticker" case, denied the petition for a writ of certiorari asked by the Western Union against the American Bell Telephone Co. George H. Fournes, attorney for the Western Union Telegraph Company, says:

This is the old suit brought about twelve years ago against the American Bell Telephone Co. under the contract of July 10, 1879, for a percentage of the royalties received by the Bell Company from its lesser companies for the privilege of doing a telephone business. The case was decided against the plaintiffs, of whom there were several, including the Western Union. The Western Union Telegraph Co. moved to dismiss the action, but the Court refused to do so, and the plaintiffs carried the case to the United States Supreme Court. The decision is relatively unimportant, and was virtually decided about eight years ago.

The "New York Tribune" adds by way of explanation:

For two years prior to Nov. 10, 1879 the Western Union, through the American Speaking Telephone Company, had been engaged in telephone business. On the date named the Western Union and the Bell companies made a contract by which the Western Union confined itself to the telegraphic field and the Bell company restricted itself to the telephone business. Under this contract the Western Union, through the American Speaking Telephone Company, received 20 per cent of the telephone rentals of local concerns. In 1884 the claim was made that this agreement gave to the Western Union 20 per cent of the stock of the various local companies. It is this claim that has been decided in favor of the Bell Telephone Company.—V. 64, p. 706, 518.

## The Commercial Times.

## COMMERCIAL EPITOME

FRIDAY NIGHT, April 16, 1897.

Although to-day, Good Friday, was not a legal holiday in this State, it was generally observed as such, exclusive of banking circles. All the principal commercial and financial Exchanges of the country adjourned for the day, and some will continue closed until Monday. Naturally this has had a tendency to interrupt business to an extent. However, trade generally has continued in an unsettled condition, awaiting a more definite outlook relative to the tariff legislation. The political situation in the Far East has been more of a factor during the past week and has had considerable influence upon the course of prices, particularly in the grain markets. Reports from the Mississippi Valley indicate that the worst of the flood is over, but the outlook is still threatening, as apprehension is felt over the weak spots in the levees on the lower Mississippi River. Press dispatches report that peace negotiations are under way between Cuba and Spain, with this country acting as a mediator. The Greater New York bill has been passed over the veto of the Mayor of New York and is awaiting the signature of the Governor.

There has been only a limited inquiry for lard on the spot, as neither shippers nor refiners have been buyers. Off-rings, however, have not been large and prices have improved slightly with futures, closing at 4'42½c. for prime Western, 3'95c. for prime City and 4'70c. for refined for the Continent. No business has been transacted in the local market for futures, but at the West the trading has been moderately active, and on a demand from packers, stimulated by only moderate receipts of swine, and in sympathy with the advance in the grain markets, prices have advanced, closing steady.

## DAILY CLOSING PRICES OF LARD FUTURES

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May.....	4'40	4'45	4'50	4'45	4'50	H'day.

Pork has had a limited sale but prices have advanced slightly closing firm at \$9@9 50 for mess, \$9 50@\$10 50 for short clear and \$9 50@\$10 50 for family. Cut meats have continued to sell slowly and prices have weakened slightly, closing at 5½¢@5½¢c. for pickled bellies, 12@10 lbs. average, 5@5½¢c. for pickled shoulders and 9@9½¢c. for pickled hams. Beef has had a moderate sale at steady prices, closing at \$7@8 for mess, \$7 50@9 for packet, \$9@11 for family and \$12 50@\$16 for extra India mess. Beef hams have been easier, closing at \$13. The demand for tallow has been quiet and prices have weakened to 3½¢c. Oleo stearine has also sold slowly and prices have declined to 4½¢c. Lard stearine has been dull and is quoted nominally at 4½¢c. Cotton seed oil has had only a limited sale but prices have improved slightly, closing at 20c. for prime crude and 22¼¢@23c. for prime yellow. Butter has been quiet and prices have weakened slightly, closing at 11@18c. for creamery. Cheese has had a fair sale at firm prices, closing at 9@12½¢c. for State factory, full cream. Fresh eggs have been steady for choice, closing at 9½¢@9¼¢c. for choice Western.

The Brazil growths of coffee were in increased demand during the latter part of the week, and yesterday prices advanced sharply, closing firm at 7½¢c. for Rio No. 7. Mild grades have continued to meet with a slow sale, but the close was quoted steady with good Cuenta at 14½¢c. and standard Java at 25c. There has continued a moderately active speculation in the market for contracts and prices have advanced 55@75 points on buying for European account, closing firm. The following were the final asking prices:

April.....	7'45c.	July.....	7'35c.	Oct.....	7'70c.
May.....	7'45c.	Aug.....	7'60c.	Nov.....	7'75c.
June.....	7'50c.	Sept.....	7'65c.	Dec.....	7'75c.

The demand for raw sugars has been dull and prices have weakened slightly, closing at 3 9-32c. for centrifugals, 96-deg. test, and 2 29-32c. for muscovado, 89-deg. test. Refined sugars have been slow and prices have declined, closing at 4½¢c. for granulated. Teas in moderate demand and steady.

Kentucky tobacco has been in fair export demand for Africa at firm prices. Sales 250 bbls. Seed lead tobacco has had only a limited sale, but prices have been firmly maintained. Sales for the week were 1,600 cases, including: 200 cases 1895 crop, New England Havana, 16@22½¢; 250 cases 1895 crop, Pennsylvania Havana, 12@13c; 350 cases 1895 crop, Pennsylvania seed leaf, 11@12½¢; 300 cases 1895 crop, Wisconsin Havana, 7½¢@10c; also 500 bales Havana at 80c. to \$1 18 in bond, and 200 bales Sumatra at 70c. to \$2 in bond.

There has been an easier turn to the market for Straits tin, owing to free arrivals from abroad, and prices have weakened slightly. The close was steady at 13'20@13'25c. There have been rumored large sales of ingot copper but at lower prices, closing at 11½¢@11½¢c. for Lake. Lead has had only a limited sale, and prices have weakened to 3 35@3 37½¢c. for domestic. Spelter has been dull and unchanged at 4'10@4'15c. for domestic. Pig iron has been dull and weak at \$10@12 for domestic.

Refined petroleum has been unchanged, closing at 6 05c. in bbls., 3'55c. in bulk and 6'50c. in cases; naphtha lower at 6c. Crude certificates have been neglected. Credit balances have been lowered to 8c. Spirits turpentine has continued in demand and prices have advanced slightly, closing firm at 29¼¢@30c. Rorica have been quiet but steady at \$1 65. Wool has been in less active demand but prices have held firm. Hops continued to sell slowly and prices have been weak.

## COTTON.

FRIDAY NIGHT, April 16, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 48,795 bales, against 46,639 bales last week and 54,237 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,406,548 bales, against 4,920,957 bales for the same period of 1895-6, showing an increase since Sept. 1, 1896, of 1,485,591 bales.

Total 1895...	40,532	3,967	37,860	15,522	97,381

A narrow and uninteresting market for cotton futures has ruled through the week. Speculation has been dull and confined almost exclusively to room traders, and the fluctuations in prices have been within a small range. Saturday there was an easier turn to the market, particularly for the new crop months, which were for foreign account, prompted by favorable conditions for planting, exclusive of the flooded district. The close was at a decline of 2 to 7 points for the day. Monday the new crop months opened at a further decline under continued foreign selling. Subsequently, however, foreigners turned buyers and the early loss was more than recovered, closing unchanged to 2 points higher for the day. There was a dull market on Tuesday, but as foreign advices came stronger, prices improved slightly and the close was unchanged to 2 points higher. Wednesday there was increased activity to the trading. Foreign advices were again stronger and this stimulated something of a demand from shorts to cover contracts and at the close prices showed an advance of 3 to 5 points for the day. Thursday there was a quiet market, the business of the day being largely confined to evening up contracts over the Easter Holidays as the Exchange adjourned from Thursday night until Monday morning. The opening prices showed a decline of 1 to 3 points, and during the day prices further weakened a point or two under liquidating sales by longs who were fearful of developments on the Turkish frontier over the Holidays. The close was barely steady at a decline of 3 to 4 points. Cotton on the spot has had only a limited sale but prices were held steady, closing unchanged at 7 7-16c. for middling uplands.

The total sales for forward delivery for the week are 299,000 bales. For immediate delivery the total sales foot up this week 2,910 bales, including 1,114 for export, 1,796 for consumption, — for speculation and — on contract. The following are the official quotations for each day of the past week—April 10 to April 15.

Rates on and off middling, as established Nov. 23, 1893, and revised Dec. 11, 1895, by the Revision Committee at which grades other than middling may be delivered on contract:

Fair	on.	Good Ordinary	off.
Middling Fair	on.	Good Middling Tinged	Even.
Strict Good Middling	on.	Strict Middling Stained	732 off.
Good Middling	on.	Middling Stained	38 off.
Strict Low Middling	off.	Strict Low Mid. Stained	252 off.
Low Middling	off.	Low Middling Stained	134 off.
Strict Good Ordinary	off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.						
	Sat.	Mon.	Tues.	Wed.	Th.	Fri.
Good Ordinary	61 1/16	61 1/16	61 1/16	61 1/16	61 1/16	Holiday.
Low Middling	71 1/16	71 1/16	71 1/16	71 1/16	71 1/16	Holiday.
Middling	71 1/16	71 1/16	71 1/16	71 1/16	71 1/16	Holiday.
Good Middling	73 1/16	73 1/16	73 1/16	73 1/16	73 1/16	Holiday.

The imports into Continental ports the past week have been 146,000 bales.

The above figures indicate a decrease in the cotton in eight to-night of 89,935 bales as compared with the same date of 1896, a falling off of 1,157,876 bales from the corresponding date of 1895 and a decrease of 320,309 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

Louisville...	7 1/8	7 1/8	7 1/8	7 1/8	7 1/8	7 1/8

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns.		
	1897.	1896.	1895.	1897.	1896.	1895.	1897.	1896.	1895.
Mar. 12.....	79,931	71,518	132,381	323,319	362,634	352,976	53,123	49,881	97,497
" 19.....	85,459	60,460	123,133	301,139	331,183	341,836	43,279	41,009	113,903
" 26.....	81,032	76,237	115,470	276,594	316,494	323,932	36,487	58,548	94,566
Apr. 2.....	54,237	60,202	118,767	259,050	293,922	276,916	38,603	37,630	93,751
" 9.....	46,639	57,967	93,523	232,170	290,927	247,849	19,759	44,912	65,456
" 16.....	48,795	40,076	80,617	204,020	263,609	212,773	20,645	22,758	45,541

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1896, are 6,488,974 bales; in 1895-96 were 5,151,866 bales; in 1894-95 were 7,673,363 bales.

2.—That although the receipts at the outports the past week were 48,995 bales, the actual movement from plantations was only 20,645 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 22,758 bales and for 1895 they were 45,541 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Apr. 16 and since Sept. 1 in the last two years are as follows.

April 16.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis.....	8,048	483,174	3,776	483,929
Via Cairo.....	2,600	250,468	1,424	222,061
Via Parker.....	550	15,777	171	16,074
Via Evansville.....	.....	2,554	1,602	1,681
Via Louisville.....	1,570	127,374	1,010	121,957
Via Cincinnati..	1,251	129,489	1,585	89,120
Via other routes, &c.....	893	112,301	942	81,885
Total gross overland.....	14,912	1,121,167	10,510	1,016,707
Deduct shipments—				
Overland to N. Y., Boston, &c..	1,793	293,443	6,859	245,404
Between interior towns.....	48	4,134	87	3,153
Inland, &c., from South.....	120	35,266	610	43,412
Total to be deducted.....	1,961	332,843	7,556	291,969
Leaving total net overland*..	12,951	788,324	2,954	724,738

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 12,951 bales, against 2,954 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 63,586 bales.

In Sight and Spinners' Takings.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Apr. 16.....	48,795	6,406,548	40,076	4,920,957
Net overland to Apr. 16.....	12,951	788,324	2,954	724,738
Southern consumption to Apr. 16	18,000	655,000	17,000	638,000
Total marketed.....	79,746	7,849,872	60,030	6,281,695
Interior stocks in excess.....	28,150	83,426	17,318	230,909
Came into sight during week.	51,596	.....	42,712	.....
Total in sight Apr. 16.....	.....	7,933,298	.....	6,512,604
North's spinners tak'g to Apr. 16	13,892	1,467,794	1,758	1,413,237

\* Decrease during week.

It will be seen by the above that there has come into sight during the week 51,596 bales, against 42,712 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,420,654 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph this evening from the South denote that the weather has been more favorable during the week and that planting is quite general outside of overflowed territory and has

\* This year's figures estimated.

The above totals show that the interior stocks have decreased during the week 28,150 bales and are now 59,539 bales less than at same period last year. The receipts at all the towns have been 6,414 bales more than same week last year and since Sept. 1 they are 836,138 bales more than for same time in 1895-96.

made good progress as a rule. It is, however, not so well advanced as usual at this season of the year. There have been several breaks in the levees along the Mississippi this week, but they have not involved extensive territory. The river has fallen somewhat at Memphis and Helena, and a gradual decline from now on is anticipated at those points. The danger is now to levees in Louisiana.

**Galveston, Texas.**—The week's weather has been exceptionally favorable for farm operations and cotton planting has been rushed. Should the weather continue an increase in cotton acreage is anticipated. Cool weather has checked growth of early-planted cotton over Central and Southwest-Texas. It has rained on one day of the week, the rainfall being eighty-seven hundredths of an inch. The thermometer has averaged 62, ranging from 50 to 75.

**Palestine, Texas.**—Prospects are good. Cotton is about all planted. There has been rain on one day during the week, the precipitation reaching forty-two hundredths of an inch. The thermometer has ranged from 40 to 79, averaging 60.

**Huntsville, Texas.**—We have had rain on one day during the week, the rainfall reaching forty-five hundredths of an inch. Average thermometer 60, highest 80, lowest 40.

**Dallas, Texas.**—Planting is being rushed. Rain has fallen on one day of the week, to the extent of forty-five hundredths of an inch. The thermometer has averaged 62, the highest being 86 and the lowest 39.

**San Antonio, Texas.**—Cotton planted is doing fairly well. It has rained heavily on one day of the week, the precipitation reaching one inch and twenty hundredths. The thermometer has averaged 62, ranging from 39 to 86.

**Luling, Texas.**—We have had rain on one day during the week, the rainfall being one inch and two hundredths. The thermometer has ranged from 45 to 87, averaging 65.

**Columbia, Texas.**—There has been rain on one day of the week, the precipitation being seventy-one hundredths of an inch. Average thermometer 65, highest 85 and lowest 45.

**Cuero, Texas.**—Rain has fallen on one day of the week, to the extent of sixty-seven hundredths of an inch. The thermometer has averaged 64, the highest being 86 and the lowest 41.

**Brenham, Texas.**—Rain has fallen on one day of the past week to the extent of fifty hundredths of an inch. The thermometer has averaged 61, ranging from 40 to 82.

**Fort Worth, Texas.**—We have had rain on one day of the past week, the rainfall reaching twenty-five hundredths of an inch. Average thermometer 60, highest 84 and lowest 34.

**Weatherford, Texas.**—There has been rain on one day during the week, to the extent of thirty hundredths of an inch. The thermometer has averaged 59, the highest being 81 and the lowest 35.

**New Orleans, Louisiana.**—It has rained on one day of the week, to the extent of seventy-four hundredths of an inch. The thermometer has averaged 66.

**Shreveport, Louisiana.**—It has rained on three days of the week, the precipitation being seven hundredths of an inch. The thermometer has ranged from 44 to 78, averaging 61.

**Columbus, Mississippi.**—Rain has fallen on one day of the week, to the extent of sixty-eight hundredths of an inch. Average thermometer 66, highest 86 and lowest 45.

**Leland, Mississippi.**—Telegram not received.

**Vicksburg, Mississippi.**—Rain has fallen on two days of the week, to the extent of two hundredths of an inch. The thermometer has averaged 60, ranging from 45 to 77.

**Little Rock, Arkansas.**—It has rained on four days of the week, the rainfall reaching two hundredths of an inch. The thermometer has ranged from 42 to 76, averaging 58.

**Helena, Arkansas.**—It has rained on five days of the week, on three of which heavily, the rainfall being three inches and seven hundredths. Light frost on Saturday. The river here has fallen fifty inches. The overflow is worse than in 1882 on the Arkansas side but not as bad on the Mississippi side. From the Arkansas River down on the west side land is dry. Average thermometer 53.7, highest 70 and lowest 39.

**Memphis, Tennessee.**—The river is thirty-five and eight-tenths feet on the gauge and stationary. It is expected that there will from now on be a gradual fall. We have had rain on five days of the week to the extent of one inch and ninety-eight hundredths. Farm work has been interfered with. Cotton-planting has begun on hills and in bottoms where free from overflow. The season is late compared with last year. The thermometer has averaged 55, the highest being 73 and the lowest 43.5.

**Nashville, Tennessee.**—It has rained during the week to the extent of one inch and thirty-six hundredths. The thermometer has averaged 55, ranging from 37 to 73.

**Mobile, Alabama.**—The weather in the interior has been more favorable and planting is making good progress in the uplands. It is very backward, however, on lowlands. There will probably be little or no increase in acreage. We have had rain on three days of the week, the rainfall reaching one inch and thirty-four hundredths. The thermometer has ranged from 45 to 76, averaging 62.

**Montgomery, Alabama.**—There was rain on three days in the early part of the week, the rainfall being one inch and seventy-five hundredths, but since then the weather has been pleasant, giving the farmers needed opportunity to make up for lost time. Average thermometer 59, highest 69, lowest 49.

**Mobile, Florida.**—It has rained on two days of the week, the precipitation reaching sixty-six hundredths of an inch. The thermometer has averaged 66, ranging from 42 to 81.

**Savannah, Georgia.**—We have had rain on four days of the week, the rainfall being one inch and ten hundredths. Average thermometer 62, highest 76 and lowest 45.

**Augusta, Georgia.**—Rain has fallen on three days during the week, the precipitation reaching twenty-seven hundredths of an inch. The thermometer has averaged 60, the highest being 78 and the lowest 42.

**Charleston, South Carolina.**—Rain has fallen on four days of the week, to the extent of thirty-three hundredths of an inch. The thermometer has ranged from 50 to 72, averaging 64.

**Stateburg, South Carolina.**—We have had rain on three days of the week, the rainfall reaching one inch and sixty-five hundredths. Average thermometer 61.2, highest 77, lowest 43.

**Greenwood, South Carolina.**—Planting of cotton and corn has been commenced. Rain has fallen on one day of the week, to the extent of five hundredths of an inch. The thermometer has averaged 58, ranging from 49 to 68.

**Wilson, North Carolina.**—We have had rain on three days during the week, the precipitation being one inch and seventy-seven hundredths. The thermometer has ranged from 44 to 80, averaging 61.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 9 o'clock April 15, 1897, and April 16, 1896.

	Apr. 15, '97.	Apr. 16, '96.

		7.8
		10.2
		37.7

**AN IMPORTANT POINT IN PATENT LAW AND ITS BEARING ON MANUFACTURING INDUSTRIES.**—In our editorial columns to day, under the above caption, will be found an article by our special Manchester correspondent.

**HIGH WATER IN THE MISSISSIPPI.**—Several breaks have been reported in the Mississippi levees the past week, the most important of which occurred on Monday last at Davis Island, in Warren County, Mississippi. Thus far there have been practically no crevasses in the Louisiana line of levees and every effort is being made to guard against overflow by strengthening any weak spots that develop. At Helena and Memphis a decline is reported and a gradual fall from now on is expected. Relief work is being vigorously prosecuted by local committees and the General Government.

**EXCHANGES.**—The following exchanges have been made during the week:

10 pd. to exch. 4,500 May for Aug.	33 pd. to exch. 100 Dec. for Aug.
28 pd. to exch. 1,000 Dec. for May.	09 pd. to exch. 900 Jan. for Sept.
01 pd. to exch. 200 July for Aug.	07 pd. to exch. 500 Oct. for Jan.
18 pd. to exch. 500 Oct. for Sept.	31 pd. to exch. 300 Oct. for May.
04 pd. to exch. 1,000 Oct. for Dec.	09 pd. to exch. 300 May for July.
33 pd. to exch. 1,000 Oct. for May.	37 pd. to exch. 1,000 Dec. for Aug.
09 pd. to exch. 7,900 May for Aug.	40 pd. to exch. 1,100 Nov. for Aug.
26 pd. to exch. 100 Sept. for Aug.	40 pd. to exch. 300 Oct. for Aug.

**INDIA COTTON MOVEMENT FROM ALL PORTS.**—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to April 15.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.	This Week.	Since Sept. 1.
94-7	.....	33,000	33,000	20,000	371,000	391,000	52,000	1,081,000
95-6	5,000	5,000	10,000	58,000	460,000	518,000	90,000	1,557,000
96-7	2,900	24,000	26,000	5,000	198,000	203,000	70,000	784,000
97-8	4,000	21,000	25,000	40,000	482,000	522,000	75,000	1,193,000

According to the foregoing Bombay appears to show a decrease compared with last year in the week's receipts of 38,000 bales and an increase in shipments of 23,000 bales, and the shipments since Sept. 1 show a decrease of 125,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			Shipments since Sept. 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.

**ALEXANDRIA RECEIPTS AND SHIPMENTS.**—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, April 14.	1896-97.	1895-96.	1894-95.
Receipts (cantars)*....	65,000	26,000	17,000
This week.....	5,556,000	5,151,000	4,496,000
Since Sept. 1.....			
Exports (bales)—			
To Liverpool.....	4,000 295,000	3,000 301,000	3,000 238,000
To Continent.....	9,000 297,000	4,000 271,000	4,000 297,000
Total Europe.....	13,000 592,000	7,000 572,000	7,000 525,000

\* A cantar is 98 pounds.

† Of which to America in 1896-97, 42,633 bales; in 1895-96, 51,256 bales; in 1894-95, 37,620 bales.

This statement shows that the receipts for the week ending April 14 were 65,000 cantars and the shipments to all Europe 13,000 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is steady for both yarns and shirtings. Manufacturers are working at a loss. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

Total exports of cotton manufactures.....	....	....	....	....	....	....	621,355	648,631

The foregoing shows that there has been exported from the United Kingdom during the six months 621,855,000 lbs. of manufactured cotton, against 643,561,000 lbs. last year, or a decrease of 26,706,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during March and since October 1 in each of the last three years:

**EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN MARCH AND FROM OCTOBER 1 TO MARCH 31.**

**JUTE BUTTS, BAGGING, &C.**—The market for jute bagging has been a little steadier during the week under review. The demand has been only moderate, but prices have been well maintained at 5½c. for 1½ lbs., 5½c. for 2 lbs. and 6½c. for standard grades. Car load lots of standard brands are quoted at 5½c. for 1½ lbs., 5½c. for 2 lbs. and 6½c. for 2½ lbs., f.o.b. at New York. Jute butts continue quiet at 105c. for paper quality, 130c. for mixing and 1¼c. for bagging, all to arrive.

**AGRICULTURAL DEPARTMENT REPORT ON COTTON MOVEMENT.**—The Agricultural Department issued on April 10 a report on the marketing of cotton as follows:

The statements furnished the Department of Agriculture by all the railway and water transportation companies show that from Sept. 1, 1896, to Feb. 1, 1897, the total actual movement of cotton from the States of production to ports, Northern and Western mills, Canada, Mexico, and all other destinations, amounted to 6,517,126 commercial bales; reports from the officials of the mills show actual purchases during the same period amounting to 559,367 bales; the department's township and prefect agents show that on Feb. 1, 1897, there remained on plantations 862,288 bales, in warehouses 94,727 bales, at public gins 101,569 bales, at compresses 211,311 bales and at depots and yards 160,421 bales; total, 1,494,321 bales, not including stocks held at ports. The crop by States is as follows:

From—	Railway, movement, Bales.	Remaining on planta- tions, &c., Bales.	Bought by mills, Bales.	Total crop. Bales.
North Carolina.....	273,714	38,046	112,330	424,090
South Carolina.....	503,495	58,581	202,213	764,289
Georgia.....	924,639	177,543	134,720	1,236,942
Florida.....	43,445	8,313	.....	51,758
Alabama.....	611,707	157,729	43,975	813,411
Mississippi.....	972,634	198,397	8,923	1,179,954
Louisiana.....	449,711	107,766	.....	557,477
Texas.....	1,823,140	544,615	4,893	2,372,648

Virginia.....	10,435	853	.....	11,288
Kentucky.....	358	.....	.....	358

Total.....6,517,128 1,494,329 523,405 8,534,870

To the above mill figures should be added for Georgia 619, Louisiana 5,917, North Carolina 571 and to Texas 2,727 bales, taken from ports and otherwise counted in the railway movement, the Kentucky, Missouri and Virginia figures being also included in the railway movement.

The mill purchases by States are as follows: Alabama, 43,975; Arkansas, 445; Georgia, 134,720; Kentucky, 11,142; Louisiana, 5,917; Mississippi, 8,923; Missouri, 1,384; North Carolina, 112,330; South Carolina, 202,213; Tennessee, 16,105; Texas, 4,099, and Virginia, 17,509; total, 559,367, as compared with 598,696 bales, revised figures, same period last year.

No deduction has been made of cotton on plantations and at interior points Sept. 1, 1896.

The above figures are subject to revision in the Department's final report.

**SHIPPING NEWS.**—The exports of cotton from the United States the past week, as per latest mail returns, have reached 72,661 bales. So far as the Southern ports are concerned these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

## BREADSTUFFS.

FRIDAY, April 16, 1897.

There has been a decided improvement in the market for wheat flour. The home trade has been a fairly large buyer of the trade brands and has paid an advance of 10 to 15c. per bbl., in sympathy with the rise in the grain values. At the close the market was quoted firm, with shippers fair buyers of the low grades. City mills have had a fair sale at higher prices. Reports received from the Northwest stated that large sales were made at firm prices. Rye flour has had only a very limited call, but values have held about steady. The demand for corn meal has been quiet, but prices have been fairly firm in sympathy with the advance in corn values.

There has been a fair amount of activity in the speculative dealings in the market for wheat futures, and prices have advanced sharply, recovering the greater part of last week's decline. Saturday there was a firm market and on foreign buying, together with the political situation in the Far East being reported as less favorable, there developed a demand from shorts to cover contracts, and prices advanced 1½@1¼c. for the day. There continued a firm market on Monday. Cable advices were stronger and were accompanied by buying orders, stimu-

lated, it was stated, by a fear of war in the East, and prices further advanced  $1\frac{3}{4}$  to  $1\frac{1}{2}$ ¢. There was a slightly easier market at the opening on Friday under realizing sales for local and Western account. Subsequently, however, the continued firm foreign advices and foreign buying resulted in an advance, but toward the close there was renewed selling to realize profits and prices again weakened, closing  $\frac{3}{4}$  to  $\frac{1}{2}$ ¢ lower. Wednesday the market again opened at a decline, in sympathy with Western advices. Later in the day, however, a good foreign demand, both for futures and actual wheat, together with a renewal of war talk, induced general buying, and the close was firm, with prices  $\frac{1}{4}$  to  $\frac{3}{4}$ ¢ up for the day. Yesterday there was an active and higher market. Foreign advices continued strong, and to this was added less favorable crop accounts from the West, resulting in an advance of  $1\frac{3}{4}$  to  $1\frac{1}{2}$ ¢ for the day. In the spot market shippers have been fair buyers, principally for forward loading, their purchases for the week amounting to about 750,000 bushels. At the close No. 1 Northern was quoted at 81¢ f. o. b. afloat and No. 2 hard winter at 76¢ f. o. b. afloat.

## DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....	72½	74	73½	74½	75½	Holiday
June delivery.....	72	73½	73½	74½	75½	
July delivery.....	71½	73½	73	73½	75½	
September delivery.....	70½	71½	71½	71½	73½	
December delivery.....	72½	74	73½	73½	75½	

There has been a limited amount of activity to the speculative dealings in the market for Indian corn futures, and prices have recovered part of last week's decline, as there was a demand from shorts to cover contracts, stimulated by the renewed war talk from the Far East and the sharp upward turn to the wheat market. The close was firm and prices showed a net advance for the week of  $\frac{3}{4}$  to  $1\frac{1}{2}$ ¢. In the spot market a limited volume of business has been transacted with shippers here and at outports, and prices have advanced. To day the market was moderately active and firm. The sales included No. 2 mixed at 39¢ delivered and  $31\frac{1}{4}$  to  $31\frac{1}{2}$ ¢ f. o. b. afloat; also No. 3 mixed at 30¢ f. o. b. afloat.

## DAILY CLOSING PRICES OF NO. 2 MIXED CORN

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
April.....	28½	29½	29½	29½	29½	Holiday
May delivery.....	28½	29½	29½	29½	29½	
July delivery.....	30½	31½	30½	30½	30½	
September delivery.....	31½	32½	32½	32½	32½	

Oats for future delivery have continued dull, but there has been a stronger tone to the market in sympathy with the advance in other grains and in response to foreign advices and prices have advanced, closing  $\frac{1}{4}$ ¢ up for the week. In the spot market business has been fairly active as there has been a moderate demand both from shippers and the home trade; prices have ruled steady, closing with sales of No. 2 mixed at 22¢ in elevator and No. 2 white at 24¢ in elevator.

## DAILY CLOSING PRICES OF NO. 2 MIXED OATS

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....	21½	21½	21½	21½	21½	Holiday
July delivery.....	21½	21½	22	22	22	

Rye and barley have been in active export demand for Germany, stimulated by anticipation of an advance in the import duty, and prices have advanced.

The following are closing quotations:

			Feeding.....	33	34

AGRICULTURAL DEPARTMENT REPORT.—The report of the Department of Agriculture, showing the condition of winter wheat on April 1, was issued on April 10 as follows:

The report of the Department of Agriculture for April 1 makes the average condition of winter wheat 81.4, against 93.5 December 1, 77.1 last April and 81.4 at same date in 1895. Leading winter wheat States show averages as follows: Pennsylvania 98, Ohio 83, Michigan 85, Indiana 65, Illinois 40, Missouri 60, Kansas 80, California 99. The average rye condition was 88.9, against 82.9 last year.

The condition of the soil at time of seeding was favorable throughout the country, a few scattered counties reporting it too dry or too wet, so that by December 1 a crop nearly standard was indicated. The falling off since December, greatest in Illinois, but strongly shown in every neighboring State, and making an average of 18 per cent for the whole country, is due to the sharp freezes of early winter. Snow covering was ample in the Rocky Mountain States and westward, but elsewhere to the east it was scanty. The deficiency caused little damage along the Atlantic Slope, where the winter was mild, and the favorable early indications continue, no important wheat State showing a condition under 95.

The condition of winter wheat is reported below average in Great Britain, France and Holland, because of excessive rains but favorable in Central and Eastern Europe. In Southern Russia there have been extensive re-sowings, but the wet weather has so delayed field work in Western Europe that the spring wheat area will be greatly cut down, the shortage in France alone being 750,000 acres.

Of horses 2.1 per cent are reported as having died from disease during the year, while the losses of cattle were 3.5 per cent and of sheep from all causes 5.5 per cent and of swine 14.4 per cent; last year's percent-

ages having been reduced to 2.3, 1.4 and 12.7 by the exceptionally mild winter. Deaths from exposure, 1.6 per cent for cattle and 3.2 per cent for sheep, against 1.1 and 2.1 last year. Present condition of horses 97.4, of cattle 96.2, of sheep 94.2, of swine 90.4; last year's figures having been 97.6, 93.9, 93.5 and 93.3—higher in every case. The impaired condition is ascribed to the unfavorable winter.

The following comparison for a number of years covers the condition in the leading States:

## CONDITION WINTER WHEAT APRIL 1.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., April 16, 1897.

The large auction sale of cotton goods held on Wednesday has easily been the most important feature of the week. There were then disposed of about 20,000 packages of cotton flannels and brown and bleached sheetings, product of mills represented by Catlin & Co. realizing upwards of \$1,500,000. The attendance of buyers was large, competition generally quite spirited and the prices realized satisfactory on the whole, the average showing a decline of somewhat less than 10 per cent from regular market values. The outcome of the sale had been awaited with anxious interest, and since it was held there has been a distinct feeling of relief and an accession of cheerfulness to the general tone. There has not been any perceptible increase in business, however, and as the days preceding the sale were decidedly inactive the week's regular results have been in different in volume. The jobbing trade has again been quiet, business coming from the Mississippi Valley regions being small. In the woolen and worsted goods divisions a generally firm tone has prevailed for both men's wear and dress goods.

**DOMESTIC COTTON GOODS.**—The exports of cotton goods from this port for the week ending April 12 were 6,217 packages, valued at \$236,329, their destination being to the points specified in the tables below:

NEW YORK TO APRIL 12,	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	76	1,530	19	571
Other European	11	1,254	3	1,212
China	4,550	27,140	9,169	26,122
India	...	892	3	2,450
Africa	...	6,859	510	5,571
Arabia	729	3,422	541	4,384
West Indies	271	4,426	170	3,799
Mexico	81	726	63	823
Central America	124	2,908	295	2,610
South America	349	16,733	1,348	13,742
Other Countries	41	1,396	126	1,052
Total	6,217	67,295	12,327	62,337
China, via Vancouver	...	8,750	...	11,162
Total	6,217	76,045	12,327	73,499

The value of the New York exports for the year to date has been \$2,750,423 in 1897 against \$2,863,931 in 1896.

The auction sale has placed the market for cotton flannels on a more definite basis, as agents are now in a position to quote prices with some degree of certainty, and have during the past few days done a fair amount of business on a little better basis than auction values. Cotton blankets have not been affected. The market for brown sheetings and drills has failed to disclose any new feature. The demand is quiet and prices without alteration. Bleached shirtings show something of a hardening tendency in an occasional leading make of 4-4 goods, but in other directions a moderate demand is readily met at previous prices. Wide sheetings are slow and irregular. Denims have been in moderate demand and easy to buy in most makes. Ticks and other coarse colored cottons dull and featureless. Kid-finished cambrics inactive. Both staple and fancy prints have been quiet, without change in price. Ginghams inactive in both staple and dress styles. There have been no sales of regular print cloths this week, the quotation still standing at 29-16c. Odds in moderate request and easy.

Block of Print Cloths—	1897.	1896.	1895.	1894.
	Apr. 10.	Apr. 11.	Apr. 13.	Apr. 14.
At Providence, 64 squares.	234,000	112,000	211,000	211,000
At Fall River, 64 squares.	764,000	39,000	327,000	327,000
At Fall River, odd sizes.	556,000	117,000	83,000	83,000
Total stock (pieces)....	1,554,000	262,000	621,000	621,000

\* By agreement among the cloth brokers no detailed statement of the print cloth market is made public.

**WOOLEN GOODS.**—Business in men's wear woolen and worsted fabrics this week has been quiet. Buyers have placed but a limited number of new orders for any description of goods, and until the supplementary demand begins to come forward in volume a dull period is likely to face sellers. The latter are however fairly well situated, many of them having their season's production pretty well covered. The tendency of prices is against buyers in such instances, and advances of 5 per cent are occasionally noted in some of the most popular lines. There are but rare instances of any disposition to make even slight concessions in order to attract further business by agents who are still open to take orders. There has been no change in the market for overcoatings and cloakings. Flannels and blankets are quietly firm. Dress goods generally well sold, particularly in plain goods, and prices on these are against buyers.

**FOREIGN DRY GOODS.**—There has been a quiet market for foreign merchandise this week, tariff uncertainties still blocking obstacles in the way of both sellers and buyers. Where business is doing for fall, prices are decidedly firm. Seasonable business is irregular and without special feature.

## Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending April 15, 1897, and since January 1, 1897, and for the corresponding periods of last year are as follows:

Imports Entered for Consumption for the Week and Since January 1, 1897 and 1896.	Week Ending April 15, 1897.		Since Jan. 1, 1897.		Week Ending April 15, 1896.		Since Jan. 1, 1896.

## STATE AND CITY DEPARTMENT.

## TERMS OF SUBSCRIPTION.

The INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

The STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

The STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

The QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

## Terms of Advertising—(Per inch space.)

One time.....	\$3 50	Three Months (13 times).....	\$25 00
One Month (4 times).....	11 00	Six months (26 times).....	43 00
Two Months (8 times).....	18 00	Twelve Months (52 times).....	58 00

The above terms for one month and upwards are for standing cards.

**Bond Proposals and Negotiations.**—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

**Aberdeen, Md.—Bond Offering.**—Proposals will be received until 2 o'clock, P. M., April 27, 1897, by the Commissioners of this town, for the purchase of \$15,000 of 5 per cent water bonds. The securities will mature in 1922, subject to call after 1912. The assessed valuation of the property given as security for these bonds is \$300,000; the real value is estimated at about \$400,000.

**Arkansas City, Kansas.—Bond News.**—Reports being current to the effect that Arkansas City, Kansas, had defaulted in the payment of its bonds, we have obtained the following official statement:

"The city has not defaulted in payment of bonds now outstanding. The interest has not always been paid when due, owing to the delay in the collection of taxes. The City Treasurer reports that payments of interest coupons are seldom much delayed. The city has refused payment on what are known as the D. M. & A. bonds, issued April 1, 1888, as the courts have declared them illegal and void. Some of the internal improvement bonds, the payment for which is provided for by special taxation on abutting property, are unpaid for the reason that taxes have not been paid."

**Atlantic City, N. J.—Bond Sale.**—On April 10, 1897, the Finance Committee of Atlantic City awarded the \$35,000 of 4½ per cent gold refunding bonds to N. W. Harris & Co. of New York, N. Y., for \$36,250. The other bids received were:

E. H. Gay & Co., Boston, Mass.....	\$36,085 00
C. H. White & Co., New York, N. Y.....	35,945 00
Rudolph Kleybolte & Co., Cincinnati, Ohio.....	35,475 00
E. D. Shepard & Co., New York, N. Y.....	35,745 00
Farson, Leach & Co., New York, N. Y.....	35,425 00
Jas. W. Longstreet & Co., Boston, Mass.....	35,308 25
Redmond, Kerr & Co., New York, N. Y.....	35,273 25
Wm. Mann, Atlantic City, N. J.....	35,175 00
S. A. Kean, Chicago, Ill.....	35,043 75

The securities are dated May 1, 1897; interest is payable semi-annually at the Union National Bank of Atlantic City, and the principal will mature May 1, 1927. The proceeds of this issue will be applied to the payment of matured or maturing city bonds, notes and certificates, drawing 5 and 6 per cent interest. The bonds are of the denomination of \$1,000, and are secured by a sinking fund. The bonded debt of Atlantic City on March 25, 1897, including this issue, was \$1,190,210, which amount included a water debt of \$875,000 and special assessment bonds to the amount of \$10,000; the sinking fund was \$47,119; net debt, \$1,143,031. The assessed valuations are: real estate, \$11,913,914; personal property, \$1,177,040; total, \$13,090,954; total tax rate per \$1,000, \$19.00. The actual valuation is estimated at about \$40,000,000, and the permanent population, according to local figures, is 23,000.

**Belmont, Mass.—Bonds Authorized.**—High school bonds to the amount of \$49,000 bearing interest at 4 per cent and maturing in 20 years from date of issue have been authorized by this town. The bonds will probably not be issued before July 1, 1897.

**Benson, Minn.—Bond Offering.**—Proposals will be received until 7:30 P. M., April 27, 1897, by J. N. Edwards, Village Recorder, for the purchase of \$5,500 of 6 per cent bonds. The securities will mature as follows: \$4,000 at the rate of \$1,000 per annum from July 1, 1904 to 1907, inclusive, and \$1,500 on July 1, 1908.

**Bloomfield, N. J.—Correction.**—We have been informed by W. L. Johnson, Clerk, that this township will not issue any bonds at present. The report that \$100,000 of road bonds were under consideration was incorrect.

**Boston, Mass.—Bond Sale.**—On April 14, 1897, the \$1,275,000 of 3½ per cent South Union Station registered bond certificates were awarded to Blake Bros. & Co. and R. L. Day & Co. at their joint bid of 100-32. The other bids received were:

Parkinson & Burr.....	\$1,275,000	100-23
Cushman, Fisher & Phelps.....	250,000	100-32
	250,000	100-27
	250,000	100-23
	525,000	100-13
L. W. Morrison.....	100,000	100-13

The securities are of the denomination of \$1,000 or any multiple thereof, dated April 1, 1897; interest is payable semi-annually on the first days of April and October at the office of the City Treasurer of Boston, and the principal will mature April 1, 1902. A sinking fund has been provided for the payment of the loan at maturity.

**Bradford, Pa.—Bond Offering.**—Proposals will soon be received by this borough for the purchase of bonds to the amount of \$102,000. The securities are to be issued for the construction of a new reservoir.

**Bristol County, Mass.—Bond Offering.**—Proposals will be received until 10 A. M. April 21, 1897, by the County Commissioners for the purchase of five notes of \$20,000 each. The securities will be dated April 22, 1897; interest at the rate of 4 per cent will be payable semi-annually and the principal will mature April 22, 1901.

**Brookhaven, Miss.—Bond Election.**—This city will hold an election on May 10, 1897, at which the question of issuing \$40,000 of bonds will be voted on. If carried the proceeds of the issue will be used for the construction of water and electric-light works.

**Brooklyn, N. Y.—Bond Sale.**—The city of Brooklyn has sold \$70,000 of 3½ per cent consolidated gold stock, for the improvement of Leonard Street, to the Commissioners of the Sinking Fund at par. Interest on the securities is payable semi-annually on the first days of January and July and the principal will mature January 1, 1937.

**Bond News.**—The borrowing capacity of the city of Brooklyn is, at the present time, \$456,000. The city can, however, issue water bonds to any amount but will be unable to issue securities for any public works other than those connected with the water supply until the debt borrowing capacity shall be sufficient to offset the water bonds. The "Brooklyn Eagle" reports that Comptroller Palmer is strongly opposed to the issuance of the \$2,000,000 of water-works bonds proposed by the city works authorities, on the ground that the city should remain within its borrowing capacity in order to meet any emergency which may arise. It is understood that plans are being prepared for additional water works prior to making formal application to the Common Council for the issue of bonds and it is expected that the requisition will be sent to the aldermen about April 19.

The city works authorities intend to insist upon their plans in spite of the opposition of the Comptroller.

**Calloway County, Mo.—Bond News.**—This county has completed a plan whereby \$150,000 of its 5 per cent twenty-year railroad bonds will be refunded on or before May 1, 1897, by an issue of 4 per cent bonds. The new securities will be of the denomination of \$1,000 each; interest will be payable semi-annually on the first days of May and November at the Union Trust Company of St. Louis, Mo., and the principal will mature in twenty years from date of issue, \$100,000 being subject to call after five years and the remainder after seven years.

**Carbon County, Mont.—Bond Offering.**—Proposals will be received until 2 o'clock P. M., June 7, 1897, by this county, for the purchase of \$11,000 of 6 per cent coupon bonds. The securities will be of the denomination of \$1,000 each and will mature in twenty years from date of issue. Each proposal must be accompanied by a certified check for \$250.

**Chagrin Falls, Ohio.—Bond Offering.**—Proposals will be received until noon May 5, 1897, by William D. Brawster, Village Clerk, for the purchase of \$35,000 of water-works bonds. The securities will bear interest at the rate of 6 per cent and the principal will mature in from 4½ to 25 years from date of issue.

**Cincinnati (Ohio) School District.—Bond Sale.**—On April 12, 1897, the Board of Education of this city awarded \$75,000 of school district bonds to Messrs. Seasongood & Mayer at 105-4211. The bids received were as follows:

Seasongood & Mayer, Cincinnati, Ohio.....	105-4211
S. Kahn & Sons, Cincinnati, Ohio.....	104-4404
Atlas National Bank, Cincinnati, Ohio.....	104-3413
Western German Bank, Cincinnati, Ohio.....	104-0147
Rudolph Kleybolte & Co., Cincinnati, Ohio.....	103-5000
Fourth National Bank, Columbus, Ohio.....	101-1333

The securities are dated Sept. 1, 1896; interest at the rate of 4 per cent is payable semi-annually at the American Exchange National Bank of New York City, and the principal will mature Sept. 1, 1906, subject to call after Sept. 1, 1906. The denomination of the bonds will be \$500.

**Clarksfield, Minn.—Bond Offering.**—Proposals will be received by this village until 7 o'clock P. M., April 26, 1897, for the purchase of \$3,000 of 6 per cent bonds. The securities will mature May 1, 1912.

**Cleveland, Ohio.—Bond Sale.**—On April 12, 1897, bridge bonds to the amount of \$45,000 were awarded to Messrs. E. H. Rollins and Sons at 103-33. The bids received were as follows:

E. H. Rollins & Sons, Cleveland, O.....	\$46,498 50
E. Morrison, New York, N. Y.....	46,480 50
Farson, Leach & Co., Chicago, Ill.....	46,381 50
Dietz, Denison & Prior, Cleveland, O.....	46,367 65
Ridger, Merritt & Co., Boston, Mass.....	46,363 50
W. J. Hayes & Sons, Cleveland, O.....	46,301 00
N. W. Harris & Co., Chicago, Ill.....	46,213 50

The bonds are dated October 1, 1896. Interest at the rate of 4 per cent is payable semi-annually on the first days of April and October, and the principal will mature October 1, 1906, both principal and interest being payable at the American Exchange National Bank of New York City. The bonds are of the denomination of \$1,000 each.

**Coatesville, Pa.—Bond News.**—The bonds of this place recently authorized will be in the denomination of \$100 and \$500, and will be payable on January 1, 1927, redeemable at the option of the borough on or after July 1, 1898. Interest at 4 per cent will be payable semi-annually on January 1 and July 1. The amount of the issue will be \$23,000, and the proceeds will be used for water purposes.

**Corona (N. Y.) School District No. 2.—Bonds Proposed.**—School house bonds of this district to the amount of \$15,000 are under consideration.

**Dayton, Wash.—Bond Sale.**—The city of Dayton has placed a loan of \$5,000 with John Rist, of Dayton, at par. The loan bears interest at the rate of 6 per cent and matures in one, two and three years from date of issue. The loan is for the purpose of paying the mortgage on the city's water works.

**Detroit, Mich.—Bond News.**—On April 1, 1897, \$100,000 of water bonds of Detroit became due. The six months' loan of \$60,000 made by the Board of Water Commissioners at 3-96 per cent interest, was to extend a like amount of these bonds, the remainder having been paid off when they matured.

**Dougherty County, Ga.—Bond Sale.**—This county has sold \$16,000 of 6 per cent bonds to the Exchange Bank of Albany, Ga., for \$16,002. The securities will mature in from two to eleven years from date of issue and were issued to provide means for the construction of a bridge over the Flint River at Albany.

**East Cleveland, Ohio.—Bonds Defeated.**—The question of issuing \$150,000 of sewer, water-works and electric-light bonds was defeated at the election held on April 5, 1897.

**East Providence Fire District, R. I.**—The property of the East Providence Fire District has been purchased by the East Providence Water Co., subject to the bonded debt of the fire district, which amounts to \$200,000.

**Edgecombe County, N. C.—Bond Sales.**—Bonds of this county to the amount of \$16,000 have been awarded to Messrs. Dietz, Denison & Prior for a premium of \$570 50.

**Fairhaven, Mass.—Bond Offering.**—Proposals will be received until 7 P. M. April 21, 1897, by John H. Howland, Chairman of the Board of Selectmen of Fairhaven, for the purchase of \$75,000 of sewerage bonds.

The securities are to be coupon bonds of the denomination of \$500 and \$1,000. They will be dated April 1, 1897, and interest at the rate of 4 per cent will be payable semi-annually on the first days of April and October. The principal will mature as follows: \$2,300 annually on Oct. 1 from 1898 to 1902, \$3,000 annually on Oct. 1 from 1903 to 1907, \$4,500 annually on Oct. 1 from 1908 to 1912, \$5,500 annually on Oct. 1 from 1913 to 1916 and \$5,500 on April 1, 1917. Principal and interest will be payable at the First Nat. Bank, Boston, Mass.

Each bid must be accompanied by a certified check on a national bank payable to the order of the Town of Fairhaven for \$1,500.

**Fayetteville, N. C.—Bonds Authorized.**—This city has been authorized to issue bonds to the amount of \$15,000 to pay the cost of erecting an electric-light plant.

**Flagstaff, A. T.—Bond Sale.**—This town has disposed of the \$65,000 of 6 per cent water-works bonds which were offered on March 29, 1897. The securities are dated March 1, 1897, interest is payable semi-annually on Jan. 15 and July 15, and the principal will mature in thirty years from date of issue. The bonds are of the denomination of \$1,000.

**Florence, Ala.—Bond Election.**—An election will be held in this city on May 15, 1897, to decide the question of issuing \$125,000 of bonds for the purchase of water-works.

**Fremont, Ohio.—Bond Sale.**—Refunding bonds of this city to the amount of \$8,000 were sold to the Croghan Bank of Fremont on April 7, 1897, for a premium of \$210 and accrued interest. The securities are serial coupon bonds, maturing in from 3 to 7 years from date of issue and bearing interest at the rate of 5 per cent.

**Galveston County, Texas.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 22, 1897, by the Chairman of the Finance Committee, care of Geo. H. Law, Jr., County Clerk, for the purchase of \$200,000 of 5 per cent Court-house bonds. The securities will be of the denomination of \$1,000 each; interest will be payable semi-annually on the tenth days of April and October, and the principal will mature in from ten to forty years from date of issue, both principal and interest being payable at the office of the County Treasurer at Galveston. The successful bidder will be required to deposit a check for \$1,000 as a guaranty that the bonds will be taken, when declared legal.

These bonds were to have been sold on April 5, 1897, but the sale was postponed until the date mentioned above.

**Gloucester, Mass.—Temporary Loan.**—It is reported that this city has sold \$25,000 of seven months' notes at 3 per cent interest and \$2 00 premium and \$25,000 at 3-25 per cent interest and \$1 00 premium.

**Grand Junction, Col.—Bonds Voted.**—On April 6, 1897, the people of this municipality voted in favor of issuing \$65,000 of bonds for either purchasing the water-works now in use or

constructing a new system. A proposition to issue \$250,000 of bonds for supplying the place with water from the mountains was also submitted to the people on the same date but was defeated.

**Harrison County, Ohio.—Bond Sale.**—The \$10,000 of 6 per cent jail bonds of Harrison County were awarded to N. W. Harris & Co. of Chicago, Ill., at 104-31. The other bids received were:

Mason, Lewis & Co., Chicago, Ill.	104-310
Dietz, Denison & Prior, Cleveland, Ohio	104-180
Seasongood & Mayer, Cincinnati, Ohio	104-127
W. J. Hayes & Sons, Cleveland, Ohio	103-700
Fourth National Bank, Columbus, Ohio	103-650
Rudolph Kleybolte & Co., Cincinnati, Ohio	103-603
Farron, Leach & Co., Chicago, Ill.	103-520

The securities are dated April 1, 1897; interest is payable semi-annually on the first days of April and October, and the principal will mature at the rate of \$1,000 per annum from October 1, 1898 to 1907, inclusive.

**Hico, Texas.—Bond Offering.**—Proposals will be received until 6 o'clock P. M., April 19, 1897, by the city of Hico, for the purchase of \$7,500 of 5 per cent water-works bonds. The securities will be dated December 1, 1896, interest will be payable annually at the office of the City Treasurer, and the principal will mature December 1, 1936. Each bid must be accompanied by a certified check for \$500. The total indebtedness of Hico, including this issue, is \$12,500; sinking funds (annually), \$200; assessed valuation, \$500,870; real valuation, \$800,000, and the population, according to local estimate, 1,500.

**Hopkinsonville, Ky.—Bond Offering.**—Proposals will be received until May 18, 1897, by the Fiscal Court of this city for the purchase of refunding bonds to the amount of \$100,000. The securities will bear interest at the rate of 5 per cent and the principal will mature in 30 years from date of issue.

**Hudson County, N. J.—Bond Sale.**—On April 15, 1897, the \$200,000 of 4 per cent thirty year gold road bonds of this county were awarded to Duncomb & Jennison at 102-63 and the \$127,000 of 4 per cent five-year gold sidewalk-bonds to E. H. Rollins & Sons at 100-146. Interest on both issues is payable semi-annually. The securities are exempt from taxation and are secured by a sinking fund.

**Hudson, N. Y.—Bond Offering.**—On June 1, 1897, Wm. S. Hallenbeck, City Clerk, will offer for sale 4 per cent bonds of the city of Hudson to the amount of \$15,000. The securities will mature in 17, 18 and 19 years from date of issue.

**Jackson, Tenn.—Bond Offering.**—Proposals will be received until 12 o'clock noon, July 1, 1897, by Jno. A. Greer, Chairman of the Finance Committee, for the purchase of \$20,000 of 5 per cent school-building bonds of this city. The securities will be of the denomination of \$500 each, dated August 1, 1897; interest will be payable semi-annually on the first days of February and August, and the principal will mature August 1, 1917, subject to call after August 1, 1907, both principal and interest being payable at the People's Savings Bank of Jackson, Tenn. The loan is part of an authorized issue of \$25,000; the payment of the interest will be provided for by direct taxation and the payment of the principal will be made by the Sinking Fund Commissioners.

The bonded debt of Jackson on April 1, 1897, was \$348,000, including water-works bonds to the amount of \$100,000; floating debt, \$10,000; total debt, \$358,000. The tax valuation for 1896 was about \$2,500,000. The water-works system, owned by the city, is valued at about \$100,000, and yields an annual net revenue of about \$9,000.

**Jamestown, N. Y.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 19, 1897, by the Board of Public Works, for the purchase of \$50,000 of sewer bonds of this city. The securities will bear interest at a rate not exceeding 4 per cent, payable semi-annually, and will mature in twenty years from date of issue.

**Jamaica, N. Y.—Bond Sale.**—On April 10, 1897, the \$200,000 of 4 per cent street-improvement bonds of Jamaica were awarded to the Edw. C. Jones Co. of New York City, at 105-75. The other bids received were:

E. D. Shepard & Co., New York, N. Y.	105-360
Mason, Lewis & Co., Chicago, Ill.	105-180
Kings County Trust Co., Brooklyn, N. Y.	102-806
W. J. Hayes & Sons, New York, N. Y.	103-300

The securities are of the denomination of \$1,000 each; interest is payable semi-annually on the first days of April and October, at the Bank of Jamaica, and the principal will mature at the rate of \$10,000 per annum from April 1, 1917, to 1936, inclusive.

**Jersey City, N. J.—Bond Sale.**—On April 15, 1897, the \$450,000 of 4½ per cent refunded general bonds of Jersey City were awarded to Blair & Co. of New York City at 107-53. The other bids received were:

Blake Bros & Co.	106-889
C. Zabriskie	105-311
Simon Borg & Co. (\$100,000)	105-271
Farron, Leach & Co.	104-655
N. W. Harris & Co.	104-557
Duncomb & Jennison	104-410
Henwell & Everitt	104-279
E. D. Shepard & Co.	104-110

The securities are dated May 1, 1897; interest is payable semi-annually on the first days of May and November, and the principal will mature May 1, 1927, both principal and interest being payable in gold. The bonds are exempt from taxation and are secured by a sinking fund.

**Johnstown, N. Y.—Bond Sale.**—On April 5, 1897, the city of Johnstown awarded \$17,000 of 4 per cent railroad refunding bonds to Isaac W. Sherrill, of Poughkeepsie, N. Y., at 103'87. The other bidders were:

Bertron & Storrs, New York, N. Y.	103-352
Benwell & Everitt, New York, N. Y.	103-310
Edw. O. Jones Co., New York, N. Y.	103-550
Farson, Leach & Co., New York, N. Y.	103-527
W. J. Hayes & Sons, Boston, Mass.	103-141
S. A. Kean, Chicago, Ill.	102-000
L. W. Morrison, New York, N. Y.	101-114

The securities are dated February 1, 1897; interest is payable semi-annually on the first days of June and December, and the principal will mature as follows: \$14,000 at the rate of \$500 per annum from June 1, 1898 to 1935, inclusive, and \$3,000 on June 1, 1936.

**Kentucky.—Bonds Proposed.**—A bill authorizing the issuance of \$500,000 of bonds to fund the State's floating indebtedness has passed the Assembly.

**Lebanon, Ohio.—Bonds Defeated.**—The voters of this place on April 5, 1897, decided not to issue the proposed \$16,000 of electric-light bonds.

**Lisbon, Ohio.—Bond Offering.**—Proposals will be received until 7 o'clock P. M. May 3, 1897, by Cyrus W. Pritchard, Village Clerk, for the purchase of \$9,500 of 6 per cent street improvement bonds. The securities will be of the denomination of \$500 each, dated May 1, 1897; interest will be payable semi-annually and the principal will mature as follows: \$2,500 at the rate of \$500 per annum, from May 1, 1898 to 1902, inclusive; \$5,000 at the rate of \$1,000 per annum, from May 1, 1903 to 1907, inclusive, and \$2,000 on May 1, 1908. Proposals will also be received by the Village Clerk until the same date for the purchase of \$11,000 of 6 per cent special assessment bonds. The securities will be of the denomination of \$100 each, dated May 1, 1897; interest will be payable annually, and the principal will mature at the rate of \$1,000 per annum from May 1, 1898 to 1908, inclusive.

No bid for either of the above issues for less than par will be considered, and each proposal must be accompanied by a certified check for 10 per cent of the amount bid for.

**Logan, Ohio.—Bonds Defeated.**—At the election held in this city on April 5, 1897, the question of issuing \$30,000 of gas-well bonds failed to carry.

**Loveland, Ohio.—Bond Sale.**—On April 12, 1897, the \$4,000 of 6 per cent steam fire-engine bonds of this village were awarded to Seasongood & Mayer of Cincinnati, Ohio, for \$1,330. The other bids received were:

S. Kuhn & Sons, Cincinnati, Ohio	\$4,340 00
Charles W. Thurman, Cincinnati, Ohio	4,325 00
Rudolph Kleybolte & Co., Cincinnati, Ohio	4,166 50
S. A. Kean, Chicago, Ill.	4,102 50

The securities are dated April 1, 1897, interest is payable annually, and the principal will mature at the rate of \$100 every two years, beginning with April 1, 1899, both principal and interest being payable at the National Lafayette Bank of Cincinnati, Ohio. The bonds are of the denomination of \$400 each.

**Mansfield, Ohio.—Bonds Defeated.**—At the recent election in this city the proposition to issue sewer bonds was defeated by 288 votes. The bonds were to have been 5 per cent 1 to 20 year serial bonds to the amount of \$71,000.

**Maury County, Tenn.—Bonds Proposed.**—This county proposes to issue bonds to the amount of \$30,000 for the purpose of funding the floating debt.

**Medford, Mass.—Bonds Authorized.**—An issue of bonds to the amount of \$200,000 has been authorized by the Medford City Council.

**Middletown, Conn.—Bonds Proposed.**—This municipality proposes to issue bonds to the amount of \$215,000. The securities, if authorized, will be dated July 1, 1897; they will bear interest at the rate of 4 per cent and mature July 1, 1922.

**Montana.—Bonds Unsold.**—The sale of \$100,000 of university bonds which was advertised for April 5, 1897, did not take place, as no bids were received for the issue. The securities were to have been 6 per cent 20-30-year optional bonds.

**Navajo County, A. T.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 10, 1897, by J. H. Frisby, Clerk of the Board of Supervisors, for the purchase of \$12,000 to \$15,000 of Court-house and jail bonds of this county. The securities will bear interest at a rate not exceeding 6 per cent, payable semi-annually.

**New Bedford, Mass.—Temporary Loan.**—The city of New Bedford has placed a temporary loan to the amount of \$250,000 at 8-15 per cent interest.

**North Hempstead, N. Y.—Bonds Authorized.**—At an election held on April 6, 1897, the people of this town voted to issue road-improvement bonds to the amount of \$81,000.

**Palestine, Tex.—Bond News.**—At the election held recently in this city the proposition to issue \$100,000 of water-works bonds was not put to a vote. Mr. Lucien Gooch, City Treasurer, says "the city cannot issue bonds for that purpose at present."

**Passaic, N. J.—Bond Sale.**—On April 15, 1897, the \$35,000 of 5 per cent bonds of this city were awarded to Benwell & Everitt of New York City at 106'06. The other bids received were:

C. Zabriskie	105-770
W. E. R. Smith	105-570
Paterson Safe Deposit & Trust Co.	105-150
Rudolph Kleybolte & Co.	104-590
F. K. McCully	104-630
N. W. Harris & Co.	104-170
Edw. C. Jones Co.	104-139
E. Morrison	104-1144
W. J. Hayes & Sons	104-090
E. O. Stanwood & Co.	104-080
Farson, Leach & Co.	104-070
The Lamprecht Bros. Co.	104-010
Dietz, Denison & Prior	101-888

A bid was also received from S. A. Kean which did not conform with the requirements of the sale.

The securities are of the denomination of \$500 each, dated March 1, 1897; interest is payable semi-annually, and the principal will mature at the rate of \$2,500 per annum from March 1, 1898 to 1911, inclusive, both principal and interest being payable at the Passaic National Bank. The loan is in the form of coupon bonds with the privilege of registration.

**Paulding County, Ohio.—Bond Sale.**—On April 5, 1897, the \$15,300 of 5 per cent ditch and poor bonds of Paulding County were awarded to Seasongood & Mayer of Cincinnati for \$15,702. The other bonds received were:

Rudolph Kleybolte & Co., Cincinnati, Ohio	\$15,645 00
The Lamprecht Bros. Co., Cleveland, Ohio	15,637 50
Spitzer & Co., Toledo, Ohio	15,627 00
Dietz, Denison & Prior, Cleveland, Ohio	15,582 50
W. J. Hayes & Sons, Cleveland, Ohio	15,530 50
Paulding Deposit Bank, Paulding, Ohio	15,432 00
Farmers' Banking Co., Paulding, Ohio	15,325 00

**Pelham Manor, N. Y.—Bond Offering.**—Proposals will be received until 8:30 P. M., May 1, 1897, by John H. Dey, Village Treasurer, for the purchase of \$50,000 of 4 per cent gold sewer bonds. Interest on the securities will be payable semi-annually on the first days of May and November at the office of the Knickerbocker Trust Company of New York City, and the principal will mature May 1, 1917.

Each proposal must be accompanied by a certified check for 2 per cent of the amount of the bid.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Philadelphia, Pa.—Bonds Authorized.**—At a meeting of the Finance Committee of Councils held on April 13, 1897, a refunding loan of \$350,000 was authorized. This sum is required to make up the amount necessary for the redemption of a loan of \$1,779,230 which falls due on July 1, 1897.

**Pleasant Ridge, Ohio.—Bond Sale.**—On April 5, 1897, improvement bonds of this village to the amount of \$2,646 39 were awarded to the Atlas National Bank of Cincinnati at 105½ and accrued interest. Bids were also received from C. M. Thurman, Cincinnati, 105'32, and S. Kuhn & Sons, Cincinnati, 102'25. The securities bear interest at the rate of 6 per cent and mature in from 1 to 10 years from date of issue.

**Portsmouth, Va.—Bond Sale.**—The \$10,000 of 5 per cent paying bonds of Portsmouth have been sold at 102'50. The securities will mature in ten years from date of issue.

**Racine, Wis.—Bonds Defeated.**—At an election held in this city on April 6, 1897, the question of issuing school bonds to the amount of \$30,000 was lost.

**Reading, Pa.—Bond Sale.**—On April 14, 1897, City Clerk H. H. Hammer awarded \$100,000 of paving bonds to Heyl & Major of Philadelphia at 105'375. The other bids received were as follows:

Bidders—	Bid.
N. W. Harris & Co., New York, N. Y.	105-830

Amos Kerst, Reading, Pa. (for \$2,000)	100-02

Townsend, Whelan & Co. of Philadelphia, Pa., also bid for the bonds, but their bid was not in conformity with the conditions of the sale.

The securities are of the denomination of \$1,000, dated July 1, 1897. They bear interest at the rate of 4 per cent and mature at the rate of \$20,000 every five years from July 1, 1902 to 1922, inclusive.

**Red Lake County, Minn.—Bond Sale.**—This county has sold \$10,000 of 6 per cent ten-year gold bonds, to F. R. Fulton & Co., of Grand Forks, N. D. at 103'18. The other bids received were:

N. W. Harris & Co., Chicago, Ill.	105-45
Crawford Livingston, St. Paul, Minn.	103-00
Farson, Leach & Co., Chicago, Ill.	102-55
Dietz, Denison & Prior, Cleveland, Ohio	101-05
First State Bank, Red Lake Falls, Minn.	101-03

**Richmond County, N. Y.—Bond Sale.**—On April 14, 1897, road-improvement gold bonds to the amount of \$202,000 (\$12,000 series I and \$190,000 series G) were awarded to Messrs. E. D. Shepard & Co. at their bid of 109-38 for 4 per cent bonds. The bids were for 3½ and 4 per cent bonds, and were as follows:

For 3½ per cent bonds—	\$12,000, Series I.	\$180,000, Series G.
Farson, Leach & Co.	100-75	100-75
E. H. Gay & Co.	100-07	100-07
For 4 per cent bonds.		
E. D. Shepard & Co.	109-38	109-38
Leland, Towle & Co.	109-35	109-35
N. W. Harris & Co.	108-81	108-81
Roberts & Co.	108-755	108-755
Walton Stanton & Co.	108-70	108-70
Barton & Stotts.	108-64	108-64
G. M. Hann	108-43	108-43
Dietz, Denison & Prior	108-348	108-348
Kings County Trust Co.	108-338	108-358
Edw. C. Jones Co.	108-31	108-31
Benwell & Everitt	108-29	108-29
E. H. Robbins & Sons.	108-03	108-03
D. A. Moran	108-016	108-016
Duncomb & Jennison	107-89	107-89
W. E. R. Smith.	107-50	107-50
R. L. Day & Co.	106-66	106-66
People's Trust Co., Brooklyn.	100-00	100-00

The securities will be dated June 1, 1897, interest will be payable semi-annually and the principal will mature June 1, 1922. The securities will be of the denomination of \$1,000 each and will be issued in the form of coupon or registered bonds.

**Ridgeway and Shelby (N. Y.) Union Free School District No. 12.—Bond Offering.**—Proposals will be received until 10 o'clock A. M., May 1, 1897, by the Board of Education, at their office in the village of Medina, N. Y., for the purchase of \$19,000 of bonds of this school district. Bids are to be made on the basis of the bonds bearing 4 per cent and 4½ per cent interest, payable annually or semi-annually as the Board of Education may determine. The securities will be of the denomination of \$1,000 each, and will mature at the rate of \$1,000 per annum from November 1, 1898 to 1916, inclusive.

**Seattle, Wash.—Temporary Loan.**—It is reported that this city has sold the \$12,404-81 of 8 per cent warrants issued in anticipation of the collection of taxes.

**Sevier County, Utah.—Bond Offering.**—Proposals will be received until May 3, 1897, by H. P. Hansen, County Treasurer, for the purchase of bonds to the amount of \$4,300.

**Spokane, Wash.—Bond Election.**—A proposition to issue \$40,000 of bonds for the erection of an electric-light plant will be put to a vote of the citizens of Spokane in May, 1897.

**Syracuse, N. Y.—Bonds Proposed.**—Water-works extension bonds of Syracuse to the amount of \$200,000 are under consideration.

**Tecumseh, O. T.—Bond Sale.**—On April 10, 1897, bonds of this city to the amount of \$8,000 were awarded to the Van Durn Iron Works Co. of Cleveland, O., at par. Three other bids were received. The securities will bear interest at the rate of 7 per cent, and the principal will mature May 1, 1912. These bonds constitute the only debt of the city of Tecumseh.

On the same date contracts were awarded for the erection of a Court-house to cost \$24,500 and a jail to cost \$8,000.

**Tennessee.—Regarding Financial Condition of the State.**—E. B. Craig, State Treasurer, has written the following letter to Governor Taylor, under date of March 31, 1897, calling attention to the unfortunate condition of the State Treasury, in order that the State Legislature might provide a remedy for the same:

"That there will be a deficit in the treasury January 1, 1898, of from \$600,000 to \$700,000 I have not the slightest doubt. If the rate of 20 cents is allowed to run on, by January, 1899, the deficit will be more than one million dollars. Should the rate be placed at 25 cents, the deficit would not be quite so large, but would be much larger than in 1898.

"The Legislature cannot prevent this deficit January 1, 1899, but it can prevent its increase and provide a surplus to reduce it annually. The Legislature can, by its action, give to the State credit upon which we can borrow money, and the only way by which this credit can be given is by making the tax rate sufficient to meet the obligations of the State. The present rate will run us in debt deeper and deeper each year. Should the Jarvis law prove not to be what its friends claim for it, and should the penitentiary cost the treasury this year as much as it did last year, a restoration to the old rate would hardly be sufficient. How could the State go into the market and ask for loans when her tax rate is not sufficient to meet her current obligations?"

## NEW LOANS.

\$3,000,000

### STATE of NEW YORK

#### 3% Canal Improvement Bonds.

COMPTROLLER'S OFFICE  
BUREAU OF CANAL AFFAIRS,  
ALBANY, March 27th, 1897.

Pursuant to the provisions of Chapter 79 of Laws of 1895, proposals will be received at this office until Tuesday, the 30th day of April, 1897, at 12 o'clock noon of that day for a loan of

#### THREE MILLION DOLLARS

for which transferable certificates of stock, registered or coupon bonds, at the option of the proposer

#### Principal and Interest Payable in Gold

will be issued in the name of the People of the State of New York, on the credit of the Sinking Fund established by said act, bearing interest at the rate of three per centum per annum, payable semi-annually on the first days of January and July, and the principal reimbursable on the first day of January, 1912.

These bonds are exempt from taxation pursuant to Chapter 8, Laws of 1897.

Proposals may be for the whole or any part of the sum not less than \$1,000, and should state whether registered or coupon bonds are desired, and such proposals must be accompanied by a certified check for the percentage of the amount of the proposal.

Payments for the loan will be required to be made on the acceptance of the proposal by deposit in the Bank of the Manhattan Co. in the City of New York to the credit of "Treasurer of the State of New York, on account of Canal Fund" of the amount of the award, together with premium and accrued interest from January 1, 1897.

The Comptroller reserves the right to reject all bids which are not in his opinion advantageous to the interests of the State.

Interest on the loan from the first day of January, 1897, will be payable at the Bank of the Manhattan Co. in the City of New York.

All proposals must be sealed and endorsed "Loan for Canal Improvements," and directed to the Comptroller of the State of New York, Albany, N. Y.

### PELHAM MANOR, N. Y.,

#### FOUR PER CENT

#### GOLD SEWER BONDS.

PROPOSALS FOR SEWER BONDS IN THE  
VILLAGE OF PELHAM MANOR, N. Y.

Sealed proposals will be received until May 1st, at eight thirty o'clock P. M., at which time, at the Trustees' Rooms of the Village of Pelham Manor, in said Village, the said bids will be opened for the purchase of

\$50,000 FOUR PER CENT GOLD BONDS, or any part thereof, of the Village of Pelham Manor, Westchester County, New York, authorized and issued by the Board of Sewer Commissioners of said Village, pursuant to the provisions of the General Sewer Act of 1880, and its amendments.

The said bonds will mature in twenty years from May 1st, 1897, the interest to be paid semi-annually on May 1st and November 1st, at the office of the Knickerbocker Trust Company, New York. Said bonds to be coupon or registered at option of purchaser. The bids to be addressed to John H. Dey, Treasurer, Pelham Manor, New York, and to be marked on envelopes "Proposals for Sewer Bonds." Each bid must be accompanied with a certified check, payable to the order of said Treasurer, for two per cent of the total amount of the bid. The right is reserved to reject any or all bids.

PARTICULARS ON APPLICATION.

### ED. A. RICHARDS & CO.,

60 WALL ST., NEW YORK, N. Y.

"Failure upon the part of the Legislature to restore the rate means one of three things:

- "1. Borrowing of large sums of money at a high rate.
- "2. An issue of bonds at a high rate.
- "3. Default."

"And this in the face of three facts:

"1. We have the lowest interest-bearing debt of any State in the Union.

"2. We have the lowest tax rate of any State in the Union.

"3. We are the cheapest governed State in the Union.

"I will briefly compare our condition to-day with that of one year ago: On April 1, 1896, we had a net treasury balance of about \$325,000. To-day, after crediting the penitentiary fund with \$95,000, the amount erroneously charged to new penitentiary account at Brushy Mountain instead of maintenance of convicts, we have nothing on hand. On July 1, 1896, we paid our interest and had about 25,000 left. Now, how can we hope to pay our July interest this year with \$325,000 less to start on?"

"In addition to the expenses of last year, we will have to pay the balance of the cost of this session of the Legislature.

"A serious condition confronts us. No Legislature ever met in this State with greater obligations resting upon it. They have it in their power to protect the honor and credit of the State or to do that which may result in repudiation. Very respectfully,

E. B. CRAIG, Treasurer."

The Legislature has acted on this suggestion in the revenue bill just passed, which provides for a tax rate of 45 cents instead of 25 cents, as was proposed.

**Trinidad, Col.—Bond Offering.**—It is reported that proposals will soon be received by this city for the purchase of \$297,000 of bonds, the proceeds of which will be used for the purchase of water works.

**Union, S. C.—Bond Offering.**—Proposals will be received until May 20, 1897, by F. M. Farr, Chairman, for the purchase of \$40,000 of 6 per cent water-works and electric-light bonds of this town.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Utica, N. Y.—Bond Offering.**—On April 19, 1897, at 12 o'clock noon, J. A. Cantwell, City Clerk, will sell at public auction, \$27,612 85 of 4 per cent paving bonds. The securities will be dated as follows: \$11,695 33, February 26, 1897; \$15,455 07, March 26, 1897, and \$472 45 April 9, 1897. Interest will be payable annually, and the principal will mature in six equal annual instalments.

The indebtedness of Utica at the present time consists of \$96,390 35 of local assessment bonds, \$176,833 32 of public improvement bonds and \$200,000 of railroad aid bonds, against which \$200,000 of railroad stock are held, which pays 5 per cent dividends. The assessed valuation for 1896 was: real estate, \$16,487,262; personal property, \$2,618,826; total, \$19,051,088. The population is estimated at about 55,621.

**Waterville, Me.—Bonds Authorized.**—The officials of this city have been authorized to borrow \$20,000 in amounts as needed. The securities will bear interest at not over 5 per cent, and the principal will mature six months from date of issue.

**Westfield, Conn.—Bonds Authorized.**—Bonds of this place to the amount of \$30,000 have been authorized.

**Wood County, Ohio.—Bond Sale.**—This county has sold \$7,000 of 5 per cent bonds to Seasingood & Mayer of Cincinnati, Ohio. Interest on the securities is payable semi-annually on the first days of April and October, and the principal will mature at the rate of \$1,000 per annum from October 1, 1898 to 1904, inclusive.

**White Sulphur Springs, Mont.—Bond Election.**—A proposition to issue bonds for the construction of water-works will soon be put to a vote of the people of White Sulphur Springs.

**Woonsocket, R. I.—Bond Offering.**—Proposals will be received by this city until 3 o'clock P. M. April 21, 1897 for the purchase of \$350,000 of 4 per cent funding bonds. The securities will mature May 1, 1927.

**Yeadon, Pa.—Bond Sale.**—It is reported that this municipality sold the \$10,500 of 4½ per cent sewer bonds at 102-87½. The securities are dated April 1, 1897, and will mature in from ten to thirty years from date of issue.

Street Railway Supplement (Quarterly)  
State and City Supplement (Semi Annually)

NO. 1,661.

\* Not included in totals.

### THE INVESTORS' SUPPLEMENT.

With this issue of the CHRONICLE we present our subscribers with another quarterly number of our INVESTORS' SUPPLEMENT. The INVESTORS' SUPPLEMENT is so well known that it is hardly necessary to dwell upon its general features. It gives in compact form very full and comprehensive information concerning all the leading railroad companies of the country, especially their securities, finances, mileage, earnings, dividends, &c., &c., all brought down practically to the date of issue. It also gives the latest information obtainable as to all prominent industrial and other miscellaneous corporations.

The editorial pages of the current number are devoted to the first of a series of articles, in the course of which we shall publish the terms of preference as they are stated in the preferred stock certificates of every important railroad company in which American investors are interested. To-day the certificates (and voting trusts as well) of the following companies are cited: Atchison, Erie, Norfolk & Western, Northern Pacific, Oregon Railroad & Navigation, Reading, St. Louis & San Francisco and Southern Railway. An article also in the body of this issue of the CHRONICLE discusses some of the notable features which these certificates possess.

### THE FINANCIAL SITUATION.

The event of the week has been the declaration of war by Turkey and the beginning of hostilities between Turkey and Greece. News that war had been declared and that severe fighting by the two armies was in progress reached the public simultaneously through the morning papers of Sunday. As the six great nations of Europe have been for months professedly trying to avert this struggle—everywhere blazoning over both continents their belief that the peace of Europe was contingent upon the success of their efforts—it is no surprise on the happening of the event that the traders in all our markets should have greatly exaggerated the industrial disturbance it was likely to cause. Curiously enough it so happened that Monday was observed as a holiday at all the leading financial centres of Europe: rumor says also that Russia on Saturday gave the word “go” to Turkey, and after her armies had started the notification to Greece followed. However that may be, the Turks, as it turned out, were half way through Milouna Pass when the declaration of war reached the outside world. Monday our stock market was demoralized under very large selling by arbitrage houses and subsequently by a bear raid; on the same day wheat rose just about as many points as stocks fell. Tuesday, when the markets opened at the various European centres, the war appeared to have made almost no impression on the markets either of London, Berlin or Paris; as a consequence all who on Monday had sold stocks and bought wheat in New York hastened on Tuesday to buy stocks and sell wheat, of course with the natural consequences. Since Tuesday the European situation has had very little if any influence on business affairs here. The deepest sympathy, however, is felt everywhere throughout the country for Greece.

A report from Washington which appears to be true, and if so will give great satisfaction to business classes, is to the effect that the Senate committee which has the tariff bill in charge is likely not only to report the

Commonly the coming week, but, what is more import-

ant, it has determined to reject the retroactive clause attached to the bill by the House. Indeed, according to the statement received, an agreement has been made with the Democrats that if they will not push the Vest resolution, which we referred to last week, the committee will either “strike out the retroactive provision or amend it so as to pave the way for its being stricken out in conference.” It is added that “while the cancellation has not been absolutely decided upon, the weight of opinion in the committee is understood to be on the side of destroying the provision entirely.” We hope this latter course will be taken. Business interests need speedy relief. One after another events have recently occurred in a high degree adverse in character to industrial revival. The prolongation of tariff legislation has been and is a serious drawback to recuperative work; the Supreme Court decision with reference to the 1890 trust law has acted, and until some relief measure is passed will continue to act, as a further and decided restriction to enterprise; finally this retroactive clause is in its turn doing much to disorganize and therefore to demoralize a large department of trade, a condition of affairs which is always infectious. That clause, too, is permitted to remain a menace to business, although there is no good reason for saying that if continued in the bill it can be sustained in the courts. Its longer retention can consequently in no way be justified.

Among other matters this week of a merely domestic nature we are inclined to give a good deal of prominence to the results of the Michigan election, the returns with reference to which have been received through Secretary Holt of the Democratic gold organization of that State. A pregnant source of disquiet in financial circles has been over the possible prospect of a renewed fight with silver four years hence. The course of argument encouraging this conclusion adopted not only in America but in Europe too, has been that as business activity has not recovered since the election, as nothing at the moment is being done towards the rectification of currency defects, as the late city elections have shown large Democratic gains—in view of these facts the inference is drawn that the Silver Party will renew the contest four years hence and will gain the battle. We have never felt any fear of such a combination of events or of such a catastrophe. The Congressional delay hitherto in regulating currency affairs we look upon, as our readers are aware, merely as temporary, and under the circumstances reasonable. On the other hand, it was in no degree an emotional movement that led the men who left their party organization last year and voted for a gold currency; they left it because they fully understood the extreme danger which threatened. They sacrificed every political tie and belief for a single principle because that principle was fundamental. Such knowledge once acquired by an individual cannot be unlearned, and the estimate of its importance once seen never lessens.

The Michigan election affirms that this view which is assuredly true of the East may be regarded as likewise true of the voters in the West. City elections which have been recently held and have gone Democratic prove nothing, for in municipal contests the silver issue cannot have any importance and in the nature of things would be treated by voters in most cases as eliminated. Michigan is the only State which has this April elected any State officers. It is the

only State where a distinctively gold ticket has been put in nomination the current spring, and it was done in this case only to preserve the organization; not a chance existed of electing the nominees, not even a considerable vote was anticipated, and none were more surprised than those who put up the ticket to find that about 33,000 had been cast for it. The result is encouraging to all in business circles, and is furthermore short notice to politicians in this and neighboring States that they can never recall the deserters from their party last year except the call comes under the banner of sound money. Just now it looks in this State as if merchants and bankers and business men generally might have to flock together and make a political body by themselves. The dominant party in our New York State Legislature seems by its trust bills and inheritance tax bills to be putting a premium upon idleness and mediocrity and to be shutting the door against thrift and the thrifty, and it may turn out that there is no other way open for the industrious and frugal than to flock by themselves.

The process of reorganizing the various traffic associations so as to avoid conflict with the recent Supreme Court decision goes steadily on. On Thursday the General Passenger Agents of the Western roads adopted the new agreement for their reorganized association. The agreement is to become effective on April 28. On Thursday also the Southern States Freight Association was merged into the Southeastern Freight Association. Press dispatches say that there is no provision for equalization of rates or apportionment of territory. There will be an Executive Board, a Conference Committee and a Chairman in place of a Commissioner. The main purpose is to restrict reduction of rates and payment of commissions. To avoid discrimination the Executive Board is to report to Federal and State Commissioners any illegal attempts to reduce rates. The adjusting of rates is to be left to the roads themselves.

Of course at best these are only tentative measures—very useful under present circumstances but lacking a great many essentials for securing permanent co-operation on an effective basis between the different roads. Application has been made to the Supreme Court for a rehearing in the case of the Trans-Missouri Freight Association, and should the outcome of these efforts be unfavorable, and should the Joint Traffic Association also be declared outside the pale of the law, it will obviously be necessary for Congress to come to the help of the roads and give them permission to enter into arrangements for establishing and maintaining rates under proper safeguards and restrictions. We have never been able to see why pooling should not be allowed, especially as State Railroad Commissioners as well as the Inter-State Commerce Commission are in permanent session to protect the interests of shippers and the general public. Mr. H. T. Newcomb, of the U. S. Department of Agriculture, in a paper read at a meeting of the American Economic Association (and written before the Supreme Court decision in the Trans-Missouri case) gave emphasis to a point which has not yet received sufficient consideration. Mr. Newcomb notes that Congress in attempting to perpetuate competition and at the same time forbid the acts by which competition is made effective has given us a law that cannot be enforced. He says the unreasonable rate not made to secure competitive traffic or to recoup

losses from carrying such traffic is practically unknown. The conflict of interest, real or fancied, between the several corporate units that go to constitute the railway system is the primary cause of such evils as are now apparent. Hence the anti-pooling clause of the Inter-State Commerce law is radically antagonistic to any wise system of railway regulation. It is necessary at the outset, as a first step toward a system under which railway rates can be made equal to all, that this restraint upon the carriers should be removed. But that, in Mr. Newcomb's opinion, is a mere beginning towards enlightened methods of dealing with the transportation problem. The force that tends towards the consolidation of railways is powerful and beneficent. Consequently all provisions forbidding or hindering the various forms of consolidating parallel or connecting railways should be repealed, and public sentiment should combine with legislative enactment to encourage every step that leads towards complete harmony of the railway system.

The annual report of the Pittsburg Cincinnati Chicago & St. Louis has been issued this week and we have obtained an advance copy of the same. It will be found reprinted on subsequent pages. The results meet expectations. The company of course had very unfavorable conditions to contend against. As the report well says, in the first part of 1896 the indications were still in favor of fairly prosperous business, but the subsequent developments brought about a complete change, and the industries of the country became prostrate. The result is reflected in a falling off in both the freight traffic and the passenger traffic. On the lines directly operated by the Pittsburg Cincinnati Chicago & St. Louis the loss in tonnage as compared with the year preceding was 1,063,077 tons, while in the tonnage movement one mile the loss was over 174 million tons, or 9.72 per cent.

No effort, we are told, was spared to reduce the expenses of operation in all departments, and these efforts, too, were attended by a large measure of success, though of course the saving was not sufficient to offset the whole of the loss in gross receipts. The reduction in expenses was effected notwithstanding the occurrence of an extraordinary number of sudden and heavy rains during the year, especially between the 1st of June and the middle of August, which washed out the tracks at many points, particularly on the Pittsburg Division. The worst storm occurred on July 30th, seriously damaging the track between Steubenville and Gould's Tunnel, carrying away a large portion of bridge 45, and necessitating the practical rebuilding of that structure. The report notes that there was a continued increase in the amount of taxes paid by the various companies, the increase on the main line being \$29,539. It is gratifying, in view of these various circumstances, to find from the income account that after meeting all fixed charges and liabilities of every description, a fair sum was transferred to the credit of profit and loss. The surplus was \$429,149, against a surplus of \$1,022,897 on the operations of the year 1895. While satisfactory, the management did not think the amount sufficient to justify a dividend on the preferred stock of the company.

Money on call has loaned at 1½ and at 2 per cent this week, but the higher rate was recorded for only a brief interval on Monday afternoon; thereafter for the remainder of the week the range was from 1½ to 1¾ per

cent; the average for the week has been  $1\frac{1}{2}$  per cent. Banks and trust companies who offer their money on the Stock Exchange accept the rates there ruling. There is no new feature in time loans. The demand is light and rates are 2 per cent for thirty days,  $2\frac{1}{2}$  per cent for sixty to ninety days, 3 per cent for four to six and  $3\frac{1}{2}$  per cent for seven to eight months on good Stock Exchange collateral. Negotiations have been opened for a loan for forty-five to fifty days on the new canal bonds at 2 per cent. For the best commercial paper there is a good inquiry, but the offerings are limited. Rates are  $3\frac{1}{2}$  per cent for sixty to ninety day endorsed bills receivable,  $3\frac{3}{4}$  at  $4\frac{1}{4}$  per cent for first-class, and 4@5 per cent for good four to six months' single names.

As already stated, the news of the declaration of war by Turkey came while the European markets were closed for the Easter Monday holiday and therefore it was uncertain what effect would be produced. On the following day discounts of sixty to ninety day bank bills were only fractionally firmer at  $1\frac{1}{2}$  at  $1\frac{1}{4}$  per cent, and aside from a fall in Greeks and Turks the Continental markets were not materially disturbed. In London consols opened at a sharp decline, but this was followed by a recovery and American stocks were strong after a hesitating opening. Thereafter for the remainder of the week the European markets were only very slightly affected by the news from the seat of war. The Bank of England minimum rate of discount remains unchanged at  $2\frac{1}{2}$  per cent. The cable reports discounts of sixty to ninety day bills in London  $1\frac{1}{4}$  at  $1\frac{1}{2}$  per cent. The open market rate at Paris is 2 per cent and at Berlin and Frankfurt it is  $2\frac{1}{2}$  per cent. According to our special cable from London the Bank of England lost £105,765 bullion during the week and held £36,292,048 at the close of the week. Our correspondent further advises us that the loss was due to the export of £35,000 (sold in open market), to £178,000 net shipped to the interior of Great Britain and to the import of £107,000, of which £50,000 was from the Cape, £34,000 from China, £18,000 from Australia and £5,000 from Portugal.

The foreign exchange market was quite strong on Monday, influenced by the war news, and also by expectations of a demand for exchange resulting from the liberal sales of securities by the arbitrage houses for European account. Posted rates were generally advanced half a cent, and there was also a sharp rise in rates for actual business. On the following day the market was easier, the news from London showing that there was no war scare there. Thereafter for the remainder of the week the market was quiet and steady at unchanged quotations. The range for posted rates for exchange on Monday was from 4 87 to 4 87 $\frac{1}{4}$  for sixty-day and from 4 88 $\frac{1}{2}$  to 4 89 for sight. Brown Bros., the Bank of British North America, the Merchants' Bank of Canada, Heidelbach, Ickelheimer & Co. and Lazard Freres advancing their rates half a cent for both long and short compared with the close of Friday of last week. Rates for actual business were advanced one-half a cent for long, to 4 86 $\frac{3}{4}$  @ 4 87, and three-quarters of a cent for short sterling and cable transfers, to 4 88 $\frac{1}{4}$  @ 4 88 $\frac{1}{2}$  for the former and 4 88 $\frac{1}{4}$  @ 4 88 $\frac{1}{2}$  for the latter, and the market was strong to the close. On the following day all bankers except the Bank of Montreal posted 4 87 $\frac{1}{4}$  for sixty-day and 4 89 for sight, but the market was easier at a decline of one-quarter of a cent in rates for actual business, to 4 86 $\frac{1}{2}$  @ 4 86 $\frac{3}{4}$  for long,

4 88 @ 4 88 $\frac{1}{4}$  for short and 4 88 $\frac{1}{4}$  @ 4 88 $\frac{1}{2}$  for cable transfers. There was no change either in the range for posted rates or in those for actual business on Wednesday, the market then being quoted as steady. It was easier on Thursday though not quotably lower. Yesterday the conditions remained much the same, with both the posted rates and those for actual business continuing unchanged. The rise in exchange on Monday led to some talk of gold exports, but it was considered that there was no satisfactory profit in shipping the metal so long as sight bills could be obtained at 4 88 $\frac{3}{4}$ ; hence bankers refrained from shipping. With the fall the next day in exchange there was less probability of gold exports to London. The following shows the daily posted rates for exchange by some of the leading drawers.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

	FRI. Apr. 10.	MON. Apr. 10.	TUES. Apr. 21.	WED. Apr. 21.	THUR. Apr. 22.	FRI. Apr. 23.
Brown Bros.....	60 days. 87	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$
	Sight... 88 $\frac{1}{4}$	89	89	89	89	89
Baring.....	60 days. 87	87	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$
	Sight... 88 $\frac{1}{4}$	88 $\frac{1}{4}$	89	89	89	89
Bank Britan.....	60 days. 87	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$
	Sight... 88 $\frac{1}{4}$	89	89	89	89	89
Bank of Montreal.....	60 days. 87	87	87	87	87	87
	Sight... 88 $\frac{1}{4}$	88 $\frac{1}{4}$	88 $\frac{1}{4}$	88 $\frac{1}{4}$	88 $\frac{1}{4}$	88 $\frac{1}{4}$
Canadian Bank.....	60 days. 87	87	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$
	Sight... 88 $\frac{1}{4}$	88 $\frac{1}{4}$	89	89	89	89
Heidelbach, Ickelheimer & Co.....	60 days. 87	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$
	Sight... 88 $\frac{1}{4}$	89	89	89	89	89
Lazard Freres.....	60 days. 87	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$
	Sight... 88 $\frac{1}{4}$	89	89	89	89	89
Merchants' Bk. of Canada.....	60 days. 87	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$	87 $\frac{1}{4}$
	Sight... 88 $\frac{1}{4}$	89	89	89	89	89

The market closed steady on Friday at 4 87 @ 4 87 $\frac{1}{4}$  for sixty day and 4 88 $\frac{1}{4}$  @ 4 89 for sight. Rates for actual business were 4 86 $\frac{1}{2}$  @ 4 86 $\frac{3}{4}$  for long, 4 88 @ 4 88 $\frac{1}{4}$  for short and 4 88 $\frac{1}{4}$  @ 4 88 $\frac{1}{2}$  for cable transfers. Prime commercial bills were 4 86 @ 4 86 $\frac{1}{4}$  and documentary 4 85 $\frac{1}{2}$  @ 4 85 $\frac{3}{4}$ .

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending April 23, 1897.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	\$4,723,000	\$1,874,000	Gain, \$2,849,000
Gold.....	333,000	280,000	Gain, 44,000
Total gold and legal tenders.....	\$6,056,000	\$2,153,000	Gain, \$3,893,000

With the Sub-Treasury operations the result is as follows.

Week Ending April 21, 1897.	In'n Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movements as above.....	\$5,056,000	\$2,164,000	Gain, 2,892,000
Sub-Treasury operations.....	13,400,000	13,000,000	Gain, 400,000
Total gold and legal tenders.....	\$18,456,000	\$15,163,000	Gain \$3,293,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	April 22, 1897.			April 23, 1896.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.
England.....	86,292,048	—	86,292,048	47,868,665	—	47,868,665
France.....	70,331,980	18,842,040	125,174,040	78,119,546	42,692,733	127,812,279
Germany.....	28,912,253	14,800,287	43,012,560	30,528,000	16,211,000	45,769,000
Aust.-Hungary.....	31,682,000	12,601,000	44,283,000	26,763,000	12,798,000	39,561,000
Spain.....	5,528,000	10,530,000	16,058,000	8,018,000	10,470,000	18,488,000
Netherlands.....	2,631,000	4,783,000	7,414,000	2,621,000	6,961,000	9,582,000
Nat. Belgium.....	2,802,667	1,401,333	4,204,000	2,698,000	1,349,000	4,047,000
Total this week.....	187,079,978	91,963,260	282,043,238	126,150,212	90,621,733	222,670,945
Total prev. wk.....	180,156,027	91,741,513	281,200,570	124,618,281	95,956,670	220,621,953

\* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

NOTE.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of this column, they are the returns issued nearest to that date—that is, the latest reported figures.

## FOREIGN WAR AND THE FOREIGN MARKETS.

The influence on the financial markets of the actual outbreak of European war is always an interesting study; in the case of the pending Græco-Turkish conflict it is perhaps more interesting than usual. Not even the Russo-Turkish war of 1877 was preceded by more prolonged manœuvres in the interest of peace, by more frequent alternations of confidence and pessimism, or by more misgiving as to the possible larger area of the conflict. On the 7th of last February the Greek flotilla sailed for Crete; during the ten weeks since that time every kind of rumor and conjecture has found listeners. Within this period have occurred the blockade of the Cretan ports by the European Powers; the repeated warnings addressed to Greece and their failure to get a hearing; the undertaking to blockade the port of Greece itself; the protest of the English Liberals against the action of the ministry; the curious establishment of cordial personal relations between the French and British cabinets; and along with all this, the rise and fall of prices on the stock exchanges as successive "war scares" swept over the financial community.

After this long preliminary chapter of incidents, Turkey declared war last Saturday. It was natural, in view of what had gone before, that the movement of the foreign markets for securities should be awaited with peculiar interest. As it happened, circumstances added to the doubt and hesitation. Following a long-established custom, the London Stock Exchange adjourned on Thursday afternoon for a triple Easter holiday continuing until Tuesday. When the New York Stock Exchange resumed business on Monday of this week, it was the only institution of the first rank open in any financial centre of the world where international securities could be bought or sold. Both speculators and investors were therefore left to follow their own conjectures as to the probable action of the foreign markets. They very generally assumed the worst, and prices broke violently under the heaviest selling of the season.

The outcome of this very interesting and curious experiment showed that the local operators were mistaken. The action of the foreign markets, when they finally opened for business Tuesday morning, proved as conclusively as the barometer of financial sentiment can prove that the chances of general European conflict had been absurdly over-estimated. It is not going too far to say that such a possibility has not been mentioned in the conjecture of the present week. The dread which has beset the home and foreign markets during the two successive months in which war has been only rumored, seems, now that war has actually broken out, to have completely disappeared. British consols and French rentes, in whose market fluctuations reflection of such dangerous possibilities is always looked for, did indeed decline a fraction when the foreign stock exchanges opened. But by Thursday both had secured an actual advance, ruling exactly at last week's prices; and their lowest quotations during Tuesday's early trading were above the figures touched in the "war scare" of three weeks ago.

If this movement of European public funds turns out to be an accurate diagnosis of the situation, it ought undoubtedly to be a factor of genuine reassurance. We have never had much faith in this season's alarmist stories of the war which might be provoked

between the first-rate Powers, and we have suspected that the much-vaunted "European concert," formed to avert such a calamity, was a good deal of a humbug. Nothing could better prove than the incidents of this season the fact that international war is caused in these days not by sovereigns and cabinets, but by the people. The people's attitude was the factor of very real danger during our Venezuela controversy in December 1895, during England's Transvaal difficulty in the ensuing January, and during our constant friction with the Spanish Government over Cuba. But for the fact that it takes two to make a quarrel, any of these three episodes might have resulted in an armed collision. The pending war of Greece with Turkey is a case in point; all readers of the European dispatches are aware that it was the Greek people who forced their Government reluctantly into war, and absolutely closed the gateway of retreat. To suppose that England, France or Germany could be pushed into such a war without some intervening episode such as should absolutely inflame the English, French or German people, is to suppose an utter improbability. This week's movement of the European public funds has plainly reflected such disbelief in general hostilities; indeed, the markets have for a year past been reflecting it. Consols at Tuesday's lowest price ruled 4 points above their price of January 1896; French rentes one franc above the level of that period.

There are, however, other reasons why the European security markets have not received the news of war with the expected agitation. One of these reasons is the very general belief that the conflict will not only be confined to Greece and Turkey, but that it will be short. A long and expensive series of campaigns have an effect on prices of national securities which a short war cannot have. In fact the bottom cause of the fall in Government securities on the outbreak of the war is not always clearly understood, even by those who sell. A common theory is that the public funds reflect confidence or misgiving; that prices even of consols yield, when war breaks out on the Macedonian frontier, only because of doubt as to the possible political consequence to England. This theory, so far as it goes, is right enough; for consols must reflect, by their preliminary movement, the remote conjecture of capital regarding its own outlook for secure investment. There is, however, another very potent factor in the influence of war on the price of high-grade investment issues. Mr. Robert Giffen has concisely analyzed this factor. "A really first-class war", he argues, writing from the London stock market's point of view, "will be certain to cause a creation of securities on a large scale. We know what has taken place in our own great wars, and the more recent experience of the United States and of France will be fresh in people's recollection. When war breaks out, therefore, or is suddenly threatened, speculators know for certain that an event is at hand which will not only disturb the markets temporarily, but may absolutely defeat their speculation." In other words, the supply of fresh securities of the highest order is likely to be enormously increased; the average price of all existing securities of that class will therefore automatically decline. This same derangement of investment capital will necessarily affect all other classes of securities—reaching in its final ramifications even the minor speculative issues of the Stock Exchanges. This is why every serious war of the present

century has been attended at its outbreak and during much of its continuance by general demoralization of the markets.

But there is only the slightest possibility that anything of this sort could happen in the present conflict. Each of the two belligerents is bankrupt; neither enjoys the least credit on the European exchanges; one is literally in the hands of receivers. Greece has for three years past defaulted on the greater part of the interest on its debt; the creditors of Turkey get their interest only through a humiliating surrender, to what really is a committee of the bondholders, of half the taxes and tributes of the State. There is little danger that with budgets such as these the European markets will be overweighted by successful issues of new Greek and Turkish bonds. It is true, the payment of a heavy cash indemnity to the successful belligerent has become the fashion of recent wars, and it is true also that such a tribute, to the extent of something over \$150,000,000, was exacted by the Japanese from vanquished China. But even China had the revenue of its treaty ports to mortgage, whereas Turkey has already pledged pretty much all the available collateral in its possession, while Greece has hardly anything to pledge.

The series of declines in the investment markets, here and abroad, during the preliminary rumors of this war, and the sharp recovery in prices, in New York especially, since the campaign was actually begun, bring up another interesting question. The influence of foreign war on the prosperity of non-combatant commercial States is one of those questions which has always excited interesting controversy. It is the prevalent and not unreasonable belief that when two or more first-rate Powers engage in war, producing States outside the struggle will reap substantial benefits. It is assumed, both in the light of reason and of experience, that industry will be interrupted in the States at war, and that markets which such producers lose in consequence will fall, for the time at least, into the hands of rival foreign producers. This change in distribution of the sources of supply may go so far as to turn exporting States, at time of war, into importers. Both of these movements were in a measure noticeable during our Civil War. The nation's export trade fell to the lowest annual average reached in a dozen years; its importations in some branches of manufacture rose to the largest recorded total.

What was thus lost by the United States in foreign trade was for the most part gained by British merchants. Notwithstanding the embargo on our Southern cotton and the consequent distress of the English spinning industry, Great Britain's annual export trade expanded during our Civil War upwards of fifty millions sterling, or fully thirty per cent. During the Franco-Prussian war, Great Britain's export trade to France rose from £11,438,330 in 1869 to £18,205,858 in 1871; its export trade with Germany from £20,416,168 in 1870 to £27,434,520 in 1871. As soon as the war was over and the two belligerents had returned to the pursuit of peaceful industry, this export trade decreased again, losing at once more than one-half of its expansion during war. Plainly enough, in both these instances the outside trading State profited by the troubles of its neighbors.

Whether such advantage can be continuous or not, and whether the trade expansion of non-combatant producing States will not eventually be followed by re-

action, are inquiries which open another question. Reaction is a certainty, and it has been the rather uniform experience that such reaction is extremely serious, at the conclusion of a war, because of the actual preceding stimulus to production. Europe's general industrial stagnation after the close of the Napoleonic wars is perhaps the strongest instance of the kind in the century's history. Very similar periods of reaction and stagnation followed the termination of our Civil War in 1865, and the ending of the Franco-Prussian war in 1871.

It does not follow necessarily that all the earlier gain will be lost in this subsequent reaction. Something will be retained, if it is only the introduction to competing markets so much coveted by exporting merchants. But, like all other artificial diversions of the general trade movement, the advantage must in the end be very greatly qualified. It is fortunate on the whole, not only for the financial markets, but for our own commercial situation in the long run, that so little permanent disturbance is anticipated from the Græco-Turkish war.

### PREFERRED STOCKS OF LEADING RAILROAD COMPANIES.

The current issue of the INVESTORS' SUPPLEMENT contains the first of a series of articles regarding the preference shares of the leading railroad companies of the United States. A similar compilation for the industrial companies was given in the SUPPLEMENT of May 1893, where, as we know, it has ever since been constantly consulted. The present articles, we believe, will prove equally useful.

The eight preferred stock certificates described to-day are for four reasons worthy of special attention. First, they are the capital issues of eight of the largest and most representative of American railroad companies. Second, they are the issues of companies that have been reorganized within the last two years under the direction of men having the widest experience in matters pertaining to railroad law and finances. They therefore exemplify, in the light of a past rich in decisions touching the rights of preferred stockholders all that is now believed to be essential to the securing of those rights. Third, having so lately come on the market they enjoy a superior position compared with the other stock issues of the companies that is, we believe, scarcely understood. Last, but not least in importance, six of the eight stocks are in the hands of voting trustees. The public hold merely the voting trust certificates, and these state few, if any, of the provisions that appear in the certificates themselves. Consequently the exact wording of these provisions are not, as is usually the case, within the easy reach of the investor.

The following table shows the eight companies referred to, the miles of road within their control, and the amount of their preferred stock and common stock issues.

	Miles Controlled	Preferred Stock.	Common Stock.
Atch. Top. & S. Fe Ry.....	6,922	\$119,657,300	\$102,000,000
Erie RR.....	2,140	{ 30,000,000 1st pf. }	100,000,000
Norfolk & Western Ry.....	1,570	{ 16,000,000 2d pf. }	66,000,000
Northern Pacific Ry.....	4,346	75,000,000	80,000,000
Oreg. RR. & Nav.....	1,063	11,000,000	24,000,000
Reading Company.....	1,277	{ 23,000,000 1st pf. }	70,000,000
St. Louis & San. Fran. RR...	1,274	{ 42,000,000 2d pf. }	29,000,000
Southern Railway.....	4,752	{ 5,000,000 1st pf. }	70,000,000
		{ 16,000,000 2d pf. }	125,000,000
		54,300,000	
Total.....	23,344	\$419,957,300	\$596,000,000

Certainly nothing more than this table is necessary to establish the prominence of these companies, with

their 23,000 miles of road, their 420 millions of preference and nearly 600 millions of common stock. Passing for the moment the voting trust feature, the size of the preferred stock issues is significant, indicating as we have said on a previous occasion to what an extent this class of security has superseded the once popular income bond. To the issuing company the income bond has been voted a hindrance, to the holder in most cases a delusion; consequently as in the notable instances here indicated, the contingent interest in the earnings of a road, when it has been deemed necessary or best to name a recipient of that interest, has been conferred by making him, as we believe he should be, a preferred partner in the undertaking.

Regarding the second reason, we need say only that to our certain knowledge there has been, at least in several of these organizations, no ordinary zeal exhibited to render the new securities (including the stock certificates), in their wording and in other respects, as great an improvement as possible on all former productions of the kind. We shall presently cite examples of some of the improvements introduced.

To make evident the reality of our third reason the following table is submitted, showing the amount of preferred stock issued by the aforesaid companies (1) to retire bonds of the old (predecessor) companies, (2) to retire stock of the old companies, (3) for assessments paid in the reorganization and (4) for miscellaneous purposes.

Preferred stock (1000 omitted).	Total issue.	—Of which issued for—				Miscel- aneous.
		Old bonds.	Stock.	Ass'm't.		
Atch. Top. & San. Fe Ry.	\$119,657	\$96,740	none	\$13,717	a	\$9,200
Erie Railroad { 1st pref.	30,000	27,146	none	none		2,854
{ 2d pref.	16,000	7,271	8,537	none		192
Norfolk & Western Ry.	23,000	22,833	none	none		167
Northern Pacific Ry.	75,000	54,880	17,620	b		2,500
Oregon RR. & Navigation	11,000	9,290	none	1,440		270
Reading Co. { 1st pref.	28,000	c7,184	none	c		d20,816
{ 2d pref.	42,000	c40,258	none	c		1,744
St. L. & S. F. Ry. { 1st pref.	5,000	e	none	1,150		e3,850
{ 2d pref.	16,000	8,214	none	none		e7,786
Southern Ry.	51,300	32,887	8,799	7,814		f4,800
Total.....	\$419,957	\$306,731	\$34,956	\$24,121		\$51,149

a. Given in part payment for Atlantic & Pacific, Western Division bonds.

b. The preferred stock paying assessment of 10 per cent received 50 per cent of new common and the same in new preferred.

c. The old income bonds paid an assessment of 20 per cent and received either 120 or 130 per cent in new common, first preferred and second preferred in certain proportions, according to preference.

d. Of this \$8,000,000 sold to the syndicate.

e. The old consolidated mortgage bonds (if paying assessment, for which they received first preferred stock) were exchanged for common and second preferred stock, the holders being permitted to subscribe for \$3,850,000 first preferred and \$5,500,000 second preferred stock.

f. Includes \$4,500,000 used for purchase of Alabama Great Southern stock.

The reader examining this table will be struck we think with the small amount of the total preferred stock issues, aggregating nearly \$420,000,000, which was given in exchange for stock, whether common or preferred, of the old companies; the amount so given was less than 9 per cent of the total. On the other hand seventy-three per cent of the aggregate issues went either alone or along with other securities to retire bonds, as the second mortgage bonds of the Atchison, the income bonds of the Reading and the second consols of the Erie. In other words, these preference shares almost as a whole represent bonds, assessments, etc., and thus, as it were, come in between the former stock issued, common and preferred, and the fixed obligations of the new companies. More than this, it should be remembered, they follow, not the old fixed charges, but the fixed charges now greatly lessened by reorganization. What this implies we may hope will become more apparent when the times brighten.

Turning next to an examination of the individual certificates, we note that while they differ much in their form of expression, they have much in common. One observes at once that whereas not long ago the

preference certificate was generally very brief, leaving the holder to search the statutes of the State wherein the company is incorporated, the articles of incorporation, the company's by-laws and the minutes of its meeting when the stock was authorized, to learn his rights, now the certificates are comprehensive and state his rights quite fully. We recently came upon a preferred stock certificate of a dividend-paying company, but one that dates back a good many years, which omitted to state even the rate of dividend to which the holder was entitled, the only information therein contained being that the holder is "entitled to ——— shares of the preferred stock of the ——— R. R. Co." The more approved method now-a-days is to furnish explicit recital of all the rights possessed in the most accessible place—the certificate itself. This fact the citations given in the editorial of the current issue of the INVESTORS' SUPPLEMENT clearly disclose.

The majority of all the lawsuits in which preferred stocks have been involved have had to do, as all know, with either one of two questions, (1) whether the stock is cumulative, (2) whether the directors of the company can be required to pay a dividend in case the necessary money has been earned. Hence it is that, inasmuch as no one of the eight stocks is intended to be cumulative, the certificates state the fact emphatically. So also it is that the certificates seem to go to extraordinary pains to emphasize the right of the directors to pay or to withhold the dividends as they deem expedient. Six of the eight employ expressions similar to this: The holder shall be entitled to dividends "when and as declared by the board of directors of the company out of any surplus net profits of the company as determined by said board." The other two companies are the Oregon RR. & Navigation Company and the St. Louis & San Francisco Railroad. Their respective certificates say more briefly, but apparently with equal force, "to receive dividends, if declared", and "to receive dividends when earned and declared." No company can safely assign to any class of its stockholders the right, properly belonging only to its directors, to decide whether it is expedient that a dividend should be paid. These provisions, therefore, are eminently proper. The Northern Pacific certificates, unlike any of the others, require that the dividends be payable quarterly (March, June, September and December) and without deduction for any tax, Government, State or municipal, "that the railway company may at any time be required to pay or to retain therefrom."

With the certificate of the Erie Railroad Company was introduced a new provision to preclude the possibility at any time of the wrongful diversion to the common stock of the accumulated profits which if divided from year to year as earned would have belonged to the preference shares. The Erie, the Norfolk & Western, the Northern Pacific and the Reading in their preferred certificates have substantially the following provisions following a statement as to what dividends may be paid on the common stock: "But no dividends shall in any year be paid upon any such other stock out of net profits of any previous fiscal year in which the full dividends shall not have been paid on the preferred stock." The justice and wisdom of such a provision will commend it to all.

Time was when 7 per cent preferred stocks were common. The usual rate is now 4 per cent, with, however, the right in some instances to share *pro rata* with the

common stock after that stock has received dividends to a certain amount. The following table shows how our eight stocks are divided in this respect.

DIVIDENDS TO WHICH STOCKS ARE ENTITLED.

	1st pref. to circ.	Then 2d pf. to re-ceive.	Then common stock to receive.	All remain- ing divi- dends go to.	Pref. stock has prefer- ence as to assets.
<i>All non-cumulative.</i>					
Atch. Top. & Santa Fe Ry.	5	..	all	To common	Yes
Erie RR. Co.	4	4	all	do	Yes
Norfolk & Western Ry.	4	..	all	do	Yes
Northern Pacific Ry.	4	..	4	{ Both stocks } pro rata.	....
Oregon RR. & Navigation	4	..	4	{ Both stocks } pro rata.	Yes
Reading Co.	4	4	all	To common	....
St. Louis & San Fran. Ry.	4	4	all	do	....
Southern Ry.	5	..	all	do	....

As here shown, the Atchison and the Southern alone are 5 per cent preferred stocks, while of the others which are entitled in the first instance to 4 per cent, two, the Northern Pacific and the Oregon Railroad & Navigation, will come in for an equal share in any dividends declared after the common stock has received its 4 per cent.

Three stocks (Atchison, Norfolk & Western and Oregon RR. & Navigation) contain the provision that in case of liquidation or dissolution of the company, the preferred stock shall be entitled to receive its par value in cash before anything is paid on the common. Of how much consequence or significance this provision may be, we cannot say, though the circumstance that in pretty nearly every reorganization of which we have knowledge the preference shares have received decidedly better terms than the common stock, would seem to indicate that this right has by tacit consent been generally accorded, whatever the legal rights may have been. In our article on the industrial preferred stocks already alluded to was mentioned the fact that under the laws of New Jersey the preferred shares of industrial corporations possess a preferential claim upon assets in the event of liquidation, even though the certificates themselves may say nothing on the subject. We understand this fact was a surprise to the managers of some New Jersey corporations who had no idea that this right attached to their preferred stock. A railroad of course stands in different category from a manufacturing corporation—it seldom sells in case of liquidation for more than the amount of the mortgage foreclosed, so that the preferential lien on assets would seem of less account.

Five of the eight issues may be redeemed at the company's option at par in cash—these are the Erie, Northern Pacific and Southern Railway (the right in this latter case is not mentioned in the certificate but appears to have been reserved nevertheless) and the Reading and St. Louis & San Francisco. The right to redeem less than the whole issue is specifically mentioned only in the certificate of the Northern Pacific, but may be construed to belong to some of the other shares also. The Northern Pacific certificate is explicit, saying, "The company shall have the right at its option and in such manner as it shall determine to retire the preferred stock in whole or in part, from time to time, upon any first day of January prior to 1917."

The Reading shares embrace a feature that is novel and interesting. Besides common stock there were to be outstanding both first and second preferred. The old common stock of 41 millions was required to pay an assessment of 20 per cent in cash, receiving in return (for both old stock and assessment) 100 per cent of its par value in new common stock of an issue that was increased to nearly 70 millions through the adjustment made with the income bonds. To make, therefore, the lot of the common stock less hard and to

increase the chance of its ultimately standing well and receiving dividends, it was thought only right that one of the two issues of preferred stock preceding it should permit of retirement on terms fair to the holders, yet advantageous to the common stock. This end was accomplished by the provision that at any time after dividends at the rate of 4 per cent per annum shall have been paid for two successive years on the first preferred stock, the Reading Company without further consent from the holder or owner thereof may exercise the right to convert the second preferred stock, not exceeding \$42,000,000, at par, one-half into first preferred and one-half into common stock. The result of this transaction would of course be to leave the company with only two classes of stock, to decrease the dividend charge ahead of the common stock, and materially to improve in every way its outlook and standing.

What we have said above in connection with the article in the SUPPLEMENT we have no doubt will prove our point, that the refinement of detail often so noticeable in the modern railroad mortgage has not failed to extend also to the stock certificates. We have not alluded, as we intended, to the voting powers of the shares, or of the voting trusts in which a number of these stocks are temporarily held. We hope to do this, however, on a future occasion.

#### CAN A GUARANTY BE ENFORCED ON DETACHED COUPONS.

We referred two weeks ago to a decision of the Appellate Division—1st Department—of the Supreme Court of this State in the case of John Dougan vs. Evansville & Terre Haute Railroad Co., involving the question as to when the liability of a guaranteeing company for the payment of principal begins where it has guaranteed both principal and interest of the bonds of another company and this other company has defaulted on its obligations. Mr. Charles A. Boston, who was one of the counsel for the plaintiff in that case, has directed our attention to the fact that the same tribunal on April 9 in John T. Clokey vs. Evansville & Terre Haute RR., further interpreted the contract of guaranty and determined the question whether the benefit of the guaranty can be considered to extend to the holders of coupons who are not also the holders of the bonds from which the coupons have been cut. The point at issue it will be observed was an important one, and through the kindness of Messrs. Robinson, Biddle & Ward, who represented the plaintiff, we have been favored with a type-written copy of the full text of the decision.

The question as to the exact position of detached coupons has always been an interesting one. Not so very long ago it was a very live question too and excited a great deal of discussion. Every one will remember the practice which prevailed a few years since of cashing coupons instead of paying them, then holding these coupons alive and making them the basis for the creation of an obligation which it was sought to give a status superior to the bond itself. In other words, the coupons were used to the prejudice of the rights of the bondholders, the object generally being to get control of the reorganization of the property at a very small outlay of money. The practice was considered so pernicious that nearly all the new mortgages contain provisions intended to guard against such occurrences in the future. On the other hand, it is obvious

that the coupons may in perfectly legitimate ways come into the possession of another party and that in such instances hardship may result if the coupons when detached are deprived of any of the powers and qualities which they possess as part of the bond.

In the case under consideration the point at issue, as already stated, was whether a contract of guaranty of principal and interest could be enforced on the coupons where the coupons had passed out of the ownership of the bondholder. Obviously in the main the answer in this case must depend on the general position of detached coupons where the ownership is separate from the bond itself. The Court quite unexpectedly decides that a contract of guaranty cannot be enforced as against coupons clipped from the bonds to which they originally belonged. But it happens that the decision is not that of a unanimous Court and that two sets of views are advanced. The prevailing opinion was delivered by Judge Ingraham and concurred in by Judges Van Brunt and Parker, while Judge O'Brien prepared a dissenting opinion in which Judge Williams joined. The coupons on which the suit was brought came from the general mortgage bonds of the Evansville & Richmond, and the case reached the Appellate division on appeal from an interlocutory judgment overruling a demurrer to the complaint.

There was no allegation in the complaint that the plaintiff was now or had ever been the owner and holder of any of the guaranteed bonds, and no allegation that the owner of the bonds had demanded of the Evansville & Terre Haute Company or of the Evansville & Richmond Company the payment of the interest on the bonds; and there was no allegation of any assignment or transfer by the owner and holder of the bonds of any claim or demand for the interest on the bonds to the plaintiff. The one allegation was that the plaintiff was the owner and holder of the coupons at the time of the commencement of the action.

Judge Ingraham says that while the liability of the obligor upon coupons affixed to bonds has been much discussed, it seems to him that a distinction has been established as to the obligations of the obligor upon coupons of this character when remaining on the bonds and when detached therefrom and transferred to another person. To show the general view of the relationship between the bonds and the coupons, he quotes from *Bailey vs. County of Buchanan* (115 N. Y., 297,) as follows: "But the coupons, nevertheless, always have some relation to the bonds. Their force and effect and character may be determined by reference to the bonds. They are secured by the same mortgage and although unsealed are specialties like the bonds and are governed by the same statute of limitations which is applicable to the bonds. Until negotiated or used in some way they serve no independent purpose; and while they are in the hands of the holder they remain mere incidents of the bonds and have no greater or other force or effect than the stipulation for the payment of interest contained in the bonds; and while they remain in the ownership and possession of the owner and holder of the bonds it can make no difference whether they are attached or detached from the bonds, as they are then mere evidences of the indebtedness for the interest stipulated in the bonds."

The case is not the same, however, argues Judge Ingraham, where such coupons are detached from the bonds and transferred to another person. In that event, there seems to be imposed upon the obligor a

somewhat different liability and the coupons acquire a somewhat different character. Upon such transfer to a third party the coupons become independent obligations of the obligor, which can be enforced like any other agreement to pay money. The obligor then ceases to owe to the holder of the bond any sum of money as interest upon that bond. The holder of the bond then cannot sue the obligor for the interest that became due at the date of the coupon which has been severed and transferred to a third party, because by the transfer of the coupon the obligor becomes indebted to the transferee for the amount therein specified, the holder of the bond having by such transfer in effect released the obligor from the payment to him of the interest then becoming due, and by this transfer of the coupon given life to independent obligations of the obligor. This position, Judge Ingraham thinks, follows from what was said by Justice Field in delivering the opinion of the Supreme Court of the United States, in *Clark vs. Iowa City* (20 Wall, 589), namely: "These coupons, when severed from the bonds, are negotiable, and pass by delivery. They then cease to be incidents of the bonds and become in fact independent claims; they do not lose their validity if for any cause the bonds are canceled or paid before maturity; nor their negotiable character; nor their ability to support separate actions; and the amount for which they are issued draws interest from its maturity. They then possess the essential attributes of commercial paper, as has been held by this Court in repeated instances."

Coming now to the guaranty, Judge Ingraham says the question presented is whether the ownership of the coupons when the suit was commenced gave to the plaintiff a cause of action against the Evansville & Terre Haute upon the guaranty. By this guaranty the Terre Haute Company guaranteed "to the holder of the within bond the punctual payment of the principal and interest thereof when and as the same shall become due and payable." There is here no obligation, reasons Judge Ingraham, to pay the amount of the various coupons to the persons that may hold them not as incidents to the bonds but as independent obligations of the Evansville & Richmond Railroad Company. When the holder of the bonds transferred the coupon to a third party, he transferred to such third party an instrument which upon its transfer became a separate and distinct obligation of the Evansville & Richmond Company to pay upon a specific date a sum of money. "It is true that the consideration for that instrument was the agreement by the Evansville & Richmond Railroad Company to pay a sum of money as interest upon a bond; but upon the transfer of the coupons to a third party they ceased to be incidents to the bond and became independent claims. Such independent claims or obligations against the Evansville & Richmond Railroad Company were not guaranteed by this defendant, and do not come within the terms of the transaction by which the defendant agreed to become responsible for the payment of the principal and interest of the bonds to the holder thereof." The Court does not undertake to determine whether an assignment by the holder of the bond for an instalment of interest would have been a valid transfer of the obligation assumed by the Evansville & Terre Haute, as there was no allegation in the complaint that such an assignment had been executed.

As already stated, Judges O'Brien and Williams dissent from the conclusions of the majority of the Court.

Judge O'Brien quotes from the case of *The City of Kenosha vs. Lamson* (9 Wall 484), where it was said: "The coupon is simply a mode agreed on between the parties for the convenience of the holder for collecting the interest as it becomes due. Their great convenience and use in the interests of business and commerce should commend them to the most favorable view of the Court; but even without this consideration, looking at their terms, and in connection with the bond of which they are a part, and which is referred to on their face, in our judgment it would be a departure from the purpose for which they were issued, and from the interest of the parties, to hold, when they are cut off from the bond for collection, that the nature and character of the security changes, and becomes a simple contract debt, instead of partaking of the nature of the higher security of the bond, which exists for the same indebtedness." He also quotes from the same case referred to by the majority in their opinion, namely *Clark vs. Iowa City* (20 Wall, 583), where the Court said that "coupons, when severed from the bonds to which they were originally attached, are in legal effect equivalent to separate bonds for the different instalments of interest. The like action may be brought upon each of them, when they respectively become due, as upon the bond itself when the principal matures; and to each action—to that upon the bond and to each of those upon the coupons—the same limitation must upon principle apply."

Hence Judge O'Brien thinks, considering the language used, the intent of the parties and the fair inference to be drawn from the allegations of the complaint, and considering also that the interest guaranteed on such bonds was known to be and was in fact represented by coupons, and recognizing what was said in the opinion above quoted, that coupons when thus severed from the bonds "are in legal effect equivalent to separate bonds for the different instalments of interest",—considering all this, Judge O'Brien thinks the intent and purpose was to extend to the holder of the bonds, and to the holder of the coupons, whether they were the same or different persons, the benefit of the guaranty. Unless, as is fairly to be inferred, the parties intended the guaranty to be to the holder of the bonds and to the holder of the coupons—irrespective of whether they were held by the same or different persons—we would have the anomaly that in one case the coupons were guaranteed, in the other not. A coupon, though an independent instrument in the sense that suit may be brought upon it without the production of the bond, is still a part of the bond; and the fair inference from the wording that the defendant "guarantees to the holder of the within bond the punctual payment of the principal and interest", is that it includes whoever holds that which is representative of the interest as well as that which represents the principal.

#### TWO-CENT-PER-MILE PASSENGER RATES.

The address which Mr. James Charlton, the General Passenger and Ticket Agent of the Chicago & Alton Railroad Company, recently delivered at a public hearing before the Senate Committee and House Committee of the Illinois Legislature, in opposition to the proposal to compel the railroads by law to reduce their passenger rates to two cents a mile, has been reprinted in pamphlet form. It makes interesting and instructive reading and deserves wide circulation. For the rea-

soning and arguments which Mr. Charlton employs and the facts and figures he presents apply not only to the case of Illinois railroads, but they apply with even greater force to the case of the railroads of other Western States and to those of the Southern States, where the conditions are far less favorable for carrying out the proposition of two-cents-a-mile passenger rates.

Taking up the statement that railroad passenger rates have not decreased during the past twenty-five years, Mr. Charlton is able to show of course that they have very decidedly decreased. His figures possess special interest because they deal with specific cases of reductions. After noting that he entered the service of the Chicago & Alton twenty-six years ago, he points out that at that time and for a long while afterward—that is, until 1884—the rate from Council Bluffs and Omaha to San Francisco was \$100; to-day it is \$50. The rate between Chicago and Kansas City then was \$21 00, now it is \$12 50; between St. Louis and Kansas City it was \$12 00, as against only \$7 50 now. At that time the local rate on the Chicago & Alton was 5 cents per mile; to-day the local rate is 3 cents per mile, and the actual average rate obtained is 2.022 cents per mile. Moreover, the figures of the Inter-State Commerce Commission show that in the group of States in which Illinois is included it costs more per passenger per mile to carry a passenger than the Chicago & Alton for many years has earned per passenger per mile. Yet the Alton is exceptionally well situated in this matter of passenger business. It has the reputation of being the best local passenger railroad in the State of Illinois, having more large towns to serve, and therefore better earnings from passenger train service. Nevertheless the statistics show that hardly one of the Alton's strictly local trains is at the present time paying the average cost of operation.

For the year 1896 the average cost of running passenger trains over the road was about 70 cents per train mile; for 1895 it was 74 cents and for 1894 it was a little over 75 cents per mile. These figures, Mr. Charlton says, are below the usual actual cost, because the company did no work upon the road, or on cars or locomotives, that could be avoided. Just as little money as possible was spent to keep the road in operation. In good times, under normal conditions, a fair average cost for each passenger train would be at least 85 cents per train mile. The company has had a statement prepared of the train earnings for the period from February 16 to March 11 1897, with the following result.

No. of train.	Termini.	Average earnings per trip.	Distance.	Earnings per train mile.
1	Chicago and East St. Louis...	\$197 42	280 miles	71 cents
2	" " " "...	197 15	280 miles	70 cents
17	Springfield and Bloomington.	21 04	59 miles	35 cents
18	" " " "...	34 15	59 miles	58 cents
19	Bloomington and Girard.....	36 51	84 miles	43 cents
20	" " " ".....	32 74	84 miles	39 cents
21	E. St. Louis and Springfield...	66 26	96 miles	69 cents
22	" " " "...	59 61	96 miles	62 cents
39	Alton and Jacksonville.....	32 05	67 miles	48 cents
49	" " " ".....	32 98	67 miles	49 cents
69	Roodhouse and Jacksonville.	17 22	21 miles	82 cents
70	" " " "...	14 88	21 miles	71 cents

It will be seen that on a basis of an average cost of 85 cents per train-mile for running the trains, not one of these trains pays its way; and even on the basis of only 70 cents per train mile, only four out of the twelve trains earn enough to pay the average cost of operation. And yet these are trains which are carrying passengers at the highest rate per mile which the road is able to obtain under the law and against competi-

tion. Thus the figures given are conclusive that the trains could not be operated on a basis of two cents per mile—every one of them would have to be withdrawn.

It is sometimes urged that population has increased, and there are so many more people to carry that railroads can afford to convey them at a lower rate per head and still earn more than was earned years ago. But the reply to this is that population has not increased in proportion to the increase in railroads and the number of trains and the superior, and consequently more expensive, accommodations furnished. Twenty-six years ago there were only two lines between St. Louis and Kansas City. Now there are four. There was only one line between Chicago and Kansas City, now there are seven. There were only two lines between Chicago and St. Louis, and the Chicago & Alton did about 83 per cent of the business. Now there are three lines, and the Chicago & Alton does not do 50 per cent as much of the business as it did then. As to the extent of the train service each of these roads is running to-day twice as many, if not more, trains than any one road in the same territory twenty-five years ago.

Mr. Charlton quotes from the excellent pamphlet lately issued by Mr. Henry Apthorp, ex-Railroad Commissioner of Ohio, to show how at the same time the quality of passenger train equipment and service has been improved, at increased cost to the railroads. Mr. Apthorp said: "Passenger coaches have been improved, and they cost about twice as much as they did forty years ago. Wages are higher, many safety appliances have been added, safety heating and better lighting have been put on, station accommodations and service have been improved, more efficient inspection and safety signaling have been provided, the speed of trains has been increased, the tracks have been made better, and all this improvement at increased cost. \* \* \* Within the past few years on many railroads the speed of many passenger trains has been increased almost one-third. This is a saving of time to each passenger on the trains, with no additional charge, but with increased expense to the railways, for it costs more to run a train fast than to run it slow." In the same pamphlet, Mr. Apthorp made comparisons with the service in other countries, and reached the conclusion that the railway service in the United States, in station and train accommodations, is greatly superior to any railway service in the world of the same class and price. Enlarging upon this, Mr. Charlton notes that the higher rates which are obtained in England are obtained in a country in which the population is much denser than it is here. In England the population is 541 to the square mile. In the United States it is 23 to the square mile. In Great Britain and Ireland the total miles of railroad are 20,321; inhabitants per mile of railroad, 1,938. In the United States the total miles of railroad are about 180,000; the inhabitants per mile of railroad, 380. In Illinois, the total miles of railroad are 10,430; inhabitants per mile of railroad, 395.

Parts of Mr. Charlton's remarks are couched in a humorous vein. Here is a specimen which deserves reprinting: "The Chicago & Alton, gentlemen, is a purely and exceptionally American railroad. It is owned by native-born American citizens who live in his country and expend their incomes in it. Its directors are American citizens by birth. It is offi-

cered by American citizens by birth, except two subordinates, who do not direct its policy, and who, at any rate, were caught young. One of them has been over forty years in this country, and both are perfectly acclimated, mild and harmless, and innocent of foreign habits and opinions, and perfectly up-to-date citizens. I mention all this merely because one country editor who demanded an annual pass for his wife and did not get it and another who traded or loaned his editorial ticket and consequently had it taken up, suddenly became possessed with the insane idea that the Chicago & Alton was a foreign corporation because it would not submit to be blackmailed or swindled, and they have assiduously devoted themselves to the missionary work of spreading the opinion that we were a foreign corporation because we objected to dishonesty."

Speaking with reference to the harsh treatment of the railroads and the unfortunate condition to which they have been reduced as a result, Mr. Charlton says he has served railroads for over fifty years, but he does not own one share of railroad stock, and to-morrow if he were a millionaire several times over he would not invest one dollar in railroad stock. He would put his money into farms or other real estate which legislation and public prejudices have not yet attacked. If the Chicago & Alton were paying dividends to-day on the actual amount of money invested in the property, it would not be able to pay 2 per cent. Before Mr. Charlton's time the Alton was bought at sheriff's sale, and the then buyers, who are still holders of Alton stock, instead of taking the earnings of the road, put these earnings into the track and equipment year after year. The road and equipment and financial standing were not at that time very good, but by spending the earnings on the road instead of taking them in dividends, it was speedily brought to a comparatively high state of perfection. Hence it happens that while the Alton is paying 8 per cent dividends, on the amount actually invested the return is only 2 per cent. Contrast this with the result of the purchase of 160 acres of land from the Government at \$2 50 an acre and its sale to-day at \$100 an acre, making an investment costing \$400 worth \$16,000—this being by no means an isolated instance, but rather a fair sample. Does any one urge that the farmer should receive interest of 4, or 6, or 8 per cent on the original investment, instead of receiving the full interest on the present value of the farm?

If the roads should be forced to adopt the two-cent-a-mile rate, they would be compelled to run fewer trains and to employ fewer men. They would have to dispense with great numbers of trainmen, trackmen and shopmen, and it appears impossible to see how they could avoid making reductions in wages. The final result may be summed up as follows: Decreased wages, strikes, riots, bloodshed, loss of life and property, perhaps even revolution. And who would gain by reduced rates? Not the poor man. He does not travel a great deal. He cannot afford the loss in wages and the cost involved. On the average reduced rates would probably not save workingmen in Illinois ten cents each per year. But that which will save a workingman such an insignificant sum, and save more to those to whom it is not a felt burden to pay, will cost railroads millions.

Mr. Charlton well says that railroads, instead of being harassed, embarrassed and oppressed, should be welcomed, encouraged and protected. They have not

committed any crime against the sovereign people. On the contrary they have been chief agents in the development, progress and prosperity of the country. Wherever they run they have largely increased the value of every farm and every city, town and village lot. Almost beyond computation they have cheapened transportation of every kind. Food is cheaper because of them. What were luxuries and inaccessible, or too costly years ago, are common food to-day, through the instrumentality of the railroads. They bring to every Illinois home the luxurious fruit and food of the South and West at prices within the reach of all. To the railroads we owe it that we are paying only two cents letter postage to-day instead of twenty-five cents or more, as in days not very long gone by. They have made it possible to transmit with rapidity, certainty and safety the enormous quantities of newspapers and express packages for which formerly there were no facilities for transmission. Through them the farmer has access to markets that were beforetime inaccessible to him. For him they have increased the value of every bushel of grain and every product of the soil. Finally, "they have brought together and bound in one this country, which but for them might have hung together a little more loosely and dangerously, if even it had not had the misfortune to fall apart, which would have been the blackest fatality that has ever overtaken civilization."

### IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

Through the courtesy of the Collector of Customs at San Francisco we have received this week the details of imports and exports of gold and silver through that port for the month of March, and they are presented below, together with the figures for the preceding months, thus completing the results for the nine months of the fiscal year 1896-97. The imports of gold were somewhat greater than in March, the amount received reaching \$123,181, of which \$31,230 was in coin, and of silver there came in \$136,906, of which \$133,877 was bullion. There has been received during the nine months a total of \$9,361,759 gold and \$1,684,061 silver, which compares with \$727,486 gold and \$1,502,987 silver in 1895-96. The shipments of gold during March were \$6,995 coin and \$675 bullion, and the exports of silver have been \$108,616 coin and \$587,300 bullion. For the nine months the exports of gold have been \$920,886, against \$512,416 in 1895-96 and \$7,624,430 silver has been sent out, against \$9,580,873 in 1895-96. The exhibit for March and the nine months is as follows:

### Monetary and Commercial English News

LONDON, SATURDAY, April 10, 1897.

[From our own correspondent.]

Notice has been given by the Powers both at Athens and at Constantinople that if war breaks out between Greece and Turkey the Powers will hold the aggressor responsible and will not permit either party to benefit by any conquest it may make. Hope of averting war has been well-nigh abandoned.

In the meantime, the utter decay of the Ottoman Empire is becoming visible to the most superficial. Ismail Kemal Bey, ex-Governor-General of Tripoli, has addressed a very remarkable report to the Sultan, in which he frankly states to his sovereign that corruption is universal, is eating into the Army, has destroyed the Navy, and has alienated the feelings of the people, that the atrocities committed have earned for the Sultan the nickname of the "Red Sultan", and that his only hope now is to make a clean sweep of the Palace Brigade and to call honest men to his councils.

Hardly less remarkable is a speech delivered by the British Under Secretary for Foreign Affairs to his constituents last Saturday evening. Mr. Curzon, in defending the attitude of his Government, frankly explained that the policy of maintaining the integrity of the Ottoman Empire means that the great Powers have agreed among themselves that the break-up of the Ottoman Empire is inevitable, that they will avoid a war for sharing the spoils, and that they will continue united to distribute the various parts of the Empire as they fall off from the main trunk. There is a good deal of doubt whether Russia heartily agrees with this policy, but everyone believes that this country, Austria-Hungary, France and Italy are earnest in upholding it. The exact attitude of Germany is not understood.

In South Africa there is very little improvement. In Uruguay the revolution seems to be making rapid strides. For the strengthening of the army the President has called out 6,000 national guards. In Brazil the Fanatic revolt seems also to be formidable.

The stock markets continue very inactive, though speaking generally prices are well maintained. The market for American securities is as inactive as ever. The action of the Senate in regard to the Arbitration Treaty and the discussions in that body about Cuba have made a bad impression all over Europe, while the extreme protectionism of the Tariff bill causes a fear that there may be a Democratic reaction and that the battle for sound money may have to be fought over again. And the fear is increased by the result of the municipal elections in so many of the leading cities of the West.

The political troubles in Brazil and Uruguay, of course, have depressed the securities of those countries, but Argentine securities have steadily risen since the announcement that the full interest on the debt is to be resumed in July. International stocks are fairly well maintained and British railway stocks are being bought on a moderate scale by investors. Mining shares of Western Australia and New Zealand are also well supported, but there has been another fall in South African shares, partly due to the unsettled political conditions out there and partly to a pamphlet published in Paris, intended to show that the deep level mining companies need immense sums to continue operations.

The Directors of the Bank of England on Thursday reduced their rate of discount from three to two and a-half per cent. The rate of discount in the open market for three months' bills was barely over one per cent at the time. The general feeling was that the Directors would do wisely to put down the rate at once to two per cent, but no doubt the Directors thought it more prudent in the present unsettled state of Eastern Europe to act cautiously. To the Bank itself it makes very little difference whether the rate is two and a half or two per cent. In either case, it is completely out of the market. But the rule of the joint-stock banks is to pay upon their deposits one and a-half per cent below Bank rate. Consequently they in future will allow only one per cent upon deposits. The reduction, therefore, is really made to satisfy the joint-stock banks, not to increase the business of the Bank of England itself.

The silver market is very quiet and the India Council is holding out for a price which the market is unwilling to give. It offered on Wednesday 40 lacs, and sold only about 26 lacs at an average price of 1s. 3d. per rupee. Later in the day it sold by private contract about 4 lacs. It is understood that the

drain upon the Government treasuries in India on account of the famine relief works is very great and that the Council is not very anxious to sell. Unfortunately it seems certain now that the spring crops will give very little relief, and that therefore the works will have to be continued until August or September. There is little abatement in the plague.

The Board of Trade returns for March are very satisfactory at first sight. The value of the imports was a little over 40½ millions sterling, an increase of somewhat over 2¼ millions sterling, or nearly 6 per cent. The increases in the imports are chiefly in food and in the raw materials of manufactures. The value of the exports of British and Irish produce was under 21¼ millions sterling, an increase of nearly £1,200,000, or rather more than 5¼ per cent. The increase is mainly in the exports to the United States. In other words, it is the result of the rush to get goods into the United States before the new tariff is put into operation. Furthermore, it is to be recollected that there were five Sundays in March last year and only four this year.

At home trade continues exceedingly good; work is plentiful at good wages.

The "Railway News" of London reports the traffic receipts for the week ending April 4 of 55 railways of the United Kingdom which make weekly returns at £1,561,495, against £1,620,405 in the corresponding week of last year, a decrease of £58,910. For the fourteen weeks of the current half-year receipts were £20,890,149, an increase of £458,492.

The rates for money have been as follows:

London.	Bank Rate.	Open Market Rates.						Interest allowed for deposits by			
		Bank Bills.			Trade Bills.			Joint Stock Banks.	At Call.	7 to 14 Days.	H'ce
		Three Months.	Four Months.	Six Months.	Three Months.	Four Months.	Six Months.

Messrs. Pixley & Abell write as follows under date of April 8:

Gold.—With a good inquiry for the Continent, gold has been in keen demand, and the price is accordingly better than when we last wrote. Sovereigns amounting to £317,000 have reached the Bank from Australia. Arrivals: Australia, £352,000; China, £3,000; Bombay, £66,000; New Zealand, £9,000; Cape Town, £151,000; Chili, £6,000; total, £587,000. Shipments: Bombay, £15,000; Japan, £298,400; total, £313,900.

Silver.—The changes during the week have been unimportant, and the supplies have proved sufficient for all demands. Fixed to-day at 28 1/2d. New York has since sold rather freely, and the market closes weak. The Bombay price to-day is 77 1/2 Rs. per 100 tolas. Arrivals: New York, £161,000; Valparaiso, £47,000; total, £208,000. Shipments: Bombay, £159,000.

Mexican Dollars.—The last quotation is 27 3/4d., but next to nothing has been done in these coins. Arrivals from New York, £7,000. Shipments to Penang, £1,700.

The quotations for bullion are reported as follows:

WALL STREET, FRIDAY, APRIL 23 1897—5 P. M.

**The Money Market and Financial Situation.**—Foreign war news has taken precedence of all other influences in Wall Street during the week now closing. Ignorance as to the possible effect upon other European nations of open hostilities between Turkey and Greece had a depressing effect upon security values in this market on Monday. But Tuesday's foreign markets reflected the general belief that the war will be short and confined exclusively to the nations now involved, and the Street readily accepted that view of the case.

Following some activity which accompanied the decline of security values on Monday the volume of business has gradually become reduced to limited proportions, while values, with a few exceptions, have been restored.

The foreign exchange market was naturally somewhat disturbed and demand sterling closes a fraction higher than our last quotations, with some talk about possible gold exports; but unless there should be new and unexpected developments which would cause a heavy return movement of our securities from abroad, there does not seem to be any prospect of an advance in exchange rates in the immediate future.

It must be admitted that general business is lacking in activity with little to hope for in the way of better conditions until the tariff matter is settled. Enterprise in every department seems to be largely held in abeyance awaiting that event.

The money market continues stagnant and without change.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 1/4 to 2 per cent. To-day's rates on call were 1 1/4 to 1 1/2 per cent. Prime commercial paper is quoted at 3 1/2 to 4 1/2 per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £105,765 and the percentage of reserve to liabilities was 50.93, against 50.75 last week; the discount rate remains unchanged at 2 1/2 per cent. The Bank of France shows an increase of 5,025,000 francs in gold and a decrease of 175,000 francs in silver.

The New York City Clearing-House banks in their statement of April 17 showed an increase in the reserve held of \$1,532,500 and a surplus over the required reserve of \$46,966,900, against \$46,170,050 the previous week.

**Foreign Exchange.**—The market for foreign exchange has been dull and firm. Sight sterling bills advanced on Monday as a result of the war news, since which the market has been steady on a limited volume of business.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 4 86 1/2 @ 4 86 3/4; demand, 4 88 @ 4 88 1/4; cables, 4 88 1/2 @ 4 88 1/2.

Posted rates of leading bankers follow:

April 23.	Sixty Days.	Demand.
Prime bankers' sterling bills on London...	4 87 @ 4 87 1/2	4 88 1/2 @ 4 89
Prime commercial.....	4 86 @ 4 86 1/4	-----
Documentary commercial.....	4 85 1/2 @ 4 85 3/4	-----
Paris bankers' (francs).....	5 16 1/2 @ 16 1/4	5 14 1/2 @ 14 3/4
Amsterdam (guilder) bankers.....	40 3/4 @ 40 1/4	40 1/2 @ 40 1/8
Frankfort or Bremen (reichsmarks) bankers	95 1/2 @ 95 3/8	95 3/4 @ 95 1/2

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling par; Charleston, buying par, selling 1/8 premium; New Orleans, bank, \$1 50 premium; commercial, 25c. premium; Chicago, 40c. per \$ 1,000 premium; St. Louis, 75c. per \$1,000 premium.

**United States Bonds.**—Sales of Government bonds at the Board include \$181,000 4s. coup., 1925, at 124 to 124 1/2; \$28,000 4s. reg., 1935, at 123 to 123 1/2; \$18,000 4s. coup., 1907, at 113 to 113 1/2; \$4,000 4s. reg., 1907, at 111 1/2 to 111 1/2; \$15,000 5s. coup., at 114 1/2 to 114 3/4; \$4,000 5s. reg., at 113 1/4, and \$2,000 currency 6s at 107 1/2. Following are closing quotations:

X & Reichmarks.	4 79 @ 4 84	Mexican dollars.....	— 48 1/4 @ — 49 1/4
25 Pesetas.....	4 77 @ 4 81	Peruvian sols.....	— 43 1/2 @ — 45
Spain. Doubloons.	15 55 @ 15 75	English silver.....	4 86 @ 4 90
Mex. Doubloons.	15 50 @ 15 75	U. S. trade dollars.....	— 65 @ — 75
Fine gold bars.....	par @ 1/4 prem.		

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to \$5,000 Virginia fund. debt 2-3s of 1991 at 64 to 64 1/2, \$10,000 Tennessee settlement 3s at 79 and \$1,000 Louisiana con. 4s at 95 1/2.

The railway bond market has been dull and somewhat irregular, but taking the week as a whole generally strong. On account of the declaration of open hostilities in Eastern Europe, low-priced bonds followed the course of the stock market on Monday and declined on limited offerings. High-grade bonds were not disturbed to any appreciable extent, and in most cases the declines which were noted on Monday have been recovered. Bonds of the American Spirits Manufacturing Co. declined in sympathy with the stock, as noted below, selling to-day at a loss of 6 3/4 per cent. Other changes in quotations are generally unimportant and without significance. The active list includes Atchafalaya, Central of New Jersey, Chesapeake & Ohio, Chicago & Northern Pacific, North West., Fort Worth & Denver City, Lake Shore, Milwaukee & St. Paul, Missouri Kansas & Texas, Northern Pacific, Oregon Short Line & Utah Northern, Rio Grande Western, St. Paul Minn. & Manitoba, San Antonio & Aransas Pass, Southern Railway, Texas & Pacific, Wabash, West Shore, Brooklyn Elevated, Union Elevated, Columbus & Ninth Ave. and Lexington Ave. & Pavonia Ferry bonds.

**Railroad and Miscellaneous Stocks.**—The market for railway stocks was weak on Monday for reasons noted above. Although the foreign houses were closed on that day stocks with an international market were most conspicuous in the decline, led by Louisville & Nashville, which lost over 4 points. New York Central, Omaha and St. Paul lost over 3 points each, and Lake Shore, C. C. C. & St. Louis, North West., Burlington & Quincy, Rock Island and Southern preferred each declined 2 points or more. Wall Street took an exaggerated view of the situation, however, as was evidenced on Tuesday, when the European markets opened above Monday's closing prices in this market. There was a rapid recovery on Tuesday, since which the local market has been firm but dull. The coal stocks have been exceptionally strong, influenced to some extent by reports of prospective better conditions in the coal trade, but chiefly by efforts of the short interest to cover their contracts. Central of New Jersey has advanced 4 3/4 points and Delaware & Hudson 2 3/4 points within the week.

The miscellaneous list has moved in sympathy with railroad stocks, but with less pronounced results in most cases. United States Leather preferred has been weak on liberal offerings, said to be of long stock, and shows a net loss of 2 1/4 per cent. American Spirits declined on the failure to secure a quorum at the annual meeting, and therefore uncertainty as to when the annual statement will be given out. Western Union has been freely sold and shows a net loss of 1 1/4 per cent. American Sugar has fluctuated over a range of about 3 points and closes at 112 3/4. American Tobacco has declined 3 points.

## NEW YORK STOCK EXCHANGE—ACTIVE STOCKS for week ending APRIL 23, and since JAN. 1, 1897.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

\* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & Southwestern. † These figures include results on leased lines. ‡ Includes earnings from ferries, etc., not given separately. § Mexican currency. ¶ Includes only half of lines in which Union Pacific has a half interest. † Includes operations of the Chic. Burlington & Northern in both years. ‡ Covers results for lines directly operated east of Pittsburg. § Includes results on affiliated lines. ¶ Covers besides the Atlantic System the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans. † Includes St. Louis Alton & Terre Haute for all periods.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:  
For the second week of April our preliminary statement covers 75 roads, and shows 1.01 per cent decrease in the aggregate over the same week last year.

2d week of April.	1897.	1896.	Increase.	Decrease.

\* Week April 3.  
**Net Earnings Monthly to Latest Dates.**—The table following shows the net earnings of STREAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of April 17, 1897. The next will appear in the issue of May 22, 1897.

#### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

<sup>1</sup> Includes results on North Side Traction Company, which was leased in February, 1897 to the Second Ave. Traction Co.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of April 17, 1897. The next will appear in the issue of May 22, 1897.

-V. 64, p. 181.

**Flint & Pere Marquette Railroad.**

(Report for the year ending December 31, 1896.)

President Wm. W. Crapo in the report says in part :  
**General Results**—The year 1898, although showing an increase over 1895 in gross earnings of \$38,915 and in net earnings of \$15,962, did not equal expectations. During the early months there was an encouraging increase, especially in the movement of freight across Lake Michigan. The falling off in earnings during the summer months reflected the continued business prostration. While the population of the counties traversed has steadily increased, the road's passenger receipts have fallen from \$309,217 in 1897 to \$330,755 in 1898. This loss of revenue could not be met by reduction of train service. The public demands the same accommodations in speed and frequency of trains as in prosperous years.

The hard times are also seen in the diminution of lumber tonnage. In 1892 the rail shipments of lumber from the Saginaw Valley amounted to 427,490,000 feet; in 1895 to 398,327,000 feet; in 1898 to 230,572,000 feet. With the return of

normal business conditions it is reasonable to expect the movement of passengers and freight will be restored to former proportions.

There are other losses of traffic which are permanent. The revenue received for the transportation of logs during the last year amounted to only \$79,510, a loss of \$39,789 from the preceding year. The lumber products of the Western Division likewise have largely decreased in consequence of the exhaustion of the pine forests along its line. These losses have already been partially met by gains in other directions, and it is believed the acquisition of new business which is within reach will fully repair the deficiency.

**New Connections Opened.**—During the year a connection [ $\frac{1}{4}$  mile in length—Eds.] was made with the Detroit & Mackinac Ry. at Bay City. This improvement involved the construction of an expensive iron bridge across the Saginaw River, the cost of which was born equally by the Detroit & Mackinac and the Flint & Pere Marquette companies. The new line was opened for business Sept. 20, 1896, and is now bringing to us a substantial addition of traffic.

The extension of the road from Monroe to Toledo [ $25\frac{1}{4}$  miles, of which  $18\frac{3}{4}$  miles is owned in the name of the Monroe & Toledo Ry. and  $6\frac{1}{4}$  miles is trackage into Toledo over the Ann Arbor Railway—Eds.] was completed during the past year and has been in operation since Nov. 16, 1896. The increase of traffic resulting has been exceedingly gratifying.

**Manitowoc Car Ferry.**—The car ferry steamer "Pere Marquette," constructed to ply between Ludington and Manitowoc, did not enter upon her route until Feb. 19, 1897. She is now in regular service and has shown an ability to meet all the conditions of our lake navigation. This acquisition, which practically extends four tracks to a connection with the great railroad systems of Wisconsin, promises an important addition to the traffic of the company.

**Prospects.**—No further extensions are contemplated. With western terminals at Milwaukee and Manitowoc, and eastern terminals at Detroit, Port Huron and Toledo, the Flint & Pere Marquette is advantageously situated for local and through traffic. Upon the return of business activity and the maintenance of fair rates for passenger and freight service, it is not unreasonable to expect a more favorable financial exhibit in the future.

**Financial.**—[The expenditures on account of the Toledo extension amount to \$348,334 (of which \$233,174 incurred in 1896) and on the new car ferry to \$296,179. These items have been carried along in bills payable and explain the increase in floating debt. The funded debt has been decreased by the payment of \$40,000 equipment bonds. The company during the year has shown its enterprise in several ways: (1) By establishing the Manitowoc ferry for transfer of freight across Lake Michigan without breaking bulk (replacing the old Sheboygan route on which breakage was necessary); (2) by building the line to Toledo and so securing connection with the Columbus Hocking Valley & Toledo and other railroads; (3) by securing the Bay City connection with the Detroit & Mackinac, and (4) by the development of Pointe aux Barques on Lake Huron as a summer resort, with club quarters, etc. It is too soon of course for the earnings to show the full effect of all these changes, some of which, as said above, having been but recently completed.—Eds.]

Operations, earnings, charges, etc., have been as follows:

### Sunday Creek Coal Co.

(Summary of business for years ending Dec. 31.)

One of the best mines, No. 10, was accidentally destroyed by fire on December 1 last. The expense for reconstructing this will have to come out of the earnings of 1897. The results for the year were as follows:

	1896.	1895.
Received from sale of coal.....	\$314,484	\$389,118
Net income from rents, royalties, etc., etc.....	83,398	88,649
Total.....	\$397,882	\$477,967
Cost of production of coal.....	297,428	363,418
Net income.....	\$100,454	\$114,449
Interest on first mortgage bonds.....	\$24,000	24,000
Other interest and discount items.....	5,001	7,473
Taxes.....	7,532	7,229
Net income.....	\$36,536	\$38,702
Settlements to houses, real estate and mines.....	\$63,918	\$78,747
Sinking funds.....	19,457	12,185
	7,141	7,158
Surplus for dividends*.....	\$37,319	\$56,404

\* In February, 1895, paid 3 percent on preferred stock; in February, 1896, 3 per cent; in February, 1897, 2 per cent.

### American Bell Telephone Company.

(Report for year ending Dec. 31, 1896.)

The usual statistics were published in the CHRONICLE of April 3, page 661. President John E. Hudson says in part:

**Measured Service System.**—The adoption by many more of the exchanges throughout the country of the measured service and party line systems, under which the service can be furnished at the lower yearly rates has contributed materially to the gain of subscribers, bringing the telephone within the reach of many whose requirements for service are limited. One effect of the new system becomes apparent in the slightly reduced average rate of daily exchange usage—about one-fifth of a call per day—made by each subscriber throughout the country.

**Additions to Toll Lines.**—The extensive addition to the toll line systems, both of the local and long distance companies, is a notable feature. The new lines are substantially built and for the most part are equipped with copper wire in metallic circuits. Not less than 7,500 miles of new pole lines, carrying 53,000 miles of toll wire, have been constructed within the year, making the total length of wire employed for this purpose upwards of 268,000 miles. Within four years the mileage of toll lines has been doubled.

**Long Distance Company's System.**—In the Long Distance Company's system there were on Jan. 1, 1897, in operation, 7,344 miles of pole lines and cables and 107,409 miles of wire, connecting 183 offices; an increase during the year of 1,548 miles of pole line and cables, 17,048 miles of wire and 34 offices. In all there are 32 companies reached whose systems furnish our long line terminals. These companies report a total of 259,198 stations, of which 105,091 (40.54 per cent) are connected by metallic circuit. And of these 105,091 stations, 21,452 are equipped with long distance cabinet sets. The importance, not only to the business of the companies, but to the general business interests of the country, of this rapid extension of the lines can hardly be over-estimated. Isolated exchanges are steadily becoming less in number.

The Long Distance Company had invested, up to Dec. 31, 1896, in line construction, franchises, equipment and supplies, \$13,187,299. The company shows an increase in gross earnings in 1896 over 1895 of 20.6 per cent, the amount for 1896, gross, being \$1,599,589.74.

**Expenditures by Licensed Companies.**—The companies operating under our licenses expended during the year \$8,275,929 for new construction, to which amount is to be added an expenditure of \$1,169,924 for land and buildings. With the large cost of construction in cities of considerable size, the erection of suitable buildings for the operation of the service, has become, at many points, a matter of business necessity. The total investment in real estate, already in use or to be

employed for operation of the telephone business, is upward of \$8,000,000.

**Status of Litigation.**—In the suit of the United States vs. the American Bell Telephone Company and Alexander Graham Bell, the complainant began to introduce evidence in reply on April 27, 1896, and continued thereafter with some interruptions until July 2, 1896, when a short adjournment was taken. But the health of Special Assistant United States Attorney Charles S. Whitman, Esq., subsequently became so seriously impaired that there had to be an indefinite postponement of the proceedings. He died on Sept. 11, 1896, and no successor to his position has since been appointed.

In the suit of the United States vs. the American Bell Telephone Company *et al.*—the so-called Berliner case—the Government took an appeal from a decision in favor of the defendant by the Circuit Court of Appeals of the First District. This appeal was argued Nov. 9-11 last. The Court has not yet rendered its decision.—V. 64, p. 706.

## GENERAL INVESTMENT NEWS.

**Reorganizations, Etc.—Latest Data as to Defaults, Reorganization Plans, Payment of Overdue Coupons, Etc.**—All facts of this nature appearing since the publication of the last issues of the **INVESTORS' and STREET RAILWAY SUPPLEMENTS** may be readily found by means of the following index. This index does not include matter in to-day's **CHRONICLE**.

**American Grocery Co.—Petition for a Receiver.—Insolvency Not Alleged.**—At Trenton, N. J., April 19, Judge Kirkpatrick in the United States Circuit Court heard arguments of counsel for David Hunt and other stockholders asking for the appointment of a receiver for this company on the ground of gross mismanagement. No charge of insolvency was made, but it was maintained that the officers had unlawfully and without the consent of the stockholders changed the character of the business from a large wholesale to a small specialty business, to the great loss and injury of its stockholders. The *New York Sun* says:

A circular was read showing that the company dealt only in cigars, fatinaceous goods, French goods and canned goods. Counsel said the business would be wholly ruined unless the Court granted relief. The company's trade marks, valued at \$100,000, have been abandoned and disposed of practically without consideration; 22 clerks now do the work that formerly required 150. Without taking inventories the officers issued a financial statement, and had declared one dividend without any knowledge that it could be paid from the surplus, and which, in fact, had not been earned. President Marsalis was charged with attempting to get control of the stocks, and it was said that his salary of \$15,000 a year is exorbitant in view of the service rendered. Counsel for the company asserted that its indebtedness does not exceed \$40,000, and denied the charges of mismanagement and fraud.

Judge Kirkpatrick took the papers and reserved decision.—V. 63, p. 556.

**Baltimore & Ohio RR.—Preferred Stock Suit.**—The preferred stock case has been argued this week before the United States Circuit Court at Baltimore.

**Washington Branch Dividend Passed.**—The directors yesterday decided to pass the semi-annual dividend on the Washington branch stock, owing, it is said, to heavy expenditures for improvements and rolling stock. The Washington Branch RR. is a double-tracked line, extending from Relay House (9 miles west of Baltimore) to Washington, D. C., a distance of 31 miles. It has no bonds outstanding, and of its \$1,650,000 stock, \$1,002,800 is held as part security for the B. & O. consols of 1887. The State of Maryland also is understood to own \$550,000 of the issue. The stock has long paid dividends of 10 per cent per annum.—V. 64, p. 663.

**Brooklyn Elevated RR.—Kings County Elevated RR.—Brooklyn Rapid Transit.—Nassau Electric RR.—Coney Island & Brooklyn RR.—Brooklyn City & Newtown RR.—Passage of Bill to Allow Street Cars on the Bridge.**—Senator Brush's bill providing that the trustees of the Brooklyn Bridge may contract with any street surface or elevated railroad corporation to run cars from Brooklyn to New York across the bridge without charging an increase in fare over what the company that receives the contract now charges for one continuous ride on its lines was passed by the Assembly on April 21 by a vote of 98 yeas to 18 nays.

**Tolls Fixed.**—On April 15 the report of the committee appointed to determine the tolls to be paid by the companies for the privilege of running cars across the bridge was submitted to the bridge trustees and adopted by a vote of five to one. The companies, it is understood, are satisfied with the terms offered to them, but the surface lines are finding difficulty, it is said, in agreeing among themselves as to the percentage of the cars crossing the bridge that shall be allotted to each company. The allotment suggested is stated as fol-

lows: Brooklyn Heights, 60 per cent; Nassau Electric, 24 per cent; Brooklyn City & Newtown, 10 per cent; Coney Island & Brooklyn, 6 per cent.

The report adopted by the bridge trustees provides as to the surface roads as follows:

1. The four surface companies above named shall unite in an agreement for the common use of a single track going to New York on the north roadway and returning on the south roadway.
2. The cars shall be propelled by electric power.
3. The location of all tracks, switches, platforms, etc., shall be under the absolute control of the Chief Engineer of the bridge, and all plans for construction shall be approved by him.
4. The expense of all necessary changes and of all tracks, platforms, etc., shall be apportioned among the companies, and all constructions shall immediately become the property of the bridge.
5. The companies shall pay for each passenger transported across the bridge an amount as shall be determined by the trustees, and in addition thereto 5 cents per round trip for each car operated across the bridge.
6. The trustees shall have full power to regulate speed of cars, their headway and the style of cars, platforms, etc., to be used. The companies are to file a bond to ensure the prompt completion of the necessary changes, and separate bonds to ensure observance of the rules and regulations to be laid down.

As to the elevated roads, the report in general is similar to that for the surface lines, but it also provides as follows:

1. The companies shall unite in an agreement for the connection of their present tracks with the bridge at some point south of Tillary Street, so that their trains shall reach the north track of the present bridge railroad by a single track and shall also leave the south track of the bridge railroad by a single track.
- 2-4. The provisions of sections 2 and 3 are substantially the same as in the preceding report touching the surface roads. Section 4 requires that the necessary rights of way and franchise shall be paid for by the companies.
5. Each car of either company intended to be used on the bridge railroad shall be equipped with the same style of grip, braking appliances, etc., as the bridge cars, and one car of each train shall also be equipped with electric motors identical with those used on the bridge trains. Between the point where connection is made with the bridge cable and the station nearest to the bridge the trains shall be run by their electric motors.
- From the time when the locomotives shall be detached from the said trains at the station aforesaid until it is attached again on the return of the train from New York the cars shall be under the exclusive management and control of the trustees of the New York and Brooklyn Bridge and of their employees.
6. The trustees shall have full power to make any other regulations which shall seem reasonable relative to the transportation of cars over the bridge, including the payment of tolls or fares, etc.
7. The companies shall pay for each passenger transported across the bridge such sum as the trustees shall fix, and in addition they shall pay 12½ cents per round trip for each car transported as aforesaid, but if the cars should at any time be operated across the bridge by the companies with their own power the sum for round trip for each car shall be 5 cents.

It is said it will take the elevated companies about eight months to perfect their arrangements for crossing the bridge.—V. 64, p. 751, 753, 469; v. 63, p. 758, 557.

**Buffalo Traction.—Mortgage for \$5,000,000.**—The company has made a mortgage to the Central Trust Company as trustee to secure \$5,000,000 of 5 per cent \$1,000 forty-year bonds, to be issued at not exceeding \$50,000 per mile of track actually constructed.—V. 62, p. 547.

**Calumet Electric Street Ry., Chicago.—National Bank of Illinois to take the Road.—Probable Default May 1.**—Receiver McKee of the National Bank of Illinois, and Farson, Leach & Co., have reached an agreement relative to the Calumet Electric Street Ry. providing, it is stated, that the bank shall take over and own the \$2,843,000 of 5 per cent bonds (of the total outstanding issue of \$2,920,000) and the \$483,500 stock (issue outstanding \$500,000) which were pledged with it as collateral; also the real estate and other property of the road. On the other hand, the bank will surrender to Farson, Leach & Co. its claim against the firm on account of loans which with interest is said to aggregate about \$2,600,000. An arbitrary valuation of \$3,000,000 is placed upon the road, and on this basis Farson, Leach & Co. will be allowed an interest in the property which, it is said, will approximate 10 per cent if a sale is made in three years. As the bank now owns practically all the company's securities, it is thought no reorganization will be undertaken, though default on the 5s not held by the bank is expected May 1. Mr. Farson, it is stated, will continue his connection with the management. A bill has been filed to give legal effect to the settlement. In good times it is thought the road should earn between \$50,000 and \$100,000 net.—V. 63, p. 1158.

**Cape Fear & Yadkin Valley Ry.—Foreclosure Case Reopened.**—At Raleigh, N. C., April 23, Judge Simonton, in the United States Court, on petition of the New York Committee, issued an order reopening the foreclosure case for a supplementary hearing on the question whether the road shall be sold as a whole (as ordered in the decree recently issued) or in the sections represented by the three series of bonds. The hearing is set for June 9 at the Asheville Court.—V. 64, p. 706.

**Central Transportation Co.—Pullman Palace Car.—Annual Meeting.—Status of Litigation.**—At the annual meeting held this week by the Central Transportation Co., President B. P. Odyke read a report relating to the pending litigation between the company and the Pullman Palace Car Company. The "Philadelphia Ledger" says:

The Central Transportation Co. was leased for a term of fifteen years to the Pennsylvania RR. Co. at a rental of 12 per cent on the capital stock. The Pullman Co. took a lease of the Central for ninety-nine years, assuming the unexpired portion of the Pennsylvania lease, and, until its expiration, paid the stipulated 12 per cent. At the end of that period the Pullman Co. claiming it could not earn that interest, offered 4 per cent, and the then directors agreed to take it, but, before the annual meeting, concluded to submit the matter to the Central Company's stockholders, who, at the meeting, repudiated the agreement made by the directors. The Pullman Co. declined to pay the old

rate, and the Central Transportation Co. then brought suit for the recovery of its property.

The President's report stated that since the last annual meeting the Pullman Co. had taken an appeal to the Supreme Court of the United States from the decree in favor of the Central Transportation Co. for \$4,235,044. That pending this appeal the Pullman Co. also took an other appeal to the Court of Appeals of the United States for the Third Circuit, thus raising a conflict of jurisdiction for the purpose of securing delay in the final disposition of the case. The Central Co. took steps to have the latter appeal disposed of, and raised both the question of jurisdiction and merits of the cases. The Court sustained its jurisdiction, but declined to pass upon the merits until the case before the Supreme Court had been decided. The company then moved to have the appeal to the Supreme Court dismissed, but declined making any decision as to jurisdiction until the case had been heard on its merits. An appeal to advance the hearing was denied and the case cannot be heard until next winter.

The Treasurer's report showed liabilities (including 46,949 shares of the company at \$38 per share) of \$1,784,399 and assets (not including equipment and other claims against the Pullman Company) of \$154,375. The receipts of the company, including \$30,000 repaid loans, were \$35,755; cash on hand April 6, 1896, \$21,799; total cash, \$57,555, applied as follows: Expenses, \$8,117; collateral loans made, \$46,000; cash on hand, \$3,437.

The directors are B. P. Obdyke, William H. Lucas, George K. Reed, Francis F. Milne, John S. Stevens, Thomas G. Hood, James A. Weir, Henry Whelen, Jr., Milton C. Work; Secretary and Treasurer, Frank Weckerly. Three trustees, of whom William E. Lockwood is one, hold a block of the stock to prevent its purchase by the Pullman Co.—V. 63, p. 754.

**Cincinnati Inclined Plane Ry.—Injunction Against City.**—Judge Hunt, of the Superior Court, at Cincinnati, has granted the injunction applied for by Col. St. John Boyle to restrain the City of Cincinnati and the Cincinnati Street Railway from interfering with the Cincinnati Inclined Plane road until the expiration of a six-months period granted Dec 19, 1896, by Judge Smith of the same Court. This prevents the opposing interests from tearing up the tracks as had been proposed. Negotiations are pending which Col. Boyle believes will result in the city granting the company a new franchise, but if this is not obtained promptly application will be made to have the injunction extended.—V. 63, p. 1114.

**Citizens' Street RR., Indianapolis.—Supreme Court Upholds Company's Franchise—Claim to Perpetuity of Franchise Not Passed Upon.**—At Washington, April 19, the United States Supreme Court, by a practically unanimous opinion, modified and affirmed the decision of the lower court in the case of the City Railway Company of Indianapolis, appellant, vs. the Citizens' Street Railway Company. The decision is in favor of the company's franchise, but does not pass upon the company's claim that its rights are perpetual. Summing up the opinion, Justice Brown says:

"We are therefore of the opinion that the complainant company had a valid contract with the city under the original ordinance of January 18, 1884, as amended by the ordinance of April 7, 1890, which will not expire until January 18, 1901, and that the contract and the ordinance of April 24, 1893, with the defendant company is invalid in so far as it may be construed to interfere with the complainant in the construction, operation and maintenance of its street car system in the city of Indianapolis. But as we are not called upon to express an opinion whether the complainant is entitled to a perpetual franchise for the city the decree of the court below must be modified by striking out from the second paragraph the words 'Without regard to any limitation of time mentioned to any ordinance of the city' and also the word 'forever,' and so modified it is affirmed."

This suit was brought by the Citizens' Street RR. Company to enjoin the City Street Railway Company, a new corporation seeking to establish itself under agreement made with the city under date of April 24, 1893, from tearing up or otherwise interfering with tracks of the plaintiff or from running its cars over these tracks. The suit brought forward the question as to when the franchise of the Citizens' Street Railroad expired. The city contended that it ended January 18, 1894. The contention of the company was that it had a perpetual franchise, or if not that a franchise that ran until 1901.

The "New street-car bill" enacted by the last Indiana Legislature was particularly aimed at the Citizens' Company, although it applies to "all cities in the State having a population of over 100,000." By its provisions the franchise of the Citizens' Company is made to terminate in 1901. The bill limits all future franchises for electric railroads in cities of the class referred to to thirty years, at the end of which time the Board of Works is empowered to offer the privileges enjoyed under the expiring contract to free competition, and if the occupying company shall not be the successful competitor, the one that is shall be entitled to purchase the plant and equipment in use at an appraised valuation to be legally ascertained.

**Injunction Granted to Prevent Operation of Three Cent Fare Law.**—Judge Showalter, of the United States Circuit Court, yesterday decided in favor of the company upon the application for an injunction to prevent the operation of the three cent fare law. The five cent fare will be restored pending the final test of the legislative Act involved. This Act provides as follows:

"That it shall be unlawful for any company organized under the provisions of this Act and owning, controlling, running or operating any street railroad or system of street railroads in any city having a population of 100,000 or more, according to the Census of 1890, or any officer, agent, servant or employee of such company, to demand, charge, receive or collect from any passenger upon its road or system of roads a cash fare of more than 3 cents for any one trip or section. Such company, officers, agent or employee shall, upon conviction thereof, be fined in any sum not less than \$50 and not more than \$500."—V. 64, p. 754.

**Citizens' Fraction Co. of Oshkosh, Wis.—Mortgage for \$200,000.**—The company has made a mortgage for \$200,000 to the New York Security & Trust Company as trustee, to provide means for electrical equipment.

**City & Suburban Railway, Baltimore.—Bonds Listed.**—On the Baltimore Stock Exchange have been listed the Baltimore Catonsville & Ellicott's Mills Passenger RR. \$500,000 first mortgage 5s July 1, 1916 (principal only is payable in gold), each carrying the following guaranty:

"For value received the City & Suburban Railway Company hereby guarantees unconditionally the punctual payment of the principal and interest of the within bond at the time and in the manner therein specified, and covenants to default of payment of any part thereof by the obligor to pay the said principal and interest of the within bond as the same shall become due upon demand of the holder hereof."

The capital stock is \$500,000, all owned by the City & Suburban Railway Company; Safe Deposit & Trust Company of Baltimore is mortgagee-trustee. Road extends from intersection of Pratt Street and Frederick Avenue to Catonsville in Baltimore County, 5.51 miles double-track road (11.02 miles single track).—V. 62, p. 547.

**Detroit & Lima Northern Ry.—Lima Northern Ry.—New Line Completed.**—The Detroit & Lima Northern will open its line on May 15 from Adrian, the terminus of the Lima Northern, to Tecumseh, Mich., a distance of 14 miles. The road is an independent property but will be operated in connection with the Lima Northern and will run its cars into Detroit over the Wabash.—V. 63, p. 229.

**Iowa Telephone Co.—New Mortgage.**—The company has made a mortgage for \$750,000 to the Illinois Trust & Savings Bank of Chicago as trustee to provide for improvements, etc.

**Kanona & Prattsburg Railway.—Incorporation.**—This company has been incorporated at Albany with a capital stock of \$120,000, as successor of the Kanona & Prattsburg RR. The incorporators are Lewis V. P. Randolph, J. L. Suydam, William Carpenter, H. V. Post, Joseph McNamara, L. M. Jones, C. P. Pomeroy, J. W. Fowler and W. H. Nicholas.

**Kansas Central RR.—Union Pacific Ry.—Foreclosure Sale May 25.**—The Kansas Central RR., extending from Leavenworth to Miltonvale, Kan., 165 miles, is advertised to be sold under foreclosure May 25. Of the \$1,347,000 outstanding bonds \$1,345,000 have been held as part collateral for the Union Pacific collateral trust gold notes (Morgan notes). For the year 1895-96 the gross earnings of the road were \$140,846; deficit from operating, \$4,180, against net earnings of \$9,979 in 1894-95; charges, \$155,833.—V. 64, p. 758.

**Lake Shore & Michigan Southern RR.—Progress of Exchange of 7s for New 3½s.**—We hear that about \$18,000,000 of the new 100-year bonds have thus far been taken for the old maturing issues. The fact that the old bonds are currency bonds and the new issue is payable principal and interest in gold has no doubt been an important consideration with investors in view of the distrust still felt regarding our currency condition.

Messrs. Speyer & Co. announce that the offer to exchange existing bonds for new bonds at 102½ per cent, will remain open until June 1.—V. 64, p. 707.

**Lexington Terminal.—Foreclosure Sale June 1.**—The foreclosure sale of this road extending from Lexington to Crawford, Ga., 4½ miles, is advertised to take place at Lexington June 1. The interest on \$44,000 of bonds is in default.

**Louisville Evansville & St. Louis Consolidated RR.—Notice to Holders of Second Mortgage Bonds Dated Oct. 1, 1886.**—The Norton committee gives notice that the time has been extended to May 1, 1897, for the deposit of bonds. More than two-thirds of the outstanding bonds of above issue have been deposited.—V. 64, p. 664.

**Manhattan (Elevated) Ry.—Assessment for 1895 Vacated by Court of Appeals—Taxes Paid.**—The Court of Appeals on Tuesday reversed the decisions of the lower courts, vacated the assessment of personal property for 1895, and ordered the Tax Commissioners to make a new assessment. Mr. Gardiner, the attorney for the company, says in substance:

The amount for which the company was assessed was \$16,496,995, and the tax actually collected by the city was \$363,986. This sum, with interest, amounts to-day to \$321,769. Certain proceedings were taken by the Manhattan Company to review this tax, but Justice Pryor dismissed the writ and confirmed the assessment. The company appealed to the Appellate Division, which on June 8, 1896, affirmed the assessment. The company then appealed to the Court of Appeals. The personal property tax for the year 1894 (\$283,092) was also paid under protest, and with interest it amounts to-day to \$316,449. After a very complicated litigation the Corporation Counsel and the company agreed that proceedings in the 1894 tax matters should be suspended until after the decision of the Court of Appeals in the 1895 case. Hence, the decision of the Court to-day has a direct bearing upon the taxes of 1894.

The company contended that no assessment should be made upon the personal property, because its value is less than the company's obligations, the real value of the personal property being in the franchises, which are the source of its earning power, and which cannot be taxed. In the office of the Corporation Counsel it is held that the fact that a new assessment has been ordered shows that the Court holds that the company has assessable personal property. A new assessment will be made, and it is claimed the company will have to pay it.—V. 64, p. 517.

**Memphis & Charleston RR.—Stay in Foreclosure.**—In the United States Circuit Court at Nashville Judge Lurton allowed the appeal of the Central Trust Co., trustee under the

general mortgage, for a stay in the foreclosure under the consolidated mortgage which was ordered in February last. The case, it is now expected, will go over until the October term of the Court.—V. 64, p. 373.

**Metropolitan Railway Company of Louisville.**—*Incorporated.*—This company has been incorporated by the following persons, each owning five shares of stock, who are also the directors: Geo. H. Harris, Washington, D. C.; Robert M. Kilgore, P. Galt Miller, J. W. Woolfolk, New York City; Hugh R. Garden, John H. De Witt, James F. Grinstead, Thomas F. Hargis. The authorized capital stock is \$1,000,000, in shares of \$100 each.

The company by its articles of incorporation is authorized to build and operate a railway through the following streets:

Main, Story, Frankfort, Market, Jefferson, Green, Walnut, Chestnut, Broadway, York, Breckinridge, Kentucky, St. Catherine, Oak, Ormsby, Weissinger, High, A. B. C. First to Thirty-ninth, inclusive, Brook, Floyd, Preston, Jackson, Hancock, Clay, Shelby, Campbell, Wenzel, Underhill, Barrett and Morton. Total about 150 miles.

**Missouri RR.—Lindell Ry. (St. Louis).**—*Control Purchased.*—Edwards Whitaker and Charles D. McLure, President and Vice-President respectively of the Lindell Railway Co., have purchased "practically all" of the \$2,300,000 stock of the Missouri RR. Co. at 170 per \$100 share, say \$4,000,000, payable in cash. The transaction has given rise to rumors that a general consolidation of all the St. Louis street railways may shortly be effected.

**Missouri Pacific Ry.—St. Louis Iron Mountain & Southern Ry.**—*Notice as to Extension of Bonds.*—Vermilye & Co. and Kuhn, Loeb & Co. announce that practically all of the Iron Mountain firsts have been extended and that no further bonds can now be received for extension. Of the second mortgage bonds a very large proportion has likewise been extended. The second mortgage bonds not yet presented will be purchased at par and accrued interest, or for a short time they can be extended upon payment of a premium of 1 per cent. This privilege, however, is subject to withdrawal without notice.—V. 64, p. 567.

**Montgomery Hayneville & Camden RR.**—*Mortgage for \$1,400,000 Authorized.*—The stockholders on April 13 authorized an issue of \$1,400,000 thirty-year first mortgage 5 per cent gold bonds. It is hoped to build the road from Montgomery to Camden, Ala., 75 miles, this year. The contract for building the first 25 miles has been let to Messrs. Joseph Ginnini & Co. of Pittsburg. Work is not to commence until a subscription of \$20,000 is secured in Montgomery. The officers of the company are: President, Sol. D. Bloch; Secretary, Major James T. Beck; Treasurer, Hon. John L. Cobbs; Chief Counsel, Governor Thomas G. Jones; Chief Engineer, Mr. James T. Milner. Hayneville and Camden are the county seats of Loundes and Wilcox counties respectively. They lie southwest of Montgomery, and at present are reached by no railroad.—V. 64, p. 611.

**Montreal Street Ry.**—*New Stock.*—The directors, it is stated, have decided to issue immediately \$500,000 of new stock, instead of \$1,000,000, as permitted by the shareholders.—V. 64, p. 80.

**New Albany Ry.**—*Bondholders' Meeting.*—A meeting of the bondholders was held in room 19 The Louisville Trust Co. building on Tuesday, April 30. The Louisville Trust Co. is one of the mortgage trustees.

A committee consisting of Messrs. Louis Hartman, of New Albany, Lafon Allen and W. R. Belknap was appointed, with power to call another meeting whenever necessary.

**New York & Harlem RR.**—*Meeting to Vote on New Mortgage.*—The stockholders will meet at the Grand Central Station, New York, May 18, 1897, at 2 P. M., to authorize the new mortgage required to carry out the refunding plan. The mortgage will secure 3½ per cent bonds for an aggregate principal sum not exceeding \$12,000,000 payable May 1, A. D. 2000, interest payable semi-annually, both principal and interest to be payable in gold coin of the United States of the present standard of weight and fineness. The mortgage is to cover "any or all of the railroads, terminals and other properties, leasehold interests, equipment and franchises and income of the company."—V. 64, p. 755.

**Oregon Improvement.**—*Waterbury Committee to Proceed with Reorganization—Assessments Payable May 11—Penalty on Deposits after that Date.*—The Waterbury Committee announces its intention to proceed with reorganization under the plan summarized in the INVESTORS' SUPPLEMENT and fully described in the CHRONICLE, V. 62, p. 990. The first installment of the cash assessment on the old securities has therefore been called and must be paid on or before May 11. This installment, being 10 per cent of the total assessment, is as follows: On each consolidated mortgage bond, \$12 50; on each share of preferred stock, \$1 25; on each share of common stock, \$1 00. Further deposits of securities will be received without penalty to and including May 11. See further particulars in our advertising columns.

The deposits with the committee are as follows:

	Deposited.	Total issue.
First mortgage bonds.....	\$3,413,900	\$4,951,000
Consolidated mortgage bonds.....	3,412,000	6,214,000
Common and preferred stock.....	A majority	\$7,310,000

The committee in regard to the property says:

The net earnings, as reported by the receiver, are now showing increase over last year. The receiver also reports that the outlook is favorable. The time has come, however, in the opinion both of the committee and the receiver, when a certain number of improvements and purchases for the benefit of the company which the assessment is intended to cover should be made. Both the committee and the re-

ceiver believe that the results of such expenditures will be advantageous. The committee has therefore determined to proceed with the plan of reorganization, and has called for the first installment of the assessment, which is only 10 per cent of the whole assessment.

The negotiations with the Rolston committee have been continued as long as is considered worth while, and the extension of time for deposits is allowed in order that the minority interest may have opportunity to take part in the reorganization.—V. 64, p. 605.

**Pittsburg Bessemer & Lake Erie RR.**—*The \$10,000,000 Mortgage Filed.*—The company is filing its new mortgage for \$10,000,000 in favor of the United States Trust Company of New York as trustee. The bonds are fifty-year 5 per cent gold bonds.—V. 64, p. 135.

**Quincy Omaha & Kansas City RR.**—*Sold.*—This road was purchased yesterday at foreclosure sale for \$300,000 for the bondholders.—V. 64, p. 470.

**Roaring Creek & Charleston RR.**—*New Receiver.*—Judge Jackson, of the United States Court, as requested by Henry C. Terry, has appointed Thomas Fisher Receiver in place of C. T. Dixon. Dixon was called upon by the Court last February to show cause why he should not be removed and also to explain why he had failed to issue \$150,000 receiver's certificates to complete the road, as ordered by the Court in June, 1895. This road, which is said to be 36 miles long, was completed in December last from a junction with the West Virginia Central & Pittsburg, eight miles from Elkins up the Roaring Creek Valley, reaching coal lands said to be of importance.

**Southern Electric Ry., St. Louis.**—*Change of Management.*—The controlling interest in the stock of this company, which has been held in Louisville, was purchased recently by St. Louis men at a price said to be \$85 per share for the preferred and \$42 50 for the common stock. A little over 6,000 shares of preferred and 2,000 of common are understood to have changed hands. Charles F. Orthwein has been elected President, C. H. Spencer, Vice-President. Mr. Joseph S. Minary, Secretary, was re-elected. Messrs. Henry Nicolaus and Harrison I. Drummond, with the President and Vice-President, comprise the new directory.

**Trans-Missouri Freight Association.**—*Petition for Rehearing.*—At Washington, April 19, John F. Dillon, as counsel for the Union Pacific, the St. Joseph & Graud Island and the Missouri Pacific railway companies, filed a petition with the Supreme Court for a rehearing of the case recently decided against the Trans-Missouri Freight Association.

Judge Dillon in his petition presents the following arguments for reopening the case:

A doubt exists whether only the particular tariff agreement of March 15, 1889, is affected by the decision, or whether a general injunction is authorized against the eighteen defendant companies forbidding them to violate the Anti-Trust Law.

To issue a general injunction or any other sort of injunction, except against the particular agreement set forth in the bill of complaint, would be contrary to section four of the Anti-Trust Act, which requires that the petition for an injunction shall "set forth the case." A court is not authorized to issue a general injunction on a general duty to obey the law. No "case" has been presented, the proceedings having been without complaint or answer or proof or hearing or determination. If the statute is construed as authorizing the issue of a general injunction, it is contrary to article 3 of the Constitution, which expressly defines the jurisdiction of the courts as extending to "cases." A general injunction if issued would settle nothing. To make it effective it would be necessary for the court to determine specifically just what acts have been committed and whether they were within the general purview of the injunction.

A general injunction would be void, moreover, under Article Fifth of the Constitution, because it would undertake to deprive defendants of life, liberty and property without due process of law. The acts forbidden by the Anti-Trust Act are misdemeanors, punishable by fine and imprisonment, and thus constitute a crime demanding trial by jury. A court of equity, without a jury, is incompetent to try crime.

When it was shown that this agreement of March 15, 1889, was dissolved and there was no allegation of a subsequent agreement or conspiracy, the bill should have been dismissed. The court overlooked, it is claimed, also, the proceedings of Congress in enacting the statute under consideration. These show that Congress intended to apply the Anti-Trust provisions in the case of common carriers only to cases where the combination was for the purpose of raising rates of transportation above what is just and reasonable. If the statute applies to transportation by common carriers, its terms and provisions must be construed according to their common law meaning.

Finally, it is claimed, the rehearing should be granted, to be had at the same time as the hearing of the joint traffic case; or at least the question of granting a rehearing should not be decided adversely till after the joint traffic case is heard. To do otherwise might work hardship and injustice to the defendants.—V. 64, p. 665.

**United States Electric Light.**—*New Debentures.*—The debenture 6 per cent bonds for \$300,000, due May 1, 1907, which were authorized at the annual meeting at Harper's Ferry, are offered to the stockholders at par to provide for improvements.

**Utah Central Ry.**—*Foreclosure Sale, May 8.*—The sale of this road, which was to take place on April 17, has been postponed till May 8.—V. 64, p. 713.

—The United States Life Insurance Co., 261 Broadway, is presenting to its friends a very attractive volume written in support of the principles of life insurance as a beneficent system. The title of the book is "The Ideal Protection," and is from the pen of Mr. William T. Standen, the Actuary of the United States Life.

—The new loan of the City of Cleveland four per cent sewer bonds, due 1924, are offered for sale by Messrs. W. J. Hayes & Sons. See advertisement.

—Attention is called to a list of municipal bonds advertised on our viiiith page by Messrs. Rudolph Kleybolte & Co.

—Messrs. N. W. Harris & Co. will occupy their new offices at 31 Nassau Street on May 1st.

## Reports and Documents.

### PITTSBURG CINCINNATI CHICAGO & ST. LOUIS RAILWAY COMPANY.

SEVENTH ANNUAL REPORT FOR THE YEAR ENDING  
DECEMBER 31, 1896.

PITTSBURG, PA., April 12, 1897.

To the Stockholders of the Pittsburg Cincinnati Chicago & St. Louis Railway Company:

Your Directors submit herewith their report of the operations of your line, and of the other roads in which you are interested, for the year ending December 31st, 1896, showing the physical condition of these properties and the financial condition of your Company at that date.

#### PITTSBURG CINCINNATI CHICAGO & ST. LOUIS RAILWAY.

Main Line (including Steubenville Extension Pennsylvania Railroad, 1-23 miles)..... 943-41 miles  
Branches..... 148-13 "  
Line used jointly with other companies..... 59-47 "  
Total..... 1,151-01 "

#### EARNINGS.

	1896.	1895.	Inc. or Dec.
Freights.....	\$9,730,176 63	\$10,645,368 24	D. \$915,191 61

Taxes.....	687,553 82	658,014 33	I. 29,539 49
<b>Totals.....</b>	<b>\$10,588,979 34</b>	<b>\$11,248,545 48</b>	<b>D. \$659,566 14</b>

Ratio of expenses to earnings..... 73.69 per cent. 72.85 per cent. I. 0.84 per cent.

Gross earnings of the Pittsburg Cincinnati Chicago & St. Louis Railway..... \$14,370,362 28  
Operating expenses..... 10,588,979 34

Net earnings..... \$3,781,382 94  
Add:  
General interest..... \$11,854 88  
Interest on investments..... 56,811 90  
68,666 78

Total net revenue for 1896..... \$3,850,049 72  
Total net revenue for 1895..... 4,234,827 33

Decrease..... \$384,777 61  
From the above net revenue for 1896..... \$3,850,049 72

Deduct payments as follows:  
Interest on consolidated mortgage 4 1/2 per cent bonds..... \$990,000 00  
Interest on consolidated mortgage 4 per cent bonds..... 240,000 00  
Interest on bonds of Pittsburg Cincinnati & St. Louis Railway Company..... 630,410 00  
Interest on bonds of Chicago St. Louis & Pittsburg Railroad Company..... 364,120 00  
Interest on bonds of Jeffersonville Madison & Indianapolis Railroad Company..... 283,447 50  
Payments under Car Trust contracts, including interest, &c..... 64,158 68  
Interest on mortgages and ground rents..... 6,850 00  
Rent of Steubenville Extension..... 68,548 64  
Rent of Lake Erie & Western RR. between Indianapolis and Kokomo, Ind..... 24,066 72  
Rent of Little Miami RR. between Rendcomb Junction and Cincinnati, Ohio..... 22,200 00  
Rent of Cincinnati Hamilton & Dayton Railway, between Hamilton & New River Junction, Ohio..... 4,996 20  
2,668,797 74

Net profit for 1896..... \$1,181,251 98  
Net profit for 1895..... 1,556,400 58

Decrease..... \$375,148 60

To the above profit for 1896..... \$1,181,251 98

Add net revenue of other lines operated by your Company, or in its interest, the details of which are stated hereafter, viz:—

Ohio Connecting Railway.....	\$63,610 31
Chartiers Railway.....	93,971 28
Waynesburg & Washington Railroad.....	14,068 50
Pittsburg Chartiers & Youghiogheny Railway.....	98,380 84
Pittsburg Wheeling & Kentucky RR.....	63,920 78
Little Miami Railroad.....	400,531 00
<b>Total.....</b>	<b>734,482 71</b>

From which deduct payments as follows:

Rent of Ohio Connecting Railway.....	\$63,610 31
Rent of Chartiers Railway.....	93,971 28
Net revenue of Waynesburg & Washington Railroad.....	14,068 50
Net revenue of Pittsburg Chartiers & Youghiogheny Railway.....	98,380 84
Rent of Pittsburg Wheeling & Kentucky Railroad.....	63,920 78
Rent of Little Miami Railroad.....	674,926 56
Interest on Cincinnati Street Connection Railway bonds.....	31,500 00
<b>Total.....</b>	<b>\$1,915,734 69</b>

#### Brought forward—

Extraordinary expenditures in widening tunnels, bridges, &c., Pittsburg Division.....	156,563 54
Five-sevenths loss in operation of St. Louis Vandalia & Terre Haute RR.....	197,738 04
Cash advanced Cincinnati Richmond & Fort Wayne Railroad Company to pay interest on bonds.....	19,185 69
Discount in exchange of consolidated bonds.....	72,720 00
<b>Total.....</b>	<b>1,486,585 54</b>

Surplus on all lines operated for 1896.....	\$429,149 15
Surplus on all lines operated for 1895.....	1,022,597 46

Decrease as compared with 1895..... \$593,748 31

Surplus of income on all lines for the year 1896.....	\$429,149 15
Balance to credit profit and loss account, December 31st, 1895.....	714,194 42
<b>Total.....</b>	<b>\$1,143,343 57</b>

Deduct:—  
Amount paid in settlement of sundry old accounts..... 295,251 19

Balance to credit profit and loss, December 31st, 1896.. \$848,092 38

Statement showing the conversion of stock and the exchange and retirement of bonds during the year 1896, and the amount of each outstanding at the close of the year.

#### STOCK.

There was issued during the year 1896, under the agreement of consolidation, in exchange for stock of the constituent companies, stock of the Pittsburg Cincinnati Chicago & St. Louis Railway Company, as shown below, viz:—

In exchange for—	
12 shares common stock Pittsburg Cincinnati & St. Louis Railway Company at \$50 each.....	\$600 00
9 1/10 shares common stock Steubenville & Indiana Railroad Company at \$50 each.....	455 00
75 shares common stock Chicago St. Louis & Pittsburg Railroad Company at \$100 each.....	7,500 00
185 shares preferred stock Chicago St. Louis & Pittsburg Railroad Company at \$100 each.....	18,500 00
<b>Total.....</b>	<b>\$27,055 00</b>

Also under the agreement for reorganization of the Columbus Chicago & Indiana Central Railway Company, in exchange for one income bond of Columbus & Indianapolis Central Railway Company..... 500 00

Total exchanged..... \$27,555 00

For which stock of the Pittsburg Cincinnati Chicago & St. Louis Railway Company was issued as follows:

Common stock.....	\$14,166 69
Preferred stock.....	13,388 31

Total issued during 1896..... \$27,555 00

Stock of the Pittsburg Cincinnati Chicago & St. Louis Railway Company outstanding December 31st, 1896:

243,471 shares common stock at \$100 each.....	\$24,347,100 00
Common stock scrip.....	2,193 87
<b>Total.....</b>	<b>\$24,349,293 87</b>
226,356 shares preferred stock at \$100 each.....	\$22,649,200 00
Preferred stock scrip.....	2,968 06
<b>Total.....</b>	<b>\$22,652,168 06</b>
<b>Total stock outstanding.....</b>	<b>\$47,001,461 93</b>

Stock of constituent companies outstanding December 31st, 1896:

944 shares common stock Pittsburg Cincinnati & St. Louis Railway Company at \$50 each.....	\$47,200 00
1,723 3/32 shares common stock Steubenville & Indiana Railroad Company at \$50 each.....	86,169 66
59 shares preferred stock Steubenville & Indiana Railroad Company at \$50 each.....	2,950 00
5,346 67 shares common stock Chicago St. Louis & Pittsburg Railroad Company at \$100 each.....	534,667 00
212 2/32 shares preferred stock Chicago St. Louis & Pittsburg Railroad Company at \$100 each.....	21,252 62
54 shares common stock Jeffersonville Madison & Indianapolis Railroad Company at \$100 each.....	5,400 00
<b>Total.....</b>	<b>697,639 28</b>

Total stock outstanding December 31st, 1896..... \$47,699,101 21

#### BONDS

Exchanges were made as follows:

120 first mortgage 7 per cent registered bonds of the Pittsburg Cincinnati & St. Louis Railway Company of \$1,000 each were issued in exchange for a like number and amount of coupon bonds secured by the same mortgage, retired and canceled.....	\$120,000 00
3 consolidated mortgage five per cent registered bonds of the Chicago St. Louis & Pittsburg Railroad Company of \$1,000 each were issued in exchange for a like number and amount of coupon bonds secured by the same mortgage, retired and canceled.....	3,000 00
<b>Total.....</b>	<b>\$123,000 00</b>

Bonds were retired through the operations of sinking funds, as follows:  
78 first mortgage seven per cent bonds of the Jeffersonville Madison & Ind. Railroad Company of \$1,000 each.. \$78,000 00

Brought forward.....	\$75,000 00
137 consolidated mortgage four per cent series "D" bonds of the Pittsburgh Cincinnati & St. Louis Railway Company of \$1,000 each.....	137,000 00
	\$212,000 00
There were received in cash during the year four first mortgage seven per cent bonds of the Cincinnati Richmond & Chicago Railroad Company of \$1,000 each which matured July 1st, 1895.....	4,000 00
Total amount of bonds retired.....	\$216,000 00
Bonds outstanding December 31st, 1896:—	
Cincinnati Richmond & Chicago Railroad Company first mortgage seven per cent bonds, due 1895.....	\$1,000
Pittsburg Cincinnati & St. Louis Railway Company first consolidated mortgage seven per cent coupon bonds, due 1900.....	2,069,000
Pittsburg Cincinnati & St. Louis Railway Company first consolidated mortgage seven per cent registered bonds, due 1900.....	4,794,000
Columbus & Indianapolis Central Railway Company first mortgage seven per cent bonds, due 1901.....	631,000
Columbus & Indianapolis Central Railway Company second mortgage seven per cent bonds, due 1904.....	780,000
Union & Loganport Railroad Company first mortgage seven per cent bonds, due 1905.....	715,000
Jeffersonville Madison & Indianapolis Railroad Company first mortgage seven per cent bonds, due 1906.....	\$2,943,000
Less \$95 bonds in sinking fund.....	895,000
	2,048,000
Jeffersonville Madison & Indianapolis Railroad Company second mortgage seven per cent bonds, due 1910.....	1,995,000
Steubenville & Indiana R. Road Company first mortgage (extended) five per cent registered bonds, due 1914.....	3,000,000
Chicago St. Louis & Pittsburg Railroad Company consolidated mortgage five per cent coupon bonds, due 1932.....	1,290,000
Chicago St. Louis & Pittsburg Railroad Company consolidated mortgage 5 per cent registered bonds, due 1932.....	216,000
Pittsburg Cincinnati & St. Louis Railway Company consolidated mortgage four and one-half per cent bonds, series "A," due 1940.....	10,000,000
Pittsburg Cincinnati & St. Louis Railway Company consolidated mortgage four and one-half per cent bonds, series "B," due 1942.....	10,000,000
Pittsburg Cincinnati & St. Louis Railway Company consolidated mortgage four and one-half per cent bonds, series "C," due 1942.....	2,000,000
Pittsburg Cincinnati & St. Louis Railway Company consolidated mortgage four per cent bonds, series "D," due 1945.....	\$6,000,000
Less 137 bonds in sinking fund.....	137,000
	5,863,000
Total bonds outstanding December 31st, 1896.....	\$47,402,000

The tonnage transported was 10,835,828 tons, against 11,648,499 tons in 1895, a decrease of 812,671 tons, the greater portion thereof being in the through traffic. The largest items of decrease were cotton, fruits, and vegetables, anthracite coal, coke, ores, stone, sand, lumber, pig and bloom iron, steel rails, bar and sheet metal, cement and brick, and miscellaneous merchandise; while the largest items of increase were grain and other mill and miscellaneous agricultural products, bituminous coal, and household goods and furniture.

There was a decrease in freight earnings of 8.6-10 per cent, or \$915,191.61. The average rate received was 6.5-10 mills, the same as in 1895, but there was an increase in the cost of movement of 1-10 mill, the net profit being decreased to 1.5-10 mills per ton per mile. There was a decrease of nearly 9½ per cent in the ton mileage, mostly in through traffic.

There were carried 5,555,450 passengers, as compared with 5,881,636 in 1895, a decrease of 326,186, all in the local travel. There was a decrease in mileage of about 6¼ per cent, and in revenue of 3.2-10 per cent, or \$112,031.85.

There were 8,689 tons of new steel rails and 426,628 ties used in renewals during the year, and 78½ miles were ballasted with gravel, 26½ with stone, and 47 with cinder.

The most important work done during the year was in the direction of closing up the gaps in the double track on the Pittsburg Division. While the financial outlook prevented the carrying out of this policy to the extent desired, an important advance therein was made in the rebuilding of single-track Bridges 51 and 67 as double-track stone-arch structures, the completion of the widening and lining of Tunnels 7 and 8 on either side of Bloomfield for double track, the reconstruction for second track of 15 single-track stone-arch bridges of from one to three spans each, and the replacement of three single-track iron bridges by two and three-track stone structures. The tunnels referred to have an aggregate length of 2,307 feet, are 20 feet in diameter, lined with masonry walls up to the springing line of the arch, which consists of six rings of brick, and each end of the tunnels is finished with masonry portals.

The double track was completed and put in operation for 1.29-100 miles from a point west of Fernwood to Bridge 53 at Reed Station, the entire increase in second track, sidings, &c., being 9.31-100 miles.

A number of trestles on the Pittsburg Division, aggregating 1667 feet in length, were filled, and extensive repairs made to bridges on the other divisions.

First mortgage bond. A very important piece of work was the completion of Consolidated mortal and outbound freight houses at Columbus, Common and preferment arrangement of the yard tracks at that

The committee in regard to the station was erected at Green-

The net earnings, as reported for the year, made to stations at various

increase over last year. The receipts were favorable. The time has come, however, in a program, on the Pittsburg Division, and the receiver, when a certain number of purchases for the benefit of the company which in course of intended to cover should be made. Both the count Hamilton &

Dayton Railway, east of Piqua, and at North Tower, Jeffersonville, where your line is crossed by the Cleveland Cincinnati Chicago & St. Louis and the Baltimore & Ohio Southwestern railways.

Various changes were made in the passenger equipment, through the replacement of coaches by vestibule combined baggage and passenger coaches, the conversion of baggage into postal storage cars and combined baggage and express cars, and the addition of two new postal cars, the result being an increase of four cars in service over the preceding year. There were 183 freight cars destroyed during the year, partly replaced by 134 box, 28 flat and 5 cabin cars.

The generally depressed condition of the industries of the country during the year is reflected in the large decrease in the movement of traffic over your lines and in that exchanged with other railways at connecting points. This decrease was especially marked in the movement of coal, both East and West, and there was a notable decrease in the general freight business out of Pittsburg, this alone showing a reduction of 13,829 cars in addition to about 8,800 cars in coal and coke.

A persistent effort was made to reduce expenses on your main line as on all others in your system. It should be noted, however, that there was a continued increase in the amount of taxes paid by the various companies, the increase on the main line being \$29,539.49. The expenses were also considerably increased by the extraordinary number of sudden and heavy rains occurring during the year, especially between the 1st of June and the middle of August, which washed out the tracks at many points, particularly on the Pittsburg Division. The worst storm occurred on July 30th, seriously damaging the track between Steubenville and Gould's Tunnel, carrying away a large portion of Bridge 45, and necessitating the practical rebuilding of that structure.

The expenditures on Capital Account amounted to \$411,666.06, consisting of the following items:—

Real estate.....	\$289,018 15
Right of way.....	10,849 28
Additional tracks.....	10,203 93
Stations.....	73,050 70
Freight cars.....	28,445 00

The expenditure for real estate represented the purchase of a block of ground at Indianapolis for a freight station, and the payment to the State of Ohio for a portion of the canal bed at Hamilton, occupied by the tracks of your Company, under an agreement made with the State authorities, since confirmed by legislative action. The main item of expenditure for stations was the cost of the new elevator and tracks at Fifty-ninth Street, Chicago, for use in transferring and cleaning grain, and which, it is expected, will bring to your Company a large amount of business which has heretofore gone to your competitors on account of lack of proper facilities for handling it. The expenditure for equipment represented the regular payments on account of trust cars.

#### OHIO CONNECTING RAILWAY.

This road, which is 3.27-100 miles long, including the bridge over the Ohio River, connects your system with the Northwestern System of Lines operated by the Pennsylvania Co.

Net earnings.....	\$93,971 28	\$51,484 21	\$42,487 07	
-------------------	-------------	-------------	-------------	--

There was a slight increase in the gross earnings and a large decrease in the expenses, the net earnings being increased \$42,487 07. The tonnage for the year was 1,630,836 tons, as compared with 1,539,123 tons for 1895, an increase of 141,713 tons, or about 9½ per cent. The average rate received per ton per mile was 3-10 mill more than in 1895, and the cost decreased 2 6-10 mills, the net profit being 5 1-10 mills, a gain of 2 9-10 mills. There was a large increase in the volume of bituminous coal but a slight decrease in the other items of tonnage. The number of passengers carried was 496,530, against 419,755 in the previous year, an increase of 76,775, or 18 3-10 per cent. The increase in the passenger mileage was nearly 15 per cent, and the gross revenue therefrom increased 13 per cent.

The improved showing of this line is largely due to a reduction in expenses, the outlay in 1895 having been much increased by the necessity for widening Bell's Tunnel. There were 400 tons of steel rails and 10,626 ties used in renewals, and there was a slight increase in the length of track, 43-100 of a mile.

Net earnings.....	\$14,068 50	\$18,839 53		\$4,771 03

There was a material decrease in both the gross earnings and the expenses, and a decrease in the net of \$4,771 03. The volume of freight traffic decreased nearly 35 per cent, the largest item thereof being castings and machinery, while the mileage decreased 36 8-10 per cent. There was an increase in the rate received per ton per mile and in the cost of movement, but the net profit increased 9-10 of a mill. The number of passengers carried increased about 4 per cent, but there was a decrease in the net profit of 1 8-10 mills per passenger per mile.

#### PITTSBURG CHARTIERS & YOUGHIOGHEN RAILWAY.

Extends from the Ohio River at a point below Brunot's Island, and from a connection with the Pittsburgh & Lake Erie Railroad near that point to a connection with the Charters Railway south of Carnegie, Pa., and from Woodville, on the Charters Railway, to Beadling and Beechmont, having an aggregate length of 15 7-10 miles. It has trackage rights over 1 40-100 miles of the Charters Railway.

The road is jointly owned by the Pittsburgh Cincinnati Chicago & St. Louis Railway and the Pittsburgh & Lake Erie Railroad Companies.

Net earnings.....	\$63,920 78	\$113,173 86		\$49,253 08

The gross earnings of the road decreased \$46,947 81, or about 16½ per cent; the expenses increased about 1 per cent; and the net earnings decreased \$49,253 08, or about 43½ per cent.

The aggregate tonnage was 741,233 tons, as compared with 923,539 tons in 1895, a decrease of 182,316 tons, or 19 7-100 per cent. The decrease was mainly in fruits, vegetables, bituminous coal, coke, ores, pig and bloom iron, castings and machinery, and merchandise. The gross revenue from the freight traffic shows a decrease of 27 43-100 per cent, and the net profit per ton per mile a decrease over the preceding year of 2 mills.

The number of passengers carried shows an increase of 10,493, or 14 68-100 per cent. The average earnings per passenger per mile decreased 5-10 mill, and the cost increased 1 1-10 mills, the net profit being 4 mills, as compared with 5 6-10 mills in 1895.

There were 298 tons of steel rails and 11,803 ties used in renewals, and there was an increase in the length of tracks of 73-100 of a mile. Seventeen miles were ballasted with gravel and two with cinder.

The only item of expenditure on capital account on this line was \$1,450 for the purchase of additional ground on the river front at Wheeling.

#### THE ENGLEWOOD CONNECTING RAILWAY

<b>Total net revenue for 1896.....</b>	<b>\$400,531 00</b>
--	---------------------

Brought forward.....	\$250,371 00
Against which were charged:—	
One year's rent of road.....	\$662,626 56
One year's interest on bonds of Cincinnati Street Connection Railway.....	31,500 00
Interest on mortgages and ground rents.....	12,300 00
	706,426 56
Net loss for 1896.....	\$305,895 56
Net loss for 1895.....	259,011 02
Increased loss.....	\$16,884 54

The earnings decreased \$156,242 41, and the expenses decreased \$107,868 41, the net earnings showing a loss of \$48,374.

The tonnage carried was 1,307,803 tons, as compared with 1,517,006 tons in 1895, a decrease of 209,803 tons, or 13 82-100 per cent. There was a decrease in the items of hay, tobacco, cotton, fruits, vegetables, anthracite and bituminous coal, coke, stone, sand, lumber, petroleum, sugar, pig and bloom iron, steel rails, bar and sheet metal, cement and brick, and miscellaneous merchandise, and an increase in grain and miscellaneous agricultural products, live stock, ores, wines, liquors and beers. The average rate received per ton per mile was 1-10 mill more than in 1895, but the cost increased 3-10 mill, the net result being a profit of 1 6-10 mills, as compared with 1 8-10 mills in 1895.

The number of passengers carried in 1896 decreased 6 8-10 per cent. The average earnings were the same, but there was an increase of 9-10 mill in the cost per passenger per mile, the result being a loss of 3 8-10 mills, as compared with 2 9-10 mills in 1895.

There were 805 tons of new steel rails and 72,291 ties used in renewals and the tracks were increased 1 41-100 miles. Twelve miles were ballasted with gravel and eight with cinder. The wooden bridge at West Jefferson was replaced by an iron viaduct at a cost of \$19,777 19, and a brick passenger station erected at London, to supply facilities much needed at that point.

There was but little change in the motive power or equipment during the year.

The expenditure on capital account amounted to \$57,009 40, of which \$57,001 60 represented the payment to the State of Ohio for a portion of the old canal bed in the city of Cincinnati occupied by your line. This payment, as before stated, was made under an Act of the Legislature, which permanently settles this vexed question.

It will be noted that the business of this line reflects the general decrease in the movement of tonnage throughout the country, and that it is specially shown in the exchanges with connecting roads. As a result there was a considerable decrease in the business handled over the Eggleston Avenue and Connecting Street tracks in Cincinnati.

Statement of average earnings, cost and profit per ton and passenger per mile, for the year ending December 31st, 1896, compared with the year 1895:—

GENERAL REMARKS.

The tonnage and revenue of your lines emphasize very clearly the conditions existing throughout the country during the past year. In the first part of 1896 all the indications were in favor of a fairly prosperous business, but the financial complications existing during the early summer brought about at that time a change for the worse, and this unfavorable condition prevailed through the remainder of the year. The tables appended to the report show the serious decrease in the movement of traffic over your lines. The

aggregate tonnage moved was 15,774,851 tons, a decrease of 748,472 tons, or about 4½ per cent, while there was a decrease in the ton-mileage of over 9½ per cent. The passenger traffic also shows a decrease on the entire system, the loss in volume being 283,756 passengers, and the decrease in the mileage over 5½ per cent. The average rate received per ton per mile upon the lines operated directly by your road was 6 8-10 mills, an increase of 1-10 of a mill over the preceding year, but as the cost was increased to the same extent, the profit per ton per mile was but 1 6-10 mills, the same as for 1895. On all roads in your system the average rate received was 6 9-10 mills, as against 6 8-10 mills for the preceding year, but there being an increase of 1-10 of a mill in the cost of movement, the profit was, as in 1895, 1 7-10 mills. On the roads directly operated, your average earnings per passenger per mile were 2 6-100 cents, and the cost 2 3-100 cents, leaving a net revenue of 3-10 of a mill per mile, as against 8-10 of a mill in 1895, and on your entire system the profit was 4-10 of a mill, as against 8-10 of a mill for the preceding year.

In view of the adverse conditions prevailing during the greater portion of the year, no effort was spared to reduce the expenses of operation in all departments, so far as the same could be done without lowering the standard of your properties. It will be seen by the Income Account that, after meeting all fixed charges and liabilities of every description, there was a fair sum transferred to the credit of Profit and Loss. The surplus earnings, however, were not sufficient to justify a dividend upon the preferred stock of your Company.

There were but slight changes in the funded debt during the year, and they are fully stated in the earlier part of the report. It will be seen that \$78,000 of the first mortgage 7 per cent bonds of the Jeffersonville Madison & Indianapolis Railroad and \$137,000 of Series D of your 4 per cent consolidated mortgage bonds were retired through the operations of the respective sinking funds established for their redemption.

Under a contract made with the city of Columbus and in pursuance of legislation had by the municipal authorities thereof, a viaduct has been completed carrying High Street, its main business thoroughfare, over your tracks and those of the Cleveland Cincinnati Chicago & St. Louis Railway and the Union Depot Company.

In connection with this improvement, and by reason also of the insufficient facilities in the existing passenger station, it became necessary to reconstruct the Union Depot and tracks at that point, and a handsome station is now in course of erection which will fully accommodate the railways reaching that important commercial centre. This work is being done by the Union Depot Company, in which your Company has a half interest, the necessary funds therefor having been obtained through the sale of \$450,000 of its 4½ per cent fifty-year general mortgage bonds.

For the purpose of increasing the facilities furnished by the bridge connecting your lines at Cincinnati with the roads south of the Ohio River, and the better accommodation of the highway and electric railway traffic passing over the same, the Newport & Cincinnati Bridge Company has practically rebuilt that important structure, and materially enlarged its capacity. The funds for this purpose were obtained partly from its own treasury and partly from the sale of \$300,000 of its fifty-year general mortgage 4½ per cent bonds.

Your Board have with great regret to announce the death on August 23d, 1896, of Mr. M. J. Becker, who, in 1867, became the Chief Engineer of the Steubenville & Indiana Road, now a part of your main line, and continuously filled a like responsible position in the different companies now forming your consolidated road for almost thirty years. Mr. Becker's high professional attainments, intimate knowledge of your system and devotion to your interests make his loss one to be deeply deplored.

The Company also lost on the 19th of December, 1896, the services of Mr. Henry D. Welsh, who had been elected a Director in 1895 to fill the vacancy caused by Mr. Houston's death. While Mr. Welsh's term of office has been brief, his active interest in your affairs, sound judgment and long experience made his counsels of special value in the administration of your property, and his genial personality had won for him the warm regard of his associates.

Mr. Samuel Rea was elected a Director to fill the vacancy caused by Mr. Welsh's death.

Since the close of the year the Board has to record the loss of your late President, Mr. George B. Roberts, who died, after a protracted illness, on the 30th of January, 1897. Mr. Roberts had been a Director of the Company since March 26th, 1868, and its President since June 9th, 1880. He had been especially helpful in the vicissitudes connected with its early history, and his counsels and experience had been invaluable in the long litigation resulting in the cancellation of the lease of the Columbus Chicago & Indiana Central Railway and the relief of your Company from its onerous burdens, and in the final merger of that road and other lines controlled by you into the present consolidated organization. The Board submit with this report the minute adopted by them, believing that it will meet the full approval of the shareholders, and that they will share the profound regret felt by the management at the loss of an officer who for nearly thirty years had devoted his great experience and eminent abilities to the permanent advancement of their interests.

Mr. Frank Thomson was elected President on the fourth day of February, 1897, to fill the vacancy caused by the death of Mr. Roberts.

The operations of the Employees' Voluntary Relief Department continue to be very satisfactory. There have been during the year 1,692 accessions to membership, an average of about 141 per month, and 1,594 in excess of the number of deaths and withdrawals. The number of members leaving the service was 1,646; and the total membership at the close of the year was 8,628, a net loss of 52, or 6 per cent.

The amount contributed by the members was \$163,528 26. The receipts from interest were \$2,185 75, and the amount contributed by the Pittsburgh Cincinnati Chicago & St. Louis Railway Company was \$30,357 39, which, added to the balance on hand at the beginning of the year, viz., \$42,494 80, makes a total of \$238,556 20. Out of this amount there was paid to families of employees in death benefits and for sickness and accident \$146,904 10 and for operating expenses \$27,790 99, leaving a balance of \$63,861 11, from which should be deducted \$34,882 69 to cover the amount of outstanding and unadjusted claims, leaving a surplus of \$28,978 42. The amount contributed to the Department by the Pittsburgh Cincinnati Chicago & St. Louis Railway Company, as stated above, was \$30,357 39, of which \$27,790 99 was for the payment of operating expenses of the Department, and \$2,580 60 for payment of extra benefits to members whose disabilities had continued over fifty-two weeks, and who were therefore no longer entitled to regular benefits from the fund.

During the year there were 6,701 benefits paid, viz., 6,616 on account of sickness and accident and 85 death benefits.

The Income, Profit and Loss, and General Accounts, together with the usual traffic statements, are hereto appended.

It gives the Board great pleasure to acknowledge the fidelity and efficiency of the officers and employes during the past year.

By order of the Board,

FRANK THOMSON,

President.

[A comparative statement of operations, earnings, etc., and the general balance sheet will be found on page 796.]

—"Burdett's Official Intelligence" for 1897 has just come to hand. This work, which is now in its sixteenth year and embraces 2,400 pages is, as most of our readers know, a carefully revised précis of information regarding British, American and foreign securities, including government, railways, breweries and distilleries, gas and electric lighting, tramways, waterworks and other commercial and industrial companies known to the London market and dealt in on the principal exchanges. There are also special chapters on the National Debt under Queen Victoria, Sixty Years' Growth in Quoted Securities, Light Railways, Colonial and Indian Finance, Municipal and County Finance and Railways.

A feature of the year has been the unusual number of new companies the shares of which have been issued and dealt in on the London market. Mainly in consequence of this Volume XV. contains 236 pages more than its predecessor and nearly 1,000 new companies. The grand total of British and Colonial loans issued in London during 1896 amounted to £59,946,574, as compared with £65,407,832 in the year 1895 (including conversions in each case). The nominal amounts of the various securities admitted to the Official List during the year represented a total of £309,962,921, compared with £176,752,443 in 1895. Never before has the number of securities admitted to quotation during any period of twelve months approached that of 1896. Of these additions, breweries and distilleries represent over £10,000,000 and industrial and commercial undertakings over £22,500,000.

Mr. Henry C. Burdett, the editor, is Secretary to the Share and Loan Department of the London Stock Exchange, and his great work is compiled under the sanction of the Stock Exchange Committee.

—Messrs. Spencer Trask & Co. offer for sale the balance, about one-quarter, of \$1,800,000 Broadway Realty Company first mortgage five per cent gold bonds on the "Bowling Green offices," at 110½ and interest, yielding 4½ per cent. The features of these offices have been so extensively advertised and the location is so conspicuous that they need not be referred to. Application for listing the bonds on the New York Stock Exchange is to be made immediately. The title has been insured by one of the title companies of this city, the policy being assigned to and pledged with the United States Mortgage & Trust Co., trustees. Copies of the mortgage and opinion of attorneys as to legality of the issue may be obtained on application. For further details see their advertisement on page viii.

—The well-known Philadelphia firm of Mathews, Bean & Co. has been reorganized, with W. K. Mathews, C. H. Bean and William and John W. Grange as general partners, and has opened an office in New York at 40 Wall Street, which will be in charge of Mr. Mathews, who is a member of the New York Stock Exchange, and Mr. William Grange. The firm will transact a general banking and stock brokerage business. Its facilities include private wire connections with all important financial centers. The firm are members of the New York, Philadelphia and Chicago Exchanges.

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, April 23, 1897.

The attention of the business world has been in a measure turned from the tariff agitation to the situation in the Far East by the formal declaration of an existence of war between Turkey and Greece. Prices in the speculative markets, particularly grain, have been considerably affected, a sharp rise in wheat values having occurred early in the week. Cotton values gave way slightly. Subsequently, however, the loss was recovered. Advances received from Washington go to confirm the belief that the Senate will probably strike out the retroactive clause attached to the Tariff bill as passed by the House of Representatives and also state that the bill may be ready for the full committee early next week. It has been officially announced that the Erie Canal will be opened at noon on May eighth. The Governor has issued a proclamation making Tuesday, the 27th inst., a legal holiday in New York, Kings and Westchester counties in honor of the Grant Memorial Celebration.

Lard on the spot has continued to sell slowly for prime Western, as neither refiners nor shippers have been buyers, and prices have weakened slightly, closing at 437½@440c. City has had a fair demand for export to the West Indies and values have held steady, closing at 305c. Refined for the Continent has been quiet and the quotation has been lowered to 465c. The local market for lard futures has been neglected, and at the West the trading has been quiet, closing dull, with prices slightly lower for the week.

#### DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thur.	Fri.
MAY.....C.	450	450	450	445	440	445

The demand for pork has continued quiet; prices have not changed but the close was barely steady at \$8 75@9 50 for mess; \$9 50@10 50 for family and \$9 50@10 50 for short clear. Cut meats have been in demand for pickled bellies and firm; other meats have been dull, closing at 5¼@5½c. for pickled bellies, 10@12 lbs. average, 5c. for pickled shoulders and 9@9¼c. for pickled hams. Beef has had a moderate sale at steady prices, closing at \$7@8 for mess, \$7 50@9 for packet, \$9@11 for family and \$12 50@16 for extra India mess. Beef hams have advanced, closing at \$20. Tallow has sold slowly and prices have further declined, closing at 3¼c. Oleo stearine has been in slightly better demand, closing a leader at 4¼@4¾c. Lard stearine has been quoted nominally higher at 4½@5c. for city. Cotton seed oil has had a better sale and prices have advanced, closing firm at 20c. for prime crude and 24c. for prime yellow. Butter has been in fair demand and firm for choice, closing at 11@7c. for creamery. Cheese has been quiet and the close was weak at 9@12¼c. for State factory full cream. Fresh eggs closed firm at 9¼@9½c. for choice Western.

Coffee of Brazil growth has had only a limited sale and prices have weakened slightly under increased offerings, closing at 7½c. for Rio No. 7. Mild grades have had a better sale and values have held steady, closing at 14¼c. for good Cincuta and 25c. for Standard Java. The speculation in the market for contract has been moderately active, but prices have declined 25@35 points under freer offerings, promoted by increased crop estimates. The close was quiet but steady. The following were the final asking prices:

April.....	7-20c.	July.....	7-25c.	Oct.....	7-40c.
May.....	7-15c.	Aug.....	7-25c.	Nov.....	7-40c.
June.....	7-20c.	Sept.....	7-35c.	Dec.....	7-45c.

Raw sugars have had only a limited sale, but prices have advanced slightly, closing at 3¼c. for centrifugal, 96-deg. test and 213-16c. for muscovado, 89-deg. test. Refined sugars have been quiet and unchanged, closing steady at 4½c. for granulated. Teas have had a moderate sale at steady values. Other staple groceries have been steady.

—Kentucky tobacco has had only a limited sale but values have held steady. Sales 150 hhds. Seed leaf tobacco has been quiet, but prices have been unchanged and firm. Sales for the week were 1,175 cases, including: 200 cases 1896 crop, Zimmers, 16@17c.; 125 cases 1895 crop, State Havana, 10@14c.; 150 cases 1895 crop, Wisconsin Havana, 7½@9c.; 100 cases 1894 crop, Wisconsin Havana, 8@10c., and 100 cases 1893 crop, Wisconsin Havana, 10c., also 500 bales Havana fillers at 75c.@\$1 10 in bond and 350 bales Sumatra at 70c.@\$1 80 in bond.

Strait tin has been in moderately active demand and prices have advanced slightly, closing at 13'25@13'50c. A fairly large business has been transacted in the market for ingot copper and prices have ruled steady, closing at 11¼c. for Lake. Lead has had a slow sale and prices have eased off a trifle, closing at 3'30@3'32½c. for domestic. Spelter has been in moderate demand and prices have advanced, closing at 4'15@4'20c. for domestic. Pig iron has been quiet and easy, closing at \$10@12 for domestic.

Refined petroleum has been steady, closing at 6'05c. in bbls., 3'55c. in bulk and 6'50c. in cases; naphtha lower at 6c. Crude certificates have been neglected. Credit balances have been unchanged to 84c. Spirits turpentine has been fairly active, closing firm at 30c. bid. Rosins have been quiet but steady at \$1 65 for common and good strained. Wool has had only a limited sale but prices have been firm. Hops have been quiet and values have been barely maintained.

## COTTON.

FRIDAY NIGHT, April 23, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 47,260 bales, against 48,705 bales last week and 43,633 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,453,808 bales, against 4,975,623 bales for the same period of 1895-6, showing an increase since Sept. 1, 1896, of 1,478,185 bales.

Speculation in the market for cotton for future delivery has continued quiet. Although there was something of a break at the opening of the week, a result of the formal declaration of war between Turkey and Greece, prices subsequently recovered and the net change for the week is unimportant. Saturday was observed as a holiday on the Cotton Exchange and there was no market. Monday the market was influenced by the war news. There was, however, no excitement to the trading, and under moderate selling prices declined, closing 12 to 14 points lower for this crop and 7 to 8 points off for the next. Tuesday there was a quiet market, as there was no further pressure to sell on the part of local operators, as they were disposed to await foreign advices, the English markets being closed in observance of the Easter holidays. At the close prices showed an advance of 1 to 4 points on buying by a few shorts to cover contracts. Wednesday there was a stronger market. Advices received from Liverpool were better than generally expected, and this, together with the strength of the statistical position here and abroad, induced moderate buying, and prices closed at an advance of 8 to 10 points for the day. Thursday there was a slight further gain in values. Foreign advices were encouraging and were accompanied by a limited number of buying orders. Local operators showed more of a disposition to support the market and the close showed prices unchanged to 2 points up for the day. To-day there was a quiet market. The opening was unchanged to 3 points lower; then came an advance of 2 to 4 points, principally on a demand from shorts to cover contracts. Subsequently, however, under the reports from the Far East, stating that the Greeks had been successful in checking the advance of the Turks the market weakened. The close was quiet, with prices unchanged to 1 point lower for the day, exclusive of April contracts, which were 2 points higher. Cotton on the spot has been in limited demand from spinners and shippers. Monday prices were lowered 1/2c., but on Wednesday the loss was recovered. To-day the market was quiet but steady, closing at 7 7/16c. for middling uplands.

The total sales for forward delivery for the week are 420,000 bales. For immediate delivery the total sales foot up this week 8,917 bales, including 4,743 for export, 3,474 for consumption, — for speculation and — on contract. The following are the official quotations for each day of the past week—April 17 to April 23.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Th.	Fri.

☛ The imports into Continental ports the past week have been 76,000 bales.

The above figures indicate a decrease in the cotton in sight to-night of 128,304 bales as compared with the same date of 1896, a falling off of 1,155,586 bales from the corresponding date of 1895 and a decrease of 827,360 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

Movement to April 23, 1897.					Movement to April 24, 1896.

\* This year's figures estimated.

The above totals show that the interior stocks have *decreased* during the week 19,173 bales and are now 62,257 bales *less* than at same period last year. The receipts at all the towns have been 1,976 bales *less* than same week last year and since Sept. 1 they are 835,400 bales *more* than for same time in 1895-6.

\* Includes sales in September, for September, 15,100; September, October, for October, 334,800; September-November, for November, 372,000; September-December, for December, 2,290,000; September, January, for January, 7,114,100; September-February, for February, 446,900; September-March, for March, 6,268,200.

**We have included in the above table, and shall continue each week to give, the average price of futures each day for each month. It will be found under each day following the abbreviation "Av'ge." The average for each month for the week is also given at bottom of table.**

 For exchanges see page 809.

**THE VISIBLE SUPPLY OF COTTON** to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Apr. 22), we add the item of exports from the United States, including in it the exports of Friday only:

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns.		
	1897.	1896.	1895.	1897.	1896.	1895.	1897.	1896.	1895.
Mar. 19.....	65,459	69,400	128,133	301,139	334,183	341,836	43,279	41,009	113,998
" 26.....	61,082	78,237	115,470	276,504	316,494	323,932	36,497	58,548	94,506
Apr. 2.....	84,237	60,208	116,767	259,060	298,992	278,916	36,693	37,620	63,751
" 9.....	46,639	67,967	93,523	232,170	290,927	347,549	19,759	44,912	65,456
" 16.....	48,796	40,076	50,617	204,020	263,009	212,773	20,645	22,758	45,541
" 23.....	47,290	54,666	69,905	194,947	247,104	184,641	29,047	34,161	48,833

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1896, are 6,518,061 bales; in 1895-96 were 5,190,027 bales; in 1894-95 were 7,717,196 bales.

2.—That although the receipts at the outports the past week were 47,260 bales, the actual movement from plantations was only 23,987 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 33,161 bales and for 1895 they were 43,833 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Apr. 23 and since Sept. 1 in the last two years are as follows.

April 23.	1896-97.		1895-96.	
	Week.	Since Sept. 1	Week.	Since Sept. 1.

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 12,590 bales, against 6,856 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 62,320 bales.

\* Decrease during week.

It will be seen by the above that there has come into sight during the week 57,677 bales, against 61,017 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,477,354 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening outside of the overflowed districts are mainly of a favorable character. Planting has progressed well generally but is still very backward. Where rain has fallen during the week the precipitation has been light but as a rule dry weather has prevailed. According to some correspondents moisture is needed to assist germination. There have been breaks in the Louisiana levees this week, flooding much cotton land. The river has fallen at Memphis and Helena, and a rapid decline is shortly anticipated at those points.

Galveston, Texas.—There has been only a trace of rain during the week. The thermometer has ranged from 41 to 79, averaging 60.

Palestine, Texas.—There has been a shower on one day the past week, with a precipitation of two hundredths of an inch. Average thermometer 63, highest 82 and lowest 44.

Huntsville, Texas.—There has been no rain during the week. The thermometer has averaged 62, the highest being 82 and the lowest 43.

Dallas, Texas.—The weather has been favorable for farming operations and work is being pushed. It has rained lightly on one day of the week, to the extent of twelve hundredths of an inch. The thermometer has averaged 64, ranging from 44 to 83.

San Antonio, Texas.—Cotton is doing finely. There has been but a trace of rain the past week. The thermometer has ranged from 50 to 82, averaging 66.

Luling, Texas.—The weather has been favorable for cotton the past week. There has been some re-planting. We have had only a trace of rain. Average thermometer 65, highest 82, lowest 48.

Columbia, Texas.—We have had no rain during the week. The thermometer has averaged 62, the highest being 80 and the lowest 45.

Cuero, Texas.—Dry weather has prevailed all the week. The thermometer has averaged 65, ranging from 49 to 81.

Brenham, Texas.—Planting was retarded by the recent wet and cold weather. There has been rain on one day of the week, the rainfall reaching six hundredths of an inch. The thermometer has ranged from 48 to 85, averaging 66.

Fort Worth, Texas.—The weather has been favorable for farm work. There has been rain on one day during the week, to the extent of twelve hundredths of an inch. Average thermometer 64, highest 82, lowest 45.

Weath-rford, Texas.—There has been rain on one day during the week, the rainfall reaching nineteen hundredths of an inch. The thermometer has averaged 63, ranging from 46 to 80.

New Orleans, Louisiana.—There has been rain on one day of the week, the precipitation reaching five hundredths of an inch. The thermometer has averaged 67.

Shreveport, Louisiana.—Rain has fallen on one day of the week, but only to the extent of two hundredths of an inch. Average thermometer 67, highest 81, lowest 48.

Columbus, Mississippi.—There is some complaint of cotton dying as a result of the late frost. We have had no rain during the week. The thermometer has averaged 64, the highest being 86 and the lowest 40.

Leland, Mississippi.—The weather has been dry all the week. The thermometer has averaged 62, ranging from 50 to 75.

Vicksburg, Mississippi.—There has been only a trace of rain during the week. The thermometer has ranged from 48 to 84, averaging 65.

Meridian, Mississippi.—Frost on three mornings killed some cotton, making re-planting necessary. The thermometer has ranged from 38 to 72.

Little Rock, Arkansas.—It has rained on one day of the week, the rainfall being sixteen hundredths of an inch. Average thermometer 62, highest 82 and lowest 45.

Helena, Arkansas.—The river is falling slowly, having receded but an inch in twenty-four hours. The total decline thus far has been fifty-nine inches, but a rapid recession is shortly anticipated. Crops above the overflow are backward. There has been light rain on one day during the week, the rainfall reaching seventeen hundredths of an inch. Crops are doing well. The thermometer has averaged 60, the highest being 77 and the lowest 42.

Memphis, Tennessee.—Telegram not received.

Nashville, Tennessee.—It has rained on one day of the week to the extent of two hundredths of an inch. The thermometer has ranged from 36 to 75, averaging 55.

Mobile, Alabama.—The weather has been dry and too cool during the week, delaying germination and injuring young plants. Condition is very backward. Average thermometer 63, highest 81 and lowest 45.

Montgomery, Alabama.—Farmers are progressing well with their work. We have had no rain during the week. The thermometer has averaged 62, the highest being 74 and the lowest 51.

Mulden, Florida.—Planting is still in progress. There has been no rain during the week. The thermometer has ranged from 47 to 86, averaging 70.

Savannah, Georgia.—We have had dry weather all the week. The thermometer has averaged 64, the highest being 81 and the lowest 50.

Augusta, Georgia.—There has been no rain during the week. The thermometer has averaged 60, ranging from 44 to 81.

**Charleston, South Carolina.**—Dry weather has prevailed all the week. Average thermometer 64, highest 76, lowest 51.

**Stateburg, South Carolina.**—There has been no rain all the week and a moderate precipitation would be beneficial. Light frost occurred on Wednesday but without damage. The thermometer has averaged 60.8, the highest being 79 and the lowest 39.

**Greenwood, South Carolina.**—There has been no rain the past week. Moisture is needed to sprout seed. Gardens are in good condition. The thermometer has averaged 58, ranging from 46 to 71.

**Wilson, North Carolina.**—Telegram not received.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock April 22, 1897, and April 23, 1896.

	Apr. 22, '97.	Apr. 23, '96.

**INDIA COTTON MOVEMENT FROM ALL PORTS.**—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to April 22.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Continent.	Total.	Great Britain.	Continent.	Total.	This Week.	Since Sept. 1.
'96-7	1,000	8,000	9,000	21,000	379,000	400,000	43,000	1,129,000
'95-6	26,000	26,000	52,000	56,000	486,000	542,000	83,000	1,640,000
'94-5	1,000	7,000	8,000	6,000	203,000	209,000	79,000	863,000
'93-4	39,000	39,000	78,000	40,000	501,000	541,000	69,000	1,262,000

According to the foregoing Bombay appears to show a decrease compared with last year in the week's receipts of 35,000 bales and a decrease in shipments of 17,000 bales, and the shipments since Sept. 1 show a decrease of 142,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

Year	Shipments for the week.			Shipments since Sept. 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1896-97...	1,000	2,000	3,000	6,000	37,000	43,000
1895-96...	1,000	3,000	4,000	10,000	43,000	53,000
Madras—						
1896-97...	.....	.....	.....	6,000	14,000	20,000
1895-96...	.....	.....	.....	10,000	7,000	17,000
All others—						
1896-97...	1,000	1,000	2,000	20,000	56,000	76,000
1895-96...	.....	1,000	4,000	12,000	45,000	57,000
Total all—						
1896-97...	2,000	3,000	5,000	32,000	107,000	139,000
1895-96...	1,000	7,000	8,000	32,000	95,000	127,000

The above totals for the week show that the movement from the ports other than Bombay is 3,000 bales less than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM A. INDIA.

Shipments to all Europe from—	1896-97.		1895-96.		1894-95.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay.....	9,000	400,000	26,000	512,000	8,000	209,000

Total	14,000	539,000	34,000	639,000	12,000	311,000

**ALEXANDRIA RECEIPTS AND SHIPMENTS.**—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, April 21.	1896-97.	1895-96.	1894-95.
Receipts (santars*).....	45,000	9,000	10,000
This week.....	5,611,000	5,160,000	4,506,000
Since Sept. 1.....			
Exports (bales)—			
To Liverpool.....	6,000	301,000	2,000
To Continent.....	3,000	300,000	2,000
Total Europe	9,000	601,000	4,000

\* A santar is 93 pounds.  
Of which to America in 1896-97, 43,371 bales; in 1895-96, 51,431 bales; in 1894-95, 37,935 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is firm for yarns and steady for shirtings. The demand for both home trade and foreign markets is improving. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

	1897.							1896.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (April 23) and since Sept. 1, 1896, the stocks to-night, and the same items for the corresponding periods of 1895-96, are as follows.

Receipts to April 23.	1896-97.		1895-96.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1897.	1896.
Savannah.....	101	82,645	116	74,143	11,241	5,175
Charleston, &c.....	1	10,371	.....	10,405	1,707	1,658
Florida, &c.....	.....	6,716	.....	4,783	3,262	1,830
Total.....	102	99,732	116	89,334	16,210	8,663

The exports for the week ending this evening reach a total of 365 bales, of which 312 bales were to Great Britain, 253 to France and — to Reval, and the amount forwarded to Northern mills has been 562 bales. Below are the exports for the week and since September 1 in 1896-97 and 1895-96.

Exports from—	Week Ending Apr. 23.			Since Sept. 1, 1896.			North'n Mill s.

Total. ....	312	253	565	41,888	9,691	51,579	562	34,915
Total 1895-6	856	144	1,000	37,599	6,467	44,066	317	36,990

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations April 23 at Savannah, for Floridas, common, 8c.; medium fine, 10c.; choice, 13 1/2c.

Charleston, Carolinas, medium fine, 17@17 1/2c.; fine, 18c.; fully fine, 19@20c.; extra fine, 25@33c.

**JUTE BUTTS, BAGGING, &c.**—There has been more business doing in jute bagging during the week under review, but prices are unchanged, the closing quotations to-night being 5 1/4c. for 1 1/2 lbs., 5 1/2c. for 2 lbs., and 6 1/2c. for standard grades. Car load lots of standard brands are quoted at 5 1/2c. for 1 1/2 lbs., 5 1/2c. for 2 lbs., and 6 1/2c. for 2 1/2 lbs., f.o.b. at New York. Jute butts are quiet at 1.05c. for paper quality, 1.30c. for mixing and 1 1/2c. for bagging, all to arrive.

**EXCHANGES.**—The following exchanges have been made during the week:

04 pd. to exch. 500 May for June.	15 pd. to exch. 400 Oct. for Sept.
10 pd. to exch. 3,100 May for Aug.	12 pd. to exch. 12,200 May for Aug.
37 pd. to exch. 600 Nov. for July.	11 pd. to exch. 1,200 Sep. for May.
01 pd. to exch. 200 July for Aug.	02 pd. to exch. 100 July for Aug.
11 pd. to exch. 8,900 May for Aug.	24 pd. to exch. 500 Dec. for May.
10 pd. to exch. 2,100 May for July.	27 pd. to exch. 300 Oct. for May.
33 pd. to exch. 1,000 Oct. for Aug.	26 pd. to exch. 100 Nov. for May.
05 pd. to exch. 100 May for June.	09 pd. to exch. 200 May for July.
04 pd. to exch. 700 Oct. for Dec.	

**HIGH WATER IN THE MISSISSIPPI.**—By the crevasses at Delta and La Fourche, La., this week considerable additional area in the Mississippi Valley has been overpowered. The sixth break in the Yazoo-Mississippi delta levees occurred on Wednesday morning at Shipland Landing, Issaquena County, Miss., and inundated much highly productive land. According to a report issued by the Treasury Department at Washington on April 21st the total area submerged at that date exceeded 20,000 square miles, the crops from which last year approximated in value close to twenty-two millions of dollars, of which over sixteen million dollars was represented by cotton, the production of that staple being placed at 466,056 bales. Telegraphic reports this evening indicate that the crest of the flood has reached New Orleans and that every effort is being made to hold the levees against it. At Helena and Memphis a gradual decline is in progress.

**SHIPPING NEWS.**—The exports of cotton from the United States the past week, as per latest mail returns, have reached 73,834 bales. So far as the Southern ports are concerned these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total sales.
NEW YORK—To Liverpool, per steamer Cevio, 6,194 upland and 162 Sea Island.....	6,356

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

BARBARA, steamer (Br.), from New Orleans, April 17, for Dunkirk, with 1,184 bales of cotton, went ashore April 23 and as all efforts to float her failed, part of her cargo had to be discharged. Her machinery is deranged, and on being floated she was towed back to New Orleans for inspection and repairs.

Cotton freights at New York the past week have been as follows.

## BREADSTUFFS.

FRIDAY, April 23, 1897.

There has been a fairly large volume of business transacted in the market for wheat flour. The sharp rise in wheat values following the declaration of war between Turkey and Greece stimulated a fairly brisk call from the home trade for supplies, principally the trade brands, and prices have advanced sharply. There has also been a fairly active demand from shippers for the low grades and higher prices have been paid. At the close the market was fairly active and firm. Advices received from the Northwest have reported a continued active demand, but principally from the home trade, at better prices. Rye flour has been in moderately active demand at steady values. Corn meal has had a fair sale at unchanged prices.

There was an active and somewhat excited speculation in the market for wheat futures early in the week, and prices advanced sharply on the formal declaration of war between Turkey and Greece. The net advance in prices for the week amounts to 4½¢ to 5½¢. for the near-by deliveries and 3¼¢ to 3½¢. for the distant months. Saturday there was active buying for foreign account, and prices closed at an advance of 1½¢ to 2½¢. for the day. Monday the market opened excited and decidedly higher on the war news from the Far East. The highest prices were reached during the first hour of trading, May delivery selling up to 83½¢. Realizing sales caused a reaction of about 2c. from the top values of the day, but at the close prices showed a net advance of 3¼¢ to 4½¢. Tuesday advices were received from the foreign markets, which had been closed since Thursday, in observance of the Easter holidays, and as the advices were disappointing there was further selling to realize profits, and prices closed 1½¢ to 1½¢. down for the day. Wednesday and Thursday the net changes in prices were unimportant, although the speculation continued fairly active. To-day, however, on the reports that the Greeks had repulsed the Turks and were recovering territory they had lost, the market turned stronger and the close was firm at an advance of 1½¢ to 1¾¢. On the "curb" prices further advanced ½¢. In the spot market a moderate volume of business has been transacted with shippers; in fact demand at the close was active. The sales were principally of spring wheat for forward loading. The terms of sales were generally private, but prices quoted were: 87½¢. for No. 1 Northern Duluth, f. o. b. afloat; No. 1 Northern New York at 85½¢. f. o. b. afloat, and No. 2 hard winter at 84c. f. o. b. afloat.

### DAILY CLOSING PRICES OF NO. 2 AND WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	77½	81½	80½	80½	80	81½
June delivery.....c.	77½	80½	79½	79	79½	80½
July delivery.....c.	76½	80½	79½	79	78½	80
September delivery.....c.	74½	79½	77½	76½	75½	76½
December delivery.....c.	77	80½	79½	78½	77½	78½

There has been a slight increase to the speculative dealings in the market for Indian corn futures and prices for the week have advanced  $\frac{1}{8}$  to  $\frac{1}{4}$  c. on buying, largely by shorts to cover contracts, stimulated by the declaration of war in the Far East and in sympathy with the sharp rise in wheat values. To-day the market was fractionally higher, following the improvement in wheat prices. In the spot market only a limited volume of business has been transacted, but prices have advanced with futures, closing with sales of No. 2 mixed at 80 $\frac{1}{2}$  to 80 $\frac{3}{4}$  c. in elevator and 81 $\frac{1}{8}$  to 81 $\frac{1}{2}$  c. f. o. b. afloat; also old yellow at 81c. in store.

## DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

July delivery.....	30 $\frac{1}{2}$	31 $\frac{1}{2}$	31 $\frac{1}{2}$	31 $\frac{1}{2}$	31 $\frac{1}{2}$	31 $\frac{1}{2}$
September delivery.....	32 $\frac{1}{4}$	33	32 $\frac{1}{4}$	32 $\frac{1}{4}$	32 $\frac{1}{4}$	32 $\frac{1}{4}$

Speculation on the market for oats for future delivery has been quiet, but there has been an advance in prices for the week of 1 to 1 $\frac{1}{4}$  c., in sympathy with the improvement in other grains and on the war news from the Far East. To-day the market was firm and  $\frac{1}{4}$  c. higher. In the spot market business has been more active; shippers have been fair buyers and prices have advanced. The sales to-day included No. 2 mixed at 23 $\frac{1}{2}$  c. in elevator and No. 2 white at 26 c. in elevator.

## DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....	21 $\frac{1}{2}$	22 $\frac{1}{2}$	22 $\frac{1}{2}$	22 $\frac{1}{2}$	22 $\frac{1}{2}$	22 $\frac{1}{2}$

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., April 23, 1897.

There has been but a moderate attendance of buyers in the market during the past week, and the business arising from orders by mail and wire has certainly not been above the average. There has thus not been, so far, any such development of demand as there were expectations of, based upon the successful auction sale of last week. The outcome, although disappointing in this respect, has not adversely affected the general tone of staple cotton goods; in fact, the only changes in prices noted have been in an upward direction, bleached cottons in leading makes gaining some 2 $\frac{1}{2}$  per cent on the week. This is an encouraging indication that despite the quiet character of buying for so long a time past it has nevertheless been, in some directions, constant enough not only to prevent any accumulation of stocks but to put sellers in a position where they can name higher prices with good prospects of realizing them. The woolen goods division of the market has been dull as a rule, but the general tone continues firm. Business with jobbers has been indifferent, but a marked improvement is expected next week from the influx of buyers attracted by the Grant Memorial celebration.

**DOMESTIC COTTON GOODS.**—The exports of cotton goods from this port for the week ending April 19 were 1,341 packages, valued at \$72,307, their destination being to the points specified in the tables below:

NEW YORK TO APRIL 19.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	125	1,667	107	678
Other European.....	100	1,354	5	1,217
China.....	5	27,145	600	26,722

China, via Vancouver*.....	.....	8,750	2,145	13,367
Total.....	1,341	77,386	4,674	78,173

\* From New Zealand mill points direct.

The value of the New York exports for the year to date has been \$2,822,730 in 1897 against \$2,983,734 in 1896.

Bleached cottons have developed a marked hardening tendency this week, advances of 2 to 2 $\frac{1}{2}$  per cent being reported

in such leading makes as Fruit of the Loom, Lonsdale, Masonville and Homestead 4-4 goods. The demand for such goods has been on a somewhat fuller scale and stocks are in good shape. Medium and low grade bleached shirtings are steady with a quiet business. Sales of wide sheetings have been on a limited scale with slightly lower prices quoted on one make. Cotton flannels have sold in fair quantities, but prices have been unsteady and in some instances fully down to the basis of last week's auction sale. Brown sheetings and drills are firm in standards and fairly steady in other weights. The demand, however, continues quiet throughout. Cotton blankets are inactive. In coarse, colored cottons small orders show some increase in numbers, particularly for denims, but the demand is readily met in all descriptions at previous prices. Sales of kid-finished cambrics are limited. Staple and fancy prints and printed specialties have been in quiet request but generally steady. Gingham, both staple and dress styles, have ruled dull and unaltered. Print cloths have been inactive. No sales of regulars reported at Fall River, where the quotation is unchanged at 29-18c. nominal.

Stock of Print Cloths—	1897.	1896.	1895.	1894.
	Apr. 17.	Apr. 13.	Apr. 20.	Apr. 21.
At Providence, 64 squares.....	247,000	247,000	119,000	219,000
At Fall River, 64 squares.....	791,000	791,000	27,000	340,000
At Fall River, odd sizes.....	533,000	533,000	113,000	81,000
Total stock (pieces).....	1,821,000	1,821,000	250,000	640,000

\* By agreement among the cloth brokers no detailed statement of the print cloth market is made public.

**WOOLEN GOODS.**—There has been a further falling off in the demand for woolen and worsted trousseings and suitings in all grades during the week, and business has been on a limited scale only. In an ordinary season this would be the natural sequel to the placing of initial orders, but many sellers had hoped that under tariff inducements buyers would be tempted to extend their purchases to cover more than usual of their future requirements. There is no speculation, however, despite the prevailing indications of a higher market for merchandise later on. The general tone is very firm, and it is quite the exception to find a seller easy to deal with either in staple or fancy lines. There have been no new features in the market for cloakings or overcoatings. Satinets are slow, and cotton-warp cassimeres dull. Flannels and blankets have been in limited request but firm in price. Dress goods in plain lines are strong and the general run of fancies firm.

**FOREIGN DRY GOODS.**—There has been more business done during the past few days for fall than for some time past, but still both buyers and sellers are cautious. The market for dress goods, silks, linens and other leading descriptions is very firm. Seasonable business is small and featureless.

## Imports and Warehouse Withdrawals of Dry Goods.

The imports and warehouse withdrawals of dry goods at this port for the week ending April 23, 1897, and since January 1, 1897, and for the corresponding periods of last year are as follows:

# STATE AND CITY DEPARTMENT.

## TERMS OF SUBSCRIPTION.

The **INVESTORS' SUPPLEMENT** will be furnished *without extra charge* to every annual subscriber of the **COMMERCIAL AND FINANCIAL CHRONICLE**.

The **STATE AND CITY SUPPLEMENT** will also be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

The **STREET RAILWAY SUPPLEMENT** will likewise be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

The **QUOTATION SUPPLEMENT**, issued monthly, will also be furnished *without extra charge* to every subscriber of the **CHRONICLE**.

**TERMS** for the **CHRONICLE** with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

## Terms of Advertising—(Per inch space.)

One time .....	\$3 50	Three Months (13 times) ..	\$25 00
One Month (1 time) ..	11 00	Six months (26 times) ..	43 00
Two Months (2 times) ..	18 00	Twelve Months (52 times) ..	58 00

The above terms for one month and upwards are for standing cards.

**Chicago, Ill.—Extracts from the Mayor's Message**—In submitting his annual message to the Board of Aldermen, Mayor Swift furnishes a detailed review of the city government for the past year. We give the following portions of the message which relate to the financial condition of the city:

"There has been an earnest effort under this administration to administer the city's affairs efficiently and economically, but you will doubtless remember that each year you are compelled to cut down the annual appropriation between \$2,000,000 and \$3,000,000 below the aggregate amount which the heads of departments estimate as necessary to be expended. If all taxable property could be made to bear its fair share of the public burden, and only its fair share, there would probably be no occasion for any general increase in the rate of taxation, but merely a more equitable distribution of the amount raised and a larger and sufficient revenue to the city.

"In recent years, prior to my administration, the difficulty of managing the city's affairs to the satisfaction of the community upon its limited income led to the loose and improper practice of running into debt. In the last two years this indebtedness has not only not been increased but has been sensibly reduced. Its mere existence was an embarrassment, and in the early part of this administration an attempt was made to secure legislation from the State which would enable the city to fund it by issuing bonds. Notwithstanding a well-defined public sentiment in favor of such legislation none was enacted. Resort was then necessarily had to the issuance of time warrants in anticipation of the collection of taxes, and their issuance has made it possible to carry on our municipal government. The subsequent collection of taxes and the practice of close economy have put us in position to redeem such warrants at the close of each fiscal year, and to pay our own current indebtedness."

From the tables presented we are enabled to give the following data concerning the resources, expenditures, assets and liabilities of the city for the past year.

The money appropriated for corporate purposes for the year 1896 were as follows:

Equalized valuation of property ..	\$243,476,825
Two per cent on same ..	1,969,536
Income from miscellaneous sources ..	3,655,722
Department receipts, transfers and from special sources ..	1,191,652
Total ..	\$9,719,910

The expenditures for the same period were \$9,670,676, leaving \$49,234 as an unexpended balance of appropriations.

The bonded debt has been reduced \$644,000 during the last two years and the floating debt nearly \$633,000.

The permanent assets amount to \$56,549,412, and the total bonded debt, including water certificates and trust funds, to \$17,119,870, making the surplus value of realty over bonded debt, \$39,430,042.

The uncollected taxes and cash on hand amount to \$16,436,905, and the entire indebtedness, other than the bonded debt, to \$16,366,349, leaving a surplus of current assets over current liabilities of \$79,565.

**Bond Proposals and Negotiations.**—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

**Bamberg, S. C.—Bond Offering.**—H. J. Brabham, Chairman of the Board of Supervisors, reports to the **CHRONICLE** that in a short time the town of Bamberg will offer for sale \$15,000 to \$20,000 of court-house and jail bonds. The securities will bear 5 per cent interest, payable semi-annually, and

will mature from 1898 to 1937, inclusive. This loan will constitute the only indebtedness of the town. The assessed valuation is about \$350,000.

**Baxley, Ga.—Bonds Authorized.**—At an election held in this town on April 18, 1897, the people authorized the issuance of water-works bonds to the amount of \$6,000.

**Berkley, Va.—Bond Sale.**—The Finance Committee of Berkley has awarded the \$25,000 of 5 per cent improvement bonds to C. H. White & Co. of New York City. The securities are of the denomination of \$1,000 each, dated July 1, 1897; interest is payable semi-annually and the principal will mature in thirty years from date of issue.

**Bethlehem, Pa.—Bond News.**—It has been reported that Bethlehem has placed a loan of \$4,000. We are officially informed that no such loan was made, but that an election will be held in June to decide the question of issuing \$75,000 of street-improvement bonds.

**Bradley County, Tenn.—Bonds Proposed.**—It is reported that Bradley County proposes to issue road-improvement bonds to the amount of \$75,000.

**Bristol County, Mass.—Bond Sale.**—On April 21, 1897, the County Commissioners awarded the \$100,000 of four per cent notes to E. H. Rollins & Sons of Boston, Mass., at 101-53. The other bids received were:

Adams & Co., Boston, Mass. ....	101-422
Blodgett, Merritt & Co., Boston, Mass. ....	101-410
R. L. Day & Co., Boston, Mass. ....	101-079
Third National Bank, Boston, Mass. ....	101-030
J. W. Longstreet & Co., Boston, Mass. ....	100-657
Parkinson & Burr, Boston, Mass. ....	100-623

The notes are of the denomination of \$30,000 each, dated April 22, 1897; interest is payable semi-annually and the principal will mature in four years from date of issue.

**Brockton, Mass.—Bond Offering.**—Proposals will be received until 7 o'clock P. M. April 28, 1897, by W. H. Emerson, City Treasurer, for the purchase of \$25,000 of 4 per cent water bonds and \$30,000 of 4 per cent sewer bonds. The securities will be dated May 1, 1897, and the interest will be payable semi-annually on the first days of May and November. The water loan will be issued in the form of coupon bonds of \$1,000 each, maturing May 1, 1927, and the sewer loan will be in the form of registered certificates of \$1,000 each, maturing at the rate of \$1,000 per annum from May 1, 1898 to 1937, inclusive. The gross debt of the city of Brockton on May 1, 1897, will be \$1,953,630. The debt incurred by special legislation (included in total debt) consists of a water debt of \$720,000, sewerage debt of \$544,500 and city hall debt of \$168,000, total \$1,432,500, making the amount of debt to be within the debt limit, \$526,130. The debt limit is \$572,456 76, or 2 1/2 per cent of the average valuation for the last three years, which amounts to \$22,908,279. The population is estimated at 85,863.

**Brooklyn, N. Y.—Bond News.**—The Board of Aldermen of this city was this week requested to appropriate \$3,100,000 for water-works improvements. The issuance of these bonds would bring the city debt up to about \$1,500,000 in excess of the debt limit, and for that reason Comptroller Palmer objects to the issue of the bonds. The borrowing capacity of the city will be increased on August 1 about \$2,000,000. The matter was referred to the Committee on Water and Drainage.

**Cambridge, Mass.—Bonds Proposed.**—This city will petition the Legislature to authorize a loan of \$100,000 for various improvements.

**Cape May, N. J.—Bonds Authorized.**—The City Council has authorized the issuance of improvement bonds to the amount of \$13,000.

**Carroll County, Ga.—Bond Offering.**—This county proposes to issue 6 per cent refunding bonds for the purchase of which proposals will soon be received.

**Catskill, N. Y.—Bonds Proposed.**—It is reported that this town proposes to issue paving bonds to the amount of \$20,000, and that a bill authorizing the issue has been passed by the Senate.

**Centre Hall, Pa.—Bonds Authorized.**—It is reported that water-works bonds of this municipality to the amount of \$5,000 have been voted.

**Chambersburg, Pa.—Bond News.**—A report has been published that this borough has sold \$4,000 of bonds at prices ranging from 100-13 to 103-05. We are officially informed that the borough has not issued any new bonds. It is supposed that the report originated through the sale by an executor, in settling up an estate, of that amount of borough bonds held by the estate.

**Christian County, Ky.—Bond Offering.**—Proposals will be received until May 18, 1897, by this county for the purchase of \$100,000 of refunding bonds. The securities will bear interest at the rate of 5 per cent and mature in thirty years from date of issue.

The above was published last week under Hopkinsville, Ky., which was incorrect.

**Cleveland, Ohio.—Bond Sale.**—On April 20, 1897, the \$300,000 of 4 per cent sewer bonds were awarded to W. J. Hayes & Sons of Cleveland at 107-48. The other bids received were:

Dierz, Donlon & Prior, Cleveland, Ohio. ....	107-37
Farron, Leach & Co., New York, N. Y. ....	107-17
Blodgett, Merritt & Co., Boston, Mass. ....	107-07
R. L. Day & Co. and Blake Bros. & Co., Boston, Mass. ....	106-82
N. W. Harris & Co., Chicago, Ill. ....	106-81
E. H. Rollins & Sons, Boston, Mass. ....	106-67
J. W. Morrison, New York. ....	105-55

The bonds are of the denomination of \$1,000 each. Interest is payable semi-annually on the first days of April and October and the principal will mature October 1, 1921, both principal and interest being payable at the American Exchange National Bank of New York City. The payment of these bonds will be provided for by taxes levied on all city property, and we are informed that the city of Cleveland will probably not issue any more bonds this year.

**Clinton, Mass.—Bond Issue.**—The city of Clinton has issued \$15,000 of bonds to pay the cost of extending the water works.

**Coatesville, Pa.—Bond Offering.**—Proposals will be received until 12 o'clock noon April 27, 1897, by the Finance Committee for the purchase of \$23,000 of 4 per cent water bonds of this borough. The securities will be of the denomination of \$100 and \$500; interest will be payable semi-annually on the first days of January and July and the principal will mature January 1, 1927, subject to call after July 1, 1898. Each proposal must be accompanied by a certified check for 5 per cent of the amount bid for.

**Colbert County, Ala.—Bond Offering.**—Proposals will be received until 12 o'clock noon May 10, 1897, by the Probate Judge of Colbert County for the purchase of \$100,000 of 5 per cent road bonds. Each bid must be accompanied by a certified check for \$1,000.

**Coloma, Mich.—Bonds Proposed.**—It is reported that this municipality is contemplating the issuance of water-works bonds.

**Corona (N. Y.) School District No. 2.—Bonds Authorized.**—New school house bonds of this district to the amount of \$15,000 have been authorized.

**Crooksville, Ohio.—Bond Sale.**—This village has awarded \$6,000 of 6 per cent 10-20-year street-improvement bonds to the Lamprecit Bros. Co., of Cleveland, Ohio, for \$6,186.

**Dennis, Mass.—Bond Offering.**—Proposals will be received until 2 o'clock P. M. April 27, 1897, by the town of Dennis for the purchase of \$10,000 of notes, each bid to state the rate at which the loan will be taken. The notes will mature at the rate of \$1,000 per annum, from 1898 to 1907 inclusive.

**Detroit, Mich.—Bond Redemption.**—The city of Detroit will redeem some of its outstanding indebtedness with the money now held in the sinking fund.

**Douglas County (Minn.) Independent School District No. 2.—Bonds Authorized.**—The citizens of this district have voted in favor of a proposition to issue \$14,000 of 4½ per cent 15-year school bonds of the denomination of \$1,000 each. Of this amount \$10,000 will be dated June 1, 1897, and the remainder September 1, 1897.

**Elizabeth, Pa.—Bonds Proposed.**—The citizens of Elizabeth have presented a petition to the City Council asking that permission be granted to submit to a vote of the people a proposition to issue street-improvement bonds.

**Elmira, N. Y.—Bond Sale.**—The city of Elmira has sold \$49,500 of 5 per cent school bonds to Rudolph Kleypolte & Co., of Cincinnati, Ohio, at 104½. The other bids received were:

Benwell & Everitt, New York, N. Y.	104-276
Daniel A. Moran & Co., New York, N. Y.	104-238
Street, Wykes & Co., New York, N. Y.	101-200
Mason, Lewis & Co., Chicago, Ill.	104-107
L. W. Morrison, New York, N. Y.	103-753
Farron, Leach & Co., New York, N. Y.	103-750
E. H. Rollins & Sons, Boston, Mass.	103-630
Bertron & Storrs, New York, N. Y.	103-570
Walter Stanton & Co., New York, N. Y.	103-220
The Lamprecit Bros. Co., Cleveland, Ohio.	101-070
C. H. White & Co., New York, N. Y.	102-750

The loan is issued in the form of registered bonds; interest is payable semi-annually and the principal will mature from 1906 to 1910.

**Fairhaven, Mass.—Bond Sale.**—On April 21, 1897, the Board of Selectmen of Fairhaven awarded the \$75,000 of sewerage bonds to Jose Parker & Co., of Boston, Mass., at 103-9153. The other bids received were:

G. A. Fernald & Co., Boston, Mass.	103-319
E. H. Gay & Co., Boston, Mass.	103-790
Adams & Co., Boston, Mass.	103-536
Dietz, Denison & Prior, Boston, Mass.	103-477
N. W. Harris & Co., Boston, Mass.	103-430
Estabrook & Co., Boston, Mass.	103-421
Blake Bros. & Co., Boston, Mass.	103-180
Parkinson & Burr, Boston, Mass.	103-172
New Bedford Inst. for Savings, New Bedford, Mass.	103-120
R. L. Day & Co., Boston, Mass.	103-079
Blodget, Merritt & Co., Boston, Mass.	102-810
Tower, Gliddens & Co., Boston, Mass.	102-770
Jas. W. Longstreet & Co., Boston, Mass.	102-672
E. H. Rollins & Sons, Boston, Mass.	102-539

The securities are coupon bonds of the denomination of \$500 and \$1,000. They are dated April 1, 1897, and interest at the rate of 4 per cent is payable semi-annually on the first days of April and October. The principal will mature as follows: \$2,000 annually on October 1 from 1898 to 1902, \$3,000 annually on Oct. 1 from 1903 to 1907, \$1,500 annually on Oct. 1 from 1908 to 1912, \$5,500 annually on Oct. 1 from 1913 to 1916 and \$5,500 on April 1, 1917. Principal and interest are payable at the First National Bank, Boston, Mass.

**Freeland, Pa.—Bond Offering.**—This municipality will receive proposals for the purchase of \$12,000 of 6 per cent school bonds.

**Freeport, N. Y.—Bond Sale.**—On April 17, 1897, the \$2,500 of water bonds of the town of Freeport were awarded to Benwell & Everitt of New York City at 107-51. The securities

bear interest at the rate of 5 per cent and will mature in twenty-two years from date of issue.

**Gaffney, S. C.—Bond Sale.**—The \$12,000 of 6 per cent twenty-year City Hall and electric-light bonds of Gaffney were sold to R. M. Oates of Charlotte, S. C., at par.

**Gloucester, Mass.—Bonds Authorized.**—A loan to the amount of \$24,000 for municipal improvements has been authorized by the Common Council of this city.

**Grand Forks (N. D.) Independent School District.—Bond Sale.**—Bonds of this school district to the amount of \$25,000 have been sold to F. R. Fulton & Co. of Grand Forks at 100-16. The securities are dated April 1, 1897; interest is payable semi-annually on the first days of January and July and the principal will mature in twenty years from date of issue.

**Greenspring, Ohio.—Bond News.**—George W. Earhart, City Treasurer, reports to the CHRONICLE that the question of issuing water-works and electric-light bonds will not be put to a vote of the citizens of Greenspring at the coming election, as a majority of the voters do not seem to favor the project.

**Greenwood, S. C.—Bonds Authorized.**—D. C. Du Pre, Mayor of Greenwood, reports to the CHRONICLE that the citizens of this municipality have voted in favor of a proposition to issue \$25,000 of court-house and jail bonds, to bear interest at a rate not to exceed 7 per cent.

**Hartford, Conn.—Regarding Financial Condition of the City.**—The following information in regard to the financial condition of the city of Hartford, is taken from Mayor Preston's message submitted to the Common Council on April 19, 1897:

"During the year \$1,000,000 of 6 per cent Capitol bonds came due, and the city was able to refund the same at 3½ per cent, thereby reducing the interest charge 2½ per cent per annum, besides receiving a very handsome premium on the sale of the bonds. At the same time it became necessary to issue for the purposes of paying the expenses of the intercepting sewer, public improvement bonds to the amount of \$150,000. These public improvement bonds were also issued at the rate of 3½ per cent, and the city received on the entire issue of \$150,000 a premium amounting in the aggregate to \$31,817. This is not only satisfactory as furnishing additional funds for the expenses of the city, but as showing the high stand of the credit of the city of Hartford in the commercial world.

"The entire city debt is as follows:—

Water debt.....	\$970,000
Other bonds of the city, none of which bear a higher rate of interest than 3½ per cent per annum and \$750,000 of which bear interest at the rate of 3 per cent.....	2,517,000
Notes.....	194,181
Total.....	\$3,681,181
Less cash reserve to pay for matured Capitol bonds.....	7,000
	\$3,674,181

"From this should be deducted the sinking funds, amounting to \$309,351, and the water debt, amounting to \$970,000, leaving the net city debt on April 1, 1897, \$2,394,830, as against \$2,251,190 on April 1, 1896, showing an increase of \$143,140. This, in view of the additional expenses incurred by the city in connection with the intercepting sewer and the park improvements, does not seem to be a very serious change. It should be remembered, however, that on April 1, 1896, the cash on hand, as shown by the Treasurer's statement, amounted to \$171,554, while on April 1, 1897, the cash on hand amounted to \$81,344, a difference of about \$90,000, which added to the increase in the debt shows that the actual condition of the city to-day is that of an increase of about \$233,000 in its liabilities above its assets."

**Helena, Mont.—Sale Postponed.**—The sale of \$161,500 of refunding bonds of Helena, which was to have taken place on April 12, has been postponed until April 27, 1897. The securities will be of the denomination of \$500 each, dated January 1, 1896; interest will be payable semi-annually and the principal will mature as follows: \$3,000 at the rate of \$590 per annum from January 1, 1900 to 1915, inclusive, and \$153,500 on January 1, 1916, both principal and interest being payable at the office of the City Treasurer of Helena or at the Third National Bank of New York City, as the purchaser may desire. The bonded debt of the city, including this issue, is \$391,500 assessed valuation (estimated at ½ of actual value), \$12,656,788. The population is estimated at \$15,000.

**Hollister, Cal.—Bond Offering.**—Proposals will be received until 8 o'clock P. M., June 7, 1897, by J. H. Shaw, Town Clerk, for the purchase of \$35,000 of 6 per cent sewer bonds, payable in gold coin of the United States, of the present standard. The securities will be of the denomination of \$375 each, dated June 1, 1897; interest will be payable semi-annually and the principal will mature at the rate of \$375 per annum, beginning with June 1, 1898, payable at the office of the Town Treasurer of Hollister. All bids must be at least equal to the par value of the bonds and be payable in gold. Each proposal must be accompanied by a certified check for 5 per cent of the amount of the bid.

This issue of bonds will constitute the only indebtedness of the town of Hollister. The assessed valuation of real and personal property is \$1,100,000; the actual value is estimated at about \$2,000,000. The State and county tax rate (per \$1,000) is \$13-50; town tax rate (per \$1,000), \$7 00. The population is estimated at about 2,500.

**Jamaica, N. Y.—Bond Sale.**—The \$450,000 of 4 per cent thirty-year gold road-improvement bonds of the town of Ja-

matics, which it was supposed were awarded to J. F. Hume of New York City, have been sold to E. D. Shepard & Co., at 106 19. The other bids received were:

Leland, Towle & Co., Boston, Mass.	108 100
Walter Stanton & Co., New York, N. Y.	107 150
J. H. Huntington for Dime Savings Bank of (Hklyn) \$250,000.	109 820
The Lamport Bros. Co., Cleveland, Ohio.	106 580
The Kings County Trust Co., Brooklyn, N. Y., \$250,000.	106 390
Edw. C. Jones Co., New York, N. Y.	104 080
Baymont Bros., New York, N. Y.	101 867
J. & W. Seligman, New York, N. Y.	103 570

None of the above bids were in accordance with the conditions of the sale. The proposals of the Dime Savings Bank and the Kings County Trust Co. were barred out because they contained the clause "if legally and lawfully issued", and it is reported that these two institutions propose to contest the award of the bonds to E. D. Shepard & Co. on the ground that that clause did not make the bid a conditional one.

**Jamestown, N. Y.—Bond Sale.**—On April 19, 1897, the Board of Public Works of Jamestown received the following bids for the \$50,000 of 4 per cent 20-year sewer bonds, the \$4,000 of 4 per cent 10-year paving bonds and the \$26,000 of 5 per cent 5-year paving certificates:

	\$50,000 Sewer Bonds.	\$4,000 Paving Bonds.	\$26,000 Paving Certs.
Bidders—			
Benwell & Everitt	106 500	103 00	102 00
Walter Stanton & Co.	106 420	102 30	102 41

Jas. W. Longstreet & Co.	102 513	100 673	102 87
Farson, Leach & Co.	\$70 prem.		

The \$50,000 of sewer bonds were awarded to Benwell & Everitt, the \$4,000 of paving bonds to Dietz, Denison & Prior and the \$26,000 of paving certificates to Jas. W. Longstreet & Co.

**Jasper County, Ind.—Bonds Proposed.**—The County Commissioners of Jasper County propose to issue \$40,000 of court-house bonds.

**Jellico, Tenn.—Bond Offering.**—Proposals will be received by Dr. D. W. Moore, Mayor of Jellico, until 1 o'clock P. M., May 25, 1897, for the purchase of \$6,000 of school bonds. The interest on the securities will be payable semi-annually and the principal will mature in twenty years from date of issue. Each bid must be accompanied by a certified check for 5 per cent of the amount bid for.

**Joplin, Mo.—Bonds Defeated.**—R. A. Spears, City Clerk, reports to the CHRONICLE that at a recent election the citizens of Joplin defeated by 23 votes the proposition to issue \$5,000 of sewer bonds.

**Lincoln, Mass.—Bonds Proposed.**—A bill authorizing this municipality to issue \$25,000 of water bonds has passed the State Senate.

**Lincoln Park, Ill.—Report of Board of Commissioners.**—The Board of Commissioners of Lincoln Park, in presenting their annual report, state that the bonded debt on April 1, 1897, consisted of \$460,000 and the floating debt \$19,920. Since April 1, 1893, the floating debt has been reduced from \$190,000 and \$25,000 of bonds have been paid off. The total receipts for the year amount to \$451,000 and the expenditures to \$433,685.

**Los Angeles, Cal.—Bonds Authorized.**—The citizens of Los Angeles have voted in favor of a proposition to issue \$270,000 of bonds. W. A. Hartwell, City Treasurer, reports to the CHRONICLE that the securities will be issued in a short time.

**Macon, Ga.—Bonds Authorized.**—Funding bonds of the city of Macon to the amount of \$50,000 have been authorized.

**Malden, Mass.—Bond Sale.**—The \$25,000 of 4 per cent water bonds issued by the town of Malden were awarded to Blake Bros. & Co. of Boston, Mass., at 100-29. The other bids received were:

E. H. Rollins & Sons, Boston, Mass.	100 280
Hodgett, Merritt & Co., Boston, Mass.	100 280
Jose Parker & Co., Boston, Mass.	100 275
Adams & Co., Boston, Mass.	100 270
Parkinson & Burr, Boston, Mass.	100 1923
Jas. W. Longstreet & Co., Boston, Mass.	100 078

The securities will mature as follows: \$12,500 on April 1, 1898, and \$12,500 on April 1, 1899.

**Mamaroneck, N. Y.—Temporary Loan.**—The village of Mamaroneck has placed a loan to the amount of \$3,000. The loan was issued in anticipation of the collection of taxes, which will probably be levied within ninety days.

**Marletta, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, April 27, 1897, by Carl Becker, City Clerk, for the purchase of \$11,500 of 6 per cent bonds. The securities will be issued in anticipation of the collection of special assessments for street improvements; they will be of the denomination of \$50 and bonds dated March 1, 1897, interest will be payable semi-annually on the principal will mature at the rate of 6 per cent from date of issue, payable at the Board of Supervisors in the city of New York. No bid at the time the town of Marletta was considered.

\$10,000 to \$20,000 of court-house bonds will bear 5 per cent interest, p

**Middletown, Conn.—Bond Offering.**—Proposals will be received until 7 o'clock P. M., April 29, 1897, by James P. Stow, City Treasurer, for the purchase of \$200,000 to \$215,000 of 4 per cent water-works bonds. The securities will be of the denomination of \$1,000 each, dated July 1, 1897; interest will be payable semi-annually on the first days of January and July, and the principal will mature July 1, 1922, both principal and interest being payable at the office of the City Treasurer of Middletown. No bid for less than par and accrued interest will be considered, and each proposal must be accompanied by a certified check for \$4,300.

This loan was authorized to provide means for the construction of a new and additional system of water supply by means of reservoirs, and will be issued in the form of registered or coupon bonds, as the purchaser may desire.

The present indebtedness of Middletown is \$323,030, including water bonds to the amount of \$99,000. A sinking fund of \$4,723 61 is held to pay certain water bonds as they become due. The estimated annual earnings of the new and old systems of water works, after paying all interest and other charges, amount to \$6,000. The assessed valuation for 1896 was \$6,000,000; the actual valuation is estimated at about \$8,000,000. The population of the city of Middletown is estimated at 12,000 and that of the town at 18,000.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Minneapolis, Minn.—Bonds Authorized.**—A bill has been passed by the Legislature authorizing \$600,000 of bonds of this city for the extension of the water-works and erection of new school buildings.

**Monongahela, Pa.—Bond Election.**—A proposition to issue paving bonds will soon be put to a vote of the people of this town.

**Munising, Mich.—Bonds Authorized.**—A proposition to issue water-works bonds to the amount of \$30,000 was carried by the citizens of Munising at a recent election.

**Naugatuck, Conn.—Bond News.**—The \$50,000 of 4 per cent bonds of the borough of Naugatuck were awarded at a private sale to Leland, Towle & Co. of Boston, Mass., at about 101-25. They are dated March 1, 1897, and will mature March 1, 1907.

**Nevada County (Cal.) School District.—Bond Offering.**—Proposals will be received until May 8, 1897, by the Board of Supervisors of Nevada County for the purchase of \$10,000 of 6 per cent gold bonds of this school district. The securities will be of the denomination of \$1,000 each; interest will be payable annually on the first Monday in June, and the principal will mature at the rate of \$2,000 per annum on the first Monday in June from 1898 to 1902 inclusive. Each proposal must be accompanied by a certified check for 5 per cent of the amount of the bid.

**New Brighton, Pa.—Bonds Proposed.**—The citizens of this municipality have under consideration a proposition to issue \$60,000 to \$80,000 of sewer bonds.

**Newtown (N. Y.) Union School District No. 1.—Bond Sale.**—On April 20, 1897, the \$53,000 of 4 per cent school bonds of this district were awarded to Isaac W. Sherrill, of Poughkeepsie, N. Y., at 103 10. The other bids received were:

Daniel A. Moran & Co., New York, N. Y.	102 638
Bertron & Storrs, New York, N. Y.	102 500
People's Savings Bank, Yonkers, N. Y. (\$13,000)	101 210
Henry R. Willam	101 087
W. J. Hayes & Sons, New York, N. Y.	\$103 50 premium

A bid of \$57,637 50 was received from Walter Stanton & Co., of New York City, on the basis of the bonds bearing 5 per cent interest, and a bid of 102 79 from the Edw. C. Jones Co., of New York City, on the basis of the bonds bearing 4 1/2 per cent interest. The Oswego City Savings Bank also bid for \$10,000 of the bonds on a 3 3/4 per cent basis.

The interest on the securities is payable semi-annually on the first days of January and July, and the principal will mature as follows: \$1,000 on January 1, 1901, and \$52,000 at the rate of \$2,000 per annum from January 1, 1902 to 1927, inclusive.

The net bonded debt of the district is \$600; assessed valuation, \$562,092; tax rate (per \$1,000), \$14 80. The actual value is estimated at about \$3,500,000 and the population at 2,500.

**New York City.—Bond News.**—The bill providing for an issue of \$7,500,000 of New York City bonds for school purposes has been amended by the State Senate so as to increase the amount to \$10,000,000. The Assembly has concurred in the amendments.

The Board of Estimate and Apportionment of New York City has authorized an issue of \$460,000 of bonds for building a new city prison.

**New York.—Bond Sale.**—On April 20, 1897, Comptroller Roberts awarded the \$3,000,000 of 3 per cent gold canal-improvement bonds as follows: \$6,000 to Chas. S. Brington of Albany, N. Y. at 102; \$300,000 to Blair & Co., of New York City at 101 75; \$6,000 to Maclay & Davies of New York City at 101 50, and \$2,988,000 to Harvey Fisk & Sons of New York City at 101 279. Jamaica Savings Bank, Jamaica, N. Y.	30,000.....	100 00

Interest on the securities from January 1, 1897, is payable semi-annually on the first days of January and July at the Bank of the Manhattan Company of New York City; the principal will mature January 1, 1912. The bonds are exempt from taxation; they are secured by a sinking fund and are issued in the form of coupon or registered bonds as the purchaser may desire.

**Bonds Authorized.**—The Governor has signed a bill authorizing an issue of \$400,000 of bonds, the proceeds from which, together with an appropriation of \$600,000, will be applied to the purchase of lands within the boundaries of Adirondack Park.

**Niagara Falls, N. Y.—Bond Sale.**—On April 16, 1897, the \$9,000 of 4 per cent twenty-year sewer bonds of Niagara Falls were awarded to Bertron & Storrs, of New York City, at 105-18. The other bids received were:

C. H. White & Co., New York, N. Y.	104-740
I. W. Sherrill, Poughkeepsie, N. Y.	104-162
J. W. Rand	102-100
Rudolph Kleybolte & Co., Cincinnati, Ohio.	Premium \$311 00
W. J. Hayes & Sons, New York, N. Y.	Premium \$230 00

A bid was also received from S. A. Kean, of Chicago, Ill., which was not in conformity with the conditions of the sale.

**North Dakota.—Bond Sale.**—On April 15, 1897, the \$112,000 of 4 per cent refunding bonds of North Dakota were awarded to F. R. Fulton & Co. of Grand Forks, N. D., at a premium of \$1,340. A bid of a premium of \$1,120 was also received from the Board of University, School and Public Lands of North Dakota. The securities are of the denomination of \$1,000 each, dated May 1, 1897; interest is payable semi-annually on the first days of May and November and the principal will mature May 1, 1927, both principal and interest being payable at the Chemical National Bank of New York City.

**Oakland, Md.—Correction.**—We reported two weeks ago that an election was to be held in Oakland to decide the question of issuing bonds for the construction of water-works. We have since been informed that no election was held and none is contemplated.

**Pensauken, N. J.—Bonds Authorized.**—The Board of Education of this township has been authorized to issue \$3,000 of bonds to provide funds for the purchase of land on which to erect a school house.

**Phoenix, A. T.—Bond News.**—T. A. Jobs, City Recorder, reports to the CHRONICLE that the party having the option on the \$10,000 of gold refunding fire department bonds is still confident of securing them, although the city is at liberty at any time to accept any other bid at par or above that seems desirable. The securities will be of the denomination of \$500 each; interest will be payable at the rate of 5 per cent and the principal will mature in fifteen years from date of issue, subject to call after ten years at the rate of \$2,000 per annum.

**Pleikens County, Ala.—Bonds Proposed.**—This county expects to issue 6 per cent bonds to refund certain 8 per cent bonds which are now due.

**Polk County, Iowa.—Note Sale.**—The \$50,000 of 6 per cent warrants of this county have been awarded to Farson, Leach

### City of Middletown, Conn., New Water-Works 4% Bonds.

SEALED PROPOSALS INDORSED "PROPOSALS FOR BONDS" with certified check on a National Bank for \$4,300 included to be sent to JAMES P. STOW, City Treasurer, until THURSDAY EVENING, APRIL 29, 1897, at 7 o'clock. There will be issued not less than \$200,000 and not greater than \$215,000 4 per cent straight 25 years, dated July 1, 1897, and mature July 1, 1922, authorized by special act of General Assembly of State of Connecticut, January Session, 1897, Joint Resolution 258. The assessed valuation for taxes of 1896 is \$4,000,000, actual valuation \$8,000,000; total bonded debt (not including this issue) \$320,000; Water-Works Department (old system), \$90,000; Water-Works Sinking Fund, \$1,722,481; present net debt (not including the old water works) \$222,377 39; estimated net earnings per annum of new and old system available after paying in full all interest and all other charges, \$91,000; population of city, 12,000; town, 18,000. There has been no default of any obligation of city or town. The right is reserved to reject any and all bids or proposals. A circular of particulars with blank attached for official proposals for this issue of bonds can be obtained from, and all bids or proposals must be addressed to, JAMES P. STOW, City Treasurer, Middletown, Conn.

A Second-Hand Set of Chronicle Volumes, from 1866 to 1895, for sale.  
WILLIAM H. DANA COMPANY,  
70½ Pine Street, New York.

& Co. of Chicago, Ill., at par. The securities are dated April 1, 1897; interest is payable at maturity and the principal will become due as follows: \$40,000 at the rate of \$10,000 every six months from April 1, 1898, and \$10,000 at the rate of \$5,000 every six months, beginning with April 1, 1900. Both principal and interest are payable at Des Moines.

**Portland, Me.—Bond News.**—D. W. Howland, of Boston, Mass., has refused to accept the \$200,000 of seven-months loan awarded to him on April 7, 1897, at 3 1-16 per cent discount and \$5 premium, claiming illegality in the awarding of the order. New bids were received by the city of Portland and the notes were awarded to Woodbury & Moulton of Portland, Me., at a discount of 3-10 per cent. A bid of 3-10 discount and \$6 premium, subject to the legality of the notes, was offered by Estabrook & Co., of Boston, Mass., and a bid of 3-12 1/2 per cent discount by Bond & Goodwin of Boston, Mass.

**Quincy, Mass.—Bond Sale.**—On April 22, 1897, H. Walter Gray, City Treasurer, awarded the \$30,000 of 4 per cent water bonds to Estabrook & Co. of Boston, Mass., at 105-327. The other bids received were:

Rudolph Kierbolte & Co., New York, N. Y.	103-180

John T. Williams, Scranton, Pa. (for \$5,000)	104-000

The securities are dated April 1, 1897; interest is payable semi-annually on the first days of April and October and the principal will mature at the rate of \$40,000 on April 1, 1922, 1925 and 1927, both principal and interest being payable at the office of the City Treasurer of Scranton.

**Southington, Conn.—Bond Offering.**—Proposals will be received until 2 o'clock P. M. May 12, 1897, by Edwin G. Lewis, Town Treasurer, for the purchase of \$90,000 of 4 per cent bonds. The securities will be of the denomination of \$1,000 each, dated July 1, 1897; interest will be payable semi-annually on the first days of January and July at the Southington National Bank, and the principal will mature at the rate of \$30,000 every ten years from July 1, 1907 to 1927, inclusive. A certified check for \$1,000 payable to the order of the Town Treasurer must accompany each bid.

These bonds will be issued for the purpose of funding the present indebtedness of Southington, and will constitute the only indebtedness of the town.

**CHRONICLE VOLUMES.**

WILLIAM B. DANA COMPANY, 70 1/2 Pine St., N. Y.

**Stanton, Va.—Bonds Authorized.**—The City Council of Stanton has authorized an issue of \$75,000 of 4½ per cent bonds to refund certain 6 per cent bonds which will mature in a short time.

**Thomaston, Ga.—Bond Election.**—A proposition to issue bonds to the amount of \$30,000 for municipal improvements will be put to a vote of the citizens of Thomaston on May 20, 1897.

**Timmons ville, S. C.—Bond Election.**—An election will be held in this city to vote on a proposition to issue bonds to pay the cost of erecting new school buildings.

**Utica, N. Y.—Bond Sale.**—On April 19, 1897, the city of Utica awarded to Isaac W. Sherrill, of Poughkeepsie, N. Y., \$27,395 49 of 4 per cent paving bonds at 100-67. The other bids received were:

Bertron & Storrs, New York.....100-66  
Street, Wykes & Co., New York.....100-65

The securities are dated as follows: \$11,467 97 February 26, 1897; \$15,455 07, March 26, 1897, and \$472 45 April 9, 1897. Interest is payable annually at the office of the City Treasurer and the principal will mature in six equal annual instalments.

The indebtedness of Utica, not including this issue, consists of \$96,390 35 of local assessment bonds, \$176,833 32 of public improvement bonds and \$200,000 of railroad-aid bonds, against which \$200,000 of railroad stock are held, which pays 5 per cent dividends. The assessed valuation for 1896 was: real estate, \$16,437,263; personal property, \$2,613,826; total, \$19,051,088. The population is estimated at about 55,621.

**Vicksburg, Mich.—Bond Sale.**—It is reported by the New York News Bureau that the Michigan Trust Company of Grand Rapids, Mich., has been awarded \$15,000 of water-works and electric-light bonds of Vicksburg, Mich. The bonds bear interest at 5 per cent and mature in from 3 to 20 years from date of issue.

**Waterloo, N. Y.—Bonds Proposed.**—This village will issue refunding bonds to the amount of \$10,000.

**Wheeling, W. Va.—Bonds Proposed.**—This city proposes to issue 4 or 4½ per cent bonds for the purpose of refunding \$640,000 of its 6 per cent bonds now outstanding.

**White Sulphur Springs, Mont.—Bonds Authorized.**—The people of White Sulphur Springs have voted in favor of the issuance of bonds for the construction of water-works to cost about \$30,000.

**Wood County, Ohio.—Bond Sale.**—The \$7,000 of bonds of this county were awarded to Seasongood & Mayer of Cincinnati, Ohio, at a premium of 235-00. The securities are dated April 1, 1897, interest at the rate of 5 per cent is payable semi-annually on the first days of April and October, and the principal matures at the rate of \$500 every six months beginning with April 1, 1898. The loan was issued for the purpose of raising funds for the purchase of additional grounds for the court-house and jail.

**Yeadon, Pa.—Bond Sale.**—The \$10,500 of 4½ per cent 10-30-year bonds of this municipality were awarded to Heyl & Major at 101-059. A bid of 102-625 was received from I. H. Kershaw which was not in accordance with the conditions of the sale. Other bids received were: Cyrus Pierce, par and \$1 50 premium; Dick Bros. & Co., \$11,232, and I. P. Simpson, 103-35; the last two proposals being on the basis of the bonds being free of tax.

**York, Pa.—Bonds Authorized.**—This city has been authorized to issue \$125,000 of 4½ per cent school bonds.

**Lorain, Ohio.**—The following financial statement of Lorain has been corrected to March 1, 1897, by means of an official report to the CHRONICLE from G. A. Resek, City Clerk.

Lorain is situated in Lorain County.

### THE FINANCIAL SITUATION.

The shipments of gold to Europe which began this week have led to considerable discussion. They would attract very little if any attention were it not for the unfortunate condition of our currency. That is an occult influence which no one can measure and which, consequently, every one is liable to exaggerate. We suggested months ago, and have also repeated the suggestion several times since, that the progress of tariff legislation in connection with the other conditions prevailing would induce a large increase in merchandise imports which during the months of small exports might lead to an outflow of gold. This is substantially what is now occurring. That is to say the unusual movement of merchandise to America from all parts of the world seeking to get advantage of the existing duties in view of the higher rates which are expected to prevail soon, is the first factor in the situation, without which the movement of gold would not be feasible. The other influence is that there is a special demand in Europe for gold by Russia and Japan, but more particularly by Austria. This latter country has increased the urgency of the call, and lowered the point of sterling exchange at which gold can profitably be moved from New York to Austria, by the sale of a considerable amount of three and a-half per cent Treasury bills in London and Vienna, with the requirement that payment be made in gold. The operation is not so very unlike our recent sales of bonds for gold which enabled us to import very considerable amounts of that metal even with foreign exchange here at high rates. The truth is that the London and Vienna bankers bought Austrian  $3\frac{1}{2}$  per cents at a figure that enabled them to get a profit on the purchase after paying something to secure the gold.

But the question has been asked, how is an outflow of gold possible in face of the large merchandise balance which the records of our foreign trade since July 1 1896 show stands in our favor? Do not the figures of the Bureau of Statistics for the current fiscal year to April 1 indicate that the outside world still owes us on that account 323 million dollars? Sometimes the trade situation is stated in that way; but it should not be overlooked that a portion of this balance has been paid by gold imports which the record for the same months states reached a net of \$64,492,000 coin and bullion plus \$2,170,000 gold ore, or a total of \$66,662,000; this offset is to be decreased, however, by the net exports of silver, which were \$37,995,000 less the net imports (\$13,017,000) of silver ore. Taking all these items into the account the actual net trade balance for the nine months ending with April 1, according to the Government's exhibit, is found to be 281½ million dollars instead of 323 million. Moreover, even that smaller result is subject to other well-known deductions. Our usual allowance for under-valuations, freights, &c., &c., during the same period (nine months), aggregates about \$110,000,000. Then again there is the large security movement, which has been against us in the months beginning with last July and continuing through the election canvass to November, and again becoming large when after the election prices of the best securities at our Stock Exchange rose so high that Europe found it profitable to market a very considerable amount of its holdings of first-class bonds and stocks. These capital movements we cannot undertake to estimate accurately. There are no sufficient data at present avail-

able; later on, when the accounts for the year are closed up, an investigation will meet with fewer difficulties.

The foregoing trade balances and other figures given relate to transactions past and in a sense closed. Even the trade statement for April, which will not be made up until about the middle of May, is of course not included; while the operations for the later month of May and for June too are in some measure entering into current accounts and affecting exchange. The truth is, merchandise imports in April have been large; the merchandise afloat for the United States is still far in excess of ordinary times, so that the arrivals up to July 1 promise to be abnormal. Putting these facts and the facts previously stated together, the outflow of gold at the present moment will be found not at all surprising. Orders for the metal were in the market last week to be sent to Vienna via London. They were not executed because of an agreement among the principal bankers not to ship so long as sight bills could be obtained at 488½. Inquiries were, however, made at the Sub-Treasury on Thursday of that week as to the kind of coin that would probably be furnished if withdrawals were required; but nothing definite was known regarding the intentions of shippers until Saturday when \$977,000 gold bars were ordered at the Assay Office for shipment on Tuesday. For Thursday's steamer \$1,500,000 additional were withdrawn. Yesterday the further amount of \$4,750,000 was withdrawn, \$4,000,000 to go out to-day and \$750,000 on Tuesday, May 4. The extent of this gold movement is not at all certain. We have an enlarged visible and invisible supply of the metal and consequently can easily meet the demand. At the latest the outflow can hardly continue after tariff legislation is completed and the inducement for abnormal imports removed; the presumption is that the receipts of foreign merchandise must then be for a time very small, our foreign trade be favorable again, and gold exports be checked.

The outlook for speedy action in the matter of tariff legislation is not quite so promising as it has been. Instead of getting the bill before the Senate this week, as was the expectation last Friday, it has not as yet even been brought before the full Finance Committee. The hope is now that it will be before the full committee on Monday, where, according to present report, it is likely to remain two weeks for examination, though an effort is being made to reach an agreement that it be considered only very briefly and not critically in the committee; if such an arrangement is entered into, the bill may be before the Senate the coming week, though that does not look probable as we write. No factions opposition is anticipated either in committee or thereafter; still the more general view now taken does not fix an earlier date for the measure to be in the hands of the President than the last of July or the first part of August. That means, of course, that the summer will in large part be past before the situation can be wholly freed from the uncertainties relating to the markets which the progress of Customs changes introduces. As soon, however, as the leading features begin to be discussed in the Senate the probable character of the tariff legislation of this year ought to become clear and business affairs in good measure be relieved; for the chances are that the bill will substantially take its final shape in that body. In connection with that

thought the election of a conservative Republican Senator in Kentucky this week is a favorable circumstance.

We also have in that Senatorial election another indication of the uncompromising material out of which the Sound Money Party is made and a type of what happens and what must always happen when a basic principle actuates a body of men. The Kentucky Legislature meets biennially, and has been for nearly a year and a-half trying to elect a United States Senator. The earlier effort began with the regular session in January 1896, the Democratic Party having a small majority in that body. Day after day and week after week the two Houses met together and voted with great diligence, but enough sound money Democrats refused to endorse the silver candidate to prevent a choice until the term came to an end and the Legislature adjourned. In the period which has intervened a slight change in the character of the membership of that body has occurred by death and new elections; in March the Governor, who is a Republican, expecting that a Senator of his own political organization could be chosen, called the Legislature together in extra session. As it turned out both parties nominated a silver candidate. Ever since the extra session opened voting has been in progress but without result. On almost any day either nominee might have been chosen if he could have commanded the gold members of his own party. At last the Republicans changed their candidate and nominated a gold currency man. At the first opportunity he was elected, all of the gold Republicans as well as three of the gold Democrats voting for him, and subsequently the gold men of both parties demonstrating in most emphatic manner their happiness over the outcome when it was attained.

Evidence of this same spirit is found in the utterances of the Sound-Money Democrats at the Reform Club dinner last Saturday night. That dinner was in every way a notable affair. It was attended by some of the most eminent leaders of the Sound-Money Party, and they spoke in a way that could leave no doubt of their continued and uncompromising hostility to the free silver heresy. Still retaining their old tariff views, it was natural that they should express opposition to the tariff policy of the dominant party. But we think rather undue prominence has been given to this part of the speeches. What to us is particularly significant is that all the speakers took pains to reaffirm their adherence to the cause of sound money, and to declare that under no circumstances would they affiliate with the free-silver democrats. They would not change their position. They had nothing to recant. The fact that at the same time they declared their preference for low tariff duties serves in our estimation merely to emphasize their attitude on the money question. It is the money question that marks a new issue in their political career—an issue that has thrust all other issues aside. Hence the announcement that on this issue their stand now is just what it was at the November election is the point of vital importance.

The key-note of their views was furnished by ex-President Cleveland when he said that "above all things true Democracy insists that the money of the people should be sound and stable, neither shriveling in purchasing power in the hands of the poor nor by its uncertain value driving enterprise and productive energy into hiding"; and also when he said, "Let true democrats meet the passion and bitterness

of their former associates who have assumed the leadership of anti-Democratic wanderings with firm expositions, reminding them that Democratic convictions and Democratic conscience cannot be forced to follow false lights, however held aloft." The other speakers were no less emphatic in their declarations. Mr. John De Witt Warner said: "This rally is a notice that every fight in which we have engaged is to be fought through to final victory." Ex-Secretary Carlisle declared, "We who have gone into the contest for sound money do not purpose now or hereafter to abandon any position we have heretofore taken, or to modify any declaration we have heretofore made on the subject"; \* \* \* "we will continue to resist, by all honorable means at our command, every attempt to abolish or impair it [the existing monetary standard] in the United States, no matter what any other nation in the world may do or refuse to do." In the same vein Senator Caffery of Louisiana declared that, "The flag raised at Indianapolis will never be lowered. The men who braved the wrath of a powerful political organization are not of a kind to quail before danger or to surrender a principle." And Mr. William D. Bynum of Indiana was equally outspoken, saying that, "To affiliate with the supporters of the Chicago platform upon any issue so long as its adherents insist as a prerequisite upon the doctrines therein proclaimed would be not only a cowardly but a dishonorable surrender." There is striking unanimity in these utterances, and they show that there is to be no step backward—that should occasion call for it the Sound Money Democrats will be found ready in the future as in the past to subordinate everything else to the cause of an honest monetary standard.

A large number of returns of railroad gross and net earnings for March have come to hand this week and the results vary a great deal. There are a good many cases where both the gross and the net record gains, but more often there is a gain merely in the net (or at least the showing as to the net is better than that as to the gross), owing to the adoption of a policy of retrenchment in expenses. The Southern Pacific reports \$171,626 increase in gross and \$203,217 increase in net. The Wabash, with \$65,926 decrease in gross has \$12,369 increase in net, and the Erie has suffered a decrease in both gross and net—\$33,367 in the former and \$62,180 in the latter. Some of the anthracite coal roads have done quite well, though it should not be forgotten that this is in comparison with poor results last year. The Lehigh Valley on its railroad operations shows \$66,613 increase in gross and \$125,326 increase in net, and on the operations of the Lehigh Valley Coal Company \$253,114 decrease in gross, with \$83,273 increase in net, making the combined increase in net \$208,599. The New York Ontario & Western has an exceptionally good statement, reporting gross of \$303,726 against \$258,716, and net of \$79,806 against \$44,568. The New York Susquehanna & Western has \$3,751 decrease in gross, \$4,968 decrease in net. The Reading shows comparatively small changes for the Railroad Company, but considerable losses in both gross and net for the Coal & Iron Company; the final result (including miscellaneous income) gives net of \$542,896 for March 1897, against \$597,276 for March 1896.

Among the grain-carrying roads the Milwaukee & St. Paul has \$413,028 decrease in gross and \$104,426 decrease in net, but the Burlington & Quincy has \$253,597 increase in gross and \$287,355 increase in

Det. The Canadian Pacific has added \$25,342 to its gross and \$43,682 to its net. Among Southern roads the Central of Georgia has \$5,759 decrease in gross but \$1,846 increase in net, and the Alabama Great Southern has \$1,981 decrease in gross and \$1,082 decrease in net. In the Southwest the St. Louis & San Francisco, with \$11,740 increase in gross, has \$18,901 increase in net, but the Atchison Topeka & Santa Fe, with \$268,807 increase in gross, has only \$8,178 increase in net. The Denver & Rio Grande loses \$30,018 in gross but only \$300 in net. Below we furnish a four-year comparison of the March gross and net of a number of roads that have this week submitted statements for publication.

The Pennsylvania Railroad return for March shows on the whole comparatively slight changes, though as the road is regarded as typical of the country's industries, it is interesting to observe that the gross earnings still run behind last year, the decrease having now, however, been reduced to small proportions. Expenses are being rigidly curtailed, so that the net is better than a year ago. On the Eastern lines, with \$189,200 decrease in gross, there is \$27,300 increase in net, and on the Western lines, with \$138,600 decrease in gross, there is \$20,500 increase in net. On the combined system the reduction in expenses has been \$375,600 for the month and \$1,592,200 for the three months. The following is a six-year comparison of the earnings of the Eastern lines.

Lines East of Pittsburgh.	1897.	1896.	1895.	1894.	1893.	1892.

Money on call, representing bankers' balances, has loaned at the Stock Exchange this week at  $1\frac{1}{2}$  and at  $1\frac{1}{4}$  per cent, with large transactions at the first-named rate, and the average has been at about  $1\frac{1}{2}$  per cent. Banks and trust companies offering their money on the Exchange have accepted the rates there current, and very little bank money has been taken over the counter at 2 per cent. Time contracts are freely offered, but the business done has been confined to a few renewals and scarcely any new engagements have been made. Rates are easier at 2 per cent for thirty to sixty days;  $2\frac{1}{2}$  per cent for ninety days to four months; 3 per cent for five to seven months, and  $3\frac{1}{2}$  per cent for

longer periods on good mixed Stock Exchange collateral. There is a meagre assortment of commercial paper offering and the market is dull. Quotations are  $3\frac{1}{2}$  per cent for sixty to ninety day endorsed bills receivable;  $3\frac{1}{2}$  @  $4\frac{1}{2}$  per cent for first class, and  $4\frac{1}{2}$  @  $5\frac{1}{2}$  per cent for good four to six months' single names.

There are indications that the war between Turkey and Greece, which began April 18, when the Turkish Council of Ministers declared that a state of war existed, will soon be brought to a close by the intervention of the Powers. Larissa, the Greek headquarters, was evacuated on Saturday, and the army retreated upon Pharsalia. The news of the disaster caused intense excitement at Athens and there was a feeling of resentment against the King. M. Ralli, the leader of the Opposition, sharply criticised the conduct of the war and as he had a large following a grave political crisis seemed imminent on Monday. The political situation continued critical. On Thursday the King called upon his ministers to resign and he entrusted the Opposition leaders with the task of forming a new cabinet with M. Ralli as Prime Minister. The European security markets were only slightly influenced by the news from Greece and there was a firmer tone for consols, due to the outlook for the speedy ending of the war. The Bank of England minimum rate of discount remains unchanged at  $2\frac{1}{2}$  per cent. The cable reports discounts of sixty to ninety day bank bills in London at 15-16 per cent. The open market rate at Paris is 2 per cent and at Berlin and Frankfurt it is  $2\frac{1}{2}$  per cent. According to our special cable from London the Bank of England gained £201,865 bullion during the week and held £36,493,913 at the close of the week. Our correspondent further advises us that the gain was due to the import of £300,000 (of which £140,000 were from Australia, £150,000 from the Cape and £10,000 from Portugal,) to receipts from the interior of Great Britain of £444,000 net and to exports of £542,000, of which £445,000 were to Japan, £91,000 to Austria and £6,000 to India.

The feature of the foreign exchange market this week has been the export of gold to Europe. Last week there were rumors of gold shipments although it was stated that there was an agreement among foreign bankers not to execute orders for the shipment of gold unless the sight bills drawn against the export could be sold at 488 $\frac{3}{4}$ , so as to afford a fair profit on the transaction. On Saturday, Muller, Schall & Co. withdrew \$977,000 in gold bars from the Assay Office for shipment to Austria on Tuesday. On Monday Kidder, Peabody & Co. caused the withdrawal through Baring, Magoun & Co. of \$500,000 gold coin for shipment to Germany on Thursday. Nominal rates were reduced half a cent by Brown Bros. while rates for actual business fell one-quarter of a cent, partly because of offerings of bills against those shipments and also for the reason that it was thought there would be other bills offered against later shipments. Tuesday was a holiday. On Wednesday Lazard Freres withdrew \$1,000,000 gold coin from the Treasury for export to France on the following day, and the offering of bills against this shipment and that of Kidder, Peabody & Co., together with a light demand, caused a further decline of one-quarter of a cent in rates for actual business. On Thursday Kidder, Peabody & Co. ordered \$500,000 gold coin for export on Tuesday of next week, and it was then expected that there would be an export of at

least \$2,500,000 by Saturday's steamer. The tone of the market was strong for long sterling at an advance of one-quarter of a cent, while short sterling and cable transfers were firmly held. On Friday Kidder, Peabody & Co. engaged \$250,000 more for shipment next Tuesday; in addition \$4,000,000 was engaged for shipment to-day, namely \$1,500,000 by L. von Hoffmann & Co., \$1,500,000 by Lazard Freres, \$500,000 by Heidelbach, Ickelheimer & Co. and \$500,000 by Kuhn, Loeb & Co. This makes the total exports \$6,477,000, not including the amount to go next Tuesday. The range for nominal rates for sterling on Monday was unchanged at 4 87 to 4 87½ for sixty-day and 4 88½ to 4 89 for sight, compared with Friday of last week, though Brown Bros. & Co. reduced their posted figures half a cent. Rates for actual business were one-quarter of a cent lower all around, at 4 86½@4 86½ for long, 4 87½@4 88 for short and 4 88@4 88½ for cable transfers. On Wednesday the Bank of British North America, Heidelbach, Ickelheimer & Co., Lazard Freres and the Merchants' Bank of Canada reduced their posted rates half a cent, but the range for nominal rates was unchanged, Baring, Magoun & Co. and the Canadian Bank of Commerce posting the higher figures. Rates for actual business were one-quarter of a cent lower at 4 86@4 86½ for long, 4 87½@4 87½ for short and 4 87½@4 88 for cable transfers, and the market was easy at the close, and it was then reported that only a small portion of the bills against the intended shipments had been sold. On Thursday all bankers, except the Canadian Bank of Commerce, posted 4 87 for sixty day and 4 88½ for sight; but with the exception of an advance of one-quarter of a cent in rates for actual business in long sterling to 4 86½@4 86½, there was no change, and the market closed firm. Bankers handling provision bills report a good supply and some commercial francs have been sold against cotton seed oil. Yesterday posted rates were uniform by all the bankers and there was no change in actual rates, though some bankers report having purchased bills at a slight concession from the quoted figures. The following shows the daily posted rates:

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

	FRI. Apr. 23.	MON. Apr. 26.	TUES. Apr. 27.	WED. Apr. 28.	THUR. Apr. 29.	FRI. Apr. 30.
Brown Bros.....	{ 60 days. 87½ Sight. 87½	{ 87½ 87½	.....	87	87	87

Merchants' Bk. of Canada	{ 60 days. 87½ Sight. 87	{ 87½ 87	.....	87	87	87

The market closed weaker on Friday with posted rates at 4 87 for sixty day and 4 88½ for sight. Rates for actual business were 4 86½@4 86½ for long, 4 87½@4 87½ for short and 4 87½@4 88 for cable transfers. Prime commercial bills were 4 85½@4 86 and documentary 4 85½@4 85½.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending April 30, 1897.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	\$6,319,000	\$1,584,000	Gain. \$3,735,000
Gold.....	492,000	322,000	Gain. 170,000
Total gold and legal tenders.....	\$6,811,000	\$1,906,000	Gain. \$3,905,000

With the Sub-Treasury operations and gold exports the result is as follows.

Week Ending April 30, 1897.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	\$5,811,000	\$1,906,000	Gain. \$3,905,000
Sub-Treas. operations and gold expts.	13,600,000	20,777,000	Loss. 7,177,000
Total gold and legal tenders.....	\$19,411,000	\$22,683,000	Loss \$3,272,000

\* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.  
NOTE.—We receive the foregoing results weekly by cable, and while no all of the rate given at the head of this column, they are the returns issued nearest to that date—that is, the latest reported figures.

## RIGHT OF CITIES TO OPEN STREETS ACROSS RAILROADS.

The question of removing grade crossings of railroads is one that is engaging the attention of nearly all the larger communities. The United States Supreme Court recently rendered a decision in a case which did not involve that question, but which involved another question of much importance to the railroads, namely the subject of opening new streets across the tracks of the roads, thus creating new grade crossings. The case was that of the Chicago Burlington & Quincy Railroad Company versus the city of Chicago. The right to open the street across the road was not in question in this case, as the city clearly possessed the necessary power under a general statute of the State of Illinois relating to the incorporation of cities and villages. The case was interesting, however, because it raised the point as to what was just compensation for land taken from the right of way of a railroad in opening a street, and also the point whether in estimating the compensation to be paid the expense to which the road might be put, through the opening of the street, for erecting gates and maintaining flagmen, &c., ought to be taken into consideration.

It appears that by ordinance approved October 9 1880, the City Council of Chicago ordained that Rockwell Street in that city be opened and widened from West 18th to West 19th Street, by condemning therefor (in accordance with an act of the State of Illinois, approved April 10 1872, and relating to cities and villages generally,) certain parcels of land owned by individuals and also certain parts of the right of way in Chicago of the Chicago Burlington & Quincy RR. Company, a corporation organized under Illinois law. In execution of that ordinance a petition was filed by the city November 12 1890, in the Circuit Court of Cook County, Ill., for the condemnation of the land and property proposed to be taken or damaged, and asking that the compensation to be paid for such property be assessed by a jury, as provided by the law of 1872. The jury awarded the Burlington & Quincy only one dollar as compensation for those parts of its right of way described in the city's petition as necessary to be used for the purposes of the proposed street. The company moved for a new trial, but its

motion was overruled, and a final judgment rendered in execution of the award by the jury. The Supreme Court of Illinois having affirmed the judgment the case was carried on a writ of error to the Supreme Court of the United States.

The contention of the railroad company was that the judgment of the State Court awarding it only one dollar deprived it of its property without process of law, contrary to the prohibitions of the Fourteenth Amendment of the Constitution of the United States: that the company was entitled by reason of the opening of the street to recover as compensation a sum equal to the difference between the value of the land as land without any restrictions on its right to use it for any lawful purpose and the value of the land burdened with the right of the public to use it for the purposes of a street crossing. In the determination of these contentions, some collateral points were raised and disposed of, but we shall confine ourselves in this article to the main issue.

Justice Harlan, who delivered the opinion of the Court, pointed out that it was not claimed, and indeed could not be claimed, that the Constitution of Illinois deprives the railroad company of any right secured by the Fourteenth Amendment; for the State Constitution not only declares that no person shall be deprived of his property without due process of law, but that private property shall not be taken or damaged for public use without just compensation. He also observes that the judgment of a State Court, even if authorized by statute, whereby private property was taken for the State or under its direction for public use without compensation made or secured to the owner, would be, upon principle and authority, wanting in the due process of law required by the Fourteenth Amendment. The point to determine, therefore, was whether the *necessary effect* of the proceedings in the court below was to appropriate to the public use any property right of the railroad company without compensation being made or secured to the owner. The railroad company maintained that the verdict for one dollar was in effect an appropriation of its property rights without any compensation whatever.

Undoubtedly, says Justice Harlan, the verdict may not unreasonably be taken as meaning that in the judgment of the jury the company's property proposed to be taken was not materially damaged; that is, looking at the nature of the property and the purposes for which it was obtained and was being used, that which was taken from the company was not, in the judgment of the jury, of any substantial value in money. The owner of private property taken under the right of eminent domain obtains just compensation if he is awarded such sum as, under the circumstances, is a fair and full equivalent for the thing taken from him by the public. If the opening of the street across the railroad tracks did not unduly interfere with the company's use of the right of way for legitimate railroad purposes, then its compensation would be nominal. But whether there was such an interference, what was its extent, and what was the value of the loss by the company as the direct result of such interference, were questions of fact, which the State committed to the jury under such instructions touching the law as were proper and necessary.

The opinion then goes at length into the question whether it is competent for the Federal Supreme Court to go behind the final judgment of the State Court for

the purpose of re-examining and weighing the evidence and of determining whether upon the facts the jury erred in not returning a verdict in favor of the railroad company for a larger sum than one dollar. The conclusion is reached that the Court possesses no such power—that whatever may have been the power of the trial court to set aside the verdict as not awarding just compensation, or the authority of the Supreme Court of Illinois, under the Constitution and laws of the State, to review the facts, the Seventh Amendment to the Constitution clearly forbids a re-trial on the part of the Federal Supreme Court. The persons impaneled in the present case, says the Court, to ascertain the just compensation due to the railroad company, constituted a jury as ordained by the Constitution of Illinois in cases of the condemnation of private property for public use, and, being a jury within the meaning of the Seventh Amendment of the Constitution of the United States, the facts tried by it cannot be re-tried “in any court of the United States otherwise than according to the rules of the common law.” The Federal Supreme Court therefore is permitted only to inquire whether the trial court prescribed any rule of law for the guidance of the jury that was in absolute disregard of the company's right to just compensation.

The State Supreme Court had held that when a city, under the authority of the Act of April 10 1872, extends a street across railroad tracks or right of way, “it does not condemn the land of the railroad company nor prevent the use of the tracks and right of way.” Justice Harlan, speaking for the Federal Supreme Court, accepts this interpretation, saying: “We take this to be a correct interpretation of the local statute, and as indicating not only the interest acquired by the public through proceedings instituted for the extension of a street across the tracks and right of way of the railroad company, but also the extent to which the company was deprived by the proceedings for condemnation of any right in respect of the land. Such being the law of the State, it would necessarily follow that the jury in ascertaining the amount of compensation could not properly take as a basis of calculation the market value of the land as land. The land as such was not taken, the railroad company was not prevented from using it, and its use for all the purposes for which it was held by the railroad company was interfered with only so far as its exclusive enjoyment for purposes of railroad tracks was diminished in value by subjecting the land within the crossing to public use as a street.” In other words, the Court holds that as the right to open a street across the railroad tracks was all that the city sought to obtain by the proceeding of condemnation, it was not bound to obtain and pay for the fee in the land over which the street was opened. If, argues Justice Harlan, prior to the institution of these proceedings the railroad company had constructed upon the land embraced within the crossing buildings to be used in its business, it would have been necessary for the jury, in ascertaining the just compensation to be awarded, to take into consideration the value of such buildings. But no such case was before the Court.

The Court also rules against the contention of the railroad that error of law was committed by the refusal of the lower court to allow the company to prove that in the event of the opening of the street it would be necessary, in order that the railroad be properly and safely operated, to construct it of at and a tower for operating them, plank the ere

fill between the rails, put in an extra rail, and to incur an annual expense for depreciations, maintenance, employment of gatemen, &c. It was not claimed that the railroad company could recover specifically on account of such expenditures, but that the proof of their being made necessary by the opening of the street was admissible for the purpose of showing the compensation due to the company. Justice Harlan says there are some authorities that seem to support the view taken by the railroad company, but the Court is of opinion that no error was committed in excluding the evidence offered. "The plaintiff in error took its charter subject to the power of the State to provide for the safety of the public, in so far as the safety of the lives and persons of the people were involved in the operation of the railroad. The company laid its tracks subject to the condition, necessarily implied, that their use could be so regulated by competent authority as to insure the public safety. And as all property, whether owned by private persons or by corporations, is held subject to the authority of the State to regulate its use in such manner as not to unnecessarily endanger the lives and the personal safety of the people, it is not a condition of the exercise of that authority that the State shall indemnify the owners of property for the damage or injury resulting from its exercise. Property thus damaged or injured is not, within the meaning of the Constitution, taken for public use, nor is the owner deprived of it without due process of law. The requirement that compensation be made for private property taken for public use imposes no restriction upon the inherent power of the State by reasonable regulations to protect the lives and secure the safety of the people."

In support of this view, the Court also quotes from the case of *Chicago & North Western Railway Company versus City of Chicago* [140 Ill. 309, 317-319, 29 N. E. 1109, 1111], where a similar question was raised. In that case it appeared that the railroad had been constructed prior to the Act of 1872 for the incorporation of city and villages, and before the passage of the Act of 1874, which required that thereafter at all railroad crossings of highways and streets the railroad companies should construct and maintain such crossings, and the approaches thereto, within their respective rights of way, so that at all times they should be safe as to person and property. The Court held, nevertheless, that every railroad takes its right of way subject to the right of the public to extend the public highways and streets across such right of way; that railroads so far as they are public highways are subject to the control of the police power of the State; that the requirement of the Act of 1874 was nothing more than a police regulation, and that hence the road could not claim on the opening of a new street and the condemnation of part of its right of way for the use of such street that the expenses connected with maintaining the new crossing should be allowed it as part of its compensation.

It deserves to be mentioned that Justice Brewer filed a strong dissenting opinion, holding that the expense of constructing and maintaining the crossing can not be ignored, and declaring that it seemed to him "monstrous" to say that the public can create the right to cast a large burden of expense upon the company and yet be under no obligations to compensate therefor. He also took issue with the opinion on some other points.

## PREFERRED STOCKS AND VOTING TRUSTS.

In writing last week on the subject of preferred stock certificates, we were unable for lack of space to do more than allude to the voting trust agreements, under the terms of which most of the stock issues mentioned are held. It was, however, to these voting trusts that a leading financier referred, when he made the remark, quoted by us not long ago, that in his opinion the voting trusts created within the last year or two had largely eliminated the danger of serious rate disturbances, even though Congress and the courts should interdict agreements for pooling and traffic associations. We may well, therefore, inquire as to the number and nature of the voting trusts and the length of time during which they will, or at least may, continue in force.

In the following table we have grouped the eight companies whose stocks formed the topic of last week's discussion into three classes, viz: (1) Those whose stocks, both common and preferred, are not subject to any voting trust agreement or to any other form of temporary restriction on their voting power, (2) those whose preferred shares carry temporary control, and (3) those whose stocks are for the time being fully trusted, to the end that their voting power may be exercised by the boards of voting trustees selected by the several committees that have reorganized the properties. Our table is as follows:

### NO VOTING TRUST.—SHARES HAVE USUAL VOTING POWER.

	Miles Controlled.	Preferred Stock.	Common Stock.
Atch. Top. & S. Fe Ry ....	6,922	\$119,657,300	\$102,000,000

### PREFERRED SHARES CARRY TEMPORARY CONTROL.

Norfolk & Western Ry.....	1,570	\$23,000,000	\$88,000,000
Oreg. RR. & Nav. (stocks trusted to ensure this)...	1,063	11,000,000	24,000,000

### ALL SHARES FOR A TIME FULLY TRUSTEED.

Erie RR.....	2,140	{ 1st pf. \$30,000,000 } { 2d pf. 16,000,000 }	{ \$100,000,000 } { 80,000,000 }
Northern Pacific Ry.....	4,346	{ 75,000,000 }	{ 70,000,000 }
Reading Company.....	1,277	{ 1st pf. 23,000,000 } { 2d pf. 42,000,000 }	{ 70,000,000 }
St. Louis & San. Fran. RR...	1,274	{ 1st pf. 5,000,000 } { 2d pf. 16,000,000 }	{ 29,000,000 }
Southern Railway.....	4,752	{ 54,300,000 }	{ 125,000,000 }
Total for all above cos.	23,344	\$419,957,300	\$596,000,000
Of which for cos. whose stocks are fully trusted.	13,789	\$266,300,000	\$404,000,000

This table discloses the fact that five of the eight companies are entirely in the hands of voting trustees, who thus for several years to come will have the absolute control of systems representing in the aggregate about 14,000 miles of railway, a preferred stock issue of 266 millions and a common stock issue of 404 millions.

While no one will dispute the fact that this means the concentration under the management of a few conservative and experienced men of a vast amount of railroad mileage, to the manifest protection of the security holders, yet it may naturally be questioned how it is that with say twelve-thirteenths of the total railroad mileage of the country not so controlled that the effect as to maintenance of uniform rates can be expected to be so marked. The explanation lies in the circumstance that of the remaining mileage of the country, so great a proportion, embracing most of the larger corporations, is practically, if not actually, controlled by a very few interests, which are as much in earnest as voting trustees could possibly be to keep business on a paying basis. In passing, it is worth while to examine the following table, which shows a number of roads whose management is recognized as being in few hands, although in no case (except a partial one for Lehigh Valley) is there a voting trust now operative.

## ROADS WHOSE POLICIES ARE DIRECTED BY A FEW INTERESTS.

Southern Pacific system....	7,684	Total.....	47,945
do do allied lines	1,257		

\* Messrs. Drexel & Co. and J. P. Morgan & Co. in March 1897 secured and now hold the voting rights of the Packer stock, which assures them for some time to come a large, if not a controlling, interest in the property.

To say nothing of other lines more or less closely owned or controlled, we have here a total of about 48,000 miles of railroad in whose management single interests have a voice sufficiently strong to require the executive officers to enter into and to maintain traffic agreements whenever these appear for the well being of the stockholder. Such being the case, to have placed 14,000 miles of road additional in the hands of voting trustees means, of course, to have reduced sensibly the danger of disastrous rate conflicts.

To indicate clearly the duration of voting trust and voting preference, where such is given to the preferred stock, the next table has been prepared. The first column here shows the date until which the voting trust or agreement is to continue, the second column the circumstances under which the trust may be still further prolonged, and the third column the only conditions permitting of its termination, either subsequent or prior to the date first named :

## STOCKS FULLY TRUSTEED—DURATION OF TRUST.

Trust continued till.	And thereafter will be continued until.	But may be terminated.
Erie RR.....Dec. 1, 1900	4 p. c. is paid on 1st pref. in one year.	By trustees at any time.
Northern Pacific Ry....Nov. 1, 1901	No extension permitted.	By trustees at any time.
Reading Company.....Jan. 1, 1902	4 p. c. is paid on 1st pf. for two consecutive years.	By trustees at any time.
St. L. & San Fran. RR..July 1, 1901	4 p. c. is paid on 1st pf. for two consecutive years.	By trustees at any time with consent of certificate holders, etc. x
Southern Ry.....July 1, 1899	5 p. c. is paid on pref. in one year.	By trustees at any time.

## STOCKS TRUSTEED TO GIVE CONTROL TO PREFERRED STOCK.

Oregon RR. & Nav.....Aug. 17, 1906	No extension permitted.	By vote of certificate holders, etc. y
------------------------------------	-------------------------	--

## PREFERRED STOCK HAS TEMPORARY CONTROL (ASIDE FROM TRUSTEESHIP)

Norfolk & Western Ry. Sept. 24, 1901	No extension permitted.	If 4 p. c. is paid on pref. for 3 consecutive years.
Northern Pacific Ry. (after termination of voting trust).....		Preferred stock is to elect a majority of the directors for the succeeding year. In any year two successive quarterly dividends of 1 per cent. each shall not be paid in cash.

x Prior to January 1, 1902 the trust can be terminated only with the consent of two-thirds of each class of the certificate holders; after that date by the trustees at their discretion.

y By vote of two-thirds in interest of certificate holders of each class, or whenever dividends paid from time to time on the preferred stock shall have equaled in the aggregate 30 per cent of the par value of the stock, or whenever dividends sufficient with those already paid to equal such 30 per cent shall be fully guaranteed—by rat. at the instance of holders of a majority interest in the common stock at any time prior to February 10, 1899, and thereafter of holders of \$2,000,000 of such stock—in any such case the trust shall end.

Confining our attention for the moment to the stocks fully trustee, we learn from this table several facts of interest. In the first place, unless (which is quite unlikely to happen) the voting trustees should exercise their option of terminating the trust at an earlier date, all five of the voting agreements must continue in operation for periods ranging from about two years to four and one-half years from the present time. The Northern Pacific trust will expire positively Nov. 1, 1901. The other trusts will continue beyond the dates named in the table for such further period, if any, as shall elapse before the payment of the full dividend on the first preferred stock, for one year in the case of the Erie and the Southern Railway (the dividend for the latter to be on the preferred stock, there being only one class of preference shares), or for two consecutive years in the case of the Reading and the St. Louis & San Francisco. Before the several voting trusts, therefore, come to an end, our great depression should

be over, and the need for worry about rate wars, which are the natural consequences of hard times, should have passed from view.

Some of our readers having expressed the desire to see a voting trust agreement, such as is in force for the five stocks just mentioned, we will give next week, under the heading "Reports and Documents", the full text of the Reading agreement and a copy of one of the voting trust certificates issued to the public. The agreement, it will be noticed, is short and extremely simple in its terms, yet complying fully with all the requirements of the case. The sum and substance of it is that the trustees covenant to hold the stock during the time prescribed (unless they elect earlier to terminate the trust) and in voting on the stock to "exercise their best judgment from time to time to select suitable directors to the end that the affairs of the company shall be properly managed, and in voting on other matters which may come before them at stockholders' meetings to use their best judgment."

One improvement we note in the more recent agreements like the Reading. It is with reference to the making of new mortgages or to the increasing of the preferred stock issues, the same rights being now reserved to the holders of the voting trust certificates as would belong to them as stockholders were the shares instead of the certificates outstanding. Thus in the case of the Northern Pacific the voting trustees are limited in their powers to the extent that they cannot authorize a new mortgage or increase the preferred stock issue without first obtaining the consent of a majority of the whole amount of the voting trust certificates representing the preferred stock and of a majority of such amount of the voting trust certificates representing the common stock as shall be represented at the meeting called to consider the question. We do not imagine that the voting trustees, in the absence of such a provision, would think of performing either of these acts, but it is obviously proper that the rights of the stockholder should be so safeguarded. As to the appointment of new trustees, it may be added, all five of the agreements provide that the trustees shall fill vacancies in their number, there being only one exception, in the case of the Northern Pacific. In this instance, the successor of one of the trustees (Georg Siemens) is always to be named by the Deutsche Bank of Berlin.

The voting trust under which the shares of the Oregon Railroad & Navigation Co. are held is quite unlike the other voting trust agreements. Its object is not to place the company in the control of a board of trustees, but to ensure to the preferred stockholders for a certain time the right to elect two-thirds of the board of directors. The preferred shares of the Norfolk & Western also have this right until Sept. 24, 1901, "unless full yearly dividends at the rate of 4 per cent per annum shall have been paid on the adjustment preferred stock for three years before the expiration of that period." The Northern Pacific preferred shares likewise [after the expiration of the voting trust] are to elect a majority of one in the board of directors for the succeeding twelve months whenever in any year two consecutive quarterly dividends at the rate of 4 per cent per annum shall not have been paid in cash; but only in the case of the Oregon Railroad & Navigation Co. was it thought necessary to accompany this right with a voting trust. The provisions, however, which were cited at some length in the INVESTORS' SUPPLEMENT

last week explain this necessity, the right given to the common stockholders of terminating the trust through payment in cash or through guaranty of dividends on the preferred stock evidently requiring the intervention of a trustee. Nevertheless the voting trust here has nothing in common with the other voting trusts which we have described. We may say, however, that there seems to be a certain element of justice in allowing the preferred shareholders special voting rights, with or without a voting trust, in order to ensure their receiving fair treatment in the matter of dividends.

We still believe that either through an act of Congress or a decision of the courts the railways will soon be established in their right to give the country fair and equitable rates by means of pooling or traffic associations. But, be that as it may, the voting trusts of the class first mentioned will, as we have seen, remain for a considerable time to exercise a steadying effect on rates.

### THE MEXICAN CENTRAL REPORT.

We have been favored with an advance copy of the annual report of the Mexican Central Railway Company, issued under date of April 23d, and print it on a subsequent page. As was clearly foreshadowed by the company's monthly returns, the year was marked by further decided growth in the gross receipts, indicating continued expansion in the company's business. This growth in the revenues of the system has been commented on by us in previous years, and has been a marked feature of the company's affairs through almost its whole history. Take only the last five years from 1891 to 1896 and we find that the gross earnings have risen from \$7,374,538 to \$10,208,020, an addition of almost 40 per cent. During the same period the average mileage operated increased only from 1,665 miles to 1,869 miles, or but 12 per cent.

Of the gain of \$2,833,482 for the five years, \$712,155 occurred during 1896, the year under review. It so happens, however, that this latest addition was mainly the result of exceptional conditions, the road doing a large extra amount of business at very low rates, so that when examination is made of the net earnings it is found that this expansion in the business of the road during 1896 was really of no benefit to the company, net earnings having actually fallen off. In other words, while the total of the net in 1895 was \$3,896,475, in 1896 the amount was only \$3,463,747. In brief, though the company had \$712,155 of additional revenue, this was accompanied by \$1,144,882 increase in expenses.

The bulk of the late year's gain in gross earnings (or to be exact \$437,767 out of \$712,155) occurred in the revenue from international business. There were two reasons for this. In the first place the rate war which broke out between the different Mexican roads in 1895 was not brought to a close until December 1 1896, resulting in the diversion to the port of Tampico of a large share of the international freight traffic into Mexico; much of this business, the report tells us, was carried at low rates, thereby causing a decrease in net revenue. In the second place there was a large increase in the movement of corn from the United States, brought into the country (owing to the drought prevailing in Mexico) free of duty under Government order. Rates on this traffic necessarily were likewise very low. At the same time the drought, in having caused a total or partial failure of crops in the territory tributary to the Mexican Central, reduced the earnings

from local agricultural freight during the year. Under normal conditions the increase in revenue from the international corn movement should have accrued from the local traffic. Thus the situation was that the company not only lost the local haul on such business, but that the traffic was carried at reduced rates of transportation, producing little or no profit.

Besides this the drought added directly to the cost of operating. In other words, the lack of rains in Mexico and the consequent scarcity of water caused much difficulty in moving traffic and largely increased transportation expenses, the failure of the ordinary sources of water supply compelling the company to haul water from place to place. The report says the greatest difficulty and expense were experienced on the Tampico branch, where the traffic was double that of any previous year. At one time no water for locomotives at Tampico could be obtained at any nearer point than Las Palmas, seventy miles distant. A steam tug service had to be established for about six months of the year, hauling water in barges for forty miles from up the Panuco River and several miles of new pipe line had to be laid on the Tamasopo Mountain to secure increased water supply. The difficulty has now been remedied by the construction of a pipe line about ten miles in length, costing \$90,000 in Mexican currency, conveying water from the Tamesi River to Tampico, which will insure an abundant supply and stimulate the location of industries at that terminal.

The rate war on international freight traffic, as stated above, was brought to a close on the 1st of last December by the re-forming of the old Mexican Traffic Association, and therefore the outlook in that particular has changed. The new agreement is stated to be more advantageous to the Central than the one terminated June 1 1895, and the Central people feel that the contest has fully vindicated the position taken by them. They think that whatever cost the disruption of the old Association may have been to the Central, the company must be considered amply repaid in the impetus given to the port of Tampico, now well established as the port of largest tonnage and the most important and most convenient of the Mexican ports.

The growth of Tampico has certainly been nothing less than phenomenal and the management have reason to feel gratified over the great success of their efforts to develop the business of that port. From a table presented in the report, it appears that the value of the exports through Tampico increased from \$15,546,228 in the year ending June 30 1895 to \$23,920,464 in the year ending June 30 1896; the exports through Vera Cruz at the same time falling from \$27,413,009 to \$22,354,298. Thus the exports through the new port were actually larger than through the old port. The imports through Tampico increased from \$3,642,007 to \$8,685,442, while the imports through Vera Cruz declined from \$16,123,505 to \$15,296,544. Combining imports and exports the total at Tampico rose from \$19,188,235 to \$32,605,906; that at Vera Cruz declined from \$43,536,514 to \$37,650,842. In 1895 the total business through the two ports was \$62,724,749, of which 30.59 per cent was via Tampico, and in 1896 the total business amounted to \$70,256,748, of which 46.41 per cent was via Tampico.

On account of the falling off in the net earnings, the deficiency in meeting the obligatory interest charges was larger in 1896 than in 1895. The loss in net, in Mexican currency, we have seen, was \$432,728.

In United States money the loss was \$221,641. The charges (less miscellaneous interest) were not greatly changed, having been \$3,882 less than for 1895. The final result was a deficit of \$483,011 for 1896, against a similar deficit for 1895 of \$265,252. This deficit in both years was met by amounts withdrawn from the Subsidy Trust Fund in accordance with the terms of the Trust Indenture. The company is fortunate in having this trust fund to fall back upon. The balance in the hands of the trustees after providing for the deficit in 1896 is \$3,089,416. But it is important to note that at the time the settlement of the subsidy was made with the Mexican Government, \$6,122,646 of the proceeds were invested in priority mortgage 5 per cent bonds to the par value of \$5,597,000. This is an investment for the same purposes as the Subsidy Trust Fund, and altogether the company has over nine million dollars to draw upon to meet future deficiencies of revenue.

### Book Notices.

**MONEY SYSTEMS OF THE WORLD.**—A study of present Currency Systems and Statistical Information relative to the volume of the World's Money. By Maurice L. Muhleman. Revised Edition CHARLES H. NICOLL, publisher, 189 Broadway, New York. Price Cloth, stamped in gold, \$2; full morocco, gilt edges, \$3.

A copy of this book has been on our desk for some time. It is a revised edition of a well-known and very useful work. The typographical appearance of the book has been further improved. Mr. Charles H. Nicoll is the publisher, and he has succeeded in turning out a very creditable affair. But the mechanical execution of the volume is only in keeping with its character and contents. The author, Mr. Maurice L. Muhleman, is the Deputy Assistant Treasurer of the United States at New York, and for a period of a quarter of a century he has been connected with the Treasury service in one capacity or another. Besides the experience and knowledge gained in this way his natural abilities and bent of mind well qualify him for the task which he has undertaken. We are hence saying merely what every one will admit when we state that the result of his labors is a very meritorious work. His aim has been to describe the various monetary systems of the world—briefly, yet accurately and adequately. It should be understood that he does not write in a controversial spirit, the purpose being to produce a standard reference authority whose statements and facts will be accepted without question. In the present revised edition the monetary statistics of the United States are brought down to the close of the fiscal year (ending June 30) 1896, and those of other countries to dates as nearly corresponding thereto as possible. A chapter has also been added upon the law and history of legal tender in the United States.

**THE COMMERCIAL YEAR BOOK.**—A Statistical Annual relating to the commerce, industries, agriculture, banking, currencies, investments, railroads, shipping, insurance, population, &c., &c., of the United States and foreign countries. Edited by Walter A. Dodge, Ph. D. Published by the JOURNAL OF COMMERCE AND COMMERCIAL BULLETIN. Price in cloth, \$1 50.

A year ago we had occasion to speak in favorable terms of the first number of this new statistical annual. The second number is now before us, and it is even larger and more comprehensive than the first about two hundred pages having been added, making the size of the book 640 pages. It is very neatly gotten up, the form and style adopted for the first volume having been retained. The scope of the work is much extended. It aims to cover not merely one department of industrial and financial affairs, but all departments. Nor are the statistics limited to any one country. All the leading countries find representation, the first 135 pages giving a very wide range of data concerning fully forty-seven foreign nations. Very naturally the most space is devoted to the United States, and here it is not easy to indicate the extent of the matter contained in the book. The following is merely an enumeration of some of the more important subjects embraced in it: Immigration and emigration; Political organizations and institutions; National party platforms; Chief officers of Government and members of Congress; U. S. Revenue, expendi-

tures and debt; Agricultural products and crop movements; Statistics of mining industries; Railroads, telegraphs and postal arrangements; Shipping, canals, lake commerce; Coal, iron and other metal trades; Cotton, wool and other textile trades; Imports and exports of United States, by articles and countries; Grain and provisions trades at chief points; Statistics of leading industries; Precious metals, their production, coinage and distribution; Full details relating to silver; Statistics relating to all our forms of money for the last twenty years; World's stocks of money; Statistics of banking—national, State, private and savings; Wages, strikes and lock-outs; Commercial failures in 1896 and previous years; Wall Street in 1896; Prices of 130 articles at New York, daily and weekly, in 1896; The Wilson tariff in full.

In a work of this class accuracy and trustworthiness are of course prime essentials. Hence the fact that the immense mass of statistics which has been thus brought together has been compiled by the publishers of the "Journal of Commerce and Commercial Bulletin" gives added value to the work, for the high character and reputation of that journal are facts within the knowledge of the whole mercantile and financial world.

**PROCEEDINGS OF THE SECOND ANNUAL CONVENTION OF THE PENNSYLVANIA BANKERS' ASSOCIATION.**—Held at Pittsburg, December 16 and 17, 1896. With press greetings, aftermath, social features, constitution and by-laws, and group directory and membership. Philadelphia: Published by the PENNSYLVANIA BANKERS' ASSOCIATION, 1897.

This is a very attractive volume, and useful as well. Much is to be said in favor of the practice of presenting the reports of bankers' conventions in bound form. The proceedings of such conventions always embrace a great many features and occurrences which it is pleasing or desirable and useful to recall. A pamphlet report of course permits of ready reference for this purpose the same as a bound volume, but such a report being in a less enduring form, one is apt to throw it away, whereas when the record comes in the shape of a handsome book, like the present, a place is at once made for it in the library. In the case of the Pennsylvania Bankers' Association, which we are glad to hear is in a flourishing and progressive state, the act is peculiarly appropriate; for, as all our readers know, Pennsylvania has played a very prominent part in the banking history of the country. What adds in this instance still further to the value of these annual volumes is that they contain sketches of the lives of eminent Pennsylvania bankers. Last year Robert Morris, the financier of the Revolutionary War, formed the subject of the sketch. This year the life of Stephen Girard, the financier of the War of 1812, is reviewed; there is also a portrait of Girard, and views of his banking house, and of the college founded by him, and of the statue of him to be unveiled in Philadelphia on the 20th of the present month.

**SUGAR: A New and Profitable Industry in the United States for Agriculture, Capital and Labor, to Supply the Home Market yearly with \$100,000,000 of its Product.** By HERBERT MYRICK. ORANGE JUDD COMPANY, New York and Chicago, publishers; price 50 cents.

This is the title of a book which gives an interesting insight into the possibilities of the domestic sugar industry. The bulk of the work is devoted to the beet sugar industry in America. It first tells what has been accomplished in the United States and then shows how the industry has grown in each State. The culture of the sugar beet under American conditions is treated with great thoroughness. This is followed by a chapter on the commercial aspects of the beet sugar industry, including cost and profits of the beet to the grower, its advantages, labor and capital, with instructions about starting sugar factories, cautions to those new to the industry, etc. The author is Herbert Myrick, editor of the "American Agriculturist." The book is copiously illustrated with photo-engravings of cane sugarhouses and beet sugar factories, cultural processes, etc. It contains 78 illustrations and 168 large pages.

### Monetary and Commercial English News

LONDON, SATURDAY, April 17, 1897.

[From our own correspondent.]

During the week business has been almost at a standstill, partly because of the Easter holidays, but generally owing to the political apprehensions, which continue as great as ever. At the end of last week a band of irregular Greek troops

invaded Turkish territory and on Saturday, when the news became known, there was a general fall upon the bourses, and some decline likewise here in London. The Greek Government disavowed all responsibility for the act, and it issued very stringent orders not to advance into Turkish territory. The Turkish Government has so far accepted these declarations, but every day it is expected an encounter will take place. Greece has now about 80,000 men in the field, and as she is exceedingly poor and has practically no credit abroad, it is impossible that she can keep such a force under arms very long unless, indeed, she can occupy some portion of Turkey and support them by requisitioning. Meantime the six great Powers have notified both Greece and Turkey that neither will be allowed to reap benefits from any conquest made.

In spite of the menacing appearance of things, the opinion is still very strong in the city that there will be no general European war; Greece and Turkey may fight; everybody allows that to be possible, but that no leading Power will interfere is the general opinion of the great city houses, and the city houses ought to be well informed, as they or their correspondents on the Continent must provide the money that will be required. What perhaps largely confirms the belief of the great city houses is that the Russian Government has just concluded an arrangement in Berlin for a loan of £10,000,000 sterling. The loan is nominally, at all events, a railway loan, and it is guaranteed by the Russian Government. It is to bear interest at 4 per cent. The French market is not to take any part in it.

The Austrian Government is likewise anxious to raise a loan. Just for the time being it does not think the moment favorable, but it has placed short treasury bills both here and in Vienna. The instant that politics become smoother a loan will be brought out; and Germany and Italy are likewise in need of loans; from all which the great city houses infer that there will be no war, and that, in fact, they have it in their power to prevent war. For instance, it is understood that the German bankers have made it a condition with the Russian Government that the loan is not to be brought out if politics become worse.

The city is likewise hopeful that there will be a peaceful settlement of all the questions at issue in the Transvaal. President Kruger has disappointed the hopes of all who wish to see the independence of the Transvaal respected. Last year he acted with wonderful statesmanship but this year his government has apparently been actuated by the desire to make matters worse than ever. Still the best opinion here is that a compromise will be found which will satisfy reasonable people both among the Boers and the Uitlanders.

In India there is no change. Unfortunately the spring crops have been bad, and now we can hope for very little alleviation of the famine until July or August. The plague, too, is not abating, as was hoped, and the banks of both Bengal and Bombay keep their rates of discount at 10 per cent.

This week there is a strong demand for gold, both for Austria and for Japan. Hitherto both countries were satisfied with buying bar gold in the open market, but this week the urgency has become such that they have taken gold from the Bank. Austria-Hungary is professedly completing the gold accumulation necessary to carry through its currency reform, but very many people think that the real object is to increase its war chest. At all events the Austrian Government, not thinking the time opportune for a public loan, has sold a considerable amount of three and a-half per cent Treasury bills, both in London and in Vienna, and the payment for these bills is being taken in gold. It is probable, too, that the Russian Government will take gold if its loan is raised in Germany. Consequently, the rate of discount in the open market is slightly firmer. But the reserve of the Bank of England is still so large and speculation is so completely paralyzed that attempts to strengthen rates simply because there is a stronger demand for gold for abroad are not likely to succeed. If, indeed, the fear of a general European war were to become more acute, there would be a sharp rise in rates, but at present the city does not believe that a general war will take place.

The silver market is quiet, but somewhat steadier, and there is no change in the Indian money market. The rates are still as high as ever, and money is in exceedingly good demand.

Business on the Stock Exchange is almost at a standstill. As regards the American market, people are holding altogether aloof and the telegram from Washington to the effect that two Commissioners have been appointed with a view to reopening the Behring Sea Fishery Question has made a very bad impression here. The general public is unwilling to believe that a premature demand for revising the regulations will be addressed to this Government, but for all that the public mind is disturbed by the telegram from Washington.

In international securities there was a sharp fall on Saturday, but since then there has been a recovery in Paris. Here in London exceedingly little has been done for years in international stocks, and the market consequently follows the movements in Paris, whether they be up or down.

South African gold, diamond and land shares are very depressed. In some cases the prices have been lower this week than at any time since the Jameson raid. Partly, no doubt, the fresh fall is due to the fear that President Kruger may confiscate the concessions of those companies which were especially made use of for importing arms. Partly it is the result of the weakness in Paris. The long continued uncertainty in Southeastern Europe specially affects the Paris Bourse, which is the great market for Turkish, Greek, Bulgarian, Servian and Roumanian securities. These of course are dealt in elsewhere, but Paris holds much more of them than any other market. The professional operators in Paris, therefore, have suffered very severely during the past year and a-half, and they sell whatever can be disposed of in London whenever an opportunity occurs. The Paris market, indeed, is in such a state that the Russian Government has found it necessary to borrow in Berlin rather than in Paris.

British securities are steady. There is not much doing, but they are all fairly well maintained, though the prices are confessedly too high.

The imports since January 1 have been as follows:

	1897.	1896.	Difference.	Per Ct.
IMPORTS.	£	£	£	
January.....	89,975,868	88,473,858	+1,501,812	+3.90
February.....	37,245,164	35,476,736	+1,768,428	+4.98
March.....	40,855,114	38,366,750	+2,288,364	+5.96
3 months...	117,833,863	112,317,342	+5,516,521	+4.91

The exports since January 1 have been as follows:

	1897.	1896.	Difference.	Per Ct.
EXPORTS.	£	£	£	
January.....	19,762,378	21,148,491	-1,386,113	-6.54
February.....	17,864,642	19,704,095	-1,839,453	-9.33
March.....	21,647,269	20,449,623	+1,197,646	+5.85
3 months...	59,293,187	61,300,209	-2,007,022	-3.28

The re-exports of foreign and colonial produce since January 1 show the following contrast:

	1897.	1896.	Difference.	Per Ct.
RE-EXPORTS.	£	£	£	
January.....	4,177,825	4,806,384	-628,559	-13.08
February.....	5,224,139	5,817,593	-593,455	-7.00
March.....	5,270,653	4,606,122	+664,531	+14.43
3 months...	14,649,976	15,030,099	-380,123	-2.53

The "Railway News" of London reports the traffic receipts for the week ending April 11 of 55 railways of the United Kingdom which make weekly returns at £1,584,702, against £1,003,175 in the corresponding week of last year, a decrease of £18,473. For the fifteen weeks of the current half-year receipts were £22,474,851, an increase of £440,019.

The rates for money have been as follows:

London.	Bank Rate.	Open Market Rates.						Interest allowed for deposits by		
		Bank Bills.			Trade Bills.			Joint Stock Banks.	At Call.	7 to 14 Days.
		Three Months.	Four Months.	Six Months.	Three Months.	Four Months.	Six Months.

Messrs. Pixley & Abell write as follows under date of April 14:

Gold.—In consequence of increased Continental demand, the eastern buyers were obliged to have recourse to the Bank of England, which has sold in bar gold since our last £991,000. Nearly all of this has gone to the East, but part has also gone to Vienna. £60,500 has been received at the bank. Arrivals: Australia, £136,000; Cape Town, £159,000; total, £295,000. Shipments: Bombay, £13,000; Kobe, £123,000; total, £141,000.

Silver.—Under pressure of more than one order for immediate delivery, silver slightly hardened during this week to 28 7/16d. Since then sellers have again preponderated, and to-day the price is 28 1/16d. The Indian price to-day is 78 Rs. per 100 tolas. Arrivals: New York, £147,000. Shipments: Bombay, £103,000; Calcutta, £17,500; total, £127,500.

Mexican Dollars.—There are no changes to report in these coin, and the nearest price is 27 1/4d. Shipments to Penang, £7,500.

## WALL STREET, FRIDAY, APRIL 30, 1897—5 P. M.

The Money Market and Financial Situation—Public interest in Wall Street investments, which disappeared when the Supreme Court decision in regard to railway traffic agreements was handed down, has not yet returned. Business in all financial circles is very much depressed, and at the Stock Exchange is confined almost exclusively to speculative transactions.

Influences which have recently developed, including the outbreak of war in Eastern Europe and resumption of gold exports from this country, are relatively of minor importance. The former, it now seems likely, will be of short duration; and the latter is not the direct result of an adverse foreign trade balance or a return movement of our securities.

Gold to the amount of \$6,477,000 has been shipped abroad this week, including \$4,000,000 engaged for to-morrow, not because foreign exchange rates make such transactions profitable but because there is a demand for the metal on the Continent and our supply is at the moment most available. The sale of bills drawn against these shipments has lowered the rates for exchange in this market.

It is reported that the Senate Committee on Ways and Means is hard at work on the Dingley Tariff Bill, and the hope generally prevails that it will be ready to submit its report in the near future. There is no doubt that large business interests are waiting for the final disposition of that measure.

Among the interesting statistics made public yesterday was a compilation of the exports of manufactured goods during the first quarter of the present calendar year. They were valued at \$66,795,416, which is nearly 25 per cent of the total exports. The exports of manufactured goods for March were \$25,847,469, which is reported to be about \$2,000,000 more than for any one month in the history of the country.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1½ to 1¾ per cent. To-day's rates on call were 1½ to 1¾ per cent. Prime commercial paper is quoted at 8½ to 4½ per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £201,865 and the percentage of reserve to liabilities was 51·91, against 50·93 last week; the discount rate remains unchanged at 2½ per cent. The Bank of France shows an increase of 2,825,000 francs in gold and 1,675,000 francs in silver.

The New York City Clearing-House banks in their statement of April 24 showed an increase in the reserve held of \$3,772,400 and a surplus over the required reserve of \$49,257,900, against \$46,966,900 the previous week.

Foreign Exchange.—The foreign exchange market has been dull under a limited demand. The offerings have been liberal, including bills drawn against gold exports.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 480¼@486½; demand, 487¼@487½; cables, 487¼@488.

Posted rates of leading bankers follow:

	April 30.	Sixty Days.	Demand.
Prime bankers' sterling bills on London..	4 87		4 88½
Prime commercial.....	4 85¼@4 86		—
Documentary commercial.....	4 85¼@4 85½		—
Paris bankers' (francs).....	5 16½@163½		5 15@5 14½
Amsterdam (guldens) bankers.....	40½@40¾		40¾@407½
Frankfort or Bremen (reichmarks) b'kers	95¼@95½		95½@95¾

The following were the rates of domestic exchange on New York at the order-mentioned cities to-day: Savannah, buying 1-16 discount, selling par; Charleston, buying par, selling ¼ premium; New Orleans, bank, \$1 50 premium; commercial, 25c. premium; Chicago, 60c. per \$ 1,000 premium; St. Louis, 50c.@75c. per \$1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include \$194,000 4s. coup., 1925, at 123½ to 124; \$5,000 4s. reg., 1925, at 123; \$4,000 4s. coup., 1907, at 112½ and \$12,400 4s. reg., 1907, at 110½ to 111. Following are closing quotations:

Mex. Doubletons.....	15 50	15 75	U. S. trade dollars	-	65
Fine gold bars... par	2¼	prem.			

State and Railroad Bonds.—Sales of State bonds at the Board are limited to \$46,000 Tennessee settlement 8s at 80 to 80½.

Business in the railway bond market has been restricted, and transactions of importance are confined to a few issues. Notwithstanding the limited volume of business the market has been generally firm, and in many cases the active list closes higher than our last quotations, notwithstanding some weakness to-day. Texas & Pacific 1st and 2d income bonds have been in request and advanced nearly 1½ per cent. The Atchafalaya, Fort Worth & Denver City, Chesapeake & Ohio 4½s and Southern Railway consols have made fractional gains. The active list includes, in addition to the above, Burlington & Quincy, Rock Island, Chicago & North Western, Chicago & Eastern Illinois, Missouri Kansas & Texas, San Antonio & Aransas Pass, Union Pacific, Northern Pacific, Duluth & Iron Range, Canada Southern, St. Paul Minn. & Manitoba, Columbus H. V. & Toledo, Erie, Wabash, East Tenn. Virginia & Georgia, Central of Georgia, Reading, New York Ontario & Western and West Shore bonds.

Railroad and Miscellaneous Stocks.—The market for stocks has been exceptionally dull and narrow, but generally strong under the prevailing belief that open hostilities in Europe will be of short duration. The aggregate business for the week was reduced by the introduction of a holiday on Tuesday. The granger shares were most active of the railway list, led by Burlington & Quincy, which, with St. Paul, Omaha and Louisville & Nashville, advanced an average of about 1 point, but lost a part of the advance to-day. The coal stocks have been the weak feature of the market, Central of New Jersey having declined 4 points and Lackawanna about 2 points. Baltimore & Ohio declined nearly 2 points on liquidation supposed to be due to the new issue of receivers' certificates.

Of the miscellaneous list American Sugar has been most conspicuous. It broke over 2 points, to 110½, on the announcement of the death of the Vice-President of the company on Monday, but has more than regained the loss, and after fluctuating over a range of nearly 4 points closes at 114. American Tobacco advanced 1½ per cent on limited sales and declined 1 point to-day. Chicago Gas has been active and firm. Western Union was freely offered on rumors of a reduction in the dividend rate and declined 2 points. General Electric, U. S. Leather preferred and Tenn. Coal Iron & Railway have fractionally advanced.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & Southwestern. These figures include results on eased lines. Includes earnings from ferries, etc., not given separately. Includes earnings from half interest in lines in which Union Pacific has a half interest. Includes operations of the Chic. Burlington & Northern in both years. Covers results for lines directly operated east of Pittsburg. Includes results on affiliated lines. Covers besides the Atlantic System the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans. Includes St. Louis Alton & Terre Haute for all periods.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows: For the third week of April our preliminary statement covers 71 roads, and shows 1.88 per cent increase in the aggregate over the same week last year.

Net decrease (0.43 p. c.)			324,912	

\* Week of April 10.

**Net Earnings Monthly to Latest Dates.**—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of April 17, 1897. The next will appear in the issue of May 22, 1897.

July 1 to Mar. 31.....	8,768,413	9,893,333	2,694,476	2,939,124

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

For March, 1897, taxes and rentals amounted to \$155,409, against \$156,022, and from July 1 to March 31, 1897, \$1,425,591, against \$1,458,794, after deducting which net for March, 1897, was \$387,423, against \$378,634, and from July 1 to March 31, 1897, \$2,694,476, against \$2,939,124.

Includes Chicago Burlington & Northern for both years.

After allowing for other income received, net from July 1 to March 31 was \$526,505, against \$476,328.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges.

Total net income.....	\$464,838	\$4,270,405
-----------------------	-----------	-------------

The operating expenses from Sept. 1, 1896, include a proportionate part of the estimated taxes and rail and the renewals for the current fiscal year of the new company, being ten months to July 1, 1897.

### STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

#### STREET RAILWAYS AND TRACTION COMPANIES.

Includes results on North Side Traction Company, which was leased in February, 1897 to the Second Ave. Traction Co.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of April 17, 1897. The next will appear in the issue of May 22, 1897.

Roads.	Gross Earnings.		Net Earnings.	
	1897.	1896.	1897.	1896.
Albany (N. Y.)—

## Union Pacific Railway.

(Report for the year ending Dec. 31, 1896.)

**Entire System.**—The annual report contains no comments on the year's operations, but embraces full statistics of earnings, etc., for the entire system and for the several lines which the system included in 1896. For the entire system, 5,121 miles, the statement furnished is as follows:

	Gross Year.	Net Earnings.	Other Income.	Fixed Charges.	Balance, Deficit.
1896.	\$23,179,278	\$7,370,389	\$1,317,916	\$10,611,941	\$1,893,606
1895.	22,477,823	7,207,814	1,739,111	10,481,843	1,531,888

Of the 5,121 miles of road above included the following 4,115 miles have separate reorganization committees: Union Pacific Railway, 1,823 miles; Oregon Short Line & Utah Northern, 1,428 miles; St. Joseph & Grand Island, 251 miles; Central Branch Union Pacific, 398 miles, and Union Pacific Lincoln & Colorado, 225 miles. Since the end of the year the Oregon Short Line & Utah Northern Ry. has passed into possession of the Oregon Short Line Railroad and is now operated independently of the Union Pacific. The Kansas City & Omaha, reported last year, is not included in 1896. How far the dismemberment of the system through foreclosure will go and how far it will be permanent, if carried out, it is impossible to say, but for the time being the facts regarding the "system" as a whole are of only moderate interest.

The remainder of the system (1,006 miles) not embraced in the lines above enumerated includes the Omaha & Republican Valley Ry., 482 miles, the Kansas Central, 165 miles, Junction City & Fort Kearney, 88 miles, etc., which are merely branch lines of comparatively small earning capacity, whose securities are all or nearly all owned by the Union Pacific and pledged to secure its collateral trust loans.

**Earnings by Divisions.**—The earnings of the Union Pacific Railway are given in full further below. Separate statements are also furnished for the Oregon Short Line & Utah Northern and St. Joseph & Grand Island. For all the lines in the "system" the earnings are reported as follows:

	Miles.	1896.	1895.	1896.	1895.
Union Pacific Ry.	1,823	14,382,290	14,336,291	4,740,471	4,902,157
Bright & Boul. Rr.	27	20,319	37,219	df. 1,729	9,927
Carbon Cut-Off	19	44,047	45,893	13,679	13,289
Echo & Park City	30	86,209	79,657	32,660	24,285
Junc. City & Fort K.	88	118,285	69,749	25,049	df. 13,669
Kansas Central	165	146,117	129,984	df. 54,549	df. 14,542
Kear. & Black Hills	66	32,482	27,762	df. 8,071	df. 7,221
Omaha & Rep. Val.	482	700,326	624,095	66,428	18,899
Ore. Sh. L. & U. N.	1,428	5,578,874	5,394,198	2,261,224	2,235,270

Montana Un. (g.)	36	239,607	201,274	70,963	53,665
<b>Total</b>	<b>5,121</b>	<b>23,179,278</b>	<b>22,477,827</b>	<b>7,370,389</b>	<b>7,207,844</b>
Green Riv. Wat. Co.		34,917	39,369	25,686	27,543
Battle Creek W. Co.		13,747	13,691	10,573	10,403
Union Pac. Coal Co.				319,282	379,796

**Collateral Trust Bonds.—Other Income.**—"Other income" in 1896, as shown in the statement for the Union Pacific Ry. below, as also in the statement for the "system" above, includes chiefly the following items, which were paid by the trustees of the several deeds to meet interest in full or in part on the bonds named: Interest on sinking fund 8 per cent bonds, \$149,200, against \$298,400 in 1895; interest on collateral trust 6s, \$215,520, against \$327,500; interest on collateral trust 5s, \$233,850, against \$359,775; interest on 6 per cent collateral trust gold notes, 6s, \$514,200.

The income received from the trust investments and withheld by the trustees of the deeds securing the bonds and applied in part to the payments above indicated was as follows.

	Interest on—	For Collateral Trust 6s.	For Collateral Trust 5s.
Colorado Central bonds		\$121,730	\$81,830
Utah & Northern bonds		140,519	133,073
<b>Total</b>		<b>\$262,249</b>	<b>\$214,903</b>
<b>Total in 1895</b>		<b>\$394,090</b>	<b>\$355,330</b>

For collateral trust gold notes, 6s, see full statement on a subsequent page.

**Maintenance.**—On the Union Pacific Railway (1,823 miles) there were laid in 1896 about 64 miles of new steel rails and 25 miles of second-hand steel; on the remainder of the "system"

about 50 miles of new steel and 57 miles of second-hand steel. Of cross-ties there were laid on the Union Pacific Railway 616,226; on the rest of the "system" 654,858.

**Land Sales.**—The sales from the Union Pacific land grant in 1896 were 45,667 acres; cancellations, 50,548 acres; net cancellations, 4,882 acres or 990. Other income (principal forfeited on canceled sales, \$14,961; interest on land contracts, \$66,821, etc.) brought the total receipts up to \$83,523, from which were paid salaries, commissions, &c., \$118,633, leaving a balance deficit of \$30,111. The total cash receipts, including payments on land sales of previous years, &c., were \$133,166. Land contracts outstanding Dec. 31, 1896, against lands sold, \$2,836,786, of which \$1,164,485 uncollectible.

From the Kansas Pacific and Denver Pacific grants the net sales were 15,385 acres, for \$40,874, and after payment of expenses, taxes, &c., there was a deficit from the year's operations of \$62,836. The total cash receipts were \$119,180. The land contracts outstanding against lands sold from these grants were, on Dec. 31, 1896: To credit of Kansas Pacific consolidated mortgage, \$1,714,273 (of which \$1,174,273 uncollectible); Denver Extension mortgage, \$1,311,087 (of which \$1,086,087 uncollectible); Denver Pacific mortgage, \$506,099 (of which \$251,630 uncollectible).

**Statistics.**—The operations and financial results have been:

	1896.	1895.	1894.	1893.

<b>Net earn. available for int. charges....</b>	<b>\$88,020</b>	<b>\$13,594</b>	<b>\$145,299</b>	<b>\$273,636</b>

—V. 64, p. 570.

**General Electric Company.**

(Report for the year ending Jan. 31, 1897.)

The annual report of President Coffin is given at length on subsequent pages of the CHRONICLE, with full income statement and balance sheet.

The earnings for three years were as below. Otherwise there are no comparisons to be made with previous years:

	1896-97.	1895-96.	1894-95.
Gross earnings.....	\$12,820,396	\$13,315,607	\$12,961,213
Gross expenses.....	11,207,389	11,010,240	11,451,864
<b>Net earnings.....</b>	<b>\$1,613,007</b>	<b>\$1,405,427</b>	<b>\$1,509,349</b>
Other income.....	370,480	421,010	302,398
<b>Total.....</b>	<b>\$1,983,487</b>	<b>\$1,826,467</b>	<b>\$1,811,747</b>
<b>Deduct—</b>			
Interest on debentures...	431,250	437,500	464,583
<b>Surplus.....</b>	<b>\$1,552,237</b>	<b>\$1,388,967</b>	<b>\$1,347,164</b>

From the profit of \$1,552,237 in 1896-7 is to be deducted \$592,579 amount written off (viz.: patents, \$349,919; inventions and consignments, \$61,084; sundry losses and allowances for possible losses, \$318,531—\$729,534, less \$136,956 profit on securities sold and debentures canceled), leaving \$959,653.

**Electric Storage Battery.**

(Report for the year ending December 31, 1896.)

President Gibbs in his report says:

You will notice that while gross sales for 1896 have increased 96.90 per cent, the manufacturing charges have only increased 46.06 per cent. The percentage of manufacturing cost to total output for 1896 was 50.03 per cent. Same charges in 1895 amounted to 75.54 per cent.

Up to the 31st of December, 1896, there has been expended in various demonstrations and applications of the use of storage battery the sum of \$11,109; this will be charged off to profit and loss. This is not a current expense, and it will not be necessary for the company to make any further expenditure in this direction. The various prominent applications of the battery made during the past year have demonstrated its commercial value in every respect.

The general expenses of the company, aggregating \$112,017, will not be materially increased if the company's business was more than double, in which event it will be clear that the proportionate profit will be largely increased.

The earnings for 1896, compiled for the CHRONICLE, in comparison with the earnings for 1895, are as follows:

Year.	1896.	1895.	Increase.
Gross sales.....	\$446,319	\$324,231	96.90 p. c.
Manufacturing cost.....	362,142	247,938	46.06 p. c.
Office and legal expenses, commissions, taxes and interest.....	142,178	70,529	\$71,649
<b>Net profit.....</b>	<b>\$141,999</b>	<b>\$9,764</b>	<b>\$133,235</b>
Royalty and investments.....	6,891	2,215	4,533
<b>Total net income.....</b>	<b>\$148,890</b>	<b>\$11,982</b>	<b>\$136,818</b>
Interest on bonds.....	13,738	abt. 9,000	4,738
<b>Balance, surplus.....</b>	<b>\$135,062</b>	<b>\$2,982</b>	<b>\$132,080</b>

—V. 62, p. 1038.

—V. 64, p. 133.

**American Strawboard.—Leases Canceled.**—The company, it is understood, has canceled the leases made by it at the time of its organization for the purpose of getting rid of the competition of twenty or more mills that declined to join in the consolidation. The mills have not been operated, and the rentals being considered burdensome, the company has availed itself of the option to terminate the leases. To forestall possible competition the company has also reduced the price of its product from \$32 to \$25 a ton.—V. 64, p. 327.

**American Sugar Refining.—Death of Vice-President.**—Theodore A. Havemeyer, the Vice President of the company, died on Monday. Washington B. Thomas, a director, is likely, it is said, to succeed him as Vice-President.

**Purchase of Interest in Beet Sugar Refineries.**—The San Francisco papers report that a deal was effected between Claus Spreckles and John E. Searles, Secretary of the American Sugar Refining Company, during the latter's recent visit to San Francisco, by which the trust will participate in Spreckles' beet sugar interests on the Pacific Coast and also assist in promoting other sugar enterprises. Claus Spreckles is quoted as saying in part:

By this transaction the trust did not, as you will perceive, secure a controlling interest in the factory. That is still in my hands, so that we will always be in a position to compete in the open market. It is understood that the trust will co-operate with me in the work of developing the beet sugar industry in this State by the erection of a number of factories as fast as they are required. Their establishment will depend, of course, on the rapidity of the growth of sugar beet plantations. It is also their intention to develop this industry throughout the United States.

The Watsonville refinery, an interest in which has thus been secured, is said to have been extraordinarily successful, paying 80 per cent last year and previously over 100 per cent per annum on the stock.—V. 64, p. 661.

**Atlas Tack.—Sold at Auction.**—The assets of this corporation were sold at auction, April 27, to Aaron Hobart, Chairman of the Reorganization Committee and President of the Tremont National Bank, for \$250,000.

**Reorganization Plan.**—The plan of reorganization, which was issued under date of Nov. 30 provides:

The stockholders shall contribute \$100,000 of new capital, taking therefor third mortgage bonds for that amount and stock of the new corporation to the amount of their present holdings of stock in the present corporation. The creditors to receive second mortgage bonds and cash for the amount of their claims. The proportion of cash and bonds to be determined by cash on hand at the time of the reorganization but to be approximately 75 per cent in bonds and 25 per cent in cash, or 80 per cent in bonds and 20 per cent in cash; the intention being to pay the creditors all the cash that the condition of the corporation will warrant. The first mortgage bonds outstanding, amounting to \$220,000, not to be disturbed.—V. 64, p. 663.

**Baltimore & Ohio RR.—Coupon payments May 1.**—Coupons due May 1 on the Akron & Chicago Junction RR. bonds due 1930 will be purchased at their face value on and after maturity, until further notice, by Vermilye & Co. The Baltimore Belt first mortgage coupons due May 1, 1897, are being paid by Brown Brothers & Co., New York, and Alexander Brown & Sons, Baltimore. The Cleveland Terminal & Valley first mortgage coupons are being paid by Brown Brothers & Co., New York. Interest on the sterling loan of 1874 is being paid in London through J. S. Morgan & Co. and on the equipment "B" bonds at the Finance Co., Philadelphia.

**Extension of Electric Service.**—The electric service of the Baltimore Belt Line, which has heretofore extended from the power house, corner of Howard and Hamburg streets, to the Mount Royal Station, Baltimore, has been completed to Waverly, a distance of two miles. Hereafter freight trains will be drawn to that point by the powerful electric locomotives. The object of the extension is to do away with the

smoke nuisance in the Annex, and also to enable rapid transit over the heavy grades between North Avenue and York road.

**New Rails.**—It is expected that the first consignment of the 50,000 tons of new steel rail, recently purchased by the Baltimore & Ohio R.R. Co. will be delivered the latter part of April, and the steel will be placed in the track as rapidly as possible.

**Washington Branch R.R. Dividend.**—The directors have issued the following statement of earnings for the six months ending March 31, 1897, in explanation of the passing of the dividend announced last week:

6 months	Gross earnings.	Operating expenses.	Balance.	Taxes, etc.	Total Deficit.
1897.....	\$301,621	\$328,281	def. \$24,640	\$3,780	\$28,420
1896.....	292,587	246,315	net 46,272		

Referring to the result here shown, they say:

"There was therefore no sum applicable to a dividend, it having all been expended in the road. The increase in expenses for maintenance of way alone amounted to \$86,426, and for maintenance of equipment \$2,220, while the cost of conducting transportation decreased \$11,335.

"The reason of the increase in expense for maintenance of way arose from the fact that the receivers have placed upon the Washington branch 10 miles of new 85-pound steel rail, with new frogs and switches, and on the balance of the road have changed old rail in many places for better second-hand rail. There are still about three and one-half miles of new rail to lay upon this branch. Much of the old rail on the Washington branch had been in the track for seventeen years, hence the necessity for the extensive renewals.

"The amount of the usual semi-annual dividend is \$82,500. More than that amount was expended in the increased cost of maintenance of way by reason of the fact of the laying of new rail, frogs and switches, new ties and ballast."

**Condition of Special Funds March 1.**—The receivers' report the amount on hand April 1 of the several special funds, and the amount expended from each fund during the month of March, as follows:

—Receivers' certificates.—				
	Series I. (B. & O.)	Series II. (B. & O.)	Series III. (P. & O.)	Terminal Fund.
Unexpended April 1.....	\$89,800	\$934	\$501,000	\$557,132
Expenditures in March.....	133,194	38,742	7,501	24,527

—V. 64, p. 798.

**Baltimore Chesapeake & Atlantic Ry.—New President.**—Mr. John S. Wilson, late President of the Philadelphia Reading & New England, has been elected President of the Baltimore Chesapeake & Atlantic. —V. 64, p. 284.

**Boston Terminal Co.—New Bonds.—Financial Statement.**—The Massachusetts Railroad Commission has given the company authority to issue an additional \$1,000,000 of bonds, making the total bonds authorized to date \$9,000,000. The additional bonds have been sold to Messrs. Lee, Higginson & Co., of Boston. The total cost of the terminal when completed is expected to reach, if not exceed, \$10,000,000. A statement filed with the Commission shows:

RECEIPTS.	
Capital stock.....	\$500,000
Bonds.....	8,000,000
EXPENDITURES.	
Real estate.....	7,581,798
Other expenses.....	247,914
Cash on hand.....	670,288
Total.....	\$8,500,000
[OBLIGATIONS.]	
New England R.R. balance due on appraisal.....	\$300,940
Trained shed contract.....	30,000
Foundation and superstructure.....	1,500,000
Land to be purchased (estimated).....	618,500
Power house and heating, lighting and interlocking plant.....	570,000
Credit due from city on acct. of real estate to be purchased.....	1,500,000
Total.....	\$1,789,140

—V. 64, p. 81.

**Brooklyn Elevated R.R.—Large Majority of Bonds Deposited.**—A large majority of the various issues of bonds affected by the plan for reorganization has been deposited with the Central Trust Company. —V. 64, p. 795.

**Buffalo Rochester & Pittsburg Ry.—Quarterly.—Earnings for the quarter and the nine months ending March 31 have been reported as follows:**

3 months end.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, sur. or def.
March 31—					
1897.....	\$735,695	\$239,647	\$3,361	\$216,361	sur. \$26,687
1896.....	697,091	183,790	7,591	217,512	def. 24,131
9 months—					
1896-7.....	\$2,505,678	\$823,013	\$28,413	\$649,614	sur. \$202,712
1895-6.....	2,315,575	665,591	26,732	616,521	sur. 45,792

Loans and bills payable March 31, 1897, \$892,047, against \$949,778 on June 30, 1896. —V. 64, p. 706.

**Called Bonds.**—The following bonds have been called for payment. The numbers may be learned at the offices of the respective companies. (Last list in V. 64, p. 610.)

**Bonserville R.R. Bridge.**—Forty bonds have been called, interest ceasing July 1.

**Fort Smith & Van Buren Bridge.**—Eleven bonds have been called for payment Oct. 1, interest ceasing on that date.

**Lehigh & Wilkes-Barre Coal Co.**—One hundred and seventy-four bonds will be redeemed May 1st.

**New York Free & Ohio.**—One hundred and six Equipment Trust bonds will be redeemed May 1st.

**Mexican National R.R.**—One hundred and sixteen Prior Lien bonds will be redeemed June 1st.

**Northern Central R.R.**—Ninety-two Series "A" bonds and 46 Series "B" will be redeemed July 1st.

**Scrubby Hamilton & Wilkes-Barre.**—Twenty-four Series "A" bonds will be redeemed June 1st.

**Central Ohio R.R.—New Directors.**—At the annual meeting this week thirty-three thousand shares were voted for the present management and seventeen thousand against. Messrs.

Jenkins and Gordon of Baltimore retired from the board, and their places were taken by James Sloan, Jr., of Baltimore, and William Kinney of Belmont, Ohio. The directors, etc., are:

Directors: James H. Collins, William Kinney, John R. H. H. James Sloan, Jr., William A. Fisher, C. H. Kibler, John W. Garrett, W. W. Peabody, David Lee, A. B. Crane, John Hoge, Daniel C. List, George E. Bradfield. The board elected the following officers: James H. Collins, President; P. C. Sneed, Secretary; W. H. Hams, Treasurer, and G. W. Booth, Auditor.

The annual report was ordered printed and on a motion offered by the minority interests it was voted that a committee be appointed to examine and verify the correctness of the accounts. The Chairman appointed Messrs. Harry Fahnestock, Black and Fisher, of Baltimore; Mr. J. C. List, of Wheeling, and J. M. Lewis, of Barnesville, Ohio, as the committee. —V. 64, p. 566.

**Chicago & West Michigan Ry.—Coupon Payment.**—Regarding the coupons due May 1 and June 1 respectively on the Chicago & North Michigan and Chicago & West Michigan bonds, the directors announce that as the gross and net earnings do not show any material improvement over the immediately preceding years, they have voted:

"That in view of the continued depression in business, the net earnings do not, in our judgment, admit of the payment in cash of more than one-half of the amount of the coupons maturing May 1st and June 1st, respectively, and that the Treasurer be directed to notify bondholders to that effect.

The scrip to be issued for half of each coupon will have the same protection under the mortgage that the coupons would have had, and will be in all respects similar to the scrip heretofore issued on account of previous coupons. —V. 63, p. 793.

**Choctaw Oklahoma & Gulf R.R.—Missouri Kansas & Texas Ry.—Treaty with Chickasaw and Choctaw Indians.**—The treaty of the Dawes Commission with the Chickasaw and Choctaw Indians was jointly executed April 23 and now needs only confirmation by the Senate to make it effective. This treaty is important to both these roads as will appear by reference to their respective reports in V. 64, p. 132, and V. 63, p. 697.

**Cincinnati Jackson & Mackinaw Ry.—Purchasers Ask for Time to Complete Sale.**—Judge Sage has granted the purchasers an extension of twenty days for the completion of the purchase of the property. Of the \$1,000,000 bid at the foreclosure sale \$975,000, it is said, is still due, and must now be paid at the end of twenty days. —V. 64, p. 706.

**Citizens' Street R.R. of Indianapolis.—Judge Showalter's Decision Touching Fares.**—The full text of the decision allowing a temporary injunction to prevent the enforcement of the Hugg 3-cent-fare law (passed as an amendment to the street railway incorporation act) has been received. Judge Showalter decides against the amendment on the ground that it is special legislation aimed in contravention of law at the single city of Indianapolis. In the course of his opinion he says:

"Section 22 of Article 4 of the Constitution of Indiana provides that, except in reference to certain stated matters, 'the General Assembly shall not pass local or special laws.' Section 23 of the same article is: 'In all cases enumerated in the preceding section, and in all other cases where a general law can be made applicable, all laws shall be general and of uniform operation throughout the State.'

"The question here is whether or not the amendment of 1897 is a 'general law' within the sense of Section 13 of Article 11 of the Constitution of Indiana. This amendment provides 'that in cities in this State having a population of 100,000 or more, according to the United States Census of 1890, the cash fare shall not exceed 3 cents,' etc. There is but one city in Indiana which answers this description, namely, the city of Indianapolis. No matter how many cities there might be now or may be hereafter in Indiana containing populations respectively of 100,000 or more, the act in question could never apply to any other than the city of Indianapolis."

"The Legislature can make no amendment which if put into statute originally would have invalidated the whole. Following the pronouncement of the Supreme Court of Indiana, in *Moore et al. vs. Beasley et al.*, my opinion is that the amendment of 1897 is unconstitutional and void—it is not an amendment within the reservation of the 11th section of the Act of 1861."

"My opinion is that where proceedings in effect destructive of a vested property right are threatened by a defendant in official position under color of a void statute, the preliminary injunction ought to issue." —V. 64, p. 799.

**Columbus (Ohio), Central (Electric) Ry.—Foreclosure.**—Press dispatches say that, owing to the failure to secure the co-operation of Cincinnati bondholders, it has been found impossible to carry out the reorganization plan, and that foreclosure has therefore been decided upon. At Columbus, April 28, the Brownell Car Company brought suit against the Railway Company to recover \$20,500 due on eight notes signed by John J. Shipherd as President. —V. 63, p. 338.

**Columbus Hocking Valley & Toledo Ry.—Coupon Payment.**—Coupons due May 1, 1897, on the Ohio & West Virginia first mortgage 7 per cent bonds are being paid upon presentation at the office of the State Trust Company, 100 Broadway. —V. 64, p. 754.

**Commercial Cable Company.—Bonds Listed.**—The \$13,000,000 first mortgage 4 per cent gold bonds of 1897 have been listed on the New York Stock Exchange. These bonds are a portion of the \$15,000,000 authorized to acquire the Postal-Telegraph Cable Company.

**Mexican Contracts.**—Contracts, it is understood, have been signed between the Postal Telegraph Cable Co. and the Mexican National and Mexican Central R.R. companies, to last for twenty-five years, giving the Postal Company a strong foothold in Mexico and that country an overland outlet to the United States. Heretofore the Western Union Company has required all messages for the United States to go via cable from Vera Cruz to Galveston. —V. 64, p. 565.

**Dry Dock East Broadway & Battery RR.—Dividend Passed.**—The business of the last three months not having been as satisfactory as usual, it has not been deemed prudent to declare the usual quarterly dividend. Gustav E. Kissel of Kessler & Co. has been elected President in place of Judge Kelly, deceased.—V. 63, p. 401.

**East Birmingham Land & RR.—Master's Sale May 31.**—This property will be sold to the highest bidder in Birmingham on May 31, the upset price being \$50,000. This is a suburban street railway seven miles long, with three miles of branches. It is capitalized at \$1,022,800, and the original bond issue was \$50,000.

**Georgia & Alabama Ry.—Bonds Listed.**—The \$2,230,000 first mortgage preference gold 5s of 1945 have been listed on the New York Stock Exchange.—V. 64, p. 82.

**Kelley Match Manufacturing Co.—New Match Company.**—A bill, it is stated, has been presented to the Delaware Legislature to incorporate this company, of which W. B. Clark is to be President and J. Edward Addicks, George Gould and others directors. Alexander Kelley, the inventor of the machine to be used by the new company was, according to newspaper reports, at one time employed by the Diamond Match Co. Extraordinary things are claimed for the new machine. A building for the use of the Kelley Company is said to be in preparation in Wilmington.

**Metropolitan Traction, New York City.—Withdrawal of Objection to Change of Motive Power.**—Chairman Parker of the railroad committee of the Board of Aldermen this week sent letters to the Board of Electrical Control and the Park Department, saying that he withdrew all objection to the change of motive power on the Sixth and Eighth Avenue surface railroads because the Corporation Counsel had decided that such change of power would not affect the city's right to buy these roads, and because the city had at present no funds to make the purchase.—V. 64, p. 517.

**Mexican Central.—Equipment Bonds Sold.**—The Boston "Herald" says this company has negotiated the sale of \$500,000 twenty-year 5 p. c. equipment bonds in London at about par. These bonds are secured by the mortgage of the equipment and of the deposit in trust of \$750,000 Mexican general 4s. The company is to pay 5 per cent of the principal of the loan annually and a proportional amount of fours will be released. The company's report will be found on other pages of to-day's CHRONICLE.—V. 64, p. 465.

**Missouri Pacific Ry.—St. Louis Iron Mountain & Southern RR.—Bonds Due May 1 to be Purchased.**—Expiration of Holders' Right to have them Extended.—Referring to the previous notice regarding the St. Louis & Iron Mountain bonds due May 1, Vermilye & Co. and Kuhn, Loeb & Co. now announce that the option granted to bondholders to extend their bonds having expired, they are now prepared to purchase the bonds at par and accrued interest. The coupons due May 1 on the same bonds will be paid, as usual, by the Mercantile Trust Company, No. 120 Broadway.—V. 64, p. 800.

**New York Central & Hudson River RR.—Meeting to Authorize New Mortgage.**—The stockholders meet at Albany, May 26, to authorize the new mortgage for refunding and other purposes. The mortgage will be for \$100,000,000, payable July 1, 1997, bearing interest at the rate of 3½ per cent per annum, payable semi-annually, both principal and interest to be payable in gold coin of the United States of the present standard of weight and fineness.—V. 64, p. 755.

**New York New Haven & Hartford RR.—Work on Electric Line.**—Work on the third-rail electric line of the New Haven road between Hartford and New Britain, Conn., is nearing completion and the track is now ready for the cars. The installation of the machinery at the Berlin power house is not yet finished, but is expected to be in running order soon after May 1. It is stated that the cars will be put in operation immediately and run on a half-hour schedule during rush hours. The fare now charged by the steam line will be cut nearly 50 per cent.—"Boston Advertiser."—V. 64, p. 664.

**Northeastern RR. of Georgia.—Temporary Receiver Appointed.**—At Athens, Ga., April 29, M. H. Dooly was appointed temporary receiver of this road, which has been operated under lease from the State by E. A. Richards & Co. Hearing for a permanent receiver was set by Judge Hutchins for May 15 at Lawrenceville. The receivership was asked for by T. J. Ripley, receiver of the State Savings Bank of Atlanta, on the ground that Richards who borrowed \$5,500 from the bank, is removing the funds of the road to New York.

**Possible Sale of Road.—Rental Unpaid.**—It has been expected at Atlanta, Ga., that the road would soon be placed on the market to be sold to the highest bidder. The Governor was authorized last fall by a special act of the Legislature to make the sale within six months from that time, the limit expiring June 24, and the minimum price to be \$287,000, which is at the rate of about \$7,000 per mile.

The rental for the quarter ending March 31, it is stated, remains unpaid, but the lessees have sixty days of grace before the lease can be forfeited.—Vol. 63, p. 1010.

**Northern Pacific Ry.—Resignation of President Winter.**—President Edwin W. Winter on Thursday laid his resignation before the directors of the company, the resignation to take effect upon the appointment of his successor. Mr. Winter authorized the statement that his resignation was tendered in view of the recent acquisition of a considerable minority interest in the property by parties of whose co-operation he is

not assured, and that without such assurance he is unwilling to continue his administration.

Mr. Winter, it is understood, refers in this explanation to the sale in February last to a European syndicate, of which the Deutsche Bank of Berlin was the head, of 13,000 shares of the preferred and 173,250 shares of the common stock of the new Northern Pacific Company, and in which transaction President J. J. Hill of the Great Northern is understood to have an interest.

J. Pierpont Morgan & Co. issued this statement in regard to the resignation: "At an interview this week we assured Mr. Winter that if he remained with the property he should continue to have our entire confidence and fullest support, but for the reason given by him and for none other he has tendered his resignation." The stock of the company is held by five voting trustees, viz.: J. Pierpont Morgan, Georg Siemens, August Belmont, Johnstn Livingston, and Charles Lanier. Messrs. Morgan and Lanier are in Europe, and the selection of Mr. Winter's successor, it is stated, will have to be deferred until their views shall be ascertained.

It has been reported for a month past that ex-Secretary of War Daniel S. Lamont would be elected to succeed President Winter. There is reason to believe that his election would be acceptable to some of the large holders of Northern Pacific securities, and that they have urged it.—V. 64, p. 424.

**Oregon Improvement.—Reorganization Notice.**—The committee heretofore known as the Rolston Committee (Mr. Rolston, recently deceased, having been chairman), now consists of Henry Amy and Henry K. McHarg. This committee announces that no agreement whatever has been reached with the Waterbury Committee and that it is still receiving deposits of all classes of securities. See advertisement in another column.—V. 64, p. 800.

**Reading Company.—Earnings.**—The monthly statement of earnings issued this week and all future statements of this kind will be found in our earnings department.

**Voting Trust Agreement.**—The text of the voting trust agreement will be given in a subsequent issue of the CHRONICLE.

**Payment of Coal & Iron Bonds.**—The bonds of the Philadelphia & Reading Coal & Iron Co. maturing May 1, 1897, and secured upon lands known as the "Big Schall" tract, and "West Flowery Field" tract, are being paid either by J. P. Morgan & Co., New York, or Drexel & Co., Philadelphia.—V. 64, p. 755.

**St. Louis & Vandalla & Terre Haute R. R.—Coupon Payment May 1.**—The money to pay the May interest on all the second mortgage bonds, both guaranteed and unguaranteed, is on deposit with the trust company.—V. 64, p. 420.

**St. Louis United Elevator.—Ordered Sold.**—The United States Circuit Court at St. Louis has entered a decree of foreclosure against this company.—V. 63, p. 604.

**Sanford & St. Petersburg RR.—Savannah Florida & Western Ry.—Guaranty on Bonds.**—The following is a copy of the endorsement by which both principal and interest are guaranteed on the Sanford & St. Petersburg RR. first mortgage bonds:

"For value received and under the provisions of the agreement mentioned in the certificate following this endorsement, the holder of the within bond agrees that from Jan. 1, 1897, and until maturity thereof, it shall bear interest at the rate of 4 per cent per annum, payable semi-annually on the first days of July and January in each year, instead of at the rate of 5 per cent. All coupons thereof prior to July 1, 1897, have been satisfied and canceled.

"In consideration whereof, and for other valuable considerations, the Savannah Florida & Western Railway Company hereby guarantees the prompt payment at maturity, in gold, by the Sanford & St. Petersburg Railroad Company, of the principal of the within bond and interest thereon, commencing with that which will be due July 1, 1897, and until the maturity of the bond, at the rate of 4 per cent per annum, payable semi-annually as aforesaid, as the same shall respectively mature. [Signed by Vice-President and Secretary of the Savannah Florida & Western Railway Co.—Eds.]

"The undersigned hereby certifies that the foregoing endorsement was placed on the within bond with the consent of the party depositing the same, in pursuance of an agreement entered into between the said party and the holders of the remaining bonds of the same issue, the Sanford & St. Petersburg Railroad Company, the Savannah Florida & Western Railway Company and the trustee of the mortgage securing this issue of bonds, dated July 1, 1895, which is filed with the undersigned." [Signed by President of the Pennsylvania Company for Insurances on Lives & Granting Annuities.—Eds.]—V. 64, p. 421.

**South Side Elevated RR., Chicago.—New Mortgage.—Sale of Bonds.**—The stockholders will meet June 24 to authorize the making of a mortgage for \$1,500,000 for corporate purposes. Of the new bonds, \$750,000 only will be issued at present. The remainder will be issued in the future for permanent betterments, extensions and additions to the company's plant, road and equipment. The bonds will bear 4½ per cent and be payable in ten years, the company reserving the right to redeem them at 102 at any time after five years. A press dispatch says that the first issue of \$750,000 has been sold at a price believed to be about par and interest less commission.

The Chicago "Economist" says:

The company gets \$184,000 from the Master in Chancery from the cash assets of the old company and will eventually get nearly \$100,000 more. Besides it has the net earnings for February, March and April, so that with the proceeds of the bond issue it will have ample funds to complete the improvements now planned. The company figures that the change to electrical power will result in a saving of \$100,000 a year in operating expenses. Putting operating expenses at a maximum of 60 per cent of gross receipts, and allowing nothing for gains from the loop or from quicker and better service, still the road will earn about 6 per cent net on the market price of the stock.

**Decree Value of Old Bonds.**—The Master having in charge the settlement of the accounts of the old Chicago & South

Side Rapid Transit Co. finds that each outstanding first mortgage bond is entitled to \$162 75 and each extension bond to \$277 65 in cash. Some small amount additional (less than a dollar) may come to them later.—V. 64, p. 708.

**Superior Consolidated Land.—Receiver Appointed.**—A receiver has been appointed in the United States Court at Madison, Wis., for this land company on application made for the estate of Thomas Scott of Philadelphia, based on a judgment of \$10,000. The attorneys, also, it is stated, represent the Northern Pacific RR. Co. with a note for \$25,000 and bondholders representing \$300,000. The company owns a large part of East Superior. Its secured indebtedness is reported to aggregate about \$650,000, \$350,000 of which is taxes, while the floating indebtedness is said to be \$200,000 more.—V. 64, p. 85.

**Third Avenue R.R. (N. Y. City).—Quarterly.**—Earnings for the quarter and the nine months ending March 31, have been reported as follows:

3 mos. end.	Gross earnings.	Net earnings.	Other income.	Interest taxes, etc.	Balance surplus.
Mar. 31.					
1897.....	\$507,117	\$185,855	\$13,478	\$91,821	\$107,512
1896.....	584,341	231,335	12,558	80,630	163,263
9 months—					
1896-7.....	1,901,097	781,550	43,698	270,422	554,842
1895-6.....	1,926,689	839,241	33,580	246,573	625,948

Loans and bills payable March 31, 1897, \$1,275,000, against \$1,875,000 on June 30, 1896.—V. 64, p. 331.

**Union Pacific Ry.—Collateral Securing Collateral Trust Gold Notes, 6s.**—Below we give from the Union Pacific report a list of the collateral on deposit Dec. 31, 1896, as security for the collateral trust gold notes, 6s of 1891. For the bonds we add the total amount issued, whether pledged or unpledged, and a recent quotation for the same, or if that is unobtainable, the company's net earnings or deficit after paying operating expenses and taxes.

Bonds.	Pledged Par Value.	Total Issue.	Remarks.
Colo. Cent. 7s (U. P. Den. & G.)	\$1,437,000	\$4,788,000	Quoted at 55 bid.
Denver Lead. & Gunnison 4½s.	54,000	2,930,000	Quoted at 50 asked.
Edo. & Park City 6s	420,000	480,000	In 1896 net \$34,305.
Hutchinson & Southern RR.	1,025,000	1,025,000	Net 95-96 over \$11,451
Kansas Central 6s	1,346,000	1,346,000	Deficit in 1896 \$54,549.
Kansas City & Omaha 5s	1,505,500	2,715,000	Quoted at 27½33.
Kearney & Black Hills 5s	339,825	862,000	In 1896 deficit \$7,500.
L. P. M. & R.R. Tunnel Co. 7s	400,000

Union Pac. Coal bonds	317,375	Total in 1895.....	\$516,887
Un. Imp. Spok. Falls, etc.	4,936		

† These bonds were disposed of during 1896.

**Collateral Securing Collateral Trust 6s of 1879 and 15s of 1887.**—The Union Pacific report shows the following bonds still in trust to secure these bonds:

To secure—	Central 7s.	Om. & Repub. Val.	Utah & Nor. 1st M.	Utah So. Ex. 1st M.
6s of 1879	\$1,739,000	\$860,000	\$1,974,000	
5s of 1887	1,149,000	573,000	1,860,000	\$79,000

The Colorado Central bonds are part of an underlying issue of \$4,788,000 on the Union Pacific Denver & Gulf (see INVESTORS' SUPPLEMENT) and cover 271 miles of road, including the important line between La Salle and Julesburg, Col. The Utah Northern bonds are part of an underlying loan of \$4,993,000 assumed by the reorganized Oregon Short Line RR. (See INVESTORS' SUPPLEMENT.)

The Omaha & Republican Valley Ry. has outstanding \$1,559,000 1st mortgage 7s, due 1909; \$3,136,000 consol. 5s, due 1927 (trustee, American Loan & Trust Co. of Boston), and \$1,246,000 first mortgage extension 5s, having the same trustee as the consols—also "accounts payable, \$4,497,073." The road of the O. & R. V. Ry. is made up as follows:

Miles.		Miles.	
Valley, Neb., to Manhattan, Kan. . .	18½	Grand Island, Neb., to Ord, Neb. . .	61
Valparaiso, Neb., to Stromsb'g, Neb. .	53	St. Paul, Neb., to Loup City, Neb. . .	30
Columbus, Neb., to Norfolk, Neb. . .	50	Boelsa, Neb., Pleasanton, Neb. . .	22
Osborne, Neb., to Albion, Neb. . .	35	Other lines . . . . .	12
Genoa, Neb., to Cedar Rapids, Neb. .	31		
Total. . . . .			182

The earnings of the road have been:

Year.	Gross earnings.	Net over taxes.	Misc. income.	Interest.	Sink. funds.	Balance, deficit.
1896.....	\$770,326	\$60,428	\$2,785	\$328,230	\$20,906	\$279,023
1895.....	828,095	18,889	def. 9,162	328,230	20,906	359,409
1894.....	883,019	16,946	67,808	328,230	20,906	264,799
1893.....	1,186,073	def. 179,075	4,780	329,578	20,906	615,729
1890.....	1,213,065	def. 128,165	4,181	326,705	20,826	471,535

—V. 64, p. 799.

**United Electric Securities.—Securities Bought.**—The company is reported to have bought \$4,000 1st series bonds at 103 and interest, leaving outstanding \$12,000; \$5,000 fifth series at 86½ and interest, leaving outstanding \$477,000, and \$100,000 ninth series at 90-87 and interest, leaving outstanding \$715,000.—V. 64, p. 662.

**Wilmington & Weldon RR.—Payment of Bonds Due May 1.**—The sinking fund gold mortgage 7s maturing May 1 next will be paid on that date upon presentation of said bonds and coupons at the office of Messrs. Brown Brothers & Co., No. 59 Wall Street, New York City.—V. 64, p. 333.

**Wisconsin Central Co.—Coupon Payments and Defaults.**—The coupons due May 1 on the \$3,642,000 of improvement bonds will be paid as usual at the Merchants' National Bank, Boston. The receivers have nothing to do with the payment of interest on this loan, said interest being met from the income of the collateral securing the bonds. Chief among the collateral is about seven-eighths of the \$2,500,000 stock of the Central Car Co., to which company the Wisconsin Central in the year 1895-96 paid a dividend of \$260,346—(see report V. 63, p. 921 and V. 55, p. 22, 757.)

The court has suspended the order authorizing the receivers to pay the interest on the \$150,000 of Chippewa Falls & Western and \$180,000 of Minnesota St. Croix & Wisconsin first mortgage bonds. This interest is due May 1 and will be defaulted on.—V. 64, p. 713.

—The Southern Railway Company has placed an order with the Richmond Locomotive Works for twelve heavy locomotives. The engines will be of modern design, and the passenger engines the heaviest in the South, and as large as are used anywhere in the United States. This fact goes to prove the great improvement in the superstructures and road-bed of the Southern system.

—Messrs. Flower & Co. have occupied their new offices at 45 Broadway—Aldrich Court Building. The tearing down of the Exchange Court Building necessitated the firm leaving the offices they had occupied for seventeen years. The new quarters are on the first floor facing Broadway and are hand some, well lighted and commodious.

—Mr. Lathrop R. Bacon, member New York Stock Exchange and senior member of the firm of Bacon, McKinley & Sherman which expires to-day by limitation, will continue the business at 8 Broad Street, with Mr. Allen D. Loney, under the firm name of Lathrop R. Bacon & Co.

—Messrs. Boody, McLellan & Co., members New York Stock Exchange, 57 Broadway, offer and recommend as a safe investment a first mortgage gold security netting 6 per cent. A special circular will be sent on application.

—Debentures of series six of the New England Loan & Trust Company maturing December 1st, 1897, will be paid at their office, 34 Nassau Street, on June 1st.

—C. H. White & Co., bankers, will occupy their new offices in the National Bank of Commerce Building, 31 Nassau Street, on and after May 3d.

—Coupons and dividends payable at the office of the Farmers' Loan & Trust Company on and after May 1st will be found advertised in to-day's issue.

—Mr. F. J. Lismann announces in another column that he is prepared to sell a limited amount of first mortgage bonds to yield 5½ to 6 per cent.

—Messrs. Winslow, Lanier & Co. will pay dividends on a number of securities, list of which will be found in another column.

—The Manhattan Trust Company took possession of its new offices, corner of Wall and Nassau Streets, on Wednesday.

—Attention is directed to the list of investments advertised in to-day's issue by Messrs. Redmond, Kerr & Co.

## Reports and Documents.

### MEXICAN CENTRAL RAILWAY COMPANY, LIMITED.

SEVENTEENTH ANNUAL REPORT—FOR THE YEAR  
ENDING DECEMBER 31, 1896.

OFFICE OF THE  
MEXICAN CENTRAL RAILWAY CO., LIMITED,  
BOSTON, April 23, 1897.

To the Stockholders of the Mexican Central Railway Company,  
Limited:

Your Directors present the following Report of the Company for the year ending December 31, 1896.

The operations for 1896 compare with 1895 as follows, viz.:

Mex. Currency.	1896.	1895.	Dec. or Inc.
Gross Earnings.....	\$10,208,020 39	\$9,495,865 68	Inc. \$712,154 71
Operating Exp.....	6,744,273 19	5,599,390 61	Inc. 1,144,882 55
Net Earnings.....	\$3,463,747 20	\$3,896,475 04	Dec. \$132,727 84

The wyes at San Luis Potosi and Silao, amounting to 53-100ths of a mile, were added to the operating mileage on January 1st, and the Ameca Extension, 55.41 miles, was added November 1st, making the average operated mileage for the year 1,869.60, compared with 1,859.83 in 1895, an increase for the year of 9.77 miles.

#### GROSS EARNINGS.

The increase in gross earnings for the year is made up as follows:

On International Freight Business.....	\$437,767 32
On Construction Material for Ameca and Laguna Extension.....	132,186 16
On Local Passenger Business.....	73,279 15
On International Passenger Business.....	33,261 02
On Baggage, Exp., Telegraph and Miscellaneous Business.....	101,397 99
	\$780,891 64
Less: Decrease on Local Freight Business.....	68,736 93

A net increase, Mexican Currency, of.....\$712,154 71  
being 7.50 per cent, or exclusive of freight on construction material, 6.15 per cent.

The earnings from local agricultural freight traffic for the year show a loss, owing largely to the drought, which caused a total or partial failure of crops in territory tributary to the Mexican Central Railway. The only exceptions to this were in the States of Jalisco and Chihuahua, where full average crops were harvested.

The increase in international business was very largely due to the movement of corn from the United States, brought into the country, owing to the drought, free of duty under Government order. Under normal conditions this increase in revenue should accrue from local traffic. We not only lost, therefore, the local haul on such business, but it was also carried at reduced rates of transportation, producing little or no profit.

The diversion to Tampico of a large share of the international freight traffic into Mexico consequent upon the rate war, referred to in last annual report, continued during the year 1896. Much of this business was carried at low rates, thereby causing a decrease in net revenue. The total increase in gross revenue from international freight traffic was nearly 20 per cent.

The results from freight traffic for the year cannot be considered satisfactory, but the combined circumstances of failure in crops and forced low rates on international business were abnormal.

The rate war on international freight traffic was terminated on December 1st last by the re-forming of the Mexican Traffic Association with the original four companies as members, viz.: Mexican, Inter-oceanic, Mexican National and Mexican Central. As stated in the last annual re-

port, this rate war situation was forced on this Company after unusual efforts to avert it, and it is therefore with pleasure that the above announcement is made. The new agreement is more advantageous to the Central Company than the one terminated June 1st, 1895, and the contest has fully vindicated the position taken by this company. Although rates were restored on the above-mentioned date, the effect of them was not felt on the earnings in 1896, as most of the international traffic coming into Mexico during December was either en route when the new rates were put in force or under contracts at old rates.

Whatever cost the disruption of the old Association has been to this company, it may be considered amply repaid in the impetus given to the port of Tampico, now well established as the port of the largest tonnage and the most important and most convenient of the Mexican ports.

The percentages of local and international earnings to the entire gross earnings, exclusive of freight on construction material, compare as follows:

	1896.	1895
Earnings on local business.....	69.46	72.58
Earnings on international business.....	30.54	27.42

Notwithstanding the falling off in local freight earnings and the large increase in international freight earnings, it will be noted that the favorable comparison between local and international business continued, nearly 70 per cent of the revenue being on business local to the country.

The extension from Guadalajara to Ameca was completed in October last, and the operation of it for revenue account commenced on the first of November.

The gross earnings of the Tampico Line increased \$249,514 76 over 1895, of which \$104,662 61 was on imports, \$39,452 24 on exports, \$41,117 69 on local freight and \$64,282 22 on other classes of business; but the expenses were increased by causes stated under the head of Operating Expenses, \$555,041 70, so that the operation of the line for the year showed a loss of \$282,836 42.

In considering this result it should not be lost sight of that the local earnings of the Tampico Line are quite meagre, that a very large tonnage of Company coal and material is handled over this Branch without earnings, but contributing great advantages to the operating results on other parts of the system; and that the abnormal condition of low rates on international traffic has reduced the gross earnings, while the operating conditions, hereafter referred to, have abnormally increased the operating expenses.

Notwithstanding the above unfavorable results this branch is of great value to the property, from the reduced cost of operating material received via Tampico, through which port the greater part of our foreign supplies now comes; and from the commanding situation it gives to the Mexican Central in developing the resources tributary to its territory, and in protecting its revenue against undue competition.

The local passenger business over the whole line increased \$73,279 15, or 4.86 per cent, and the international passenger business increased \$33,261 02, or 10.36 per cent, a total increase of \$106,540 17, or 5.83 per cent.

#### DETAILS OF GROSS EARNINGS. (Mexican Currency.)

Classification.	1896.	1895.	Increase.	Decrease.
Freight.....	\$7,646,257 99	\$7,145,041 44	\$501,216 55	
Passenger.....	1,934,612 78	1,828,072 61	106,540 17	
Extra Baggage.....	32,445 85	28,364 92	4,080 93	
Express.....	261,054 00	245,373 31	15,680 69	
Telegraph.....	42,177 26	42,402 91		\$225 65
Miscellaneous..	291,472 51	206,610 49	84,862 02	
Totals.....	\$10,208,020 39	\$9,495,865 68	\$712,154 71	

All classes of earnings increased over the previous year excepting telegraph earnings, which show a small decrease of \$225 65, a loss in receipts caused by competition at all points between the Federal telegraph and Mexican cable lines.

#### COMPARISON OF EARNINGS, 1885 TO 1896 INCLUSIVE. (Mexican Currency.)

Years.	Av. miles Inc. over operated, prev. yr.	Pr. cent of inc.	Gross earnings.	Less construction material.	Gross commercial.	Increase over previous year.	Pr. cent of inc.	Earnings per mile oper.	Inc. over prev. yr.	Per cent of inc. or dec.
1885.....	1,235.00	.....	\$3,559,560 76	\$26,741 07	\$3,532,819 69	.....	.....	\$2,858 50	.....	.....

1892.....	1,824.33	159.72	7,963,253 69	397,376 40	7,565,877 29	623,136 94	08.98	4,146 07	D.23 47	Dec. 00.56
1893.....	1,846.64	21.81	9,191,764 31	none	7,981,768 31	415,991 02	05.50	4,322 32	176 25	Inc. 04.25
1894.....	1,859.83	13.10	8,426,025 23	none	8,426,025 23	441,256 97	05.57	4,302 53	208 21	Inc. 04.82
1895.....	1,859.83	none	9,495,865 68	68,256 31	9,427,609 37	1,001,584 09	11.89	5,069 07	538 51	Inc. 11.89
1896.....	1,869.60	09.77	10,208,020 39	200,442 47	10,007,577 92	579,968 55	06.15	5,352 79	283 72	Inc. 05.60
	633.70	51.27	\$82,290,567 42	\$2,676,233 65	\$79,614,333 77	\$6,474,758 23	183.27		\$2,494 29	Inc. 87.26

This statement shows that while the mileage of the road in 1896 had increased 51.27 per cent since 1885, the gross commercial earnings had increased in the same period 183.27 per cent; and the gross commercial earnings per mile operated, which were \$2,858 50 in 1885, had increased to \$5,352.79, in 1896, or 87.26 per cent.

#### OPERATING EXPENSES.

The comparison of classified expenses with 1895 is as follows:

#### DETAILS OF GROSS EXPENSES. (Mexican Currency.)

Classification—	1896.	1895.	Increase.
Maintenance of Way and Structures.....	\$984,779 86	\$879,511 54	\$105,259 32
Maintenance of Equipment.....	1,206,195 86	959,327 22	246,868 64
Transportation and Traffic Expenses.....	3,920,122 18	3,194,596 49	725,525 69
General Expenses.....	633,184 29	565,955 39	67,228 90
Totals.....	\$6,744,273 19	\$5,599,390 64	\$1,144,882 55

A slightly lower average rate of exchange on the United States Currency Material and Expenses made a difference, decrease, of but \$2,586 12 in the expenses, and if this be added for the purpose of comparison to the above figures, the increase in operating expenses over the previous year will be raised to \$1,147,368 67.

The general repairs of track were less than in 1895, but the item of maintenance of way shows an increase on account of renewal of rails and ties and repairs to bridges: 69.9 miles of 56-pound rail on the Mexico Division, from San Juan del Rio south, were renewed with 66-pound rail and 39.85 miles of 56-pound south of El Tigre were renewed with the same weight, the total amount charged to Operating Expenses for these renewals being \$184,598 29.

The tie renewals during the year were 261,988, costing \$271,132 83, compared with 200,829 in 1895, at a cost of \$195,622 94 an increase of 61,109 in the number of ties and \$75,509 91 in the expense, making a total of ties renewed from 1883 to 1896 inclusive of 3,885,070.

During the year 8,800 lineal feet of wooden trestle bridges were removed, 3,158 feet being taken out, ditched, and the openings filled with earth, and 5,642 feet being replaced by cast-iron culverts. The amount charged to Operating Expenses for these replacements was \$47,743, the total expense of repairs of bridges during the year being \$160,258 22, compared with \$130,608 74 in 1895, an increase of \$29,654 48.

Of the increase in the expenditures for maintenance of equipment, \$104,560 11 was for locomotive engines, \$82,636 60 for freight cars, \$44,664 19 for passenger cars and \$13,714 28 for floating equipment. The increase for locomotive engines was caused entirely by the increase in number of miles run. The increase for freight and passenger cars was due to heavier repairs and renewals, consequent upon the age of the equipment, and also to the fact that a much larger num-

ber of foreign freight cars were used on the line than in former years. The increase for floating equipment was principally on account of the tug Tampico, which had to be sent to New Orleans during the year for general and heavy repairs.

The expenditures for maintenance of equipment include the equivalent of \$48,000 U. S. Cy. (amounting to 90,360 Mexican Cy.), credited to Equipment Fund to provide for condemned and destroyed equipment.

The large increase under the head of "Transportation and Traffic" is accounted for by the large increase in locomotive and train mileage, caused by the increased traffic. The increase in freight tons one mile was 27.29 per cent, of which over two-thirds was on business via Tampico.

The lack of rains in Mexico and the consequent scarcity of water caused much difficulty in moving traffic and largely increased the transportation expenses, the failure of the ordinary sources of water supply compelling the company to haul water from place to place, but the greatest difficulty and expense was experienced on the Tampico branch, where the traffic was double that of any previous year. At one time no water for locomotives at Tampico could be obtained at any nearer point than Las Palmas, seventy miles distant. A steam tug service had to be established for about six months of the year, hauling water in barges for forty miles from up the Panuco River, and several miles of new pipe line had to be laid on the Tamasopo mountain to secure increased water supply. Your Board have now authorized expenditures for water facilities which should prevent unusual expenses and embarrassments on account of insufficient water for at least several years to come. A pipe line about ten miles in length, costing about \$90,000 Mexican currency, has been completed, conveying water from the Tamesi River to Tampico, which will insure an abundant supply, and stimulate the location of industries at that terminal.

STATEMENT SHOWING U. S. CURRENCY MATERIAL AND EXPENSES CHARGED IN THE OPERATING EXPENSES 1891 TO 1896 INCLUSIVE, AND YEARLY INCREASES OR DECREASES IN SAME OWING TO DEPRECIATION OR APPRECIATION IN SILVER.

Years.	United States Cur- rency. Amount.	Premium.		Mexican Currency equivalent charged in the expenses.	Percentage to total expenses.	Mexican Cur. equiva- lent that would have been charged at pre- vious year's rate of Exchange.	Mex. Cur. inc. or dec. in expenses over prev. y' row- ing to deprec. or apprec. in Silver.
		Average rate.	Amount.				
1891.....	\$1,540,998 60	128-83	\$440,841 39	\$1,996,839 99	42-67	\$1,899,833 28	Inc. \$97,006 71
1892.....	1,386,065 68	143-16	598,277 01	1,984,312 69	39-67	1,822,621 29	Inc. 161,721 40
1893.....	1,213,270 38	160-04	728,475 62	1,941,746 00	37-80	1,735,734 08	Inc. 206,011 97
1894.....	1,080,472 37	192-60	1,009,820 98	2,099,302 35	38-45	1,728,150 58	Inc. 370,151 77
1895.....	929,677 49	188-94	826,880 83	1,756,559 32	31-38	1,783,951 89	Dec. 27,393 57
1896.....	1,048,481 21	188-65	929,442 18	1,977,923 39	29-33	1,980,809 51	Dec. 2,886 12
Totals.	\$7,216,965 73		\$1,539,747 01	\$11,756,712 74	38-04	\$10,952,100 58	Inc. \$804,812 16

During the six years covered by this statement the increased rate of exchange on the United States Currency Material and Expenses has caused an increase in the operating expenses in Mexican Currency, allowing for the small decreases in 1895 and 1896, of \$804,812.16.

Although wherever practicable purchases are made in Mexico, yet the bulk of all the material has to be purchased in other countries, and since the rapid decline in silver commenced in 1893 the stock has been gradually decreased and kept at as low a point as possible consistent with safety and economy in operation.

The United States Currency values of the stock of material and fuel at the periods specified have been as follows:

December 31, 1892 .....	\$855,835 90
December 31, 1893.....	699,732 87
December 31, 1894.....	487,310 74
December 31, 1895 (excluding material for construction of Ameca Extension).....	412,419 98
December 31, 1896.....	419,652 45

from which it will be observed that the stock has been decreased between December 31, 1892, and December 31, 1896, \$436,183 45, or over 50 per cent.

The statistics of earnings and expenses for 1896 and 1895 compare as follows:

STATISTICS OF EARNINGS AND EXPENSES.  
(Mexican Currency).

	1896.	1895.	Increase.	Decrease.
Average Miles operated.....	1,869 60	1,859 83	9 77	
Gross Earnings per Mile.....	\$5,460 00	\$5,105 77	\$354 23	
Operating Expenses per Mile.....	\$3,607 33	\$3,010 70	\$596 63	
Net Earnings per Mile.....	\$1,852 67	\$2,095 07		\$242 40
Percentage Expenses to Earnings.....	66 07	58 97	7 10	

#### MILEAGE.

The mileage of the road has been increased by the addition of the Ameca Extension, 55.41 miles, the Laguna Extension, 39.78 miles, and an extension of the main line at La Barra of 11 of a mile, a total of 105.99 miles; and the San Blas Division, 16.60 miles (referred to hereafter), has been deducted, a net addition to the mileage of 78.70 miles, making the total mileage of road on December 31, 1896, as follows:

Main Line, City of Mexico to Ciudad Juarez.....	1,224 16
Panlago Branch, City of Mexico to Santiago.....	1 40
Pacheca Branch, Tula to Pacheca.....	43 81
Guadalupe Branch, Eliao to Marfil.....	11 50
Guadalupe Branch, Tlapacote to Guadalupe.....	161 21
Ameca Extension, Guadalupe to Ameca.....	55 41
San Blas Division, Chicalote to Tampico.....	406 93
Branch to Compañia Metalurgica Mexicana Smelter S. L. Total.....	5 19
Bar Extension, Tampico to La Barra.....	6 21
Laguna Extension, Lerio to San Pedro.....	39 78

Total .....	1,955 60
Mileage of side tracks.....	157 95

Total mileage of all tracks.....2,113 61

Attached to the pamphlet report will be found a map showing the lines of the Mexican Central and other railroads in the Republic of Mexico.

#### EQUIPMENT.

The equipment list on Dec. 31, 1896, was as follows:

Locomotive Engines—	Combination....	16	Caboose.....	80
4 wheel.....	Bag, Mail & Exp	26		
6 ".....	Special.....	4	Tot. freight cars—	2,919
8 ".....	Officers.....	4	Sundry Cars—	
10 ".....	Pay.....	2	Water.....	74
Boiler.....			Water and coal..	4
Mogul.....	Tot. pass. cars—	120	Wrecking.....	10
Consolidation....	Freight Cars—		Pile driver.....	5
	Box.....	1,868	Steam shovel....	1
Tot'l locomot'v's	Stock.....	322	Ballast.....	40
Passenger Cars—	Wood.....	43	Steam derrick....	1
First class.....	Coal.....	245		
Second class....	Coke.....	75	Tot. s' dry cars..	135
Third class.....	Flat.....	286	Total cars.....	3,174

During the year nine new locomotive engines, two cabooses, fifty coal cars, fifty stock cars, one hundred and fifty-three box cars were added to the Equipment, and eleven freight cars were changed to water cars under the designation of "Sundry cars." There were also purchased, for account of the Equipment Fund, replacing condemned and destroyed equipment, one locomotive engine and nine caboose cars. At the end of 1896 the amount standing to the credit of Equipment Fund was sufficient to provide for all cars on the condemned and destroyed list at that date.

Notwithstanding the largely increasing business of the road from year to year, as shown by the statement of gross earnings, the additions to the equipment have been very light, and at no time has either the power or number of cars been adequate for the business to be handled. This has been more apparent during the past year with consequent increase in expenses for repairs to engines owing to too heavy service, and haulage of cars from place to place to meet requirements; and in 1896 we paid for use of foreign cars in excess of the amount received \$132,066 70, an increase of \$43,061 67 over the previous year. At the end of 1896 the equipment list shows a total of 161 locomotive engines and 2,919 freight cars, while at the end of 1892 we had 148 locomotive engines and 2,671 freight cars, an increase in four years of only 13 locomotive engines, or 8.79 per cent, and 248 freight cars, or 9.28 per cent, although in the same period the tonnage of commercial freight increased 48 per cent and the freight tons one mile increased 38 per cent.

In order to provide for the rapidly-growing needs of the company in this particular orders have been placed since the close of the year for 26 locomotive engines, 360 box cars, 290 coal cars, 75 stock cars and 25 cabooses.

## TAMPICO HARBOR.

No material change took place in the depth of water at the bar during the year. A good navigable channel was maintained, and the minimum depths at mean high tide at the close of the year were 27·2 feet on the outer bar and 24·8 feet on the old inner bar.

The beach at La Barra has become a popular pleasure resort for people from Tampico, and a very good passenger business is done between the two places. To increase this and also to provide accommodations for excursionists a pavilion and bath houses have been erected at La Barra, a small station building put up and the main line extended for a distance of 11 of a mile, the total cost of these improvements being \$3,469 18 United States currency.

A steam tug, the "Pannco," was purchased from private parties in Tampico during the year and refitted at a total cost of \$5,692 04 United States currency, making a valuable addition to the floating equipment.

The work on the new Custom House wharf and building at Tampico, the construction of which has been undertaken by the company on account of the Government, as stated in the last annual report, has been carried on during the year. The wharf has been completed and satisfactory progress made on the other parts of the work.

The following tabulation shows the value in Mexican currency of exports and imports through the ports of Tampico and Vera Cruz for the fiscal years ending June 30, 1896, and 1895:

<i>Tampico.</i>		<i>Vera Cruz.</i>	
Exports, 1896....	\$23,920,464	\$22,354,298	
Exports, 1895....	15,546,228	27,413,009	
	Increase.	\$8,374,236	Decrease. \$5,058,711
Imports, 1896....	\$8,685,442	\$15,296,544	
Imports, 1895....	3,642,007	16,123,505	
	Increase.	5,043,435	Decrease. \$26,961
Totals, 1896....	\$32,605,906	\$37,650,842	
Totals, 1895....	19,188,235	43,536,514	
	Increase.	\$13,417,671	Decrease. \$5,885,672

These figures show the remarkable improvement in business that has taken place at Tampico. In 1895 the total business through the two ports was \$62,724,749, of which 30·59 per cent was via Tampico, and in 1896 the total business amounted to \$70,256,748, of which 46·41 per cent was via Tampico, and while business through Tampico increased in 1896 \$13,417,671, or 69·93 per cent over 1895, the business through Vera Cruz decreased \$5,885,672, or 13·52 per cent.

The value of exports through all the ports of the Republic for the fiscal year ending June 30, 1896, amounted to \$105,016,902, of which \$43,520,261, or 41·44 per cent was through this Company's ports of El Paso and Tampico; and the value of the imports through all ports of the Republic for the same period amounted to \$42,253,938, of which \$11,362,967, or 26·89 per cent was through El Paso and Tampico, in addition to which a large amount of exports and imports through Eagle Pass was delivered to and received from the Mexican International Railroad, via Torreon.

The following is a statement of the cost in United States Currency of the Tampico Harbor Company works and property to December 31, 1896, all of which has been advanced by the Mexican Central Railway Company, Limited:

Preliminary expenses.....	\$3,299 38
General expenses.....	83,179 70
Engineering.....	77,132 34
Construction of jetties.....	2,048,658 94
Office and headquarters buildings.....	13,487 42
Wrecking and dredging.....	62,673 93
Real estate.....	44,153 43
Railroad extension to La Barra.....	222,711 83
Tracks at Dona Cecilia.....	28,831 72
Tracks at Tampico.....	4,539 56
Wharves and docks.....	86,673 81
Floating equipment.....	66,054 62
Bond interest.....	357,101 85
Subsidy expenses.....	1,822 80
	\$3,100,321 33

Less:  
Credit balance of miscellaneous interest account..... 163,398 34

Net cost..... \$2,936,922 99

Deduct—  
Tampico Harbor Company Terminal Mortgage 5 %  
Bonds received in settlement of advances to December  
31, 1893, amounting to..... \$2,769,563 07

Balance due Railway Company December 31, 1896.... \$167,359 92

for which a further issue of bonds can be made to the Railway Company in settlement.

## FINANCIAL.

The Income Accounts for the years 1896 and 1895, in United States Currency, compare as follows:

	1896.	1895.	Increase or Decrease.
Net earnings.....	\$1,841,515 62	\$2,063,156 99	Dec. \$221,641 37
Interest on Bonds and other charges, less Miscellaneous Interest.....	2,324,526 69	2,328,409 13	Dec. 3,882 44
Deficit.....	\$483,011 07	\$265,252 14	Inc. \$217,758 93

which was provided for in both years by amounts withdrawn from the Subsidy Trust Fund in accordance with the terms of the Trust Indenture. For the 1896 deficit only \$300,000 00 were withdrawn in that year, being all that was needed until after the first of January; but since then there has been withdrawn a further sum of \$161,228 88, making up the total deficit for the year, after deducting the credit

balance to Income Account at the end of 1895, amounting to \$21,782 19.

The maximum price at which the Company sold Mexican dollars in 1896 was 56 1-8 cents and the minimum was 50½ cents, the average for the year being 53·17 cents, as against 52·95 cents in 1895, an average increase of twenty-two one-hundredths of a cent.

The gain to the company in net earnings from this increase in the value of the dollar, amounted to \$8,989 68 U. S. Cy.; and there was also an appreciation in the value of the Mexican Currency Assets from the increased value of silver, amounting to \$3,697 52, making a total gain from this cause in the income for the year of \$12,687 20 U. S. Cy.

Under the Mexican Government Conversion Debt Law of September 6, 1894, the Company received during the year \$311,500, par value, Mexican currency, of Mexican Government Interior Redeemable Debt five per cent bonds, in settlement of balance due from the Government on Transportation and Telegraph Account to July 1, 1895. These were sold and the discount appears as a debit in Income Account.

The accounts for 1895 included only nine months' interest collected on the Tampico Harbor Subsidy Bonds, while in 1896 a full year's interest is included. This accounts for the decrease in the item of Tampico Harbor Company rental in Income Account.

The increase in the fixed charges is for interest on bonds issued in 1895 for the construction of the Ameca Extension, and in 1896 for the construction of the Laguna Extension and for general improvements.

The unfunded debt of the company at the close of 1896 remains the same as in 1895, viz., \$1,000,000. This was incurred by reason of the cost of the Tampico Harbor works exceeding the estimates. It has not been funded because it has been found less expensive to carry it as an unfunded debt than to sell the company's securities to extinguish it at the prices which have obtained during the last five years. The debt is due to the Subsidy Trust Fund and is secured by deposit of part of the Tampico Harbor Company terminal mortgage 5 per cent bonds, all of which are owned by the Mexican Central Company. The Tampico Harbor Company bonds, in addition to the property of that company, are secured by collateral of \$2,932,900, par value, Mexican currency of Mexican Government Interior Redeemable Debt 5 per cent bonds, received as subsidy on the Tampico Harbor works. If these Mexican Government bonds were sold at current quotations, as could be done at any time under the provisions of the mortgage, and the money used by the trustee to purchase from the Mexican Central Company Tampico Harbor Company mortgage bonds, the sale would place in the treasury of the Mexican Central Company over \$1,200,000, U. S. currency, a sum sufficient to pay off the floating debt of \$1,000,000 and leave a balance of over \$200,000, U. S. currency, for other uses.

The following is the statement of the Subsidy Trust Fund for the year 1896:

STATEMENT OF SUBSIDY TRUST FUND, BOSTON SAFE DEPOSIT & TRUST CO., TRUSTEE, FOR THE YEAR 1896.  
(United States Currency).

Balance in hands of Trustee Dec. 31, '95. \$3,377,120 40  
Interest received during the year 1896.. 176,024 30 \$3,553,144 70

Less—  
Trustee's compensation one year to Dec.  
1, 1896..... \$2,500 00  
Am't withdrawn from Fund and paid to  
Company, in accordance with terms  
of Trust Indenture..... 300,000 00 302,500 00

Balance in hands of Trustee Dec. 31, '96. \$3,250,644 70

The amount of interest collected for account of the Trust during the year was..... \$176,024 30  
Less Trustee's compensation..... 2,500 00

Showing the net income of the Trust during the year 1896 to have been..... \$173,524 30  
an average rate of 5·14 per cent.

At the time the settlement of the Subsidy was made with the Government, \$6,122,646 37 of the proceeds were invested in Priority Mortgage Five per cent Bonds to the par value of \$5,597,000 00. This is an investment by the Trustee for the same purposes as the Subsidy Trust Fund, amounting, as stated above, to \$3,250,644 70, so that the security at the end of 1896 for the payment of the interest on the Consolidated Mortgage Bonds amounted to \$9,373,291 07. It has been customary in previous reports to show these two items separately in the Balance Sheet, but they are now embraced under one heading.

## IN GENERAL.

In order to protect its cotton business and other important interests in competition with the Mexican International Railroad, it was considered necessary by the directors for the Company to construct a branch from Lerdo into the Laguna cotton country. Work was commenced during the summer and completed on December 31st, to San Pedro, a distance of 39·78 miles. To provide for this Extension, and also for additional water facilities and other general improvements, \$800,000 of the Consolidated Mortgage Bonds in the Treasury were sold.

The \$1,800,000 of Consolidated Mortgage 4 per cent Bonds sold in 1895 and 1896 are the only securities the Company has sold since 1892, and cover the construction of the Ameca and Laguna Extensions, 95·19 miles in length, additions to the equipment and various improvements and betterments made in the last four years.
